The accompanying Notes are an integral part of these condensed consolidated unaudited interim Financial Statements.

1 Reporting entity

ZIM Integrated Shipping Services Ltd. (hereinafter - the "Company" or "ZIM") and its subsidiaries (hereinafter – "the Group" or "the Companies") and the Group's interests in associates, operate in the field of cargo shipping and related services.

ZIM is a company incorporated in Israel, with limited liability. ZIM's ordinary shares have been listed on the New York Stock Exchange (the "NYSE") under the symbol "ZIM" on January 28, 2021. The address of the Company's registered office is 9 Andrei Sakharov Street, Haifa, Israel.

2 Basis of compliance

(a) Statement of compliance

These condensed consolidated unaudited interim Financial Statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all of the information required for annual Financial Statements and should be read in conjunction with the consolidated Financial Statements of the Company as at and for the year ended December 31, 2024 (hereafter – the "annual Financial Statements"). These condensed consolidated unaudited interim Financial Statements were approved by the Board of Directors on August 20, 2025.

(b) Estimates

The preparation of Financial Statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The significant judgments made by management in applying the Group's accounting policies and the principal assumptions used in the estimation of uncertainty were the same as those applied in the annual Financial Statements.

3 Material accounting policies

The material accounting policies applied by the Group in these unaudited condensed consolidated interim Financial Statements are the same as those applied by the Group in its annual Financial Statements.

4 Financial position

- (a) The container shipping industry continues to be impacted by the supply and demand dynamics, as well as by uncertainties in the global trade, including the continuing disruption in the Red Sea, the escalating trade barriers between the US and China and other countries, the implications of the ongoing armed conflicts between Russia and Ukraine and in the Middle-East, the inflation and elevated interest rates in certain countries and other geopolitical challenges. These factors contribute to the continuing volatility in freight rates, charter rates and bunker prices. In addition, in recent quarters, regulators in certain jurisdictions have increased their regulatory oversight activities over our industry, by, among others, increased audit activities and introduction of new regulation relating to the contractual routines between carriers and their customers.

In April 2025, the US administration declared its intention to impose new fees, as from mid-October 2025, on vessels calling ports in the US, which were built in China or are owned / operated by Chinese entities. The Company is reviewing the potential impact of these fees and is taking measures to mitigate their effects, but if it is unable to fully succeed in mitigating their effect, these fees could materially increase its operational costs and adversely affect its results of operation.

As of today, the war situation in Israel, which started in October 2023 and recently included a direct armed conflict between Israel and Iran, has had no material impact on the Company's activities in Israel. However, those may be subject to temporary disruptions if this situation was to further escalate.

Since December 2023, many ocean carriers including the Company, paused their activities in the Red Sea, following attacks made against commercial vessels by armed organizations in Yemen. The Company continues to call ports in the Mediterranean Sea, as well as to operate services which previously crossed the Suez-canal, by re-routing its vessels around Africa. This disruption results in the extension of voyages duration, as well as leading to an increase in demand for vessel capacity, as additional vessels are operated in order to maintain the same frequency of services.

Further to the above, during 2024 freight rates have experienced an overall increase, although decreases were observed during the second half of the year, as well as during the first quarter of 2025. During the second quarter of 2025, freight rates exhibited high level of volatility in most trades, as markets reacted to announcements on tariffs issued by the U.S administration.

In view of the aforementioned business environment and in order to constantly improve the Group's results of operations and liquidity position, Management continues to optimize its network by considering, and when appropriate, implementing structural changes, participating in partnerships and cooperation agreements and by upgrading its customer's offerings, whilst seeking operational excellence and cost efficiencies.

- (b) In September 2024, the Company entered into a long-term operational cooperation with Mediterranean Shipping Company (MSC), which was launched in February 2025, for a minimum period of three years. According to this cooperation, the Company and MSC operate together six services on the Asia - US East Coast and Asia - US Gulf trades, enabling ZIM to provide its customers with extended port coverage and improved service quality, while achieving significant operational efficiencies.

4 Financial position (cont'd)

Further to the abovementioned factors affecting the trade lanes within the scope of this partnership, the Company and MSC are actively leveraging their operational collaboration to constantly adjust the overall capacity being deployed on those services as dictated by market trends and demand.

The Company's operational cooperation with the 2M alliance (Maersk and MSC), originally launched in 2018, covering services on the Asia - US East Coast and Asia - US Gulf trades, has ended in January 2025, further to the previously announced termination of the 2M alliance.

(c) Charter agreements:

In April 2025, the Company entered into a series of long-term time charter agreements, with a company affiliated with the TMS Group, for ten 11,500 TEU liquefied natural gas (LNG) dual-fuel container vessels. The vessels are scheduled to be delivered during the second half of 2027 and into 2028 and will be deployed across the Company's various global trades. Pursuant to these agreements, the Company will charter the vessels for a period of twelve years, for a total aggregated consideration of approximately US\$ 2.3 billion. In addition, and for each vessel, at the end of the initial twelve-year charter period, the Company has secured an option to either purchase the vessel or to extend the charter duration for an additional period of three years.

(d) During the first quarter of 2025, the Company acquired two vessels which were operating in its fleet under prior charter arrangements. Out of the related consideration, an amount of US\$ 52 million is presented in the cash flow statement as repayment of lease liabilities.

(e) During the third quarter of 2024, the Company was approached by the Federal Maritime Commission (FMC), requesting the Company to provide certain information regarding its demurrage and detention and cargo hold practices vis-à-vis a number of its customers during the period of 2023 and 2024 (see also Note 27(k) to the Company's 2024 Annual financial statements). In June 2025, the Company received a notice of proposed fine of US\$ 10 million from the FMC, which is primarily related to the Company's cargo hold practices that are based on the wording of the contracts with its customers. The Company is currently reviewing with its counsel the notice received in June 2025, and at this preliminary stage is unable to assess the ultimate consequences of this matter, although the Company believes that it has good arguments against the imposition of fine on the Company with respect to this matter.

(f) Dividends:

In April and June 2025, further to the approval of the Company's Board of Directors, the Company distributed dividends in amounts of US\$ 382 million and US\$ 89 million, reflecting US\$ 3.17 and US\$ 0.74 per ordinary share, respectively.

In August 2025, the Company's Board of Directors approved a dividend distribution of approximately US\$ 0.06 per ordinary share (or approximately US\$ 7 million, considering the number of ordinary shares outstanding as of June 30, 2025). The dividend is scheduled to be paid on September 9, 2025 to all holders of ordinary shares on record as of September 2, 2025.

5 Capital and reserves

Share-Based Payment Arrangements

During the three months period ended June 30, 2025 and 2024, the Company recorded expenses related to share-based compensation arrangements of US\$ 0.9 million and US\$ 2.7 million, respectively. During the six months period ended June 30, 2025 and 2024 and year ended December 31, 2024, the Company recorded expenses related to share-based compensation arrangements of US\$ 2.6 million, US\$ 5.8 million and US\$ 10.0 million, respectively.

10 Earnings per share

Basic and diluted earnings per share

	Six months ended June 30		Three months ended June 30		Year ended December 31
	2025	2024	2025	2024	2024
	US \$ in millions				
Profit attributable to ordinary shareholders used to calculate basic and diluted earnings per share (US \$ in millions)	318.1	461.6	22.8	371.3	2,147.7
Number of shares at the beginning of the period used to calculate basic earnings per share	120,423,335	120,286,629	120,457,512	120,320,806	120,286,627
Effect of share options	25,113	37,557		20,280	70,688
Weighted average number of ordinary shares used to calculate basic earnings per share	120,448,448	120,324,186	120,457,512	120,341,086	120,357,315
Effect of share options	62,674	130,125	50,681	115,256	135,110
Weighted average number of ordinary shares used to calculate diluted earnings per share	120,511,122	120,454,311	120,508,193	120,456,342	120,492,425

In the six and three months period ended June 30, 2025, options for 1,911,592 ordinary shares, granted under the Company's share option plans for employees, officers and directors were excluded from the diluted weighted average number of ordinary shares calculation as their effect would have been anti-dilutive.
