Simmons, Chairman and CEO of Zions Bancorporation, commented, "We're pleased with fourth quarter results, with earnings per share rising 31% to \$1.76 from the prior year's quarterly earnings of \$1.34. Adjusted taxable-equivalent revenue increased 7.1% to \$879 million, while adjusted noninterest expense rose 7.7% to \$548 million. The adjusted quarterly operating expense includes a \$15 million donation to the Zions Bancorporation Foundation, which will be used over the coming three years to make charitable donations that we expect would otherwise have been nondeductible as a result of recent tax law changes that became effective on January 1. Excluding this donation, adjusted operating expenses would have increased 4.7%, resulting in positive operating leverage during the quarter of 2.4%, and an efficiency ratio of 60.6%."</p> <p>Mr. Simmons continued, "Credit quality was strong during the quarter, with annualized net charge-offs totaling 0.05% of loans. Capital continued to strengthen, with tangible book value per share rising 21% over the past twelve months, and the Common Equity Tier 1 capital ratio strengthening to 11.5% from 10.9% a year ago. Both loans and deposits grew at a 4.1% annualized rate during the quarter, and the net interest margin continued to improve, reaching 3.31%, up from 3.28% last quarter and 3.05% a year ago."</p> <p>Mr. Simmons concluded, "Results for the full year 2025 continued to demonstrably strengthen relative to 2024. Earnings per share increased 21%, while adjusted taxable equivalent revenue rose 7.4% and adjusted operating expenses grew 4.8%, or 4.0% when excluding the \$15 million donation. We're looking forward to continued prudent growth in the coming year."</p>

¹ Taxable-equivalent rates used where applicable.

Net interest income increased \$56 million, or 9%, in the fourth quarter of 2025, relative to the prior year period, primarily due to lower funding costs. The increase was further supported by a favorable shift in the composition of average interest-earning assets, reflecting growth in higher-yielding loans and a decline in lower-yielding money market investments and securities. As a result, the net interest margin improved to 3.31%, compared with 3.05%.

The yield on average interest-earning assets, net of hedging activity, was 5.01% for the fourth quarter of 2025, compared with 5.13% in the prior year period, reflecting lower interest rates. The net yield on average loans and leases decreased 16 basis points to 5.76%, while the net yield on average securities declined 7 basis points to 2.66%. Additionally, the yield on average money market investments declined 77 basis points to 4.23%.

The rate paid on total deposits and interest-bearing liabilities was 1.76% for the fourth quarter of 2025, compared with 2.12% in the prior year period. The total cost of deposits was 1.56%, compared with 1.93%, reflecting the lower interest rate environment.

Average interest-earning assets remained relatively flat from the prior year period. Average loans and leases increased \$1.5 billion, while average securities and average money market investments decreased \$926 million and \$805 million, respectively.

Average interest-bearing liabilities decreased \$2.3 billion, or 4%, from the prior year period. This decrease was primarily driven by a \$2.1 billion reduction in average interest-bearing deposits, largely due to a decline in brokered deposits, along with a \$172 million decrease in average borrowed funds.

¹ Effective the first quarter of 2025, capital markets fees and income includes the net credit valuation adjustment ("CVA"), which was previously disclosed under noncustomer-related noninterest income. Prior period amounts have been reclassified for comparative purposes.

² Net of CVA. For information on non-GAAP financial measures, see pages 18-21.

Customer-related noninterest income was relatively flat compared with the prior year period and primarily reflects a \$3 million increase in retail and business banking fees, driven largely by an increase in overdraft and deposit service fees, offset by a \$3 million decline in capital markets fees and income, mainly attributable to reduced syndication and foreign exchange activity. For the full year 2025, customer-related noninterest income increased \$23 million, or 4%. Excluding the impact of net CVA, capital markets fees and income increased \$15 million, or 14%, benefitting from higher customer swap fee revenue and increased investment banking advisory fees.

Noncustomer-related noninterest income increased \$14 million, or 82%, compared with the prior year period. This growth was primarily driven by a \$13 million increase in net securities gains, largely attributable to valuation adjustments within our Small Business Investment Company ("SBIC") investment portfolio.

¹ For information on non-GAAP financial measures, see pages 18-21.

Noninterest expense increased \$37 million, or 7%, compared with the prior year quarter. Marketing and business development expense increased \$20 million, largely driven by a \$15 million donation to our charitable foundation. Salaries and employee benefits expense increased \$14 million, primarily due to higher base salaries and severance costs, along with increased incentive compensation accruals reflecting improved profitability. Technology, telecom, and information processing expense increased \$5 million, mainly due to higher costs associated with application software, licensing, and maintenance costs. Other noninterest expense increased \$5 million, partly due a success fee accrual adjustment related to our SBIC investments. These increases were partially offset by an \$11 million decrease in deposit insurance and regulatory expense, largely due to an updated FDIC special assessment estimate.

Adjusted noninterest expense increased \$39 million, or 8%, primarily due to the same factors previously mentioned. The efficiency ratio was relatively flat at 62.3%, compared with 62.0%. Excluding the \$15 million charitable contribution, adjusted noninterest expense for the three months ended December 31, 2025 would have been \$533 million, resulting in an efficiency ratio of 60.6%, reflecting positive operating leverage. For more information regarding non-GAAP financial measures, see pages 18-21.

Unfunded commitments	\$ 30,244	\$ 30,337	\$ 29,618	\$ (93)	—	\$ 626	2	

Loans and leases, net of unearned income and fees, increased \$1.5 billion, or 3%, to \$60.9 billion, relative to the prior year quarter. This growth was driven by an \$857 million increase in consumer loans, primarily within the 1-4 family residential loan portfolio, and a \$731 million increase in commercial loans, largely within the commercial and industrial loan portfolio.

The \$127 million increase in loans held for sale compared to the prior year quarter primarily reflects an increase in 1-4 family residential loans as well as higher real estate capital markets activity.

Ratio of classified loans to total loans and leases	3.91 %	4.00 %	4.83 %	(9)		(92)	

During the fourth quarter of 2025, we recorded a \$6 million provision for credit losses, compared with \$41 million during the prior year period. The allowance for credit losses (“ACL”) totaled \$724 million at December 31, 2025, compared with \$741 million at December 31, 2024. The year-over-year decrease in the ACL primarily reflects lower reserves associated with commercial real estate (“CRE”) portfolio-specific risks, partially offset by more adverse economic scenarios and increased growth in loans and commitments. The ratio of ACL to total loans and leases was 1.19% at December 31, 2025, compared with 1.25% at December 31, 2024.

Net loan and lease charge-offs totaled \$7 million in the fourth quarter of 2025, compared with \$36 million in the prior year quarter. At December 31, 2025, nonperforming assets totaled \$320 million, or 0.52% of total loans and leases and other real estate owned, compared with \$298 million, or 0.50%, in the prior year period. Nonperforming assets remained primarily concentrated in the commercial and industrial, term CRE, and consumer 1-4 family residential loan portfolios. Classified loans totaled \$2.4 billion, or 3.91% of total loans and leases, compared with \$2.9 billion, or 4.83%, in the prior year period.

Total deposits decreased \$579 million, or 1%, compared with the prior year quarter. Interest-bearing deposits decreased \$1.7 billion from the prior year quarter, primarily due to a reduction in brokered deposits. This decline was

partially offset by a \$1.1 billion increase in noninterest-bearing demand deposits, mainly driven by the migration of a consumer interest-bearing product into a new noninterest-bearing offering.

At December 31, 2025, customer deposits (excluding brokered deposits) totaled \$71.8 billion, compared with \$71.2 billion at December 31, 2024. These balances included approximately \$6.8 billion and \$7.0 billion of reciprocal deposits, respectively. The loan-to-deposit ratio was 81%, compared with 78% in the prior year quarter.

Total borrowed funds, primarily composed of secured borrowings, decreased \$206 million, or 4%, compared with the prior year quarter. This decrease was driven by a reduction in short-term advances from the FHLB, partially offset by the issuance of \$500 million in 4.70% Fixed-to-Floating Senior Notes during the third quarter of 2025.

The common stock dividend was \$0.45 per share, compared with \$0.43 per share during the fourth quarter of 2024.

At December 31, 2025, the accumulated other comprehensive income (loss) (“AOCI”) balance reflected a net loss of \$1.9 billion, primarily attributable to a decline in the fair value of fixed-rate AFS securities driven by changes in interest rates. This amount includes \$1.6 billion (\$1.2 billion after tax) of unrealized losses associated with securities previously transferred from AFS to held-to-maturity (“HTM”). Compared with December 31, 2024, AOCI improved \$439 million, and had a positive impact on our tangible book value per common share. Absent any sales or credit impairment of these securities, the unrealized losses will not be recognized in earnings. We do not intend to sell any securities with unrealized losses. Although these changes in AOCI are reflected in shareholders' equity, they are currently excluded from regulatory capital, and therefore do not impact our regulatory capital ratios.

Estimated common equity tier 1 (“CET1”) capital was \$7.9 billion, an increase of 8%, compared with \$7.4 billion in the prior year period. The estimated CET1 capital ratio was 11.5%, compared with 10.9%. Tangible book value per common share increased \$6.94, or 21%, to \$40.79, mainly due to an increase in retained earnings and reduced unrealized losses in AOCI. For more information on non-GAAP financial measures, see pages 18-21.

Supplemental Presentation and Conference Call

Zions has posted a supplemental presentation to its website, which will be used to discuss the fourth quarter results at 5:30 p.m. ET on January 20, 2026. Media representatives, analysts, investors, and the public are invited to join this discussion by calling (877) 709-8150 (domestic and international) and using the meeting number 13757867, or via on-demand webcast. A link to the webcast will be available on the Zions Bancorporation website at www.zionsbancorporation.com. The webcast of the conference call will also be archived and available for 30 days.

Forward-looking statements are not guarantees and should not be relied upon as representing management's views as of any subsequent date. Actual results and outcomes may differ materially from those presented. Although the following list is not comprehensive, key factors that may cause material differences include:

- The quality and composition of our loan and investment securities portfolios and the quality and composition of our deposits;
- Changes in general industry, political, and economic conditions, including increases in the national debt, elevated inflation, economic slowdowns or recessions, and other macroeconomic challenges; changes in interest and reference rates, which could negatively impact our revenues and expenses, the valuation and performance of our assets and liabilities, and the availability and cost of capital and liquidity;
- Political developments, including government shutdowns and other significant disruptions and changes in the funding, size, scope, and effectiveness of the government and its agencies and services;
- The effects of newly enacted and proposed regulations affecting us and the banking industry, as well as changes and uncertainties in the interpretation, enforcement, and applicability of laws and fiscal, monetary, regulatory, trade, and tax policies;

- Actions taken by governments, agencies, central banks, and similar organizations, including those that result in decreases in revenue, increases in regulatory bank fees, insurance assessments, and capital standards; and other regulatory requirements;
- Evolving trade policies and disputes, such as proposed and implemented tariffs and resulting market volatility and uncertainty, including the effects on supply chains, expenses, and revenues for both us and our customers;
- Judicial, regulatory and administrative inquiries, investigations, examinations or proceedings and the outcomes thereof that create uncertainty for, or are adverse to, us or the banking industry;
- Changes in our credit ratings;
- Our ability to innovate and otherwise address competitive pressures and other factors that may affect aspects of our business, such as pricing, relevance of, and demand for, our products and services, and our ability to recruit and retain talent;
- The potential for both positive and disruptive impacts of emerging technologies, including stablecoins and other digital currencies, tokenized deposits, blockchain, artificial intelligence, quantum computing, and related innovations affecting both us and the banking industry;
- Our ability to complete projects and initiatives and execute our strategic plans, manage our risks, control compensation and other expenses, and achieve our business objectives;
- Our ability to develop and maintain technology and information security systems, along with effective controls designed to guard against fraud, cybersecurity, and privacy risks and related incidents, particularly given the accelerating pace at which threat actors are developing and deploying increasingly sophisticated and targeted tactics against the financial services industry;
- Our ability to provide adequate oversight of our suppliers to help us prevent or mitigate effects upon us and our customers of inadequate performance, systems failures, or cyber and other incidents by, or affecting, third parties upon whom we rely for the delivery of various products and services;
- The effects of wars, geopolitical conflicts, and other local, national, or international disasters, crises, or conflicts that may occur in the future;
- Natural disasters, pandemics, wildfires, catastrophic events, and other emergencies and incidents, and their impact on our and our customers' operations, business, and communities, including the increasing difficulty in, and the expense of, obtaining property, auto, business, and other insurance products;
- Governmental and social responses to environmental, social, and governance issues, including those with respect to climate change and diversity;
- Securities and capital markets behavior, including volatility and changes in market liquidity and our ability to raise capital;
- The possibility that our recorded goodwill could become impaired, which may have an adverse impact on our earnings and shareholders' equity;
- The impact of bank closures or adverse developments at other banks on general investor sentiment regarding the stability and liquidity of banks;
- Adverse news and other expressions of negative public opinion whether directed at us, other banks, the banking industry, or otherwise that may adversely affect our reputation and that of the banking industry generally; and
- Other assumptions, risks, or uncertainties described in this earnings release, and other SEC filings.

NON-GAAP FINANCIAL MEASURES

(Unaudited)

This press release includes certain non-GAAP financial measures alongside those prepared in accordance with generally accepted accounting principles (“GAAP”). Reconciliations between the applicable GAAP measures and the corresponding non-GAAP measures are provided in the accompanying schedules. We believe these adjustments are relevant to evaluating ongoing operating results and offer a meaningful basis for comparing performance across periods. Management uses these non-GAAP measures to assess both financial performance and position. Presenting these measures enables investors to evaluate our results using the same approach applied by management and commonly used within the financial services industry.

Non-GAAP financial measures have inherent limitations and may not be directly comparable to similar measures reported by other financial institutions. While these measures are commonly used by stakeholders to evaluate company performance, they should be viewed as supplemental and not as a substitute for analysis of results prepared in accordance with GAAP. Non-GAAP measures should not be considered in isolation, as they provide an incomplete perspective without reference to GAAP-based financial information.

Tangible Common Equity and Related Measures

Tangible common equity and related metrics are non-GAAP measures that exclude the impact of intangible assets and associated amortization. We believe these measures provide meaningful insight into the utilization of shareholders’ equity and offer a consistent basis for evaluating business performance.

Efficiency Ratio and Adjusted Pre-Provision Net Revenue

The efficiency ratio measures operating expenses relative to revenue and provides insight into the cost of generating revenue. We adjust this ratio to exclude certain items that are not generally expected to recur frequently, as detailed in the accompanying schedule. These adjustments enhance comparability across reporting periods. Adjusted noninterest expense reflects how effectively we manage operating expenses, while adjusted pre-provision net revenue enables management and stakeholders to evaluate our capacity to generate capital. Additionally, taxable-equivalent net interest income facilitates comparability between revenue derived from taxable and tax-exempt sources.
