Utz Quality Foods, LLC Issues Voluntary Recall of Certain Limited Varieties of Zapp’s and Dirty Potato Chips

2026-05-04

HANOVER, Pa.--(BUSINESS WIRE)-- Utz Quality Foods, LLC, a subsidiary of Utz Brands, Inc., is issuing a voluntary recall in the United States of certain limited varieties of Zapp’s® and Dirty® potato chips. This voluntary recall follows notification to Utz that a seasoning containing dry milk powder, sourced from California Dairies, Inc. and supplied by a third-party supplier, may contain the presence of Salmonella. The affected seasoning batches tested negative for Salmonella prior to use; however, out of an abundance of caution, Utz is recalling the limited varieties of Zapp’s and Dirty brand potato chips identified below.

1.5 oz Zapp’s Brand Bayou Blackened Ranch Potato Chips

Salmonella is an organism which can cause serious and

sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

To date, there have been no complaints of illness reported to Utz in connection with the recalled products. Utz is recalling these products based on the ingredient supplier’s recall.

This recall is limited exclusively to the limited products listed below, which are available at retail stores nationwide. No other products produced by Utz Quality Foods are included in this recall.
