- GAAP diluted net EPS of $0.73; Adjusted diluted net EPS of $0.92
- Operating cash flow was $142.8 million; Adjusted free cash flow was $133.1 million, representing 107% adjusted free cash flow conversion

2026 Outlook

- Initiates Q4 2026 guidance for adjusted diluted net EPS of $0.99 to $1.03
- Raises FY 2026 guidance for adjusted diluted net EPS of $3.60 to $3.64

RALEIGH, N.C.--(BUSINESS WIRE)-- Vontier Corporation (NYSE: VNT), a leading global provider of critical technologies and solutions to connect, manage and scale the mobility ecosystem, today announced results for the third quarter ended October 2, 2026.

Reported sales in the third quarter decreased 2.1% year-over-year to $736.9 million, reflecting the impact from the divestiture of Teletrac Navman. Core sales increased 5.7% driven primarily by ongoing strength across our convenience retail facing businesses. Operating profit of $158.4 million increased 11.2% from the prior year, and operating profit margin increased approximately 260 basis points, to 21.5%. Adjusted operating profit of $179.3 million increased 12.1% from the prior year and adjusted operating profit margin increased 300 basis points to 24.3%. Net earnings were $99.0 million, and adjusted net earnings were $124.3 million, resulting in GAAP diluted

net earnings per share of $0.73 and adjusted diluted net earnings per share of $0.92.

"Vontier delivered a strong third quarter, with results exceeding our guidance across sales, margin, and EPS. Increasing adoption of our innovative products and solutions is contributing to above-market growth. Our simplification and 80/20 initiatives are delivering more meaningful operating leverage, with savings now tracking ahead of our original commitment. These dynamics are strengthening our earnings profile and give us the confidence to raise our full-year outlook," said Mark Morelli, President and Chief Executive Officer.

RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES
AND OTHER INFORMATION

Core Sales Growth

We define core sales growth as the change in total sales calculated according to GAAP but excluding (i) sales from acquired and certain divested businesses; (ii) the impact of currency translation; and (iii) certain other items.

- References to sales attributable to acquisitions or acquired businesses refer to GAAP sales from acquired businesses recorded prior to the first anniversary of the acquisition less the amount of sales attributable to certain divested or exited businesses or product lines not considered discontinued operations.
- The portion of sales attributable to the impact of currency translation is calculated as the difference between (a) the period-to-period change in sales (excluding sales from acquired businesses) and (b) the period-to-period change in sales, including foreign operations, (excluding sales from acquired businesses) after applying the current period foreign exchange rates to the prior year period.
- The portion of sales attributable to other items is calculated as the impact of those items which are not directly correlated to core sales which do not have an impact on the current or comparable period.

Core sales growth should be considered in addition to, and not as a replacement for or superior to, total sales, and may not be comparable to similarly titled measures reported by other companies.

Management believes that reporting the non-GAAP financial measure of core sales growth provides useful information to investors by helping identify underlying growth trends in our business and facilitating easier comparisons of our sales performance with our performance in prior and future periods and to our peers. We exclude the effect of acquisitions and certain divestiture-related items because the nature, size and number of such transactions can vary dramatically from period to period and between us and our peers. We exclude the effect of currency translation and certain other items from core sales because these items are either not under management's control or relate to items not directly correlated to core sales growth. Management believes the exclusion of these items from core sales growth may facilitate assessment of underlying business trends and may assist in comparisons of long-term performance.

Adjusted Operating Profit and Adjusted Operating Profit Margin

Adjusted operating profit refers to operating profit calculated in accordance with GAAP, but excluding amortization of acquisition-related intangible assets, costs associated with restructurings including one-time termination benefits and related charges and impairment and other charges associated with facility closure, contract termination and other related activities, and the related impact of certain divested or exited businesses or product lines not considered discontinued operations ("Restructuring- and divestiture-related adjustments"), transaction- and deal-related costs, asbestos-related adjustments associated with certain divested businesses, one-time costs related to the separation, amortization of acquisition-related inventory fair value step-up, gains and losses on sale of property, and other charges which represent charges incurred that are not part of our core operating results ("Other charges"). Adjusted operating profit margin refers to adjusted operating profit divided by GAAP sales.

Adjusted Net Earnings and Adjusted Diluted Net Earnings per Share

Adjusted net earnings refers to net earnings calculated in accordance with GAAP, but excluding on a pretax basis amortization of acquisition-related intangible assets, Restructuring- and divestiture-related adjustments, transaction- and deal-related costs, asbestos-related adjustments associated with certain divested businesses, one-time costs related to the separation, amortization of acquisition-related inventory fair value step-up, gains and losses on sale of property, Other charges, non-cash write-offs of deferred financing costs, gains and losses on sale of businesses and gains and losses on investments, including the tax effect of these adjustments and other tax adjustments. The tax effect of such adjustments was calculated by applying our estimated adjusted effective tax rate to the pretax amount of each adjustment. Adjusted diluted net earnings per share refers to adjusted net earnings divided by the weighted average diluted shares outstanding.

Free Cash Flow, Adjusted Free Cash Flow and Adjusted Free Cash Flow Conversion

Free cash flow refers to cash flow from operations calculated according to GAAP but excluding capital expenditures. Adjusted free cash flow refers to free cash flow adjusted for cash received from the sale of property, plant and equipment and cash paid for Restructuring- and divestiture-related adjustments, transaction- and deal-related costs and Other charges. Adjusted free cash flow conversion refers to adjusted free cash flow divided by adjusted net earnings.

Net Leverage Ratio, EBITDA and Adjusted EBITDA

EBITDA refers to net earnings calculated in accordance with GAAP, excluding interest, taxes, depreciation and amortization of acquisition-related intangible assets. Adjusted EBITDA refers to EBITDA adjusted for Restructuring- and divestiture-related adjustments, transaction- and deal-related costs, asbestos-related adjustments associated with certain divested businesses, one-time costs related to the separation, amortization of acquisition-related inventory fair value step-up, gains and losses on sale of property, Other charges, non-cash write-offs of deferred financing costs, gains and losses on sale of businesses and gains and losses on investments. Net leverage ratio refers to net debt divided by Adjusted EBITDA.

Management believes that these non-GAAP financial measures provide useful information to investors by reflecting additional ways of viewing aspects of our operations that, when reconciled to the corresponding GAAP measure, help our investors to understand the long-term profitability trends of our business, and facilitate comparisons of our profitability to prior and future periods and to our peers.

These non-GAAP measures should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP measures, and may not be comparable to similarly titled measures reported by other companies.

A reconciliation of each of the projected Core Sales Growth, Adjusted Operating Profit Margin, Adjusted Diluted Net Earnings Per Share and Adjusted Free Cash Flow Conversion, which are forward-looking non-GAAP financial measures, to the most directly comparable GAAP financial measure, is not provided because the company is unable to provide such reconciliation without unreasonable effort. The inability to provide each reconciliation is due to the unpredictability of the amounts and timing of events affecting the items we exclude from the non-GAAP measure.
