OKLO

# Oklo Projects Across the United States

Building a scalable nuclear platform for energy, fuel, and isotopes.

**7 Active Projects | 4 States**

- **1 NRC-Approved Facility**
- **3 Power Projects**
- **3 Isotope Facilities**
- **2 Fuel Facilities**
- **4 DOE Program Projects**

## Project Sites

### IDAHO

- POWER | Aurora – INL Commercial (DOE Reactor Pilot Program)
- FUEL | Aurora Fuel Fabrication Facility (DOE Advanced Nuclear Fuel Line Pilot Program)
- R&D | Idaho Falls Test Facility
- ISOTOPES | Multi-Reactor Isotopes Foundry
- ISOTOPES | Radiochemistry Laboratory (NRC-approved facility)

### OHIO

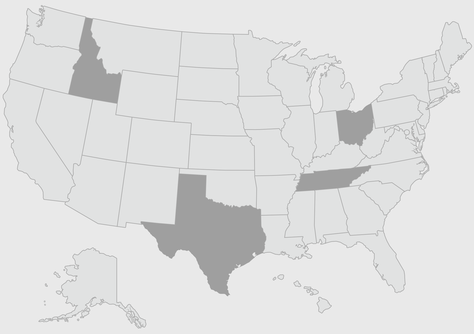
- POWER | Clean Energy Campus

### TEXAS

- ISOTOPES | Groves Isotopes Test Reactor (DOE Reactor Pilot Program)

### TENNESSEE

- FUEL | Advanced Fuel Center



## DOE Reactor Pilot Program — Oklo Project Progress

### Power

**IDAHO**

Aurora powerhouse

Regulatory Review for Construction & Operation

- ✓ Other Transaction Agreement
- ✓ Nuclear Safety Design Agreement
- 3 Preliminary Documented Safety Analysis
- 4 Documented Safety Analysis
- 5 Readiness Review & Startup Approval

Aurora Commercial License Transfer (NRC)

- 1 NRC Audit of DOE Authorization Activities
- 2 License Request Review & Approval

### Fuel

**IDAHO**

Aurora Fuel Fabrication Facility

- ✓ Nuclear Safety Design Agreement
- ✓ Preliminary Documented Safety Analysis
- 3 Documented Safety Analysis
- 4 Readiness Review & Startup Approval

### Isotopes

**TEXAS**

Groves Isotopes Test Reactor

- ✓ Other Transaction Agreement
- ✓ Nuclear Safety Design Agreement
- 3 Preliminary Documented Safety Analysis
- 4 Documented Safety Analysis
- 5 Readiness Review & Startup Approval
