Exhibit 99.2

EQUITY BANCSHARES, INC.

First Quarter 2023 Earnings Presentation

4/19/2023

Forward Looking Statements

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements reflect the current views of the management of Equity Bancshares, Inc. ("Equity", "we", "us", "our, "company") with respect to, among other things, future events and Equity's financial performance. These statements are often, but not always, made through the use of words or phrases such as "may," "should," "could," "predict," "potential," "believe," "will likely result," "expect," "continue," "will," "anticipate," "seek," "estimate," "intend," "plan," "project," "forecast," "goal," "target," "would" and "outlook," or the negative variations of those words or other comparable words of a future or forward-looking nature. These forward-looking statements are not historical facts, and are based on current expectations, estimates and projections about Equity's industry, management's beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond Equity's control. Accordingly, Equity cautions you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions and uncertainties that are difficult to predict. Although Equity believes that the expectations reflected in these forward-looking statements are reasonable as of the date made, actual results may prove to be materially different from the results expressed or implied by the forward-looking statements. Factors that could cause actual results to differ materially from Equity's expectations include COVID-19 related impacts; competition from other financial institutions and bank holding companies; the effects of and changes in trade, monetary and fiscal policies and laws, including interest rate policies of the Federal Reserve Board; changes in the demand for loans; fluctuations in value of collateral and loan reserves; inflation, interest rate, market and monetary fluctuations; changes in consumer spending, borrowing and savings habits; and acquisitions and integration of acquired businesses; and similar variables. The foregoing list of factors is not exhaustive.

For discussion of these and other risks that may cause actual results to differ from expectations, please refer to "Cautionary Note Regarding Forward-Looking Statements" and "Risk Factors" in Equity's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 9, 2023, and any updates to those risk factors set forth in Equity's subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K. If one or more events related to these or other risks or uncertainties materialize, or if Equity's underlying assumptions prove to be incorrect, actual results may differ materially from what Equity anticipates. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made, and Equity does not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law. New risks and uncertainties arise from time to time, such as COVID-19, and it is not possible for us to predict those events or how they may affect us. In addition, Equity cannot assess the impact of each factor on Equity's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. All forward-looking statements, expressed or implied, included in this press release are expressly qualified in their entirety by this cautionary statement. This cautionary statement should also be considered in connection with any subsequent written or oral forward-looking statements that Equity or persons acting on Equity's behalf may issue.

NON-GAAP FINANCIAL MEASURES

This presentation contains certain non-GAAP financial measures intended to supplement, not substitute for, comparable GAAP measures. Reconciliations of non-GAAP financial measures to GAAP financial measures are provided at the end of this presentation. Numbers in the presentation may not sum due to rounding.

Our Company

Committed to our Entrepreneurial Spirit

Equity Bancshares, Inc.

NASDAQ: EQBK

Start-Up: 2002 - 2007

Brad Elliott, current Chairman and CEO, founded Equity Bancshares, Inc. in 2002.

- ✓ Completed 5 branch or whole bank acquisitions
- ✓ Opened 2 branches in Missouri

Growth: 2008 - 2016

- ✓ Opened branches in Lee's Summit & Overland Park, Kansas
- ✓ Acquired Ellis State Bank
- ✓ $8.8MM of TARP issued and repaid with SBLF
- ✓ $20.0MM Capital Raise
- ✓ Purchased 4 branches from Citizens Bancshares (Topeka)
- ✓ $20.4MM Capital Raise
- ✓ Acquired First Community Bancshares
- ✓ Rationalized branch map, 3 closures, 1 opening

Years at Equity: <1 | Years in Banking: 23

- Previously served in a variety of risk management leadership positions for JP Morgan Chase, State Street Corporation and Santander

John Creech

EVP, Chief Credit Officer

Years at Equity: 1 | Years in Banking: 20

- Previously served as Chief Credit Policy and Administration Officer for Synovus Bank

Long Term Key Strategic Objectives

Grow Tangible Book Value

- Efficiently grow core earnings
- Effectively deploy capital through share repurchases, dividends and whole bank m&a while maintaining strong capital ratios

Maximize Risk Adjusted Return on Assets

- Re-mix cash flows into higher yielding instruments funded with low-cost core deposits
- Achieve 15% + ROATCE & 1.5% PTPP ROA

Offer best-in-class banking products and services

- Invest in people, systems, and technology
- Tailor products to meet customers needs
- Deliver services through high quality, relationship-based delivery channels

Drive organic fee income generation

- Optimize revenue composition with 30% fee income to total revenue
- Explore diversification of earnings through strategic acquisitions of fee-based revenue businesses

Q1 2023 Financial Highlights

Balance sheet strength through market adversity

Net Income

$12.3M

Diluted EPS

$0.77

Total Deposits

$4.3B

Gross Loans

$3.3B

- Net Interest Margin of **3.44**%
- Loan yield of **5.94**%
- Cost of interest-bearing liabilities of **1.98**%

- Loan growth of **$19.1** million, or **2.3**% annualized

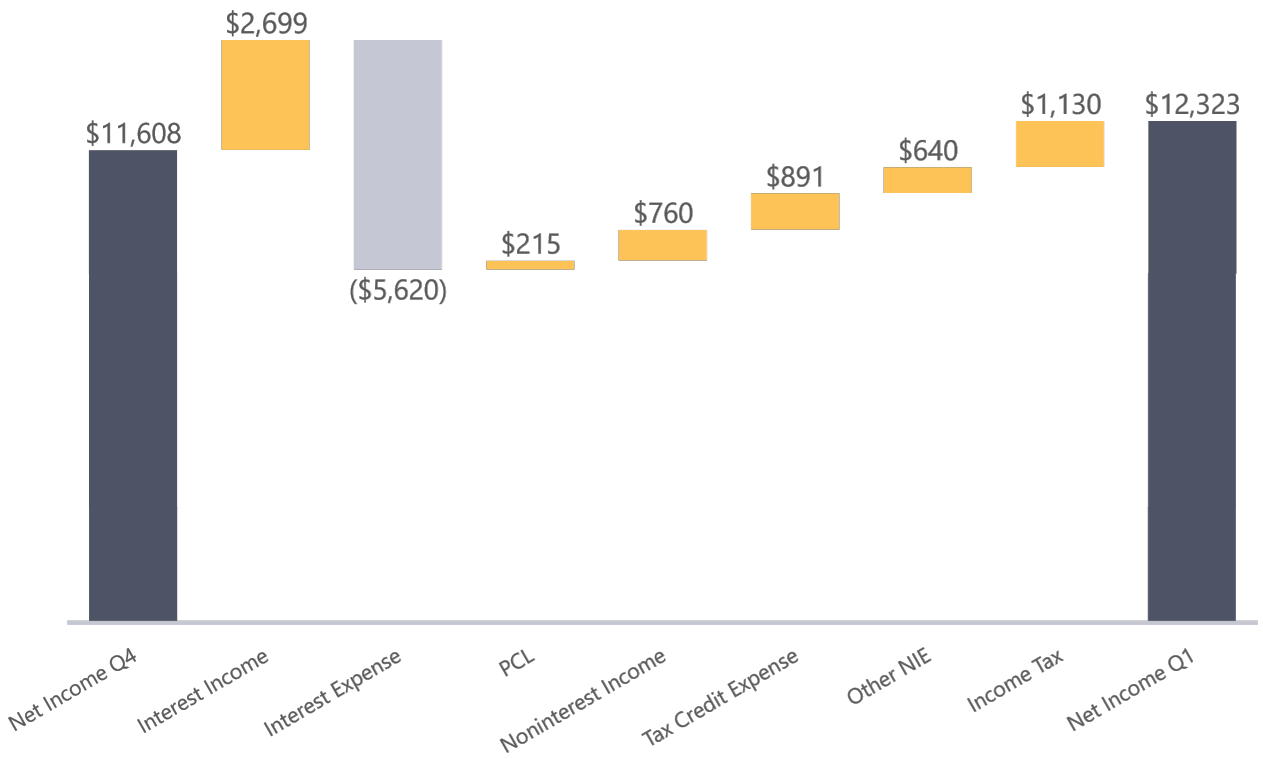
- Diluted EPS of $**0.77**
- Net Income of $**12.3** million
- Total revenue of $**48.2** million

- ROAA of **1.00**%, PTPP ROAA of **1.18**%(1), ROATCE of **14.89**%(1)
- TCE / TA of **7.09**%(1), TCE excluding AOCI / TA of **8.90**%(1)

(1) Non-GAAP financial measure. Refer to the non-GAAP reconciliation at the end of this presentation.

Net Income Walk

Drivers of Net Income Change Period over Period



Net Income Drivers

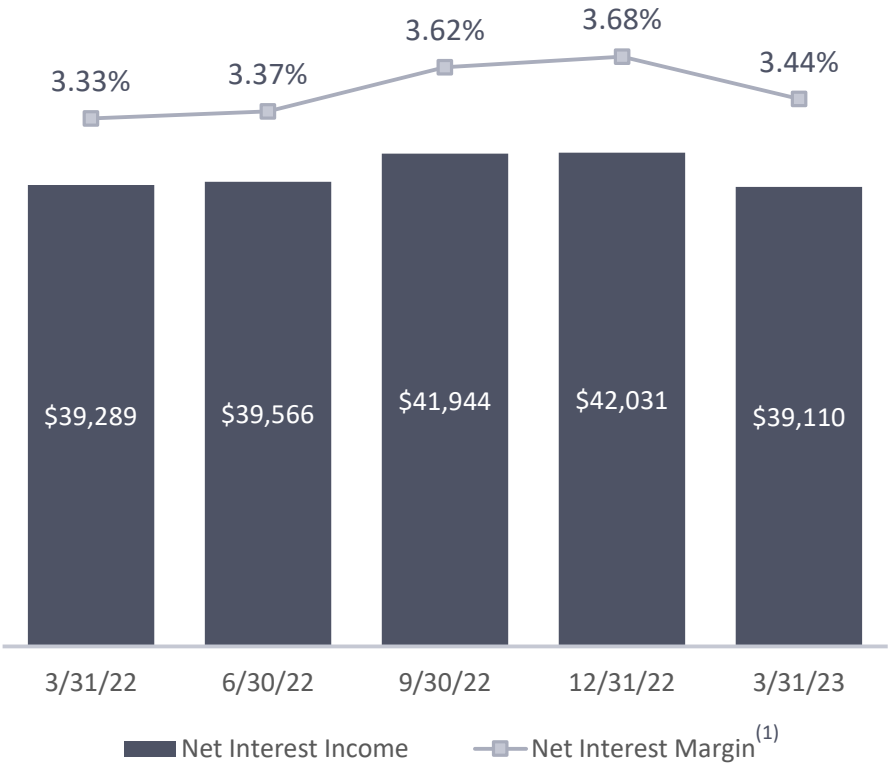
Net Interest Income
Net Interest decreased $2.9 million as the Company as we saw pressure on cost of funds. Actions that took place during the quarter to bolster liquidity we net interest income neutral.

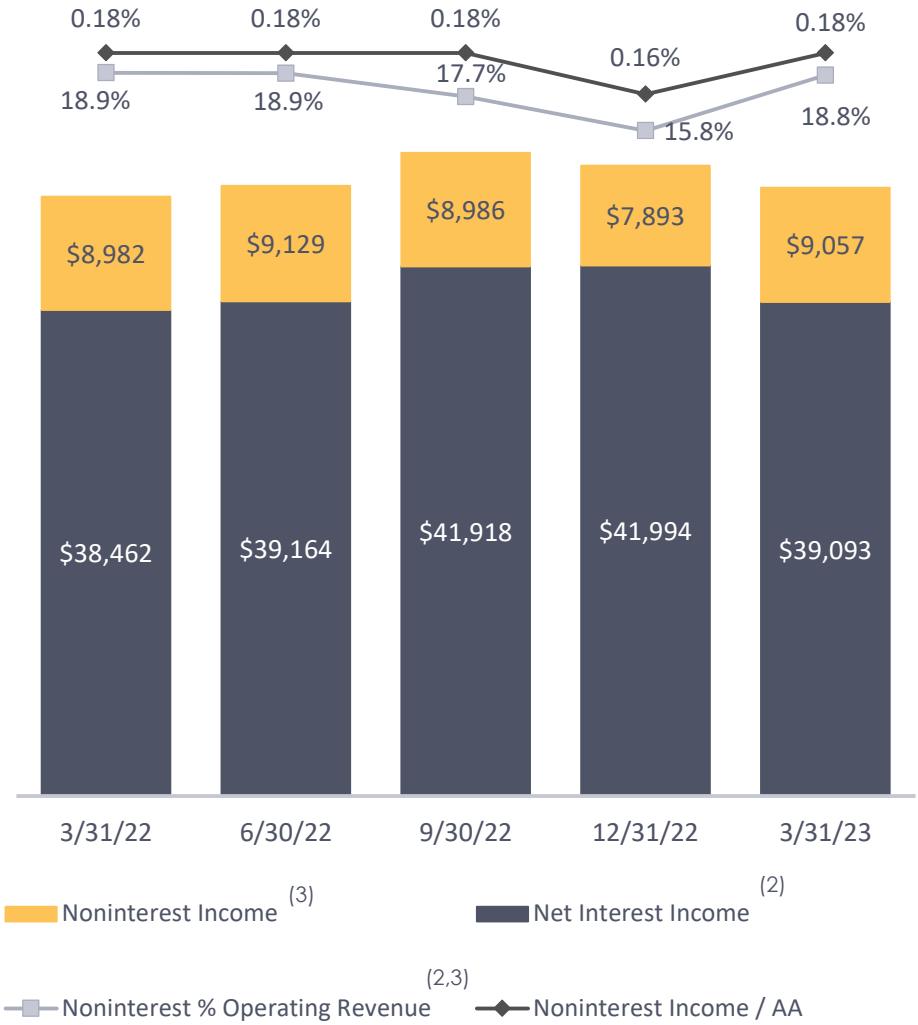
Noninterest Income
Noninterest income increased $760 thousand linked quarter, with credit card income up $50 thousand, derivative gain down $260 thousand and an increase in the value of bank owned life insurance of $825 thousand driven by a one-time death benefit of $834 thousand.

Noninterest Expense
Noninterest expense was driven down $1.5 million, as tax credit expense improved $891 thousand due to rate normalization as well as Advertising and Business Development and Data Processing Expense down meaningful linked quarter.

Revenue Trends

Quarterly Results





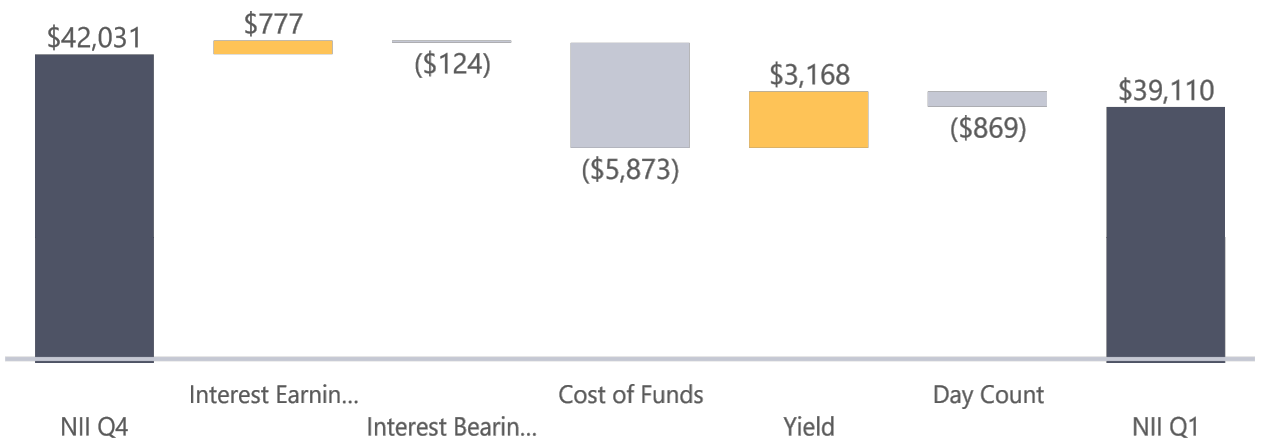
(1) Excludes the impact of PPP loans. Including these balances in first, second, third, fourth quarter 2022 and first quarter 2023 results would be 3.38%, 3.39%, 3.62%, 3.67% and 3.44% respectively.

(2) Excludes the impact of PPP loans. Including these balances in first, second, third, fourth quarter 2022 and first quarter 2023 results would be $39,289, $39,566, $41,944, $42,031 and $39,110 respectively.

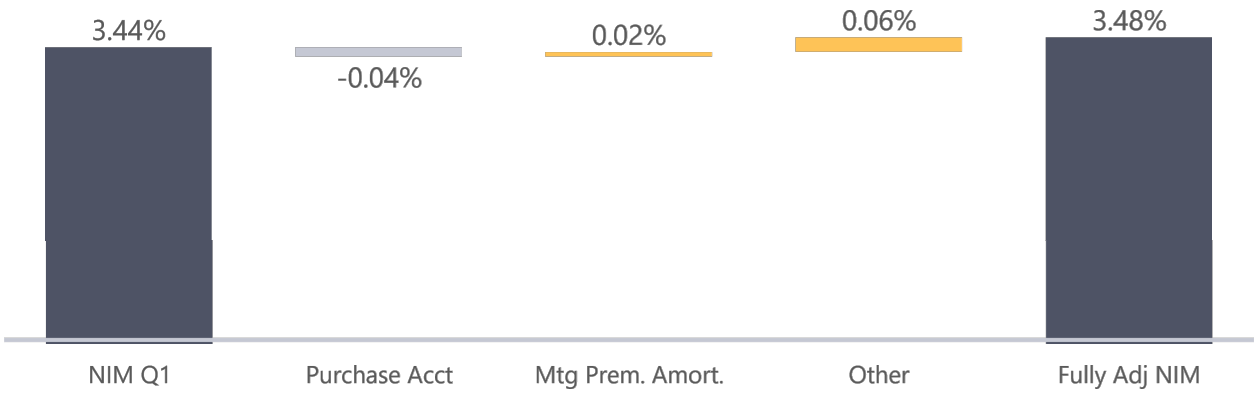
(3) Excludes the impact of net gain on acquisition and branch sales and net gain / (loss) on securities transactions. Including these balances in the first, second, third, fourth quarter 2022 and first quarter 2023 results would be $9,022, $9,637, $8,969, $8,329 and $9,089 respectively

Net Interest Income

Net Interest Income Period over Period



Adjusted First Quarter NIM



Key Net Interest Income Drivers

+ Non-Interest Bearing Deposits
Non-interest bearing deposits constitute 24% of total deposits.

+ Loan Yield
Loan yield is up 35bps linked quarter, as we continue to originate higher yielding credits and benefit from repricing of adjustable rates

Rate Protection
Proactive effort to book variable rate assets subject to floor levels.

Repositioning of Investment Portfolio Cash Flow
The Bank will continue to pursue re-mixing investment portfolio cash flows into higher yielding loans

– Cost of Deposits
Cost of interest-bearing deposits increased 68bps in the quarter

Excess Liquidity
Excess on balance sheet liquidity was net interest income neutral but was a drag on net interest margin

Yield / Cost Components

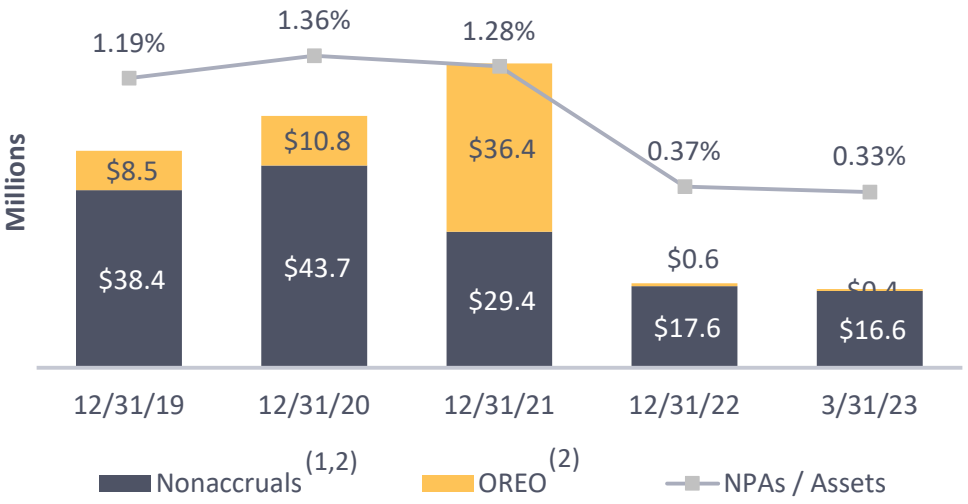
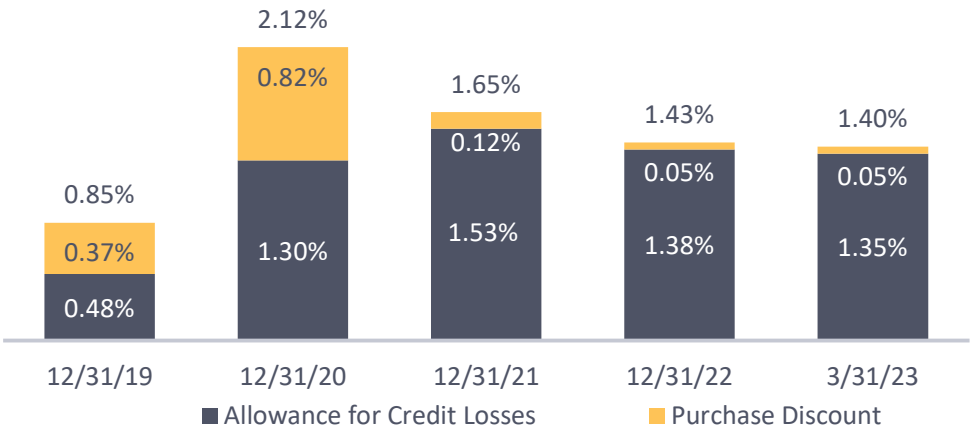
(2) Dollars in millions.

Asset Quality Trends – Annual

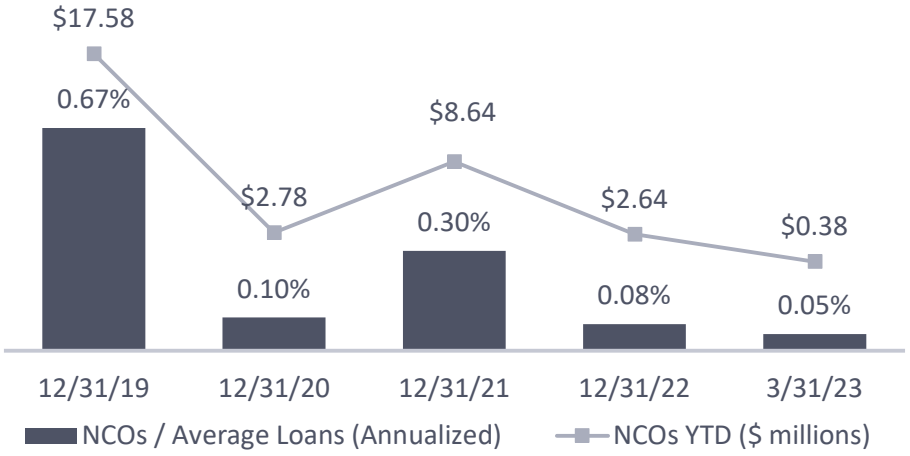
Nonperforming Assets



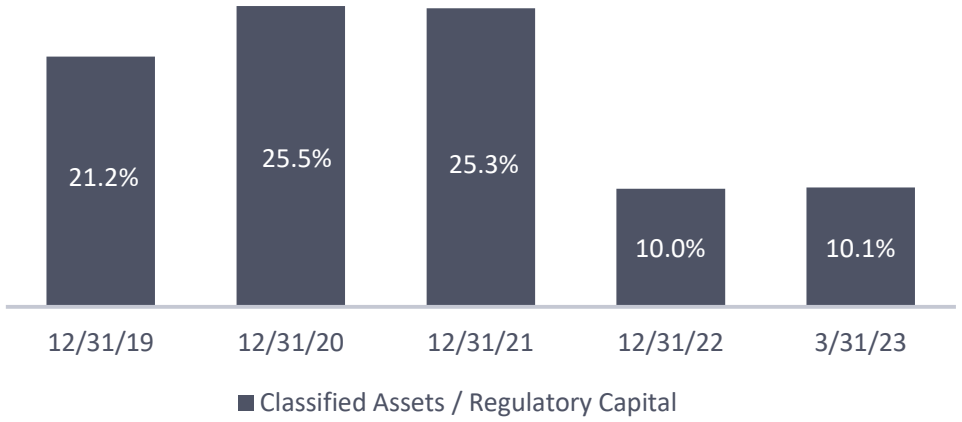
Total Reserve Ratio



Net Charge-Offs (NCO) / Average Loans



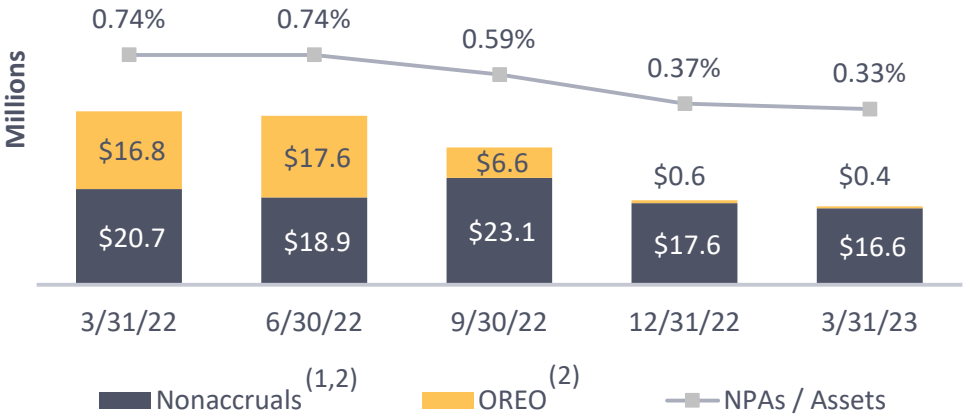
Classified Assets



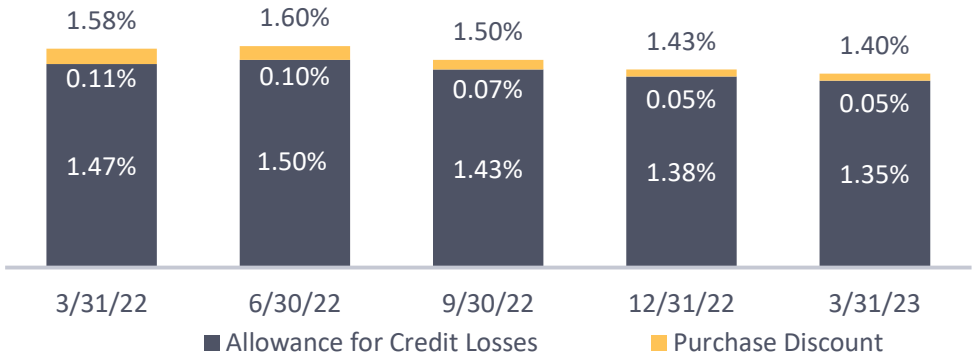
(1) Includes loans 90+ days past due which are not highlighted in the table.
(2) Excludes Bank owned branch assets, totaling $4.2M, classified as Other Real Estate Owned within the Statements of Condition.

Asset Quality Trends - Quarterly

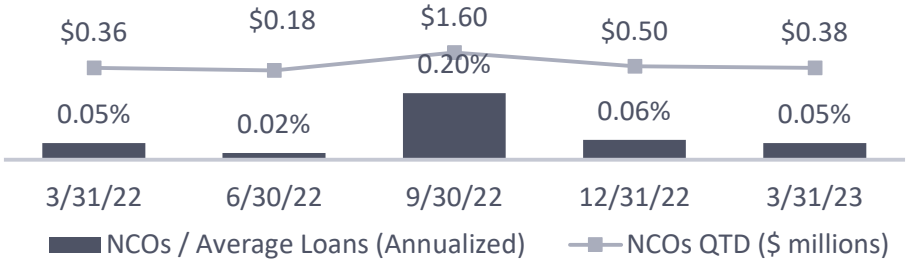
Nonperforming Assets



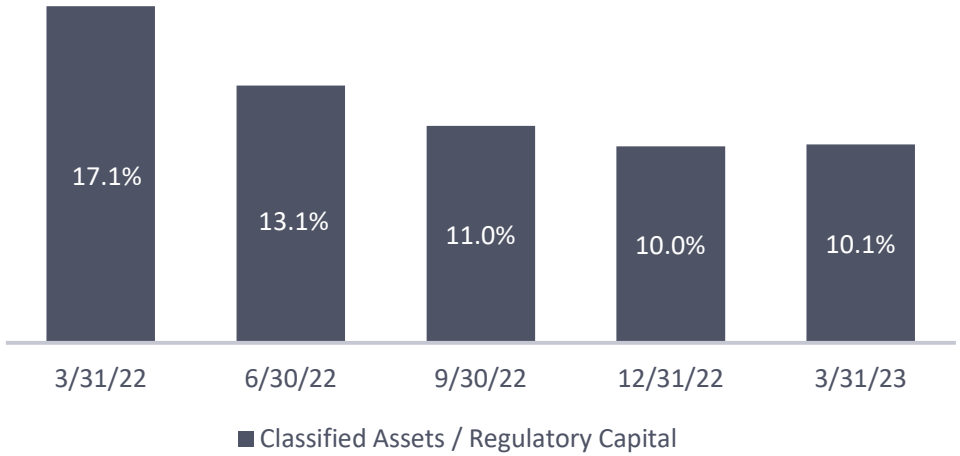
Total Reserve Ratio



Net Charge-Offs (NCO) / Average Loans

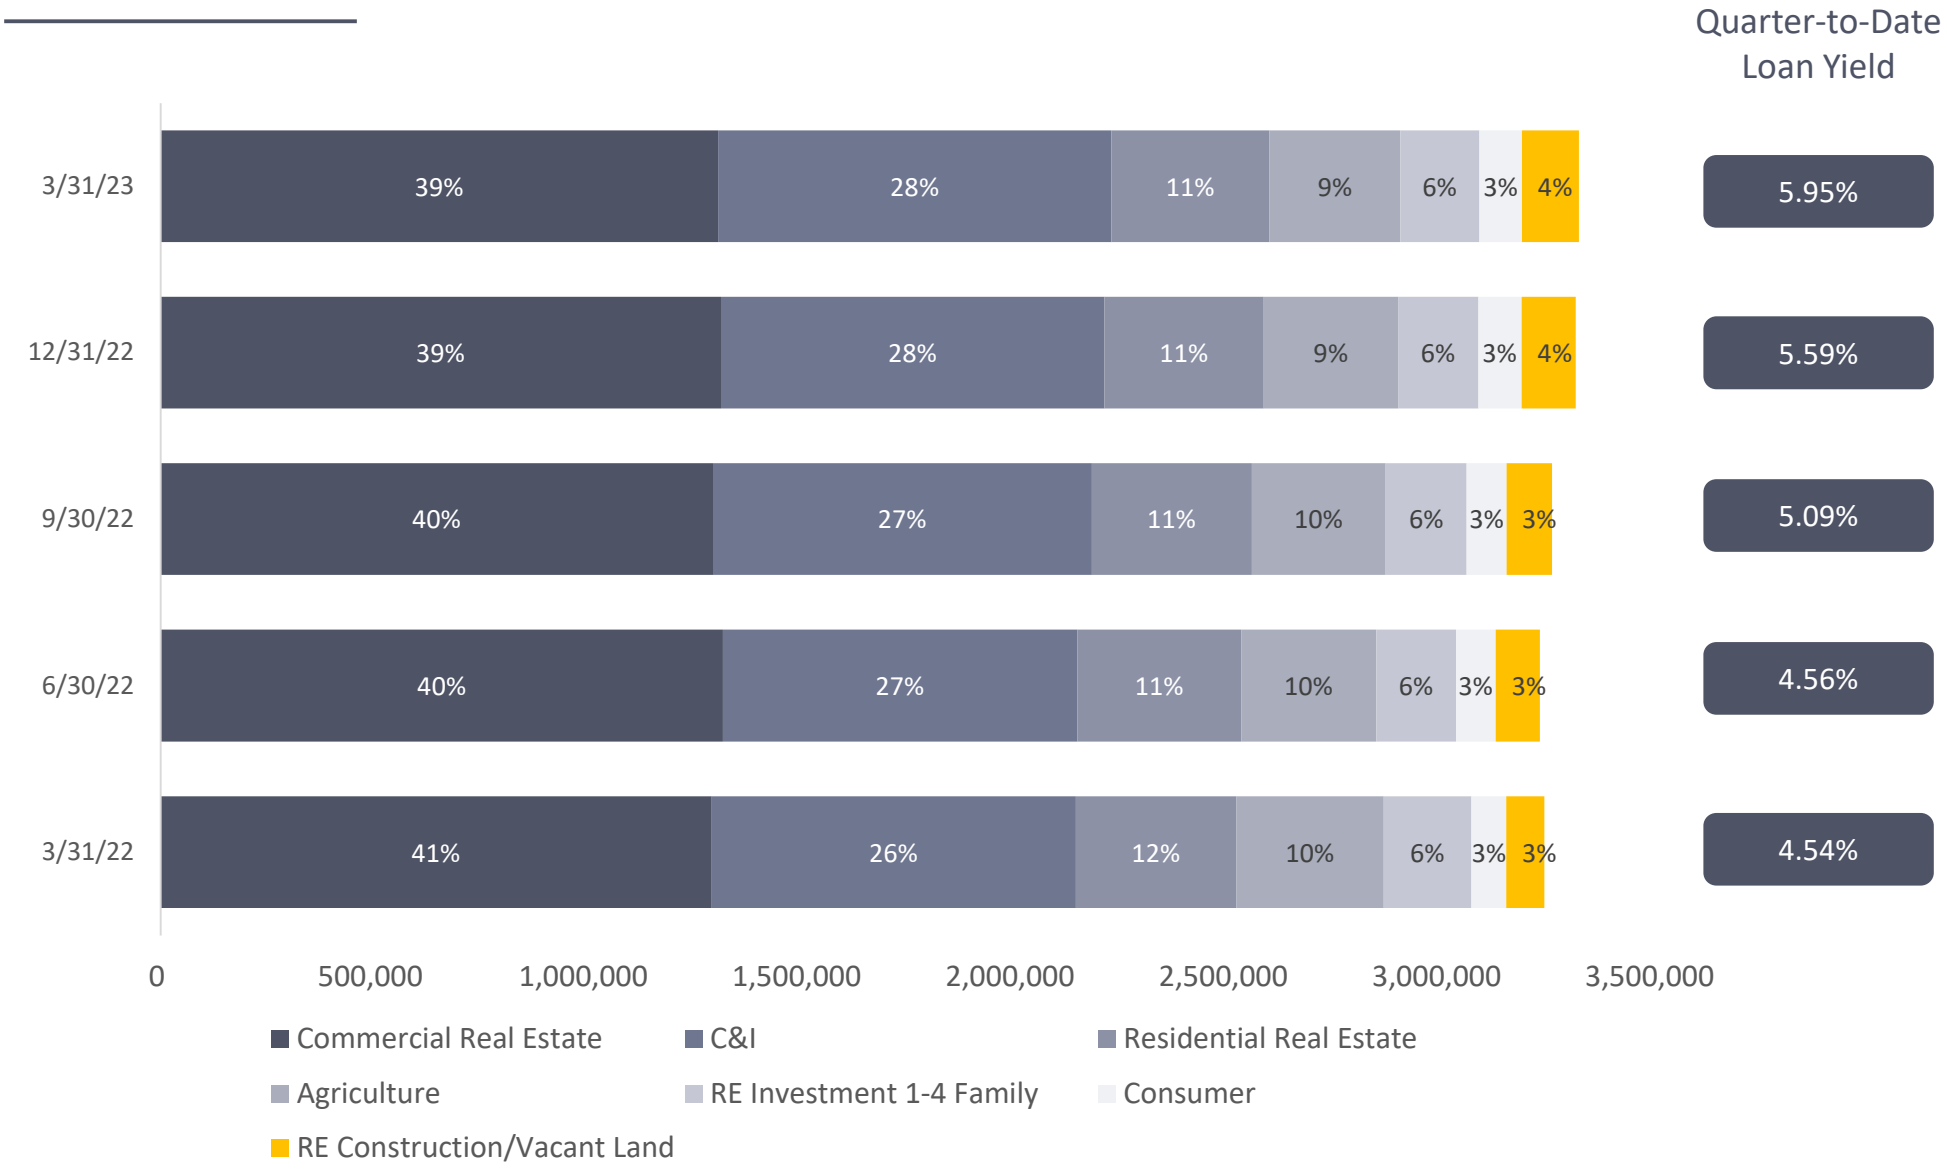


Classified Assets



(1) Includes loans 90+ days past due which are not highlighted in the table.
(2) Excludes Bank owned branch assets, totaling $4.2M, classified as Other Real Estate Owned within the Statements of Condition.

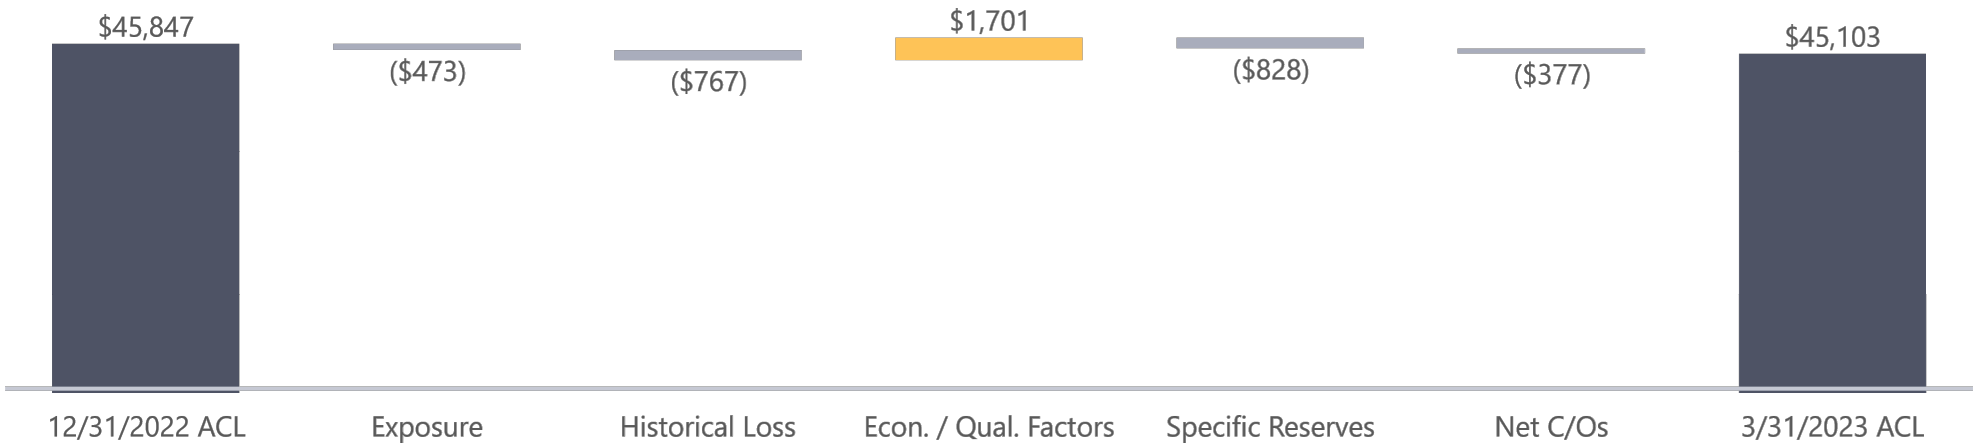
Diversified Loan Portfolio



(1) For financial statement reporting, management considers other factors in addition to purpose when assessing risk and identifying reporting classes. As such, the above is not intended to reconcile to the Company's loan disclosures within the applicable financial statement.
(2) Composition excludes the impact of PPP loans as of each applicable date.
(3) Excludes the impact of PPP loans. Including these balances in the first, second, third, fourth quarter 2022 and first quarter 2023 results would be 4.61%, 4.59%, 5.09%, 5.59%, and 5.94% respectively.

Allowance for Credit Loss (ACL)

ACL intra-quarter movement



Loan Classification	ACL	Loans	ACL / Loans (%)
Commercial Real Estate	16,611	1,746,834	0.95%
Commercial & Industrial	15,620	605,576	2.58%
Residential Real Estate	8,751	563,791	1.55%
Agricultural Real Estate	586	202,274	0.29%
Agricultural	1,547	106,169	1.46%
Consumer	1,989	105,974	1.88%
Total	45,103	3,330,618	1.35%

Investment Portfolio Strategy

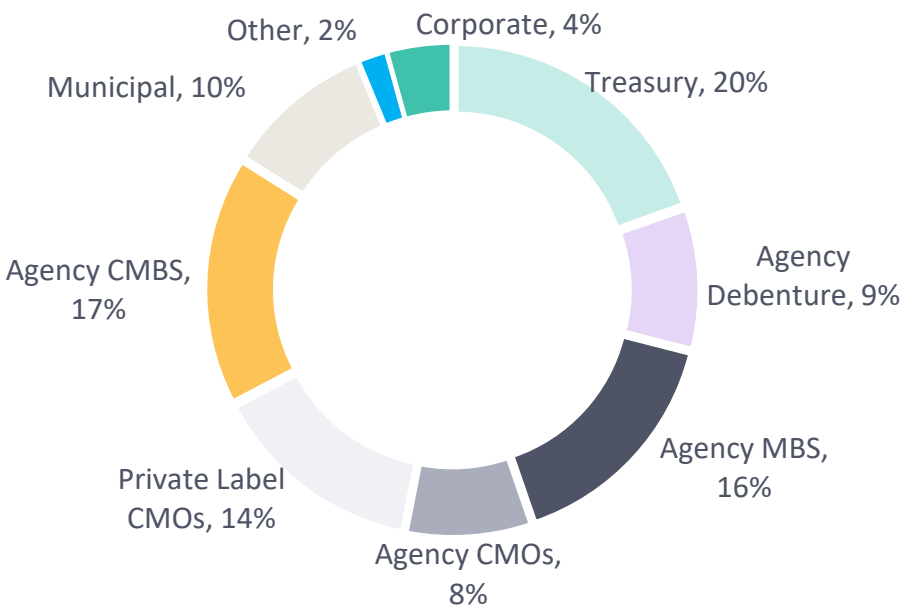
Investment Portfolio Thesis

- We believe the structure in the portfolio outperforms peers *through the cycle*
- Portfolio average life is shorter than peer; effective duration equal to peer and hard final maturities of our bullet investments provide guaranteed cash flow

- Portfolio is fully extended; future cash flow expected to be little affected by higher rates

- *Current weighted average life: 5.1 years; effective duration: 4.2 years*

Current Investment Portfolio Mix



Environment Shift: 2020 -> 2023

- ✓ As we began 2020, investment portfolio was over 80% Agency MBS and CMOs
- ✓ As rates collapsed, the majority of the portfolio prepaid, leaving the bank with hundreds of millions in cash needed to be reinvested in the worst rate environment in history

Private Label Mortgage Portfolio

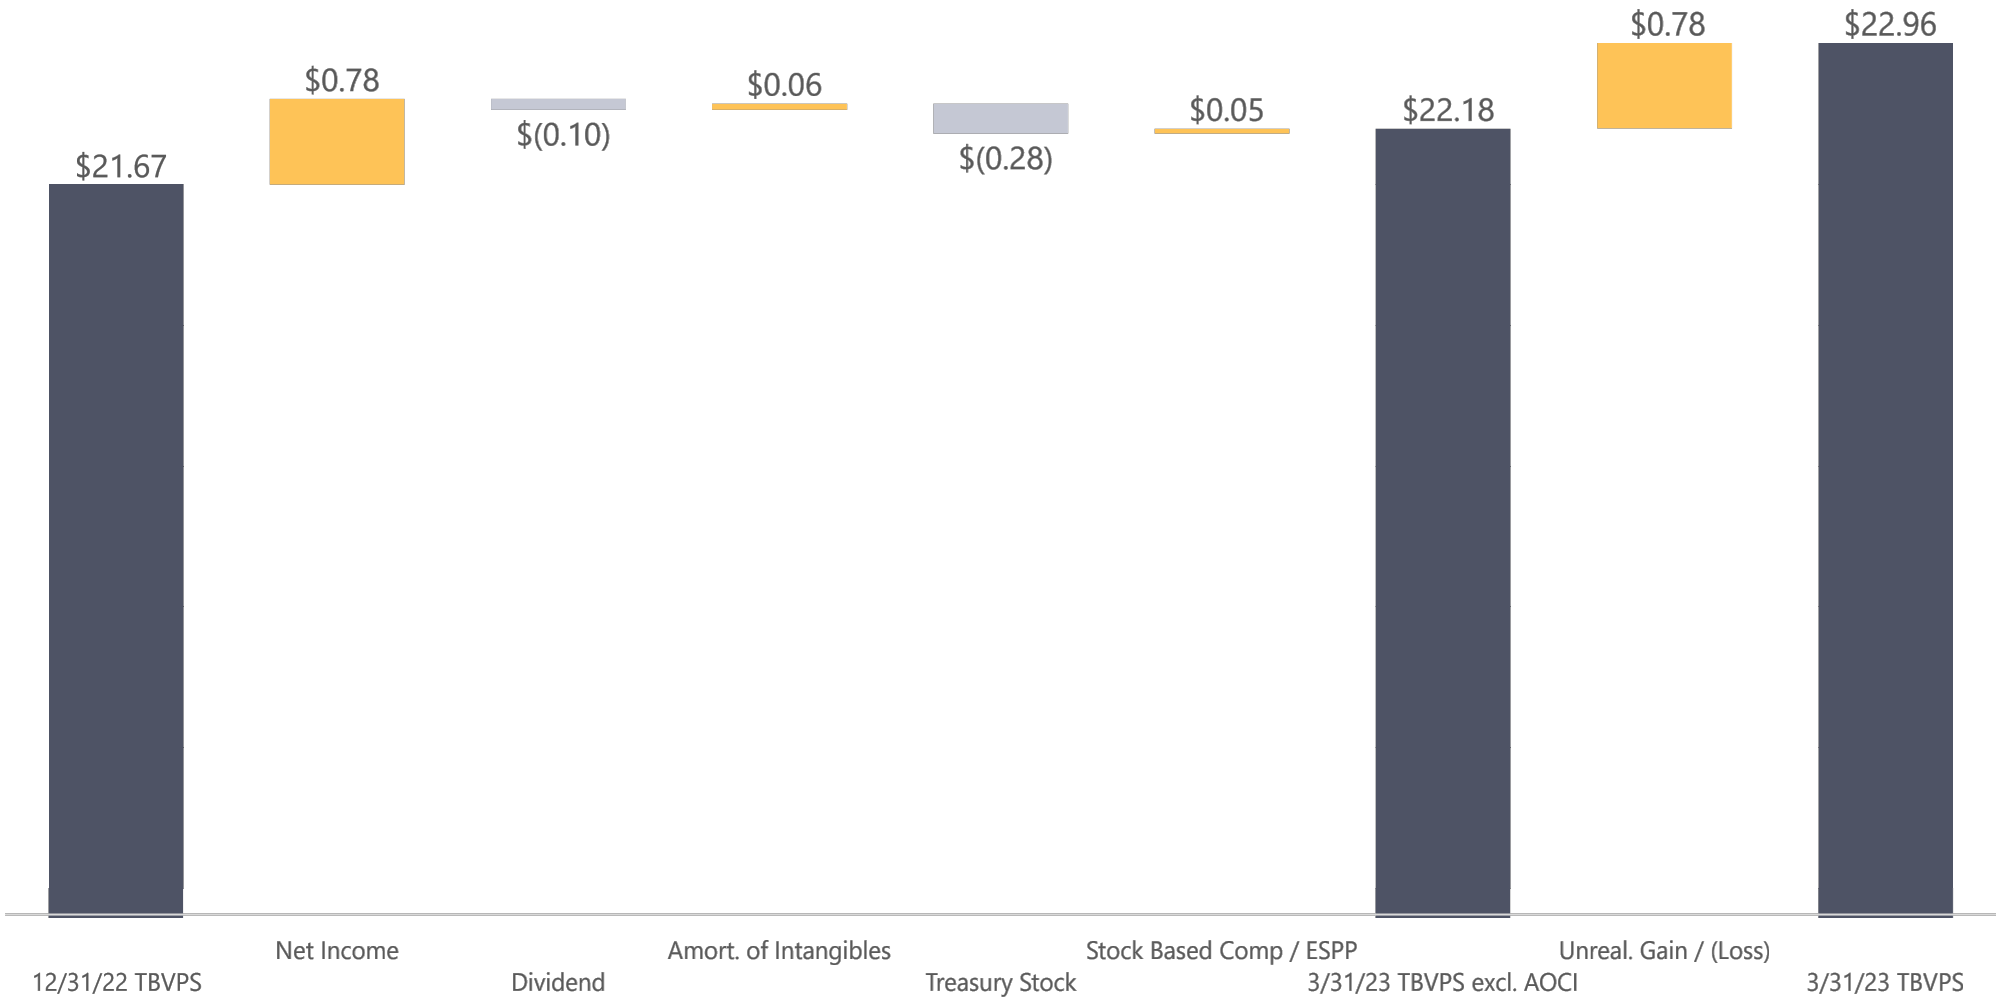
- ✓ Predominantly front cash flow tranches of 30-year mortgage pools.
- ✓ Modeled to have 5-year average life
- ✓ 14% of investment portfolio but 20% of cash flow

Barbell Strategy

- ✓ Private label front-load is combined with longer bullet investments in the 8-to-10-year part of the curve, encouraged by low short to medium term yields with a steep curve in 2021
- ✓ Provided similar yields to Agency MBS options without similar extension risk
- ✓ Agency MBS virtually uninvestable in 2021; choice between 1.5%-2.0% coupons or 2.5%+ coupons with prepayments outpacing amortization of premium

Tangible Book Value

Tangible book value per share[(1)] **increased $1.29** in Q1 2023



(1) Non-GAAP financial measure. Refer to the non-GAAP reconciliation at the end of this presentation.

Capital Management

The Company's capital ratios are comfortably above well capitalized levels as of 3/31/2023

Capital Ratio	Regulatory Well Capitalized	Equity Bancshares, Inc	Equity Bank
Common Equity Tier 1 Ratio (CET 1)	7.0%	12.21%	14.43%
Tier 1 Capital Ratio	8.5%	12.83%	14.43%
Total Risk Based Capital Ratio	10.5%	16.00%	15.66%
Leverage Ratio	5.0%	9.60%	10.80%
Tangible Common Equity Ratio (non-GAAP)[1]	----	7.09%	---

2023 Capital Management Actions

- Q1 2023 Dividend Declared - $0.10 per share
- Received Board approval and Regulatory non-objection for a 1 million share repurchase plan beginning 10/1/2022.
- Repurchased 320 thousand shares in the first quarter at a weighted average price of $29.97

1. As of March 31, 2023, the tangible common equity ratio is being negatively impacted by ($101.2) million in accumulated other comprehensive income. Adjusting for this decline in fair value, which management views as temporary, would result in a Tangible Common Equity Ratio of 8.90%.

Capital Management Strategy

Capital Targets

EQBK establishes capital targets based on the following objectives:

- ✓ Maintain designation as a "well capitalized" institution under fully phased-in Basel III regulatory definitions
- ✓ Ensure capital levels are commensurate with the Company's risk profile and strategic plan

Capital Management Priorities

- ✓ Support organic growth
- ✓ Dividend payout ratio targeted at 10-20%
- ✓ Common stock repurchases
- ✓ Merger & acquisition activity

Excess Capital Deployment

EQBK's Tangible Common Equity Ratio target is 8.5[1]%;

TCE above 8.5% is considered excess capital assuming "well capitalized" regulatory capital ratios are maintained. Deployment of capital ideally has less than a 3-year tangible book value earnback using the crossover method;

Excess capital can be deployed for:

- ✓ Share repurchases,
- ✓ Higher shareholder dividends, and/or
- ✓ Acquisitions

Outlook on Key Business Drivers

Consideration & Expectations

- Continued uncertainty of inflation, supply chain disruption and input cost escalation.
- Focus on continued balance sheet strength and security while continuing to pursue growth.

Key Driver	Q1'23 Outlook	Q1'23 Results	Q2'23 Outlook	FY'23 Outlook
Average Deposits	$4,100-4,200M	$4,279M	$4,200-4,300M	$4,200-4,300M
Average Loans[1]	$3,275-$3,325M	$3,306M	$3,325-$3,375M	$3,350-$3,450M
Average Earning Assets[1]	$4,550-$4,600M	$4,611M	$4,575-$4,625M	$4,600-$4,700M
Net Interest Margin[4]	3.60-3.70%	3.44%	3.45-3.55%	3.40-3.50%
Non-Interest Income[2]	$7.75-8.25M	$8.22M	$7.75-8.25M	$32-36M
Non-Interest Expense	$32-35M	$33.7M	$32-35M	$134-136M
Annual Effective Tax Rate[3]	14-16%	17.0%	14-16%	14-16%

NOTE: Figures presented in this outlook represent forward-looking statements and are not guarantees of future performance and are subject to risks, assumptions, and uncertainties that are difficult to predict. Please see Special Note Concerning Forward-Looking Statements.

(1) Excluding the impact of PPP loans
(2) Excluding Net Gain on Securities Transactions of $32 thousand, and BOLI death benefit of $834 thousand
(3) Representative of year-to-date annual effective tax rate
(4) Q2'23 Outlook excludes excess on balance sheet liquidity expected to be net interest income neutral

Focus Variables for Outlook & Forecast

Our outlook requires clarity around certain variables, including:

Economic Environment	▪ Business activity creates opportunity for lending and deposit growth. Pandemic response and resolution will be significant driver.
Customer Needs	▪ Directly related to credit quality as well as trust in our business. ▪ Stimulus efforts and associated effect may have significant impact.
Cost of Funding	▪ Impacts rates on our product offerings and applies pressure to earnings. ▪ Must be able to manage cost and profit yields effectively.
Competitive Market	▪ Providing customers with rates and services that are competitive with our peers. ▪ Irrational operators may have short term impact on opportunities.
Investment Opportunities	▪ Growth strategy must be flexible to the other variables that affect our investment options.
Political Environment	▪ U.S. politics affect banking regulations, international relationships, tax policies and more.
