NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements of Hartford Insurance Company of Illinois (the "Company" or "Illinois") have been prepared in conformity with statutory accounting practices prescribed or permitted by the State of Illinois Insurance Department (the "Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Illinois for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the State of Illinois Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Statutory Accounting Principles ("NAIC SAP"), as detailed in the NAIC Accounting Practices and Procedures Manual have been adopted as a component of prescribed practices by the State of Illinois. There are no material differences between the accounting practices and procedures prescribed by the Department and NAIC SAP. During 2023 and 2022, the Company did not have any permitted practices.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the NAIC Annual Statement Instructions and the NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned principally on a pro-rata basis over the lives of the policies and include accruals for ultimate premium revenue anticipated under auditable and retrospectively rated policies. Unearned premium reserves are established to cover the unexpired portion of the premiums written. Such reserves are computed by pro rata methods for direct business.

Expenses incurred in connection with acquiring insurance business, including such acquisition costs as commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- Short-term investments include all investments whose maturities, at the time of acquisition, are one year or less and are stated at amortized cost.
- Other than loan-backed and structured securities, investments in unaffiliated bonds rated in NAIC classes 1 and 2 are carried at amortized cost, and unaffiliated bonds rated in NAIC classes 3-6 are carried at the lower of amortized cost or fair value. The Company had no SVO-identified investments in exchange traded funds or bond mutual funds that qualified for bond accounting treatment.
- The Company has no investments in common stocks.
- Highest-quality or high-quality redeemable unaffiliated preferred stocks (NAIC designations 1 and 2), which have characteristics of debt securities, are valued at cost or amortized cost. All other unaffiliated redeemable preferred stocks (NAIC designations 3 to 6) are reported at the lower of cost, amortized cost, or fair value. Unaffiliated perpetual preferred stocks are valued at fair value, not to exceed any currently effective call price.
- Mortgage loans on real estate are carried at the outstanding principal balance, less any allowances for credit losses.
- Loan-backed bonds and structured securities are carried at either amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles ("SSAP") No. 43-Revised (Loan-backed and Structured Securities). Significant changes in estimated cash flows from the original purchase assumptions are accounted for using the prospective method, except for highly rated fixed rate securities, which use the retrospective method.
- The Company has no investments in subsidiaries, controlled and affiliated ("SCA") companies.
- The Company carries its interests in unaffiliated joint ventures, investment partnerships and limited liability companies based upon audited financial statements in accordance with SSAP No. 48 (Joint Ventures, Partnerships and Limited Liability Companies).
- The Company utilizes a variety of over-the-counter ("OTC") transactions cleared through a central clearing house ("OTC-cleared") as part of its overall risk management strategy. The types of instruments may include swaps, caps, floors, forwards, futures and options to achieve one of four Company-approved objectives: to hedge risk arising from interest rate, equity market, credit spread including issuer defaults, price or foreign currency exchange rate risk or volatility; to manage liquidity; to control transaction costs; or to enter into replication and income generation transactions. On the date the derivative contract is entered into, the Company designates the derivative as hedging (fair value, cash flow, or net investment in a foreign operation), replication, income generation, or held for other investment and/or risk management activities, which primarily involves managing asset or liability related risks which do not qualify for hedge accounting under SSAP No. 86 (Derivatives). The Company's derivative transactions are used in strategies permitted under the derivative use plans required by the State of Illinois, and State of New York insurance departments.

Derivatives used in hedging relationships are accounted for in a manner consistent with the hedged item. Typically, cost paid or consideration received at inception of a contract is reported on the balance sheet as a derivative asset or liability, respectively. Periodic cash flows and accruals are recorded in a manner consistent with the hedged item.

Derivatives used in replication relationships are accounted for in a manner consistent with the cash instrument and the replicated asset. Typically, cost paid or consideration received at inception of the contract is recorded on the balance sheet as a derivative asset or liability, respectively. Periodic cash flows and accruals of income/expense are recorded as components of derivative net investment income. Upon termination of the derivative, any gain or loss is recognized as a derivative realized capital gain or loss.

Derivatives used in income generation relationships are accounted for in a manner consistent with the associated covered asset. Typically, consideration received at inception of the contract is recorded on the balance sheet as a derivative liability. Periodic cash flows and accruals of income/expense are recorded as a component of derivative net investment income. Upon termination, any remaining derivative liability, along with any disposition payments are recorded to derivative realized capital gain or loss.

NOTES TO FINANCIAL STATEMENTS

Derivatives held for other investment and/or risk management activities receive fair value accounting. The derivatives are carried on the balance sheet at fair value and the changes in fair value are recorded in derivative unrealized capital gains and losses. Periodic cash flows and accruals of income/expense are recorded as a component of derivative net investment income.

10. The Company considered anticipated investment income as a factor in the premium deficiency calculation.
11. The Hartford Financial Services Group, Inc. ("The Hartford") establishes property and casualty reserves to provide for the estimated costs of paying claims under insurance policies written by The Hartford. These reserves include estimates for both claims that have been reported and those that have been incurred but not reported ("IBNR") to The Hartford and include estimates of all losses and loss adjustment expenses ("LAE") associated with processing and settling these claims. These reserve estimates are based on known facts and interpretations of circumstances, and consideration of various internal factors including The Hartford's experience with similar cases, historical trends involving claim payment patterns, loss payments, pending levels of unpaid claims, loss control programs and product mix. In addition, the reserve estimates are influenced by consideration of various external factors including court decisions, economic conditions and public attitudes. The effects of inflation are implicitly considered in the reserving process.

Estimating the ultimate cost of future losses and LAE is an uncertain and complex process. This estimation process is based significantly on the assumption that past developments are an appropriate predictor of future events and involves a variety of actuarial techniques that analyze experience, trends and other relevant factors. The uncertainties involved with the reserving process have become increasingly difficult due to a number of complex factors including social and economic trends and changes in the concepts of legal liability and damage awards. Accordingly, final claim settlements may vary from the present estimates, particularly when those payments may not occur until well into the future.

The establishment of appropriate reserves, including reserves for catastrophes, COVID-19 and asbestos and environmental ("A&E") claims, is inherently uncertain. The Hartford regularly updates its reserve estimates as new information becomes available and events unfold that may have an impact on unsettled claims. Changes in prior year reserve estimates, which may be material, are reflected in the results of operations in the period such changes are determined to be necessary.

The reserves recorded for The Hartford property and casualty businesses represent The Hartford's best estimate of its ultimate liability for claims and claim adjustment expenses related to losses covered by policies written by The Hartford. Because of the significant uncertainties surrounding environmental and particularly asbestos exposures, it is possible that management's estimate of the ultimate liabilities for these claims may change and that the required adjustment to recorded reserves could exceed the currently recorded reserves by an amount that could be material to The Hartford's results of operations, financial condition and liquidity.

For the years ended December 31, 2021 and 2020, the Company recorded direct COVID-19 incurred losses reflecting management's best estimate of the ultimate cost of settling COVID-19 claims incurred. The Hartford's 2023, 2022, 2021 and 2020 financial results were affected by the economic effects of the pandemic. Considerable uncertainty exists around the reserves required for direct COVID losses including the outcome of lawsuits asserting business income insurance coverage. See Note 14G. In addition, indirect impacts of the pandemic contribute to the uncertainty of reserves due to the potential for changes in loss development patterns, economic impacts on the cost of claims including inflationary pressure on building material, labor and supply chain disruption, declines in frequency for certain lines of business and changes in the legal environment including but not limited to court delays and closings.

Asbestos/Environmental Reserves – Significant uncertainty limits the ability of insurers and reinsurers to estimate the ultimate reserves necessary for unpaid losses and expenses related to environmental and particularly asbestos claims. The degree of variability of reserve estimates for these exposures is significantly greater than for other more traditional exposures.

In the case of the reserves for asbestos exposures, factors contributing to the high degree of uncertainty include inadequate loss development patterns, plaintiffs' expanding theories of liability, the risks inherent in major litigation, and inconsistent emerging legal doctrines. Furthermore, over time, insurers, including The Hartford, have experienced significant changes in the rate at which asbestos claims are brought, the claims experience of particular insureds, and the value of claims, making predictions of future exposure from past experience uncertain. Plaintiffs and insureds have also sought to use bankruptcy proceedings to accelerate and increase loss payments by insurers. In addition, some policyholders have asserted new classes of claims for coverages to which an aggregate limit of liability may not apply. Further uncertainties include insolvencies of other carriers and unanticipated developments pertaining to The Hartford's ability to recover reinsurance for A&E claims. Management believes these issues are not likely to be resolved in the near future.

In the case of the reserves for environmental exposures, factors contributing to the high degree of uncertainty include expanding theories of liability and damages, the risks inherent in major litigation, inconsistent decisions concerning the existence and scope of coverage for environmental claims, and uncertainty as to the monetary amount being sought by the claimant from the insured.

The reporting pattern for assumed reinsurance claims, including those related to A&E claims, is much longer than for direct claims. In many instances, it takes months or years to determine that the policyholder's own obligations have been met and how the reinsurance in question may apply to such claims. The delay in reporting reinsurance claims and exposures adds to the uncertainty of estimating the related reserves.

It is also not possible to predict changes in the legal and legislative environment and their effect on the future development of A&E claims.

Given the factors described above, The Hartford believes the actuarial tools and other techniques it employs to estimate the ultimate cost of claims for more traditional kinds of insurance exposure are less precise in estimating reserves for its A&E exposures. For this reason, The Hartford relies on exposure-based analysis to estimate the ultimate costs of these claims and regularly evaluates new account information in assessing its potential A&E exposures. The Hartford supplements this exposure-based analysis with evaluations of The Hartford's historical direct net loss and expense paid and reported experience, and net loss and expense paid and reported experience by calendar and/or report year, to assess any emerging trends, fluctuations or characteristics suggested by the aggregate paid and reported activity. The Hartford completed both the annual ground-up A&E reserve studies during the fourth quarter.

The Hartford believes that its current A&E reserves are appropriate. However, analyses of future developments could cause The Hartford to change its estimates and ranges of its A&E reserves. The A&E adverse development cover ("ADC") entered into with National Indemnity Company ("NICO"), effective December 31, 2016, lessens the effect these changes would have on the Company's operating results, financial condition and liquidity.

12. The Company did not modify its capitalization policy from the prior period.
13. The Company did not have pharmaceutical rebate receivables.

D. Going Concern

Management does not have any substantial doubt about the Company's ability to continue as a going concern.

Note 2 – Accounting Changes and Corrections of Errors

In 2020, the Company adopted INT 20-01 which allows insurance companies to account for contract modifications made solely due to rate reform (such as replacing the London Interbank Offered Rate ("LIBOR") with another reference rate) as continuations of existing contracts and to maintain hedge accounting when the hedging effectiveness between a financial instrument and its hedge is only affected by the change to a replacement rate. As a result, insurance companies will not recognize gains and losses during the transition period of LIBOR to an alternative reference rate that would otherwise have arisen from accounting assessments and remeasurements. In 2023, INT 20-01 was extended to expire for contract modifications made and hedge relationships entered into or evaluated after December 31, 2024. The Company has not measured the effect of adoption on its financial position, cash flows or net income because the guidance provides relief from accounting and therefore disclosure.

Note 3 – Business Combinations and Goodwill

A. Statutory Purchase Method

The Company had no business combinations accounted for under the statutory purchase method.

NOTES TO FINANCIAL STATEMENTS

B. Statutory Merger

The Company had no statutory mergers.

C. Impairment Loss

The Company did not recognize any impairment losses.

D. Subcomponents and Calculation of Adjusted Surplus and Total Admitted Goodwill

The Company was not required to calculate adjusted surplus and did not recognize any goodwill.

Note 4 – Discontinued Operations

The Company had no discontinued operations during the reporting period.

Note 5 – Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

1. No new mortgage loans were purchased by the Company during 2023.
2. The maximum percentage of any one loan to the value of security at the time of the loan, exclusive of insured or guaranteed or purchase money mortgages was 72.2%.
3. There were no taxes, assessments or any amounts advanced and not included in the mortgage loan total as of December 31, 2023 and 2022.

- The Company had no other-than-temporary impairments ("OTTI") for loan-backed securities recorded during the year where the Company had either the intent to sell the securities or the inability or lack of intent to retain.
- The Company had no OTTI recognized during 2023.

NOTES TO FINANCIAL STATEMENTS

4. Security Unrealized Loss Aging

All impaired securities (fair value is less than cost or amortized cost) for which an OTTI has not been recognized in earnings as a realized loss (including securities with a recognized OTTI for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1. Less than 12 Months	\$ 1,473,034
2. 12 Months or Longer	\$ 76,334,687

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$ 88,606,503
2. 12 Months or Longer	\$ 982,376,561

5. As of December 31, 2023, loan-backed securities in an unrealized loss position were comprised of 391 securities, primarily related to residential mortgage-backed securities, U.S. government agency securities, commercial mortgage-backed securities, and collateralized loan obligations securities which were depressed due to an increase in interest rates and widening credit spreads since the securities were purchased. The Company does not have an intention to sell the securities outlined above and has the intent and ability to hold these securities until values recover. Furthermore, based upon the Company's cash flow modeling and the expected continuation of contractually required principal and interest payments, the Company has deemed these securities to be temporarily impaired as of December 31, 2023.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

1. For repurchase agreements, Company policies require a minimum of 95% of the fair value of securities purchased under repurchase agreements to be maintained as collateral. For securities lending agreements, Company policies require a minimum of 102% of the fair value of the securities loaned at the outset of the contract be held as collateral. The agreements with third parties contain contractual provisions to allow for additional collateral to be obtained when necessary. Cash collateral received is invested in high quality investments.

2. The Company did not pledge any of its assets as collateral subject to securities lending transactions as of as of December 31, 2023 and 2022.

3. Collateral Received

The Company had no collateral received as of December 31, 2023.

4. As of December 31, 2023, the Company did not have any security lending transactions administered by an affiliate agent in which one line reporting of the reinvested collateral is used.

5. Collateral Reinvestment

The Company had no collateral reinvested as of December 31, 2023.

6. As of December 31, 2023, the Company had not accepted securities collateral that it is not permitted by contract or custom to sell or repledge.

7. As of December 31, 2023, the Company had no securities lending transactions that extend beyond one year from the reporting date.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

The Company had no repurchase agreements transactions accounted for as secured borrowing transactions.

G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing

The Company had no reverse repurchase agreements transactions accounted for as secured borrowing transactions.

H. Repurchase Agreements Transactions Accounted for as a Sale

The Company had no repurchase agreements transactions accounted for as a sale transaction.

I. Reverse Repurchase Agreements Transactions Accounted for as a Sale

The Company had no reverse repurchase agreement transactions accounted for as a sale transaction.

J. Real Estate

The Company had no investments in real estate.

K. Investments in Low-Income Housing Tax Credits ("LIHTC")

The Company had no investments in LIHTC during the reporting period.

Note 8 – Derivative Instruments

A. Derivatives under SSAP No. 86 - Derivatives

1. 2. 3.

The Company utilizes a variety of OTC derivatives, including OTC-cleared transactions, and exchange-traded derivative instruments as part of its overall risk management strategy. The types of instruments may include swaps, caps, floors, forwards, futures and options to achieve one of four Company-approved objectives: to hedge risk arising from interest rate, equity market, credit spread including issuer defaults, price or foreign currency exchange rate risk or volatility; to manage liquidity; to control transaction costs; or to enter into replication and income generation transactions. On the date the derivative contract is entered into, the Company designates the derivative as hedging (fair value, cash flow, or net investment in a foreign operation), replication, income generation, or held for other investment and/or risk management activities, which primarily involves managing asset or liability related risks which do not qualify for hedge accounting under SSAP No. 86. The Company's derivative transactions are used in strategies permitted under the derivative use plans required by the State of Illinois and State of New York insurance regulators.

Interest rate swaps involve the periodic exchange of cash flows with other parties, at specified intervals, calculated using agreed upon rates or other financial variables and notional principal amounts. Generally, no cash or principal payments are exchanged at the inception of the contract. Typically, at the time a swap is entered into, the cash flow streams exchanged by the counterparties are equal in value.

The Company clears interest rate swap and certain credit default swap derivative transactions through central clearing houses. OTC-cleared derivatives require initial collateral at the inception of the trade in the form of cash or highly liquid collateral, such as U.S. Treasuries and government agency investments. Central clearing houses also require additional cash collateral as variation margin based on daily market value movements. In addition, OTC-cleared transactions include price alignment interest either received or paid on the variation margin, which is reflected in net investment income.

The Company's derivative counterparty exposure policy establishes market-based credit limits, favors long-term financial stability and creditworthiness of the counterparty and typically requires credit enhancement/credit risk reducing agreements. The Company minimizes the credit risk in derivative instruments by entering into transactions with high quality counterparties primarily rated A or better, which are monitored and evaluated by the Company's risk management team and reviewed by senior management. Transactions cleared through a central clearing house reduce risk due to their ability to require daily variation margin, monitor the Company's ability to request additional collateral in the event of a counterparty downgrade, and act as an independent valuation source.

The Company has developed credit exposure thresholds which are based upon counterparty ratings. Credit exposures are measured using the market value of the derivatives, resulting in amounts owed to the Company by its counterparties or potential payment obligations from the Company to its counterparties. Credit exposures are generally quantified daily based on the prior business day's market value and collateral is pledged to and held by, or on behalf of, the Company to the extent the current value of the derivatives is greater than zero, subject to minimum transfer thresholds, if applicable. In accordance with industry standards and the contractual agreements, collateral is typically settled on the same business day. The Company has exposure to credit risk related to market fluctuations that may occur between contractual settlement periods of collateral movements.

The Company's risk management team monitors counterparty credit exposure on a monthly basis to ensure compliance with Company policies and statutory limitations. The Company also generally requires that derivative contracts, other than exchange traded contracts, OTC-cleared swaps, certain forward contracts, and certain embedded and reinsurance derivatives, be governed by an International Swaps and Derivatives Association Master Agreement which is structured by legal entity and by counterparty and permits right of offset.

Derivative instruments have off-balance sheet risk. The notional value, market value exposure, counterparty and other trade terms are available in Annual Statement Schedule DB, Derivative Instruments, for each individual derivative contract.

For additional information regarding accounting policies see Note 1C9.

4. The Company had no investments in derivatives with financing premiums.

5. The Company did not have net gain or loss recognized in unrealized gains or losses during the reporting period representing the component of the derivative instruments' gain or loss, if any, excluded from the assessment of hedge effectiveness.

NOTES TO FINANCIAL STATEMENTS

6. The Company did not have any unrealized gains or losses during the reporting period representing the component of the derivative instruments gain or loss from derivatives that no longer qualify for hedge accounting.
7. The Company did not have any cash flow hedges of forecasted transactions. There were no gains and losses classified in unrealized gains and losses related to cash flow hedges that have been discontinued because it was no longer probable that the original forecasted transactions would occur by the end of the originally specified period.
8. The Company did not have any options contracts with financing premiums.
9. The Company did not have any excluded components by categories of time value, volatility value, cross currency basis spread and forward points.

B. Derivatives under SSAP No. 108 - Derivatives Hedging Variable Annuity Guarantees

Not applicable.

Note 9 – Income Taxes

On August 16, 2022 the Inflation Reduction Act ("IRA") was signed into law and is effective for tax years beginning after December 31, 2022. The IRA enacted a 15% book income alternative minimum tax ("CAMT") on corporate groups with three-year average financial statement income over \$1 billion ("applicable corporations"). The controlled group of corporations of which the entity is a member is an applicable corporation in 2023. Effective for 2023, the group's tax allocation agreement was amended to provide provisions for CAMT, among other updates. Under the amended tax allocation agreement, the reporting entity is an applicable reporting entity with tax allocation agreement exclusions. And as such, the reporting entity is excluded from charges for any portion of the group's CAMT, if any, under the group's tax allocation agreement and thus would not be allocated any portion of the group's CAMT liability or credit carryovers.

2. Federal Income Tax Allocation

Estimated tax payments are made quarterly, at which time intercompany tax balances are settled. In the subsequent year, additional settlements are made on the unextended due date of the return and at the time that the return is filed. The method of allocation among affiliates of the Company is subject to written agreement approved by The Hartford's Board of Directors and based upon separate return calculations with current credit for net losses to the extent the losses provide a benefit in the consolidated tax return.

G. Federal or Foreign Tax Loss Contingencies

The Company does not have any federal or foreign tax loss contingencies where it is reasonably possible that the total liability will significantly increase within 12 months of December 31, 2023.

H. Repatriation Transition Tax (RTT)

The Company is not subject to the repatriation transition tax.

I. Alternative Minimum Tax (AMT) Credit

The Company did not have an AMT credit recognized as a current year recoverable or DTA for the year ending December 31, 2023.

Note 11 – Debt

The Company has no outstanding debt.

Note 12 – Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A-D. Defined Benefit Plans

The Company has no defined benefit plans.

E. Defined Contribution Plans

Substantially all U.S. employees of the Company are eligible to participate in The Hartford Investment and Savings Plan under which designated contributions may be invested in a variety of investments, including up to 10% in a fund consisting largely of common stock of The Hartford. The Company's contributions include a non-elective contribution of 2% of eligible compensation and a dollar-for-dollar matching contribution of up to 6% of eligible compensation contributed by the employee. The Hartford also maintains a non-qualified savings plan, The Hartford Excess Savings Plan, with the dollar-for-dollar matching contributions related to employee compensation in excess of the amount of eligible compensation that can be contributed under the tax-qualified Investment and Savings Plan. An employee's eligible compensation includes overtime and bonuses but for the Investment and Savings Plan and Excess Savings Plan combined, is limited to \$1,000,000 annually. The cost allocated to The Hartford Insurance Group Reinsurance and Pooling Agreement (the "Pool"), as described in Note 26, for the plans was \$110,585,172 and \$96,245,882 for 2023 and 2022, respectively. Based on its pooling percentage of 10.10%, the Company's share of the Pool's allocated expenses was \$11,169,102 and \$9,720,834 for 2023 and 2022, respectively.

F. Multi-employer Plans

The Company does not have multi-employer plans.

G. Consolidated/Holding Company Plans

The Hartford maintains The Hartford Retirement Plan for U.S. Employees, a U.S. qualified defined benefit pension plan (the "Plan") that covers substantially all U.S. employees of the Company hired prior to January 1, 2013. The Hartford also maintains non-qualified pension plans to provide retirement benefits previously accrued that are in excess of Internal Revenue Code limitations. These plans shall be collectively referred to as the "Pension Plans".

Effective December 31, 2012, The Hartford amended the Plan to freeze participation and benefit accruals. As a result, employees will not accrue further benefits under the Plan, although interest will continue to accrue to existing account balances. Participants as of December 31, 2012 will continue to earn vesting credit with respect to their frozen accrued benefits as they continue to work. The freeze also applies to The Hartford Excess Pension Plan I and The Hartford Excess Pension Plan II, The Hartford's non-qualified excess pension plans for certain highly compensated employees.

The Hartford also provides certain health care and life insurance benefits for eligible retired employees. The Hartford's contribution for health care benefits are a function of the retiree's date of retirement and years of service. In addition, the plan has a defined dollar cap for certain retirees which limits average company contributions. The Hartford has prefunded a portion of the health care obligations where such prefunding can be accomplished on a tax effective basis. Beginning January 1, 2017, for retirees 65 and older who were participating in the Retiree PPO Medical Plan, the Company funds the cost of medical and dental health care benefits through contributions to a Health Reimbursement Account and covered individuals can access a variety of insurance plans from a health care exchange. Effective January 1, 2002, Company-subsidized retiree medical, retiree dental and retiree life insurance benefits were eliminated for employees with original hire dates

NOTES TO FINANCIAL STATEMENTS

with the Company on or after January 1, 2002. The Company also amended its postretirement medical, dental and life insurance coverage plans to no longer provide subsidized coverage for employees who retired on or after January 1, 2014. The expenses allocated to the Company for other postretirement benefits were not material to the results of operations for 2023 and 2022.

For the years ended December 31, 2023 and 2022, the Pool recognized pension expense of \$16,647,208 and \$16,220,235, respectively, which is equal to its allocation from The Hartford of \$22,956,634 and \$22,655,031, respectively, of contributions to the Pension Plans and non-qualified benefit payments. For the years ended December 31, 2023 and 2022, the Company's share of this contribution was \$1,681,368 and \$1,638,244, respectively.

As part of the medical plan, The Hartford provides medical benefits to employees on long-term disability. The obligation under this plan is included in the financial statements of Hartford Fire. Long-term disability expense/(income) for the Pool under this plan was \$(1,006,278) and \$(1,255,254) for the years ended December 31, 2023 and 2022, respectively. The expense/(income) includes an incurred expense/(income) of \$13,320 and \$(1,630,000) and a valuation adjustment expense/(income) of \$(1,019,598) and \$374,746 for the years ended December 31, 2023 and 2022, respectively. Based on its pooling percentage of 10.10%, the Company's share of the Pool's allocated incurred expenses/(income) was \$1,345 and \$(164,630), and \$(102,979) and \$37,849, resulting from valuation adjustments for 2023 and 2022, respectively.

In addition, the Company participates in post-employment plans sponsored by, and included in the financial statements of Hartford Fire. These plans provide for salary continuation benefits for employees on long-term disability. Expense/(income) under these plans allocated to the Pool was \$726,180 and \$4,970,628 for the years ended December 31, 2023 and 2022, respectively. Based on its pooling percentage of 10.10%, the Company's share of the Pool's allocated expenses/(income) was \$73,344 and \$502,033 for 2023 and 2022, respectively.

H. Postemployment Benefits and Compensated Absences

The Company has no direct postemployment benefits and compensated absences.

I. Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17)

There was no impact of the Modernization Act on Medicare postretirement benefits (INT 04-17) on the Company.

Note 13 – Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

The maximum dividend payout that may be made without prior approval in 2024 is \$182,735,178. In addition, if any dividend exceeds the insurer's adjusted surplus, it requires the prior approval of the Department. Dividends are paid as determined by the Company's Board of Directors.
- D. On December 18, 2023, Illinois paid an ordinary cash dividend of \$176,100,000 to Hartford Fire.
- E. Within the limitations of (C) above, there are no restrictions placed on the portion of Company profits that may be paid as ordinary dividends to stockholders.
- F. No restrictions have been placed on the unassigned funds of the Company.
- G. Mutual Surplus Advances – not applicable.
- H. No stock is being held by the Company for special purposes.
- I. The Company had no changes in the balances of any special surplus funds from the prior period.
- J. The portion of unassigned funds (surplus) represented or reduced by cumulative unrealized gains or (losses) is \$18,228,809.
- K. The Company did not have any surplus debentures or similar obligations in 2023 or 2022.
- L. The Company did not have any restatements due to quasi-reorganization in 2023 or 2022.
- M. The Company did not have any quasi-reorganizations in 2023 or 2022.

Note 14 – Liabilities, Contingencies and Assessments

A. Contingent Commitments

- 1. At December 31, 2023, the Company has outstanding commitments totaling \$1,544,402, of which \$867,333 is committed to fund limited partnership and other alternative investments, which may be called by the partnership during the commitment period to fund the purchase of new investments and partnership expenses. Additionally, \$677,069 is related to commercial whole loans expected to fund in the first half of 2024.
- 2. Detail of Other Contingent Commitments or Guarantees

The Company had no other contingent commitments or guarantees.
- 3. Summary of Details in Note 14.A.2.

Not applicable.

B. Assessments

- 1. Liability and Related Asset

In all states, insurers licensed to transact certain classes of insurance are required to become members of a guaranty fund. In most states, in the event of the insolvency of an insurer writing any such class of insurance in the state, members of the funds are assessed to pay certain claims of the insolvent insurer. A particular state's fund assesses its members based on their respective written premiums in the state for the classes of insurance in which the insolvent insurer was engaged. Assessments are generally limited for any year to one or two percent of premiums written per year, depending on the state.

The Hartford accounts for guaranty fund and other insurance assessments in accordance with SSAP No. 35R, (Guaranty Fund and Other Assessments). Liabilities for guaranty fund and other insurance-related assessments are included as part of taxes, licenses and fees. As of December 31, 2023 and 2022, the Company's liability balance was \$7,460,643 and \$7,951,172, respectively. As of December 31, 2023 and 2022, the Company's premium tax offsets and policy surcharges reported as assets were \$197,864 and \$152,411, respectively.

NOTES TO FINANCIAL STATEMENTS

2. Rollforward of Related Asset

(1) Description	(2) Amount
a. Assets recognized from paid and accrued premium tax offsets and policy surcharges prior year-end	\$ 152,411
b. Decreases current year: Premium tax offsets applied	152,412
c. Increase current year: Premium tax offsets accrued	197,865
d. Assets recognized from paid and accrued premium tax offsets and policy surcharges current year-end	\$ 197,864

3. Undiscounted and Discounted Guaranty Fund Assessments

The Company had no guaranty fund liabilities and assets related to assessments from insolvencies for long-term care contracts.

C. Gain Contingencies

The Company had no material gain contingencies.

D. Claims Related Extra Contractual Obligations and Bad Faith Losses Stemming from Lawsuits

The claims/losses related to extra contractual obligation lawsuits or bad faith lawsuits paid during the reporting period on a direct basis were not material, either individually or on an aggregated basis.

E. Product Warranty

The Company had no product warranty liabilities.

F. Joint and Several Liabilities

The Company had no joint and several liability arrangements.

G. All Other Contingencies

On February 14, 2022, The Hartford executed a final settlement agreement (the "Settlement") with the Boy Scouts of America ("BSA"), the Local Councils, and the attorneys representing a majority of the alleged victims, pursuant to which The Hartford agreed to pay \$787 million for sexual molestation and sexual abuse claims associated with liability policies issued by various Hartford writing companies in the 1970s and early 1980s. In exchange for its payment, The Hartford receives a complete release of its policies issued to BSA and the Local Councils, as well as an injunction against further abuse claims involving BSA. All conditions precedent to the Settlement have been satisfied, including approval by the bankruptcy court and the district court, and on April 20, 2023, The Hartford paid the Settlement amount of \$787 million. Certain objecting parties have appealed the district court's ruling and that appeal is pending before the Third Circuit. If the court approvals for the BSA's plan of reorganization are not affirmed on appeal, it is possible that adverse outcomes, if any, could have a material adverse effect on the Company's operating results.

COVID-19 Pandemic Business Income Insurance Litigation

Like many others in the property and casualty insurance industry, beginning in April 2020, the Company and various affiliates of the Company (collectively the "Hartford Writing Companies") have been served as defendants in lawsuits seeking insurance coverage under commercial insurance policies issued by the Hartford Writing Companies for alleged losses resulting from the shutdown or suspension of their businesses due to the spread of COVID-19. More than 290 such lawsuits have been filed, of which more than 60 purport to be filed on behalf of broad nationwide or statewide classes of policyholders. These lawsuits have been filed in state and federal courts in roughly 35 states. Although the allegations vary, the plaintiffs generally seek a declaration of insurance coverage, damages for breach of contract in unspecified amounts, interest, and attorneys' fees. Many of the lawsuits also allege that the insurance claims were denied in bad faith or otherwise in violation of state laws and seek extra-contractual or punitive damages. Some of the lawsuits also allege that the Hartford Writing Companies engaged in unfair business practices by collecting or retaining excess premium.

The Hartford Writing Companies deny the allegations and continue to vigorously defend these suits. The Hartford Writing Companies maintain that they have no coverage obligations with respect to these suits for business income allegedly lost by the plaintiffs due to the COVID-19 pandemic based on the clear terms of the applicable insurance policies. Although the policy terms vary depending, among other things, upon the size, nature, and location of the policyholder's business, in general, the claims at issue in these lawsuits were denied because the claimant identified no direct physical damage or loss to property at the insured premises, and the governmental orders that led to the complete or partial shutdown of the business were not due to the existence of any direct physical damage or loss in the immediate vicinity of the insured premises and did not prohibit access to the insured premises, as required by the terms of the insurance policies. In addition, the vast majority of the policies at issue expressly exclude from coverage any loss caused directly or indirectly by the presence, growth, proliferation, spread or activity of a virus, subject to a narrow set of exceptions not applicable in connection with this pandemic, and contain a pollution and contamination exclusion that, among other things, expressly excludes from coverage any loss caused by material that threatens human health or welfare.

In addition to the inherent difficulty in predicting litigation outcomes, the COVID-19 pandemic business income coverage lawsuits still present uncertainties and contingencies that are not yet fully known, including whether additional claims or lawsuits could be filed, the extent to which any state or nationwide classes will be certified, and the size and scope of any such classes. The legal theories advocated by plaintiffs vary significantly by case as do the state laws that govern the policy interpretation. These lawsuits are at various stages of litigation: some are in the earliest stages of litigation, some are in discovery, and many have been dismissed through rulings in favor of the Hartford Writing Companies. Moreover, dozens of policyholders have appealed dismissals in favor of the Hartford Writing Companies. The Hartford Writing Companies have received numerous favorable rulings on appeal, with a few adverse appellate rulings to date. The remainder of the Hartford Writing Companies' appeals are at various stages of the appellate process and have not yet been decided.

In addition, business income calculations depend upon a wide range of factors that are particular to the circumstances of each individual policyholder and, here, almost none of the plaintiffs have submitted proofs of loss or otherwise quantified or factually supported any allegedly covered loss, and, in any event, the Company's experience shows that demands for damages often bear little relation to a reasonable estimate of potential loss. Accordingly, management cannot now reasonably estimate the possible loss or range of loss, if any. Nonetheless, despite the high percentage of favorable outcomes to date in both the trial and appellate courts, given the large number of claims and potential claims, the indeterminate amounts sought, and the inherent unpredictability of litigation, it is possible that adverse outcomes, if any, in the aggregate, could have a material adverse effect on the Company's operating results or liquidity.

In addition to the matters discussed above, the Company is or may become involved in claims litigation arising in the ordinary course of business, both as a liability insurer defending third-party claims brought against insureds and as an insurer defending coverage claims brought against it. The Company accounts for such activity through the establishment of unpaid loss and LAE reserves. Subject to the uncertainties discussed in Note 1.C.11 regarding Asbestos/Environmental reserves, management expects that the ultimate liability, if any, with respect to such ordinary-course claims litigation, after consideration of provisions made for potential losses and costs of defense, will not be material to the financial condition of the Company. The Company is or may become involved in various other legal actions, some of which assert claims for substantial amounts. Management expects that the ultimate liability, if any, with respect to such lawsuits, after consideration of provisions made for estimated losses and costs of defense, will not be material to the financial condition of the Company.

Note 15 – Leases

A. Lessee Leasing Arrangements

The Company has no lease commitments. The Company reimburses an affiliate, Hartford Fire, for rent of its leased office facilities and automobiles.

NOTES TO FINANCIAL STATEMENTS

B. Lessor Leasing Arrangements

The Company is not a lessor in leasing arrangements.

Note 16 – Information About Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company aims to maintain a diversified investment portfolio including issuer, sector, and geographic stratification, and has established certain exposure limits, diversification standards and review procedures to mitigate credit risk. The Company is not exposed to any significant credit concentration risk of a single issuer, excluding U.S. Government, U.S. Government agencies, and the short-term investment pool, greater than 10% of the Company's capital and surplus as of December 31, 2023.

Derivative instruments have off-balance sheet risk. The notional value, market value exposure, counter-party and other trade terms are available in Schedule DB, Derivative Instruments, for each individual derivative contract. For discussions on credit risk, market risk, cash requirements and accounting policy see Note 8, Derivative Instruments.

1. The table below summarizes the face amount of the Company's financial instruments with off-balance-sheet risk as of December 31:

7. Please refer to Note 5E for a description of the securities underlying the repurchase agreements.

C. Wash Sales

1. In the course of the Company's asset management, no securities were sold and reacquired within 30 days of the sale date to enhance the Company's total return on its investment portfolio.
2. The Company had no wash sale transactions.

Note 18 – Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

A. Administrative Services Only Plans

The Company had no gain or loss from administrative services only uninsured plans or the uninsured portion of partially insured plans.

B. Administrative Services Contract Plans

The Company had no gain or loss from administrative services contract uninsured plans or the uninsured portion of partially insured plans.

C. Medicare or Other Similarly Structured Cost Based Reimbursement Contracts

The Company had no Medicare or other similarly structured cost based reimbursement contracts.

Note 19 – Direct Premium Written/Produced by Managing General Agents/Third-Party Administrators

The Company has no direct premiums written by managing general agents or third-party administrators.

Note 20 – Fair Value Measurements

A. Fair Value Measurements

Fair value is determined based on the "exit price" notion which is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. Financial instruments carried at fair value in the Company's Financial Statements include bonds and derivatives. The Company's estimates of fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets and requires that observable inputs be used in the valuations when available. The Company categorized its assets and liabilities measured at estimated fair value based on whether the significant inputs into the valuation are observable. The fair value hierarchy categorizes the inputs in the valuation techniques used to measure fair value into three broad Levels (Level 1, 2 or 3).

Level 1 Unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date.

Level 2 Observable inputs, other than quoted prices included in Level 1, for the asset or liability or prices for similar assets and liabilities.

Level 3 Valuations that are derived from techniques in which one or more of the significant inputs are unobservable (including assumptions about risk). Because Level 3 fair values, by their nature, contain one or more significant unobservable market inputs as there is little or no observable market for these assets and liabilities, considerable judgment is used to determine the Level 3 fair values. Level 3 fair values represent the Company's best estimate of an amount that could be realized in a current market exchange absent actual market exchanges.

NOTES TO FINANCIAL STATEMENTS

In many situations, inputs used to measure the fair value of an asset or liability position may fall into different levels of the fair value hierarchy. In these situations, the Company will determine the level in which the fair value falls based upon the lowest level input that is significant to the determination of the fair value. In most cases, both observable (e.g., changes in interest rates) and unobservable (e.g., changes in risk assumptions) inputs are used in the determination of fair values that the Company has classified within Level 3. Consequently, these values and the related gains and losses are based upon both observable and unobservable inputs. The Company's bonds included in Level 3 are classified as such because these securities are primarily within illiquid markets and /or priced by independent brokers.

1. The following table presents assets and (liabilities) carried at fair value by hierarchy level:

Valuation Techniques, Procedures and Controls

The Company determines the fair values of certain financial assets and financial liabilities based on quoted market prices where available and where prices represent a reasonable estimate of fair value. The Company also determines fair value based on future cash flows discounted at the appropriate current market rate. Fair values reflect adjustments for counterparty credit quality, the Company's default spreads, liquidity and, where appropriate, risk margins on unobservable parameters.

The process for determining the fair value of investments is monitored by the Valuation Committee, which is a cross-functional group of senior management within the Company. The purpose of the Valuation Committee is to provide oversight of the pricing policy, procedures and controls, including approval of valuation methodologies and pricing sources. The Valuation Committee reviews market data trends, pricing statistics and trading statistics to ensure that prices are reasonable and consistent with our fair value framework. Controls and procedures used to assess third-party pricing services are reviewed by the Valuation Committee, including the results of annual due-diligence reviews. Controls include, but are not limited to, reviewing daily and monthly price changes, stale prices, and missing prices and comparing new trade prices to third-party pricing services, weekly price changes of a corporate bond index, and daily OTC derivative market valuations to counterparty valuations. The Company has a dedicated pricing unit that works with trading and investment professionals to challenge the price received by a third-party pricing source if the Company believes that the valuation received does not accurately reflect the fair value. New valuation models and changes to current models require approval by the Valuation Committee. In addition, the Company's enterprise-wide Operational Risk Management function provides an independent review of the suitability and reliability of model inputs, as well as an analysis of significant changes to current models.

Bonds and Stocks

The fair value of bonds and stocks in an active and orderly market (e.g., not distressed or forced liquidation) are determined using a "waterfall" approach after considering the following pricing sources: quoted prices for identical assets or liabilities, prices from third-party pricing services, independent broker quotations, or internal valuation models. Typical inputs used by these pricing sources include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates. Most bonds do not trade daily. Based on the typical trading volumes and the lack of quoted market prices for fixed maturities, third-party pricing services utilize matrix pricing to derive security prices. Matrix pricing relies on securities' relationships to other benchmark quoted securities, which trade more frequently. Pricing services utilize recently reported trades of identical or similar securities making adjustments through the reporting date based on the preceding outlined available market observable information. If there are no recently reported trades, the third-party pricing services may develop a security price using expected future cash flows based upon collateral performance and discounted at an estimated market rate. Both matrix pricing and discounted cash flow techniques develop prices by factoring in the time value for cash flows and risk, including liquidity and credit.

Prices from third-party pricing services may be unavailable for securities that are rarely traded or are traded only in privately negotiated transactions. As a result, certain securities are priced via independent broker quotations which utilize inputs that may be difficult to corroborate with observable market-based data. Additionally, the majority of these independent broker quotations are non-binding.

The Company utilizes internally developed pricing models for private placement securities for which the Company is unable to obtain a price from a third-party pricing service. The Company's process for pricing these private placement securities is similar to the third-party pricing services. The Company develops credit spreads each month using market-based data for public securities adjusted for credit spread differentials between public and private securities which are obtained from a survey of multiple private placement brokers. The credit spreads determined through this survey approach are based upon the issuer's industry, financial strength and term to maturity, utilizing independent public security index and trade information and adjusting for the non-public nature of the securities. Credit spreads combined with risk-free rates are applied to contractual cash flows to develop a price.

The Securities Working Group performs ongoing analyses of the prices and credit spreads received from third parties to ensure that the prices represent a reasonable estimate of the fair value. This process involves quantitative and qualitative analyses and is overseen by investment and accounting professionals. As a part of these analyses, the Company considers trading volume, new issuance activity and other factors to determine whether the market activity is significantly different than normal activity in an active market, and if so, whether transactions may not be orderly considering the weight of available evidence. If the available evidence indicates that pricing is based upon transactions that are stale or not orderly, the Company places little, if any, weight on the transaction price and will estimate fair value utilizing an internal pricing model. In addition, the Company ensures that prices received from independent brokers represent a reasonable estimate of fair value through the use of internal and external cash flow models utilizing spreads, and when available, market indices. As a result of this analysis, if the Company determines that there is a more appropriate fair value based upon the available market data, the price received from the third-party is adjusted accordingly and approved by the Valuation Committee.

The Company conducts other specific monitoring controls around pricing. Daily analyses identify price changes over 3% for bonds and 5% for equity securities and trade prices for both bond and stock securities that differ over 3% to the current day's price. Weekly analyses identify prices that differ more than 5% from published bond prices of a corporate bond index. Monthly analyses identify price changes over 3%, prices that have not changed and missing prices. Also on a monthly basis, a second source validation is performed on most sectors. Analyses are conducted by a dedicated pricing unit that follows up with trading and investment sector professionals and challenges prices with vendors when the estimated assumptions used differs from what the Company feels a market participant would use. Examples of other procedures performed include, but are not limited to, initial and on-going review of third-party pricing services' methodologies, review of pricing statistics and trends, and back testing recent trades.

The Company has analyzed the third-party pricing services' valuation methodologies and related inputs, and has also evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Most prices provided by third-party pricing services are classified into Level 2 because the inputs used in pricing the securities are observable. Due to the lack of transparency in the process that brokers use to develop prices, most valuations that are based on brokers' prices are classified as Level 3. Some valuations may be classified as Level 2 if the price can be corroborated with observable market data.

NOTES TO FINANCIAL STATEMENTS

Derivative Instruments

The fair value of derivative instruments is determined using pricing valuation models for OTC derivatives that utilize independent market data inputs, quoted market prices for exchange-traded derivatives and OTC-cleared transactions, or independent broker quotations.

The Derivatives Working Group performs ongoing analysis of valuations, assumptions and methodologies used to ensure that the prices represent a reasonable estimate of the fair value. The Company performs various controls on derivative valuations which include both quantitative and qualitative analyses. Analyses are conducted by a dedicated derivative pricing team that works directly with investment sector professionals to analyze impacts of changes in the market environment and investigate variances. On a daily basis, market valuations are compared to counterparty valuations for OTC derivatives. There is a monthly analysis to identify market value changes greater than pre-defined thresholds, stale prices, missing prices and zero prices. Also on a monthly basis, a second source validation, typically to broker quotations, is performed for certain of the more complex derivatives and all new deals during the month. A model validation review is performed on any new models, which typically includes detailed documentation and validation to a second source. The model validation documentation and results of validation are presented to the Valuation Committee for approval. There is a monthly control to review changes in pricing sources to ensure that new models are not moved to production until formally approved.

The Company utilizes derivative instruments to manage the risk associated with certain assets and liabilities. However, the derivative instrument may not be classified with the same fair value hierarchy level as the associated assets and liabilities. Therefore, the realized and unrealized gains and losses on derivatives reported in Level 3 may not reflect the offsetting impact of the realized and unrealized gains and losses of the associated assets. The Company does not currently hold any level 3 derivatives.

2. Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

The Company’s financial instruments with fair value measurements using significant unobservable inputs (Level 3) were not material.

3. Valuation Inputs for Investments

For Level 1 investments, valuations are based on observable inputs that reflect quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date.

For the Company’s Level 2 and 3 bonds, typical inputs used by pricing techniques include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates. Derivative instruments are valued using mid-market inputs that are predominantly observable in the market.

A description of additional inputs used in the Company’s Level 2 and Level 3 measurements is listed below:

Level 2 The fair values of most of the Company’s Level 2 investments are determined by management after considering prices received from third-party pricing services. These investments include mostly bonds.

Asset-backed securities, collateralized loan obligations, commercial and residential mortgage-backed securities - Primary inputs also include monthly payment information, collateral performance, which varies by vintage year and includes delinquency rates, collateral valuation loss severity rates, collateral refinancing assumptions, and credit default swap indices. Asset-backed securities and residential mortgage-backed securities prices also include estimates of the rate of future principal prepayments over the remaining life of the securities. These estimates are derived based on the characteristics of the underlying structure and prepayment speeds previously experienced at the interest rate levels projected for the underlying collateral.

All other corporate bonds - Primary inputs also include observations of credit default swap curves related to the issuer, and political events in emerging market economies where applicable.

State, municipality and political subdivision bonds - Primary inputs also include Municipal Securities Rulemaking Board reported trades and material event notices, and issuer financial statements.

Interest rate derivatives - Primary input is the swap yield curve.

Level 3 Most of the Company’s securities classified as Level 3 include less liquid securities such as lower quality commercial mortgage-backed securities. Also included in level 3 are securities valued based on broker prices or broker spreads, without adjustments. Primary inputs for non-broker priced investments, including structured securities, are consistent with the typical inputs used in the preceding noted Level 2 measurements, but are Level 3 due to their less liquid markets. Additionally, certain long-dated securities are priced based on third-party pricing services, including certain municipal securities, foreign government/government agency securities and bank loans, which are included with corporate bonds. Primary inputs for these long-dated securities are consistent with the typical inputs used in the preceding noted Level 1 and Level 2 measurements, but include benchmark interest rate or credit spread assumptions that are not observable in the marketplace. Primary inputs for privately traded equity securities are internal discounted cash flow models utilizing earnings multiples or other cash flow assumptions that are not observable. Significant inputs for Level 3 derivative contracts primarily include the typical inputs used in the preceding noted Level 1 and Level 2 measurements; but also include equity and interest rate volatility and swap yield curves beyond observable limits.

B. Other Fair Value Disclosures

Not applicable.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The tables below reflect the fair values and admitted values of all unaffiliated admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method (subsidiaries, joint ventures and partnerships). The fair values are also categorized into the three-level fair value hierarchy as described above in Note 20A.

The valuation methodologies used to determine the fair values of bonds, stocks and derivatives are described in the above Fair Value Measurements section of this note. The amortized cost of cash, cash equivalents and short-term investments approximates fair value. Fair values for mortgage loans were estimated using discounted cash flow calculations based on current lending rates for similar type loans. Current lending rates reflect changes in credit spreads and the remaining terms of the loans.

D. Financial Instruments for Which Not Practicable to Estimate Fair Values

At December 31, 2023, the Company had no investments where it is not practicable to estimate fair value.

E. Financial Instruments Measured Using the NAV

At December 31, 2023, the Company had no investments measured using the NAV.

Note 21 – Other Items

A. Unusual or Infrequent Items

The Company had no unusual or infrequent items during the reporting period.

B. Troubled Debt Restructuring: Debtors

The Company had no troubled debt restructuring during the reporting period.

C. Other Disclosures

The Company enters into various collateral arrangements, which require both the pledging and accepting of collateral in connection with its derivative instruments. As of December 31, 2023 and 2022, collateral pledged of \$24,758 and \$24,709 respectively, was included in bonds on the balance sheet. The Company also pledged cash collateral associated with derivative instruments with a statement value of \$754,860 and \$2,217,312, respectively, as of December 31, 2023 and 2022. As of December 31, 2023 and 2022, the Company had not accepted any collateral relating to the collateral arrangements.

In 1992, Hartford Fire issued a stop loss reinsurance agreement between Hartford Fire and First State Insurance Company ("First State"), to support the runoff insurance obligations of First State, New England Insurance Company and New England Reinsurance Corporation, collectively the "First State Companies". The current stop loss cession was triggered during the first quarter of 2003. In 2004, the Department approved an agreement between the parties to maintain a level of statutory surplus within a range above \$25 million but not to exceed \$35 million at such time there is a cession of incurred losses. The terms of this agreement were last modified in 2019 and obligate Hartford Fire to make payments to First State up to \$1.2 billion to the extent that (i) First State Companies' net retained paid losses exceed a stipulated dollar amount, which was exhausted in 2006, and (ii) First State Companies' statutory capital and surplus falls below \$25 million. This agreement was further amended in 2019 to include coverage for unallocated LAE. First State Companies' consolidated statutory surplus as of December 31, 2023 and 2022 was \$30.0 million and \$30.8 million, respectively. As of December 31, 2023 and 2022, the First State Companies' total cession to Hartford Fire was \$875.0 million and \$927.2 million, respectively, in loss and loss expense reserves. The Company shared in the Hartford Fire reserve changes based on its pool percent stated in Note 26.

D. Business Interruption Insurance Recoveries

No business interruption insurance recoveries were received.

E. State Transferable and Non-transferable Tax Credits

The Company had no state transferable and non-transferable tax credits.

F. Subprime Mortgage-Related Risk Exposure

1. In assessing its exposure to subprime risk, the Company defines subprime mortgage lending as the origination of residential mortgage loans to customers with weak credit profiles. Although characteristics may vary by investment, generally subprime mortgage loans feature high initial loan-to-value ratios or incorporate low initial payments based on a fixed introductory rate that resets to a variable index rate plus a margin for the remaining term of the loan. The Company is not an originator of below-prime mortgages, but holds direct investments in certain residential mortgage-backed securities with subprime exposure. The slowing U.S. housing market, greater use of affordable mortgage products, and relaxed underwriting standards for some originators of below-prime loans has led to in recent years to higher delinquency and loss rates.

To manage its risk, the Company performs a cash flow analysis on its subprime holdings stressing multiple variables, including prepayment speeds, default rates, and loss severity. Based on this analysis and the Company's expectation of future loan performance, other than certain credit related impairments, future payments are expected to be received in accordance with the contractual terms of the securities, and therefore unrealized losses are primarily due to changes in asset values. In addition, the Company has a security monitoring process overseen by a committee of investment and accounting professionals that identifies securities, including those with subprime exposure, that are subjected to an enhanced analysis on a quarterly basis. Specifically, in accordance with SSAP No. 43 Revised, if management determines that the estimated discounted cash flows of an asset-backed security are less than its amortized cost, then an OTTI charge is recognized equal to the difference between the amortized cost and estimated discounted cash flows of the security. The estimated discounted cash flows of the impaired investment become its new cost basis. Estimating future cash flows is a quantitative and qualitative process that incorporates information received from third-party sources along with certain internal assumptions and judgments regarding the future performance of the underlying collateral. As a result, actual results may differ from estimates. In addition, projections of expected future cash flows may change based upon new information regarding the performance of the underlying collateral.

2. There is no direct exposure through investments in subprime mortgage loans as of December 31, 2023.

On December 27, 2023, the Company entered into catastrophe protection through an indemnity per occurrence excess of loss reinsurance agreement with Foundation Re IV Ltd. ("Foundation Re IV"), an independent Bermuda company registered as a special purpose insurer under the Bermuda Insurance Act 1978 and related rules and regulations. The reinsurance agreement meets the requirements to be accounted for as reinsurance in accordance with the guidance for reinsurance contracts. In connection with the reinsurance agreement, Foundation Re IV issued \$200 million in notes (generally referred to as "catastrophe bonds") to investors in amounts equal to the full coverage provided under the reinsurance agreement. The proceeds of the issuance were deposited in a reinsurance trust account.

The reinsurance agreement provides indemnity per occurrence excess of loss coverage of 66.67% of \$300 million in losses in excess of \$1.1 billion for the treaty term effective January 1, 2024, through December 31, 2026, for losses from tropical cyclones and earthquakes on the Company's commercial and personal property and automobile physical damage business in all 50 states of the United States of America, the District of Columbia and Puerto Rico. For events up to and including December 31, 2026, the Company is entitled to begin recovering amounts under this reinsurance agreement if the covered losses in the covered area for a single occurrence reach an initial attachment amount of \$1.1 billion. The full \$200 million coverage amount is available until such covered losses reach an initial maximum of \$1.4 billion. The attachment level and the maximum level (or exhaustion level) under this agreement may be reset annually to adjust the coverage written in the covered areas. The aggregate maximum proceeds are available to the Company and other affiliated ceding insurers, which under the terms of the reinsurance agreement will be allocated in proportion to each ceding insurer's share of the total losses ceded.

The Company has not incurred any losses that have resulted or are expected to result in recovery under this agreement since its inception.

H. The Amount That Could Be Realized on Life Insurance Where the Reporting Entity is Owner and Beneficiary or Has Otherwise Obtained Rights to Control the Policy.

The Company is not the owner and beneficiary or has not otherwise obtained rights to control a life insurance policy.

The Company is a participant in the Pool. All external reinsurance appears in the financial statements of Hartford Fire.

2. All external return commission resulting from reinsurance assumed or ceded appear in the financial statements of Hartford Fire.

3. The Company does not have any protected cells.

D. Uncollectible Reinsurance

The Company is a participant in the Pool. All uncollectible reinsurance resulting from this agreement is disclosed in the financial statements of Hartford Fire.

NOTES TO FINANCIAL STATEMENTS

E. Commutation of Ceded Reinsurance

The Company is a participant in the Pool. All commutation of ceded reinsurance is disclosed in the financial statements of Hartford Fire.

F. Retroactive Reinsurance

The Company has no retroactive reinsurance.

G. Reinsurance Accounted for as a Deposit

The Company is a participant in the Pool. Any reinsurance accounted for as a deposit is disclosed in the financial statements of Hartford Fire.

H. Disclosures for the Transfer of Property and Casualty Run-off Agreements

The Company has not entered into any reinsurance agreements pursuant to SSAP No. 62R to receive property and casualty runoff accounting treatment.

I. Certified Reinsurer Rating Downgrade or Status Subject to Revocation

The Company does not cede to a certified reinsurer whose rating was downgraded or status subject to revocation.

J. Reinsurance Agreements Qualifying for Reinsurer Aggregation

The Company has no reinsurance agreements qualifying for reinsurer aggregation.

K. Reinsurance Credit

The Company has no reinsurance contracts covering health business.

Note 24 – Retrospectively Rated Contracts & Contracts Subject to Redetermination

- A. Accrued retrospective premiums reported on Page 3, Liabilities, Surplus and Other Funds, Line 9, Column 1 have been determined based upon loss experience on business subject to such experience rating adjustment.
- B. Accrued retrospective premiums are recorded through an adjustment to earned premium.
- C. Net premiums written for the current year on retrospective workers' compensation policies were \$2,384,861 or less than 1% of total workers' compensation net premiums written.
- D. The Company does not take a loss sensitive credit for Risk-Based Capital and is, therefore, not required to complete Schedule P, Part 7A, Primary Loss Sensitive Contracts.
- E. The Company had no nonadmitted retrospective premium.
- F. The Company did not write any accident and health insurance premium during the reporting period and is not subject to the Affordable Care Act risk-sharing provisions.

Note 25 – Changes in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2022 were \$2,309,631,424. Prior accident year reserves are now \$1,770,361,468 as a result of payments and reserve changes attributable to insured events of prior accident years. From January 1, 2023 through December 31, 2023, \$508,473,202 has been paid for loss and LAE attributable to insured events of prior accident years. In addition, the Company released reserves by \$(30,796,754), related to the re-estimate of unpaid losses and LAE for prior years. These reserve changes are mainly due to releases in workers' compensation, and to a lesser extent commercial multi-peril and catastrophes reserves mainly in accident years 2021 and 2022 within special property. Also contributing, are reserve releases pursuant to the terms of the stop loss reinsurance agreement in place between Hartford Fire and First State whereby, during 2023, Hartford Fire, the lead company in the Pool, released reserves of \$129 million which impacts the Company by the pool percent stated in Note 26 and First State strengthened reserves by \$129 million. These releases were partially offset by increases in commercial auto liability and other liability.

Note 26 – Intercompany Pooling Arrangements

The Company participates in the Pool, a property/casualty pooling arrangement whereby underwriting operations consisting of premiums, losses and insurance expenses (including personnel expenses) are reapportioned and shared by the members of the Pool in accordance with fixed participation percentages that are stated below. The following lists the property and casualty affiliates that participate in the Pool and sets forth each company's respective participation for both 2023 and 2022:

NAIC #	Company	Pool %	NAIC #	Company	Pool %
19682	Hartford Fire Insurance Company	41.50%	27120	Trumbull Insurance Company	0.50%
22357	Hartford Accident and Indemnity Company	32.69%	38253	Hartford Lloyd's Insurance Company	0.01%
29424	Hartford Casualty Insurance Company	5.50%	37478	Hartford Insurance Company of the Midwest	0.50%
30104	Hartford Underwriters Insurance Company	4.00%	38261	Hartford Insurance Company of the Southeast	0.50%
29459	Twin City Fire Insurance Company	1.50%	39608	Nutmeg Insurance Company	0.70%
10046	Pacific Insurance Company, Limited	1.70%	11000	Sentinel Insurance Company, Ltd.	0.30%
38288	Hartford Insurance Company of Illinois	10.10%	34690	Property and Casualty Insurance Company of Hartford	0.50%

Hartford Fire reinsures business with affiliated and non-affiliated reinsurers prior to pooling with its affiliated Pool members. Hartford Fire also assumes all direct business written by Pool members. Hartford Fire then cedes a percentage of the total Pool to each participant of the Pool based on the percentage shown above. The Provision for Reinsurance (Schedule F, Part 3) is absorbed completely by the lead company in the Pool (Hartford Fire).

NOTES TO FINANCIAL STATEMENTS

Note 27 – Structured Settlements

- A. To settle certain claims, the Company has purchased annuities from various life insurers for which the claimant is the payee but the Company is the owner of the annuity and is contingently liable to the claimant for the claim in the event the issuer of the annuity is unable to perform. The Company eliminated its loss reserves for these claims at the time the annuities were purchased. The present value of annuity contracts owned by the Company that were in force as of December 31, 2023, and 2022 was \$5,360,007 and \$5,497,853, respectively. For all other structured settlements, the annuity contract is owned by an assignment company. For some annuity contracts owned by an assignment company, the Company did not effectively secure a release of liability from the claimant and, therefore, the Company may remain contingently liable for a portion of these contracts, of which the amount for 2023 and 2022, was \$51,707,956 and \$54,371,095, respectively.

Loss Reserves Eliminated by Annuities	Unrecorded Loss Contingencies
\$ 57,067,963	\$ 57,067,963

- B. The total value of all annuities due from each respective life insurer to the claimant as payee in excess of 1% of the Company's policyholder's surplus as of December 31, 2023 and 2022 was as follows:

Life Insurance Company and Location	Licensed in Company's State of Domicile	Statement Value	
		2023	2022
Talcott Resolution Life and Annuity Insurance Company, Windsor, CT	Yes	\$ 2,285,574	\$ 2,432,637
Talcott Resolution Comprehensive Employee Benefit Service Company, Windsor, CT	Yes	51,707,956	54,371,095

Note 28 – Health Care Receivables

The Company has no healthcare receivables.

Note 29 – Participating Policies

The Company had no participating policies other than property/casualty contracts during the reporting period.

Note 30 – Premium Deficiency Reserves

As of December 31, 2023, the Company did not have a premium deficiency reserve. The Company considered anticipated investment income when calculating its premium deficiency reserve.

4. The Company had no deductible amounts for unsecured high deductible policies.

NOTES TO FINANCIAL STATEMENTS

B. The Company had no unsecured high deductible recoverables for individual obligors.

Note 32 – Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses

For workers' compensation, the Company only discounts liabilities for tabular claims. These reserves have been discounted in accordance with tables and interest rates prescribed by the various states and the National Council on Compensation Insurance ("NCCI"). The Company does not discount unpaid LAE.

For case loss reserves only, the underlying table used is the 2007 U.S. Life Table appropriate for males, females, or combined according to the requirements of the state. The discount rate is 3.50% or according to the state requirements. At December 31, 2023 and 2022, liabilities for the Company included \$75,278,995 and \$81,808,139 of discounted case reserves, respectively. At December 31, 2023 and 2022, the discount on these case reserves totaled \$37,237,878 and \$39,177,791, respectively.

The Company also participates in involuntary market pools ("involuntary pools") with discounted loss IBNR estimated by NCCI. At December 31, 2023 and 2022, the share of discounted IBNR reserves attributed to the Company from these involuntary pools amounted to \$12,835,824 and \$13,249,220, respectively. At December 31, 2023 and 2022, the discount on these involuntary pools reserves totaled \$1,425,312 and \$1,390,179, respectively.

The Company recognized interest accretion in the Statement of Income related to tabular discount on Line 2 Losses Incurred. At December 31, 2023 and 2022 the accretion totaled \$4,923,561 and \$4,313,684, respectively.

Note 33 – Asbestos / Environmental Reserves

A. Does the Company have on the books or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses?
Yes (X) No ()

The Company's asbestos reserves, which provide for potential exposure from both reported and IBNR losses, are based upon a comprehensive ground-up analysis of its direct and assumed exposure. For a description of the Company's methodology for reserving both reported and IBNR losses, see Note 1.C.11.

The Company's asbestos Assumed and Net of Ceded Reinsurance sections reflect IBNR after a \$556 million cession from the First State Companies to Hartford Fire as of December 31, 2023 (refer to Note 21.C for details of the stop loss agreement between the First State Companies and Hartford Fire).

Effective December 31, 2016, Hartford Fire on behalf of the Pool participants (Note 26) and the First State Companies entered into an ADC reinsurance agreement with NICO, a subsidiary of Berkshire Hathaway Inc., to reduce uncertainty about potential adverse reserve development. Under the ADC, Hartford Fire paid consideration of \$650 million for NICO to assume adverse net loss and allocated LAE reserve development up to \$1.5 billion above the existing net A&E reserves as of December 31, 2016 of approximately \$1.7 billion. Hartford Fire has retained the risk of collection on amounts due from other third-party reinsurers and continues to be responsible for claims handling and other administrative services, subject to certain conditions. Activity related to the ADC and any future net adverse development up to the \$1.5 billion limit under the ADC is recorded on the books of Hartford Fire. The ADC has been accounted for as retroactive reinsurance in accordance with SSAP No. 62R (Property and Casualty Reinsurance). The asbestos reserves below are gross of the effect of the NICO ADC cover.

All numbers in the tables and notes below related to asbestos reserves are pooled using the pooling percentage in Note 26, Intercompany Pooling Arrangements with the exception of reserves subject to the ADC reinsurance agreement with NICO which are not pooled and remain in Hartford Fire. The non-pooled asbestos reserves subject to the ADC reinsurance agreement are the following:

Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.

SCHEDULE P INTERROGATORIES

1. The following questions relate to yet-to-be-issued Extended Reporting Endorsements (EREs) arising from Death, Disability, or Retirement (DDR) provisions in Medical Professional Liability Claims Made insurance policies. EREs provided for reasons other than DDR are not to be included.
- 1.1 Does the company issue Medical Professional Liability Claims Made insurance policies that provide tail (also known as an extended reporting endorsement, or “ERE”) benefits in the event of Death, Disability, or Retirement (DDR) at a reduced charge or at no additional cost?

Yes [] No [X]

If the answer to question 1.1 is “no”, leave the following questions blank. If the answer to question 1.1 is “yes”, please answer the following questions:
- 1.2 What is the total amount of the reserve for that provision (DDR Reserve), as reported, explicitly or not, elsewhere in this statement (in dollars)?

\$ 0
- 1.3 Does the company report any DDR reserve as Unearned Premium Reserve per SSAP #65?

Yes [] No [X]
- 1.4 Does the company report any DDR reserve as loss or loss adjustment expense reserve?

Yes [] No [X]
- 1.5 If the company reports DDR reserve as Unearned Premium Reserve, does that amount match the figure on the Underwriting and Investment Exhibit, Part 1A - Recapitulation of all Premiums (Page 7) Column 2, Lines 11.1 plus 11.2?

Yes [] No [] N/A [X]
- 1.6 If the company reports DDR reserve as loss or loss adjustment expense reserve, please complete the following table corresponding to where these reserves are reported in Schedule P:

Years in Which Premiums Were Earned and Losses Were Incurred		DDR Reserve Included in Schedule P, Part 1F, Medical Professional Liability Column 24: Total Net Losses and Expenses Unpaid

1.612 Totals		0	0

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as “Defense and Cost Containment” and “Adjusting and Other”) reported in compliance with these definitions in this statement?
- Yes [X] No []
3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. Are they so reported in this Statement?
- Yes [X] No []
4. Do any lines in Schedule P include reserves that are reported gross of any discount to present value of future payments, and that are reported net of such discounts on Page 10?

Yes [] No [X]
- If yes, proper disclosure must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33. Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.

Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.
5. What were the net premiums in force at the end of the year for:
(in thousands of dollars)

5.1 Fidelity

7,993

5.2 Surety

31,434
6. Claim count information is reported per claim or per claimant (Indicate which)

per claim.....

If not the same in all years, explain in Interrogatory 7.
- 7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses?

Yes [X] No []
- 7.2 (An extended statement may be attached.)

1) The Asbestos and Environmental reserve development which are subject to the adverse development cover (ADC) reinsurance agreement with National Indemnity Company (NICO) reside on Hartford Fire Insurance Company's balance sheet and are not included in the pooling arrangement. 2) Please see Notes to the Financial Statements – Note 25 and Note 33.
