LTX, a Broadridge Company, Expands Generative AI Capabilities with BondGPT Intelligence

2025-06-10

New functionality proactively delivers actionable intelligence directly into trading and investing workflows at the moment users need these critical insights

NEW YORK, June 10, 2025 /PRNewswire/ -- **LTX**, an AI-powered corporate bond trading platform backed by global Fintech leader **Broadridge Financial Solutions Inc.** (NYSE:BR), today announced the launch of BondGPT Intelligence, a new capability that integrates powerful generative AI capabilities directly within trading platform workflows. The new functionality intelligently anticipates users' queries based on where they are in the investing and trading workflow, instantly delivering critical answers and empowering users to make informed decisions with speed and confidence.

"AI has been a core part of our platform since the beginning. With BondGPT Intelligence, we are enhancing our offering to provide practical value and deeper workflow integration for market participants," said Jim Kwiatkowski, CEO of LTX. "From bond and liquidity discovery to counterparty selection and execution, BondGPT Intelligence integrates practical, sophisticated AI capabilities into every phase of the trading workflow — unlocking the true potential of AI in modern trading."

BondGPT Intelligence anticipates clients' needs, proactively putting key insights at traders' fingertips right inside the trading platform. Leveraging the award-winning BondGPT application, BondGPT Intelligence provides immediate access to a wide range of market data and insights, anticipating critical questions in real time, and supporting faster, more informed decision-making without disrupting the trading workflow.

Building on its pioneering use of generative AI, LTX continues to transform the fixed income trading experience by proactively delivering actionable intelligence directly into clients' workflows at the moment users need these critical

insights. This new capability meets the growing demand to leverage generative AI to enhance productivity and simplify workflows without requiring users to access another system.

The launch of BondGPT Intelligence follows the **recent announcement of a patent** being granted for methods and systems behind BondGPT including the large language model (LLM) orchestration of machine learning agents. These milestones build on LTX's legacy of harnessing advanced AI technology and reinforce Broadridge's overall commitment to advancing intelligent trading solutions.
