Vontier Brings the Connected Retail Ecosystem to Life at NACS 2026

2026-10-02

Unified payments and connected technologies enable convenience retailers to simplify operations, connect critical site assets and elevate consumer experiences to stay ready for what's next

RALEIGH, N.C.--(BUSINESS WIRE)-- Vontier (NYSE: VNT), a leading global provider of critical technologies and solutions to connect, manage and scale the mobility ecosystem, will showcase its vision for the future of connected convenience retail at the upcoming National Association of Convenience Stores (NACS) Trade Show in Las Vegas, October 7-9 (Booth #C6623).

Vontier will demonstrate how convenience retailers can simplify operations, improve consumer experiences and prepare their businesses for what's next. Through solutions spanning payments, point-of-sale, asset and fuel management and across the energy spectrum, Vontier and its convenience retail brands, Gilbarco Veeder-Root, Veeder-Root, Invenco, DRB and Driivz, are helping retailers create more connected, efficient and resilient forecourt and in-store operations in an increasingly dynamic market.

"Convenience retailers are managing more complexity than ever before, from evolving payment standards and store operations to asset management," said Andy Bennett, Group President of Convenience Retail, Vontier. "At NACS, we're excited to showcase how our connected technologies help simplify complexity, enabling retailers to operate more efficiently today while positioning themselves for future growth."

Building the Connected Retail Ecosystem

At NACS 2026, Vontier will showcase how retailers can leverage its portfolio of integrated technologies to streamline

operations, improve visibility across their businesses and create seamless consumer experiences. Featured solutions will span:

- Unified payment technologies designed to improve consumer experience across the forecourt and inside the store, including Invenco's FlexPay 6 outdoor payment terminals.
- Invenco's Passport Point of Sale modernization solutions that improve transaction speed, enhance consumer experience and combat shrinkage, including integration with Mashgin's AI-powered self-checkout to help retailers reduce friction and deliver a faster, more seamless in-store experience.
- The Hub, a centralized platform for connecting convenience retail applications and data into a single, consistent user experience, and other asset management solutions that provide retailers with complete visibility and control of fueling and payment assets, helping reduce costly downtime, improve maintenance efficiency and minimize fuel loss. Featured solutions include:
 - Veeder-Root Device Management, which delivers a consolidated, actionable view of Automatic Tank Gauge (ATG) networks and site assets to optimize maintenance efficiency and maximize site uptime.
 - THE PLUS VIEW App which provides secure mobile access to tank gauge data and site information for enhanced visibility.
- DRB's next-generation car wash solutions, including the X-Start payment kiosk and its Autonomous Sales Agent combine reliable payment technology with AI-powered customer engagement to help operators to maximize uptime, drive revenue growth and deliver more personalized consumer experiences.

Industry Leaders Driving the Conversation

In addition to product demonstrations, Vontier will host a series of fireside conversations and thought leadership sessions throughout the event. Andy Bennett will participate in an educational session with Mashgin Founder and CTO, Makul Dhankhar and GSTV Executive Vice President, Dan Trotzer. The session, **Beyond the pump: Building the intelligent site that drives loyalty and profit**, will outline how retailers can transform site modernization investments into profitable growth opportunities. Attendees can also experience these capabilities firsthand in the Vontier booth.

By bringing together connected technologies from Gilbarco Veeder-Root, Invenco, Veeder-Root, DRB and Driivz, industry expertise and a shared vision for the future, Vontier is helping convenience retailers navigate the road ahead.
