

HYATT REPORTS THIRD QUARTER 2025 RESULTS

CHICAGO (November 6, 2025) - Hyatt Hotels Corporation ("Hyatt," "the Company," "we," "us," or "our") (NYSE: H) today reported third quarter 2025 results. Highlights include:

- **Comparable system-wide hotels RevPAR** increased 0.3%, compared to the third quarter of 2024
- **Net rooms growth** was 12.1% and net rooms growth excluding acquisitions was 7.0%
- **Net income (loss) attributable to Hyatt Hotels Corporation** was \$(49) million and Adjusted Net Income (Loss) was \$(29) million
- **Diluted EPS** was \$(0.51) and Adjusted Diluted EPS was \$(0.30)
- **Gross fees** were \$283 million, an increase of 5.9%, compared to the third quarter of 2024
- **Adjusted EBITDA** was \$291 million, an increase of 5.6%, compared to the third quarter of 2024, or an increase of 10.1% after adjusting for assets sold in 2024
- **Pipeline** of executed management or franchise contracts was approximately 141,000 rooms, an increase of 4.4%, compared to the third quarter of 2024
- **Full Year 2025 Outlook:** The following metrics do not include the impact of the Playa Hotels Acquisition and the pending Playa Real Estate Transaction. Refer to page 3 and the tables beginning on schedule A-11 for the impact of the Playa Hotels Acquisition on the full year outlook, which has been adjusted to reflect the potential impact from Hurricane Melissa.
 - Comparable system-wide hotels RevPAR growth is projected between 2% to 2.5%, compared to the full year 2024
 - Net rooms growth excluding acquisitions is projected between 6.3% to 7.0%, compared to the full year 2024
 - Net income is projected between \$70 million and \$86 million
 - Adjusted EBITDA is projected between \$1,090 million and \$1,110 million, an increase of 7% to 9% after adjusting for assets sold in 2024, compared to the full year 2024
 - Capital returns to shareholders is projected to be approximately \$350 million, through a combination of dividends and share repurchases

Subsequent to the end of the third quarter, the Company announced an expanded agreement with Chase that rewards World of Hyatt cardmembers for stays across Hyatt's global portfolio. The impact to Adjusted EBITDA related to the economics of the credit card programs and similar third-party relationships is expected to more than double from 2025 to 2027 with anticipated continued growth in future years.

Mark S. Hoplamazian, President and Chief Executive Officer of Hyatt, said, "Our third quarter results reflect the strength of our core fee business and our disciplined approach to cost management. As we continue our evolution to a brand-led organization, we are focused on elevating guest experiences, deepening customer loyalty through World of Hyatt, and expanding into high-growth segments and geographies. Looking into the fourth quarter and beyond, we believe our high-end customer base, robust pipeline with significant white space for growth, and rapidly expanding loyalty program position us to drive sustained growth and create long-term value for our shareholders."

Refer to the table on schedule A-9 for a summary of special items impacting Adjusted Net Income (Loss) and Adjusted Diluted EPS for the three and nine months ended September 30, 2025.

Note: All RevPAR and ADR growth percentage changes are in constant dollars. All Net Package RevPAR and Net Package ADR growth percentage changes are in reported dollars. This release includes references to non-GAAP financial measures. Refer to the non-GAAP reconciliations included in the schedules and the definitions of the non-GAAP measures presented beginning on schedule A-6.

Third Quarter Operational Commentary

- Luxury chain scales drove RevPAR growth in the third quarter. Leisure transient RevPAR was the strongest area of growth while group RevPAR growth was negatively impacted by approximately 100 bps due to the timing of the Rosh Hashanah holiday which occurred in the third quarter this year compared to the fourth quarter last year.
- Net Package RevPAR increased 7.6% in the third quarter compared to the third quarter last year, further illustrating the strong performance of luxury all inclusive travel.
- Gross fees increased 5.9% in the quarter, compared to the third quarter last year or 6.3% excluding the impact of the Playa Hotels Acquisition.
 - Base management fees: increased 10%, driven by managed hotel RevPAR growth outside of the United States and the contribution of newly-opened hotels.
 - Incentive management fees: grew 2%, led by newly-opened hotels and hotel performance in Asia Pacific excluding Greater China.
 - Franchise and other fees: expanded 4%, due to non-RevPAR fee contributions and newly-opened hotels, offset by the elimination of fees from the 8 Hyatt Ziva and Hyatt Zilara properties that were part of the Playa Hotels Acquisition.
- Owned and leased segment Adjusted EBITDA increased 7%, compared to the third quarter of 2024, after adjusting for assets sold in 2024 and the impact of the Playa Hotels Acquisition. Comparable owned and leased margin decreased by 40 bps in the third quarter, compared to the same period in 2024.
- Distribution segment Adjusted EBITDA declined compared to the third quarter of 2024, due to lower booking volumes and the lapping of a one-time benefit from ALG Vacations travel credits last year which was not offset by higher pricing and effective cost management.

Openings and Development

During the third quarter, the Company:

- Opened 5,163 rooms. Notable openings included:
 - Park Hyatt Kuala Lumpur in the tallest skyscraper in Asia Pacific, Park Hyatt Johannesburg, Secrets Playa Esmeralda Resort and Spa in Punta Cana, and Hyatt Regency Times Square, the first Hyatt Regency property in Manhattan and our 30th property in New York City.
- Announced a new master franchise agreement with HomeInns Hotel Group. Under this agreement, HomeInns Hotel Group plans to open 50 Hyatt Studios branded hotels over the next several years and develop a robust pipeline to fuel future growth across China.

Transactions

The Company has provided the following updates on the Playa Real Estate Transaction and the 15 properties acquired from the Playa Hotels Acquisition:

- We expect to close on the Playa Real Estate Transaction to sell 14 properties by the end of the year and use the proceeds to repay the amounts outstanding under the \$1.7 billion delayed draw term loan used to finance a portion of the Playa Hotels Acquisition. Concurrent with the sale, the Company will enter into 50-year management agreements for 13 of the 14 properties. The remaining property is subject to a separate contractual arrangement.
- On September 18, 2025, one property in Playa del Carmen was sold to a separate third-party buyer for approximately \$22 million. Net proceeds of the sale were used to repay a portion of the delayed draw term loan.

Balance Sheet and Liquidity

As of September 30, 2025, the Company reported the following:

- Total debt of \$6.0 billion, inclusive of the \$1.7 billion delayed draw term loan facility.
- Total liquidity of \$2.2 billion, inclusive of:
 - \$749 million of cash and cash equivalents, and short-term investments, and
 - \$1,497 million of borrowing capacity under Hyatt's revolving credit facility, net of letters of credit outstanding.
- Total remaining share repurchase authorization of \$792 million. The Company repurchased \$30 million of Class A common stock during the third quarter.
- The Company's board of directors has declared a cash dividend of \$0.15 per share for the fourth quarter of 2025. The dividend is payable on December 8, 2025 to Class A and Class B stockholders of record as of November 24, 2025.

2025 Outlook

2025 Full Year Outlook, **excluding** the impact of the Playa Hotels Acquisition and Playa Real Estate Transaction

Forward-Looking Statements

Forward-Looking Statements in this press release, which are not historical facts, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include statements about the Company's plans, strategies, outlook, the number of properties expected to open in the future, the expected timing and payment of dividends, the Company's 2025 outlook (including and excluding the Playa Hotels Acquisition), including the Company's expected System-wide Hotels RevPAR Growth, Net Rooms Growth, Net Income, Gross Fees, Adjusted G&A Expenses, Adjusted EBITDA, Capital Expenditures, and Adjusted Free Cash Flow, the planned Playa Real Estate Transaction and our ability to reduce our owned real estate asset base within targeted timeframes and at expected values, the Company's anticipated benefits from its expanded collaboration with Chase, planned credit card portfolio expansion, expected Adjusted EBITDA growth related to the economics of the credit card programs and similar third-party relationships, financial performance and prospective or future events and involve known and unknown risks that are difficult to predict. As a result, the Company's actual results, performance or achievements may differ materially from those expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as "may," "could," "expect," "intend," "plan," "seek," "anticipate," "believe," "estimate," "predict," "potential," "continue," "likely," "will," "would" and variations of these terms and similar expressions, or the negative of these terms or similar expressions. Such forward-looking statements are necessarily based upon estimates and assumptions that, while considered reasonable by the Company and the Company's management, are inherently uncertain. Factors that may cause actual results to differ materially from current expectations include, but are not limited to: the effects that the announcement or pendency of the planned Playa Real Estate Transaction may have on us, the occurrence of any event, change or other circumstance that could give rise to the termination of the share purchase agreement for the Playa Real Estate Transaction; the effects that any termination of the share purchase agreement for the Playa Real Estate Transaction may have on us or our business; failure to successfully complete the planned Playa Real Estate Transaction; legal proceedings that may be instituted related to the planned Playa Real Estate Transaction; significant and unexpected costs, charges or expenses related to the planned Playa Real Estate Transaction; inability to obtain regulatory or governmental approvals or to obtain such approvals on satisfactory conditions; general economic uncertainty in key global markets and a worsening of global economic conditions or low levels of economic growth; the rate and pace of economic recovery following economic downturns; global supply chain constraints and interruptions, rising costs of construction-related labor and materials, and increases in costs due to inflation or other factors that may not be fully offset by increases in revenues in our business; risks affecting the luxury, resort, and all-inclusive lodging segments; levels of spending in business, leisure, and group segments, as well as consumer confidence; declines in occupancy and average daily rate; limited visibility with respect to future bookings; loss of key personnel; domestic and international political and geopolitical conditions, including political or civil unrest or changes in trade policy; the impact of global tariff policies or regulations; hostilities, or fear of hostilities, including future terrorist attacks, that affect travel; travel-related accidents; natural or man-made disasters, weather and climate-related events, such as hurricanes, earthquakes, tsunamis, tornadoes, droughts, floods, wildfires, oil spills, nuclear incidents, and global outbreaks of pandemics or contagious diseases, or fear of such outbreaks; our ability to successfully achieve specified levels of operating profits at hotels that have performance tests or guarantees in favor of our third-party owners; the impact of hotel renovations and redevelopments; risks associated with our capital allocation plans, share repurchase program, and dividend payments, including a reduction in, or elimination or suspension of, repurchase activity or dividend payments; the seasonal and cyclical nature of the real estate and hospitality businesses; changes in distribution arrangements, such as through internet travel intermediaries; changes in the tastes and preferences of our customers; relationships with colleagues and labor unions and changes in labor laws; the financial condition of, and our relationships with, third-party owners, franchisees, and hospitality venture partners; the possible inability of third-party owners, franchisees, or development partners to access the capital necessary to fund current operations or implement our plans for growth; risks associated with potential acquisitions and dispositions and our ability to successfully integrate completed acquisitions with existing operations or realize anticipated synergies; failure to successfully complete proposed transactions, including the failure to satisfy closing conditions or obtain required approvals; our ability to successfully complete dispositions of certain of our owned real estate assets within targeted timeframes and at expected values; our ability to maintain effective internal control over financial reporting and disclosure controls and procedures; declines in the value of our real estate assets; unforeseen terminations of our management and hotel services agreements or franchise agreements; changes in federal, state, local, or foreign tax law; increases in interest rates, wages, and other operating costs; foreign exchange rate fluctuations or currency restructurings; risks associated with the introduction of new brand concepts, including lack of acceptance of new brands or

innovation; general volatility of the capital markets and our ability to access such markets; changes in the competitive environment in our industry, industry consolidation, and the markets where we operate; our ability to successfully grow the World of Hyatt loyalty program and manage the Unlimited Vacation Club paid membership program; cyber incidents and information technology failures; outcomes of legal or administrative proceedings; and violations of regulations or laws related to our franchising business and licensing businesses and our international operations; and other risks discussed in the Company's filings with the SEC, including our annual reports on Form 10-K and quarterly reports on Form 10-Q, which filings are available from the SEC. All forward-looking statements attributable to the Company or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. We caution you not to place undue reliance on any forward-looking statements, which are made only as of the date of this press release. We do not undertake or assume any obligation to update publicly any of these forward-looking statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable law. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Non-GAAP Financial Measures

The Company refers to certain financial measures that are not recognized under U.S. generally accepted accounting principles (GAAP) in this press release, including: Adjusted Net Income (Loss); Adjusted Diluted EPS; Adjusted EBITDA; Adjusted G&A Expenses; Free Cash Flow; and Adjusted Free Cash Flow. Reconciliation of Non-GAAP Financial Measure: G&A Expenses to Adjusted G&A Expenses

Results of operations as presented on the condensed consolidated statements of income (loss) include expenses recognized with respect to deferred compensation plans funded through rabbi trusts. Certain of these expenses are recognized in G&A expenses and are completely offset by the corresponding net gains (losses) and interest income from marketable securities held to fund rabbi trusts, thus having no net impact to our net income (loss). G&A expenses also include expenses related to stock-based compensation. Below is a reconciliation of this measure excluding the impact of our rabbi trust investments and stock-based compensation expense.

(a) During the three months ended September 30, 2025 (Q3 2025) and during the nine months ended September 30, 2025 (YTD 2025), we recognized restructuring costs as a result of organizational changes in other income (loss), net on our condensed consolidated statements of income (loss).

(b) During Q3 2025 and YTD 2025, we recognized impairment charges related to certain investments in unconsolidated hospitality ventures. During the nine months ended September 30, 2024 (YTD 2024), we recognized a \$79 million non-cash pre-tax gain related to the dilution of our ownership interest in an unconsolidated hospitality venture and a \$10 million impairment charge related to one of our unconsolidated hospitality ventures. The activity was recognized in equity earnings (losses) from unconsolidated hospitality ventures on our condensed consolidated statements of income (loss).

(c) During Q3 2025 and YTD 2025, we recognized transaction costs primarily related to the Playa Hotels Acquisition and integration costs primarily related to the Playa Hotels Acquisition and Standard International. During the three months ended September 30, 2024 (Q3 2024) and YTD 2024, we recognized costs primarily related to pending transactions and the integrations of Apple Leisure Group, Dream Hotel Group, and Mr & Mrs Smith. The costs were recognized in transaction and integration costs on our condensed consolidated statements of income (loss).

(d) During Q3 2025, we recognized \$9 million of impairment charges related to intangible assets. During YTD 2025, we recognized an additional \$14 million of impairment charges related to related to intangible assets, property and equipment, and operating lease right-of-use assets. During Q3 2024, we recognized \$35 million of impairment charges related to property and equipment, intangible assets, and operating lease right-of-use assets. During YTD 2024, we recognized an additional \$17 million of impairment charges primarily related to goodwill. The impairment charges were recognized in asset impairments on our condensed consolidated statements of income (loss).

(e) During Q3 2025, YTD 2025, Q3 2024, and YTD 2024, we recognized expenses related to the partial utilization of the Avendra LLC sale proceeds for the benefit of our hotels in reimbursed costs and depreciation and amortization expenses on our condensed consolidated statements of income (loss). The gain recognized in conjunction with the sale of Avendra LLC was included as a special item during the year ended December 31, 2017.

(f) During Q3 2024, we recognized a pre-tax gain related to the sale of Hyatt Regency Orlando and an adjacent undeveloped land parcel (\$514 million). Additionally, during YTD 2024, we recognized pre-tax gains related to the sales of Park Hyatt Zurich (\$257 million) and Hyatt Regency San Antonio Riverwalk (\$100 million), the UVC Transaction (\$231 million), and the sale of the shares of the entities that own Hyatt Regency Aruba Resort Spa and Casino (\$172 million) as well as a \$4 million pre-tax loss related to the sale of Hyatt Regency Green Bay. The activity was recognized in gains (losses) on sales of real estate and other on our condensed consolidated statements of income (loss).

(g) During Q3 2025, we recognized net gains, and during Q3 2024 and YTD 2024, we recognized net losses, primarily due to the change in fair value of our marketable securities. During YTD 2025, we recognized net gains primarily due to realized gains on our previously-held ordinary shares in Playa Hotels, partially offset by the change in fair value of our marketable securities. The activity was recognized in other income (loss), net on our condensed consolidated statements of income (loss).

(h) During Q3 2025, we recognized a net surplus, and during YTD 2025, Q3 2024, and YTD 2024, we recognized net deficits, which we intend to recover in future periods, on certain funds due to the timing of revenue and expense recognition. During Q3 2025 and YTD 2025, this fund activity was recognized in revenues for reimbursed costs (\$210 million and \$622 million, respectively), reimbursed costs (\$208 million and \$631 million, respectively), depreciation and amortization expenses (\$6 million and \$15 million, respectively), and other income (loss), net (\$6 million and \$19 million, respectively), and during Q3 2024 and YTD 2024, this fund activity was recognized in revenues for reimbursed costs (\$168 million and \$474 million, respectively), reimbursed costs (\$178 million and \$519 million, respectively), and other income (loss), net (\$9 million and \$25 million, respectively) on our condensed consolidated statements of income (loss). Figures herein exclude revenues and expenses related to payroll at managed properties where we are the employer and other expenses, which were recognized in revenues for reimbursed costs and reimbursed costs on our condensed consolidated statements of income (loss) but are not considered part of our fund activity.

(i) During Q3 2025 and YTD 2025, we recognized fair value adjustments related to Dream Hotel Group, Standard International, and Bahia Principe. During Q3 2024 and YTD 2024, we recognized fair value adjustments related to Dream Hotel Group. The fair value adjustments were recognized in other income (loss), net on our condensed consolidated statements of income (loss).

Hyatt Hotels Corporation

Reconciliation of Non-GAAP Financial Measures: Outlook: Net Income (Loss) Attributable to Hyatt Hotels Corporation to Adjusted EBITDA; G&A Expenses to Adjusted G&A Expenses; and Net Cash Provided by Operating Activities to Free Cash Flow and Adjusted Free Cash Flow

Other than with respect to the Playa Hotels Acquisition, no disposition or acquisition activity beyond what has been completed as of the date of this release has been included in the 2025 outlook. The Company's 2025 outlook is based on a number of assumptions that are subject to change and many of which are outside the control of the Company. If actual results vary from these assumptions, the Company's expectations may change. There can be no assurance that the Company will achieve these results. Results of operations as presented on the condensed consolidated statements of income (loss) include expenses recognized with respect to deferred compensation plans funded through rabbi trusts. Certain of these expenses are recognized in G&A expenses and are completely offset by the corresponding net gains (losses) and interest income from marketable securities held to fund rabbi trusts, thus having no net impact to our net income (loss). G&A expenses also include expenses related to stock-based compensation. Below is a reconciliation of this forecasted measure excluding the impact of our rabbi trust investments and forecasted stock-based compensation expense.

Definitions

Adjusted Earnings Before Interest Expense, Taxes, Depreciation, and Amortization ("Adjusted EBITDA")

We use the term Adjusted EBITDA throughout this earnings release. Adjusted EBITDA, as we define it, is a measure that is not recognized in accordance with accounting principles generally accepted in the United States of America ("GAAP"). We define consolidated Adjusted EBITDA as net income (loss) attributable to Hyatt Hotels Corporation plus net income (loss) attributable to noncontrolling interests and our pro rata share of unconsolidated owned and leased hospitality ventures' Adjusted EBITDA, primarily based on our ownership percentage of each owned and leased venture, adjusted to exclude the following items:

- management and hotel services agreement and franchise agreement assets (key money assets) amortization and performance cure payments, which constitute payments to customers (Contra revenue);
- revenues for reimbursed costs;
- reimbursed costs that we intend to recover over the long term;
- stock-based compensation expense;
- transaction and integration costs;
- depreciation and amortization;
- equity earnings (losses) from unconsolidated hospitality ventures;
- interest expense;
- gains (losses) on sales of real estate and other;
- asset impairments;
- other income (loss), net; and
- benefit (provision) for income taxes.

We calculate consolidated Adjusted EBITDA by adding the Adjusted EBITDA of each of our reportable segments and eliminations to unallocated overhead expenses.

Our board of directors and executive management team focus on Adjusted EBITDA as one of the key performance and compensation measures both on a segment and on a consolidated basis. Adjusted EBITDA assists us in comparing our performance over various reporting periods on a consistent basis because it removes from our operating results the impact of items that do not reflect our core operations both on a segment and on a consolidated basis. Our President and Chief Executive Officer, who is our chief operating decision maker, also evaluates the performance of each of our reportable segments and determines how to allocate resources to those segments, in part, by assessing the Adjusted EBITDA of each segment. In addition, the compensation committee of our board of directors determines the annual variable compensation for certain members of our management based in part on consolidated Adjusted EBITDA, segment Adjusted EBITDA, or some combination of both.

We believe Adjusted EBITDA is useful to investors because it provides investors with the same information that we use internally for purposes of assessing our operating performance and making compensation decisions and facilitates our comparison of results with our prior-period and forecasted results as well as our industry and competitors.

Adjusted EBITDA excludes certain items that can vary widely across different industries and among companies within the same industry, including interest expense and benefit or provision for income taxes, which are dependent on company specifics, including capital structure, credit ratings, tax policies, and jurisdictions in which they operate; depreciation and amortization, which are dependent on company policies including how the assets are utilized as well as the lives assigned to the assets; Contra revenue, which is dependent on company policies and strategic decisions regarding payments to hotel owners; and stock-based compensation expense, which varies among companies as a result of different compensation plans companies have adopted.

We exclude revenues for reimbursed costs and reimbursed costs which relate to the reimbursement of payroll costs and for system-wide services and programs that we operate for the benefit of our hotel owners as contractually we do not provide services or operate the related programs to generate a profit or bear a loss over the long term. If we collect amounts in excess of amounts spent, we have a commitment to our hotel owners to spend these amounts on the related system-wide services and programs. Additionally, if we spend in excess of amounts collected, we have a contractual right to adjust future collections or expenditures to recover prior-period costs. These timing differences are due to our discretion to spend in excess of revenues earned or less than revenues earned in a single period to ensure that the system-wide services and programs are operated in the best long-term interests of our hotel owners. Over the long term, these programs and services are not designed to impact our economics, either positively or negatively, and instead are designed to result in a cumulative break-even balance. Therefore, we exclude the net impact when evaluating period-over-period changes in our operating results. Adjusted EBITDA includes reimbursed costs related to system-wide services

and programs that we do not intend to recover from hotel owners. Finally, we exclude other items that are not core to our operations and may vary in frequency or magnitude, such as transaction and integration costs, asset impairments, unrealized and realized gains and losses on marketable securities, and gains and losses on sales of real estate and other.

Adjusted EBITDA is not a substitute for net income (loss) attributable to Hyatt Hotels Corporation, net income (loss), or any other measure prescribed by GAAP. There are limitations to using non-GAAP measures such as Adjusted EBITDA. Although we believe that Adjusted EBITDA can make an evaluation of our operating performance more consistent because it removes items that do not reflect our core operations, other companies in our industry may define Adjusted EBITDA differently than we do. As a result, it may be difficult to use Adjusted EBITDA or similarly named non-GAAP measures that other companies may use to compare the performance of those companies to our performance. Because of these limitations, Adjusted EBITDA should not be considered as a measure of the income or loss generated by our business. Our management compensates for these limitations by referencing our GAAP results and using Adjusted EBITDA supplementally.

Adjusted General and Administrative ("G&A") Expenses

Adjusted G&A Expenses, as we define it, is a non-GAAP measure. Adjusted G&A Expenses excludes the impact of deferred compensation plans funded through rabbi trusts and stock-based compensation expense. Adjusted G&A Expenses assists us in comparing our performance over various reporting periods on a consistent basis because it removes from our operating results the impact of items that do not reflect our core operations, both on a segment and consolidated basis.

Adjusted Net Income (Loss) and Adjusted Diluted Earnings (Losses) Per Class A and Class B Share ("EPS")

Adjusted Net Income (Loss) and Adjusted Diluted EPS, as we define them, are non-GAAP measures. We define Adjusted Net Income (Loss) as net income (loss) attributable to Hyatt Hotels Corporation excluding special items, which are those items deemed not to be reflective of ongoing operations. We define Adjusted Diluted EPS as Adjusted Net Income (Loss) per diluted share. We consider Adjusted Net Income (Loss) and Adjusted Diluted EPS to be an indicator of operating performance because excluding special items allows for period-over-period comparisons of our ongoing operations.

Adjusted Net Income (Loss) and Adjusted Diluted EPS are not a substitute for Net Income (Loss) attributable to Hyatt Hotels Corporation, net income (loss), diluted earnings (losses) per share (EPS), or any other measure prescribed by GAAP. There are limitations to using non-GAAP measures such as Adjusted Net Income (Loss) and Adjusted Diluted EPS. Although we believe that Adjusted Net Income (Loss) and Adjusted Diluted EPS can make an evaluation of our operating performance more consistent because they remove special items that are deemed not to be reflective of ongoing operations, other companies in our industry may define Adjusted Net Income (Loss) and Adjusted Diluted EPS differently than we do. As a result, it may be difficult to use Adjusted Net Income (Loss) or Adjusted Diluted EPS or similarly named non-GAAP measures that other companies may use to compare the performance of those companies to our performance. Because of these limitations, Adjusted Net Income (Loss) and Adjusted Diluted EPS should not be considered as measures of the income (loss) and earnings (losses) per share generated by our business. Our management compensates for these limitations by reference to its GAAP results and using Adjusted Net Income (Loss) and Adjusted Diluted EPS supplementally.

Asset-Light Earnings Mix

Asset-Light Earnings Mix is calculated as Adjusted EBITDA from the management and franchising segment and distribution segment divided by Adjusted EBITDA, excluding overhead and eliminations. Our management uses this calculation to assess the composition of the Company's earnings.

Average Daily Rate ("ADR")

ADR represents hotel room revenues divided by the total number of rooms sold in a given period. ADR measures the average room price attained by a hotel, and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used performance measure in our industry, and we use ADR to assess the pricing levels that we are able to generate by customer group, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described below.

Comparable Owned and Leased Margin

We define comparable owned and leased margin as the difference between comparable owned and leased revenues and comparable owned and leased expenses. Comparable owned and leased revenues is calculated by removing non-comparable owned and leased revenues from owned and leased revenues as reported in our condensed consolidated statements of income (loss). Comparable owned and leased expenses is calculated by removing both non-comparable owned and leased expenses and the impact of expenses funded through rabbi trusts from owned and leased expenses as reported in our condensed consolidated statements of income (loss). We believe comparable owned and leased operating margin is useful to investors because it provides investors the same information that the Company uses internally for purposes of assessing operating performance.

Comparable system-wide and Comparable owned and leased

"Comparable system-wide" represents all properties we manage, franchise, or provide services to, including owned and leased properties, that are operated for the entirety of the periods being compared and that have not sustained substantial damage, business interruption, or undergone large-scale renovations during the periods being compared. Comparable system-wide also excludes properties for which comparable results are not available. We may use variations of comparable system-wide to specifically refer to comparable system-wide hotels or our all-inclusive resorts, for those properties that we manage, franchise, or provide services to within our management and franchising segment. "Comparable owned and leased" represents all properties we own or lease that are operated and consolidated for the entirety of the periods being compared and have not sustained substantial damage, business interruption, or undergone large-scale renovations during the periods being compared. Comparable owned and leased also excludes properties for which comparable results are not available. We may use variations of comparable owned and leased to specifically refer to comparable owned and leased hotels or our all-inclusive resorts, for those properties that we own or lease within our owned and leased segment. Comparable system-wide and comparable owned and leased are commonly used as a basis of measurement in our industry. "Non-comparable system-wide" or "non-comparable owned and leased" represent all properties that do not meet the respective definition of "comparable" as defined above.

Constant Dollar Currency

We report the results of our operations both on an as reported basis, as well as on a constant dollar basis. Constant Dollar Currency, which is a non-GAAP measure, excludes the effects of movements in foreign currency exchange rates between comparative periods. We believe constant dollar analysis provides valuable information regarding our results as it removes currency fluctuations from our operating results. We calculate Constant Dollar Currency by restating prior-period local currency financial results at current-period exchange rates. These restated amounts are then compared to our current-period reported amounts to provide operationally driven variances in our results.

Free Cash Flow and Adjusted Free Cash Flow

Free Cash Flow represents net cash provided by operating activities less capital expenditures. Adjusted Free Cash Flow represents Free Cash Flow less estimated cash taxes on asset sales and costs associated with the Playa Hotels Acquisition. We believe Free Cash Flow and Adjusted Free Cash Flow to be useful liquidity measures to us and investors to evaluate the ability of our operations to generate cash for uses other than capital expenditures, cash taxes on asset sales, and costs associated with the Playa Hotels Acquisition and, after debt service and other obligations, our ability to grow our business through acquisitions and investments, as well as our ability to return cash to shareholders through dividends and share repurchases. Free Cash Flow and Adjusted Free Cash Flow are not necessarily representative of how we will use excess cash. Free Cash Flow and Adjusted Free Cash Flow are not substitutes for net cash provided by operating activities or any other measure prescribed by GAAP. There are limitations to using non-GAAP measures such as Free Cash Flow and Adjusted Free Cash Flow, and management compensates for these limitations by referencing our GAAP results and using Free Cash Flow and Adjusted Free Cash Flow supplementally.

Net Package ADR

Net Package ADR represents net package revenues divided by the total number of rooms sold in a given period. Net package revenues generally include revenue derived from the sale of packages at all-inclusive resorts comprised of rooms, food and beverage, and entertainment revenues, net of compulsory tips paid to employees. Net Package ADR measures the average room price attained by a hotel, and Net Package ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. Net Package ADR is a commonly used performance measure in our industry, and we use Net Package ADR to assess the pricing levels that we are able to generate by customer group, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described below.

Net Package Revenue Per Available Room ("RevPAR")

Net Package RevPAR is the product of the Net Package ADR and the average daily occupancy percentage. Net Package RevPAR generally includes revenue derived from the sale of packages comprised of rooms, food and beverage, and entertainment revenues, net of compulsory tips paid to employees. Our management uses Net Package RevPAR to identify trend information with respect to room revenues from comparable properties and to evaluate hotel performance on a geographical and segment basis. Net Package RevPAR is a commonly used performance measure in our industry.

Occupancy

Occupancy represents the total number of rooms sold divided by the total number of rooms available at a property or group of properties. Occupancy measures the utilization of a property's available capacity. We use occupancy to gauge demand at a specific property or group of properties in a given period. Occupancy levels also help us determine achievable ADR levels as demand for property rooms increases or decreases.

Playa Hotels Acquisition

On June 17, 2025, the Company completed the acquisition of Playa Hotels & Resorts N.V. ("Playa Hotels" or "Playa"), a leading owner, operator, and developer of all-inclusive resorts in Mexico, the Dominican Republic, and Jamaica, for a purchase price of \$13.50 per share, or an enterprise value of approximately \$2.6 billion, including approximately \$900 million of debt, net of cash acquired.

Playa Real Estate Transaction

On June 29, 2025, affiliates of the Company entered into a definitive agreement to sell the entirety of Playa's owned real estate portfolio, acquired from Playa on June 17, 2025, for \$2.0 billion to Tortuga Resorts ("Tortuga"), a joint venture between an affiliate of KSL Capital Partners, LLC and Rodina, subject to customary closing conditions and approval from Mexican anti-trust authorities. Hyatt and Tortuga will enter into 50-year management agreements for 13 of 15 Playa's owned assets with terms in-line with Hyatt's existing all-inclusive fee structure. The remaining two properties are under separate contractual arrangements, and during the three months ended September 30, 2025, one of these properties was sold to an unrelated third party.

RevPAR

RevPAR is the product of the ADR and the average daily occupancy percentage. RevPAR does not include non-room revenues, which consist of ancillary revenues generated by a hotel property, such as food and beverage, parking, and other guest service revenues. Our management uses RevPAR to identify trend information with respect to room revenues from comparable properties and to evaluate hotel performance on a geographical and segment basis. RevPAR is a commonly used performance measure in our industry.

RevPAR changes that are driven predominantly by changes in occupancy have different implications for overall revenue levels and incremental profitability than do changes that are driven predominantly by changes in average room rates. For example, increases in occupancy at a hotel would lead to increases in room revenues and additional variable operating costs, including housekeeping services, utilities, and room amenity costs, and could also result in increased ancillary revenues, including food and beverage. In contrast, changes in average room rates typically have a greater impact on margins and profitability as average room rate changes result in minimal impacts to variable operating costs.

UVC Transaction

During the nine months ended September 30, 2024, we completed a restructuring of the entity that owns the Unlimited Vacation Club paid membership program business and sold 80% of the entity to an unrelated third party for \$80 million. As a result of the transaction, we deconsolidated the entity as we no longer have a controlling financial interest, and we account for our remaining 20% ownership interest as an equity method investment in an unconsolidated hospitality venture. We continue to manage the Unlimited Vacation Club business under a long-term management agreement and license and royalty agreement. The operating results of the Unlimited Vacation Club business prior to the UVC Transaction are reported within our distribution segment.
