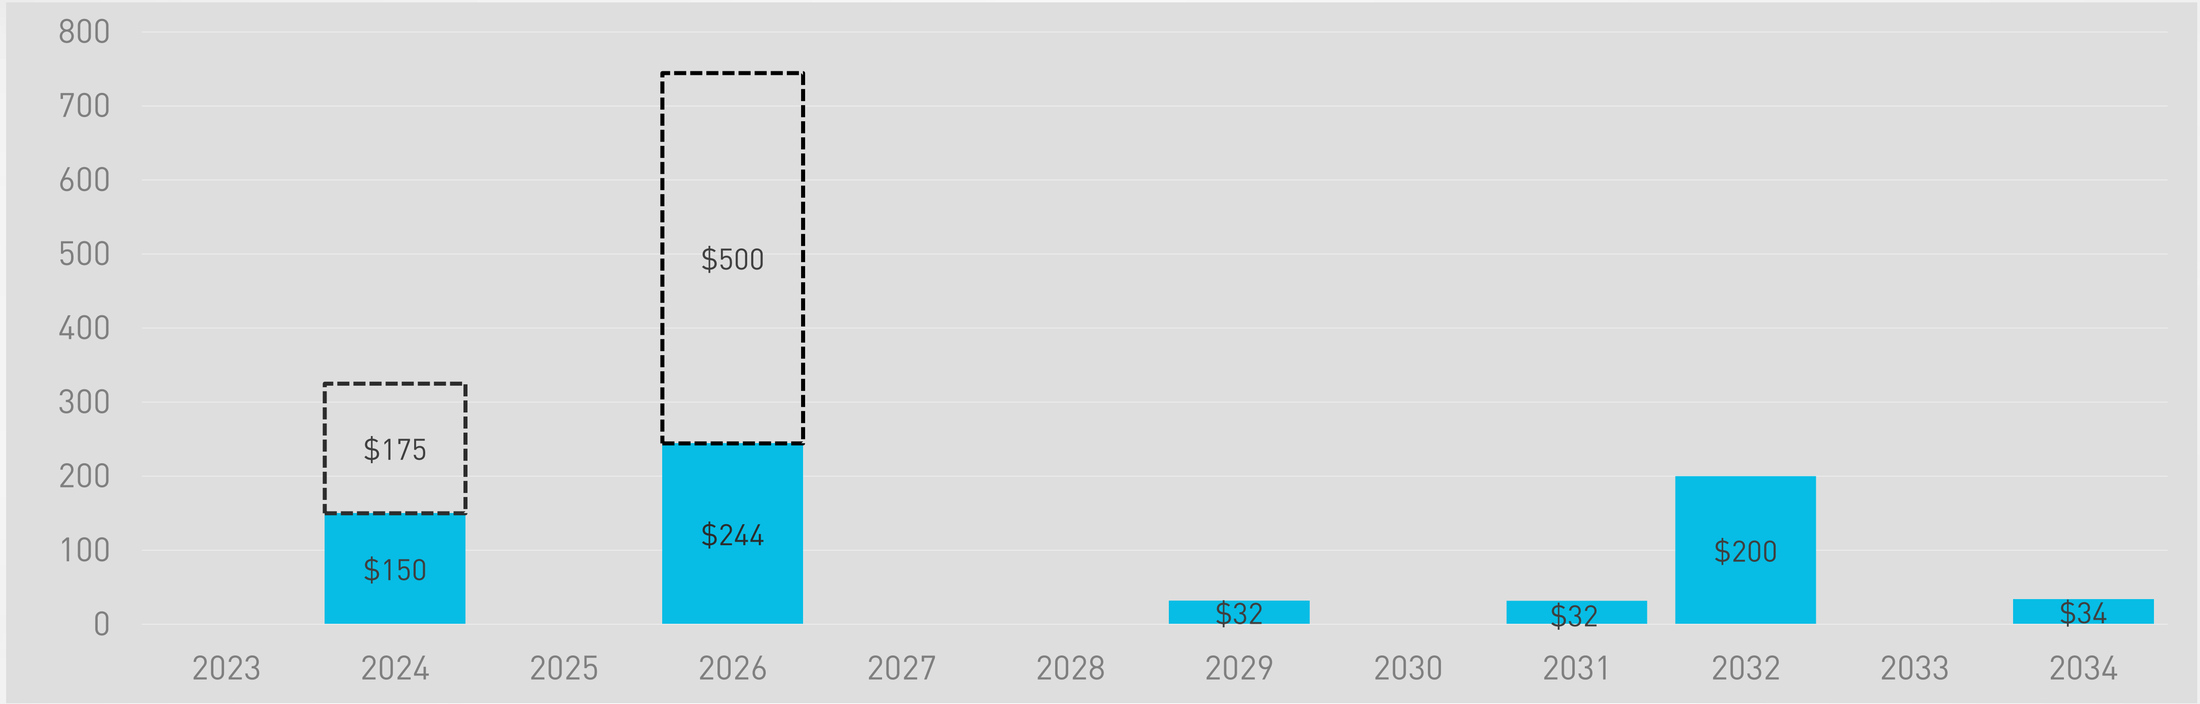
FINANCIAL GOALS

- INCREASE MARGINS / DECREASE ASSET INTENSITY
- REDUCE EARNINGS VOLATILITY
- MODEST LEVERAGE / AMPLE LIQUIDITY (INVESTMENT GRADE)
- BALANCED CAPITAL ALLOCATION
- RIGOROUS CAPITAL DISCIPLINE

STRONG CAPITAL STRUCTURE & LIQUIDITY

Strong balance sheet with investment grade credit ratings and significant liquidity available enables financial flexibility and shareholder returns

Corporate credit ratings: BBB / Baa2



Debt Maturity

FLOATING RATE		A/R Facility*		Revolver* S+1.25%							
FIXED RATE		Private Placement 4.60%		Public Bond 4.55%		€ Private Placement 1.56%		€ Private Placement 1.82%	Public Bond 4.30%		€ Private Placement 1.90%

** A/R Securitization Facility and Revolving Credit Facility were undrawn as of 05/31/2023*

BALANCED

CAPITAL ALLOCATION STRATEGY

Strong cash flows and significant liquidity support balanced approach to capital allocation focused on growth and rewarding shareholders

CAPITAL EXPENDITURES

- ✓ Reinvest in the business to create value and support growth
- ✓ FY2023 CapEx of $86.4 million

ACQUISITIONS

- ✓ Focus on core businesses and selectively grow into new markets
- ✓ Focus on higher margin / high cash flow businesses

DIVIDENDS

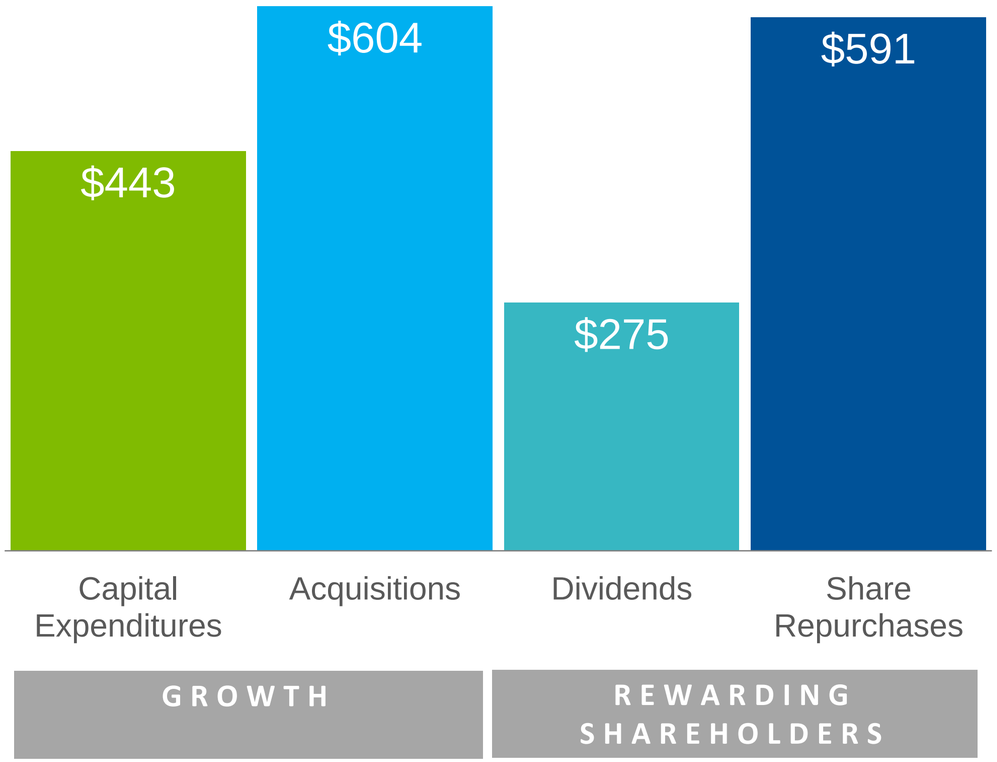
- ✓ Dividend paid quarterly since becoming a public company in 1968
- ✓ Thirteen consecutive years of dividend increases

SHARE REPURCHASES

- ✓ Opportunistic approach has reduced share count 28% over past 10 years
- ✓ 6.1 million shares remaining on authorization

OVER $1.9 BILLION OF CAPITAL DEPLOYED IN PAST 5 YEARS SINCE START OF FY2019

($ millions)



*Information based on financials since FY2019 through Q4 FY2023

CONSOLIDATED RESULTS

*Adjusted for restructuring and non-recurring items. See supplemental data schedules in appendix for reconciliation of adjustments.

UPDATE ON SEPARATION INTO TWO MARKET-LEADING, INDEPENDENT PUBLIC COMPANIES

On September 29th, 2022, Worthington Industries announced plans to separate its Steel Processing business, unlocking value by creating a new standalone public company

Transaction Rationale

- Transaction will create two distinct, market-leading companies that are more specialized and fit-for purpose, with enhanced prospects for growth and value creation
- Separation expected to enhance shareholder value
- Post-transaction, both businesses will be well positioned for success and future growth

Pro-Forma Structure

- Pro rata distribution of Worthington Steel stock, which is expected to be tax-free to shareholders for U.S. federal income tax purposes
- Worthington Steel to become publicly traded company that will be owned by Worthington Industries' then-current shareholders
- Both companies expected to be well capitalized and positioned for growth

Timing & Approvals

- Internal Project Separation Planning teams have been established, project plans defined, and work well underway
- Transaction targeted to be completed by early 2024
- Subject to, among other things, market conditions, finalization of the capital structure of the two companies, completion of steps to qualify transaction as tax-free, and final approval by Worthington Industries Board of Directors

This plan is referred to as "Worthington 2024" and a dedicated area of our website has been established to provide regular updates with more information as it is available at: www.WorthingtonIndustries.com/W24

NOTES TO INVESTORS

FORWARD LOOKING STATEMENTS. Worthington Industries, Inc. (the "Company" or "Worthington") wishes to take advantage of the Safe Harbor provisions included in the Private Securities Litigation Reform Act of 1995 (the "Act"). Statements by the Company relating to the intended separation of Worthington's Steel Processing business; the timing and method of the separation; the anticipated benefits of the separation; the expected financial and operating performance of, and future opportunities for, each company following the separation; the tax treatment of the transaction; the leadership of each company following the separation; and other non-historical matters constitute "forward-looking statements" within the meaning of the Act. Forward-looking statements may be characterized by terms such as "believe," "anticipate," "should," "would," "intend," "plan," "will," "expect," "estimate," "project," "positioned," "strategy," "targets," "aims," "seeks," "sees" and similar expressions. Because they are based on beliefs, estimates and assumptions, forward-looking statements are inherently subject to risks and uncertainties that could cause actual results to differ materially from those projected. Any number of factors could affect actual results, including, without limitation, the final approval of the separation by our board of directors; the uncertainty of obtaining regulatory approvals in connection with the separation, including rulings from the Internal Revenue Service; the ability to satisfy the necessary closing conditions to complete the separation on a timely basis, or at all; our ability to successfully separate the two companies and realize the anticipated benefits of the separation; the risks, uncertainties and impacts related to the COVID-19 pandemic – the duration, extent and severity of which is impossible to predict, including the possibility of future resurgence in the spread of COVID-19 or variants thereof – and the availability, effectiveness and acceptance of vaccines, and other actual or potential public health emergencies and actions taken by governmental authorities or others in connection therewith; the effect of national, regional and global economic conditions generally and within major product markets, including significant economic disruptions from COVID-19, the actions taken in connection therewith and the implementation of related fiscal stimulus packages; the effect of conditions in national and worldwide financial markets, including inflation and increases in interest rates, and with respect to the ability of financial institutions to provide capital; the impact of tariffs, the adoption of trade restrictions affecting the Company's products or suppliers, a United States withdrawal from or significant renegotiation of trade agreements, the occurrence of trade wars, the closing of border crossings, and other changes in trade regulations or relationships; changing oil prices and/or supply; product demand and pricing; changes in product mix, product substitution and market acceptance of the Company's products; volatility or fluctuations in the pricing, quality or availability of raw materials (particularly steel), supplies, transportation, utilities, labor and other items required by operations (especially in light of COVID-19 and Russia's invasion of Ukraine); the outcome of adverse claims experience with respect to workers' compensation, product recalls or product liability, casualty events or other matters; effects of facility closures and the consolidation of operations; the effect of financial difficulties, consolidation and other changes within the steel, automotive (especially in light of the semi-conductor shortages), construction and other industries in which the Company participates; failure to maintain appropriate levels of inventories; financial difficulties (including bankruptcy filings) of original equipment manufacturers, end-users and customers, suppliers, joint venture partners and others with whom the Company does business; the ability to realize targeted expense reductions from headcount reductions, facility closures and other cost reduction efforts; the ability to realize cost savings and operational, sales and sourcing improvements and efficiencies, and other expected benefits from transformation initiatives, on a timely basis; the overall success of, and the ability to integrate, newly-acquired businesses and joint ventures, maintain and develop their customers, and achieve synergies and other expected benefits and cost savings therefrom; capacity levels and efficiencies, within facilities, within major product markets and within the industries in which the Company participates as a whole; the effect of disruption in the business of suppliers, customers, facilities and shipping operations due to adverse weather, casualty events, equipment breakdowns, labor shortages (especially in light of the COVID-19 pandemic), interruption in utility services, civil unrest, international conflicts (especially in light of Russia's invasion of Ukraine), terrorist activities or other causes;

NOTES TO INVESTORS

changes in customer demand, inventories, spending patterns, product choices, and supplier choices; risks associated with doing business internationally, including economic, political and social instability (especially in light of Russia's invasion of Ukraine), foreign currency exchange rate exposure and the acceptance of the Company's products in global markets; the ability to improve and maintain processes and business practices to keep pace with the economic, competitive and technological environment; the effect of inflation and interest rate increases, which may negatively impact the Company's operations and financial results; deviation of actual results from estimates and/or assumptions used by the Company in the application of its significant accounting policies; the level of imports and import prices in the Company's markets; the impact of environmental laws and regulations or the actions of the United States Environmental Protection Agency or similar regulators which increase costs or limit the Company's ability to use or sell certain products; the impact of increasing environmental, greenhouse gas emission and sustainability regulations; the impact of judicial rulings and governmental regulations, both in the United States and abroad, including those adopted by the United States Securities and Exchange Commission ("SEC") and other governmental agencies as contemplated by the Coronavirus Aid, Relief and Economic Security (CARES) Act, the Consolidated Appropriations Act, 2021, the American Rescue Act of 2021, and the Dodd-Frank Wall Street Reform and the Consumer Protection Act of 2010; the effect of healthcare laws in the United States and potential changes for such laws, especially in light of the COVID-19 pandemic which may increase the Company's healthcare and other costs and negatively impact the Company's operations and financial results; the effect of tax laws in the U.S. and potential changes for such laws, which may increase the Company's costs and negatively impact its operations and financial results; cyber security risks; the effects of privacy and information security laws and standards; and other risks described from time to time in the filings of Worthington Industries, Inc. with the SEC, including those described in "Part I — Item 1A. — Risk Factors" of Worthington's Annual Report on Form 10-K for the fiscal year ended May 31, 2022, and its subsequent filings with the SEC. Forward-looking statements should be construed in the light of such risks. Readers are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date made. Worthington does not undertake, and hereby disclaim, any obligation to update any forward-looking statements, whether as a result of new information, future developments or otherwise.

NON-GAAP MEASURES. While Worthington Industries reports its results in accordance with generally accepted accounting principles in the United States, or GAAP, certain statements made in these materials include or make reference to adjusted EBITDA, a "non-GAAP" measure. This measure is included to provide investors additional useful information regarding Worthington Industries' financial results and is not a substitute for its comparable GAAP measure. An explanation of this non-GAAP measure, and a reconciliation of this non-GAAP measure to its most directly comparable GAAP measure, is included in the Appendix. Descriptions of this and many of our other non-GAAP measures are also included in Worthington Industries' SEC reports.

USE OF CERTAIN TERMS. As used in these materials:

The term "Adjusted EBITDA" is defined as Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization, and consists of EBITDA (calculated by adding or subtracting, as appropriate, interest expense, income tax expense and depreciation and amortization to/from net earnings attributable to controlling interest), which is further adjusted to exclude impairment and restructuring charges (gains) as well as other items that management believes are not reflective of, and thus should not be included when evaluating the performance of its ongoing operations.
