# Forward-Looking Statements

This presentation and other written or oral statements made from time to time by representatives of Broadridge Financial Solutions, Inc. ("Broadridge" or the "Company") contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Statements that are not historical in nature, and which may be identified by the use of words such as "expects," "assumes," "projects," "anticipates," "estimates," "we believe," "could be," "on track," and other words of similar meaning are forward-looking statements. In particular, information appearing in the "Fiscal Year 2025 Guidance" section and statements about our three-year objectives are forward-looking statements.

These statements are based on management's expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed. These risks and uncertainties include those risk factors described and discussed in Part I, "Item 1A. Risk Factors" of the Annual Report on Form 10-K for the year ended June 30, 2024 (the "2024 Annual Report"), as they may be updated in any future reports filed with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this presentation and are expressly qualified in their entirety by reference to the factors discussed in the 2024 Annual Report.

These risks include:

- Changes in laws and regulations affecting Broadridge's clients or the services provided by Broadridge;
- Broadridge's reliance on a relatively small number of clients, the continued financial health of those clients, and the continued use by such clients of Broadridge's services with favorable pricing terms;
- A material security breach or cybersecurity attack affecting the information of Broadridge's clients;
- Declines in participation and activity in the securities markets;
- The failure of Broadridge's key service providers to provide the anticipated levels of service;
- A disaster or other significant slowdown or failure of Broadridge's systems or error in the performance of Broadridge's services;
- Overall market, economic and geopolitical conditions and their impact on the securities markets;
- The success of Broadridge in retaining and selling additional services to its existing clients and in obtaining new clients;
- Broadridge's failure to keep pace with changes in technology and demands of its clients;
- Competitive conditions;
- Broadridge's ability to attract and retain key personnel; and
- The impact of new acquisitions and divestitures.

There may be other factors that may cause our actual results to differ materially from the forward-looking statements. Our actual results, performance or achievements could differ materially from those expressed in, or implied by, the forward-looking statements. We can give no assurances that any of the events anticipated by the forward-looking statements will occur or, if any of them do, what impact they will have on our results of operations and financial condition.

Broadridge disclaims any obligation to update or revise forward-looking statements that may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events, other than as required by law.

# Use of Non-GAAP financial measures, KPIs and foreign exchange rates

## Use of Non-GAAP Financial Measures

This presentation includes certain Non-GAAP financial measures including Adjusted Operating income, Adjusted Operating income margin, Adjusted Net earnings, Adjusted earnings per share (“EPS”), Free cash flow, Free cash flow conversion, and Recurring revenue growth constant currency. Please see the “Explanation of Non-GAAP Measures and Reconciliation of GAAP to Non-GAAP Measures” section of this presentation for more information on Broadridge’s use of Non-GAAP measures and reconciliations to GAAP measures.

## Key Performance Indicators

Management focuses on a variety of key indicators to plan, measure and evaluate the Company’s business and financial performance. These performance indicators include Revenues and Recurring revenue, as well as Non-GAAP measures of Adjusted Operating income, Adjusted Net earnings, Adjusted EPS, Free cash flow, Free cash flow conversion, Recurring revenue growth constant currency, and Closed sales. In addition, management focuses on select operating metrics specific to Broadridge of Record Growth, which is comprised of Stock Record Growth (also referred to as “SRG” or “equity position growth”) and Interim Record Growth (also referred to as “IRG” or “mutual fund/ETF position growth”), and Internal Trade Growth (“ITG”). Please refer to Item 2. Management’s Discussion and Analysis of Financial Condition of the 2024 Annual Report for a discussion of Revenues, Recurring revenue, Record Growth and Internal Trade Growth in the “Key Performance Indicators” section and the “Results of Operations” section for a description of Closed sales.

## Foreign Exchange Rates

Beginning with the first quarter of fiscal year 2023, the Company changed reporting for segment revenues, segment earnings (loss) before income taxes, segment amortization of acquired intangibles and purchased intellectual property, and Closed sales to reflect the impact of actual foreign exchange rates applicable to the individual periods presented. The presentation of these metrics for the prior periods has been changed to conform to the current period presentation. Total consolidated revenues and earnings before income taxes were not impacted.

## Notes on Presentation

Amounts presented in this presentation may not sum due to rounding.

All FY’24 and FY’25 Recurring revenue dollar amounts shown in this presentation are GAAP. Recurring revenue growth percentages for FY’23, FY’24 and FY’25 Guidance are shown as constant currency (Non-GAAP).

Recurring revenue growth percentages for FY’20, FY’21 and FY’22 are calculated based on constant foreign currency exchange rates used for internal management reporting as described in the Company’s segment footnote within its Form 10-K for each respective year.

# Explanation of Non-GAAP Measures and Reconciliation of GAAP to Non- GAAP Measures

# Non-GAAP Measures

## Explanation and Reconciliation of the Company's Use of Non-GAAP Financial Measures

The Company's results in this presentation are presented in accordance with U.S. generally accepted accounting principles ("GAAP") except where otherwise noted. In certain circumstances, results have been presented that are not generally accepted accounting principles measures ("Non-GAAP"). These Non-GAAP measures are Adjusted Operating income, Adjusted Operating income margin, Adjusted Net earnings, Adjusted earnings per share, Free cash flow, Free cash flow conversion, and Recurring revenue growth constant currency. These Non-GAAP financial measures should be viewed in addition to, and not as a substitute for, the Company's reported results.

The Company believes our Non-GAAP financial measures help investors understand how management plans, measures and evaluates the Company's business performance. Management believes that Non-GAAP measures provide consistency in its financial reporting and facilitates investors' understanding of the Company's operating results and trends by providing an additional basis for comparison. Management uses these Non-GAAP financial measures to, among other things, evaluate our ongoing operations, and for internal planning and forecasting purposes. In addition, and as a consequence of the importance of these Non-GAAP financial measures in managing our business, the Company's Compensation Committee of the Board of Directors incorporates Non-GAAP financial measures in the evaluation process for determining management compensation.

Reconciliations of Non-GAAP measures to the most directly comparable financial measures presented in accordance with GAAP can be found in the tables that are part of this presentation.

## Adjusted Operating Income, Adjusted Operating Income Margin, Adjusted Net Earnings, and Adjusted Earnings Per Share

These Non-GAAP measures are adjusted to exclude the impact of certain costs, expenses, gains and losses and other specified items, the exclusion of which management believes provides insight regarding our ongoing operating performance. Depending on the period presented, these adjusted measures exclude the impact of certain of the following items:

- (i) Amortization of Acquired Intangibles and Purchased Intellectual Property, which represent non-cash amortization expenses associated with the Company's acquisition activities.
- (ii) Acquisition and Integration Costs, which represent certain transaction and integration costs associated with the Company's acquisition activities.
- (iii) Restructuring and Other Related Costs, which represent costs associated with the Company's Corporate Restructuring Initiative to exit and/or realign some of our businesses, streamline the Company's management structure, reallocate work to lower cost locations, and reduce headcount in deprioritized areas, in addition to other restructuring activities.
- (iv) Litigation Settlement Charges, which represent the reserve established during the third and fourth quarter of fiscal year 2024 related to the settlement of claims.
- (v) Russia-Related Exit Costs, which are direct and incremental costs associated with the Company's wind down of business activities in Russia in response to Russia's invasion of Ukraine, including relocation-related expenses of impacted associates.
- (vi) Real Estate Realignment and Covid-19 Related Expenses. Real Estate Realignment Expenses are expenses associated with the exit of certain of the Company's leased facilities in response to the Covid-19 pandemic, which consist of the impairment of certain right of use assets, leasehold improvements and equipment, as well as other related facility exit expenses directly resulting from, and attributable to, the exit of these leased facilities. Covid-19 Related Expense are direct and incremental expenses incurred by the Company to protect the health and safety of Broadridge associates during the Covid-19 outbreak, including expenses associated with monitoring the temperatures for associates entering our facilities, enhancing the safety of our office environment in preparation for workers to return to Company facilities on a more regular basis, ensuring proper social distancing in our production facilities, personal protective equipment, enhanced cleaning measures in our facilities, and other safety related expenses
- (vii) Investment Gains, which represent non-operating, non-cash gains on privately held investments.
- (viii) Software Charge, which represents a charge related to an internal use software product that is no longer expected to be used
- (ix) Gain on Acquisition-Related Financial Instrument, which represents a non-operating gain on a financial instrument designed to minimize the Company's foreign exchange risk associated with the Itiviti acquisition, as well as certain other non-operating financing costs associated with the Itiviti acquisition.
- (x) IBM Private Cloud Charges, which represent a charge on the hardware assets transferred to IBM and other charges related to the IBM Private Cloud Agreement; and
- (xi) Gain on Sale of a Joint Venture Investment, which represents a non-operating, cash gain on the sale of one of the Company's joint venture investments.

# Non-GAAP Measures

We exclude Acquisition and Integration Costs, Restructuring and Other Related Costs, Litigation Settlement Charges, Russia-Related Exit Costs, Real Estate Realignment and Covid-19 Related Expenses, Investment Gains, the Software Charge, Gain on Acquisition-Related Financial Instrument, IBM Private Cloud Charges and Gain on Sale of a Joint Venture Investment from our Adjusted Operating income (as applicable) and other adjusted earnings measures because excluding such information provides us with an understanding of the results from the primary operations of our business and enhances comparability across fiscal reporting periods, as these items are not reflective of our underlying operations or performance. We also exclude the impact of Amortization of Acquired Intangibles and Purchased Intellectual Property, as these non-cash amounts are significantly impacted by the timing and size of individual acquisitions and do not factor into the Company's capital allocation decisions, management compensation metrics or multi-year objectives. Furthermore, management believes that this adjustment enables better comparison of our results as Amortization of Acquired Intangibles and Purchased Intellectual Property will not recur in future periods once such intangible assets have been fully amortized. Although we exclude Amortization of Acquired Intangibles and Purchased Intellectual Property from our adjusted earnings measures, our management believes that it is important for investors to understand that these intangible assets contribute to revenue generation. Amortization of intangible assets that relate to past acquisitions will recur in future periods until such intangible assets have been fully amortized. Any future acquisitions may result in the amortization of additional intangible assets.

## **Free cash flow and Free cash flow conversion**

In addition to the Non-GAAP financial measures discussed above, we provide Free cash flow information because we consider Free cash flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated that could be used for dividends, share repurchases, strategic acquisitions, other investments, as well as debt servicing. Free cash flow is a Non-GAAP financial measure and is defined by the Company as Net cash flows provided by operating activities plus Proceeds from asset sales, less Capital expenditures as well as Software purchases and capitalized internal use software. Free cash flow conversion is calculated as Free cash flow divided by Adjusted Net earnings for the given period.

## **Recurring revenue growth constant currency**

As a multi-national company, we are subject to variability of our reported U.S. dollar results due to changes in foreign currency exchange rates. The exclusion of the impact of foreign currency exchange fluctuations from our Recurring revenue growth, or what we refer to as amounts expressed “on a constant currency basis”, is a Non-GAAP measure. We believe that excluding the impact of foreign currency exchange fluctuations from our Recurring revenue growth provides additional information that enables enhanced comparison to prior periods.

Changes in Recurring revenue growth expressed on a constant currency basis are presented excluding the impact of foreign currency exchange fluctuations. To present this information, current period results for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the corresponding period of the comparative year, rather than at the actual average exchange rates in effect during the current fiscal year.

Reconciliations of such Non-GAAP measures to the most directly comparable financial measures presented in accordance with GAAP can be found in the tables that are part of this presentation.
