Non-GAAP financial measures

These materials report certain financial measures that are not required by, or presented in accordance with, accounting principles generally accepted in the United States of America ("GAAP"). We discuss management's reasons for reporting these non-GAAP measures below, and our publicly available financial information reconciles the most directly comparable GAAP measure to each non-GAAP measure that we reference. Although management evaluates and presents these non-GAAP measures for the reasons described below, please be aware that these non-GAAP measures have limitations and should not be considered in isolation or as a substitute for total costs and expenses, income from operations, operating margin, income before income taxes, net income, earnings per share or any other comparable financial measure prescribed by GAAP. In addition, we may calculate and/or present these non-GAAP financial measures differently than measures with the same or similar names that other companies report, and as a result, the non-GAAP measures we report may not be comparable to those reported by others.

Management uses certain non-GAAP measures to evaluate financial performance because those non-GAAP measures allow for period-over-period comparisons of the Company's ongoing operations before the impact of certain items described below. Management believes this information is useful to investors to compare the Company's results of operations period-over-period. These measures are Adjusted Total Costs and Expenses, Adjusted Income from Operations, Adjusted Operating Margin, Adjusted Income Before Income Taxes, Adjusted Net Income, Adjusted Diluted Earnings Per Share (EPS), Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), Adjusted EBITDA, and Free Cash Flow. We define Adjusted Total Costs and Expenses, Adjusted Income from Operations, Adjusted Operating Margin, Adjusted Income Before Income Taxes, Adjusted Net Income, and Adjusted Diluted EPS to exclude (1) severance costs, asset impairment charges, gains/losses on sale of real estate and early termination of leased facilities, and other costs associated with the Company's restructuring activities, (2) income/loss recognized from the Company's investments in partnership interests and other investments, and (3) discrete tax adjustments utilizing an adjusted effective income tax rate of 29.0% for both the three months ended June 30, 2025 and 2026. To illustrate currency impacts to operating results, Revenue, Adjusted Total Costs and Expenses, Adjusted Income from Operations, Adjusted Operating Margin, Adjusted Income Before Income Taxes, Adjusted Net Income, and Adjusted Diluted EPS for the three months ended June 30, 2026 are also presented on a constant currency basis utilizing an exchange rate of 0.64 Australian Dollars to U.S. Dollars, which was the average exchange rate for the same period in 2025. We define EBITDA as net income before other income (expense), the provision for income taxes, depreciation and amortization, and from this amount in arriving at Adjusted EBITDA we also exclude stock-based compensation expense, amortization expense associated with deferred implementation costs incurred in cloud computing arrangements, and the amounts in (1) above. We define Free Cash Flow as net cash provided by operating activities less purchases of property and equipment. Please see the press release filed as Exhibit 99.1 to the 8-K dated July 29, 2026 and available on our website at www.strategiceducation.com and our Form 10-Q for a reconciliation of these non-GAAP measures to the most directly comparable GAAP measures. Non-GAAP measures should not be viewed as substitutes for GAAP measures.
