NOTE 1. BASIS OF PRESENTATION

A. Description of Business . Broadridge Financial Solutions, Inc. (“Broadridge” or the “Company”), a Delaware corporation, is a global fintech leader providing investor communications and technology-driven solutions to banks, broker-dealers, mutual funds and corporate issuers. Our services include investor and customer communications, securities processing, and data and analytics solutions. In short, we provide the infrastructure that helps the financial services industry operate. With over 50 years of experience, including 10 years as an independent public company, we provide financial services firms with advanced, dependable, scalable and cost-effective integrated systems. Our systems help reduce the need for clients to make significant capital investments in operations infrastructure, thereby allowing them to increase their focus on core business activities. We deliver a broad range of solutions that help our clients better serve their retail and institutional customers across the entire investment lifecycle, including pre-trade, trade, and post-trade processing functionality.

The Company operates in two reportable segments: Investor Communication Solutions and Global Technology and Operations. Broadridge serves a large and diverse client base across four client groups: capital markets, asset management, wealth management and corporations.

- **Investor Communication Solutions** —Broadridge offers Bank/Broker-Dealer Investor Communication Solutions, Customer Communication Solutions, Corporate Issuer Solutions, Advisor Solutions and Mutual Fund and Retirement Solutions in this segment. A large portion of Broadridge’s Investor Communication Solutions business involves the processing and distribution of proxy materials to investors in equity securities and mutual funds, as well as the facilitation of related vote processing. ProxyEdge[®], Broadridge’s innovative electronic proxy delivery and voting solution for institutional investors and financial advisors, helps ensure the participation of the largest stockholders of many companies. In addition, Broadridge provides corporations with registered proxy services as well as registrar, stock transfer and record-keeping services. Broadridge also provides the distribution of regulatory reports and corporate action/reorganization event information, as well as tax reporting solutions that help our clients meet their regulatory compliance needs.

Broadridge provides customer communication solutions to companies in the financial services, healthcare, insurance, consumer finance, telecommunications, utilities, retail banking and other service industries. The Broadridge Communications CloudSM, launched in 2016, provides multi-channel communications delivery, communications management, information management and control and administration capabilities that enable and enhance our clients’ communications with their customers. Broadridge processes and distributes our clients’ essential communications including transactional (e.g., bills and statements), regulatory (e.g., explanations of benefits, notices, and trade confirmations) and marketing (e.g., direct mail) communications through print and digital channels.

Broadridge’s advisor solutions enable firms, financial advisors, wealth managers, and insurance agents to better engage with customers through cloud-based marketing and customer communication tools. Broadridge’s marketing ecosystem integrates data, content and technology to drive new client acquisition and cross-sell opportunities through the creation of sales and educational content, including seminars and a library of financial planning topics as well as customizable advisor websites, search engine marketing and electronic and print newsletters. Broadridge’s advisor solutions also help advisors optimize their practice management through customer and account data aggregation and reporting.

Broadridge’s mutual fund and retirement solutions are a full range of tools for mutual funds, exchange traded fund (“ETF”) providers, and asset management firms. They include data-driven technology solutions for data management, analytics, investment accounting, marketing and customer communications. In addition, Broadridge provides mutual fund trade processing services for retirement providers, third party administrators, financial advisors, banks and wealth management professionals through its subsidiary, Matrix Financial Solutions, Inc. (“Matrix”).

- **Global Technology and Operations** —Broadridge offers a suite of advanced computerized real-time transaction processing services that automate the securities transaction lifecycle, from desktop productivity tools, data aggregation, performance reporting, and portfolio management to order capture and execution, trade confirmation, settlement, reference data, reconciliations and accounting. Broadridge’s services help financial institutions and

investment managers efficiently and cost-effectively consolidate their books and records, gather and service assets under management and manage risk, thereby enabling them to focus on their core business activities. Broadridge's multi-currency solutions support real-time global trading of equity, fixed income, mutual fund, foreign exchange and exchange traded derivative securities in established and emerging markets. In addition, Broadridge's Managed Services solution supports the operations of our clients' businesses including their securities clearing, record-keeping, and custody-related functions.

B. Consolidation and Basis of Presentation . The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States of America ("U.S.") and in accordance with the U.S. Securities and Exchange Commission ("SEC") requirements for Quarterly Reports on Form 10-Q. These financial statements present the condensed consolidated position of the Company and include the entities in which the Company directly or indirectly has a controlling financial interest as well as various entities in which the Company has investments recorded under either the cost or equity methods of accounting. Intercompany balances and transactions have been eliminated. Amounts presented may not sum due to rounding. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire year or any subsequent interim period. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2017 (the "2017 Annual Report") filed on August 10, 2017 with the SEC. These Condensed Consolidated Financial Statements include all normal and recurring adjustments necessary for a fair presentation in accordance with GAAP of the Company's financial position at September 30, 2017 and June 30, 2017, the results of its operations for the three months ended September 30, 2017 and 2016, and its cash flows for the three months ended September 30, 2017 and 2016.

In the first quarter of fiscal year 2018, the Company adopted ASU No. 2016-09, "Improvements to Employee Share-Based Payment Accounting" ("ASU No. 2016-09"). Please refer to Note 2, "New Accounting Pronouncements," for a discussion of the impact of ASU No. 2016-09.

In the first quarter of fiscal year 2018, the Company adopted ASU No. 2015-17, "Balance Sheet Classification of Deferred Taxes" ("ASU No. 2015-17"). Please refer to Note 2, "New Accounting Pronouncements," for a discussion of the impact of ASU No. 2015-17.

C. Use of Estimates . The preparation of these financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and accompanying notes thereto. These estimates are based on management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions and judgment that are believed to be reasonable under the circumstances. Accordingly, actual results could differ from those estimates.

D. Subsequent Events . In preparing the accompanying Condensed Consolidated Financial Statements, the Company has reviewed events that have occurred after September 30, 2017, through the date of issuance of the Condensed Consolidated Financial Statements. Please refer to Note 16, "Subsequent Event," for a description of the Company's subsequent event.

NOTE 2. NEW ACCOUNTING PRONOUNCEMENTS

In the first quarter of fiscal year 2018, the Company adopted ASU No. 2016-09. ASU No. 2016-09 identifies areas for simplification involving several aspects of accounting for share-based payment transactions, including presenting the excess tax benefit or deficit from the exercise or vesting of share-based payments in the income statement, classifying the excess tax benefit or deficit as an operating activity in the Condensed Consolidated Statements of Cash Flows rather than as a financing activity, a revision to the criteria for classifying an award as equity or liability and an option to recognize gross stock compensation expense with actual forfeitures recognized as they occur. In addition, ASU No. 2016-09 eliminates the excess tax benefit from the assumed proceeds calculation under the treasury stock method for purposes of calculating diluted shares.

As a result of this adoption, the Company recorded excess tax benefits related to share-based compensation awards of \$1.5 million during the three months ended September 30, 2017 in the income tax provision on a prospective basis, whereas such benefits were previously recognized in equity. The Company also excluded the excess tax benefits from the assumed proceeds available to repurchase shares in the computation of diluted earnings per share for the quarter ended September 30, 2017. The Company has not adjusted prior periods presented for the change in accounting for excess tax benefits in the Condensed Consolidated Financial Statements. The Company also elected to apply the change in presentation of excess tax benefits in the Condensed Consolidated Statement of Cash Flows prospectively, and as a result, excess tax benefits are classified as operating activities when realized through reductions to subsequent tax payments. This adoption resulted in a

decrease to both net cash used in operating activities and net cash provided by financing activities of \$1.5 million for the three months ended September 30, 2017. The Company has not adjusted prior periods presented for the change in classification of excess tax benefits on the Condensed Consolidated Statement of Cash Flows. The Company also elected to continue its current practice of estimating expected forfeitures as permitted by ASU No. 2016-09.

In the first quarter of fiscal year 2018, the Company adopted ASU No. 2015-17 on a prospective basis to all deferred tax liabilities and assets. The amendments in ASU No. 2015-17 require entities that present a classified balance sheet to classify all deferred tax liabilities and assets as a noncurrent amount. The Company's fiscal year 2017 Condensed Consolidated Balance Sheet has not been retrospectively adjusted for the adoption of ASU No. 2015-17.

In January 2017, the FASB issued ASU No. 2017-04, "Simplifying the Accounting for Goodwill Impairment" ("ASU No. 2017-04"). ASU No. 2017-04 removes Step 2 of the current goodwill impairment test, which currently requires a hypothetical purchase price allocation if the fair value of a reporting unit were to be less than its book value, for purposes of determining the amount of goodwill impaired. Under ASU No. 2017-04, the Company would now recognize an impairment charge for the amount by which the carrying amount of a reporting unit exceeds the fair value of the reporting unit; however, the loss recognized would not exceed the total amount of goodwill allocated to that reporting unit. ASU No. 2017-04 will be effective for the Company beginning in the first quarter of fiscal 2021, to be applied on a prospective basis. The pending adoption of this guidance is not expected to have a material impact on the Company's Condensed Consolidated Financial Statements.

In January 2017, the FASB issued ASU No. 2017-01, "Clarifying the Definition of a Business" ("ASU No. 2017-01"). ASU No. 2017-01 narrows the definition of a business, in part by concluding that an integrated set of assets and activities (referred to as a "set") is not a business when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or group of similar identifiable assets. ASU No. 2017-01 is effective for the Company beginning in the first quarter of fiscal year 2019, to be applied on a prospective basis. The pending adoption of this guidance is not expected to have a material impact on the Company's Condensed Consolidated Financial Statements.

In February 2016, the FASB issued ASU No. 2016-02, "Leases" ("ASU No. 2016-02"). Under ASU No. 2016-02, all lease arrangements, with certain limited exceptions, exceeding a twelve month term must now be recognized as assets and liabilities on the balance sheet of the lessee by recording a right-of-use asset and corresponding lease obligation generally equal to the present value of the future lease payments over the lease term. Further, the income statement will reflect lease expense for leases classified as operating and amortization/interest expense for leases classified as financing, determined using classification criteria substantially similar to the current lease guidance for distinguishing between an operating and capital lease. ASU No. 2016-02 also contains certain additional qualitative and quantitative disclosures to supplement the amounts recorded in the financial statements so that users can understand more about the nature of an entity's leasing activities, including significant judgments and changes in judgments. ASU No. 2016-02 is effective for the Company in the first quarter of fiscal year 2020 and will be adopted on a modified retrospective basis, which will require adjustment to all comparative periods presented in the consolidated financial statements. The Company is currently evaluating the impact of the pending adoption of ASU No. 2016-02 on the Company's Condensed Consolidated Financial Statements.

In January 2016, the FASB issued ASU No. 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities" ("ASU No. 2016-01"), which provides guidance for the recognition, measurement, presentation, and disclosure of financial assets and liabilities. Under ASU No. 2016-01, changes in the fair value of publicly traded equity securities for which the Company does not have significant influence would be recorded as part of Net earnings rather than as Other comprehensive income (loss), net. In addition, equity investments that do not have a readily determinable fair value will be recorded at cost less impairment as further adjusted for observable price changes in orderly transactions for identical or similar investments of the issuer. ASU No. 2016-01 is effective for the Company beginning in the first quarter of fiscal year 2019. The guidance in ASU No. 2016-01 related to changes in fair value of publicly traded equity securities will be adopted by means of a cumulative-effect adjustment to the balance sheet as of the beginning of fiscal year 2019, while the guidance related to equity securities without readily determinable fair values will be adopted prospectively to equity investments that exist as of the beginning of fiscal year 2019. The pending adoption of ASU No. 2016-01 is not expected to have a material impact on the Company's Condensed Consolidated Financial Statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" ("ASU No. 2014-09"), to supersede nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU No. 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU No. 2014-09 defines a five step process to achieve this core principle and, in doing so, it is possible more judgment and estimates may be required within the revenue recognition process than are required under existing U.S. GAAP including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction

price to each separate performance obligation. ASU No. 2014-09 also requires certain enhanced disclosures, including disclosures on the nature, amount, timing and uncertainty of revenues and cash flows from contracts with customers. In August 2015, the FASB issued ASU No. 2015-14, “Revenue from Contracts with Customers - Deferral of the Effective Date,” which defers the effective date of ASU No. 2014-09 by one year, with an option that would permit companies to adopt the standard as early as the original effective date. As a result, ASU No. 2014-09 will be effective for the Company as of the first quarter of fiscal year 2019 using either of two methods: (i) retrospective to each prior reporting period presented with the option to elect certain practical expedients as defined within ASU No. 2014-09; or (ii) retrospective with the cumulative effect of initially applying ASU No. 2014-09 recognized at the date of initial application and providing certain additional disclosures as defined per ASU No. 2014-09.

In March 2016, the FASB issued ASU No. 2016-08, “Principal versus Agent Considerations (Reporting Revenue Gross versus Net)” (“ASU No. 2016-08”), which provides clarifying implementation guidance to the principal versus agent provisions of ASU No. 2014-09.

In April 2016, the FASB issued ASU No. 2016-10 “Identifying Performance Obligations and Licensing” (“ASU No. 2016-10”), which provides clarifying implementation guidance for applying ASU No. 2014-09 with respect to identifying performance obligations and the accounting for licensing arrangements.

In May 2016, the FASB issued ASU No. 2016-12 “Narrow-Scope Improvements and Practical Expedients” (“ASU No. 2016-12”), which provides certain clarifying guidance for ASU No. 2014-09 relative to treatment of sales taxes, noncash consideration, collectibility and certain aspects of transitional guidance.

In December 2016, the FASB issued ASU No. 2016-20 “Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers,” which provides certain technical corrections for ASU No. 2014-09 including the impairment testing of capitalized contract costs, disclosure of remaining performance obligations, and certain other matters.

Each of ASU No. 2016-08, ASU No. 2016-10, ASU No. 2016-12 and ASU No. 2016-20 have the same effective date as ASU No. 2014-09. The Company has not yet elected a transition method. While the Company is still in the process of evaluating the full impact of the pending adoption of ASU No. 2014-09 and related amendments on its Consolidated Financial Statements and related disclosures, including assessing the need for system or process changes or enhancements, the Company has identified certain expected impacts of the new standard on its Consolidated Financial Statements. Specifically, the Company expects to capitalize certain sales commissions, as well as capitalize certain additional costs that are part of setting up or converting a client’s systems to function with the Company’s technology, both of which are currently expensed. Additionally, the Company expects to recognize proxy revenue predominantly at the time of proxy distribution to the client’s shareholders rather than on the date of the client’s shareholder meeting, which is typically 30 days after the proxy distribution. Other expected changes to the timing of revenue recognition include deferral of revenue from certain transaction processing platform enhancements as well as acceleration of revenue from certain multi-year software license arrangements that are currently recognized over the term of the software subscription.

NOTE 3. EARNINGS PER SHARE

Basic earnings per share (“EPS”) is calculated by dividing the Company’s Net earnings by the basic Weighted-average shares outstanding for the periods presented. The Company calculates diluted EPS using the treasury stock method, which reflects the potential dilution that could occur if outstanding stock options at the presented date are exercised and restricted stock unit awards have vested.

For the three months ended September 30, 2017, the computation of diluted EPS did not include 0.3 million options to purchase Broadridge common stock as the effect of their inclusion would have been anti-dilutive. For the three months ended September 30, 2016, there were no options to purchase Broadridge common stock that would have been anti-dilutive to exclude from the computation of diluted EPS.

The following table sets forth the denominators of the basic and diluted EPS computations (in millions):

	Three Months Ended September 30,	
	2017	2016
Weighted-average shares outstanding:		
Basic	116.5	118.5
Common stock equivalents	3.3	3.1
Diluted (1)	119.8	121.6

(1) On July 1, 2017, the Company adopted ASU No. 2016-09. See Note 2, “New Accounting Pronouncements,” for additional information related to adoption of this standard.

NOTE 6. ACQUISITIONS

BUSINESS COMBINATIONS

Assets acquired and liabilities assumed in business combinations are recorded on the Company’s Condensed Consolidated Balance Sheets as of the respective acquisition date based upon the estimated fair values at such date. The results of operations of the business acquired by the Company are included in the Company’s Condensed Consolidated Statements of Earnings since the respective date of acquisition. The excess of the purchase price over the estimated fair values of the underlying assets acquired and liabilities assumed is allocated to Goodwill. Certain of our acquisitions may contain contingent consideration liabilities based upon the achievement of certain individual defined financial targets of the acquired business. These contingent consideration liabilities are measured at fair value based upon management’s expectations of future achievement by the acquired business of these individual financial targets.

During the first quarter of fiscal year 2018, there were no material acquisitions.

ASSET ACQUISITIONS

Purchase of Intellectual Property

In September 2016, the Company's Investor Communication Solutions segment acquired intellectual property assets from Inveshare and concurrently entered into a development agreement with an affiliate of Inveshare to use these assets to develop blockchain technology applications for Broadridge's proxy business. The purchase price was \$95.0 million, which consisted of a \$90.0 million cash payment upon closing of the acquisition and a \$5.0 million obligation which the Company paid during the three months ended September 30, 2017.

The Company also expects to pay a deferred payment of \$40.0 million to an affiliate of Inveshare upon delivery of the new blockchain technology applications by September 2018.

NOTE 7. FAIR VALUE OF FINANCIAL INSTRUMENTS

Accounting guidance on fair value measurements for certain financial assets and liabilities requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

- | | |
|---------|--|
| Level 1 | Quoted market prices in active markets for identical assets and liabilities. |
| Level 2 | Observable market-based inputs other than quoted prices in active markets for identical assets and liabilities. |
| Level 3 | Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. |

In valuing assets and liabilities, the Company is required to maximize the use of quoted market prices and minimize the use of unobservable inputs. The Company calculates the fair value of its Level 1 and Level 2 instruments based on the exchange traded price of similar or identical instruments where available or based on other observable instruments. These calculations take into consideration the credit risk of both the Company and its counterparties. The Company has not changed its valuation techniques in measuring the fair value of any financial assets and liabilities during the period.

The Company holds available-for-sale securities issued by a non-public entity for which the lowest level of significant inputs is unobservable. On a recurring basis, the Company uses pricing models and similar techniques for which the determination of fair value requires significant judgment by management. Accordingly, the Company classifies the available-for-sale securities as Level 3 in the table below.

The fair values of the contingent consideration obligations are based on a probability weighted approach derived from the estimates of earn-out criteria and the probability assessment with respect to the likelihood of achieving those criteria. The measurement is based on significant inputs that are not observable in the market, therefore, the Company classifies this liability as Level 3 in the table below.

The following tables set forth the Company's financial assets and liabilities at September 30, 2017 and June 30, 2017, respectively, that are measured at fair value on a recurring basis during the period, segregated by level within the fair value hierarchy:

(a) The Foreign currency impact on contingent consideration liabilities was less than \$0.1 million as of September 30, 2017 .

The Company did not incur any Level 3 fair value asset impairments during the three months ended September 30, 2017 and 2016 . Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments between levels. The Company's policy is to record transfers between levels if any, as of the beginning of the fiscal year.

(in millions)	\$ —	\$ —	\$ —	\$ 400.0	\$ 400.0	\$ 500.0	\$ 1,300.0

Fiscal 2017 Revolving Credit Facility: On February 6, 2017, the Company entered into an amended and restated \$1.0 billion five-year revolving credit facility (the "Fiscal 2017 Revolving Credit Facility"), which replaced the \$750.0 million five-year revolving credit facility entered into during August 2014 (the "Fiscal 2015 Revolving Credit Facility") (together the "Revolving Credit Facilities"). The Fiscal 2017 Revolving Credit Facility is comprised of a \$900.0 million U.S. dollar tranche and a \$100.0 million multicurrency tranche. At September 30, 2017, the Company had \$400.0 million in outstanding borrowings and had unused available capacity of \$600.0 million under the Fiscal 2017 Revolving Credit Facility.

The weighted-average interest rate on the Revolving Credit Facilities was 2.20% and 1.46% for the three months ended September 30, 2017 and 2016, respectively. The fair value of the variable-rate Fiscal 2017 Revolving Credit Facility borrowings at September 30, 2017 approximates carrying value and has been classified as a Level 2 financial liability (as defined in Note 7, "Fair Value of Financial Instruments").

Borrowings under the Fiscal 2017 Revolving Credit Facility can be made in tranches up to 360 days and bear interest at LIBOR plus 100 basis points. In addition, the Fiscal 2017 Revolving Credit Facility has an annual facility fee equal to 12.5 basis points on the entire facility, similar to the previous Fiscal 2015 Revolving Credit Facility. The annual facility fees for the Revolving Credit Facilities totaled \$0.3 million and \$0.2 million for the three months ended September 30, 2017 and 2016, respectively. The Company incurred \$1.8 million in costs to establish the Fiscal 2017 Revolving Credit Facility. As of September 30, 2017, \$2.6 million of these costs remain to be amortized (including \$0.2 million and \$0.8 million of issuance costs from the Fiscal 2012 Revolving Credit Facility and Fiscal 2015 Revolving Credit Facility, respectively). Such costs are capitalized in Other non-current assets in the Condensed Consolidated Balance Sheets and are being amortized to Interest expense, net on a straight-line basis, which approximates the effective interest method, over the term of this facility.

The Company may voluntarily prepay, in whole or in part and without premium or penalty, borrowings under the Fiscal 2017 Revolving Credit Facility in accordance with individual drawn loan maturities. The Fiscal 2017 Revolving Credit Facility is subject to certain covenants, including a leverage ratio. At September 30, 2017, the Company is in compliance with all covenants of the Fiscal 2017 Revolving Credit Facility.

Fiscal 2014 Senior Notes: In August 2013, the Company completed an offering of \$400.0 million in aggregate principal amount of senior notes (the "Fiscal 2014 Senior Notes"). The Fiscal 2014 Senior Notes will mature on September 1, 2020 and bear interest at a rate of 3.95% per annum. Interest on the Fiscal 2014 Senior Notes is payable semi-annually in arrears on March 1st and September 1st each year. The Fiscal 2014 Senior Notes were issued at a price of 99.871% (effective yield to maturity of 3.971%). The indenture governing the Fiscal 2014 Senior Notes contains certain covenants including covenants restricting the Company's ability to create or incur liens securing indebtedness for borrowed money and to enter into certain sale-leaseback transactions. At September 30, 2017, the Company is in compliance with the covenants of the indenture governing the Fiscal 2014 Senior Notes. The indenture also contains covenants regarding the purchase of the Fiscal 2014 Senior Notes upon a change of control triggering event. The Company may redeem the Fiscal 2014 Senior Notes in whole or in part at any time before their maturity. The Company incurred \$4.3 million in debt issuance costs to establish the Fiscal 2014 Senior Notes. These costs have been capitalized and are being amortized to Interest expense, net on a straight-line basis, over the seven-year term. As of September 30, 2017 and June 30, 2017, \$1.7 million and \$1.9 million, respectively, of debt issuance costs remain to be amortized and have been presented as a direct deduction from the carrying value of the Fiscal 2014 Senior Notes. The fair value of the fixed-rate Fiscal 2014 Senior Notes at September 30, 2017 and June 30, 2017 was \$420.2 million and \$419.1 million, respectively, based on quoted market prices and has been classified as a Level 1 financial liability (as defined in Note 7, "Fair Value of Financial Instruments").

Fiscal 2016 Senior Notes: In June 2016, the Company completed an offering of \$500.0 million in aggregate principal amount of senior notes (the "Fiscal 2016 Senior Notes"). The Fiscal 2016 Senior Notes will mature on June 27, 2026 and bear interest at a rate of 3.40% per annum. Interest on the Fiscal 2016 Senior Notes is payable semi-annually in arrears on June 27 and December 27 of each year. The Fiscal 2016 Senior Notes were issued at a price of 99.589% (effective yield to maturity of 3.449%). The indenture governing the Fiscal 2016 Senior Notes contains certain covenants including covenants restricting the Company's ability to create or incur liens securing indebtedness for borrowed money, to enter into certain sale-leaseback transactions, and to engage in mergers or consolidations and transfer or lease all or substantially all of our assets. At September 30, 2017, the Company is in compliance with the covenants of the indenture governing the Fiscal 2016 Senior Notes. The indenture also contains covenants regarding the purchase of the Fiscal 2016 Senior Notes upon a change of control triggering event. The Fiscal 2016 Senior Notes are senior unsecured obligations of the Company and

rank equally with the Company's other senior indebtedness. The Company may redeem the Fiscal 2016 Senior Notes in whole or in part at any time before their maturity. The Company incurred \$4.5 million in debt issuance costs to establish the Fiscal 2016 Senior Notes. These costs have been capitalized and are being amortized to Interest expense, net on a straight-line basis, which approximates the effective interest method, over the ten -year term. As of September 30, 2017 and June 30, 2017, \$3.8 million and \$4.0 million, respectively, of debt issuance costs remain to be amortized and have been presented as a direct deduction from the carrying value of the Fiscal 2016 Senior Notes. The fair value of the fixed-rate Fiscal 2016 Senior Notes at September 30, 2017 and June 30, 2017 was \$496.8 million and \$494.6 million, respectively, based on quoted market prices and has been classified as a Level 1 financial liability (as defined in Note 7, "Fair Value of Financial Instruments").

The Fiscal 2017 Revolving Credit Facility, Fiscal 2014 Senior Notes, and Fiscal 2016 Senior Notes are senior unsecured obligations of the Company and are ranked equally in right of payment.

In addition, certain of the Company's subsidiaries established unsecured, uncommitted lines of credit with banks. As of September 30, 2017 and June 30, 2017, there were no outstanding borrowings under these lines of credit.

NOTE 11. STOCK-BASED COMPENSATION

The activity related to the Company's incentive equity awards for the three months ended September 30, 2017 consisted of the following:

	Stock Options		Time-based Restricted Stock Units		Performance-based Restricted Stock Units	
	Number of Options	Weighted-Average Exercise Price	Number of Shares	Weighted-Average Grant Date Fair Value	Number of Shares	Weighted-Average Grant Date Fair Value
Balances at July 1, 2017	5,137,641	\$ 39.63	1,074,593	\$ 55.98	470,862	\$ 58.26
Granted	—	—	8,464	73.32	—	—
Exercise of stock options (a)	(86,608)	21.63	—	—	—	—
Vesting of restricted stock units	—	—	(838)	52.50	(15,033)	54.36
Expired/forfeited	(72,642)	37.65	(41,954)	51.71	(52,863)	34.50
Balances at September 30, 2017 (b), (c)	4,978,391	\$ 39.97	1,040,265	\$ 56.30	402,966	\$ 61.52

(a) Stock options exercised during the period of July 1, 2017 through September 30, 2017 had an aggregate intrinsic value of \$4.8 million.

(b) As of September 30, 2017, the Company's outstanding vested and currently exercisable stock options using the September 30, 2017 closing stock price of \$80.82 (approximately 2.7 million shares) had an aggregate intrinsic value of \$131.0 million with a weighted-average exercise price of \$31.50 and a weighted-average remaining contractual life of 5.4 years. The total of all stock options outstanding as of September 30, 2017 have a weighted-average remaining contractual life of 6.4 years.

(c) As of September 30, 2017, time-based restricted stock units and performance-based restricted stock units expected to vest using the September 30, 2017 closing stock price of \$80.82 (approximately 1.0 million and 0.4 million shares, respectively) had an aggregate intrinsic value of \$79.9 million and \$31.3 million, respectively.

The Company has stock-based compensation plans under which the Company annually grants stock option and restricted stock unit awards. Stock options are granted to employees at exercise prices equal to the fair market value of the Company's common stock on the dates of grant, with the measurement of stock-based compensation expense recognized in Net earnings based on the fair value of the award on the date of grant. Stock-based compensation expense of \$8.5 million and \$8.8 million, as well as related tax benefits of \$3.0 million and \$3.0 million were recognized for the three months ended September 30, 2017 and 2016, respectively.

As of September 30, 2017, the total remaining unrecognized compensation cost related to non-vested stock options and restricted stock unit awards amounted to \$7.6 million and \$33.8 million, respectively, which will be amortized over the weighted-average remaining requisite service periods of 2.1 years and 1.3 years, respectively.

For stock options issued, the fair value of each stock option was estimated on the date of grant using a binomial option pricing model. The binomial model considers a range of assumptions related to volatility, risk-free interest rate and employee exercise behavior. Expected volatilities utilized in the binomial model are based on a combination of implied market volatilities, historical volatility of the Company's stock price and other factors. Similarly, the dividend yield is based on historical experience and expected future changes. The risk-free rate is derived from the U.S. Treasury yield curve in effect at the time of grant. The binomial model also incorporates exercise and forfeiture assumptions based on an analysis of historical data. The expected life of the stock option grants is derived from the output of the binomial model and represents the period of time that options granted are expected to be outstanding.

NOTE 12. INCOME TAXES

The provision for income taxes for the three months ended September 30, 2017 was \$24.4 million compared to \$17.9 million for the three months ended September 30, 2016 .

The effective tax rate for the three months ended September 30, 2017 was 32.8% compared to 34.8% for the three months ended September 30, 2016 . The decrease in the effective tax rate for the three months ended September 30, 2017 , compared to the comparable prior year period is primarily attributable to the recognition of excess tax benefits associated with stock compensation and a more favorable geographic mix of income resulting in a higher percentage of lower taxed income in non-U.S. jurisdictions.

NOTE 13. CONTRACTUAL COMMITMENTS, CONTINGENCIES AND OFF-BALANCE SHEET ARRANGEMENTS

Data Center Agreements

In March 2010, the Company and IBM entered into an Information Technology Services Agreement (the "IT Services Agreement"), under which IBM provides certain aspects of the Company's information technology infrastructure. Under the IT Services Agreement, IBM provides a broad range of technology services to the Company including supporting its mainframe, midrange, open systems, network and data center operations, as well as providing disaster recovery services. The Company has the option of incorporating additional services into the agreement over time. The migration of data center processing to IBM was completed in August 2012. The IT Services Agreement would have expired on June 30, 2022. In March 2015, the Company signed a two -year extension to the IT Services Agreement which expires on June 30, 2024 . The Company has the right to renew the term of the IT Services Agreement for up to one additional 12 -month term. Commitments remaining under this agreement at September 30, 2017 are \$376.3 million through fiscal year 2024, the final year of the contract.

In March 2014, the Company and IBM United Kingdom Limited ("IBM UK") entered into an Information Technology Services Agreement (the "EU IT Services Agreement"), under which IBM UK provides data center services supporting the Company's technology outsourcing services for certain clients in Europe and Asia. The EU IT Services Agreement expires in October 2023. The Company has the right to renew the initial term of the EU IT Services Agreement for up to one additional 12 -month term or one additional 24 -month term. Commitments remaining under this agreement at September 30, 2017 are \$27.7 million through fiscal year 2024, the final year of the contract.

Equity Method Investment

The Company contributed \$1.5 million to an equity method investment during the three months ended September 30, 2017 , and has a remaining commitment of \$1.3 million to fund this investment at September 30, 2017 .

Purchase of Intellectual Property

As discussed in Note 6, "Acquisitions," the Company expects to pay \$40.0 million to an affiliate of Inveshare by September 2018 upon delivery of certain new blockchain technology applications.

Other

In the normal course of business, the Company is subject to various claims and litigation. While the outcome of any claim or litigation is inherently unpredictable, the Company believes that the ultimate resolution of these matters will not, individually or in the aggregate, result in a material impact on its financial condition, results of operations or cash flows.

It is not the Company's business practice to enter into off-balance sheet arrangements. However, the Company is exposed to market risk from changes in foreign currency exchange rates that could impact its financial position, results of operations, and cash flows. The Company manages its exposure to these market risks through its regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. The Company may use derivative financial instruments as risk management tools and not for trading purposes. The Company was not a party to any derivative financial instruments at September 30, 2017 or at June 30, 2017.

In the normal course of business, the Company also enters into contracts in which it makes representations and warranties that relate to the performance of the Company's products and services. The Company does not expect any material losses related to such representations and warranties, or collateral arrangements.

Our business process outsourcing and mutual fund processing services are performed by Broadridge Business Process Outsourcing, LLC ("BBPO"), a wholly-owned indirect subsidiary, which is a broker-dealer registered with the Securities and Exchange Commission and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Although BBPO's FINRA membership agreement allows it to engage in clearing and the retailing of corporate securities in addition to mutual fund retailing on a wire order basis, BBPO does not clear customer transactions or carry customer accounts. As a registered broker-dealer and member of FINRA, BBPO is subject to the Uniform Net Capital Rule 15c3-1 of the Securities Exchange Act of 1934, as amended ("Rule 15c3-1"), which requires BBPO to maintain a minimum amount of net capital. At September 30, 2017, BBPO was in compliance with this capital requirement.

BBPO, as a "Managing Clearing Member" of the Options Clearing Corporation (the "OCC"), is also subject to OCC Rule 309(b) with respect to the business process outsourcing services that it provides to other OCC "Managed Clearing Member" broker-dealers. OCC Rule 309(b) requires that BBPO maintain a minimum amount of net capital. At September 30, 2017, BBPO was in compliance with this capital requirement.

In addition, Matrix Trust Company, a wholly-owned indirect subsidiary, is a Colorado State non-depository trust company and National Securities Clearing Corporation trust member, whose primary business is to provide cash agent, custodial and directed or non-discretionary trust services to institutional customers. As a result, Matrix Trust Company is subject to various regulatory capital requirements administered by the Colorado Division of Banking and the Arizona Department of Financial Institutions, as well as the National Securities Clearing Corporation. Specific capital requirements that involve quantitative measures of assets, liabilities, and certain off-balance sheet items, when applicable, must be met. At September 30, 2017, Matrix Trust Company was in compliance with its capital requirements.

NOTE 14. CHANGES IN ACCUMULATED OTHER COMPREHENSIVE INCOME/(LOSS) BY COMPONENT

The following tables summarize the changes in the accumulated balances for each component of accumulated other comprehensive income/(loss) for the three months ended September 30, 2017, and 2016, respectively:

NOTE 15. INTERIM FINANCIAL DATA BY SEGMENT

The Company operates in two reportable segments: Investor Communication Solutions and Global Technology and Operations. See Note 1, “Basis of Presentation” for a further description of the Company’s reportable segments.

The primary components of “Other” are certain gains, losses, corporate overhead expenses and non-operating expenses that have not been allocated to the reportable segments, such as interest expense. Foreign currency exchange is a reconciling item between the actual foreign currency exchange rates and the constant foreign currency exchange rates used for internal management reporting.

Certain corporate expenses, as well as certain centrally managed expenses, are allocated based upon budgeted amounts in a reasonable manner. Because the Company compensates the management of its various businesses on, among other factors, segment profit, the Company may elect to record certain segment-related operating and non-operating expense items in Other rather than reflect such items in segment profit.

NOTE 16. SUBSEQUENT EVENT

In October 2017, the Company completed the acquisition of Summit Financial Disclosure, LLC (“Summit”). Summit is a full service financial document management solutions provider, including document composition and regulatory filing services. The aggregate purchase price was \$29.0 million in cash, consisting of \$27.5 million in cash payments and a \$1.5 million holdback for indemnity claims that may arise under the purchase agreement which will be settled with the seller in October 2018, as well as a contingent consideration arrangement with a potential maximum pay-out of \$11.0 million upon the achievement in full of the defined financial targets by the acquired business. As of the date of the acquisition, the acquired net assets will be recorded at fair value in accordance with the purchase method of accounting and the results of operations of the acquired business will be included in the results of operations of the Investor Communication Solutions segment. As of the date of this filing, the preliminary purchase price allocation and fair value calculation of the contingent consideration arrangement has not been finalized.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our Condensed Consolidated Financial Statements and accompanying Notes thereto included elsewhere herein.

Forward-Looking Statements

This Quarterly Report on Form 10-Q may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature and which may be identified by the use of words such as “expects,” “assumes,” “projects,” “anticipates,” “estimates,” “we believe,” “could be” and other words of similar meaning, are forward-looking statements. In particular, information appearing under “Business,” “Risk Factors,” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” includes forward-looking statements. These statements are based on management’s expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. Factors that could cause actual results to differ materially from those contemplated by the forward-looking statements include:

- the success of Broadridge Financial Solutions, Inc. (“Broadridge” or the “Company”) in retaining and selling additional services to its existing clients and in obtaining new clients;
- Broadridge’s reliance on a relatively small number of clients, the continued financial health of those clients, and the continued use by such clients of Broadridge’s services with favorable pricing terms;
- any material breach of Broadridge security affecting its clients’ customer information;
- changes in laws and regulations affecting Broadridge’s clients or the services provided by Broadridge;
- declines in participation and activity in the securities markets;
- the failure of our outsourced data center services provider to provide the anticipated levels of service;
- a disaster or other significant slowdown or failure of Broadridge’s systems or error in the performance of Broadridge’s services;
- overall market and economic conditions and their impact on the securities markets;
- Broadridge’s failure to keep pace with changes in technology and demands of its clients;
- the ability to attract and retain key personnel;
- the impact of new acquisitions and divestitures; and
- competitive conditions.

There may be other factors that may cause our actual results to differ materially from the forward-looking statements. Our actual results, performance or achievements could differ materially from those expressed in, or implied by, the forward-looking statements. We can give no assurances that any of the events anticipated by the forward-looking statements will occur or, if any of them do, what impact they will have on our results of operations and financial condition. You should carefully read the factors described in the “Risk Factors” section of our Annual Report on Form 10-K for the fiscal year ended June 30, 2017 (the “2017 Annual Report”) for a description of certain risks that could, among other things, cause our actual results to differ from these forward-looking statements.

All forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q and are expressly qualified in their entirety by the cautionary statements included in this Quarterly Report on Form 10-Q and the 2017 Annual Report. We disclaim any obligation to update or revise forward-looking statements that may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events, other than as required by law.

Overview

Broadridge is a global fintech leader providing investor communications and technology-driven solutions to banks, broker-dealers, mutual funds and corporate issuers. Our services include investor and customer communications, securities processing, and data and analytics solutions. In short, we provide the infrastructure that helps the financial services industry operate. With over 50 years of experience, including 10 years as an independent public company, we provide financial services firms with advanced, dependable, scalable and cost-effective integrated systems. Our systems help reduce the need for clients to make significant capital investments in operations infrastructure, thereby allowing them to increase their focus on core business activities. We deliver a broad range of solutions that help our clients better serve their

retail and institutional customers across the entire investment lifecycle, including pre-trade, trade, and post-trade processing functionality.

Our businesses operate in two reportable segments: Investor Communication Solutions and Global Technology and Operations. We serve a large and diverse client base across four client groups: capital markets, asset management, wealth management and corporations.

For capital markets firms, we help our clients lower costs and improve the effectiveness of their trade and account processing operations with support for middle- and back-office operations, administration, finance, risk and compliance. For asset management firms, we support cross-asset, multi-currency investing across a range of brokers and executing venues from a single technology and operating solution. For wealth management firms, we provide advisors with tools to create a better investor experience, while also delivering them a more streamlined, efficient, and effective process. We help corporations manage every aspect of their shareholder communications-from registered and beneficial proxy processing, to annual meeting support and transfer agency services. Our customer communication solutions help companies transform their essential communications such as bills and statements into engaging, personalized experiences.

Investor Communication Solutions

We offer Bank/Broker-Dealer Investor Communication Solutions, Customer Communication Solutions, Corporate Issuer Solutions, Advisor Solutions and Mutual Fund and Retirement Solutions through this segment. A large portion of our Investor Communication Solutions business involves the processing and distribution of proxy materials to investors in equity securities and mutual funds, as well as the facilitation of related vote processing. ProxyEdge, our innovative electronic proxy delivery and voting solution for institutional investors and financial advisors, helps ensure the participation of the largest stockholders of many companies. In addition, we provide corporations with registered proxy services as well as registrar, stock transfer and record-keeping services. We also provide the distribution of regulatory reports and corporate action/reorganization event information, as well as tax reporting solutions that help our clients meet their regulatory compliance needs.

We provide customer communications solutions to companies in the financial services, healthcare, insurance, consumer finance, telecommunications, utilities, retail banking and other service industries. The Broadridge Communications Cloud, launched in 2016, provides multi-channel communications delivery, communications management, information management and control and administration capabilities that enable and enhance our clients' communications with their customers. We process and distribute our clients' essential communications including transactional (e.g., bills and statements), regulatory (e.g., explanations of benefits, notices, and trade confirmations) and marketing (e.g., direct mail) communications through print and digital channels.

In July 2016, the Company's Investor Communication Solutions segment acquired the net assets of the North American Customer Communications ("NACC") business of DST Systems, Inc., a leading provider of customer communication services including print and digital communication solutions, content management, postal optimization, and fulfillment. The NACC business is part of our customer communications business and is known as Broadridge Customer Communications.

Our advisor solutions enable firms, financial advisors, wealth managers, and insurance agents to better engage with customers through cloud-based marketing and customer communication tools. Our marketing ecosystem integrates data, content and technology to drive new client acquisition and cross-sell opportunities through the creation of sales and educational content, including seminars and a library of financial planning topics as well as customizable advisor websites, search engine marketing and electronic and print newsletters. Our advisor solutions also help advisors optimize their practice management through customer and account data aggregation and reporting.

Our mutual fund and retirement solutions are a full range of tools for mutual funds, exchange traded fund ("ETF") providers, and asset management firms. They include data-driven technology solutions for data management, analytics, investment accounting, marketing and customer communications. In addition, we provide mutual fund trade processing services for retirement providers, third party administrators, financial advisors, banks and wealth management professionals through our subsidiary, Matrix Financial Solutions, Inc. ("Matrix").

Global Technology and Operations

We are the leading middle- and back-office securities processing platform for North American and global broker-dealers. We offer a suite of advanced computerized real-time transaction processing services that automate the securities transaction lifecycle, from desktop productivity tools, data aggregation, performance reporting, and portfolio management to order capture and execution, trade confirmation, settlement, reference data, reconciliations and accounting. Our services help financial institutions and investment managers efficiently and cost-effectively consolidate their books and records, gather and service assets under management and manage risk, thereby enabling them to focus on their core business activities. Provided on a software as a service (“SaaS”) basis, our platform is a global market solution, clearing and settling in over 80 countries. Our multi-currency solutions support real-time global trading of equity, fixed income, mutual fund, foreign exchange, and exchange traded derivative securities in established and emerging markets.

We also provide business process outsourcing services that are known as our Managed Services solution. These services support the operations of our clients’ businesses including their securities clearing, record-keeping, and custody-related functions. Our clients execute and clear their securities transactions and engage us to perform a number of related administrative back-office functions, such as record-keeping and reconciliations. In this capacity, we are not the broker-dealer of record.

Consolidation and Basis of Presentation

The Condensed Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles (“GAAP”) in the United States of America (“U.S.”). These Condensed Consolidated Financial Statements present the condensed consolidated position of the Company and include the entities in which the Company directly or indirectly has a controlling financial interest as well as various entities in which the Company has investments recorded under either the cost or equity methods of accounting. Intercompany balances and transactions have been eliminated. Amounts presented may not sum due to rounding.

The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire year or any subsequent interim period. These Condensed Consolidated Financial Statements should be read in conjunction with the Company’s Consolidated Financial Statements for the fiscal year ended June 30, 2017 in the 2017 Annual Report on Form 10-K filed with the Securities and Exchange Commission (the “SEC”) on August 10, 2017.

In the first quarter of fiscal year 2018, the Company adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) No. 2016-09, “Improvements to Employee Share-Based Payment Accounting”. Please refer to Note 2, “New Accounting Pronouncements” to our Financial Statements under Item 1. of Part I of this Quarterly Report on Form 10-Q, for a discussion of the impact of new accounting pronouncements.

Effective the beginning of fiscal year 2018, the Company adopted ASU No 2015-17, “Balance Sheet Classification of Deferred Taxes.” Please refer to Note 2, “New Accounting Pronouncements” to our Financial Statements under Item 1. of Part I of this Quarterly Report on Form 10-Q, for a discussion of the impact of new accounting pronouncements.

Critical Accounting Policies

In presenting the Condensed Consolidated Financial Statements, management makes estimates and assumptions that affect the amounts reported and related disclosures. Management continually evaluates the accounting policies and estimates used to prepare the Condensed Consolidated Financial Statements. The estimates, by their nature, are based on judgment, available information, and historical experience and are believed to be reasonable. However, actual amounts and results could differ from these estimates made by management. In management’s opinion, the Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary for a fair presentation of results reported. The results of operations reported for the periods presented are not necessarily indicative of the results of operations for subsequent periods. Certain accounting policies that require significant management estimates and are deemed critical to our results of operations or financial position are discussed in the “Critical Accounting Policies” section of Part II, Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the 2017 Annual Report on Form 10-K.

Results of Operations

The following discussions of Analysis of Condensed Consolidated Statements of Earnings and Analysis of Reportable Segments refer to the three months ended September 30, 2017 compared to the three months ended September 30, 2016 . The Analysis of Condensed Consolidated Statements of Earnings should be read in conjunction with the Analysis of Reportable

Segments, which provides a more detailed discussion concerning certain components of the Condensed Consolidated Statements of Earnings.

The following references are utilized in the discussions of Analysis of Condensed Consolidated Statements of Earnings and Analysis of Reportable Segments:

“Amortization of Acquired Intangibles and Purchased Intellectual Property” and “Acquisition and Integration Costs” represent certain non-cash amortization expenses associated with acquired intangible assets and purchased intellectual property assets, as well as certain transaction and integration costs associated with the Company’s acquisition activities, respectively.

“Net New Business” refers to recurring revenue from closed sales less recurring revenue from client losses.

The following definitions describe the Company’s Revenues:

Fee revenues in the Investor Communication Solutions segment are derived from both recurring and event-driven activity.

In addition, the level of recurring and event-driven activity we process directly impacts distribution revenues. While event-driven activity is highly repeatable, it may not recur on an annual basis. The types of services we provide that comprise event-driven activity are:

- Mutual Fund Proxy: The proxy and related services we provide to mutual funds when certain events occur requiring a shareholder vote including changes in directors, sub-advisors, fee structures, investment restrictions, and mergers of funds.
- Mutual Fund Communications: Mutual fund communications services consist primarily of the distribution on behalf of mutual funds of supplemental information required to be provided to the annual mutual fund prospectus as a result of certain triggering events such as a change in portfolio managers. In addition, mutual fund communications consist of notices and marketing materials such as newsletters.
- Proxy Contests and Specials, Corporate Actions, and Other: The proxy services we provide in connection with shareholder meetings driven by special events such as proxy contests, mergers and acquisitions, and tender/exchange offers.

Event-driven fee revenues are based on the number of special events and corporate transactions we process. Event-driven activity is impacted by financial market conditions and changes in regulatory compliance requirements, resulting in fluctuations in the timing and levels of event-driven fee revenues. As such, the timing and level of event-driven activity and its potential impact on revenues and earnings are difficult to forecast.

Generally, mutual fund proxy activity has been subject to a greater level of volatility than the other components of event-driven activity. For the three months ended September 30, 2017, mutual fund proxy fee revenues were 102% higher compared to the three months ended September 30, 2016. During fiscal years 2017 and 2016, mutual fund proxy fee revenues were 19% higher and 22% higher than the prior fiscal year, respectively. Although it is difficult to forecast the levels of event-driven activity, we expect that the portion of fee revenues derived from mutual fund proxy activity may continue to experience volatility in the future.

Distribution revenues primarily include revenues related to the physical mailing of proxy materials, interim communications, transaction reporting, customer communications and fulfillment services, as well as Matrix administrative services.

Distribution cost of revenues consists primarily of postage-related expenses incurred in connection with our Investor Communication Solutions segment, as well as Matrix administrative services expenses. These costs are reflected in Cost of revenues.

Closed sales represent an estimate of the expected annual recurring fee revenue for new client contracts that were signed by Broadridge in the current reporting period. Closed sales does not include event-driven or distribution activity. We consider contract terms, expected client volumes or activity, knowledge of the marketplace and experience with our clients, among other factors, when determining the estimate. Management uses Closed sales to measure the effectiveness of our sales and marketing programs, as an indicator of expected future revenues and as a performance metric in determining incentive compensation.

Closed sales is not a measure of financial performance under GAAP, and should not be considered in isolation or as a substitute for revenue or other income statement data prepared in accordance with GAAP. Closed sales is a useful metric for investors in understanding how management measures and evaluates our ongoing operational performance.

The inherent variability of transaction volumes and activity levels can result in some variability of amounts reported as actual achieved Closed sales. Larger Closed sales can take up to 12 to 24 months or longer to convert to revenues, particularly for the services provided by our Global Technology and Operations segment. Beginning in the fiscal year ended June 30, 2017, we reported Closed sales net of a 3.5% allowance adjustment, in lieu of our previous practice of adjusting for actual performance in subsequent periods. For fiscal year 2018, we are reporting Closed sales net of a 4.0% allowance adjustment. Consequently, our reported Closed sales amounts will not be adjusted for actual revenues achieved because these adjustments are estimated in the period the sale is reported. The allowance adjustment was determined by reviewing the reported Closed sales amounts for the prior five fiscal years based on estimated revenues at signing and comparing those amounts to the revenues achieved one year after the clients went live on the services. We assess this allowance amount at the end of each fiscal year to establish the appropriate allowance for the subsequent year using the trailing five years data referenced earlier as the starting point, normalized for outlying factors, if any, to enhance the accuracy of the allowance.

Closed Sales

Closed sales for the three months ended September 30, 2017 were \$22.9 million, an increase of \$1.2 million, or 6%, compared to \$21.7 million for the three months ended September 30, 2016. Closed sales for the three months ended September 30, 2017 is net of an allowance adjustment of \$1.0 million.

Analysis of Condensed Consolidated Statements of Earnings

Three Months Ended September 30, 2017 versus Three Months Ended September 30, 2016

The table below presents Condensed Consolidated Statements of Earnings data for the three months ended September 30, 2017 and 2016, and the dollar and percentage changes between periods:

	Three Months Ended September 30,			
			Change	
	2017	2016	\$	%

Diluted earnings per share	\$ 0.42	\$ 0.28	\$ 0.14	50

Three Months Ended September 30, 2017 versus Three Months Ended September 30, 2016

Revenues. Revenues for the three months ended September 30, 2017 were \$924.8 million, an increase of \$29.5 million, or 3%, compared to \$895.3 million for the three months ended September 30, 2016. The \$29.5 million increase was driven by higher recurring fee revenues of \$30.9 million, or 6%, and higher event-driven fee revenues of \$21.8 million, or 58%, partially offset by lower distribution revenues of \$22.5 million, or 6%. The higher recurring fee revenues of \$30.9 million reflected: gains from Net New Business (3pts), contributions from our recent acquisitions (1pt) and internal growth (1pt). The higher event-driven fee revenues were primarily from increased proxy contest activity and higher mutual fund proxy activity. Fluctuations in foreign currency exchange rates negatively impacted revenues by \$0.7 million.

Total Operating expenses. Total operating expenses for the three months ended September 30, 2017 were \$840.3 million, an increase of \$11.1 million, or 1%, compared to \$829.3 million for the three months ended September 30, 2016. Cost of revenues increased by \$8.6 million, or 1%, and Selling, general and administrative expenses increased by \$2.5 million, or 2%. The increase in operating expenses was primarily attributable to higher amortization expenses of acquired intangibles and higher operating costs related to acquisitions.

Operating income. Operating income for the three months ended September 30, 2017 was \$84.4 million, an increase of \$18.4 million, or 28%, compared to \$66.0 million for the three months ended September 30, 2016. The increase is due to higher recurring fee revenues and event-driven fee revenues, partially offset by higher operating expenses including \$6.6 million of increased amortization of acquired intangibles and purchased intellectual property. Operating income margins increased to 9.1% for the three months ended September 30, 2017, compared to 7.4% for the three months ended September 30, 2016, primarily due to the increase in recurring fee revenues and event-driven fee revenues.

Interest expense, net. Interest expense, net for the three months ended September 30, 2017 was \$9.4 million, a decrease of \$0.9 million, or 10%, compared to \$10.4 million for the three months ended September 30, 2016. The decrease was primarily due to a decrease in interest expense of \$0.7 million due to a more favorable mix of interest rates on outstanding borrowings.

Other non-operating expenses, net. Other non-operating expenses, net for the three months ended September 30, 2017 were \$0.7 million, a decrease of \$3.5 million, or 83%, compared to \$4.2 million for the three months ended September 30, 2016. The decrease was primarily due to lower expense of \$2.5 million related to fluctuations in foreign currency exchange rates and lower losses related to equity method investments of \$0.9 million.

Earnings before income taxes. Earnings before income taxes for the three months ended September 30, 2017 were \$74.3 million, an increase of \$22.8 million, or 44%, compared to \$51.5 million for the three months ended September 30, 2016.

Provision for income taxes. The Provision for income taxes and effective tax rate for the three months ended September 30, 2017 were \$24.4 million and 32.8%, compared to \$17.9 million and 34.8% for the three months ended September 30, 2016. The decrease in the effective tax rate for the three months ended September 30, 2017 compared to the three months ended September 30, 2016 is primarily attributable to the recognition of excess tax benefits associated with stock compensation and a more favorable geographic mix of income resulting in a higher percentage of lower taxed income in non-U.S. jurisdictions.

Net Earnings and Basic and Diluted earnings per share. Net earnings for the three months ended September 30, 2017 were \$49.9 million, an increase of \$16.2 million, or 48%, compared to \$33.7 million for the three months ended September 30, 2016. The increase in Net earnings primarily reflects higher recurring fee revenues and event-driven fee revenues, and a lower provision for income taxes primarily attributable to the recognition of excess tax benefits associated with stock compensation.

Basic and Diluted earnings per share for the three months ended September 30, 2017 were \$0.43 and \$0.42, respectively, compared to \$0.28 and \$0.28 for the three months ended September 30, 2016, respectively.

Analysis of Reportable Segments

The Company classifies its operations into the following two reportable segments: (1) Investor Communication Solutions and (2) Global Technology and Operations.

The primary component of "Other" are certain gains, losses, corporate overhead expenses and non-operating expenses that have not been allocated to the reportable segments, such as interest expense. Foreign currency exchange is a reconciling item between the actual foreign currency exchange rates and the constant foreign currency exchange rates used for internal management reporting.

Certain corporate expenses, as well as certain centrally managed expenses, are allocated based upon budgeted amounts in a reasonable manner. Because the Company compensates the management of its various businesses on, among other factors, segment profit, the Company may elect to record certain segment-related expense items in Other rather than reflect such items in segment profit.

Event-driven fee revenues	59.3	37.5	21.8	58
Distribution revenues	334.2	356.7	(22.5)	(6)
Total	\$ 733.5	\$ 723.3	\$ 10.1	1

Revenues . Investor Communication Solutions segment's Revenues for the three months ended September 30, 2017 were \$733.5 million , an increase of \$10.1 million , or 1% , compared to \$723.3 million for the three months ended September 30, 2016 . The \$10.1 million increase was driven by: (i) higher event-driven fee revenues of \$21.8 million, or 58%, and (ii) higher recurring fee revenues of \$10.8 million , or 3% , partially offset by (iii) a decrease in distribution revenues of \$22.5 million , or 6% .

Higher event-driven fee revenues were the result of increased proxy contests and mutual fund proxy activity. Higher recurring fee revenues were primarily driven by Net New Business from increases in revenues from Closed sales. Position growth compared to the same period in the prior year, which is a component of internal growth, was 9% for mutual fund interims.

Earnings before Income Taxes . Earnings before income taxes for the three months ended September 30, 2017 were \$44.5 million, an increase of \$11.6 million , or 35% , compared to \$32.9 million for the three months ended September 30, 2016 .

The earnings increase was primarily due to higher recurring fee revenues and event-driven fee revenues. Pre-tax margins increased by 1.6 percentage points to 6.1% from 4.5% .

Global Technology and Operations

Revenues . Global Technology and Operations segment's Revenues for the three months ended September 30, 2017 were \$207.9 million, an increase of \$20.0 million , or 11% , compared to \$187.8 million for the three months ended September 30, 2016 . The 11% increase was attributable to: (i) higher Net New Business from Closed sales (6pts), (ii) revenue from recent acquisitions (3pts) and (iii) internal growth from higher trade and non-trade activity levels (2pts).

Earnings before Income Taxes . Earnings before income taxes for the three months ended September 30, 2017 were \$46.2 million, an increase of \$7.9 million , or 21% , compared to \$38.3 million for the three months ended September 30, 2016 . The earnings increase was primarily due to higher organic revenues. Pre-tax margins increased by 1.8 percentage points from 20.4% to 22.2%.

Other

Loss before Income Taxes. Loss before income taxes was \$21.5 million for the three months ended September 30, 2017 , a decrease of \$1.3 million , compared to \$22.8 million for the three months ended September 30, 2016 . The decreased loss was primarily due to a decrease in interest expense, net of \$0.9 million.

Explanation and Reconciliation of the Company's Use of Non-GAAP Financial Measures

The Company's results in this Quarterly Report on Form 10-Q are presented in accordance with U.S. GAAP except where otherwise noted. In certain circumstances, results have been presented that are not generally accepted accounting principles measures ("Non-GAAP"). These Non-GAAP measures are Adjusted Operating income, Adjusted Net earnings, Adjusted earnings per share, and Free cash flow. These Non-GAAP financial measures should be viewed in addition to, and not as a substitute for, the Company's reported results.

The Company believes our Non-GAAP financial measures help investors understand how management plans, measures and evaluates the Company's business performance. Management believes that Non-GAAP measures provide consistency in its financial reporting and facilitates investors' understanding of the Company's operating results and trends by providing an additional basis for comparison. Management uses these Non-GAAP financial measures to, among other things, evaluate our ongoing operations, for internal planning and forecasting purposes and in the calculation of performance-based compensation. In addition, and as a consequence of the importance of these Non-GAAP financial measures in managing our business, the Company's Compensation Committee of the Board of Directors incorporates Non-GAAP financial measures in the evaluation process for determining management compensation.

Adjusted Operating Income, Adjusted Net Earnings and Adjusted Earnings Per Share

These Non-GAAP measures reflect Operating income, Operating income margin, Net earnings, and Diluted earnings per share, as adjusted to exclude the impact of certain costs, expenses, gains and losses and other specified items that management believes are not indicative of our ongoing operating performance. These adjusted measures exclude the impact of Amortization of Acquired Intangibles and Purchased Intellectual Property, and Acquisition and Integration Costs. Amortization of Acquired Intangibles and Purchased Intellectual Property represents non-cash expenses associated with the Company's acquisition activities. Acquisition and Integration Costs represent certain transaction and integration costs associated with the Company's acquisition activities.

We exclude Amortization of Acquired Intangibles and Purchased Intellectual Property, and Acquisition and Integration Costs from these measures because excluding such information provides us with an understanding of the results from the primary operations of our business and these items do not reflect ordinary operations or earnings. Management believes these measures may be useful to an investor in evaluating the underlying operating performance of our business.

Free Cash Flow

In addition to the Non-GAAP financial measures discussed above, we provide Free cash flow information because we consider Free cash flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated that could be used for dividends, share repurchases, strategic acquisitions, other investments, as well as debt servicing. Free cash flow is a Non-GAAP financial measure and is defined by the Company as Net cash flows provided by operating activities less Capital expenditures as well as Software purchases and capitalized internal use software.

Set forth below is a reconciliation of such Non-GAAP measures to the most directly comparable GAAP measures (unaudited):

Financial Condition, Liquidity and Capital Resources

Cash and cash equivalents consisted of the following:

	September 30, 2017	June 30, 2017
	(in millions)	
Cash and cash equivalents:		
Domestic cash	\$ 92.6	\$ 86.8
Cash held by foreign subsidiaries	133.2	126.2
Cash held by regulated entities	63.0	58.1
Total cash and cash equivalents	\$ 288.8	\$ 271.1

At September 30, 2017, cash and cash equivalents were \$288.8 million and Total stockholders' equity was \$1,037.9 million. At September 30, 2017, net working capital was \$424.9 million, compared to \$244.6 million at June 30, 2017. At the current time, and in future periods, we expect cash generated by our operations, together with existing cash, cash equivalents, and borrowings from the capital markets, to be sufficient to cover cash needs for working capital, capital expenditures, strategic acquisitions, dividends and common stock repurchases.

At September 30, 2017, \$133.2 million of the \$288.8 million of cash and cash equivalents were held by our foreign subsidiaries, and \$63.0 million of cash and cash equivalents were held by regulated entities. We expect existing domestic cash, cash equivalents, and cash flows from operations to continue to be sufficient to fund our domestic operating activities and cash commitments for investing and financing activities, such as regular quarterly dividends, debt repayment schedules, and material capital expenditures, for at least the next 12 months and thereafter for the foreseeable future. In addition, we expect existing foreign cash, cash equivalents, and cash flows from operations to continue to be sufficient to fund our foreign operating activities and cash commitments for investing activities, such as material capital expenditures, for at least the next 12 months and thereafter for the foreseeable future. If these funds are needed for our operations in the U.S., we would be required to accrue and pay U.S. taxes to repatriate these funds. However, our current plans do not demonstrate a need to repatriate them to fund our U.S. operations, as we consider these funds to be permanently reinvested outside the U.S.

Outstanding borrowings and available capacity under the Company's borrowing arrangements were as follows:

	Expiration Date	Principal amount outstanding at September 30, 2017	Carrying value at September 30, 2017	Carrying value at June 30, 2017	Unused Available Capacity	Fair Value at September 30, 2017

Total debt		\$ 1,300.0	\$ 1,292.4	\$ 1,102.1	\$ 600.0	\$ 1,317.0

Future principal payments on the Company's outstanding debt are as follows:

Years ending June 30,	2018	2019	2020	2021	2022	Thereafter	Total
(in millions)	\$ —	\$ —	\$ —	\$ 400.0	\$ 400.0	\$ 500.0	\$ 1,300.0

The Company has a \$1.0 billion five-year revolving credit facility (the "Fiscal 2017 Revolving Credit Facility"), which is comprised of a \$900.0 million U.S. dollar tranche and an \$100.0 million multicurrency tranche. Borrowings under the Fiscal 2017 Revolving Credit Facility bear interest at LIBOR plus 100 basis points. In addition, the Fiscal 2017 Revolving Credit Facility has an annual facility fee equal to 12.5 basis points on the entire facility, which totaled \$0.3 million and \$0.2 million for the three months ended September 30, 2017 and 2016, respectively. At September 30, 2017, the Company had \$400.0

million in outstanding borrowings and had unused available capacity of \$600.0 million under the Fiscal 2017 Revolving Credit Facility. The facility is scheduled to expire in February 2022.

At September 30, 2017, the carrying value of the Company's outstanding Long-term debt was \$1,292.4 million, consisting of: (i) borrowings on the Fiscal 2017 Revolving Credit Facility of \$400.0 million, (ii) senior notes of \$398.0 million (\$400.0 million principal amount less \$0.2 million bond discount and \$1.7 million of unamortized debt issuance costs) due September 2020 and (iii) senior notes of \$494.4 million (\$500.0 million principal amount less \$1.8 million bond discount and \$3.8 million of unamortized debt issuance costs) due June 2026. The Fiscal 2017 Revolving Credit Facility and the senior notes are senior unsecured obligations of the Company and are ranked equally in right of payment. Interest on the senior notes due 2020 is payable semiannually on March 1st and September 1st each year based on a fixed per annum rate equal to 3.95%. Interest on the senior notes due 2026 is payable semiannually on June 27th and December 27th each year based on a fixed per annum rate equal to 3.40%.

Our liquidity position may be negatively affected by changes in general economic conditions, regulatory requirements and access to the capital markets, which may be limited if we were to fail to renew any of the credit facilities on their renewal dates or if we were to fail to meet certain ratios.

Cash Flows

	Three Months Ended September 30,		
	2017	2016	Change \$
	(in millions)		
Net cash flows used in operating activities	\$ (93.3)	\$ (87.4)	\$ (5.9)
Net cash flows used in investing activities	\$ (41.2)	\$ (508.4)	\$ 467.2
Net cash flows provided by financing activities	\$ 146.1	\$ 96.1	\$ 50.0
Free cash flow:			
Net cash flows used in operating activities (GAAP)	\$ (93.3)	\$ (87.4)	\$ (5.9)
Capital expenditures and Software purchases and capitalized internal use software	(36.0)	(14.7)	(21.3)
Free cash flow (Non-GAAP)	<u>\$ (129.3)</u>	<u>\$ (102.1)</u>	<u>\$ (27.2)</u>

The increase in cash used in operating activities of \$5.9 million in the three months ended September 30, 2017, as compared to the three months ended September 30, 2016, was primarily due to: (i) increased cash used in working capital of \$56.7 million, partially offset by (ii) the increase in net earnings of \$16.2 million and (iii) increased non-cash expense add-backs of \$31.3 million, which includes a \$20.9 million decrease in excess tax benefits from the issuance of stock-based compensation awards that are no longer classified as cash flows from financing activities.

The decrease in Free cash flow of \$27.2 million in the three months ended September 30, 2017, as compared to the three months ended September 30, 2016, was primarily driven by increased capital expenditures and software purchases and capitalized internal use software of \$21.3 million.

The decrease in cash used in investing activities of \$467.2 million in the three months ended September 30, 2017, as compared to the three months ended September 30, 2016, primarily reflects decreased (i) investments of \$398.3 million in acquisitions and (ii) \$90.0 million in purchased intellectual property, partially offset by (iii) increased capital expenditures and software purchases and capitalized internal use software of \$21.3 million.

The increased cash provided by financing activities of \$50.0 million in the three months ended September 30, 2017 as compared to the three months ended September 30, 2016 primarily reflects cash provided by: (i) an increase in net proceeds from borrowings of \$80.0 million, and (ii) a \$37.7 million decrease in the purchase of common stock, partially offset by cash used: (iii) a \$39.6 million decrease in the proceeds from stock options, (iv) a \$20.9 million decrease in excess tax benefits from the issuance of stock-based compensation awards that are no longer classified as cash flows from financing activities, and (v) a \$2.3 million increase in dividends paid.

Seasonality

Processing and distributing proxy materials and annual reports to investors in equity securities and mutual funds comprises a large portion of our Investor Communication Solutions business. We process and distribute the greatest number of proxy materials and annual reports during our fourth fiscal quarter (the second quarter of the calendar year). The recurring periodic activity of this business is linked to significant filing deadlines imposed by law on public reporting companies and mutual funds. Historically, this has caused our revenues, operating income, net earnings, and cash flows from operating activities to be higher in our fourth fiscal quarter than in any other quarter. The seasonality of our revenues makes it difficult to estimate future operating results based on the results of any specific fiscal quarter and could affect an investor's ability to compare our financial condition, results of operations, and cash flows on a fiscal quarter-by-quarter basis.

Income Taxes

Our effective tax rate for the three months ended September 30, 2017 was 32.8% , compared to 34.8% for the three months ended September 30, 2016 . The decrease in the effective tax rate for the three months ended September 30, 2017 compared to the comparable prior year period is primarily attributable to the recognition of excess tax benefits associated with stock compensation and a more favorable geographic mix of income resulting in a higher percentage of lower taxed income in non-U.S. jurisdictions.

Contractual Obligations

In March 2010, the Company and International Business Machines Corporation ("IBM") entered into an Information Technology Services Agreement (the "IT Services Agreement"), under which IBM provides certain aspects of the Company's information technology infrastructure. Under the IT Services Agreement, IBM provides a broad range of technology services to the Company including supporting its mainframe, midrange, open systems, network and data center operations, as well as providing disaster recovery services. The Company has the option of incorporating additional services into the agreement over time. The migration of data center processing to IBM was completed in August 2012. The IT Services Agreement would have expired on June 30, 2022. In March 2015, the Company signed a two -year extension to the IT Services Agreement which expires on June 30, 2024 . The Company has the right to renew the term of the IT Services Agreement for up to one additional 12 -month term. Commitments remaining under this agreement at September 30, 2017 are \$376.3 million through fiscal year 2024, the final year of the contract.

In March 2014, the Company and IBM United Kingdom Limited ("IBM UK") entered into an Information Technology Services Agreement (the "EU IT Services Agreement"), under which IBM UK provides data center services supporting the Company's technology outsourcing services for certain clients in Europe and Asia. The EU IT Services Agreement expires in October 2023. The Company has the right to renew the initial term of the EU IT Services Agreement for up to one additional 12 -month term or one additional 24 -month term. Commitments remaining under this agreement at September 30, 2017 are \$27.7 million through fiscal year 2024, the final year of the contract.

The Company expects to pay \$40.0 million to an affiliate of Inveshare by September 2018 upon delivery of certain blockchain technology applications.

The Company contributed \$1.5 million to an equity method investment during the three months ended September 30, 2017 , and has a remaining commitment of \$1.3 million to fund this investment at September 30, 2017.

Other Commercial Agreements

At September 30, 2017, the Company had \$400.0 million of outstanding borrowings and unused available capacity of \$600.0 million under the Fiscal 2017 Revolving Credit Facility.

Certain of the Company's subsidiaries established unsecured, uncommitted lines of credit with banks. There were no outstanding borrowings under these lines of credit at September 30, 2017 .

Off-balance Sheet Arrangements

It is not the Company's business practice to enter into off-balance sheet arrangements. However, the Company is exposed to market risk from changes in foreign currency exchange rates that could impact its financial position, results of operations and cash flows. The Company manages its exposure to these market risks through its regular operating and financing activities

and, when deemed appropriate, through the use of derivative financial instruments. The Company uses derivative financial instruments as risk management tools and not for trading purposes. The Company was not a party to any derivative financial instruments at September 30, 2017 or at June 30, 2017. In the normal course of business, the Company also enters into contracts in which it makes representations and warranties that relate to the performance of the Company's products and services. The Company does not expect any material losses related to such representations and warranties or collateral arrangements.

Recently-issued Accounting Pronouncements

Please refer to Note 2, "New Accounting Pronouncements" to our Financial Statements under Item 1. of Part I of this Quarterly Report on Form 10-Q, for a discussion on the impact of new accounting pronouncements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes related to market risk from the disclosures in the Company's Annual Report on Form 10-K for the year ended June 30, 2017.

Item 4. CONTROLS AND PROCEDURES

Management's Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2017. The Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures as of September 30, 2017 were effective to provide reasonable assurance that the information required to be disclosed by us in reports filed under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the three months ended September 30, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**Item 1. LEGAL PROCEEDINGS**

In the normal course of business, the Company is subject to claims and litigation. While the outcome of any claim or litigation is inherently unpredictable, the Company believes that the ultimate resolution of these matters will not, individually or in the aggregate, result in a material impact on its financial condition, results of operations, or cash flows.

Item 1A. RISK FACTORS

In addition to the information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the “Risk Factors” disclosed under Item 1A. to Part I in our Annual Report on Form 10-K for the fiscal year ended June 30, 2017, filed on August 10, 2017. You should be aware that these risk factors and other information may not describe every risk facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. There have been no material changes to the risk factors we have disclosed in the “Risk Factors” section of our 2017 Annual Report on Form 10-K.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**Purchases of Equity Securities by the Issuer and Affiliated Purchasers**
