NEWS RELEASE

Vontier Strengthens Fleet Connectivity Solutions With EKOS Acquisition

2026-08-06

RALEIGH, N.C.--(BUSINESS WIRE)-- Vontier Corporation (NYSE: VNT), a leading global provider of critical technologies and solutions to connect, manage and scale the mobility ecosystem, today announced its acquisition of EKOS, a leading provider of cloud-connected fleet, fuel and electric vehicle (EV) management software. The acquisition will deepen the company's leading fleet platform, providing a connected, end-to-end solution for operators.

EKOS provides fleet operators with centralized visibility across fuel procurement, site monitoring, fleet asset management, fuel card controls and EV charging infrastructure – all from a single connected interface. Trusted by thousands of businesses, EKOS currently supports more than 1.2 million vehicles across the U.S., helping operators reduce costs, create efficiency and scale operations without added complexity.

Vontier currently offers EKOS as a preferred fuel management software solution for its fleet customers, integrating the provider's cloud-connected platform with the company's industry leading equipment and turnkey solutions across fueling sites. The acquisition deepens this partnership, establishing a scalable operating layer that seamlessly integrates hardware and software solutions for Vontier commercial fleet customers.

"Today's announcement marks a significant milestone in our relationship with EKOS, accelerating connectivity across our product portfolio and advancing our comprehensive vision for fleets," said Mark Morelli, President and CEO of Vontier. "The acquisition enhances our ability to help fleet operators optimize performance, streamline operations and navigate an increasingly complex energy landscape. By strengthening our fleet technology ecosystem, we are creating greater value for customers today while positioning Vontier for long-term growth."

"We built the EKOSystem™ to solve a genuine problem: operators shouldn't need fragmented tools to manage their operations," said Phil Dorroll, President of EKOS. "A true fleet operating system requires full-stack integration across eight critical layers—hardware, communications, alarms, integrations, service, support, software and centralized reporting. By joining Vontier, we now have unparalleled coverage across every layer, positioning EKOS as the leading fully integrated operating system in the market. Together, we'll deliver integrated solutions that set a new standard for fleet operations."

EKOS's modular platform addresses growing demand from commercial operators managing increasingly complex, multi-energy fleets, positioning Vontier at the intersection of traditional fuel and next-generation mobility infrastructure.

About Vontier

Vontier (NYSE: VNT) is a global technology company uniting productivity, automation and multi-energy technologies to meet the needs of a rapidly evolving, more connected mobility ecosystem. Leveraging leading market positions, decades of domain expertise and unparalleled portfolio breadth, Vontier powers the way the world moves - delivering smart, safe and sustainable solutions to our customers and the planet. Vontier has a culture of continuous improvement and innovation worldwide. Additional information about Vontier is available on the Company's website at **www.vontier.com**.

About EKOS

EKOS is a leading cloud-connected fleet, fuel, and EV management software platform headquartered in Wilmington, North Carolina. Built for commercial fleet operators, EKOS unifies fleet operations, fuel management, and EV charging into one connected system — managing everything from bulk fuel procurement and fuel sites to fleet maintenance, asset tracking, fuel card controls, and charging infrastructure. Trusted by thousands of businesses across North America, EKOS powers more than 2 million connected vehicles and manages over 1 billion gallons of fuel annually. By replacing fragmented tools with a single platform, EKOS gives fleet operators the visibility and control they need to reduce costs, improve compliance, and scale with confidence. Forward-Looking Statements

This release contains forward-looking statements within the meaning of the federal securities laws. These statements include, but are not limited to statements regarding Vontier Corporation's (the "Company's") business and acquisition opportunities, anticipated sales growth, anticipated adjusted operating margin expansion, anticipated adjusted net earnings per share, anticipated adjusted cash flow conversion, and anticipated earnings growth, and any other statements identified by their use of words like “anticipate,” “expect,” “believe,” “outlook,” “guidance,” or “will” or other words of similar meaning. There are a number of important risks and uncertainties that could cause actual results, developments and business decisions to differ materially from those suggested or indicated by such forward-looking statements and you should not place undue reliance on any such forward-looking statements. These risks and uncertainties include, among other things, deterioration of or instability in the economy, the markets we serve, changes in U.S. and international geopolitics, including trade policies, volatility in financial markets, contractions or lower growth rates and cyclicality of markets we serve, competition, changes in industry standards and governmental policies and regulations that may adversely impact demand for our products or our costs, our ability to successfully identify, consummate, integrate and realize the anticipated value of appropriate acquisitions and successfully complete divestitures and other dispositions, our ability to develop and successfully market new products, software, and services and expand into new markets, the potential for improper conduct by our employees, agents or business partners, impact of divestitures, contingent liabilities relating to acquisitions and divestitures, impact of changes to tax laws, our compliance with changes in applicable laws and regulations, risks relating to global economic, political, war or hostility, public health, legal, compliance and business factors, risks relating to potential impairment of goodwill and other intangible assets, currency exchange rates, tax audits and changes in our tax rate and income tax liabilities, the impact of our debt obligations on our operations, litigation and other contingent liabilities including intellectual property and environmental, health and safety matters, our ability to adequately protect our intellectual property rights, risks relating to product, service or software defects, product liability and recalls, risks relating to product manufacturing, our relationships with and the performance of our channel partners, commodity costs and surcharges, our ability to adjust purchases and manufacturing capacity to reflect market conditions, reliance on sole sources of supply, security breaches or other disruptions of our information technology systems, adverse effects of restructuring activities, impact of changes to U.S. GAAP, labor matters, and disruptions relating to manmade and natural disasters. Additional information regarding the factors that may cause actual results to differ materially from these forward-looking statements is available in our SEC filings, including our Annual Report on Form 10-K for the year ended December 31, 2025. These forward-looking statements represent Vontier’s beliefs and assumptions only as of the date of this release and Vontier does not assume any obligation to update or revise any forward-looking statement, whether as a result of new information, future events and developments or otherwise.
