

Delek US Holdings, Inc.

Raymond James Institutional Investors Conference

March 7, 2018

Disclaimers

Forward Looking Statements:

Delek US Holdings, Inc. ("Delek US") and Delek Logistics Partners, LP ("Delek Logistics"; collectively with Delek US, defined as "we", "our") are traded on the New York Stock Exchange in the United States under the symbols "DK" and "DKL", respectively, and, as such, are governed by the rules and regulations of the United States Securities and Exchange Commission. These slides and any accompanying oral and written presentations contain forward-looking statements that are based upon current expectations and involve a number of risks and uncertainties. Statements concerning current estimates, expectations and projections about future results, performance, prospects, opportunities, plans, actions and events and other statements, concerns, or matters that are not historical facts are "forward-looking statements," as that term is defined under the federal securities laws. These forward-looking statements include, but are not limited to, statements regarding WTI-Brent crude oil differentials including improvement thereof and impact thereof on light crude oil refineries; global improvements and OPEC cuts; crude oil markets, production, quality, pricing, imports, global production decline, exports, cuts, growth and transportation costs; light production from shale plays and Permian growth; differentials including increases, trends and the impact of thereof on crack spreads; crude oil pricing; rig counts; Permian Crude capacity; pipeline takeaway capacity; crack spreads, refinery complexity, configurations, utilization, crude oil slate flexibility, capacities, equipment limits and margins; the ability to unlock value from the Alon USA Energy, Inc. ("ALJ") and Alon USA Partners LP ("ALDW") transactions from, among other things, simplification of corporate structure, synergy capture, improved operations, logistics growth, future dropdowns, cash flows, debt refinancing, run rate synergies and reduced public company costs; the ability to add flexibility and increase margin potential at the Krotz Springs refinery; improved product netbacks; our ability to complete the Alkylation project at Krotz Springs successfully or at all and the benefits, flexibility, returns and EBITDA therefrom; our ability to identify and complete California initiatives successfully or at all and the costs, cash flow and benefits thereof; the ability to complete the sale of four asphalt terminals and other assets to a third party successfully or at all and the timing and benefits therefrom; logistic asset growth; increases in drop down inventory and organic projects and the timing of and potential benefits therefrom; increased capacity on the Paline Pipeline and the impacts and benefits therefrom; potential logistics dropdowns and the benefits therefrom; the ability of the newly formed joint venture with Green Plains Partners LP to acquire additional assets, and the timing for and amount of such acquisitions; future distribution growth; retail growth and opportunities and the value therefrom; financial flexibility to support initiatives; long-term value creation from capital allocation; share repurchases and returning cash to shareholders; execution of strategic initiatives and the benefits therefrom; valuation relative to peer group; long term shareholder returns; organic growth; margin improvement; financial flexibility; access to crude oil and the benefits therefrom; potential dropdown EBITDA and the timing thereof. Investors are cautioned that the following important factors, among others, may affect these forward-looking statements. These factors include, but are not limited to: risks and uncertainties related to the ability to successfully integrate the businesses of Delek US, ALJ and ALDW; the risk that the combined company may be unable to achieve cost-cutting synergies, or it may take longer than expected to achieve those synergies; uncertainty related to timing and amount of value returned to shareholders; risks and uncertainties with respect to the quantities and costs of crude oil we are able to obtain and the price of the refined petroleum products we ultimately sell; gains and losses from derivative instruments; management's ability to execute its strategy of growth through acquisitions and the transactional risks associated with acquisitions and dispositions; acquired assets may suffer a diminishment in fair value as a result of which we may need to record a write-down or impairment in carrying value of the asset; changes in the scope, costs, and/or timing of capital and maintenance projects; operating hazards inherent in transporting, storing and processing crude oil and intermediate and finished petroleum products; our competitive position and the effects of competition; the projected growth of the industries in which we operate; general economic and business conditions affecting the geographic areas in which we operate; and other risks contained in Delek US'and Delek Logistics' filings with the United States Securities and Exchange Commission. Forward-looking statements should not be read as a guarantee of future performance or results, and will not be accurate indications of the times at, or by which such performance or results will be achieved. Forward-looking information is based on information available at the time and/or management's good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Neither Delek US nor Delek Logistics Partners undertakes any obligation to update or revise any such forward-looking statements.

Non-GAAP Disclosures:

Delek US and Delek Logistics believe that the presentation of earnings before interest, taxes, depreciation and amortization ("EBITDA"), adjusted EBITDA, adjusted net income (loss) per share, distributable cash flow and distribution coverage ratio provides useful information to investors in assessing their financial condition, results of operations and cash flow their business is generating. EBITDA, adjusted EBITDA, adjusted net income (loss) per share, distributable cash flow and distribution coverage ratio should not be considered as alternatives to net income, operating income, cash from operations or any other measure of financial performance or liquidity presented in accordance with U.S. GAAP. EBITDA, adjusted EBITDA, adjusted net income (loss) per share, distributable cash flow and distribution coverage ratio have important limitations as analytical tools because they exclude some, but not all, items that affect net income. Additionally, because EBITDA, adjusted EBITDA, adjusted net income (loss) per share, distributable cash flow and distribution coverage ratio may be defined differently by other companies in its industry, Delek US' and Delek Logistics' definitions may not be comparable to similarly titled measures of other companies, thereby diminishing their utility. Please see reconciliations of EBITDA, adjusted EBITDA, adjusted net income (loss) per share and distributable cash flow to their most directly comparable financial measures calculated and presented in accordance with U.S. GAAP in the appendix.

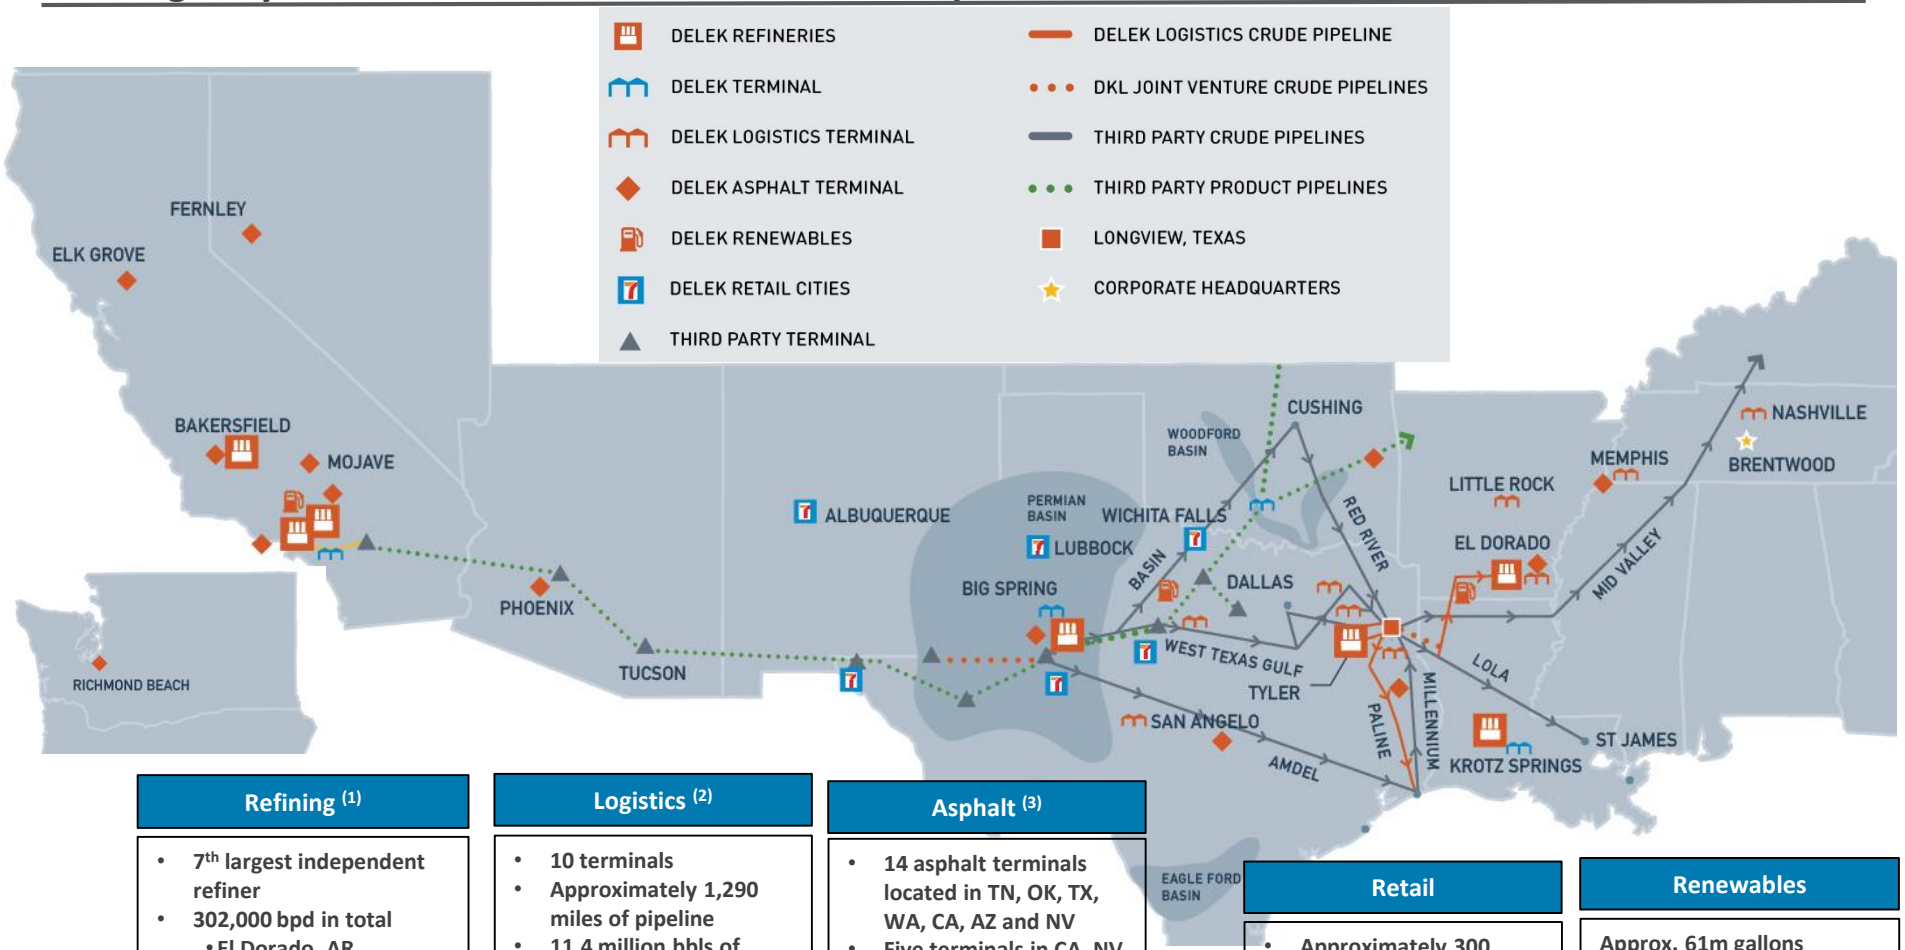

Investment Highlights

Overview (NYSE: DK)	• Current Price: $34.67/share [1] • Market Capitalization: $2.9 billion [1] • NYSE: DKL: (Market cap $673.2 mm) Own 63.5%, including 2% GP[2]
Strong Fourth Quarter 2017 Performance [3]	•Net income of $2.56/share •Adjusted net income of $0.50 /share •Adjusted EBITDA of $154.0 million
Flexible Financial Position to Support Growth	•December 31, 2017 balance sheet: •Delek US: $931.8 million of cash; $1,465.6 million of debt •Includes $4.7 million cash and $422.6 million debt of DKL
Cash Returns to Shareholders	• Repurchased $118.8 million of stock from Nov. 2017 to Feb. 23, 2018 • Approved new $150.0 million authorization • Increased regular quarterly dividend by 33% to $0.20/share from $0.15/share
Alon Acquisition	• Closed Alon USA Energy transaction on July 1, 2017 to purchase remaining 53% • Closed purchase remaining 18.4% Alon USA Energy Partners LP units on February 7, 2018 • Executing on strategic initiatives to unlock value • Simplified corporate structure

(1) Based on price per common share as of close of trading on March 5, 2018.
(2) Currently 5.4% of the ownership interest in the general partner is owned by three members of senior management of Delek US (who are also directors of the general partner). The remaining ownership interest is held by a subsidiary of Delek US.
(3) Please see page 36 for reconciliation of GAAP to non GAAP amounts

Integrated Company with Asset Diversity and Scale

Strategically Located Assets with Permian Basin Exposure

Refining (1)

- 7th largest independent refiner
- 302,000 bpd in total
  - El Dorado, AR
  - Tyler, TX
  - Big Spring, TX
  - Krotz Springs, LA
- Crude oil supply: 262,000 bpd WTI linked (207,000 bpd of Permian access)

Logistics (2)

- 10 terminals
- Approximately 1,290 miles of pipeline
- 11.4 million bbls of storage capacity
- West Texas wholesale
- Joint venture crude oil pipelines: RIO / Caddo
- Own 63.5%, incl. 2% GP, of DKL

Asphalt (3)

- 14 asphalt terminals located in TN, OK, TX, WA, CA, AZ and NV
- Five terminals in CA, NV and AZ in process of being sold
- Largest asphalt supplier in CA and second largest asphalt supplier in TX

Retail

- Approximately 300 stores
- Southwest US locations
- Largest licensee of 7-Eleven stores in the US
- West Texas wholesale marketing business

Renewables

Approx. 61m gallons
Biodiesel:
- Crossett, AR
- Cleburne, TX

Renewable Diesel/Jet:
- California

1) California refineries have not operated since 2012
2) Amounts include the Big Spring drop down that is expected to close in March 2018 with an effective date of March 1, 2018.
3) On February 12, 2018, Delek announced definitive agreement to sell the Mojave, Elk Grove, Phoenix, Fernley and Bakersfield terminals for $75.0 million.

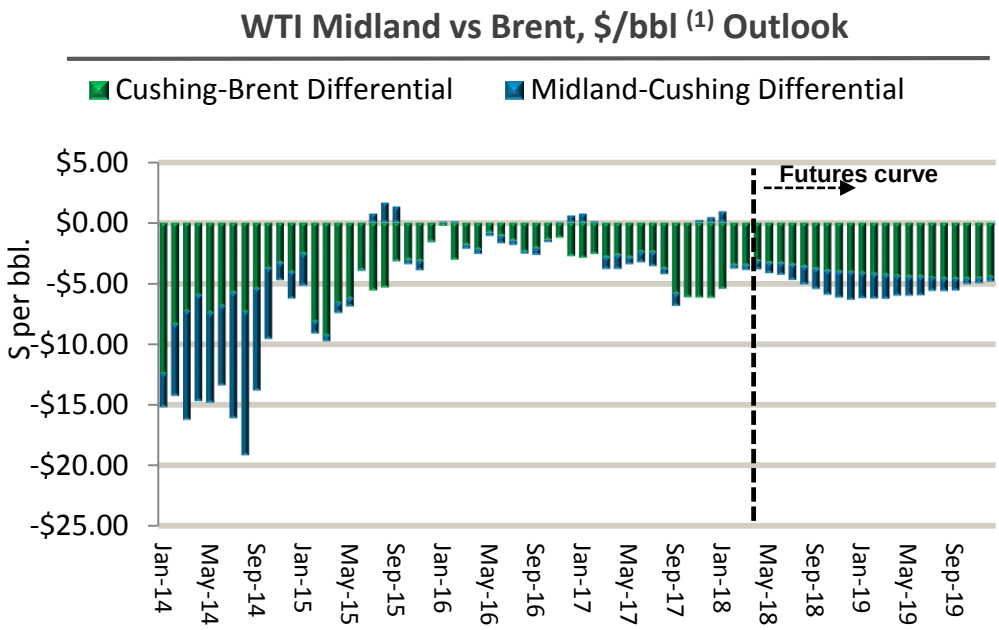

Delek US Permian Focused WTI-Linked Crude Oil Refining System

Current Refining Market Environment

Midland WTI-Brent Crude Oil Price Differential Trends Improving

Differential is additive to crack spread trends in the current market environment

- WTI versus Brent has widened
  - Began in early 2017
- Primary drivers of this change include:
  - Global market improvement - OPEC cuts
  - Current WTI price supports production in U.S.
  - Increased light production from Shale plays
    - Permian production has continued to grow
  - Transportation cost to clear light crude oil in the export market

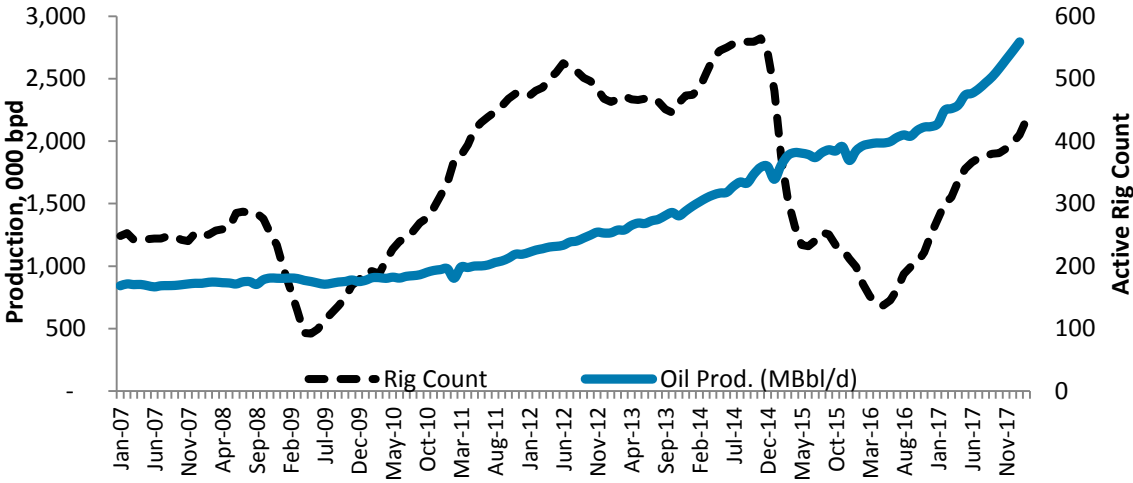

1) Differential source: Argus – March 5, 2018; futures based on ICE/NYMEX curve.

Permian Basin Attractive Drilling Economics Support Growth

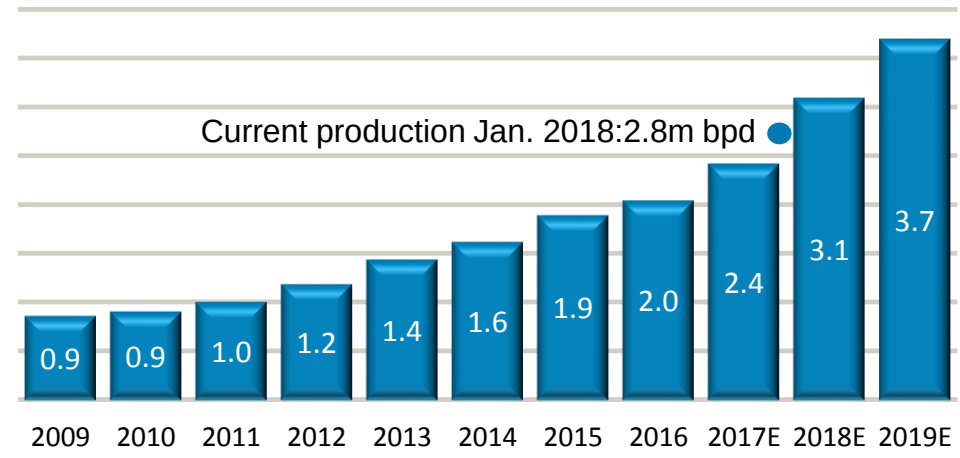

Production continued to grow through crude oil price volatility

- Crude oil production benefited by low breakeven costs and improved efficiencies
- As crude oil prices have increased, rig count has followed
  - Expected crude oil production growth of 600,000 bpd in 2018 and 2019
- Delek US has access to approximately 207,000 bpd of Permian Crude

Crude Oil Production Grew Despite Rig Decline (1)

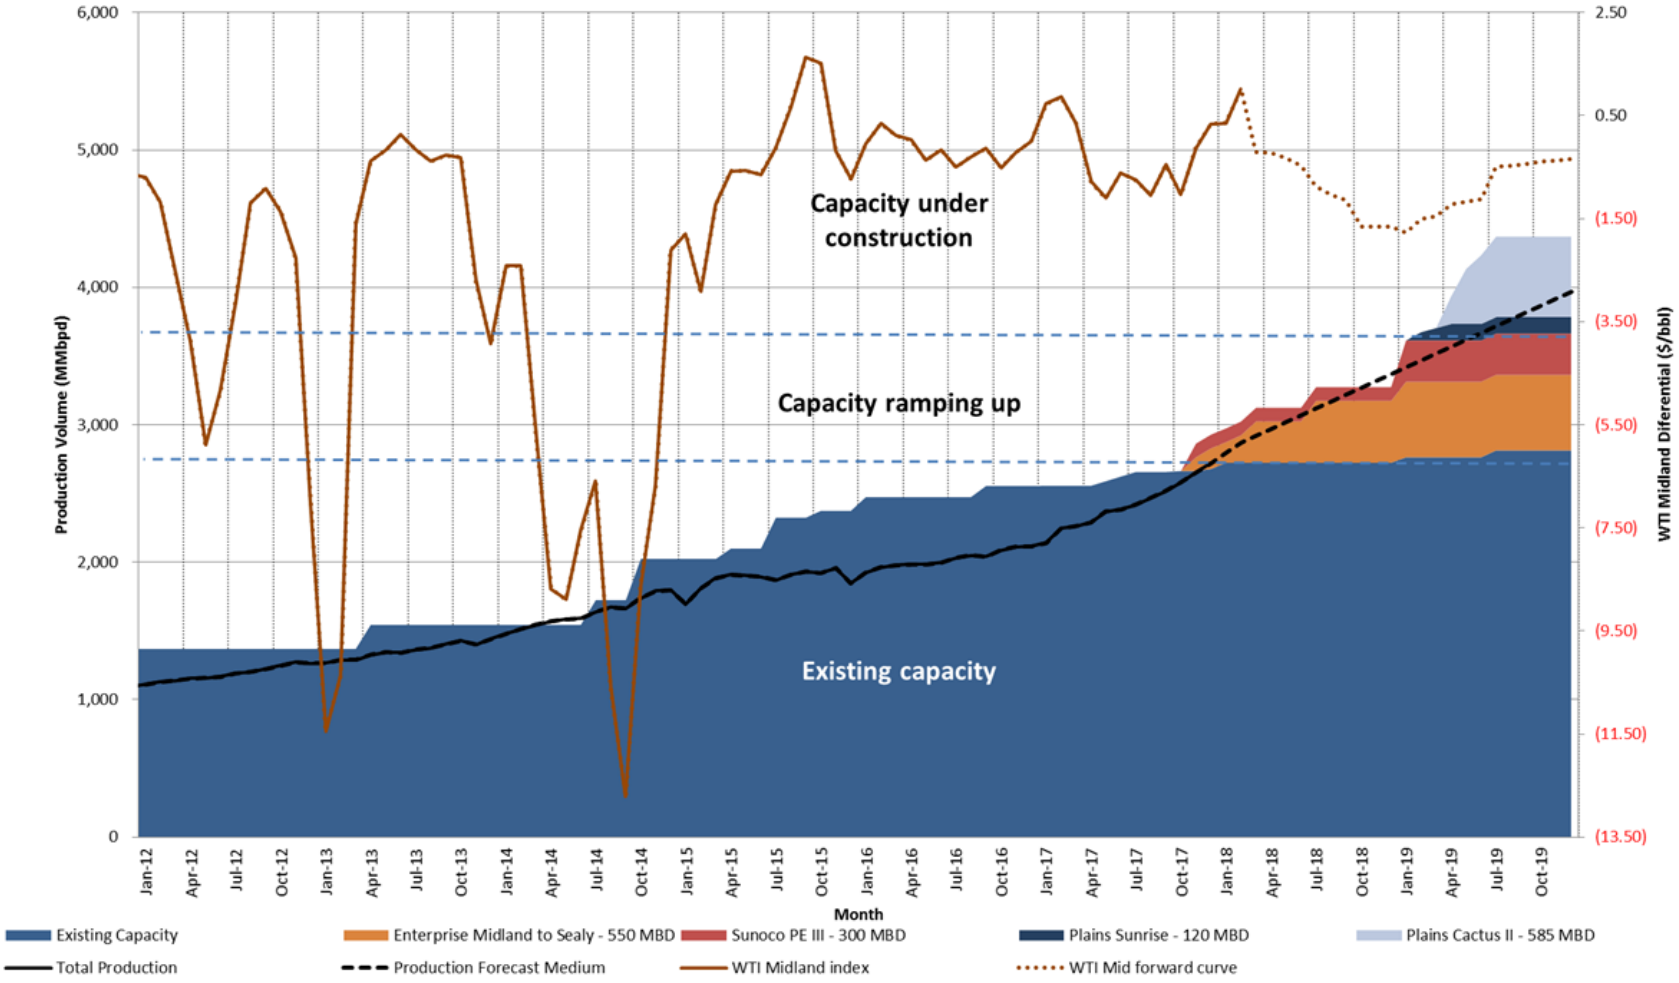

Permian Basin Crude Oil Production Growth (2)

1) EIA production data through January 2018, Drilling Productivity Report; Baker Hughes rig count as of Feb 23, 2018.
2) Company estimates; current production based on EIA for January 2018.

Permian Basin Outlook - Production versus Pipeline Takeaway Capacity

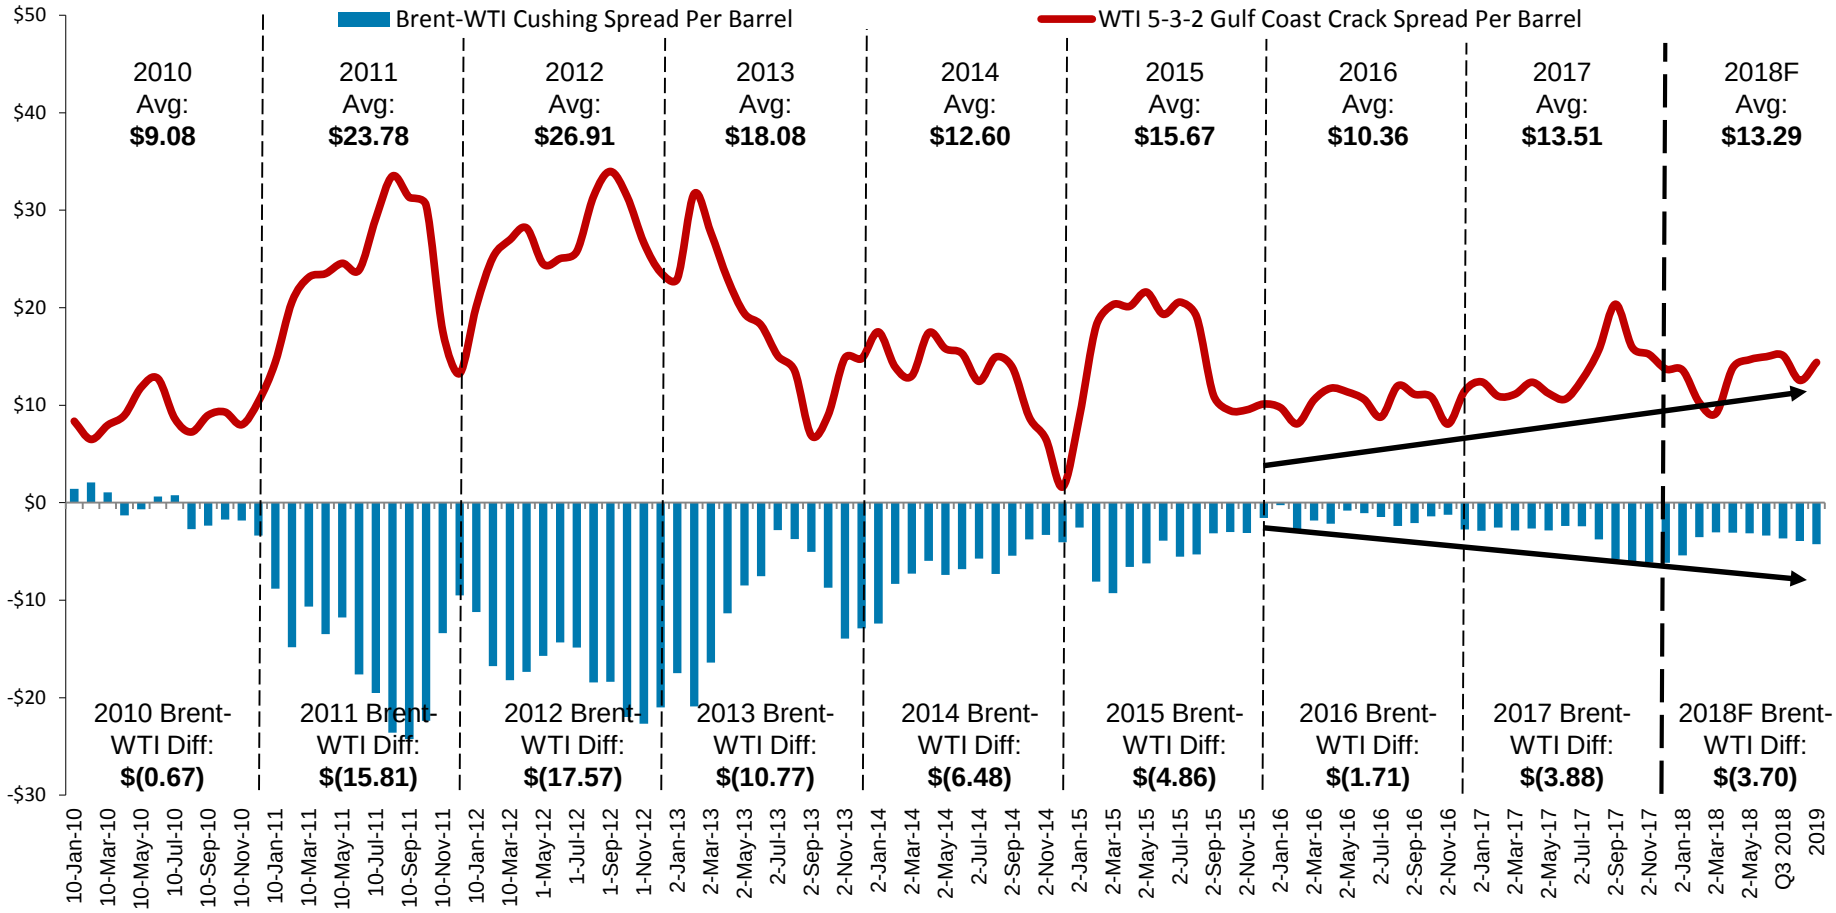

- Outlook assumes production growth of approximately 600 kbpd
- Permian pipeline take-away utilization should remain >90% during 2018
- Plains Sunrise Expansion and Cactus II are the only 2019 projects currently committed out of announced pipelines

Source: Delek US, company reports. Takes into consideration pipelines that are currently being constructed and does not take into account announced potential pipelines that may be constructed in the future.

Crack Spread Cycle Turning Up

Crack spread expected to continue upward trend

(1) Source: Platts as of March 5, 2018; 5-3-2 crack spread based on HSD. Mitsui Forward Curve as of March 5, 2018
(2) Crack Spreads: (+/-) Contango/Backwardation

WTI-Linked Refining System with Permian Based Crude Oil Slate

System with Over 300,000 bpd of Crude Oil Throughput Capacity (~69% Permian Basin Based)

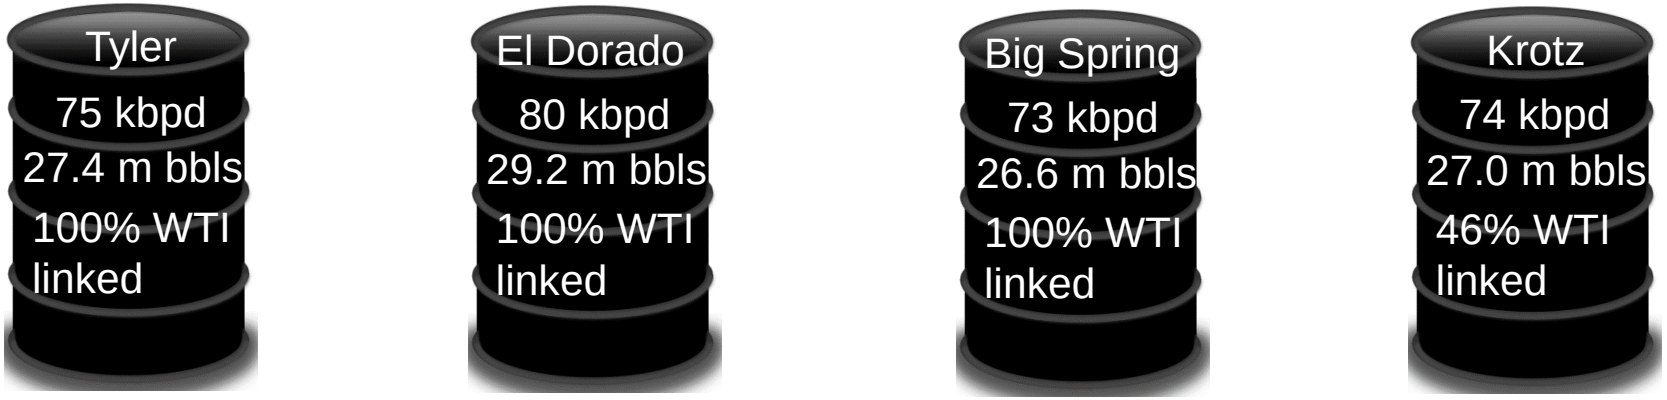

Tyler, Texas
- 75,000 bpd crude throughput
- 8.7 complexity
- Light crude refinery
- Permian Basin and east Texas sourced crude

El Dorado, Arkansas
- 80,000 bpd crude throughput
- 10.2 complexity
- Flexibility to process medium and light crude
- Permian Basin, local Arkansas, east Texas and Gulf Coast crudes

Big Spring, Texas
- 73,000 bpd crude throughput
- 10.5 complexity
- Process WTI and WTS crude
- Located in the Permian Basin

Krotz Springs, Louisiana
- 74,000 bpd crude throughput
- 8.4 complexity
- Permian Basin, local and Gulf Coast crude sources

Crude Oil Supply is Primarily WTI Linked barrels -
- Currently approximately 262,000 bpd/95.6 million barrels per year; $1/bbl. change in WTI-Brent differential is approximately $96 million of EBITDA
- Access to Permian crude oil accounts for 207,000 bpd/ 75 million barrels per year of crude oil supply
- Krotz Springs – Midland vs LLS - Ability to increase Midland barrels by 10,000 bpd

Initiatives Underway to Create Sustainable Value

Acquisition of the remaining Alon USA Partners LP Units

Simplifies corporate structure of Delek US

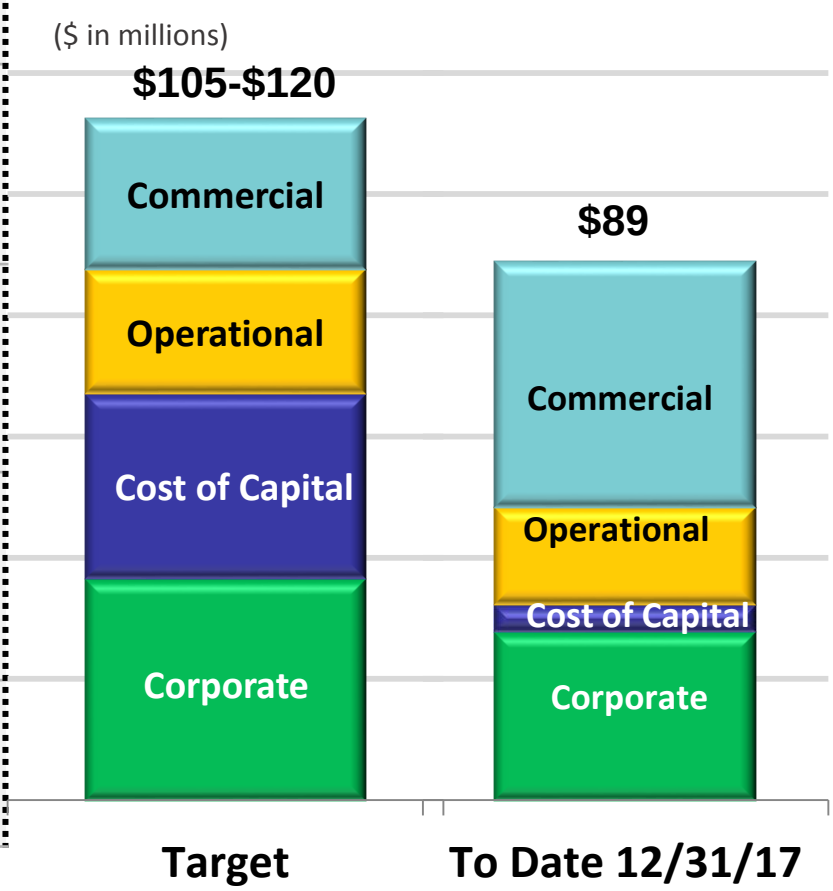

- **On February 7, 2018, acquired remaining limited partner units of Alon USA Partners (ALDW)**
  - Delek US owned 81.6% of the outstanding common units
  - All stock for unit transaction for remaining 18.4% of the outstanding common units
  - Exchange ratio of 0.49 shares of Delek US for each ALDW common unit not already owned by Delek US

- **Expected benefits**
  - Simplified corporate structure
  - Ability to reallocate cash flow from distributions to investment
  - Enables ability to more efficiently drop down logistic assets to DKL in the future
  - Ability to use the balance sheet strength of Delek US to refinance high cost debt at ALDW
  - Reduces number of public companies to 2 (DK and DKL) lowering public company costs

Robust Synergy Opportunity from DK/ALJ Combination

On track to capture targeted synergies from transaction

Type	Description	New Estimate	Previous Estimate
Commercial	• Logistics, purchase and trading benefits from a larger platform	• **$20-$30 m**	• $20-$35 m
Operational	• Sharing of resources across the platform; improved insurance and procurement efficiencies	• **$19-$22 m**	• $13-$15 m
Cost of Capital	• Benefit from Delek US' financial position to reduce interest expense through refinancing efforts	• **$30-$31 m**	• $19-$20 m
Corporate	• Reducing the number of public companies; consolidating functions to improve efficiencies	• **$36-$37 m**	• $33-$35 m

Expect to achieve run-rate synergies of approximately $105-$120 million in 2018;

Increased from original target of $85-$105 million

$89 million of annualized synergies captured as of Dec. 31, 2017

Krotz Springs Improvement Initiatives

Areas of focus to add flexibility and increase margin potential from refinery

Improve Units to Add Product Flexibility

- Alkylation Project – under construction - provides ability to upgrade low value production into higher value gasoline

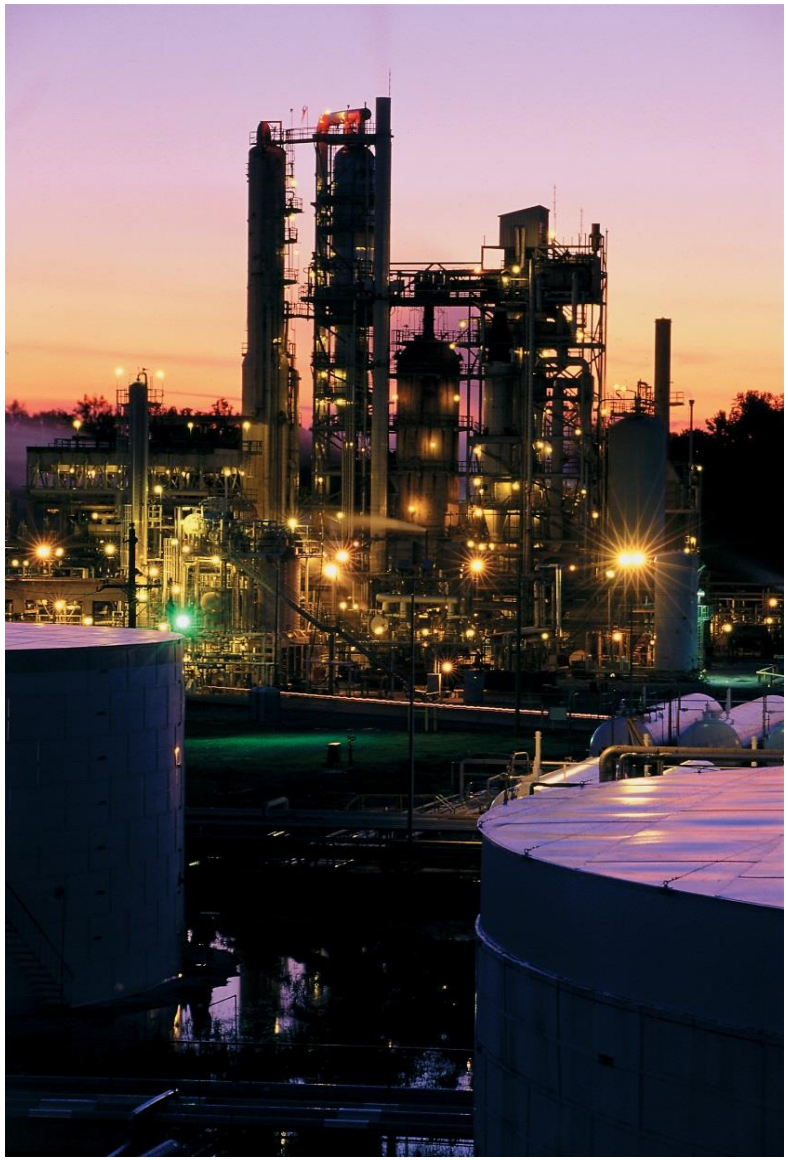

Crude – Transportation and Flexibility

- Transportation – focus on reducing the cost of crude oil delivered into Krotz Springs

- Flexibility – Working with DKL to explore ways to increase ability to access lower cost crude oil
    - Create ability to adjust crude slate between LLS and Midland based on market conditions and refinery runs

Product Netback Improvement

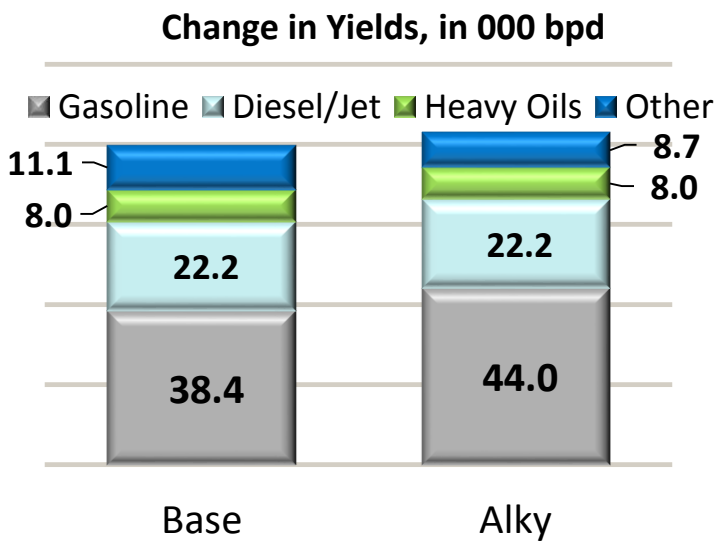

- Build out wholesale business along the Colonial Pipeline system

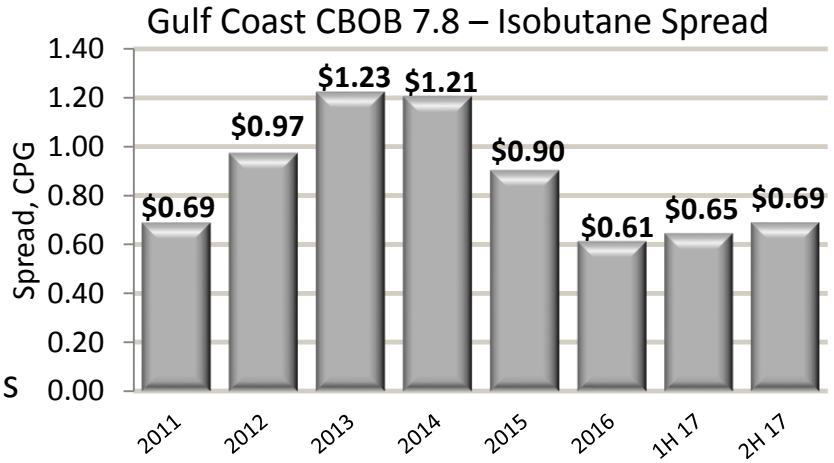

Krotz Springs Alkylation Project

Expected annual EBITDA $35 to $40 million; Target completion in 1Q19

- **Alkylation unit with 6,000 bpd capacity**
  - Approx. $103.0 estimated capital costs with $29.0 million spent as of Dec. 31, 2017
- **Improves refinery flexibility**
  - Converts lower priced iso-butane into higher value alkylate
  - Enables multiple summer grades of gasoline to be produced
  - Increases octane to produce premium gasoline
  - Ability to access local markets
- **Estimated project returns**
  - Estimated annual EBITDA[(1)] $35-$40 million
  - Driven by the conversion/Reduces dependency on crack spread environment for project return
  - Economics based on 67 cents/gallon spread between CBOB 7.8 and iso-butane
  - Sensitivity: each 10 cents/gallon change equals $3.2 million EBITDA change

1) Please see page 37 for a reconciliation of forecasted EBITDA to forecasted net income.

Non-Core Asset Divesture Initiatives

Assets are non core to Delek US geographic footprint; Exploring ways to derive value and reduce costs

- **West Coast Asphalt Terminals**
  - On February 12, 2018 announced definitive agreement to sell West Coast terminals
  - $75.0 million in cash plus working capital
    - Four asphalt terminals in Bakersfield, Mojave and Elk Grove, CA and Phoenix, AZ
    - Delek US' 50 % equity interest in the Paramount-Nevada Asphalt Company, LLC joint venture that operates an asphalt terminal located in Fernley, Nevada
  - Timing: Expected to close in first half 2018 subject to customary closing conditions, certain preferential rights under the joint venture arrangement and regulatory approval.

- **Paramount/Long Beach/Bakersfield, California assets**
  - Refining assets have been idled since 2012
  - Alt Air renewable fuels facility operates at the Paramount location
  - Target to exit J Aron financing agreement for California mid-2018 that should reduce interest and fees
  - Current status:
    - **Paramount and Long Beach** [(1)] - Evaluating options to divest assets
    - **Bakersfield** [(1)] - Evaluating options to lower carrying cost of this location

  - **Goal to divest assets to strategic buyers, returning cash to Delek US and reducing costs related to these assets over time.**
    - $40.0-$45.0 million potential cost savings by divesting all California assets [(2)]; cash flow to Delek from asset sales

1) At Sept. 30, 2017 Paramount and Long Beach were moved to discontinued operations per accounting requirements due to efforts to divest the operations. Bakersfield remains as part of continuing operations.
2) This amounts excludes any benefit from the biodiesel tax credit at Alt Air. Including a biodiesel tax credit at Alt Air the estimated range would be $20.0 to $25.0 million.

Logistics Assets Positioned for Growth

Logistics Assets Positioned to Benefit from Permian Basin Activity

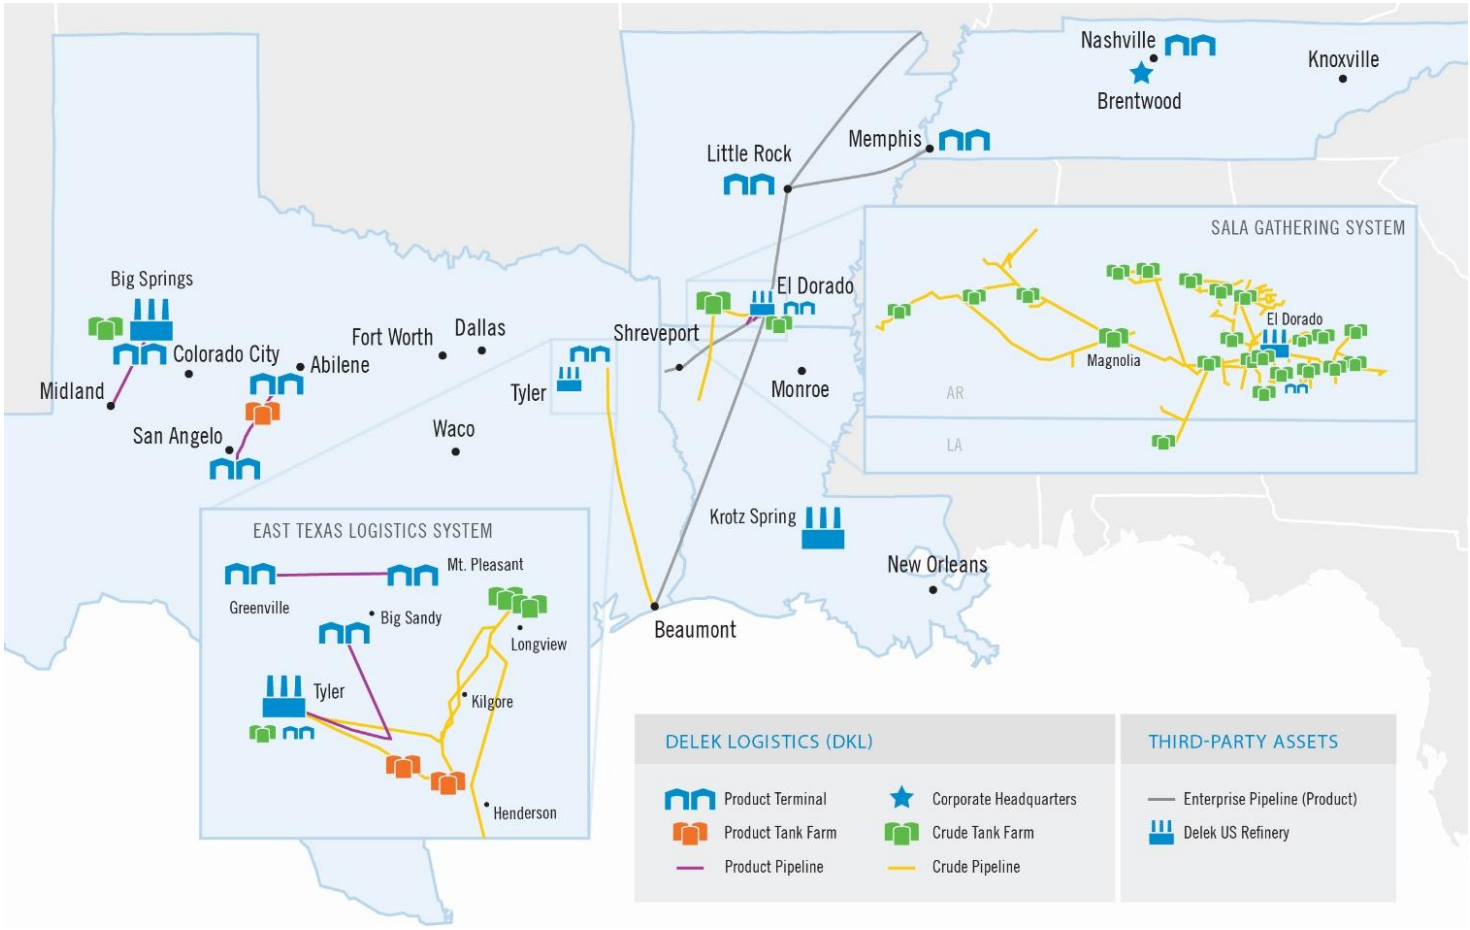

Growing logistics assets support crude sourcing and product marketing for customers

Pipelines/Transportation Segment

- ~805 miles [1] of crude and product transportation pipelines, including the 195 mile crude oil pipeline from Longview to Nederland, TX
- ~ 600 mile crude oil gathering system in AR
- Storage facilities with 10 million barrels [2] of active shell capacity
- Rail Offloading Facility

Wholesale/Terminalling Segment

- Wholesale and marketing business in Texas
- 10 light product terminals: [2] TX, TN, AR
- Approx. 1.4 million barrels [2] of active shell capacity

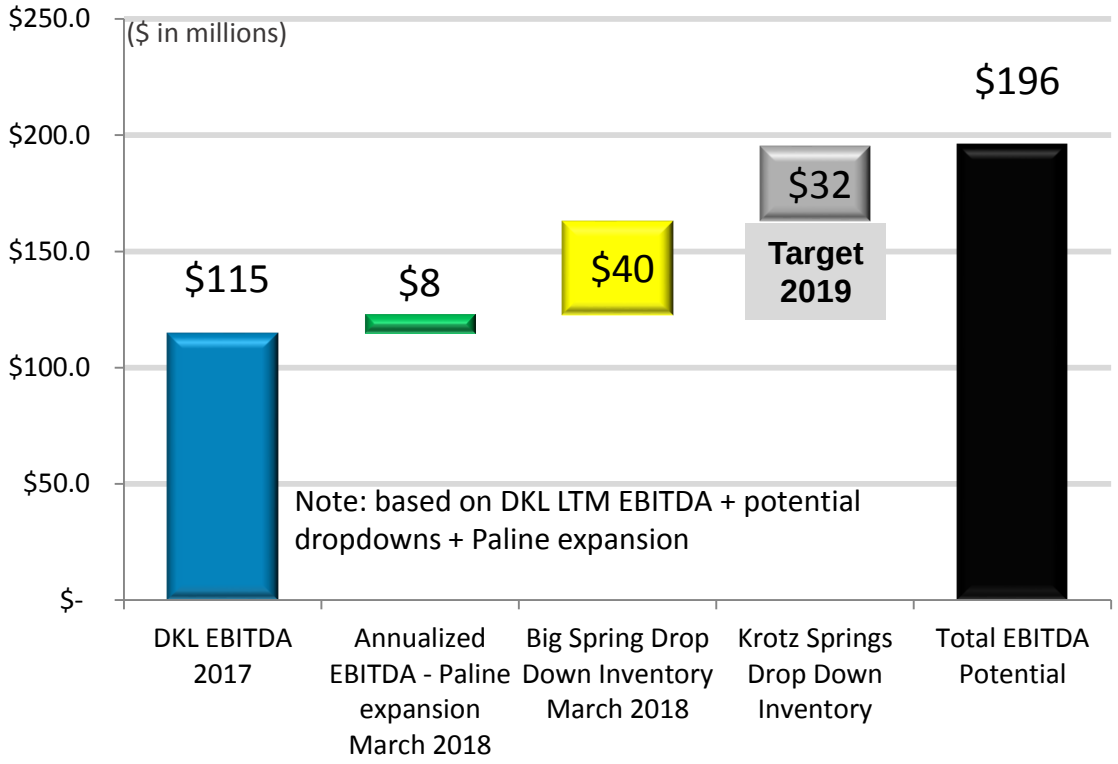

(1) Includes approximately 240 miles of leased pipeline capacity.
(2) Amounts include the Big Spring drop down that is expected to close in March 2018 with an effective date of March 1, 2018.

Increased Drop Down Inventory plus Organic Project Creates Platform to Support Logistics Growth

Potential Growth for DKL

- Delek Logistics Partners provides platform to unlock logistics value
- Increased access to Permian and Delaware basin through presence of Big Spring refinery
  - Improves ability to develop crude oil gathering and terminalling assets
- Big Spring Logistics assets dropdown expected to close in March 2018
  - $40 million est. annualized EBITDA
- Completed Paline Pipeline expansion in early March 2018
  - Capacity to 42,000 bpd from 35,000 bod
  - $8 million est. annualized EBITDA uplift
- **Potential Drop Down Inventory:**
  - Krotz Springs Assets - $30 to $34 million EBITDA/ year (2)

Strong EBITDA Growth Profile Supporting Distribution Growth (1)

1) Information for illustrative purposes only to show potential based on estimated dropdown assets listed. Actual amounts will vary based on market conditions, which assets are dropped, timing of dropdowns, timing of Paline Pipeline 7,000 bpd capacity expansion, actual performance of the assets and Delek Logistics in the future.
2) Please see page 38 and 39 for a reconciliation of EBITDA.

Big Spring Logistics Asset Dropdown

- Drop down expected to close in March with an effective date of March 1, 2018
  - Purchase price of $315.0 million which equates to a 7.8x EBITDA multiple.
  - Expected annualized EBITDA of $40.2 million
  - Financed through a combination of cash on hand and borrowings on the revolving credit facility.

- This acquisition consists of:
  - Storage tanks and salt wells – ~2.9 million barrels of aggregate shell capacity, consisting of 62 tanks, 4 salt wells and ancillary assets, including piping and pumps located at the refinery.

  - Product terminals – Consists of an asphalt terminal that operated at 3,900 bpd during 2H17 and a light products terminal with 54,000 bpd throughput capacity, which operated at 28,000 bpd during 2H17

  - Marketing agreement – Delek US will enter into a new wholesale marketing agreement whereby Delek Logistics will provide services necessary to market various refinery products produced at the Big Spring refinery. During 2H17, total sales volume for products to be covered by this agreement was ~74,700 bpd

1) Please see page 39 for a reconciliation of EBITDA.

Joint Venture with Green Plains Partners
Improves logistics presence in North Little Rock and east Texas

- **On February 20, 2018 announced a joint venture with Green Plains Partners to purchase third party logistics assets**

- **Acquisition**
  - Two light products terminals – Caddo Mills, TX and North Little Rock, AR
  - Purchased from an affiliate of American Midstream for $138.5 million in cash
  - Subject to customary closing conditions and regulatory approval, the transaction is expected to close in the first half of 2018

- **Joint venture structure**
  - Immediately prior to closing Delek Logistics will contribute its North Little Rock, Arkansas terminal and the Greenville tank farm located in Caddo Mills, Texas location plus approximately $57.25 million in cash
  - At closing, Green Plains will contribute approximately $81.25 million in cash
  - Delek Logistics will be the operator

- **Strategic Rationale**
  - Acquired and contributed assets are complementary creating synergy opportunities
  - Well positioned to support Delek US' Tyler, Texas and El Dorado, AR refineries
  - North Little Rock location has ability to unload ethanol unit trains
  - Expected annualized EBITDA of $19.2 million in 2019 at joint venture

1) Please see page 39 for a reconciliation of EBITDA.

Positive Outlook for Paline Pipeline and West Texas Wholesale

Paline Pipeline

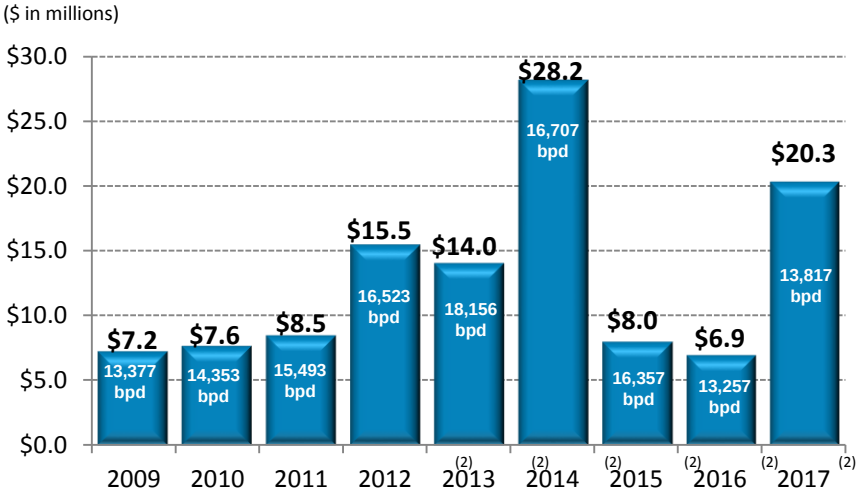

- **Approximately 195-mile 35 kbpd crude oil pipeline from Longview, TX south to Beaumont**
  - Allows shippers the ability to ship Midland or Cushing crude barrels to the Gulf Coast
- **Adding capacity in March 2018**
  - Adding pump capacity to achieve 42,000 bpd
  - Evaluating potential for additional capacity
    - Transmission service agreement period until February 28, 2018 for one year minimum volume commitments

West Texas Wholesale

- **Operates in an area around the Permian Basin; Complementary to Delek US refining / retail in region:**
  - Purchases refined products from third parties for resale at owned and third party terminals in west Texas
  - Includes ethanol blending activity
  - Drilling rig count has increased since May 2016; there are currently 433 rigs operating in the Permian Basin(1)

West Texas Wholesale and Marketing Gross Margin

1) Source: Baker Hughes Drilling Rig report through Feb. 16, 2018.
2) RINs gross margin benefit included in the 2013 west Texas gross margin per barrel was approximately $6.4 million, or $0.99/Bbl, 2014 gross margin included $4.6 million, or $0.75/Bbl, 2015 gross margin included $5.3 million, or $0.89/Bbl, 2016 gross margin included $6.7 million, or $1.39/bbl, 2017 gross margin included $5.6 million, or $1.11/bbl

Future Potential Dropdowns to DKL Benefit Delek US Cash Flow

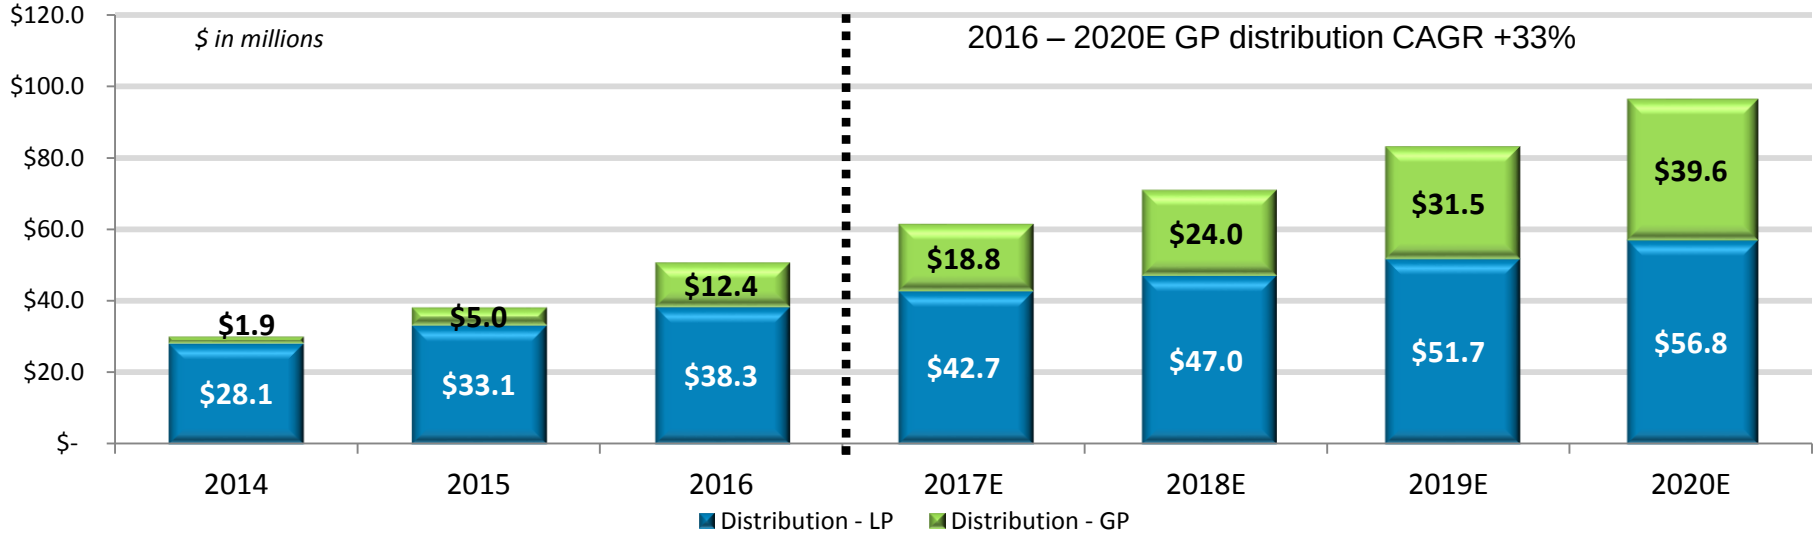

Supports Long Term Distribution Growth at Delek Logistics

- DKL Distribution was $0.725/unit for 4Q 2017
- DKL distribution growth target per LP unit of at least 10% annually through 2019
- Delek US Ownership:
  - 61.5% of LP Units
  - 2% GP Interest

Delek US GP and IDR Ownership is in DKL in the high splits

	Total Quarterly Distribution Per Unit Target Amount	Unitholders	General Partner
Minimum Quarterly Distribution	below $0.37500	98.0%	2.0%
First Target Distribution	$0.37500 to $0.43125	98.0%	2.0%
Second Target Distribution	$0.43125 to $0.46875	85.0%	15.0%
Third Target Distribution	$0.46875 to $0.56250	75.0%	25.0%
Thereafter	above $0.56250	50.0%	50.0%

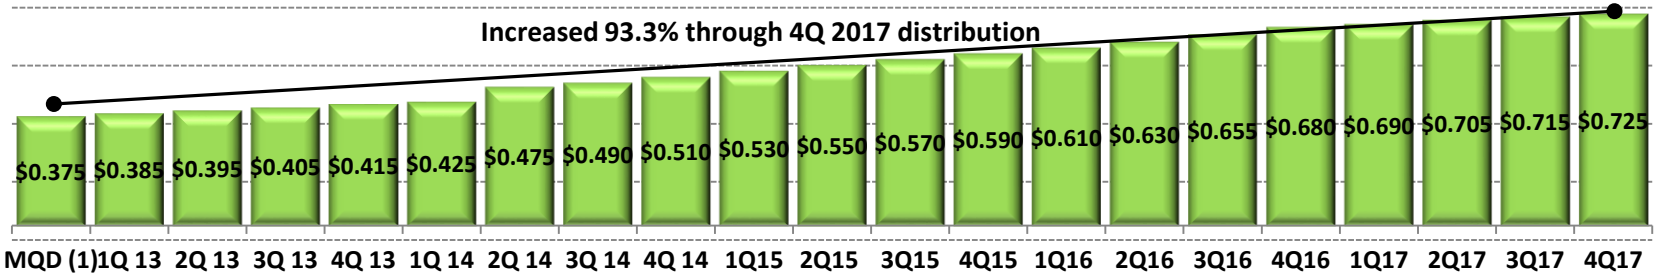

Assumed Annual Distribution (LP and GP) to Delek US if Delek Logistics were to have a long term distribution growth of 10% per year.(1) Combination of all Alon logistic assets, including asphalt, could potentially support growth to 2020

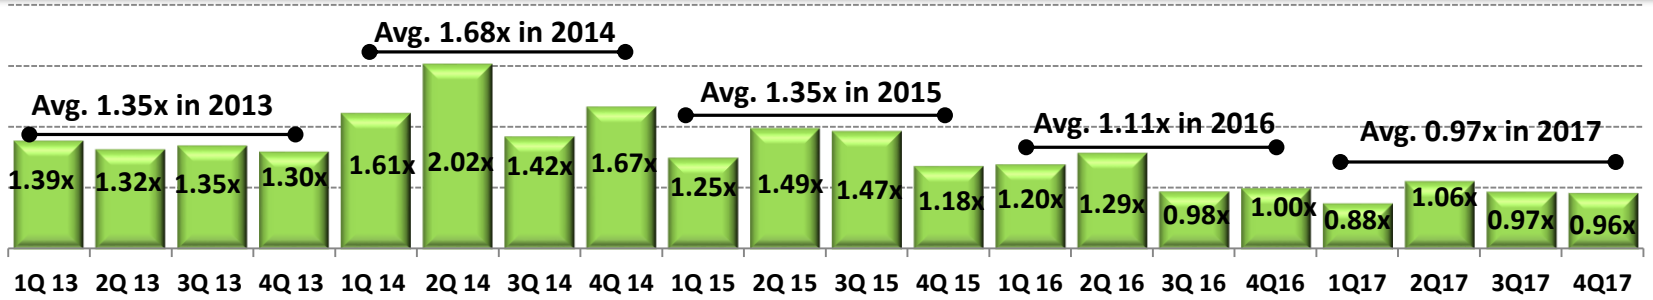

(1) Based on no change in number of units and assumes all units are paid distribution, including IDRs to Delek US and its affiliates. Targeted annual growth rate in distribution based on 10% through 2019 per Delek Logistics guidance in 4Q16 earnings release. Growth based on declared amounts. Growth from 2019 to 2020 based on 10% per year. Delek US and affiliates own approximately 61% of limited partner units and 100% of the general partner units. Information for illustrative purposes only, actual amounts will be determined by Delek Logistics based on future performance and pursuant to its partnership agreement.

DKL: Increased Distribution with Conservative Coverage and Leverage

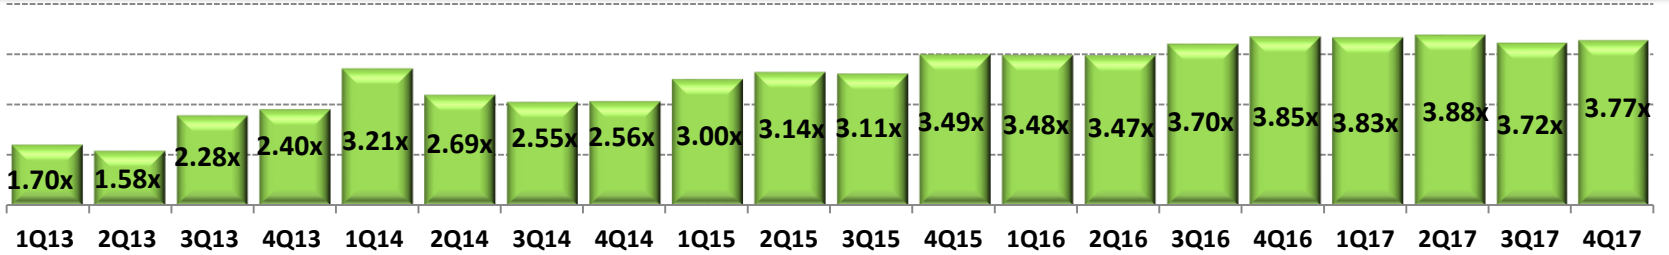

Distribution per unit has been increased twentieth consecutive time since the IPO

Distributable Cash Flow Coverage Ratio [2][3][4]

Leverage Ratio [5]

(1) MQD = minimum quarterly distribution set pursuant to the Partnership Agreement.
(2) Distribution coverage based on distributable cash flow divided by distribution amount in each period. Please see page 38 for reconciliation.
(3) 4Q17 based on total distributions paid on February 12, 2018.
(4) In 4Q17, the reimbursed capital expenditure amounts in the determination of distributable cash flow were revised to reflect the accrual of reimbursed capital expenditures from Delek rather than the cash amounts received for reimbursed capital expenditures during the years ended December 31, 2017, 2016 and 2015.
(5) Leverage ratio based on LTM EBITDA as defined by credit facility covenants for respective periods.

Opportunities for Retail

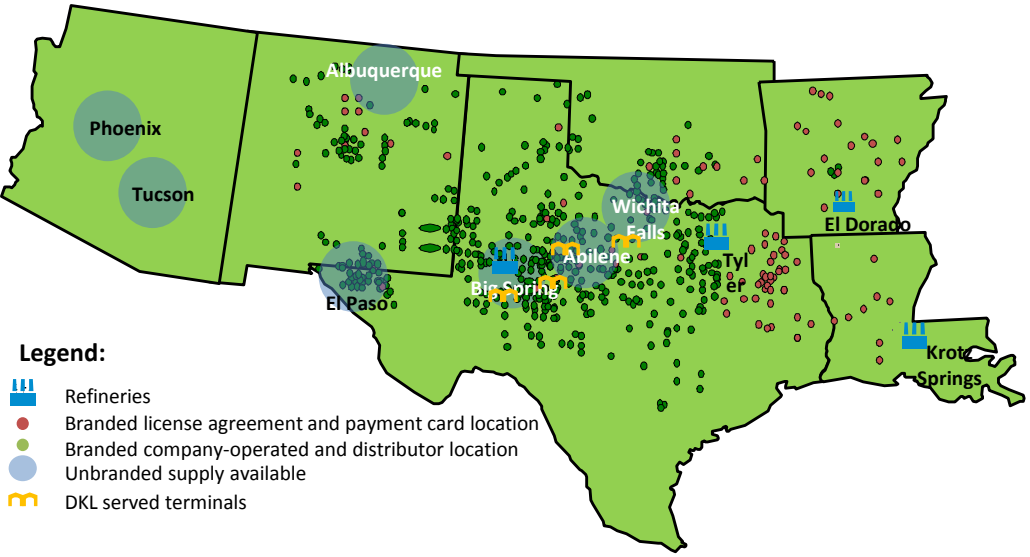

Integrated wholesale marketing and retail network at Big Spring; complementary to DKL west Texas

Current Retail Operations

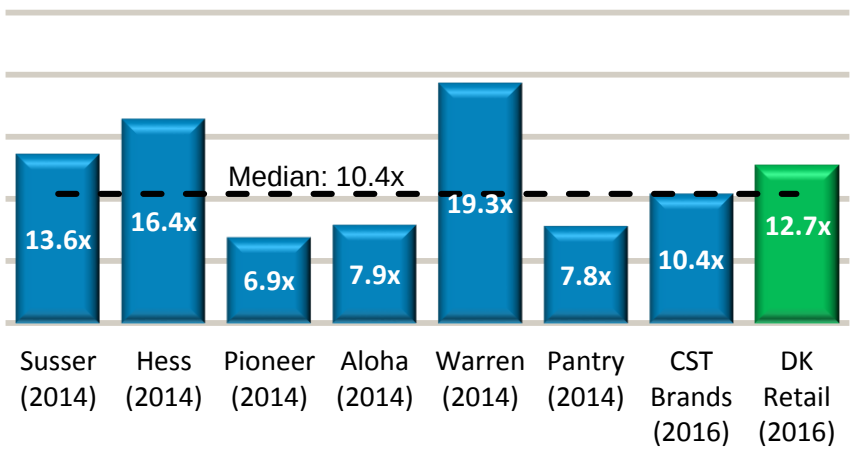

- Approximately 300 store retail system in Central/west Texas and New Mexico
  - Supplies ~635 branded sites, including substantially all of Alon's retail sites
- Opportunity to invest in business to improves store base and grow over time to increase retail system value

Prior Retail Experience

- Built Southeast U.S. retail system with 348 stores
- In November 2016 sold the network for $535.0 million, net cash proceeds of $377.3 million before tax
- Deal value of approximately 12.7x EBITDA multiple

Comparative Retail Transaction EBITDA Multiples

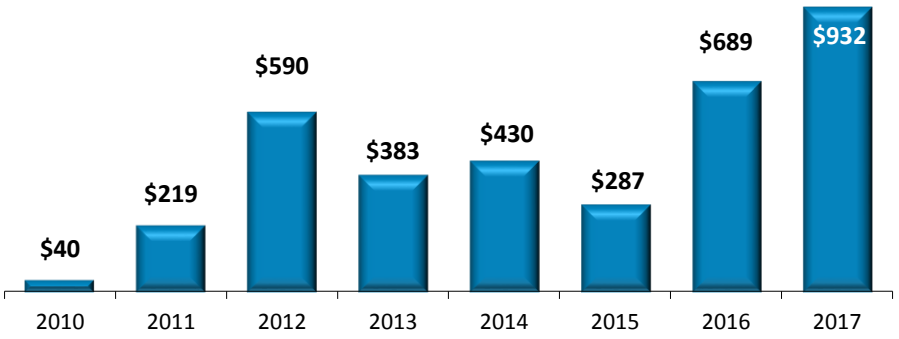

Solid Financial Position

Financial Strength and Flexibility to Support Initiatives

At December 31, 2017 approximately $932 million of cash

- **Focused on growing business, while maintaining financial flexibility**
  - Sold retail assets in Nov. 2016 for $535 million
  - Closed Alon transaction on July 1, 2017
- **At December 31 cash balance of $932 million and net debt of $534 million**
  - Net debt of $116 million excluding DKL related cash/debt
- **Current balance sheet should have financial flexibility to support:**
  - Opportunity for cost of capital benefits from combination estimated to be approximately $30 million
  - Capital allocation program focused on investment, return to shareholders and growth over cycle

Cash Balance ($MM) (1)

Capitalization as of December 31, 2017 (2)

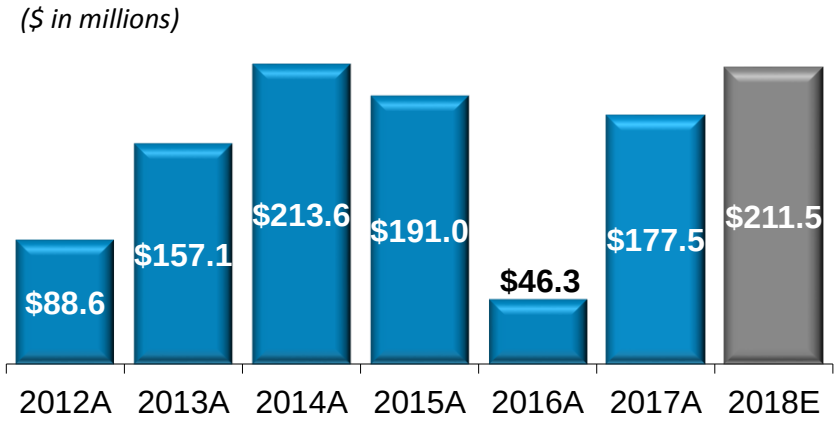

($ in millions)	
Current Debt	$590.2
Long-Term Debt	875.4
Total Debt	**$1,465.6**
Cash	($931.8)
Net Debt Delek US Consolidated	**$533.8**
Delek Logistics	
Total Debt	**$422.6**
Cash	($4.7)
Net Debt Delek Logistics	**$417.9**
Net Debt Delek US excluding DKL	**$115.9**

1) Amounts prior to 4Q16 have been adjusted to remove cash associated the retail operations that were sold in November 2016.
2) Based on company filings as of 12/31/17.

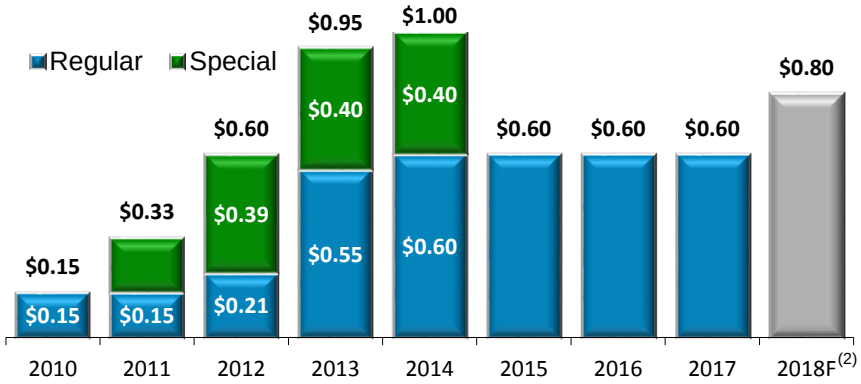

Capital Allocation Focused on Long-Term Value Creation

- **Invest in the business**
  - 2018 spending includes the Alky unit project at Krotz Springs
  - 1Q 2019 El Dorado Turnaround planning underway
- **Programs in place allow different options to return cash to shareholders**
  - Increased regular dividend by 33% to $0.20/qtr
  - $150 million DK share repurchase plan(1) with approximately $30 million remaining as of 2/28/18
  - New $150 million DK share repurchase plan(1) approved; total authorization of $180 million
- **Announced $75.0 million of asset divestitures in February 2018**

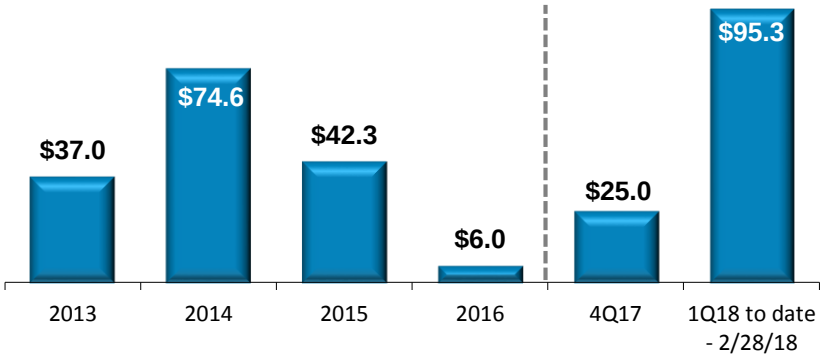

Historical Capital Spending (3)

Dividends Declared ($/share)

DK Share Repurchases ($MM)

1) These plans do not have expiration dates.
2) Based on annualized quarterly dividend of $0.20/share declared on 2/26/18. Actual amount for 2018 subject to approval by the Board of Directors during the year.
3) In addition to 2018 capital expenditures shown, there is approximately $40.0 million of midstream projects to enhance Delek's Permian position in 2018.

Initiatives Underway to Create Sustainable Value

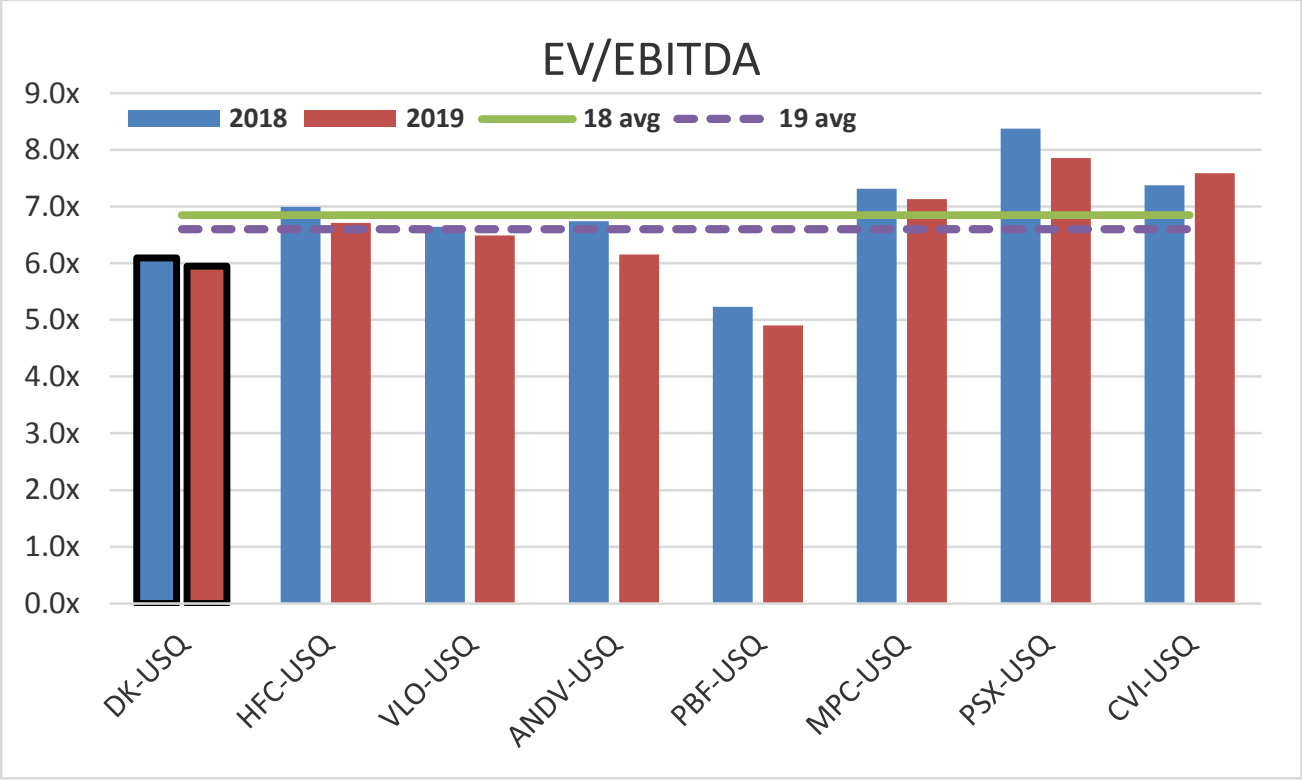

Execution of strategic initiatives

Synergies	• $89 million captured on annualized basis in 4Q17 • Increased annualized target range to $105 million to $120 million • On track to reach annualized goal in 2018
Invest in the Business (Alky Project)	• Improve Krotz Springs refinery flexibility • $103 million project; expected completion in 1Q19 • $35 to $40 million annual EBITDA potential
Invest in the Business (Paline Capacity Increase)	• Increase capacity to 42,000 bpd from 35,000 bpd • $8.0 million potential EBITDA uplift on annual basis
Divest Non core assets	• Divest assets to create cash flow to Delek US • $40 to $45 million potential savings from CA assets • Announced $75 million of asset sales in February 2018
Unlock Logistics Value	• Announced $315 million Big Spring drop down to DKL- $40 million annualized EBITDA • Approximately $32 million of potential logistics annualized EBITDA in dropdown inventory • Supports growth at DKL

Current Valuation Below Peer EV to EBITDA

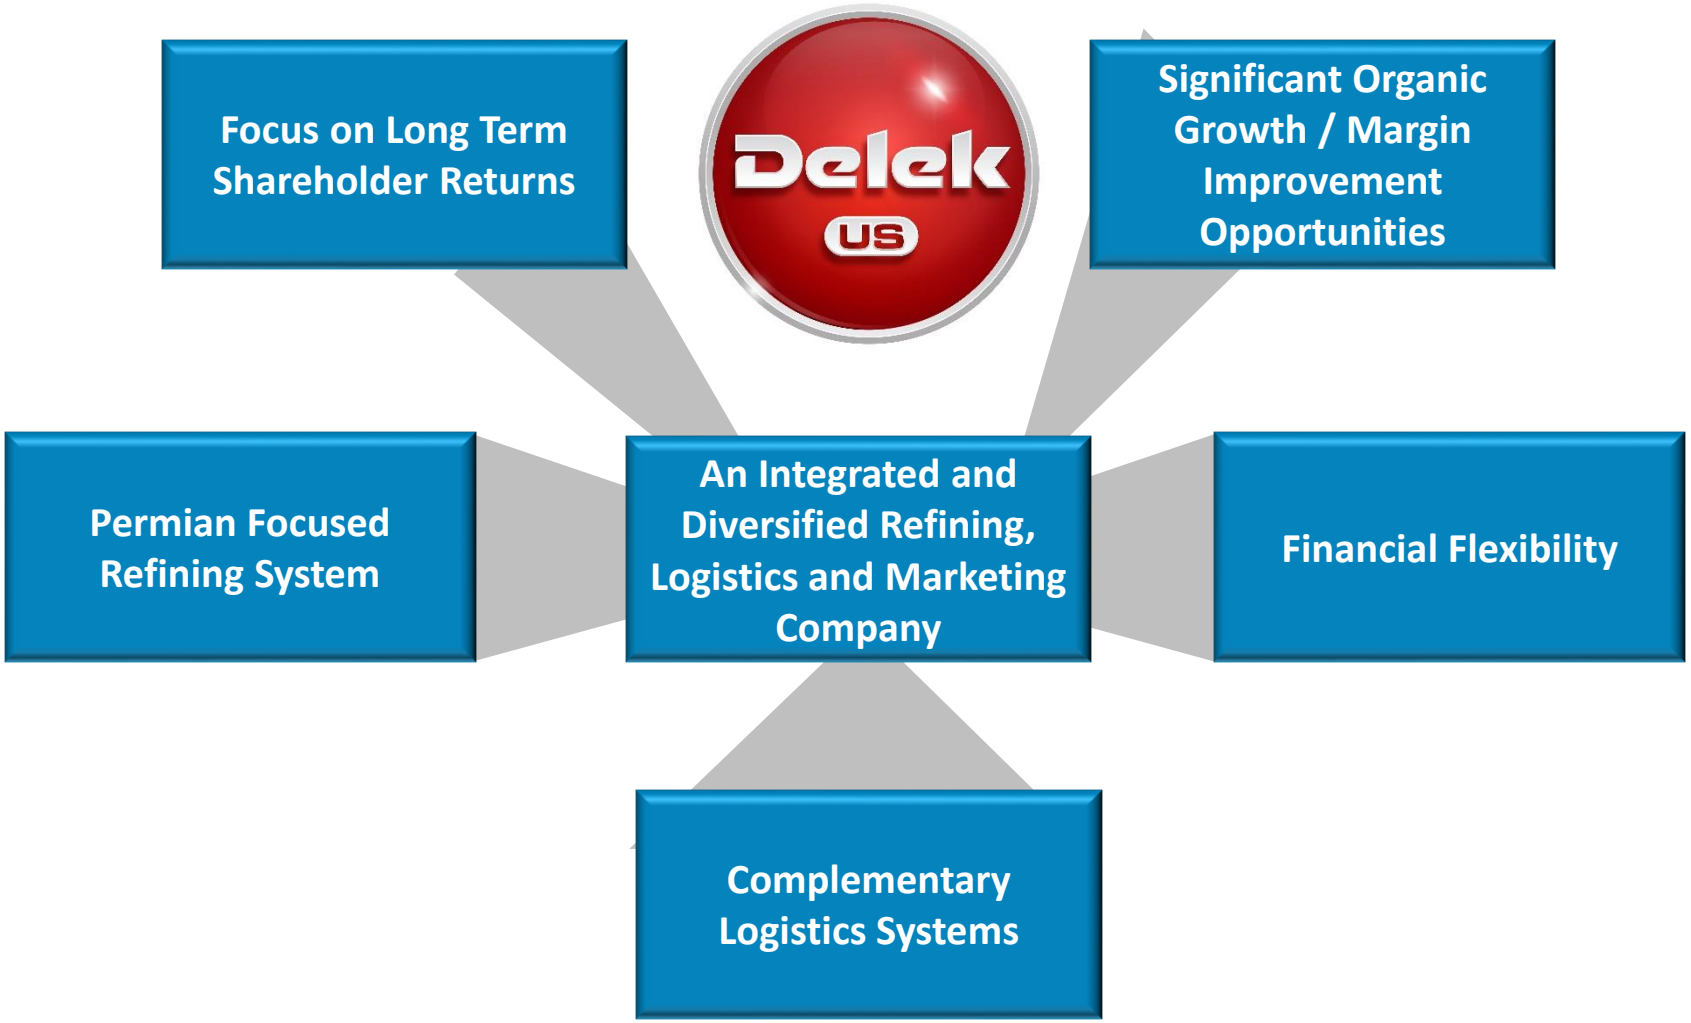

Permian focused refining system with flexible financial position

- Balance sheet with $932 million of cash at 4Q17 supports company initiatives
- Permian focused refining system
- Capital allocation program returning cash to shareholders through share repurchases
- Current valuation for Delek US below peer group may create attractive opportunity

(1) Based on NASDAQ IR Insights/Factset as of March 5, 2018.

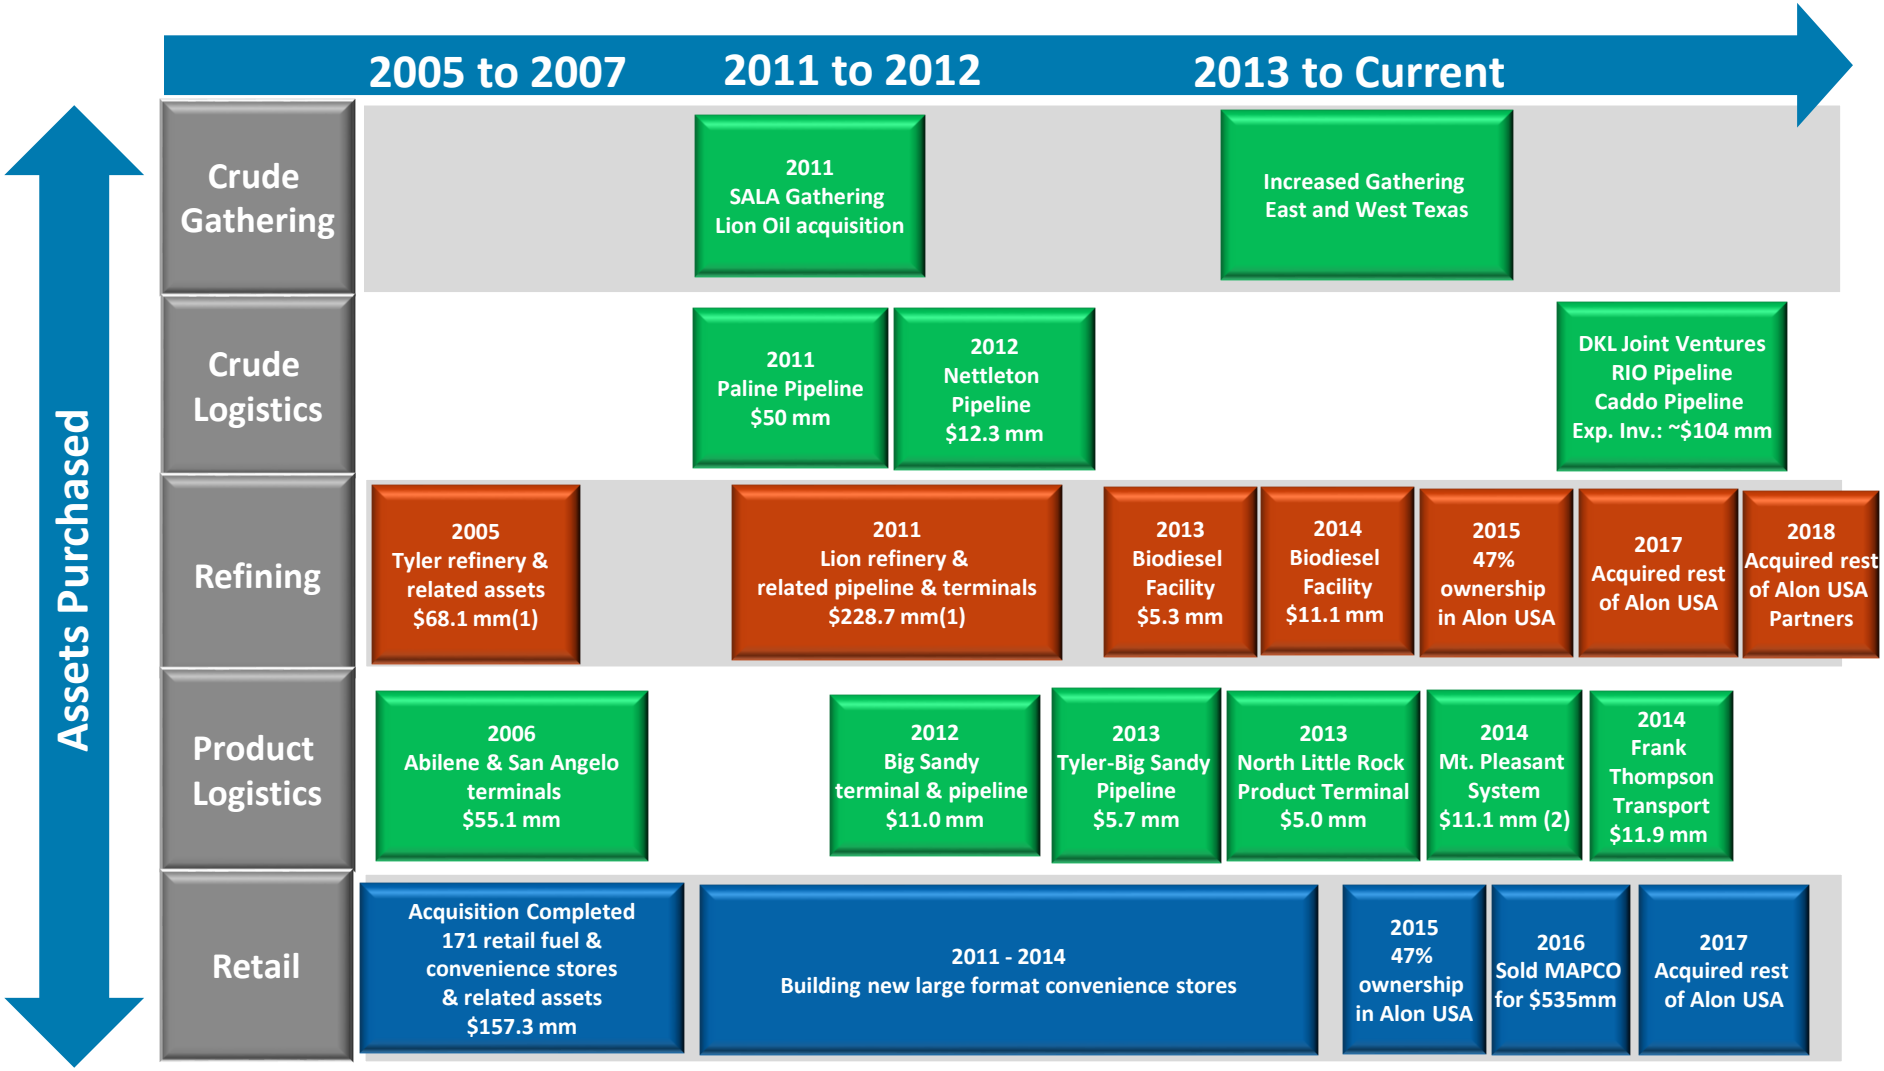

Questions and Answers

Appendix

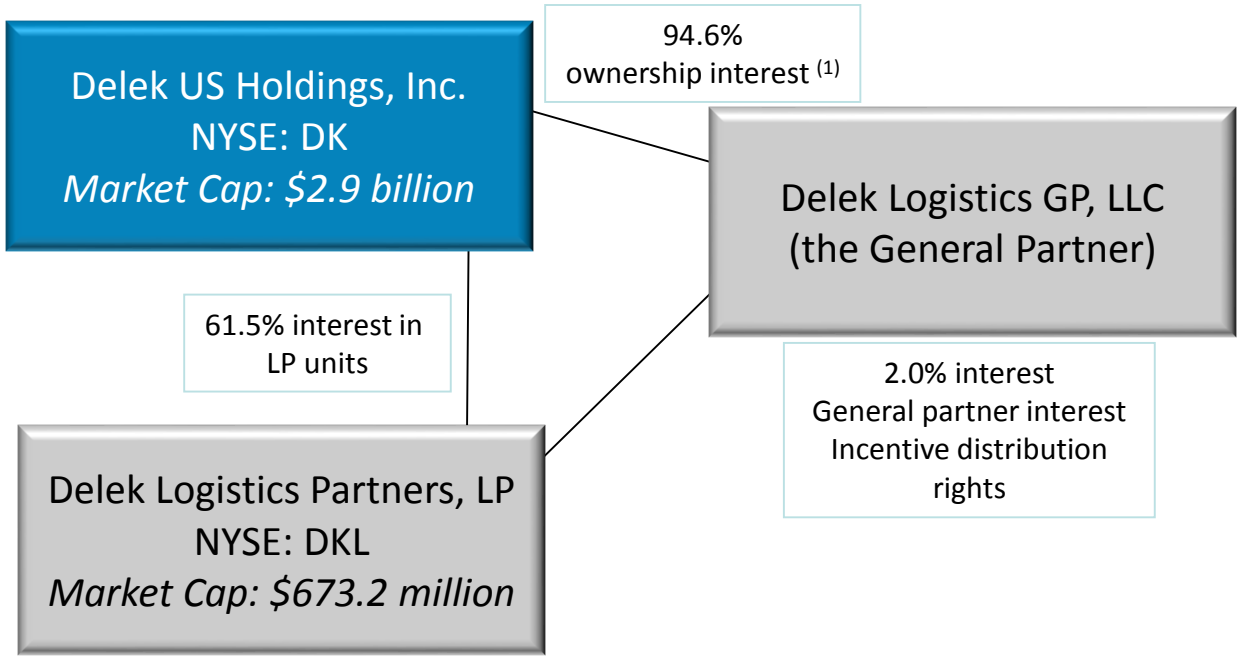

Delek US Focused on Growth through Acquisitions

(1) Includes logistic assets in purchase price. Purchase price includes working capital for refineries.
(2) Mt. Pleasant includes $1.1 million of inventory.

Refinery Segment | Logistics Segment | Retail Segment

Current Delek US Corporate Structure

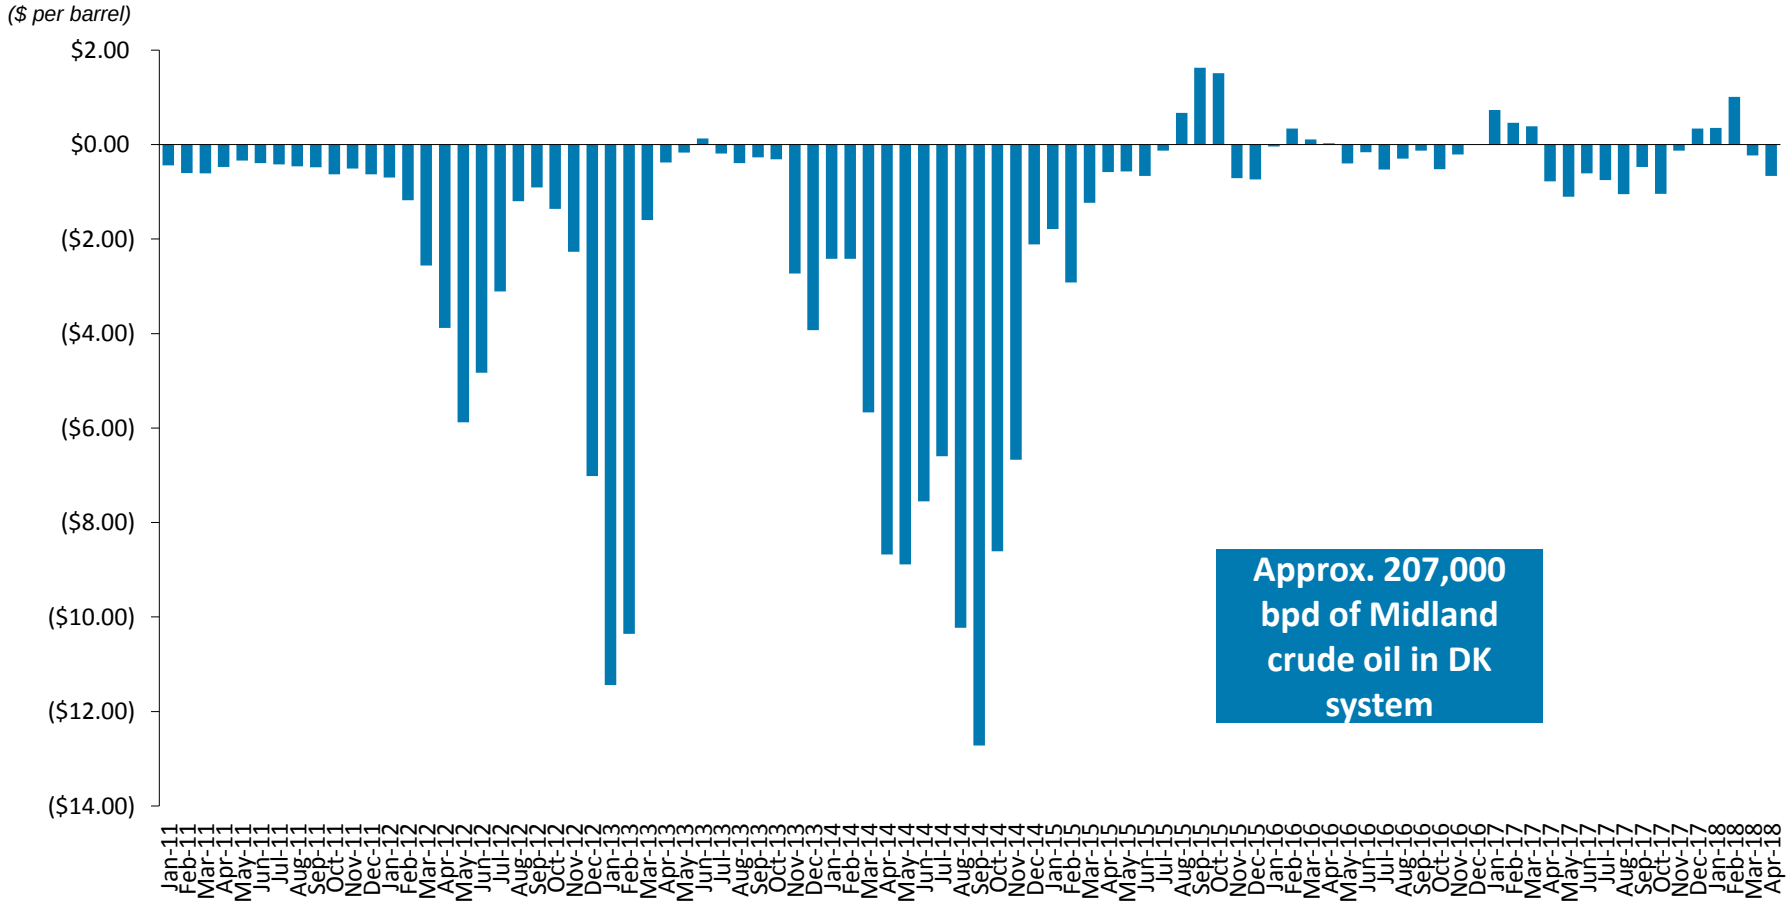

(1) As of December 31, 2017, a 5.4% interest in the Delek US ownership interest in the general partner is held by three members of senior management of Delek US. The remaining ownership interest is indirectly held by Delek US.

(2) Market cap based on share and unit prices on March 5, 2018.

Non GAAP Reconciliations of Potential Alky Unit EBITDA (1)

Reconciliation of Forecast U.S. GAAP Net Income (Loss) to Forecast EBITDA for Alkylation Project	Forecasted Range	
Forecasted Net Income	$ 17.8	$ 21.0
Add:		
Interest Expense, net	—	—
Income tax expense	10.3	12.1
Depreciation and amortization	6.9	6.9
Forecasted EBITDA	$ 35.0	$ 40.0

(1) Based on projected range of potential future performance from the alkylation unit project at Krotz Springs. Amounts of EBITDA, net income and timing will vary. Actual amounts will be based on timing of completion, performance of the project and market conditions.

Non GAAP Reconciliations of Potential Dropdown EBITDA (1)

Reconciliation of Forecasted Logistics Dropdown EBITDA to Forecasted Amounts under US GAAP
Delek Logistics Partners LP
($ in millions)

	Potential Dropdown Range	
Forecasted Net Income Range	$ 2.9	$ 3.3
Add: Depreciation and amortization expenses	$ 15.6	$ 17.7
Add: Interest and financing costs, net	$ 11.5	$ 13.0
Forecasted EBITDA Range	$ 30.0	$ 34.0

(1) Based on projected range of potential future logistics assets that could be dropped to Delek Logistics from Delek US in the future. Amounts of EBITDA, net income and timing will vary, which will affect the potential future EBITDA and associated deprecation and interest at DKL. Actual amounts will be based on timing, performance of the assets, DKL's growth plans and valuation multiples for such assets at the time of any transaction.

Non GAAP Reconciliations of EBITDA (1)

DKGP Energy Terminals LLC

Reconciliation of Forecasted 2019 EBITDA to Forecasted Net Income

($ in millions)	DKGP Joint Venture (2)
Forecasted Net income	$ 11.0
Add:	
Income tax expense	-
Depreciation and amortization	8.2
Interest expense, net	-
Forecasted EBITDA	**$ 19.2**

Big Spring Logistics Drop Down and Marketing Agreement

Reconciliation of Forecasted Annualized EBITDA to Forecasted Net Income

($ in millions)	Tanks, Terminals and Marketing Agreement
Forecasted Net income	$ 20.5
Add:	
Income tax expense	-
Depreciation and amortization	5.1
Interest expense, net	14.6
Forecasted EBITDA	**$ 40.2**

(1) Amounts of EBITDA, net income and timing will vary, which will affect the potential future EBITDA and associated deprecation and interest at DKL. Actual amounts will be based on timing, performance of the assets, DKL's growth plans and valuation multiples for such assets at the time of any transaction.

(2) This amount represents the forecasted 2019 performance for the total joint venture. Each partner will record performance based on their respective percentage ownership in the joint venture.

DKL: Reconciliation of Cash Available for Distribution

(dollars in millions, except coverage)	2013 [2]	1Q14 [2]	2Q14 [2]	3Q14 [2]	4Q14 [2]	2014 [2]	1Q15 [2]	2Q15 [2]	3Q15 [2]	4Q15 [2]	2015 [2]	1Q16	2Q16	3Q16	4Q16	2016	1Q17	2Q17	3Q17	4Q17	2017

Reimbursement for Capital Expenditures	0.8	-	-	-	1.6	1.6	1.6	1.8	2.0	0.2	5.5	0.2	0.2	0.4	2.4	3.3	0.9	0.5	0.4	1.7	3.5
Distributable Cash Flow	$52.9	$17.0	$24.0	$17.7	$21.8	$80.3	$17.1	$21.4	$22.2	$19.0	$79.8	$20.4	$23.3	$18.8	$20.6	$83.0	$18.4	$23.0	$21.6	$21.9	$85.0
Coverage [1]	1.35x	1.61x	2.02x	1.42x	1.67x	1.68x	1.25x	1.49x	1.47x	1.18x	1.35x	1.20x	1.29x	0.98x	1.00x	1.11x	0.88x	1.06x	0.97x	0.96x	0.97x
Total Distribution [1]	$39.3	$10.5	$11.9	$12.4	$13.1	$47.9	$13.7	$14.4	$15.1	$16.1	$59.3	$17.1	$18.1	$19.3	$20.5	$75.0	$21.0	$21.8	$22.3	$22.8	$87.9

(1) Distribution based on actual amounts distributed during the periods; does not include a LTIP accrual. Coverage is defined as cash available for distribution divided by total distribution.

(2) Results in 2013, 2014 and 2015 are as reported excluding predecessor costs related to the drop down of the tank farms and product terminals at both Tyler and El Dorado during the respective periods.

In 4Q17, the reimbursed capital expenditure amounts in the determination of distributable cash flow were revised to reflect the accrual of reimbursed capital expenditures from Delek rather than the cash amounts received for reimbursed capital expenditures during the years ended December 31, 2017, 2016 and 2015.

Note: May not foot due to rounding and annual adjustments that occurred in year end reporting.

(1) Includes approximately $2.0 million of estimated annual incremental general and administrative expenses expected to incur as a result of being a separate publicly traded partnership.
(2) Interest expense and cash interest both include commitment fees and interest expense that would have been paid by the predecessor had the revolving credit facility been in place during the 12 months ended 9/30/13 period presented and Delek Logistics had borrowed $90.0 million under the facility at the beginning of the period. Interest expense also includes the amortization of debt issuance costs incurred in connection with our revolving credit facility.
(3) Forecast provided in the IPO prospectus on Nov. 1, 2012.
(4) Results in 2013 and 2014 are as reported excluding predecessor costs related to the drop down of the tank farms and product terminals at both Tyler and El Dorado during the respective periods.
(5) Results for 1Q15 are as reported excluding predecessor costs related to the 1Q15 drop downs.
Note: May not foot due to rounding.
