

Investor Presentation

Quarter Ended September 30, 2023

November 2, 2023

NASDAQ: GECC

Forward Looking Statement

Statements in this communication that are not historical facts are "forward-looking" statements within the meaning of the federal securities laws. These statements are often, but not always, made through the use of words or phrases such as "expect," "anticipate," "should," "will," "estimate," "designed," "seek," "continue," "upside," "potential," "preliminary" and similar expressions. All such forward-looking statements involve estimates and assumptions that are subject to risks, uncertainties and other factors that could cause actual results to differ materially from the results expressed in the statements. Among the key factors that could cause actual results to differ materially from those projected in the forward-looking statements are: conditions in the credit markets, rising interest rates, inflationary pressure, the price of GECC common stock, and the performance of GECC's portfolio and investment manager. Information concerning these and other factors can be found in GECC's Annual Report on Form 10-K and other reports filed with the Securities and Exchange Commission ("SEC"). GECC assumes no obligation to, and expressly disclaims any duty to, update any forward-looking statements contained in this communication or to conform prior statements to actual results or revised expectations except as required by law. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof.

You should consider the investment objective, risks, charges and expenses of GECC carefully before investing. GECC's filings with the SEC contain this and other information about GECC and are available by contacting GECC at the phone number and address at the end of this presentation. The SEC also maintains a website that contains the aforementioned documents. The address of the SEC's website is http://www.sec.gov. These documents should be read and considered carefully before investing.

The performance, distributions and financial data contained herein represent past performance, distributions and results and neither guarantees nor is indicative of future performance, distributions or results. Investment return and principal value of an investment will fluctuate so that an investor's shares may be worth more or less than the original cost. GECC's market price and net asset value will fluctuate with market conditions. Current performance may be lower or higher than the performance data quoted. All information and data, including portfolio holdings and performance characteristics, is as of September 30, 2023, unless otherwise noted, and is subject to change.

This presentation does not constitute an offer of any securities for sale.

Third Quarter 2023 Overview

Net Investment Income ("NII")

NII of $3.1 million, or $0.40 per share in 3Q 23, vs. $3.4 million, or $0.44 per share in 2Q 23

- Third consecutive quarter of NII more than covering the dividend
- Highest cash income quarter in company's history
- NII includes $0.05 per share of charges related to debt refinancing

Assets

Net assets rose to $97.9 million, or $12.88 per share, vs. $92.9 million, or $12.21 per share (2Q 23)

- Asset coverage ratio improved to 168.4% vs. 161.5% (2Q 23)
- Debt-to-equity ratio improved to 1.46x vs. 1.63x (2Q23)

Distribution

Our Board approved a distribution for the quarter ending December 31, 2023 at a rate of $0.35 per share. The distribution equates to:

- 16% annualized yield on the Company's closing market price on November 1, 2023 of $8.88
- 11% annualized yield on the Company's September 30, 2023 NAV of $12.88 per share

©2023 Great Elm Capital Corp.

Quarterly Cash Distributions
Quarter Ending December 31, 2023

$0.35
Per Share

On November 2, 2023, the Company announced that its Board of Directors approved a quarterly cash distribution of $0.35 per share for the quarter ending December 31, 2023

December 29
Payable Date

The fourth quarter 2023 cash distribution will be payable on December 29, 2023, to stockholders of record as of December 15, 2023

16%
Annualized Dividend Yield on Stock Price

The cash distribution equates to a 16% annualized dividend yield on our closing market price of $8.88 on November 1, 2023

11%
Annualized Dividend Yield on NAV

The cash distribution equates to an 11% annualized dividend yield on our September 30, 2023 NAV of $12.88 per share

About GECC

Great Elm Capital Corp.

Externally managed, total-return-focused BDC

Significant insider ownership of GECC by GEG and its officers and directors

Investment Objective

To generate current income and capital appreciation by investing in debt and income generating equity securities, including actively pursuing investments in specialty finance businesses

Portfolio Overview

- $235.4 million of portfolio fair value
- $97.9 million of net asset value ("NAV")
- Debt investments carry a weighted average current yield of 13.4%[1]
- 57 investments (45 debt, 12 equity) in 42 companies across 23 industries[2]

[1] Weighted average current yield is based upon the stated coupon rate and fair value of outstanding debt securities at the measurement date.
[2] Excluding investments in SPACs with a Fair Market Value of less than $0.1 million as of 9/30/2023.

©2023 Great Elm Capital Corp.

Net Investment Income (NII)

NII for the quarter ended September 30, 2023 was $3.1 million, or $0.40 per share[1], compared to NII of $3.4 million, or $0.44 per share[1], for the quarter ended June 30, 2023

- Refinancing items impacted NII by $0.3 million, or $0.05 per share[1] in the September 30, 2023 quarter

[1] Based on weighted average shares outstanding 7.6 million for the quarters ended September 30, 2023 and June 30, 2023.

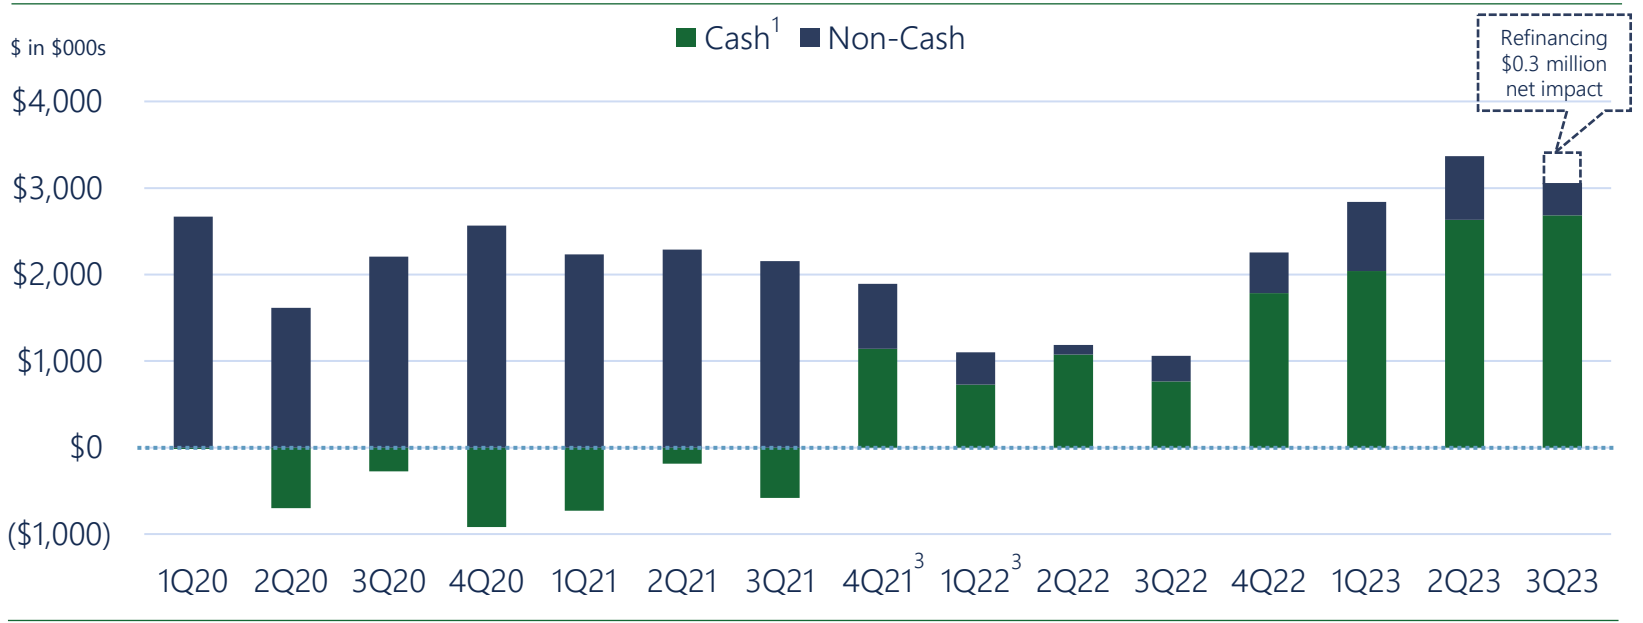
[2] 4Q 21 removes the expense reversal of approximately $5.2 million and 1Q 22 removes the fee waiver of approximately $4.9 million.

©2023 Great Elm Capital Corp.

Cash NII[1]

Great Elm CAPITAL CORP

Highest Cash NII[1] in the Company's history totaling $2.7 million, or $0.35 per share[2]

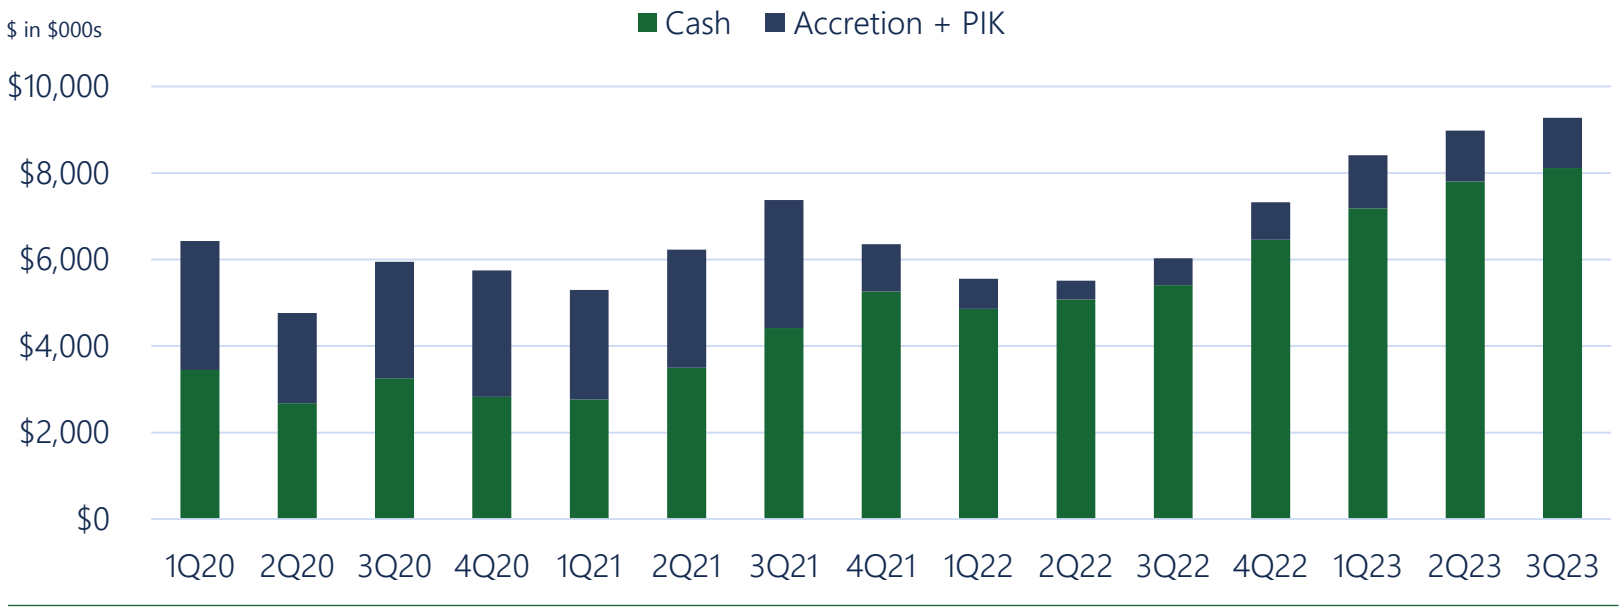


[1] Cash NII = Total Investment Income (-) accretion of OID income (-) PIK income (-) interest expense exclusive of amortization of debt issuance discounts (-) opex (-) base management fee (-) [incentive fee (X) cash TII mix].
[2] Based on weighted average shares outstanding of 7.6 million for the quarter ended September 30, 2023.
[3] 4Q 21 removes the expense reversal of approximately $5.2 million and 1Q 22 removes the fee waiver of approximately $4.9 million.

©2023 Great Elm Capital Corp.

Total Investment Income (TII)

TII for the quarter ended September 30, 2023 was $9.3 million and was the highest cash income quarter in the Company's history



©2023 Great Elm Capital Corp.

Great Elm Specialty Finance

©2023 Great Elm Capital Corp.

Increasing Focus in Specialty Finance

The Specialty Finance Platform continues to expand across the "Continuum of Lending"

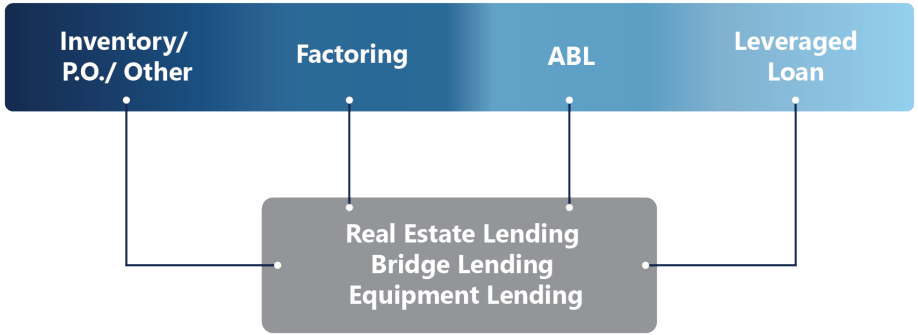
Equity ownership in Specialty Finance Companies (SFCs) generates two levels of proprietary investment exposure for investors:

- We believe direct investments in SFCs are largely uncorrelated to the broader syndicated credit market and have the potential to offer attractive risk-adjusted returns
- Ability for GECC to participate directly in underlying transactions originated by SFCs

Multiple SFCs owned by one operating company will leverage institutional permanent capital and generate natural referral sources, creating a competitive advantage for the businesses

GESF's growth strategy incorporates building equity stakes in each of the key specialty finance categories across the "Continuum of Lending" as SFCs are challenged from the lack of client "stickiness."

- SMBs by their nature are either growing or shrinking (and potentially going out of business)
- SFCs must continually find new clients as existing clients outgrow the platform, get acquired, or shut down
- We intend to combat this issue by investing in a number of different SFCs along the "Continuum of Lending"



©2023 Great Elm Capital Corp.

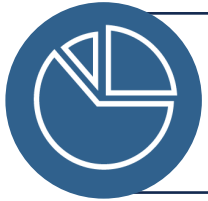
Continuum of Lending Benefits

A “Continuum of Lending” platform provides significant benefits

The Continuum allows lenders to improve “stickiness” of clientele and hold onto key borrowers longer

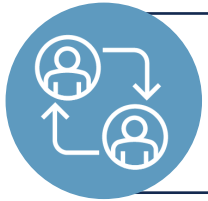
By having a Continuum of Lending platform, we will be able to offer borrowers economic incentives to stay within the Great Elm family

The Continuum provides an ideal platform to cross-sell products and services to borrowers



The Continuum allows for customer acquisition costs to be spread across platforms

By adding one-stop shop / complementary loan products, we enhance our ability to hold onto profitable relationships longer, across the lending continuum



The Continuum provides an incentive within all Specialty Finance verticals to refer business and work collaboratively

©2023 Great Elm Capital Corp.

Specialty Finance Focus and Execution

Utilizing a 3-pronged approach to build out its specialty finance platform

1 Acquisitions

Actively source complimentary acquisition opportunities to build out our platform, expand its continuum of lending strategy and add complementary lines of business

2019	**Prestige** Factoring
2022	**Sterling Commercial Credit** Asset-Based Lending Platform

2 Strategic Relationships

Increase deal flow to the GESF family through strategic relationships

- **Assist third-party platforms** by providing capital that allows for larger deal execution
- **Form strategic partnerships** with banks by providing last-out financing on ABLs or with targeted groups (i.e., liquidation firms)
- **Build specialized businesses** with experienced equity partners (e.g., Berkadia and **Great Elm Healthcare Finance** in 2022)

3 Direct Originations

Proprietary originations send a clear message to the market that GESF is an active player in the asset backed and specialty finance industry

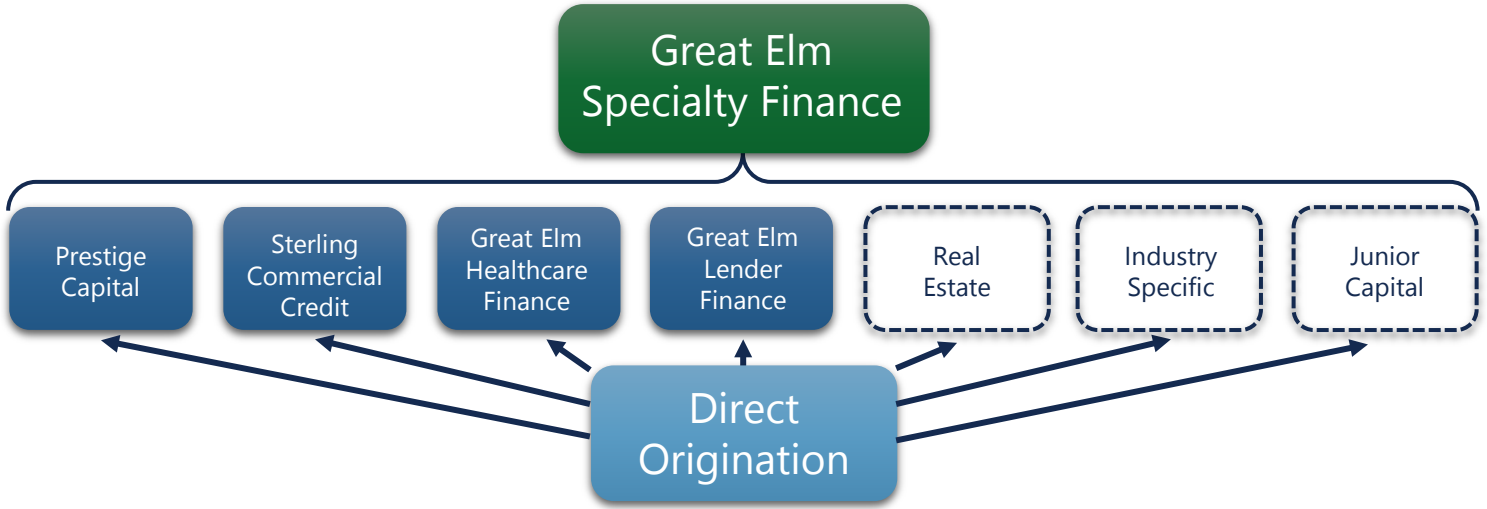
- **Proprietary deal flow** provides currency that encourages strategic partnerships
- **Direct originations** provide compelling risk-adjusted opportunities on a standalone basis

©2023 Great Elm Capital Corp.

Great Elm Specialty Finance

Great Elm Specialty Finance ("GESF") is a subsidiary of GECC formed to oversee Specialty Finance investments and all future specialty finance acquisitions, strategic partnerships, and direct origination opportunities

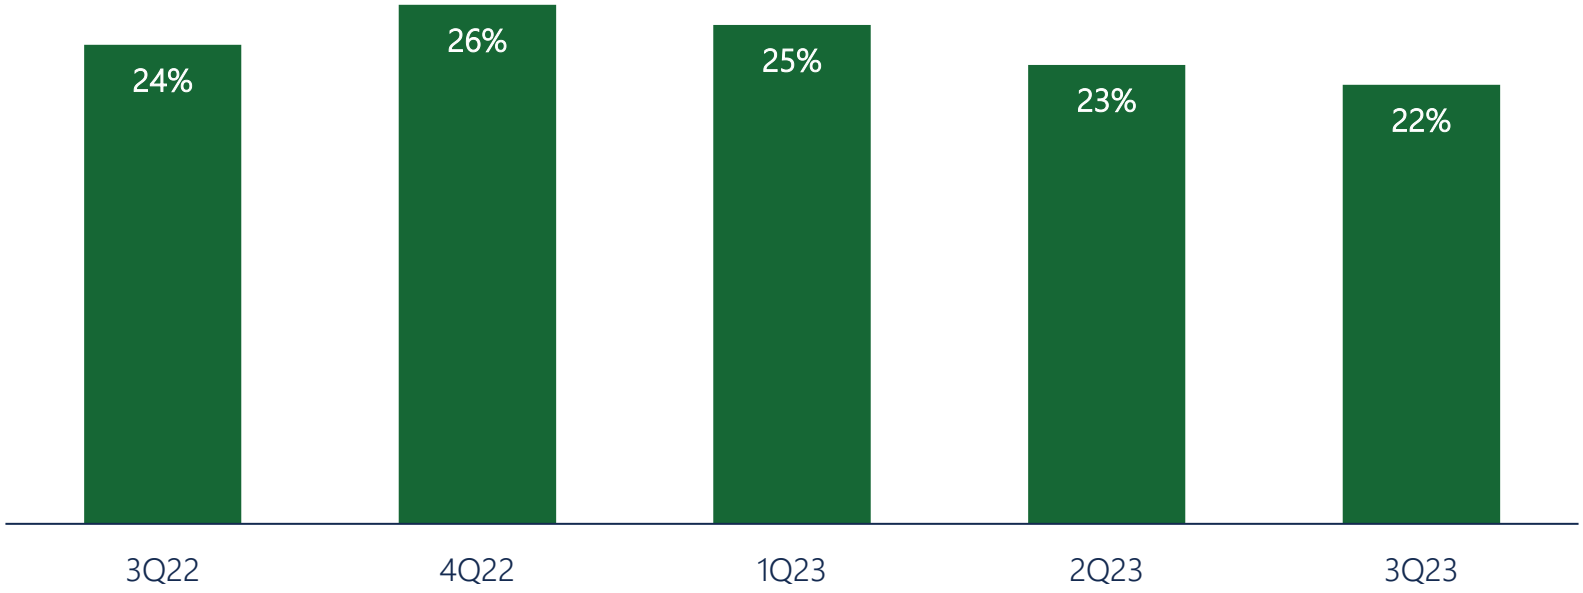
- GESF oversees existing platforms – shaded below
- Other areas into which we may look to expand – dotted outline
- Direct Origination is critical as these efforts will provide deal flow for all of our specialty finance verticals



©2023 Great Elm Capital Corp.

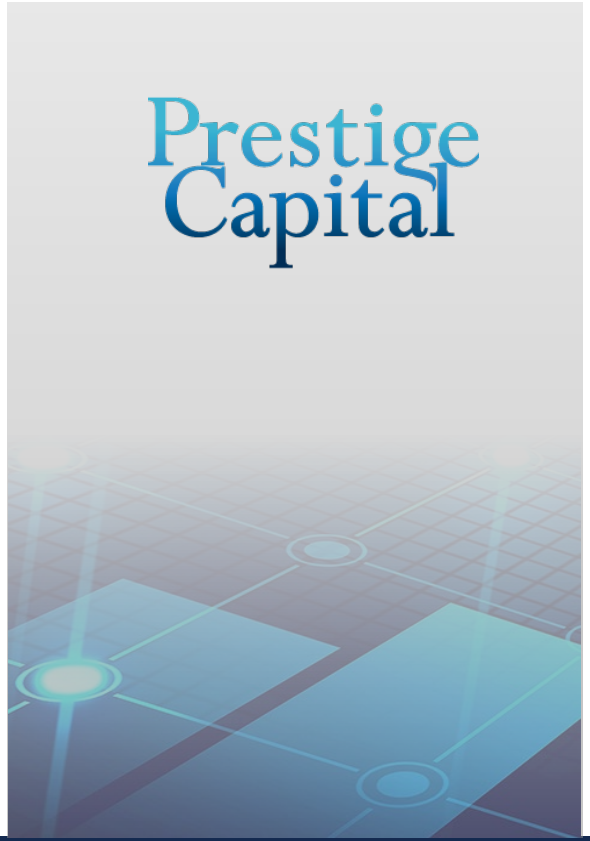
GECC Specialty Finance

Specialty Finance as a Percentage of Investment Portfolio



©2023 Great Elm Capital Corp.

GESF: Prestige Capital



Provider of "spot factoring" services, providing clients with opportunities to sell individual accounts receivable for upfront payments

Functional

Prestige purchases the individual accounts receivable of creditworthy companies from its clients. It typically advances 75%-85% of the receivable to the client upfront and remits the rest to the client (less Prestige's fee) upon payment of the receivable

Risk Management

The combination of clients' capital needs and receivables from creditworthy counterparties allows Prestige to consistently underwrite profitable business while taking limited corporate credit risk

Diversified Customer Base

Prestige's clients are generally unable to access traditional bank financing to meet their capital needs but have accounts receivable from creditworthy companies

Experienced

Over 30 years in business and through $6+ billion of transactions factored, Prestige has a track record of strong credit underwriting with minimal losses

©2023 Great Elm Capital Corp.

GESF: Sterling Commercial Credit

Provider of asset-based loans to small and middle market companies throughout the United States

Direct Lending Solution

Sterling provides short term, asset-based loans and working capital solutions to small businesses with annual sales typically between $3 Million and $100 Million.

Seasoned Team

Sterling has an executive team with over 150 years experience in bank and non-bank environments.

Sterling's seasoned Back Office strives for "best in class" execution and has experienced monitoring and asset management capabilities that can be leveraged across the entire Great Elm Specialty Finance platform.

Diversified Products

Sterling offers a variety of product types to meet client needs such as:

- ABL revolvers secured by:
  - Accounts receivables
  - Inventory
- Term loans + lines of credit secured by:
  - Equipment
  - Commercial real estate
- Unitranche loans
- Senior Stretch and Junior Capital to augment borrowing capacity

©2023 Great Elm Capital Corp.

GESF: Great Elm Healthcare Finance

Formed and funded in November 2022 in partnership with Berkadia

- Acquired a portfolio of loans in December 2022
- Building a robust pipeline of proprietary deal flow
- Closed $50m committed credit facility (with uncommitted $50m accordion) with Encina Lender Finance to fund growth of active pipeline

Experienced Management

- Over 100 years of collective expertise
- Experienced building successful healthcare lending platforms
- Focus on capital preservation

Robust Underwriting

- Asset driven focus
- Emphasis on operations and collateral
- Proprietary risk-rating system

Portfolio Management

- Rigorous monitoring & Regular testing
- Continuous relationship maintenance
- Disciplined oversight and management

Nationwide Lending Focus

Use of Funds:

Refinancing existing debt, growth capital, working capital, acquisitions, restructuring, mezzanine financing, DIP financing, and capital expenditures

Industries:

- Skilled Nursing
- Hospital & Medical Centers
- Home Care & Hospice
- Behavioral Health
- Other Ancillary Services
- Assisted Living
- Independent Living
- Emergent Care & Outpatient Facilities
- Pharmacy and Labs
- Other Facility Based Providers

©2023 Great Elm Capital Corp.

GESF: Great Elm Lender Finance

GESF is in the process of creating a new lender finance platform, focused on participation opportunities that present definable downside protection while leveraging existing specialty finance infrastructure

Business Focus

- Participations with other lenders that Great Elm has relationships with
- Participations in deals originated by other GESF businesses: Sterling Commercial Credit, Prestige Capital, and Great Elm Healthcare Finance
- Participations in other credit opportunities

Risk Management

- A "Credit First" platform which will be bolstered by stringent underwriting and portfolio standards
- Sterling will be the Servicer for GELF, providing provide back-office operations support, as well as underwriting and portfolio management support

General Risks

Debt instruments are subject to credit and interest rate risks.

Credit risk refers to the likelihood that an obligor will default in the payment of principal or interest on an instrument. Financial strength and solvency of an obligor are the primary factors influencing credit risk. In addition, lack or inadequacy of collateral or credit enhancement for a debt instrument may affect its credit risk. Credit risk may change over the life of an instrument, and debt instruments that are rated by rating agencies are often reviewed and may be subject to downgrade. Our debt investments either are, or if rated would be, rated below investment grade by independent rating agencies. These "junk bonds" and "leveraged loans" are regarded as having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. They may be illiquid and difficult to value and typically do not require repayment of principal before maturity, which potentially heightens the risk that we may lose all or part of our investment.

Interest rate risk refers to the risks associated with market changes in interest rates. Interest rate changes may affect the value of a debt instrument indirectly (especially in the case of fixed rate obligations) or directly (especially in the case of an instrument whose rates are adjustable). In general, rising interest rates will negatively impact the price of a fixed rate debt instrument and falling interest rates will have a positive effect on price. Adjustable rate instruments also react to interest rate changes in a similar manner although generally to a lesser degree (depending, however, on the characteristics of the reset terms, including the index chosen, frequency of reset and reset caps or floors, among other factors).

GECC utilizes leverage to seek to enhance the yield and net asset value of its common stock. These objectives will not necessarily be achieved in all interest rate environments. The use of leverage involves risk, including the potential for higher volatility and greater declines of GECC's net asset value, fluctuations of dividends and other distributions paid by GECC and the market price of GECC's common stock, among others. The amount of leverage that GECC may employ at any particular time will depend on, among other things, our Board's and our adviser's assessment of market and other factors at the time of any proposed borrowing.

As part of our lending activities, we may purchase notes or make loans to companies that are experiencing significant financial or business difficulties, including companies involved in bankruptcy or other reorganization and liquidation proceedings. Although the terms of such financings may result in significant financial returns to us, they involve a substantial degree of risk. The level of analytical sophistication, both financial and legal, necessary for successful financing to companies experiencing significant business and financial difficulties is unusually high. We cannot assure you that we will correctly evaluate the value of the assets collateralizing our investments or the prospects for a successful reorganization or similar action. In any reorganization or liquidation proceeding relating to a portfolio company, we may lose all or part of the amounts advanced to the borrower or may be required to accept collateral with a value less than the amount of the investment advanced by us to the borrower.
