

Vontier Included on TIME's World's Most Sustainable Companies List for Third Year Running

2026-06-25

RALEIGH, N.C.--(BUSINESS WIRE)-- Vontier Corporation (NYSE: VNT), a leading global provider of critical technologies and solutions to connect, manage and scale the mobility ecosystem, has been named to TIME's "**World's Most Sustainable Companies 2026**," for the third year in a row.

The award from TIME and Statista comes on the heels of Vontier's 2026 Sustainability Report, which announced the completion of its 2030 greenhouse gas emissions target five years early.

"Being recognized by TIME as one of the world's most sustainable companies reflects the commitment of our entire team, from Altoona to Greensboro to Coimbatore," said Katie Rowen, EVP and Chief Transformation and Operations Officer at Vontier. "Small changes, when scaled with intention and action, can create meaningful impact for our business and the communities we serve around the world. Sustainability is embedded in how we operate, how we support our customers and how we help shape the future of mobility."

Companies were scored across more than 20 key performance indicators, such as compliance with international reporting standards, emissions, and commitment to goals and initiatives. Out of over 5,800 companies assessed, the top 750 were awarded based on revenue, market capitalization, and public prominence.

Vontier's score rose 18% year over year, increasing from 57.58 to 68.03, out of a maximum score of 100.

This recognition builds on Vontier's growing portfolio of sustainability achievements, including those from CDP, EcoVadis, USA TODAY, American Business Awards, International Sustainability Awards and Newsweek.
