

Instinet Europe Selects Broadridge Financial Solutions' Gloss

Released : 01 14 2009

LAKE SUCCESS, NY -- (MARKET WIRE) -- 01/14/09 -- Broadridge Financial Solutions, Inc. (NYSE: BR) today announced that Instinet Europe Ltd, the European brokerage subsidiary of Instinet Incorporated, a global leader in electronic trading and agency-only brokerage services, has selected Broadridge's Gloss international securities processing solution.

Gloss is a real-time, multi-currency, transaction processing and record keeping solution for post-execution processing of securities. It automates the trade processing lifecycle from trade capture through to confirmation and settlement to provide the highest levels of straight-through-processing and efficient and timely exception management. It will be used on an ASP basis, for Instinet's pan-European equity operations.

Gloss will receive executed transactions from Instinet's proprietary middle office system. It will handle confirmations, central counterparty netting, position management, profit and loss, settlement and trade accounting, with market interfaces for settlement and reporting.

As part of the Gloss package, Instinet will use Gloss' new browser enabled, proactive exception management facility. Its institutional clients will also have access to Gloss for trade and settlement reporting and MIS, enabling Instinet to deliver customer service enhancements.

"Gloss will provide us with a highly functional, scalable and robust platform across our European business. It provides us with a low-risk and proven solution for our pan-European securities operations," said Clive Triance, Chief Operating Officer, Instinet Europe Ltd.

"We are privileged that Instinet has selected Gloss for its securities processing and look forward to helping them meet their European business requirements," said Elizabeth Lake, President, Securities Processing Solutions, International, Broadridge Financial Solutions Ltd.

This agreement follows a previous Gloss implementation for Instinet's Asia Pacific business for books and records processing in Hong Kong. Instinet also uses Broadridge's processing solutions in its North American operations.

About Broadridge

Broadridge Financial Solutions, Inc., with over \$2.2 billion in revenues in fiscal year 2008 and more than 40 years of experience, is a leading global provider of technology-based outsourcing solutions to the financial services industry. Our systems and services include investor communication, securities processing, and clearing and outsourcing solutions. We offer advanced, integrated systems and services that are dependable, scalable and cost-efficient. Our systems help reduce the need for clients to make significant capital investments in operations infrastructure, thereby allowing them to increase their focus on core business activities.
