Delek US Holdings, Inc.

Investor Presentation

February 2014

Safe Harbor Provision

Delek US Holdings and Delek Logistics Partners, LP are traded on the New York Stock Exchange in the United States under the symbols “DK” and ”DKL” respectively, and, as such, are governed by the rules and regulations of the United States Securities and Exchange Commission. This presentation may contain forward-looking statements that are based upon current expectations and involve a number of risks and uncertainties. Statements concerning our current estimates, expectations and projections about our future results, performance, prospects and opportunities and other statements, concerns, or matters that are not historical facts are “forward-looking statements,” as that term is defined under United States securities laws.

Investors are cautioned that the following important factors, among others, may affect these forward-looking statements. These factors include but are not limited to: risks and uncertainties with the respect to the quantities and costs of crude oil, the costs to acquire feedstocks and the price of the refined petroleum products we ultimately sell; losses from derivative instruments; management's ability to execute its strategy through acquisitions and transactional risks in acquisitions; our competitive position and the effects of competition; the projected growth of the industry in which we operate; changes in the scope, costs, and/or timing of capital projects; general economic and business conditions, particularly levels of spending relating to travel and tourism or conditions affecting the southeastern United States; potential conflicts of interest between our majority unitholder and other unitholders; and other risks contained in our filings with the United States Securities and Exchange Commission.

Forward-looking statements should not be read as a guarantee of future performance or results and will not be accurate indications of the times at, or by which such performance or results will be achieved. Forward-looking information is based on information available at the time and/or management’s good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Neither Delek US nor Delek Logistics Partners undertakes any obligation to update or revise any such forward-looking statements.

Delek US Holdings Overview

Integrated Downstream Energy Company

Refining Segment	Operates 140,000 BPD of combined refined production capacity in Texas and Arkansas
Logistics Segment (1)	Owned crude/product terminals and pipeline assets in Texas, Arkansas and Tennessee
Retail Segment	Approximately 362 convenience stores -- primarily in Tennessee, Alabama and Georgia

Strategically Located Refineries Allow For Broad Wholesale and Retail Product Distribution Opportunities

Longview Crude Oil Hub

- Strategic crude oil supply point that allows our refining system access to domestic inland and Gulf Coast feedstock

Delek Logistics (1)

- 8 Terminals
- Approx. 1,000 miles of pipelines
- 6.2 million bbls storage capacity

Retail

- 362 Stores
- Locations in 7 states

El Dorado Refinery

- 80,000 BPD
- 9.0 complexity

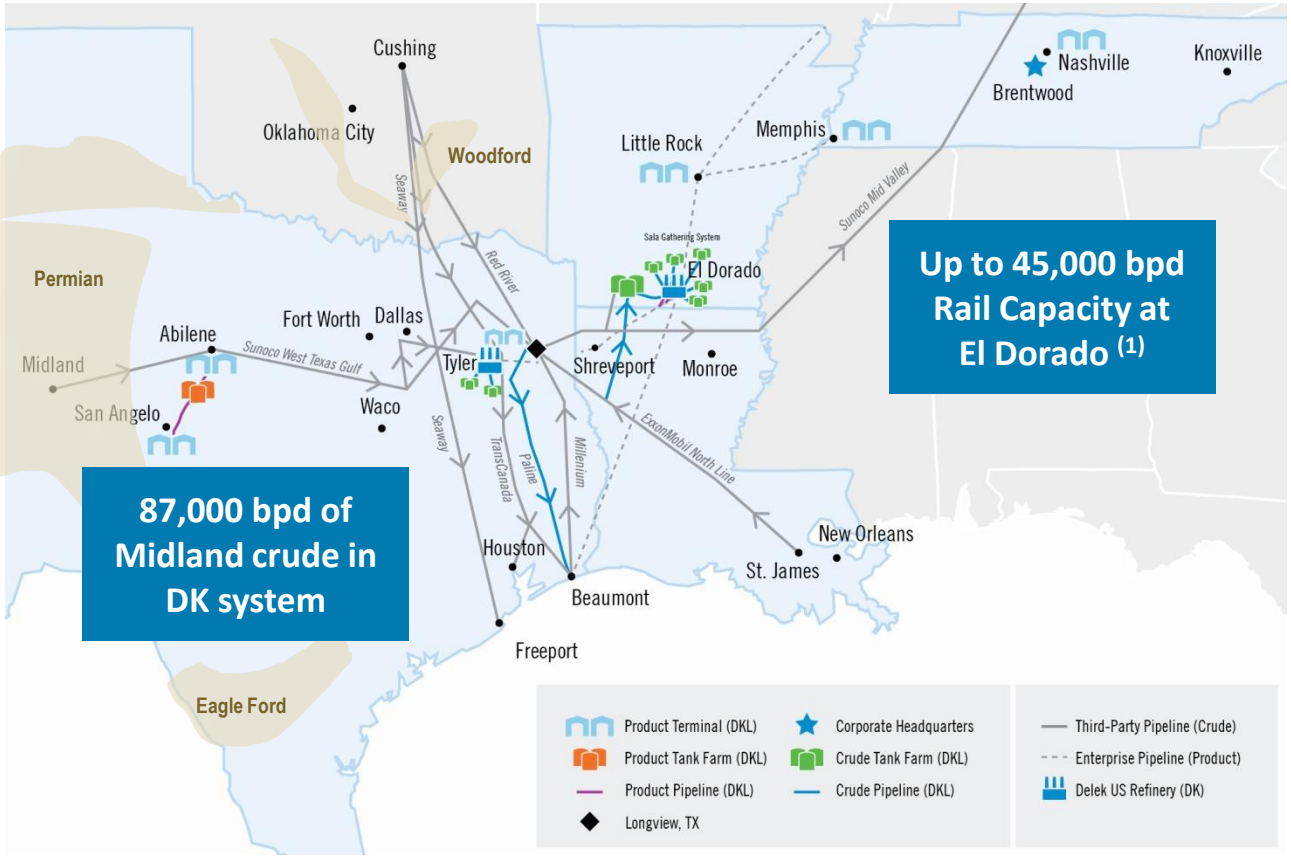

Tyler Refinery

- 60,000 BPD
- 9.5 complexity

(1) Delek Logistics Partners , LP (NYSE:DKL) began operating on Nov. 7, 2012 and 100% of its performance is reported as a segment of Delek US beginning 4Q12. Delek US and its affiliates own approximately 62%, including the 2.0% general partner interest, of DKL.

Well Positioned Mid-Continent Refining System

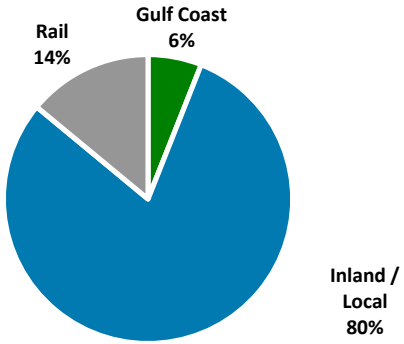

Strategically Located Assets Provide Access to Cost-Advantaged Feedstocks

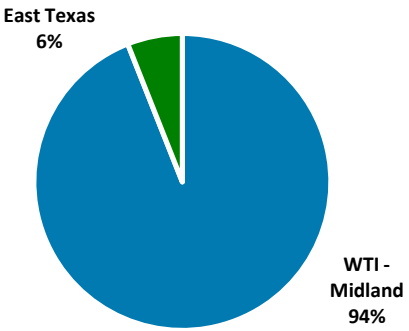

87,000 bpd of Midland crude in DK system

Up to 45,000 bpd Rail Capacity at El Dorado (1)

El Dorado Crude Source (3Q13)

Tyler Crude Source (3Q13)

75% of 2013 Crude Slate Expected to Consist of Price-Advantaged Domestic Crudes

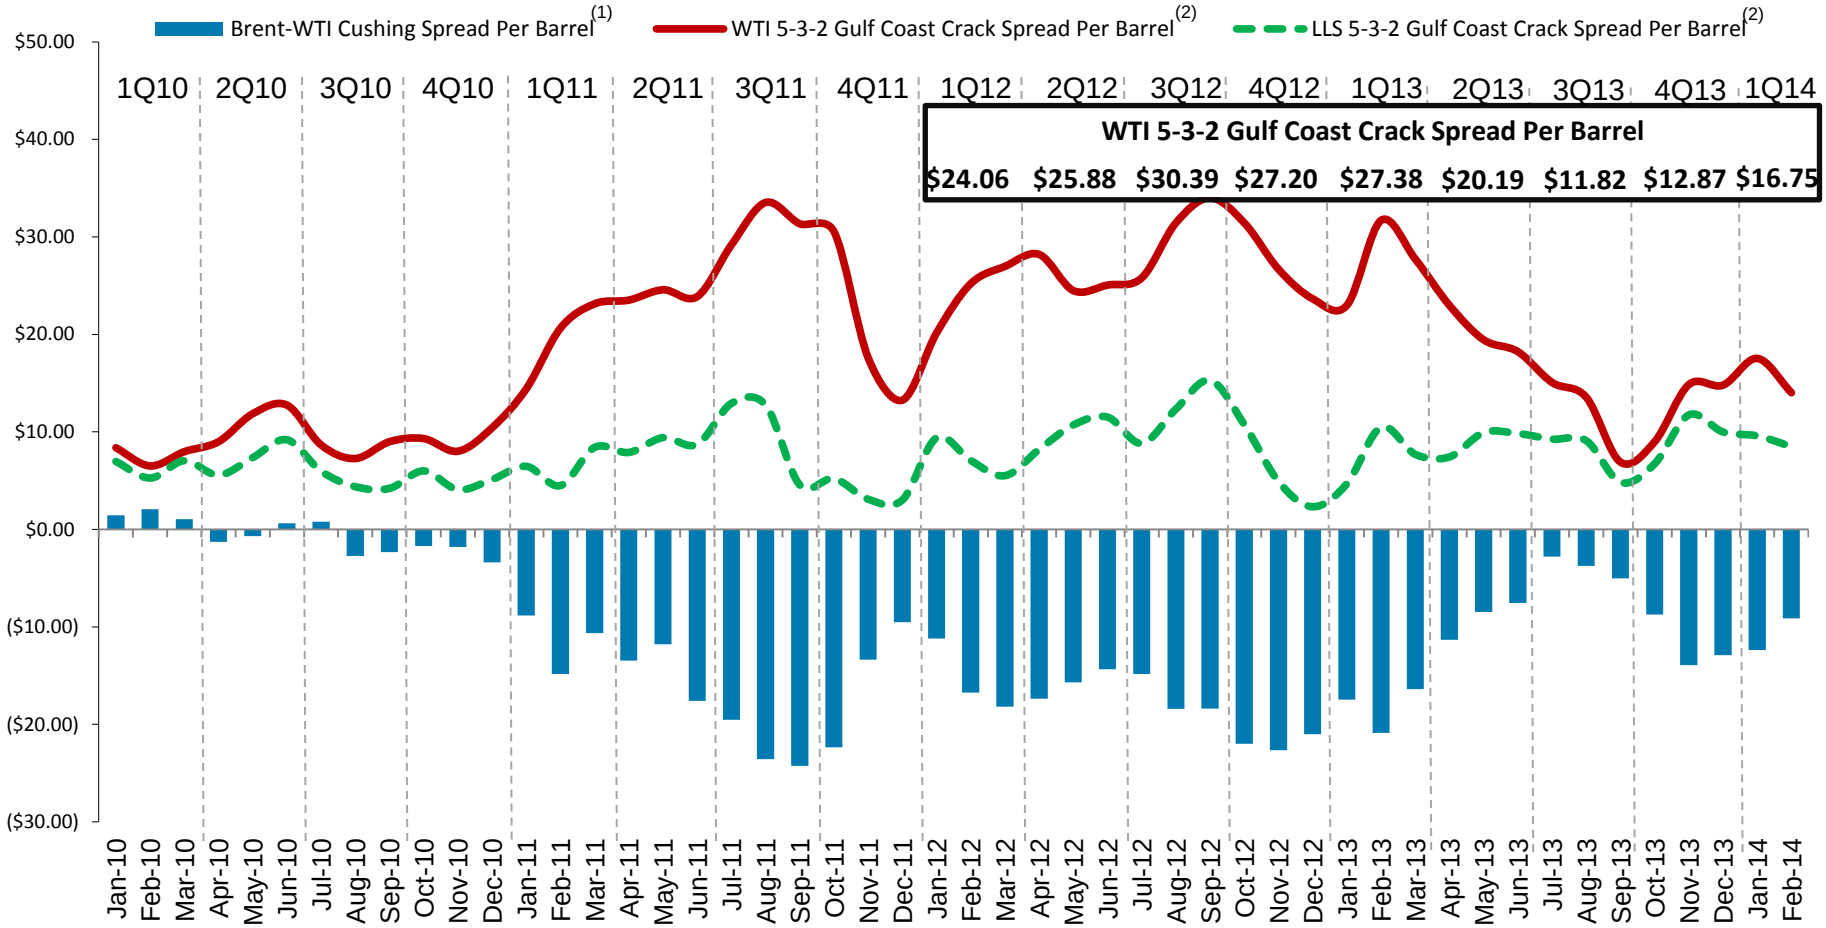

(1) Rail supplied light crude capability consists of 25,000 bpd of light crude or 12,000 bpd heavy crude offloading that is available at a company owned facility at the El Dorado refinery . In addition, 20,000 bpd light crude capability is currently available via a third party facility adjacent to the El Dorado refinery.

Tyler Refinery Overview

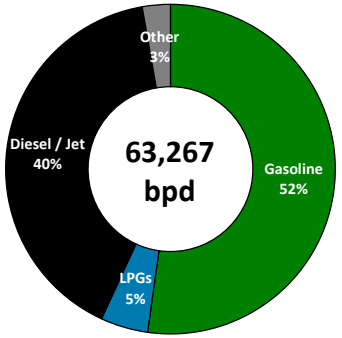

Niche Refinery with Access to WTI Midland Based Crude Supply

- Inland PADD III refinery located in East Texas
  - Serves an niche market in the Tyler, TX area; priced above Gulf Coast markets
  - 60,000 bpd, 9.5 complexity; products shipped across truck terminal at refinery
  - Primarily processes inland light sweet crudes (100% in 3Q13)
  - 92% yield of gasoline, diesel and jet fuel in 3Q13
- Cost advantaged refinery primarily processing Midland sourced crude (94% in 3Q13)
- Substantial savings created by replacing higher priced East Texas and other crude with Midland sourced crudes in 2013

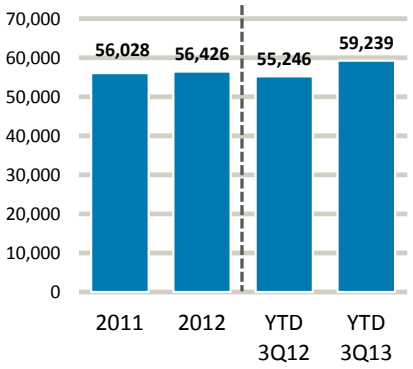

3Q13 Crude Source

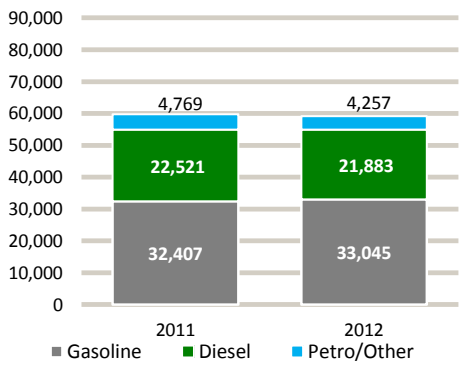

3Q13 Production

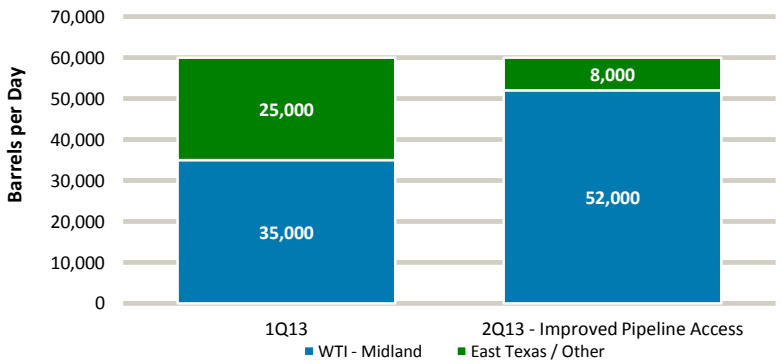

Crude Throughput

Total Production

Tyler Refinery Crude Slate Pricing Change

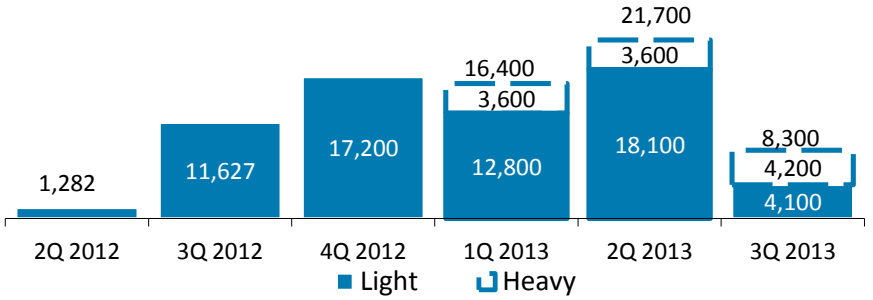

El Dorado Refinery Overview

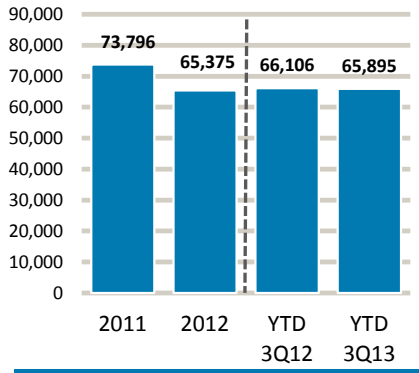

Improving Niche Market Position with a Crude Slate Weighted to WTI-Linked Crude

- Inland PADD III refinery located in Southern Arkansas
  - Improved flexibility during 1Q14 turnaround
    - FCC reactor replaced, work done on DHT and Platformer
    - Pre-flash tower project complete
  - 80,000 bpd, 9.0 complexity (configured to run light and medium sour crude)
  - Supply flexibility that can source Midland, locally produced, Gulf Coast and rail supplied crude including Canadian sourced
  - Associated gathering system positioned for Brown Dense development in Northern Louisiana and Southern Arkansas
- Pipeline access increased Midland crude throughput by 25,000 bpd at El Dorado as of June 2013

Significant Organic Growth / Margin Enhancement Opportunities

- Completed low-cost, high-return capital projects at El Dorado and Tyler
  - Additional quick-hit capital projects identified; economics based on forward curve pricing Dec. 2013

	SCOPE	COST	BENEFIT [1]	TIMING
El Dorado: LSR/Sat Gas Project (LSR)	▪ Improve liquid recovery of Butane & Propane at El Dorado; volumes based on first half 2013 results	$14.5 million	$14-$16 million	Complete Mid 2012
Tyler: Vacuum Tower Bottoms Project (VTB)	▪ Convert El Dorado asphalt to light product via Coker at Tyler; volumes based on 2Q13 results	$5.7 million	$8-$11 million	Complete Late 2012
El Dorado: DHT Revamp – Phases I & II	▪ Increase ULSD production from 30,000 bpd to 34,000 bpd; (Phase 1 increased to 33,000 bpd)	$3.0 million	Phase 1: $6 m Phase 2:$2 m $8 million	Phase 1: Compl. Phase 2: Compl.
El Dorado: Replace Alky Refrigeration Compressor	▪ Further optimize FCC unit and increase gasoline production	$4.2 million	$4 + million	Complete July 2013
El Dorado: Crude Pre-flash Tower/Gasoline Hydrotreater	▪ Debottleneck crude pre-flash tower to increase ability to process lighter crudes	$18.3 million	$13-$18 million	Complete 1Q2014 (Turnaround)
El Dorado & Tyler: FCC Reactor Revamp	▪ Replace FCC Reactor and Catalyst Stripper with state-of-the-art technology to increase unit conversion; FCC Reactors have been purchased and are in storage	$21.2 million	$25-$30 million	(Turnaround) 1Q14 El Dorado (Compl.) 1Q15 Tyler

(1) Approximate benefit and is subject to market pricing economics. Contribution margin is defined as net sales less cost of goods sold, operating expenses and other one-time expenses, excluding depreciation and amortization. Economics based on forward curve as of Dec. 2013, subject to change based on market conditions and operating rates.

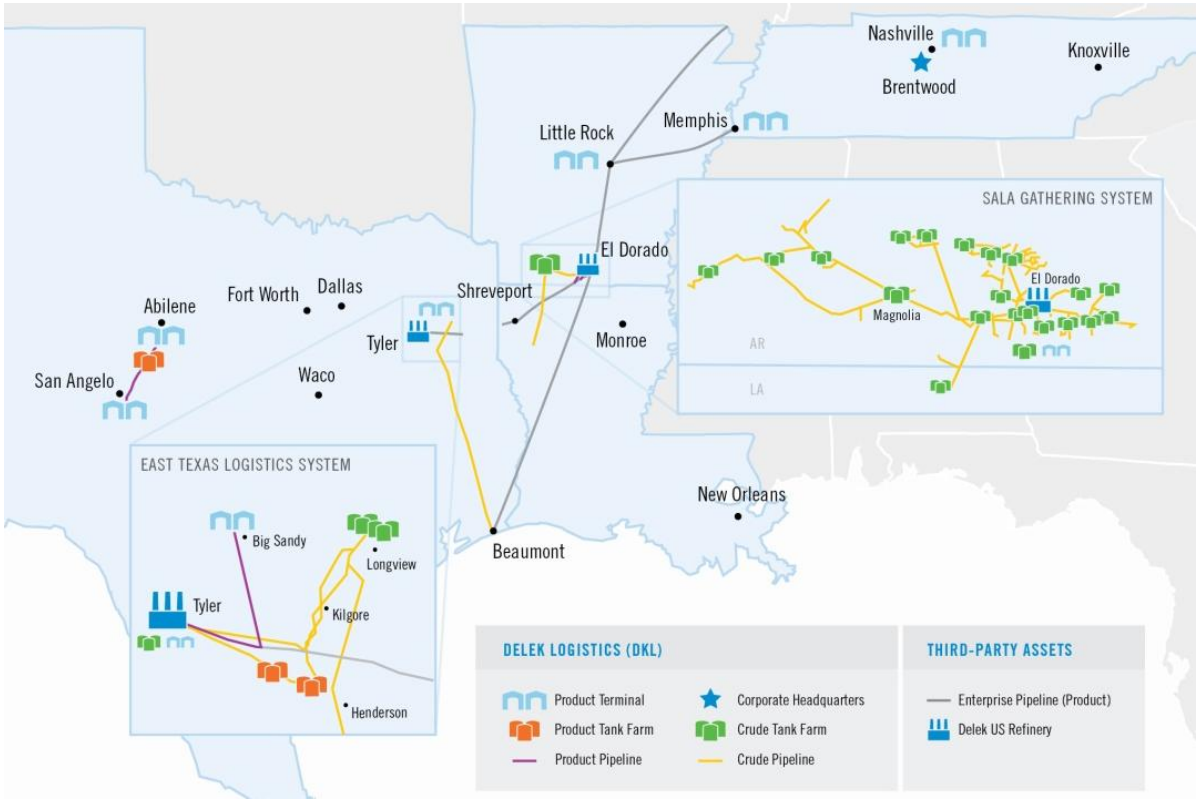

Logistics and Retail

Operational Update

Delek Logistics Partners, LP Overview (NYSE: DKL)

DKL Asset Overview

- ~400 miles of crude and product transportation pipelines, including the 185 mile crude oil pipeline from Longview to Nederland, TX
- 600 mile crude oil gathering system
- Storage facilities with 6.2 million barrels of active shell capacity supporting Delek US' El Dorado and Tyler refineries
- Wholesale and marketing business in Texas
- Eight light product terminals:
  - Texas: Tyler, Abilene, Big Sandy, San Angelo
  - Tennessee: Nashville and Memphis
  - Arkansas: El Dorado, North Little Rock

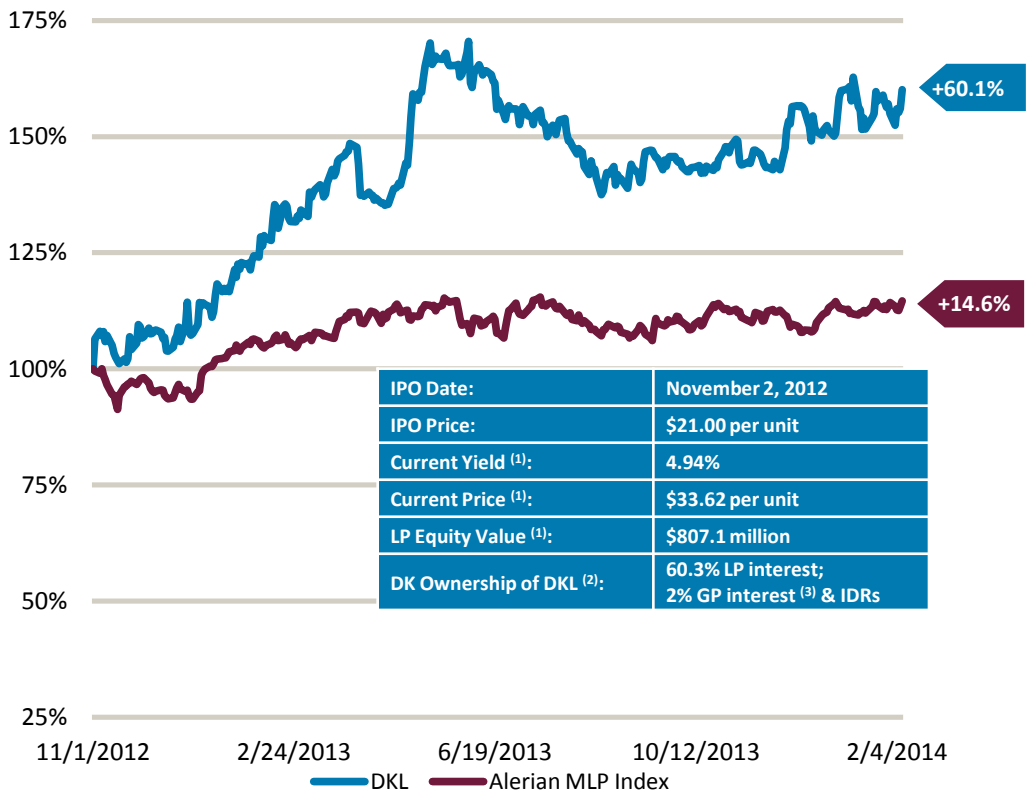

Delek Logistics Partners , LP (NYSE:DKL) began operating on Nov. 7, 2012 and 100% of its performance is reported as a segment of Delek US beginning 4Q12. Delek US and its affiliates own approximately 62%, including the 2.0% general partner interest, of DKL.

DKL: Strong Performance & Value Creation Since IPO

A Powerful Strategic Partner

- Midstream MLP with long-term contracts providing stable, growing cash flow
- Supports Delek US' profitable and strategically located inland refining system
- Unlocks value of marketing and logistics assets
- Strategic vehicle for growth
  - Visible asset dropdown opportunities
  - Partner for future acquisitions and organic growth projects
- Reduces consolidated cost-of-capital

Performance Since IPO

IPO Date:	November 2, 2012
IPO Price:	$21.00 per unit
Current Yield (1):	4.94%
Current Price (1):	$33.62 per unit
LP Equity Value (1):	$807.1 million
DK Ownership of DKL (2):	60.3% LP interest; 2% GP interest (3) & IDRs

DKL Value Accrues to Delek US Shareholders

(1) Current yield reflects NTM anticipated distribution of $1.66 per unit and equity value based on market capitalization as of February 7, 2014.
(2) Per company filings.
(3) Effective June 2013, the general partner is owned Delek US and three members of senior management, with senior management owning less than 5%.

DKL: Several Visible Pathways to Growth

Dropdowns from Delek US	▪ $5 - $10 Million of potential EBITDA expected to be dropped down over next 12 months in addition to recently completed Tyler and El Dorado asset drop downs
	  ▪ 25,000 bpd (light crude) rail offloading facility at El Dorado refinery
	  ▪ 300,000 bbl crude oil tank (under construction) at Tyler refinery

Organic Growth	▪ Paline Pipeline ability to re-contract at a potentially higher rate after 2014 ▪ Increasing Brown Dense / Arkansas production, driving growth in gathering system ▪ Asset optimization and expansion ▪ Expand the North Little Rock terminal to 17,500 bpd
Acquisitive Growth	▪ Potential for 3rd party acquisitions (two completed year to date 2013) ▪ Ability to partner with Delek US to make acquisitions ▪ Low cost-of-capital ▪ Future dropdowns from Delek US acquisitions

Delek Logistics Partners , LP (NYSE:DKL) began operating on Nov. 7, 2012 and 100% of its performance is reported as a segment of Delek US beginning 4Q12. Delek US and its affiliates own approximately 62%, including the 2.0% general partner interest, of DKL.

DKL :Recent Acquisitions

Approximately $22.1 million of annual EBITDA

Tyler Tank Farm and Product Terminal	▪ First drop down from Delek US since the IPO, acquired July 26, 2013
	▪ Purchase price: $94.8 million
	▪ Assets Include:
	  ▪ 72,000 bpd capacity product terminal
	  ▪ Approximately 2.0 million barrels of aggregate shell capacity tank farm
	  ▪ Supports Delek US Tyler, TX refinery
	▪ Expected initial annual EBITDA of approximately $10.5 million

Tyler-Hopewell Pipeline	▪ Third party acquisition on July 19, 2013 ▪ 13.5 mile pipeline allows Big Sandy terminal to receive light product from Tyler refinery ▪ Expected to be operational in December 2013 ▪ Expected initial annual EBITDA of approximately $700,000
North Little Rock, AR terminal	▪ Third party acquisition on October 26, 2013 ▪ Light products truck terminal ▪ Throughput expected to grow with additional capex from 10,000 bpd to 17,500 bpd over time ▪ Expected initial annual EBITDA of approximately $800,000

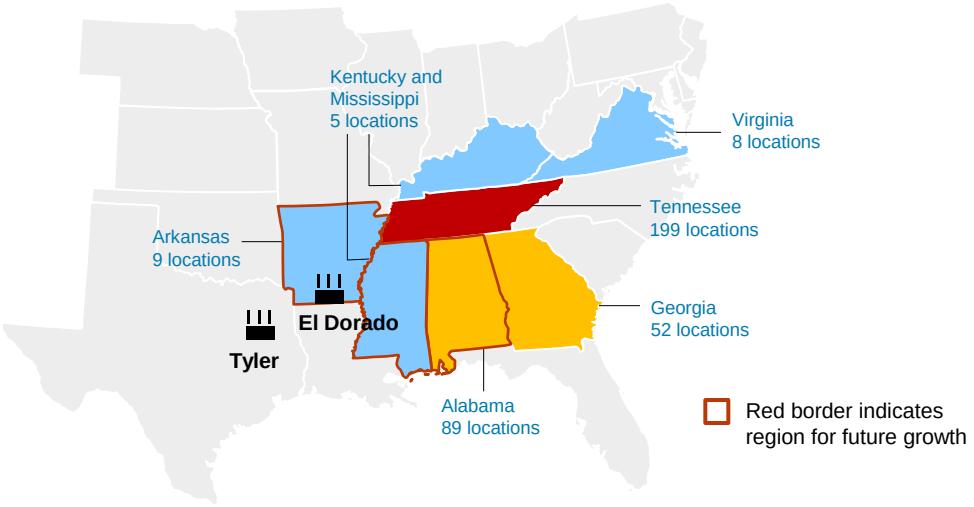

El Dorado Tank Farm and Product Terminal	▪ Second drop down from Delek US since the IPO, acquired February 10, 2014
	▪ Purchase price: $95.9 million
	▪ Assets Include:
	  ▪ 26,700 bpd capacity product terminal
	  ▪ Approximately 2.5 million barrels of aggregate shell capacity tank farm
	  ▪ Supports Delek US El Dorado, AR refinery
	▪ Expected initial annual EBITDA of approximately $10.1 million

Delek Logistics Partners , LP (NYSE:DKL) began operating on Nov. 7, 2012 and 100% of its performance is reported as a segment of Delek US beginning 4Q12. Delek US and its affiliates own approximately 62%, including the 2.0% general partner interest, of DKL.

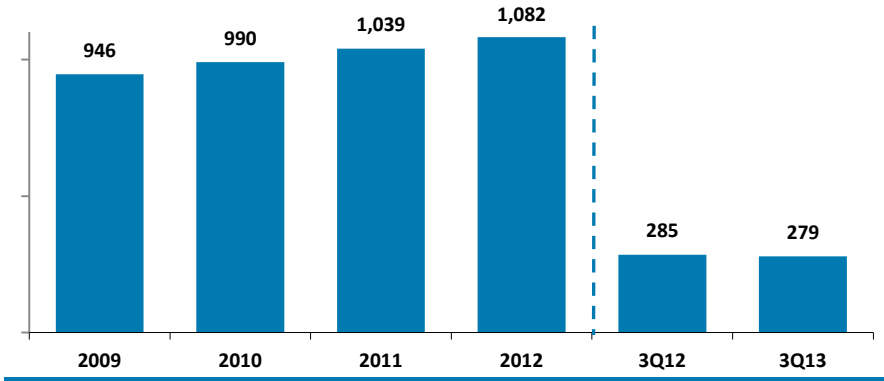

Strong Retail Presence

Expanding Market Footprint in Markets Capable of Being Supplied by El Dorado

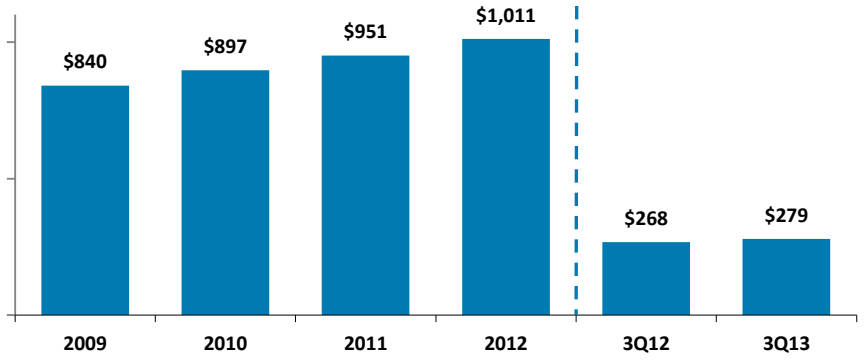

- Markets gasoline, diesel and merchandise through a network of retail fuel and convenience stores throughout the southeastern U.S.
- Operates 362 stores throughout seven states
- Currently undergoing multi-year store enhancement initiative
  - 54% of stores re-imaged or newly constructed
  - Targeting 10-12 new large-format stores in 2013

Fuel Gallons Sold Per Store (000's)

Merchandise Sales Per Store ($000's)

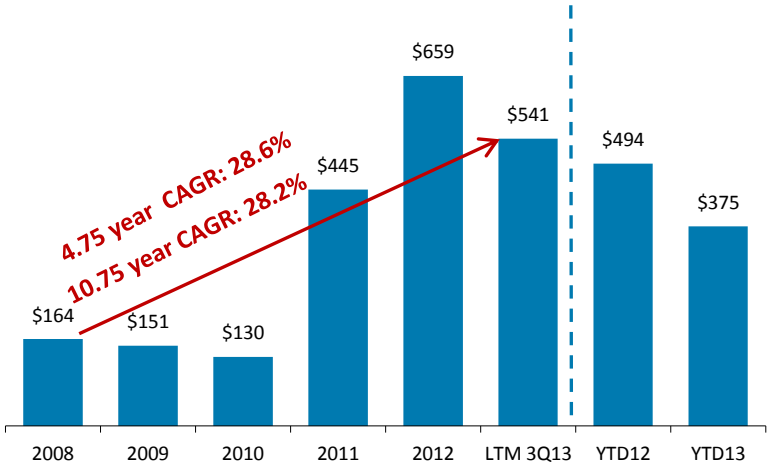

Financial Update

Strong Financial Performance & Delivering Value to Shareholders

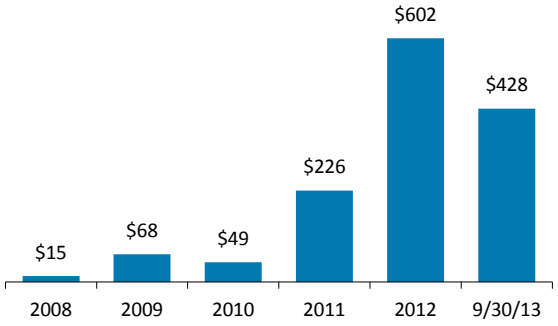

Financial Highlights

- Record profitability in 2011 and 2012 driven by growth in the refining segment; Strong first half 2013 performance
- Strong cash flow generated from operations and Delek Logistics IPO in 2012
  - Last 12 month free cash flow of $56 million [3]
  - Reduced net debt by $114 million y/y in third quarter
- Returning excess cash to shareholders
  - Share repurchase program $75 million; repurchased $38 million 1Q 2013
  - Increased regular quarterly dividend in May 2013 to $0.15 from $0.10
  - Declared $0.25 of regular and special dividends per share in 3Q 2013

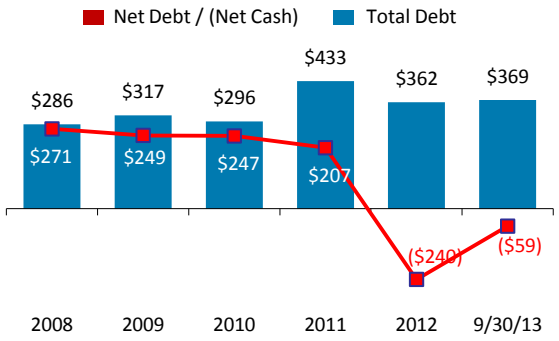

Historical Contribution Margin ($MM) [1][2]

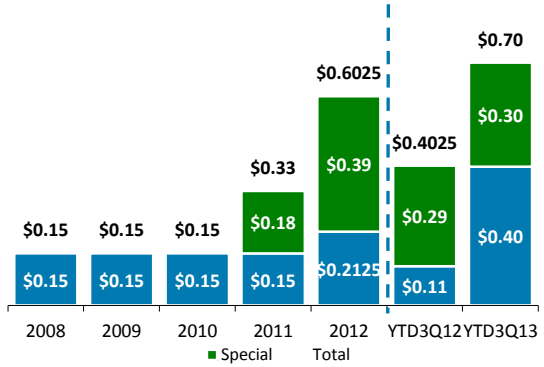

Year-End Cash Balance ($MM)

Leverage Profile ($MM)

Dividends Declared ($ / share)

(1) Contribution margin is defined as net sales less cost of goods sold, operating expenses and other one-time expenses, excluding depreciation and amortization.
(2) Delek US assumed operational control of the El Dorado refinery and related assets through the acquisition of a majority equity interest in Lion Oil on April 29, 2011.
(3) Free cash flow reconciliation available in appendix.

Going Forward

Significant Organic Growth / Margin Enhancement Opportunities

- We anticipate continued growth in our business in 2013 and beyond; economics based on forward curve pricing in Dec. 2013

STRATEGIC INITIATIVES COMPLETED	BENEFIT	TIMING
▪ Crude Slate improvement- Increased Access to Midland sourced crude	Now 87k bpd of 140k bpd capacity	2Q13
▪ Quick Hit Capital projects – completed	Efficiency/ synergies added	1H 2013
▪ Canadian office open	Crude Supply opportunity	3Q2013
ADDITIONAL MARGIN IMPROVEMENT	**BENEFIT (1)**	**TIMING**
▪ FCC Reactors Revamp – El Dorado and Tyler	$25-$30 million	1Q14 El Dorado 1Q15 Tyler
▪ Pre Flash Tower/Gasoline Hydrotreater – El Dorado	$13-$18 million	1Q 2014
DKL GROWTH	**BENEFIT (2)**	**TIMING**
▪ Drop Downs from DK	$5 – $10 million	2013 - 2015
▪ Paline Pipeline Recontracting	TBD	2015

(1) Benefit reflects annualized impact on contribution margin and is subject to market pricing economics and operating rates. Contribution margin is defined as net sales less cost of goods sold, operating expenses and other one-time expenses, excluding depreciation and amortization. Economics based on forward curve as of Dec. 2013, subject to change based on market conditions.

(2) Benefit reflects annualized impact on EBITDA and is subject to market pricing economics. Drop downs effectively transfer EBITDA from refining segment to logistics segment within Delek US
