Pitney Bowes Collaborates with Sign In App to Help Businesses Plan Return to Office

HATFIELD, UK, April 8th, 2021 – Pitney Bowes Inc. (NYSE: PBI), a global technology company that provides commerce solutions in the areas of ecommerce, shipping, mailing and financial services, today announced a collaboration with Sign In App which will see it deliver Spaces, a new desk and meeting room booking solution ideal for businesses currently planning a safe return to office.

As research finds 89% of UK businesses expect hybrid working to become permanent, organisations are rethinking the workplace. Fewer employees are expected to attend offices five days a week, and businesses are challenged with finding new ways to optimise the workspace. Spaces is the latest addition to smart SaaS-based software solution, Sign In App, which is specifically designed to address this. The user-friendly, mobile-optimised software facilitates capacity management in real-time, allowing businesses of any size to:

- Keep track of who is expected on site
- Monitor capacity and see how workspaces are being used
- Set limits to ens**ure they never exceed site capacity**
- **Enable employees** to plan and book their workplace visit for maximum productivity, by booking parking spaces, desks, breakout areas, conference rooms and meeting rooms

Sign In App's Spaces is the latest addition to the portfolio of next-generation technologies, features and capabilities delivered by Pitney Bowes which simplify commerce and help businesses thrive.

"For over a hundred years we've been firmly committed to helping our clients succeed, with unique solutions that allow them to improve their productivity and deliver the best customer experience," said Ryan Higginson, Vice President & UK/ROI Country Leader, Pitney Bowes. "During the past 12 months, our connected technologies - particularly our SaaS solutions – have helped organisations continue to deliver business-critical operations, despite the huge uncertainties and interruptions many have faced. Collaborating with Sign In App means we can support businesses on the next phase of their journey, with visitor management software that helps them reopen their business safely whenever they choose to do so and complements our existing family of innovative technologies."

As well as benefiting from Pitney Bowes' century of experience, businesses have access to its flexible finance agreements, making it simpler for companies to rethink their workplaces without adding pressure to their cashflow.

Dan Harding, CEO Sign In App said, "Spaces is the latest add-on to Sign In App, which aims to help businesses get back to work safely and reimagine the way we work. With our full visitor management and staff sign in solution, organisations can easily manage site capacity, embrace hybrid working and meet health and safety requirements".

Sign In App's popular Visitor Management Tracking, also available through Pitney Bowes, transforms the sign-in experience for employees and visitors. With contactless sign-in via QR codes, Visitor Management Tracking has a selection of features which help businesses meet health and safety requirements, including customisable health declarations and the ability to upload negative test results or vaccination certificates.
