Consolidated Schedule of Investments (Unaudited) (Continued)

March 31, 2026

Notes to Consolidated Schedule of Investments:

- (A) Debt investments include investments in bank debt that generally are bought and sold among institutional investors in transactions not subject to registration under the Securities Act of 1933 (the “Securities Act”). Such transactions are generally subject to contractual restrictions, such as approval of the agent or borrower.
- (B) Non-controlled affiliate – as defined under the Investment Company Act of 1940, as amended (the “1940 Act”) (ownership of between 5% and 25% of the outstanding voting securities of this issuer). See Consolidated Schedule of Changes in Investments in Affiliates.
- (C) Non-accruing debt investment.
- (D) Other non-income producing investment.
- (E) Restricted security. (See Note 2)
- (F) Controlled issuer – as defined under the 1940 Act (ownership of 25% or more of the outstanding voting securities of this issuer). Investment is not more than 50% of the outstanding voting securities of the issuer nor deemed to be a significant subsidiary. See Consolidated Schedule of Changes in Investments in Affiliates.
- (G) Investment has been segregated to collateralize certain unfunded commitments.
- (H) Non-U.S. company or principal place of business outside the U.S. and as a result the investment is not a qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.
- (I) Deemed an investment company under Section 3(c) of the 1940 Act and as a result the investment is not a qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.
- (J) Publicly traded company with a market capitalization greater than \$250 million and as a result the investment is not a qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.
- (K) Negative balances relate to an unfunded commitment that was acquired and/or valued at a discount.
- (L) In addition to the stated coupon, investment has an exit fee payable upon repayment of the loan in an amount equal to the percentage of the original principal amount shown.
- (M) All cash and investments, except those referenced in Note G above, are pledged as collateral under certain debt as described in Note 4 to the Consolidated Financial Statements.
- (N) Inputs in the valuation of this investment included certain unobservable inputs that were significant to the valuation as a whole.
- (O) Investment denominated in foreign currency. Amortized cost and fair value converted from foreign currency to U.S. dollars. Foreign currency denominated investments are generally hedged for currency exposure.

LIBOR/SOFR, EURIBOR or CORRA resets monthly (M), quarterly (Q), semiannually (S), or annually (A).

Aggregate acquisitions and aggregate dispositions of investments, other than government securities, totaled \$22,535,657 and \$135,457,504, respectively, for the three months ended March 31, 2026. Aggregate acquisitions include investment assets received as payment in kind. Aggregate dispositions include principal paydowns on and maturities of debt investments. The total value of restricted securities and bank debt as of March 31, 2026 was \$1,383,743,822 or 93.4% of total cash and investments of the Company. As of March 31, 2026, approximately 17.5% of the total assets of the Company were not qualifying assets under Section 55(a) of the 1940 Act.

See accompanying notes to the consolidated financial statements.

Notes to Consolidated Schedule of Investments:

- (A) Debt investments include investments in bank debt that generally are bought and sold among institutional investors in transactions not subject to registration under the Securities Act of 1933 (the "Securities Act"). Such transactions are generally subject to contractual restrictions, such as approval of the agent or borrower.
- (B) Non-controlled affiliate – as defined under the Investment Company Act of 1940 (the "1940 Act") (ownership of between 5% and 25% of the outstanding voting securities of this issuer). See Consolidated Schedule of Changes in Investments in Affiliates.
- (C) Non-accruing debt investment.
- (D) Other non-income producing investment.
- (E) Restricted security. (See Note 2)
- (F) Controlled issuer – as defined under the 1940 Act (ownership of 25% or more of the outstanding voting securities of this issuer). Investment is not more than 50% of the outstanding voting securities of the issuer nor deemed to be a significant subsidiary. See Consolidated Schedule of Changes in Investments in Affiliates.
- (G) Investment has been segregated to collateralize certain unfunded commitments.
- (H) Non-U.S. company or principal place of business outside the U.S. and as a result the investment is not a qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.
- (I) Deemed an investment company under Section 3(c) of the 1940 Act and as a result the investment is not a qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.
- (J) Publicly traded company with a market capitalization greater than \$250 million and as a result the investment is not a qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.
- (K) Negative balances relate to an unfunded commitment that was acquired and/or valued at a discount.
- (L) In addition to the stated coupon, investment has an exit fee payable upon repayment of the loan in an amount equal to the percentage of the original principal amount shown.
- (M) All cash and investments, except those referenced in Note G above, are pledged as collateral under certain debt as described in Note 4 to the Consolidated Financial Statements.
- (N) Inputs in the valuation of this investment included certain unobservable inputs that were significant to the valuation as a whole.
- (O) Investment denominated in foreign currency. Amortized cost and fair value converted from foreign currency to U.S. dollars. Foreign currency denominated investments are generally hedged for currency exposure.

LIBOR/SOFR, EURIBOR or CORRA resets monthly (M), quarterly (Q), semiannually (S), or annually (A).

Aggregate acquisitions and aggregate dispositions of investments, other than government securities, totaled \$276,107,311 and \$352,700,346, respectively, for the year ended December 31, 2025. Aggregate acquisitions include investment assets received as payment in kind. Aggregate dispositions include principal paydowns on and maturities of debt investments. The total value of restricted securities and bank debt as of December 31, 2025 was \$1,527,681,215 or 95.8% of total cash and investments of the Company. As of December 31, 2025, approximately 17.0% of the total assets of the Company were not qualifying assets under Section 55(a) of the 1940 Act.

See accompanying notes to the consolidated financial statements.

1. Organization and Nature of Operations

BlackRock TCP Capital Corp. (the “Company”), formerly known as TCP Capital Corp., is a Delaware corporation formed on April 2, 2012 as an externally managed, closed-end, non-diversified management investment company. The Company elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). The Company’s investment objective is to achieve high total returns through current income and capital appreciation, with an emphasis on principal protection. The Company invests primarily in the debt of middle-market companies as well as small businesses, including senior secured loans, junior loans, mezzanine debt and bonds. Such investments may include an equity component, and, to a lesser extent, the Company may make equity investments directly. The Company was formed through the conversion on April 2, 2012 of the Company’s predecessor, Special Value Continuation Fund, LLC, from a limited liability company to a corporation in a non-taxable transaction, leaving the Company as the surviving entity. On April 3, 2012, the Company completed its initial public offering.

Investment operations are conducted through the Company’s wholly-owned subsidiaries, Special Value Continuation Partners LLC, a Delaware limited liability company (“SVCP”), TCPC Funding I, LLC, a Delaware limited liability company (“TCPC Funding”), TCPC Funding II, LLC, a Delaware limited liability company (“TCPC Funding II”), TCPC SBIC, LP, a Delaware limited partnership (the “SBIC”) and BCIC Merger Sub, LLC, a Delaware limited liability company and wholly-owned subsidiary of SVCP (“Merger Sub”). SVCP was organized as a limited partnership and had elected to be regulated as a BDC under the 1940 Act through July 31, 2018. On August 1, 2018, SVCP withdrew its election to be regulated as a BDC under the 1940 Act and withdrew the registration of its common limited partner interests under Section 12(g) of the Securities Exchange Act of 1934 (the “Exchange Act”) and, on August 2, 2018, terminated its general partner, Series H of SVOF/MM, LLC, and converted to a Delaware limited liability company. The SBIC was organized in June 2013, and, on April 22, 2014, received a license from the United States Small Business Administration (the “SBA”) to operate as a small business investment company under the provisions of Section 301(c) of the Small Business Investment Act of 1958. These consolidated financial statements include the accounts of the Company, SVCP (including effective from the closing (the “Closing”) of the Merger (as defined below) on March 18, 2024, the consolidated accounts of Merger Sub), TCPC Funding, TCPC Funding II and the SBIC. All significant intercompany transactions and balances have been eliminated in the consolidation.

The Company has elected to be treated as a regulated investment company (“RIC”) for U.S. federal income tax purposes. As a RIC, the Company will not be taxed on its income to the extent that it distributes such income each year and satisfies other applicable income tax requirements. All of the subsidiaries of the Company are treated as disregarded entities.

Series H of SVOF/MM, LLC serves as the administrator of the Company (the “Administrator”). The managing member of SVOF/MM is Tennenbaum Capital Partners, LLC (the “Advisor”), which serves as the investment manager to the Company, TCPC Funding, TCPC Funding II, Merger Sub and the SBIC. On August 1, 2018, the Advisor merged with and into a wholly owned subsidiary of BlackRock Capital Investment Advisors, LLC, an indirect subsidiary of BlackRock, Inc., with the Advisor as the surviving entity.

Company management consists of the Advisor and the Company’s Board of Directors (the “Board of Directors”). The Advisor directs and executes the day-to-day operations of the Company, subject to oversight from the Board of Directors, which sets the broad policies of the Company. The Board of Directors of the Company has delegated investment management of SVCP’s assets to the Advisor. The Board of Directors consists of six persons, five of whom are independent.

On March 18, 2024, the Company completed its previously announced acquisition of BlackRock Capital Investment Corporation, a Delaware corporation (“BCIC”), pursuant to the Amended and Restated Agreement and Plan of Merger (the “Merger Agreement”), dated as of January 10, 2024, by and among the Company, BCIC, Merger Sub, and solely for the limited purposes set forth therein, BlackRock Capital Investment Advisors, LLC, a Delaware limited liability company and investment advisor to BCIC (“BCIA”), and the Advisor. Pursuant to the Merger Agreement, BCIC merged with and into Merger Sub, with Merger Sub continuing as the surviving company and as a subsidiary of SVCP and an indirect wholly-owned subsidiary of the Company (the “Merger”). As a result of, and as of the effective time of, the Merger, BCIC’s separate corporate existence ceased.

See “Note 12 – Merger with BlackRock Capital Investment Corporation” for further information regarding the Merger Agreement and the Merger.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). The Company is an investment company following accounting and reporting guidance in Accounting Standards Codification (“ASC”) Topic 946, *Financial Services – Investment Companies*. The Company has consolidated the results of its wholly owned subsidiaries in its consolidated financial statements in accordance with ASC Topic 946. The following is a summary of the significant accounting policies of the Company.

Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported amounts of revenues and expenses during the reporting periods presented. Although management believes these estimates and assumptions to be reasonable, actual results could differ from those estimates and such differences could be material.

Investment Valuation

Pursuant to Rule 2a-5 (the “Rule”) under the 1940 Act, the Board of Directors designated the Advisor as the Company’s valuation designee (the “Valuation Designee”) to perform certain fair value functions, including performing fair value determinations and has approved policies and procedures adopted by the Advisor to seek to ensure compliance with the requirements of the Rule.

The Company’s investments are generally held by the Company’s subsidiaries. Investments are recorded at fair value in accordance with GAAP, based upon the principles and methods of valuation set forth in the policies adopted by the Valuation Designee and approved by the Board of Directors. Fair value is generally defined as the amount for which an investment would be sold in an orderly transaction between market participants at the measurement date.

All investments are valued at least quarterly based on quotations or other affirmative pricing from independent third-party sources, with the exception of investments priced directly by the Valuation Designee which in the aggregate comprise less than 5% of the assets of the Company. Investments listed on a recognized exchange or market quotation system, whether U.S. or foreign, are valued using the closing price on the date of valuation. Investments not listed on a recognized exchange or market quotation system, but for which reliable market quotations are readily available are valued using prices provided by a nationally recognized pricing service or by using quotations from broker-dealers.

Investments for which market quotations are either not readily available or are determined to be unreliable are priced at fair value using affirmative valuations performed by independent valuation services approved by the Valuation Designee or, for investments aggregating less than 5% of the total assets of the Company, using valuations determined directly by the Valuation Designee. Such valuations are determined under documented valuation policies and procedures reviewed and approved by a committee established by the Valuation Designee (the “Valuation Committee”).

Generally, to increase objectivity in valuing the investments, the Valuation Designee will utilize external measures of value, such as public markets or third-party transactions, whenever possible. The Valuation Designee’s valuation is not based on long-term work-out value, immediate liquidation value, nor incremental value for potential changes that may take place in the future. The values assigned to investments are based on available information as of the balance sheet date and do not necessarily represent amounts that might ultimately be realized, as these amounts depend on future circumstances and cannot reasonably be determined until the individual investments are actually liquidated. Such circumstances may include macroeconomic, geopolitical and other events and conditions that may significantly impact the profitability or viability of businesses in which the Company is invested, and therefore may significantly impact the return on the Company’s investments. The foregoing policies apply to all investments, including any in companies and groups of affiliated companies aggregating more than 5% of the Company’s assets.

2. Summary of Significant Accounting Policies — (continued)

Fair valuations of investments in each asset class are determined using one or more methodologies including market quotations, the market approach, income approach, or, in the case of recent investments, the cost approach, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets. Such information may include observed multiples of earnings and/or revenues at which transactions in securities of comparable companies occur, with appropriate adjustments for differences in company size, operations or other factors affecting comparability.

The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present value amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. The discount rates used for such analyses reflect market yields for comparable investments, considering such factors as relative credit quality, capital structure, and other factors.

In following these approaches, the types of factors that may be taken into account also include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, merger and acquisition comparables, comparable costs of capital, the principal market in which the investment trades and enterprise values, among other factors.

Investments may be categorized based on the types of inputs used in valuing such investments. The level in the GAAP valuation hierarchy in which an investment falls is based on the lowest level input that is significant to the valuation of the investment in its entirety. Transfers between levels are recognized as of the beginning of the reporting period.

At March 31, 2026, the Company's investments were categorized as follows:

- (1) Weighted by fair value.
- (2) Fair value was determined using an asset approach and is based on the remaining cash held, net of all liabilities.
- (3) Fair value was determined using the transaction price to acquire the position. There has been no change to the valuation based on the underlying assumptions used at the closing of such transaction.

Certain fair value measurements may employ more than one valuation technique, with each valuation technique receiving a relative weight between 0% and 100%. Generally, a change in an unobservable input may result in a change to the value of an investment as follows:

Input	Impact to Value if Input Increases	Impact to Value if Input Decreases
Discount rate	Decrease	Increase
Revenue multiples	Increase	Decrease
EBITDA multiples	Increase	Decrease
Book value multiples	Increase	Decrease
Implied volatility	Increase	Decrease
Term	Increase	Decrease
Yield	Increase	Decrease

During the three months ended March 31, 2026, four senior debt positions with an aggregate fair value of \$4.5 million transitioned from a transaction price approach to an income approach, two senior debt positions with a fair value of \$3.9 million transitioned from an expected recovery valuation model to an income approach, and three senior debt positions with a fair value of \$2.9 million transitioned from an income approach to an expected recovery valuation model. The changes in approach were driven by considerations given to the financial performance of each portfolio company.

Investment Transactions

Investment transactions are recorded on the trade date, except for private transactions that have conditions to closing, which are recorded on the closing date. The cost of investments purchased is based upon the purchase price plus those professional fees which are specifically identifiable to the investment transaction. Realized gains and losses on investments are recorded based on the specific identification method, which typically allocates the highest cost inventory to the basis of investments sold.

Cash and Cash Equivalents

Cash consists of amounts held in accounts with the custodian bank. Cash equivalents consist of highly liquid investments with an original maturity of generally 60 days or less and may not be insured by the FDIC or may exceed federally insured limits. Cash equivalents are classified as Level 1 in the GAAP valuation hierarchy. At March 31, 2026, included in cash and cash equivalents was \$6.6 million (1.2% of net assets) held in the JPMorgan U.S. Government Money Market Fund with a 7-day yield of 3.55% and \$42.5 million (7.5% of net assets) held in the Allspring Government Money Market Fund with a 7-day yield of 3.54%. At December 31, 2025, included in cash and cash equivalents was \$3.8 million (0.6% of net assets) held in the JPMorgan U.S. Government Money Market Fund with a 7-day yield of 3.66% and \$47.6 million (8.0% of net assets) held in the Allspring Government Money Market Fund with a 7-day yield of 3.65%. There was no restricted cash at March 31, 2026 and December 31, 2025.

Restricted Investments

The Company may invest without limitation in instruments that are subject to legal or contractual restrictions on resale. These instruments generally may be resold to institutional investors in transactions exempt from registration or to the public if the securities are registered. Disposal of these investments may involve time-consuming negotiations and additional expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted investments is included at the end of the Consolidated Schedule of Investments. Restricted investments, including any restricted investments in affiliates, are valued in accordance with the investment valuation policies discussed above.

Foreign Currency Investments

The Company may invest in instruments traded in foreign countries and denominated in foreign currencies. Foreign currency denominated investments comprised approximately 0.5% and 0.4% of total investments at March 31, 2026 and December 31, 2025, respectively. Such positions were converted at the respective closing foreign exchange rates in effect at March 31, 2026 and December 31, 2025 and reported in U.S. dollars. Purchases and sales of investments and income and expense items denominated in foreign currencies, when they occur, are translated into U.S. dollars based on the foreign exchange rates in effect on the respective dates of such transactions. The portion of gains and losses on foreign investments resulting from fluctuations in foreign currencies is included in net realized and unrealized gain or loss from investments.

Investments in foreign companies and securities of foreign governments may involve special risks and considerations not typically associated with investing in U.S. companies and securities of the U.S. government. These risks include, among other things, revaluation of currencies, less reliable information about issuers, different transaction clearance and settlement practices, and potential future adverse political and economic developments. Moreover, investments in foreign companies and securities of foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the U.S. government.

Derivatives

In order to mitigate certain currency exchange and interest rate risks, the Company may enter into certain derivative transactions. All derivatives are subject to a master netting agreement and are reported at their gross amounts as either assets or liabilities in the Consolidated Statements of Assets and Liabilities. Transactions entered into are accounted for using the mark-to-market method with the resulting change in fair value recognized in earnings for the current period. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in interest rates and the value of foreign currencies relative to the U.S. dollar. Certain derivatives may also require the Company to pledge assets as collateral to secure its obligations.

Valuations of derivatives are determined using observable market inputs other than quoted prices in active markets for identical assets and, accordingly, are generally classified as Level 2 in the GAAP valuation hierarchy.

Merger Sub entered into a centrally-cleared interest rate swap (the “Interest Rate Swap”) to economically hedge the interest payable on the fixed rate tranche of Merger Sub’s 2025 Notes (as defined below) (see Note 4). The notional amount of the Interest Rate Swap is \$35.0 million. Under the swap agreement, Merger Sub received a fixed interest rate of 2.633% and paid a floating interest rate of SOFR with payments due annually. The Interest Rate Swap matured on June 9, 2025.

Pursuant to the contract, Merger Sub was required to deposit initial margin with the broker in the form of cash and has agreed to receive from or pay to the broker daily variation margin. The amounts related to the right to claim or the obligation to return cash collateral may not be used to offset amounts due under the Interest Rate Swap contract in the normal course of settlement. Both the initial margin and variation margin paid were included as assets within “Due from broker” on the Consolidated Statement of Assets and Liabilities prior to the maturity of the swap on June 9, 2025.

Since the swap contract has not been designated as a hedge accounting relationship pursuant to ASC 815, *Derivatives and Hedging*, changes in the fair value of the swap contract, net of any periodic interest accruals, were presented as part of change in unrealized appreciation (depreciation) on the Consolidated Statement of Operations.

Interest rate swap agreements are valued utilizing quotes received from independent pricing services or through brokers, which are derived using daily swap curves and models that incorporate a number of market data factors, such as discounted cash flows, trades and values of the underlying reference instruments. The fair value of the Interest Rate Swap is classified as Level 2 with respect to the fair value hierarchy.

During the three months ended March 31, 2026 and 2025, the Company did not enter into any additional derivative transactions.

Valuations of derivatives are determined using observable market inputs other than quoted prices in active markets for identical assets and, accordingly, are generally classified as Level 2 in the GAAP valuation hierarchy.

Deferred Debt Issuance Costs

Certain costs incurred in connection with the issuance and/or extension of debt of the Company and its subsidiaries were capitalized and are being amortized on a straight-line basis over the estimated life of the respective instruments. The impact of utilizing the straight-line amortization method versus the effective-interest method is not material to the operations of the Company.

Revenue Recognition

Interest and dividend income, including income paid in kind, is recorded on an accrual basis, when such amounts are considered collectible. Origination, structuring, closing, commitment and other upfront fees, including original issue discounts, earned with respect to capital commitments are generally amortized or accreted into interest income over the life of the respective debt investment, as are end-of-term or exit fees receivable upon repayment of a debt investment. Other fees, including certain amendment fees, prepayment fees and commitment fees on broken deals, are recognized as earned. Prepayment fees and similar income due upon the early repayment of a loan or debt security are recognized when earned and are included in interest income.

Certain debt investments are purchased at a discount to par as a result of the underlying credit risks and financial results of the issuer, as well as general market factors that influence the financial markets as a whole. Discounts on the acquisition of corporate bonds are generally amortized using the effective-interest or constant-yield method assuming there are no questions as to collectability. When principal payments on a loan are received in an amount in excess of the loan’s amortized cost, the excess principal payments are recorded as interest income.

Debt investments are generally placed on non-accrual status when it is probable that principal or interest will not be collected according to the contractual terms. When a debt investment is placed on non-accrual status, accrued and unpaid interest (including any accrued payment-in-kind (“PIK”) interest) is generally reversed, and discount accretion or premium amortization is discontinued. The Company does not reverse previously capitalized PIK income. Payments received on non-accrual investments may either be

recognized as income or applied to principal depending upon the Company's judgment regarding collectability of the outstanding principal and interest. Non-accrual investments are restored to accrual status if past due principal and interest are paid or, in the Company's judgment, the repayment of the remaining contractual principal and interest is expected. The Company may opt not to place a distressed debt investment on non-accrual status if principal and interest are secured through sufficient collateral value and are in the process of collection through legal actions or other efforts that are expected to result in repayment of principal and interest.

Significant Subsidiaries

In accordance with Rules 3-09 and 4-08(g) of Regulation S-X ("Rule 3-09" and "Rule 4-08(g)," respectively), the Company must determine which of its unconsolidated controlled portfolio companies are considered "significant subsidiaries," if any. In evaluating these investments, Rule 1-02(w)(2) of Regulation S-X stipulates two tests to be utilized by a BDC to determine if any of its controlled investments are considered significant subsidiaries for financial reporting purposes: the investment test and the income test. Rule 3-09 requires separate audited financial statements of an unconsolidated majority owned subsidiary in an annual report if any of the tests exceed the thresholds noted in Rule 1-02(w)(2), whereas Rule 4-08(g) only requires summarized financial information in an annual/quarterly report if the thresholds are exceeded. No controlled investments were considered significant subsidiaries as of March 31, 2026 and December 31, 2025.

Income Taxes

The Company intends to comply with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to RICs, and to distribute substantially all of its taxable income to its shareholders. Therefore, no U.S. federal income tax provision is required. The income or loss of SVCP (including effective from the Closing, the consolidated income or loss of Merger Sub), TCPC Funding, TCPC Funding II and the SBIC is reported in the respective members' or partners' income tax returns, as applicable. In accordance with ASC Topic 740 - Income Taxes, the Company recognizes in its consolidated financial statements the effect of a tax position when it is determined that such position is more likely than not, based on the technical merits, to be sustained upon examination. The tax returns of the Company, SVCP, TCPC Funding, TCPC Funding II and the SBIC remain open for examination by tax authorities for a period of three years from the date they are filed. No such examinations are currently pending. Management has analyzed tax laws and regulations and their application to the Company as of March 31, 2026, inclusive of the open tax return years, and does not believe that there are any uncertain tax positions that require recognition of a tax liability in the consolidated financial statements.

The final tax characterization of distributions is determined after the fiscal year and is reported on Form 1099 and in the Company's annual report to shareholders. Distributions can be characterized as ordinary income, capital gains and/or return of capital. As of December 31, 2025, the Company had non-expiring capital loss carryforwards in the amount of \$825,454,996 available to offset future realized capital gains.

As of December 31, 2025, gross unrealized appreciation and depreciation for investments and derivatives based on cost for U.S. federal income tax purposes were as follows:

	December 31, 2025
Tax Cost	\$ 1,860,387,305
Gross Unrealized Appreciation	\$ 116,913,526
Gross Unrealized Depreciation	(443,998,359)
Net Unrealized Appreciation (Depreciation)	<u>\$ (327,084,833)</u>

On March 18, 2024, the Company completed its previously announced Merger with BCIC. Pursuant to the Merger Agreement, BCIC was merged with and into Merger Sub, with Merger Sub continuing as the surviving company and as a subsidiary of SVCP. The Merger was considered a tax-free reorganization and the Company has elected to carry forward the historical cost basis of the acquired BCIC investments for tax purposes. As a result of the Merger, BCIC's separate existence ceased.

Recent Accounting Pronouncements

The Company considers the applicability and impact of all accounting standard updates (“ASU”) issued by the Financial Accounting Standards Board (the “FASB”). ASUs not listed were assessed by the Company and either determined to be not applicable or expected to have minimal impact on its consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (“ASU 2023-09”), which intends to improve the transparency of income tax disclosures. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024 and permits early adoption. The Company adopted the ASU 2023-09 for the annual reporting period beginning on January 1, 2025 and concluded that the application of this guidance did not have any material impact on its consolidated financial statements.

In November 2024, the FASB issued ASU 2024-03, “Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 2200-40),” which requires disaggregated disclosure of certain costs and expenses, including purchases of inventory, employee compensation, depreciation, amortization and depletion, in each relevant expense caption. ASU 2024-03 is effective for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Early adoption and retrospective application is permitted. The Company is currently assessing the impact of this guidance, however, the Company does not expect a material impact on its consolidated financial statements.

3. Management Fees, Incentive Fees and Other Expenses

On February 8, 2019, the shareholders of the Company approved an amended investment management agreement to be effective on February 9, 2019 between the Company and the Advisor which (i) reduced the base management fee on total assets (excluding cash and cash equivalents) that exceed an amount equal to 200% of the net asset value of the Company from 1.50% to 1.00%, (ii) reduced the incentive compensation on net investment income and net realized gains (reduced by any net unrealized losses) from 20% to 17.5% and (iii) reduced the cumulative total return hurdle from 8% to 7%.

Accordingly, the Company’s base management fee was calculated at an annual rate of 1.50% on total assets (excluding cash and cash equivalents) up to an amount equal to 200% of the net asset value of the Company, and 1.00% thereafter. The base management fee is calculated on a consolidated basis as of the beginning of each quarter and is payable to the Advisor quarterly in arrears.

In connection with the Merger, the Company and the Advisor entered into an amended and restated investment advisory agreement (the “Amended and Restated Investment Advisory Agreement”) that became effective at the Closing, pursuant to which the Advisor reduced its base management fee rate for managing the Company from 1.50% to 1.25% on assets equal to or below 200% of the net asset value of the Company with no change to the basis of calculation. Prior to the Closing, the Advisor’s base management fee rate for managing the Company was 1.50% on assets equal to or below 200% of the net asset value of the Company. The base management fee rate on assets that exceed 200% of the net asset value of the Company remains 1.00%. The base management fee is calculated on a consolidated basis as of the beginning of each quarter and is payable to the Advisor quarterly in arrears. On February 24, 2025, the Advisor voluntarily agreed to waive one third of its management fee for each of the first three quarters of 2025, starting on January 1, 2025 and ending on September 30, 2025. On January 22, 2026, the Advisor approved a one-time waiver to waive one third of its management fee for the fourth quarter of 2025. For the year ended December 31, 2025, the Advisor waived \$7.3 million in management fees.

In connection with the Merger, the Company also entered into a fee waiver agreement with the Advisor (the “Fee Waiver Agreement”). The Fee Waiver Agreement provides that the Advisor will waive all or a portion of its advisory fees to the extent the adjusted net investment income of the Company on a per share basis (determined by dividing the adjusted net investment income of the Company by the weighted average outstanding shares of the Company during the relevant quarter) is less than \$0.32 per share in any of the first four (4) fiscal quarters ending after the Closing (the first of which will be the quarter in which the Closing occurred) to the extent there are sufficient advisory fees to cover such deficit (the waiver amount in a given quarter cannot exceed the total advisory fees for such quarter). No advisory fee waiver was required for the four (4) fiscal quarters following the Closing pursuant to the Fee Waiver Agreement. The Fee Waiver Agreement is not applicable to the periods after December 31, 2024.

3. Management Fees, Incentive Fees and Other Expenses — (continued)

Incentive compensation is only incurred to the extent the Company's cumulative total return (after incentive compensation) exceeds a 7% annual rate on daily weighted-average contributed common equity. Subject to that limitation, incentive compensation is calculated on ordinary income (before incentive compensation) and net realized gains (net of any unrealized depreciation) at rates of 17.5% on income since the fee reduction on February 8, 2019 and 20% previously. Incentive compensation is computed as the difference between incentive compensation earned and incentive compensation paid, subject to the total return hurdle, on a cumulative basis since January 1, 2013, and is payable quarterly in arrears. As of March 31, 2026, the Company's cumulative total return did not exceed the total return hurdle and, as a result, no incentive compensation was accrued for the three months ended March 31, 2026.

In connection with the Merger, the Company and the Advisor agreed that, for the purposes of calculating adjusted net investment income and for purposes of incentive fee calculations under the Amended and Restated Investment Advisory Agreement, any amortization of original issue discount to interest income or any gains and losses resulting solely from accounting adjustments to the cost basis of the BCIC assets acquired in the Merger as required under applicable accounting guidance under ASC 805 will be excluded.

A reserve for incentive compensation is accrued based on the amount of any additional incentive compensation that would have been payable to the Advisor assuming a hypothetical liquidation of the Company at net asset value on the balance sheet date. As of March 31, 2026 and December 31, 2025, no such reserve was accrued.

The Company bears all expenses incurred in connection with its business, including fees and expenses of outside contracted services, such as custodian, administrative, legal, audit and tax preparation fees, costs of valuing investments, insurance costs, brokers' and finders' fees relating to investments, and any other transaction costs associated with the purchase and sale of investments.

4. Debt

Debt is comprised of unsecured notes due May 2029 issued by the Company (the "2029 Notes"), amounts outstanding under a senior secured revolving, multi-currency credit facility entered into by SVCP (the "Operating Facility"), amounts outstanding under a senior secured revolving credit facility entered into by TCPC Funding II ("Funding Facility II"), amounts outstanding under a senior secured revolving credit facility originally entered into by BCIC and assumed by Merger Sub ("Merger Sub Facility"), and debentures guaranteed by the SBA (the "SBA Debentures"). Prior to being repaid, debt included \$325.0 million in unsecured notes due February 2026 (the "2026 Notes") which were repaid on February 9, 2026 and \$92.0 million in unsecured notes which were due December 2025 originally issued by BCIC and assumed by Merger Sub (the "2025 Notes") which were repaid on July 31, 2025.

respectively. The estimated fair values of the Operating Facility, Funding Facility II and the SBA Debentures were determined by discounting projected remaining payments using market interest rates for borrowings of the Company and entities with similar credit risks at the measurement date. The estimated fair value of the Merger Sub Facility was derived by taking the average of the high and low quotes as obtained from a broker. The estimated fair values of the 2026 Notes and 2029 Notes were determined using market quotations. The estimated fair values of the Operating Facility, Funding Facility II, Merger Sub Facility, 2026 Notes, 2029 Notes and SBA Debentures as prepared for disclosure purposes were deemed to be Level 3 in the GAAP valuation hierarchy.

Unsecured Notes

On August 23, 2019, the Company issued \$150.0 million of unsecured notes. On November 26, 2019, the Company issued an additional \$50.0 million of the 2024 Notes and on October 2, 2020, the Company issued an additional \$50.0 million of the 2024 Notes for a total outstanding aggregate principal amount of \$250.0 million. The 2024 Notes were issued at a discount to the principal amount and bore interest at an annual rate of 3.900%, payable semi-annually. On August 23, 2024, the 2024 Notes matured and all principal was repaid.

On February 9, 2021, the Company issued \$175.0 million of unsecured notes that mature on February 9, 2026, unless previously repurchased or redeemed in accordance with their terms. The 2026 Notes were issued at a discount to the principal amount. On August 27, 2021, the Company issued an additional \$150.0 million of the 2026 Notes, at a premium to par, for a total outstanding aggregate principal amount of \$325.0 million. The 2026 Notes bore interest at an annual rate of 2.850%, payable semi-annually, and all principal was due upon maturity. The 2026 Notes were redeemable in whole or part at the Company's option at a redemption price equal to par plus a "make whole" premium, as determined pursuant to the indenture governing the 2026 Notes, and any accrued and unpaid interest. On February 9, 2026, the 2026 Notes matured and the Company repaid \$325.0 million of principal amount at par plus the accrued and unpaid interest.

On March 18, 2024, Merger Sub entered into an assumption agreement (the "Note Assumption Agreement"), effective as of the Closing. The Note Assumption Agreement related to Merger Sub's assumption of (a) \$35.0 million aggregate principal amount of BCIC's 6.85% Series 2022A Senior Notes, Tranche A, due December 9, 2025 (the "Tranche A Notes") and (b) \$57.0 million aggregate principal amount of BCIC's Floating Rate Series 2022A Senior Notes, Tranche B due December 9, 2025 (the "Tranche B Notes" and, collectively with the Tranche A Notes, the "2025 Notes") and other obligations of BCIC under the Master Note Purchase Agreement, dated as of April 21, 2022 (as amended by the First Amendment to the Master Note Purchase Agreement, dated as of March 13, 2024 (the "First Amendment"), and as further amended, supplemented or otherwise modified from time to time, the "Note Purchase Agreement"), among BCIC and certain institutional investors.

Pursuant to the Note Assumption Agreement, Merger Sub expressly assumed on behalf of BCIC the due and punctual payment of the principal of (and premium, if any) and interest on all the 2025 Notes outstanding, and the due and punctual performance and observance of every covenant and every condition of the Note Purchase Agreement and the 2025 Notes, to be performed or observed by BCIC.

The Tranche A Notes bore interest at a fixed rate equal to 6.85% per annum (which was increased from 5.82% per annum effective as of the Closing) that was payable semi-annually. The Tranche B Notes bore interest at a rate equal to the SOFR plus 3.14% that was payable quarterly. The 2025 Notes were due on December 9, 2025 unless redeemed, purchased or prepaid prior to such date by Merger Sub or its affiliates in accordance with their terms. Merger Sub could prepay the 2025 Notes at its option, subject to a prepayment premium, in an amount equal to 1% on or before June 9, 2024, 0.5% after June 9, 2024 but on or before June 9, 2025 and zero after June 9, 2025. In addition, Merger Sub would be obligated to offer to repay the 2025 Notes at par if certain change in control events occur.

On July 21, 2025, the Company caused notices to be issued to the holders of the 2025 Notes regarding the Company's exercise of its option to prepay \$35.0 million in aggregate principal amount of issued and outstanding Tranche A Notes and \$57.0 million in aggregate principal amount of issued and outstanding Tranche B Notes, which represent the entire amount of the 2025 Notes outstanding, pursuant to the terms of the Note Assumption Agreement. The Company prepaid all \$35.0 million in aggregate principal amount of the Tranche A Notes and \$57.0 million in aggregate principal amount of the Tranche B Notes on July 31, 2025, at 100% of their principal amount, plus the accrued and unpaid interest thereon in accordance with the terms of the Note Assumption Agreement.

Operating Facility

The Operating Facility consists of a revolving, multi-currency credit facility which provides for amounts to be drawn up to \$300.0 million, subject to certain collateral and other restrictions. The Operating Facility includes a \$100.0 million accordion feature which allows for expansion of the facility to up to \$400.0 million subject to consent from the lender and other customary conditions.

Most of the cash and investments held directly by SVCP, as well as the assets of TCPC Funding and 36th Street Capital Partners Holdings, LLC, are included in the collateral for the facility.

On June 22, 2021, the Operating Facility was amended to (i) extend the maturity date by two years from May 6, 2024 to May 6, 2026, (ii) change the interest rate applicable to borrowings to (a) LIBOR plus an applicable margin equal to either 1.75% or 2.00%, or (b) in the case of ABR borrowings, generally the prime rate in effect plus an applicable margin of either 0.75% or 1.00% depending on a ratio of the borrowing base to the facility commitments in both cases, and (iii) reduce commitment fees on the undrawn portion of the Operating Facility above the minimum utilization amount from 0.50% per annum to 0.375% per annum. Undrawn portions of the Operating Facility below the minimum utilization amount continued to accrue commitment fees at a rate of 0.50% per annum until March 1, 2022, the date on which the March 2022 Convertible Notes were terminated in full, after which time they accrue at a rate of 2.00% per annum.

On June 15, 2023, the Operating Facility was amended to update the terms of the interest rate from LIBOR to SOFR plus a credit spread adjustment of 0.11%, plus a margin equal to either 1.75% or 2.00%, depending on a ratio of the borrowing base to the facility commitments.

On August 1, 2024, the Operating Facility was amended to (i) extend the expiration date of the Operating Facility and the maturity date with respect to loans made thereunder from May 6, 2025 and May 6, 2026 to August 1, 2028 and August 1, 2029, respectively, (ii) delete references to the 2022 Notes, (iii) remove certain borrowing base restrictions, (iv) lower the SOFR credit spread adjustment to 0.10% for one month contracts and 0.15% for three month contracts, respectively, (v) update the minimum amount of stockholder's equity figure, (vi) update the "change in control" provisions to account for personnel changes and structuring variations and (vii) update certain mechanical/administrative provisions, including provisions for replacing CDOR and other reference

rates. The Operating Facility may be terminated, and any outstanding amounts there under may become due and payable, should SVCP fail to satisfy certain financial or other covenants. As of March 31, 2026, SVCP was in full compliance with such covenants.

Funding Facility II

Funding Facility II is a senior secured revolving credit facility which provides for amounts to be drawn up to \$200.0 million, subject to certain collateral and other restrictions. The facility contains an accordion feature which allows for expansion of the facility to up to \$250.0 million subject to consent from the lender and other customary conditions. The cash and investments of TCPC Funding II are included in the collateral for the facility.

Borrowings under Funding Facility II bore interest at a rate of LIBOR plus 2.00% per annum, subject to certain funding requirements, plus a 0.35% fee on drawn amounts and an agency fee of 0.15% per annum on the facility. The facility also accrued commitment fees of 0.35% per annum on the unused portion of the facility.

Since February 28, 2023, borrowings under Funding Facility II bore interest at a rate of SOFR plus a credit spread adjustment of 0.15%, plus a margin of 2.00% per annum, which is subject to increase after the end of the revolving period or under other customary circumstances. The facility also accrues a 0.35% fee on drawn amounts and an agency fee of 0.15% per annum on the facility. The facility also accrues commitment fees of 0.35% per annum on the unused portion of the facility.

On August 4, 2023, the Funding Facility II was amended to extend the maturity date from August 4, 2025 to August 4, 2027, and updated interest to a rate of SOFR plus a credit spread adjustment of 0.15%, plus a margin of 2.05%. The facility may be terminated, and any outstanding amounts thereunder may become due and payable, should TCPC Funding II fail to satisfy certain financial or other covenants. On July 31, 2025, the Funding Facility II was amended to extend the revolving period from August 4, 2025 to July 31, 2027 and the stated maturity date from August 4, 2027 to July 31, 2029 and updated interest to a rate of SOFR plus a margin of 2.00%.

As of March 31, 2026, TCPC Funding II was in full compliance with such covenants.

Merger Sub Facility

On March 18, 2024, Merger Sub entered into an assumption agreement (the "Credit Assumption Agreement"), effective as of the Closing. The Credit Assumption Agreement relates to Merger Sub's assumption of that certain Second Amended and Restated Senior Secured Revolving Credit Agreement, originally entered into on February 19, 2016, as amended as of August 8, 2016, June 5, 2017, March 15, 2018, August 30, 2019, May 22, 2020, April 23, 2021, April 26, 2023 and September 6, 2023 (as further amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Merger Sub Facility"), by and among BCIC (the "Initial Borrower"), Citibank, N.A., as administrative agent and the other parties thereto. The Merger Sub Facility provides for amounts to be drawn up to \$265.0 million, by which Merger Sub may seek an increase in the commitments to \$325.0 million in the aggregate (subject to satisfaction of certain conditions, including obtaining commitments). The Merger Sub Facility matures on September 6, 2028. Amounts outstanding under the Merger Sub Facility bear interest at a rate based on, at Merger Sub's election, (i) in the case of ABR loans, a base reference rate equal to the highest of (a) the federal funds effective rate plus 0.50%, (b) the "Prime Rate" in effect on such day and (c) the adjusted term SOFR rate plus 1.00%, plus a margin ranging from 0.75% to 1.00% per annum, in the case of ABR loans, and 1.75% to 2.00% per annum, in the case of eurocurrency loans or SOFR loans, (ii) in the case of eurocurrency loans, a rate per annum equal to the adjusted CDOR rate or the adjusted EURIBOR rate, for loans denominated in Canadian dollars or in euros, respectively, plus, in either case, the Applicable Margin (as defined in the Merger Sub Facility) or (iii) in the case of SOFR loans, a rate per annum equal to the adjusted term SOFR rate plus the Applicable Margin. The Merger Sub Facility is secured by all of the assets held by Merger Sub as successor to BCIC.

SBA Debentures

As of March 31, 2026, the SBIC is able to issue up to \$107.2 million in SBA Debentures, subject to funded regulatory capital and other customary regulatory requirements. As of March 31, 2026, SVCP had committed \$87.5 million of regulatory capital to the SBIC, all of which had been funded. SBA Debentures are non-recourse and may be prepaid at any time without penalty. Once drawn, the SBIC debentures bear an interim interest rate of SOFR plus 30 basis points. The rate then becomes fixed at the time of SBA pooling, which occurs twice each year, and is set to the then-current 10-year treasury rate plus a spread and an annual SBA charge.

SBA Debentures outstanding as of March 31, 2026 were as follows:

5. Commitments, Contingencies, Concentration of Credit Risk and Off-Balance Sheet Risk

SVCP, TCPC Funding, TCPC Funding II, Merger Sub and the SBIC conduct business with brokers and dealers that are primarily headquartered in New York and Los Angeles and are members of the major securities exchanges. Banking activities are conducted with a firm headquartered in the San Francisco area and in New York.

In the normal course of business, investment activities involve executions, settlement and financing of various transactions resulting in receivables from, and payables to, brokers, dealers and the custodian. These activities may expose the Company to risk in the event that such parties are unable to fulfill contractual obligations. Management does not anticipate any material losses from counterparties with whom it conducts business. Consistent with standard business practice, the Company, SVCP, TCPC Funding, TCPC Funding II, Merger Sub and the SBIC enter into contracts that contain a variety of indemnifications, and are engaged from time to time in various legal actions. The maximum exposure under these arrangements and activities is unknown. However, management expects the risk of material loss to be remote.

The Consolidated Schedules of Investments include certain revolving loan facilities and other commitments with unfunded balances at March 31, 2026 and December 31, 2025 as follows:

From time to time, the Company and the Advisor may be parties to certain legal proceedings incidental to the normal course of our business, including with respect to our investments in our portfolio companies. On September 13, 2023, the Company was named as a defendant, together with the Advisor and certain other funds managed by the Advisor, as well as certain other defendants, in a lawsuit filed in the United States Bankruptcy Court for the Southern District of New York. The suit relates to a third-party sponsored collateralized loan obligation in which the Company and certain other defendants invested. The suit alleges that the Company and the other defendants knew or should have known of certain fraudulent activities of the third-party manager relating to its management of the collateralized loan obligation that caused the plaintiffs to suffer investment losses. The suit seeks to recover from the Company approximately \$15.1 million, plus interest, additional amounts from the other defendants, and attorneys' fees and costs from all defendants. The Company, the affiliated funds and the Advisor intend to vigorously defend against these claims. On November 6, 2023, the Company, the affiliated funds, and the Advisor, and certain other defendants filed motions to dismiss the lawsuit, which was fully briefed on February 12, 2024 and was argued in court on March 6, 2024. On November 8, 2024, the court issued a decision, granting in part and denying in part the motion to dismiss. As a result, on December 6, 2024, the plaintiffs filed an amended complaint containing substantially similar allegations but without the claims dismissed by the court. On January 23, 2025, the Company, the Advisor and the funds managed by it, along with other defendants, filed a motion to dismiss one of the counts in the amended complaint, which was granted on September 11, 2025. As of the date of this report, the Company and the Advisor cannot predict with a reasonable degree of certainty the likelihood of an unfavorable outcome, including any potential losses that could result.

On February 3, 2026, a putative securities class action lawsuit was filed in the United States District Court for the Central District of California, captioned *Burnell v. BlackRock TCP Capital Corp., et al.*, Case No. 2:26-cv-01102. The complaint names the Company and certain of its current and former executive officers as defendants. The complaint purports to be brought on behalf of a class of persons who purchased or otherwise acquired the Company's securities between November 6, 2024 and January 23, 2026, and alleges violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder, based on alleged materially false and misleading statements and/or omissions concerning the Company's business, operations and financial condition. The plaintiff seeks unspecified compensatory damages, interest, attorneys' fees and costs, and other relief. The Company believes the claims are without merit and intends to defend the action vigorously. The litigation is in its early stages, and at this time the Company cannot reasonably estimate the possible loss or range of loss, if any, that may result from this matter.

On February 24, 2026, a purported shareholder derivative action was filed in the United States District Court for the Central District of California, captioned *Terwilliger, derivatively on behalf of BlackRock TCP Capital Corp. v. Rajneesh Vig, et al.*, Case No. 2:26-cv-01968. The defendants are certain current and former officers and directors of the Company. The Company is named as a nominal defendant. The complaint asserts claims on behalf of the Company for alleged breaches of fiduciary duty, unjust enrichment, abuse of control, gross mismanagement, and waste of corporate assets arising out of alleged wrongdoing by the defendants between November 6, 2024 and January 23, 2026, including allegedly making or causing the Company to make materially false and misleading statements and omissions regarding the Company's business, operations, and prospects. The plaintiff seeks unspecified damages on behalf of the Company, corporate governance reforms, restitution, attorneys' fees and costs, and such other relief as the court may deem just and proper. The litigation is in its early stages, and at this time the Company cannot reasonably estimate the possible loss or range of loss, if any, that may result from this matter.

On April 14, 2026, a putative class action complaint was filed in the Commonwealth of Massachusetts Superior Court, Middlesex County, captioned *Curran, Comegna, Jones, and Inoa, on behalf of themselves and all others similarly situated v. BlackRock TCP Capital Corp., et al.* The complaint names the Company, a BlackRock portfolio manager, and John Does 1-5 as defendants. The complaint purports to be brought on behalf of a class of all individuals who worked for Newpro Operating, LLC

(“Newpro”), a subsidiary of portfolio company Renovo Home Partners, LLC (“Renovo”), as of October 2025, when Newpro ceased operations and Renovo subsequently filed for chapter 7 bankruptcy. The complaint alleges that the defendants violated the Massachusetts Wage Act, M.G.L. c. 149, § 148, by failing to pay (1) their final wages, (2) amounts withheld from employees’ pay in so-called “forget me accounts” for that year, and (3) accrued paid vacation days upon their involuntary termination on or about October 28, 2025. The complaint alleges that the Company controlled, directed, or participated to a substantial degree in formulating and determining the policy of Newpro, including the decision to terminate Newpro’s employees without paying their earned but unpaid wages, and is therefore jointly and severally liable under Massachusetts law. The plaintiffs seek treble damages, interest, and attorneys’ fees and costs. The Company believes the claims are without merit and intends to defend the action vigorously. The litigation is in its early stages, and at this time the Company cannot reasonably estimate the possible loss or range of loss, if any, that may result from this matter.

6. Other Related Party Transactions

The Company, SVCP, TCPC Funding, TCPC Funding II, the SBIC, Merger Sub, the Advisor and their members and affiliates may be considered related parties. From time to time, SVCP advances payments to third parties on behalf of the Company which are reimbursable through deductions from distributions to the Company. At March 31, 2026 and December 31, 2025, no such amounts were outstanding. From time to time, the Advisor advances payments to third parties on behalf of the Company and SVCP and receives reimbursement from the Company. At March 31, 2026 and December 31, 2025, amounts reimbursable to the Advisor totaled \$1.6 million and \$1.3 million, respectively, as reflected in the Consolidated Statements of Assets and Liabilities.

Pursuant to an administration agreement between the Administrator and the Company (the “Administration Agreement”), the Administrator may be reimbursed for costs and expenses incurred by the Administrator for office space rental, office equipment and utilities allocable to the Company, as well as costs and expenses incurred by the Administrator or its affiliates relating to any administrative, operating, or other non-investment advisory services provided by the Administrator or its affiliates to the Company. For the three months ended March 31, 2026 and 2025, expenses allocated pursuant to the Administration Agreement totaled \$0.5 million and \$0.6 million, respectively.

7. Stockholders’ Equity and Dividends

In accordance with the terms of the Merger Agreement, at the Closing, each outstanding share of BCIC’s common stock was converted into the right to receive 0.3834 shares (the “Exchange Ratio”) of common stock, par value \$0.001 per share of the Company (with BCIC shareholders receiving cash in lieu of fractional shares of the Company’s common stock). As a result of the Merger, the Company issued 27,823,870 shares of its common stock on March 18, 2024 to former BCIC shareholders, after adjustment for BCIC shareholders receiving cash in lieu of fractional shares.

The Company’s dividends are recorded on the ex-dividend date. The following table summarizes the Company’s dividends declared and paid for the three months ended March 31, 2026:

Date Declared	Record Date	Payment Date	Type	Amount Per Share	Total Amount	Reinvested Amount⁽¹⁾

(1) Dividends reinvested through purchase of shares in the open market.

In addition, the Company paid \$7,257,191 of dividends payable assumed in the Merger that were declared on March 4, 2024 by the BCIC Board of Directors for the benefit of former BCIC shareholders of record as of March 15, 2024. Such amount was paid from BCIC cash and cash equivalents acquired by the Company in the Merger.

Dividend Reinvestment Plan

On February 27, 2024, the Board of Directors approved a new dividend reinvestment plan (the "DRIP") for the Company. The DRIP was effective as of, and will apply to the reinvestment of cash distributions with a record date after March 18, 2024. Under the DRIP, shareholders will automatically receive cash dividends and distributions unless they "opt in" to the DRIP and elect to have their dividends and distributions reinvested in additional shares of the Company's common stock. Notwithstanding the foregoing, the former shareholders of BCIC that participated in the BCIC dividend reinvestment plan at the time of the Merger have been automatically enrolled in the Company's DRIP and will have their shares reinvested in additional shares of the Company's common stock on future distributions, unless they "opt out" of the DRIP.

To "opt in", a shareholder shall notify Computershare Trust Company, N.A., the DRIP plan administrator (the "Plan Administrator"), in writing so that such notice is received by the Plan Administrator no later than the record date fixed by the Board of Directors for the distribution involved. The Plan Administrator will set up an account for shares acquired pursuant to the DRIP for each shareholder who has elected to participate in the DRIP (each a "Participant"). The amount of common stock to be issued to Participants pursuant to the DRIP will be calculated by reference to all shares of common stock owned by the Participant, whether held in its DRIP account or elsewhere. Common stock will be acquired by the Plan Administrator for the Participants' accounts, through either (i) the receipt from the Company of additional unissued but authorized common stock ("newly issued common stock") or (ii) the purchase of outstanding common stock in the open market ("open-market purchases").

The Plan Administrator will acquire newly issued common stock on behalf of Participants if, on the distribution payment date, the closing market price per share of the Company's common stock on the NASDAQ Global Select Market (or if no sale is reported for such day, the midpoint of the reported bid and asked prices) plus estimated per share fees (which include any applicable brokerage commissions the Plan Administrator is required to pay) (the "Market Price") is greater than the most recently published net asset value per common stock ("NAV") (such condition referred to as a "market premium"). The number of shares of newly issued common stock to be credited to a Participant's account will be determined by dividing the dollar amount of the distribution otherwise payable to the Participant by the greater of (i) the NAV or (ii) 95% of the Market Price on the distribution payment date.

Unless otherwise instructed by the Company at the direction of its Board of Directors, the Plan Administrator will acquire common stock on behalf of Participants through open-market purchases if, on the distribution payment date, the Market Price is less than the most recently published NAV (such condition referred to as a "market discount"). In the event of a market discount on the distribution payment date, the Plan Administrator will have until the last business day before the next date on which the common stock trades on an "ex-distribution" basis or 30 days after the distribution payment date, whichever is sooner (the "last purchase date"), to invest the distribution amount in common stock acquired in open-market purchases. If shares are purchased in the open market with respect to a distribution, the number of shares to be credited to a Participant's account shall be determined by dividing the dollar amount of the cash distribution otherwise payable to the Participant by the weighted average Market Price per share for all common stock purchased by the Plan Administrator in the open market. If the Plan Administrator is unable to invest the full distribution amount in open-market purchases, or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making open-market purchases and may use any uninvested portion to acquire newly issued shares. Investments in newly issued shares made in this manner would be made pursuant to the same process described above and the date of issue for such newly issued shares will substitute for the distribution payment date. If the Company instructs the Plan Administrator to purchase new shares of common stock when there is a market discount, the shares of common stock will be acquired in accordance with the same terms as outlined above when there is a market premium.

7. Stockholders' Equity and Dividends — (continued)

There will be no fees with respect to shares of common stock issued directly by the Company. However, each Participant will pay the per share fees (which include any applicable brokerage commissions the Plan Administrator is required to pay) incurred in connection with open-market purchases. If a shareholder has shares held by a broker, such shareholder should contact his/her broker to participate in the DRIP. For the three months ended March 31, 2026, approximately \$0.4 million of cash distributions were reinvested for electing Participants through purchase of shares in the open market in accordance with the terms of the DRIP.

Share Repurchase Plan

On February 24, 2015, the Company's Board of Directors approved a stock repurchase plan (the "Company Repurchase Plan") to acquire up to \$50.0 million in the aggregate of the Company's common stock at prices at certain thresholds below the Company's net asset value per share, in accordance with the guidelines specified in Rule 10b-18 and Rule 10b5-1 of the Exchange Act. The Company Repurchase Plan is designed to allow the Company to repurchase its common stock at times when it otherwise might be prevented from doing so under insider trading laws. The Company Repurchase Plan requires an agent selected by the Company to repurchase shares of common stock on the Company's behalf if and when the market price per share is at certain thresholds below the most recently reported net asset value per share. Under the plan, the agent will increase the volume of purchases made if the price of the Company's common stock declines, subject to volume restrictions. The timing and amount of any stock repurchased depends on the terms and conditions of the Company Repurchase Plan, the market price of the common stock and trading volumes, and no assurance can be given that any particular amount of common stock will be repurchased. The Company Repurchase Plan was re-approved on April 29, 2026, to be in effect through the earlier of April 30, 2027, unless further extended or terminated by the Company's Board of Directors, or such time as the approved \$50.0 million repurchase amount has been fully utilized, subject to certain conditions.

The following table summarizes the total shares repurchased and amounts paid by the Company under the Company Repurchase Plan, including broker fees, for the three months ended March 31, 2026 and 2025:

	Three Months Ended March 31,	
	2026	2025

8. Earnings Per Share

In accordance with ASC 260, *Earnings per Share*, basic earnings per share is computed by dividing earnings available to common shareholders by the weighted average number of shares outstanding during the period. Other potentially dilutive common shares, if any, and the related impact to earnings, are considered when calculating earnings per share on a diluted basis. The following information sets forth the computation of the net increase (decrease) in net assets per share resulting from operations for three months ended March 31, 2026 and 2025:

	Three Months Ended March 31,	
	2026	2025
Net increase (decrease) in net assets from operations	\$ (16,301,888)	\$ 20,894,588
Weighted average shares outstanding	84,334,975	85,077,619
Earnings (loss) per share	\$ (0.19)	\$ 0.25

9. Subsequent Events

On April 29, 2026, the Company's Board of Directors re-approved the Company Repurchase Plan to acquire up to \$50.0 million in the aggregate of the Company's common stock at prices at certain thresholds below the Company's net asset value per share, in accordance with the guidelines specified in Rule 10b-18 and Rule 10b5-1 of the 1934 Act, to be in effect through the earlier of April 30, 2027, unless further extended or terminated by the Company's Board of Directors, or such time as the approved \$50.0 million repurchase amount has been fully utilized, subject to certain conditions.

From April 1, 2026 through May 7, 2026, the Company repurchased 156,370 shares pursuant to the Company Repurchase Plan at a weighted average price of \$3.78, for a total cost of \$0.6 million.

- (1) Total amount of each class of senior securities outstanding at the end of the period presented (in 1,000's).
- (2) The asset coverage ratio for a class of senior securities representing indebtedness is calculated as our consolidated total assets, less all liabilities and indebtedness not represented by senior securities, divided by senior securities representing indebtedness. For the Operating Facility, Funding Facility I, Funding Facility II and Merger Sub Facility, the asset coverage ratio with respect to indebtedness is multiplied by \$1,000 to determine the Asset Coverage Per Unit.
- (3) The amount to which such class of senior security would be entitled upon the voluntary liquidation of the issuer in preference to any security junior to it. The “—” in this column indicates that the SEC expressly does not require this information to be disclosed for certain types of senior securities.
- (4) The Company's senior securities are not registered for public trading.

12. Merger with BlackRock Capital Investment Corporation

On March 18, 2024, the Company completed its previously announced acquisition of BCIC, pursuant to the Merger Agreement, dated as of January 10, 2024, by and among the Company, BCIC, Merger Sub, and solely for the limited purposes set forth therein, BCIA, and the Advisor. Pursuant to the Merger Agreement, BCIC merged with and into Merger Sub, with Merger Sub continuing as the surviving company and as a subsidiary of SVCP and an indirect wholly-owned subsidiary of the Company. As a result of, and as of the effective time of, the Merger, BCIC's separate corporate existence ceased.

In connection with the Merger, the Company and the Advisor entered into the Amended and Restated Investment Advisory Agreement that became effective as of the Closing, pursuant to which the Advisor reduced its base management fee rate for managing the Company from 1.50% to 1.25% on assets equal to or below 200% of the net asset value of the Company with no change to the basis of the calculation. Prior to the Closing, the Advisor's base management fee rate for managing the Company was 1.50% on assets equal to or below 200% of the net asset value of the Company. The base management fee rate on assets that exceed 200% of the net asset value of the Company remains 1.00%. The Company also entered into the Fee Waiver Agreement with the Advisor. The Fee Waiver Agreement provides that the Advisor will waive all or a portion of its advisory fees to the extent the adjusted net investment income of the Company on a per share basis (determined by dividing the adjusted net investment income of the Company by the weighted average outstanding shares of the Company during the relevant quarter) is less than \$0.32 per share in any of the first four (4) fiscal quarters ending after the Closing (the first of which will be the quarter in which the Closing occurred) to the extent there are sufficient advisory fees to cover such deficit. The waiver amount in a given quarter cannot exceed the total advisory fees for such quarter.

In accordance with the terms of the Merger Agreement, at the Closing, each outstanding share of BCIC's common stock was converted into the right to receive 0.3834 shares of common stock, par value \$0.001 per share of the Company (with BCIC's shareholders receiving cash in lieu of fractional shares of the Company's common stock). As a result of the Merger, the Company issued 27,823,870 shares of its common stock to former BCIC shareholders, after adjustment for BCIC's shareholders receiving cash in lieu of fractional shares.

The Merger has been accounted for as an asset acquisition of BCIC by the Company in accordance with the asset acquisition method of accounting as detailed in ASC 805-50 ("ASC 805"), *Business Combinations-Related Issues*. The Company determined the fair value of the shares of the Company's common stock that were issued to former BCIC shareholders pursuant to the Merger Agreement plus transaction costs to be the consideration paid in connection with the Merger under ASC 805. The consideration paid to BCIC shareholders was less than the aggregate fair values of the BCIC assets acquired and liabilities assumed, which resulted in a purchase discount (the "purchase discount"). The consideration paid was allocated to the individual BCIC assets acquired and liabilities assumed based on the relative fair values of net identifiable assets acquired other than "non-qualifying" assets and liabilities (for example, cash) and did not give rise to goodwill. As a result, the purchase discount was allocated to the cost basis of the BCIC investments acquired by the Company on a pro-rata basis based on their relative fair values as of the effective time of the Merger. Immediately following the Merger, the investments were marked to their respective fair values in accordance with ASC 820 which resulted in immediate recognition of net unrealized appreciation in the Consolidated Statement of Operations as a result of the Merger. The purchase discount allocated to the BCIC debt investments acquired will amortize over the remaining life of each respective debt investment through interest income, with a corresponding adjustment recorded to unrealized appreciation or depreciation on such investment acquired through its ultimate disposition. The purchase discount allocated to BCIC equity investments acquired will not amortize over the life of such investments through interest income and, assuming no subsequent change to the fair value of the equity investments acquired and disposition of such equity investments at fair value, the Company may recognize a realized gain or loss with a corresponding reversal of the unrealized appreciation on disposition of such equity investments acquired.

The Merger was considered a tax-free reorganization and the Company has elected to carry forward the historical cost basis of the acquired BCIC investments for tax purposes.

Pursuant to the Merger Agreement, the Advisor, in the case of the Company, and BCIA, in the case of BCIC, would each bear 50% of the aggregate reasonable out-of-pocket costs and expenses incurred by the Company or BCIC, as applicable, up to a combined aggregate amount equal to \$6.0 million (the "Merger transaction costs"). Net of Merger transaction costs borne by the Advisor, the Company capitalized \$2.4 million of Merger transaction costs as part of the total consideration paid to acquire the assets and liabilities of BCIC.

- (1) Based on the Company's market price of \$10.08 and 27,823,870 shares of common stock issued by the Company at closing.
- (2) Investments acquired were recorded at fair value at the date of the acquisition, which is also the Company's initial cost basis in the investments, and reflects the impact of a \$21,886,848 purchase discount.
- (3) Declared on March 4, 2024 by the BCIC Board of Directors for the benefit of former BCIC shareholders of record as of March 15, 2024 and paid on March 29, 2024 out of BCIC cash and cash equivalents acquired by the Company.

13. Segment Reporting

The Company's chief executive officer and chief financial officer act as the Company's chief operating decision maker ("CODM"). The CODM is responsible for assessing performance, allocating resources and making operating decisions of the Company on a consolidated basis based on the net increase (decrease) in net assets resulting from operations ("net income") of the Company. The CODM has concluded that the Company operates through a single operating and reporting segment with an investment objective to generate both current income and capital appreciation through debt and equity investments. In addition to numerous other factors and metrics, the CODM utilizes net income as a key metric in determining the amount of dividends to be distributed to the Company's shareholders. As the Company's operations comprise of a single reporting segment, the segment assets are reflected on the accompanying Consolidated Statements of Assets and Liabilities as "total assets" and the significant segment expenses are listed on the accompanying Consolidated Statements of Operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our unaudited consolidated financial statements and related notes thereto appearing elsewhere in this quarterly report on Form 10-Q. Some of the statements in this report (including in the following discussion) constitute forward-looking statements, which relate to future events or the future performance or financial condition of BlackRock TCP Capital Corp. (the "Company," "we," "us" or "our"), formerly known as TCP Capital Corp. The forward-looking statements contained in this report involve a number of risks and uncertainties, including statements concerning:

- our, or our portfolio companies', future business, operations, operating results or prospects;
- the return or impact of current and future investments;
- the impact of a protracted decline in the liquidity of credit markets on our business;
- the impact of fluctuations in interest rates on our business;
- the impact of changes in laws or regulations governing our operations or the operations of our portfolio companies;
- our contractual arrangements and relationships with third parties;
- the general economy and its impact on the industries in which we invest;
- political, economic or industry conditions, or conditions affecting the financial and capital markets, including the effect of trade policy;
- the impact of geo-political conditions, including revolution, insurgency, terrorism or war, including those arising out of the ongoing conflicts in the Middle East and Eastern Europe;
- the financial condition of and ability of our current and prospective portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our financing resources and working capital;
- the ability of Tennenbaum Capital Partners, LLC, our investment advisor (the "Advisor"), to locate suitable investments for us and to monitor and administer our investments;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the timing, form and amount of any dividend distributions;
- our ability to maintain our qualification as a regulated investment company ("RIC") and as a business development company ("BDC");
- the ability to realize benefits anticipated by the Merger; and
- the impact of information technology system failures, data security breaches, data privacy compliance, network disruptions, and cybersecurity attacks.

We use words such as "anticipate," "believe," "expect," "intend," "will," "should," "could," "may," "plan" and similar words to identify forward-looking statements. The forward-looking statements contained in this quarterly report involve risks and uncertainties. Our actual results could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth as "Risk Factors" in this report.

We have based the forward-looking statements included in this report on information available to us on the date of this report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the SEC, including annual reports on Form 10-K, registration statements on Form N-2, quarterly reports on Form 10-Q and current reports on Form 8-K.

Overview

The Company is a Delaware corporation formed on April 2, 2012 and is an externally managed, closed-end, non-diversified management investment company. The Company was formed through the conversion of a pre-existing closed-end investment company. The Company elected to be regulated as a BDC under the Investment Company Act of 1940, as amended (the “1940 Act”). Our investment objective is to seek to achieve high total returns through current income and capital appreciation, with an emphasis on principal protection. We invest primarily in the debt of middle-market companies as well as small businesses, including senior secured loans, junior loans, mezzanine debt and bonds. Such investments may include an equity component, and, to a lesser extent, we may make equity investments directly. Certain investment operations are conducted through the Company’s wholly-owned subsidiaries, Special Value Continuation Partners LLC, a Delaware limited liability company (“SVCP”), TCPC Funding I, LLC (“TCPC Funding”), TCPC Funding II, LLC (“TCPC Funding II”), TCPC SBIC, LP, a Delaware limited partnership (the “SBIC”) and BCIC Merger Sub, LLC, a Delaware limited liability company and a wholly-owned subsidiary of SVCP (“Merger Sub”). SVCP was organized as a limited partnership and had elected to be regulated as a BDC under the 1940 Act through July 31, 2018. On August 1, 2018, SVCP withdrew its election to be regulated as a BDC under the 1940 Act and withdrew the registration of its common limited partner interests under Section 12(g) of the Exchange Act and, on August 2, 2018, terminated its general partner, Series H of SVOF/MM, LLC, and converted to a Delaware limited liability company. Series H of SVOF/MM, LLC (“SVOF/MM”) serves as the administrator (the “Administrator”) of the Company. The managing member of SVOF/MM is the Advisor, which serves as the investment manager to the Company, TCPC Funding, TCPC Funding II and the SBIC. On August 1, 2018, the Advisor merged with and into a wholly owned subsidiary of BlackRock Capital Investment Advisors, LLC (“BCIA”), an indirect subsidiary of BlackRock, Inc. with the Advisor as the surviving entity. The SBIC was organized as a Delaware limited partnership in June 2013. On April 22, 2014, the SBIC received a license from the United States Small Business Administration (the “SBA”) to operate as a small business investment company under the provisions of Section 301(c) of the Small Business Investment Act of 1958.

The Company has elected to be treated as a RIC for U.S. federal income tax purposes. As a RIC, the Company will not be taxed on its income to the extent that it distributes such income each year and satisfies other applicable income tax requirements. All of the subsidiaries of the Company are treated as disregarded entities.

Our leverage program is comprised of \$300.0 million in available debt under a revolving, multi-currency credit facility issued by SVCP (the “Operating Facility”), \$200.0 million in available debt under a senior secured revolving credit facility issued by TCPC Funding II (“Funding Facility II”), amounts outstanding under a senior secured revolving credit facility originally issued by BlackRock Capital Investment Corporation, a Delaware corporation (“BCIC”), and assumed by Merger Sub (“Merger Sub Facility”), \$325.0 million in senior unsecured notes issued by the Company maturing in 2026 (the “2026 Notes”), \$325.0 million in senior unsecured notes issued by the Company maturing in 2029 (the “2029 Notes”) and \$111.2 million in committed leverage from the SBA (the “SBA Program”) and, together with the Operating Facility, Funding Facility II, Merger Sub Facility, the 2026 Notes and the 2029 Notes, the “Leverage Program”). Prior to being repaid on August 23, 2024, debt included \$250.0 million in unsecured notes due August 2024 issued by the Company (the “2024 Notes”). Prior to being repaid on July 31, 2025, debt included \$92.0 million in unsecured notes which were due December 2025 and originally issued by BCIC and assumed by Merger Sub (the “2025 Notes”).

To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our shareholders generally at least 90% of our investment company taxable income, as defined by the Internal Revenue Code of 1986, as amended (the “Code”), for each year. Pursuant to this election, we generally will not have to pay corporate level taxes on any income that we distribute to our shareholders provided that we satisfy those requirements.

On September 6, 2023, the Company entered into an agreement and plan of merger with BCIC, Merger Sub, and, solely for the limited purposes set forth therein, BCIA and the Advisor (such agreement, as amended, the “Merger Agreement”). On March 18, 2024, BCIC merged with and into Merger Sub, with Merger Sub continuing as the surviving company and as a subsidiary of SVCP and an indirect wholly-owned subsidiary of the Company (the “Merger”). As a result of the Merger, BCIC’s separate existence ceased.

In accordance with the terms of the Merger Agreement, at the closing of the Merger, each outstanding share of BCIC’s common stock was converted into the right to receive 0.3834 shares (the “Exchange Ratio”) of common stock, par value \$0.001 per share of the Company (with BCIC shareholders receiving cash in lieu of fractional shares of the Company’s common stock). As a result of the Merger, the Company issued 27,823,870 shares of its common stock to former BCIC shareholders, after adjustment for BCIC’s shareholders receiving cash in lieu of fractional shares.

See “Note 12 – Merger with BlackRock Capital Investment Corporation” for further information regarding the Merger Agreement and the Merger.

On July 1, 2025, BlackRock, Inc. completed its previously announced acquisition of 100% of the business and assets of HPS Investment Partners (“HPS”), a leading global credit investment manager (the “BlackRock/HPS Transaction”). In connection with the

BlackRock/HPS Transaction, certain senior personnel of HPS joined the Advisor's investment committee for the Company's portfolio as voting members.

Investments

Our level of investment activity can and does vary substantially from period to period depending on many factors, including the amount of debt and equity capital available to middle-market companies, the level of merger and acquisition activity, the general economic environment and the competitive environment for the types of investments we make.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities and indebtedness of private U.S. companies, public U.S. operating companies whose securities are not listed on a national securities exchange or registered under the Securities Exchange Act of 1934, as amended, public domestic operating companies having a market capitalization of less than \$250.0 million, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less. We are also permitted to make certain follow-on investments in companies that were eligible portfolio companies at the time of initial investment but that no longer meet the definition. As of March 31, 2026, 82.5% of our total assets were invested in qualifying assets.

Revenues

We generate revenues primarily in the form of interest on the debt we hold. We also generate revenue from dividends on our equity interests, capital gains on the disposition of investments, and certain lease, fee, and other income. Our investments in fixed income instruments generally have an expected maturity of three to five years, although we have no lower or upper constraint on maturity. Interest on our debt investments is generally payable quarterly or semi-annually. Payments of principal of our debt investments may be amortized over the stated term of the investment, deferred for several years or due entirely at maturity. In some cases, our debt investments and preferred stock investments may defer payments of cash interest or dividends or PIK. Any outstanding principal amount of our debt investments and any accrued but unpaid interest will generally become due at the maturity date. In addition, we may generate revenue in the form of prepayment fees, commitment, origination, structuring or due diligence fees, end-of-term or exit fees, fees for providing significant managerial assistance, consulting fees and other investment related income.

Expenses

Our primary operating expenses include the payment of a base management fee and, depending on our operating results, incentive compensation, expenses reimbursable under the management agreement, administration fees and the allocable portion of overhead under the administration agreement. The base management fee and incentive compensation remunerates the Advisor for work in identifying, evaluating, negotiating, closing and monitoring our investments. Our administration agreement with the Administrator provides that the Administrator may be reimbursed for costs and expenses incurred by the Administrator for office space rental, office equipment and utilities allocable to us under the administration agreement, as well as any costs and expenses incurred by the Administrator or its affiliates relating to any non-investment advisory, administrative or operating services provided by the Administrator or its affiliates to us. We also bear all other costs and expenses of our operations and transactions (and the Company's common shareholders indirectly bear all of the costs and expenses of the Company, SVCP, TCPC Funding II, the SBIC and Merger Sub), which may include those relating to:

- our organization;
- calculating our net asset value (including the cost and expenses of any independent valuation firms);
- interest payable on debt, if any, incurred to finance our investments;
- costs of future offerings of our common stock and other securities, if any;
- the base management fee and any incentive compensation;
- dividends and distributions on our preferred shares, if any, and common shares;
- administration fees payable under the administration agreement with the Administrator (the "Administration Agreement");
- fees payable to third parties relating to, or associated with, making investments;
- transfer agent and custodial fees;
- registration fees;
- listing fees;

- taxes;
- director fees and expenses;
- costs of preparing and filing reports or other documents with the SEC;
- costs of any reports, proxy statements or other notices to our shareholders, including printing costs;
- our fidelity bond;
- directors and officers/errors and omissions liability insurance, and any other insurance premiums;
- indemnification payments;
- direct costs and expenses of administration, including audit and legal costs; and
- all other expenses reasonably incurred by us and the Administrator in connection with administering our business, such as the allocable portion of overhead under the administration agreement, including rent and other allocable portions of the cost of certain of our officers and their respective staffs.

Prior to the Closing, the investment management agreement provided that the base management fee be calculated at an annual rate of 1.5% of our total assets (excluding cash and cash equivalents) payable quarterly in arrears; provided, however, that, effective as of February 9, 2019, the base management fee was calculated at an annual rate of 1.0% of our total assets (excluding cash and cash equivalents) that exceed an amount equal to 200% of the net asset value of the Company. For purposes of calculating the base management fee, "total assets" is determined without deduction for any borrowings or other liabilities. The base management fee is calculated based on the value of our total assets and net asset value (excluding cash and cash equivalents) at the end of the most recently completed calendar quarter.

In connection with the Merger, the Company and the Advisor entered into an amended and restated investment advisory agreement (the "Amended and Restated Investment Advisory Agreement"), pursuant to which the Advisor reduced its base management fee rate for managing the Company from 1.50% to 1.25% on assets equal to or below 200% of the net asset value of the Company with no change to the basis of calculation. Prior to the Closing, the Advisor's base management fee rate for managing the Company was 1.50% on assets equal to or below 200% of the net asset value of the Company. The base management fee rate on assets that exceed 200% of the net asset value of the Company remains 1.00%. The Company also entered into a fee waiver agreement with the Advisor (the "Fee Waiver Agreement"). The Fee Waiver Agreement provided that the Advisor will waive all or a portion of its advisory fees to the extent the adjusted net investment income of the Company on a per share basis (determined by dividing the adjusted net investment income of the Company by the weighted average outstanding shares of the Company during the relevant quarter) is less than \$0.32 per share in any of the first four (4) fiscal quarters ending after the Closing (the first of which will be the quarter in which the Closing occurred) to the extent there are sufficient advisory fees to cover such deficit (the waiver amount in a given quarter cannot exceed the total advisory fees for such quarter).

Additionally, the previous investment management agreement dated February 9, 2019 and the Amended and Restated Investment Advisory Agreement each provide that the Advisor or its affiliates may be entitled to incentive compensation under certain circumstances. According to the terms of such agreements, no incentive compensation was incurred prior to January 1, 2013. Under the previous investment management agreement, dated February 9, 2019, and as continued under the Amended and Restated Investment Advisory Agreement, the incentive compensation equals the sum of (1) 20% of all ordinary income since January 1, 2013 through February 8, 2019 and 17.5% thereafter and (2) 20% of all net realized capital gains (net of any net unrealized capital depreciation) since January 1, 2013 through February 8, 2019 and 17.5% thereafter, less ordinary income incentive compensation and capital gains incentive compensation previously paid. However, incentive compensation will only be paid to the extent the cumulative total return of the Company after incentive compensation and including such payment would equal or exceed a 7% annual return on daily weighted-average contributed common equity. The determination of incentive compensation is subject to limitations under the 1940 Act and the Investment Advisers Act of 1940.

Critical accounting policies and estimates

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ. Management considers the following critical accounting policies important to understanding the financial statements. In addition to the discussion below, our critical accounting policies are further described in the notes to our financial statements.

Valuation of portfolio investments

Pursuant to Rule 2a-5 (the “Rule”) under the 1940 Act, the Board of Directors designated the Advisor as the Company’s valuation designee (the “Valuation Designee”) to perform certain fair value functions, including performing fair value determinations and has approved policies and procedures adopted by the Advisor to seek to ensure compliance with the requirements of the Rules.

We value our portfolio investments at fair value based upon the principles and methods of valuation set forth in policies and procedures reviewed and approved by a committee established by the Valuation Designee (the “Valuation Committee”). Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Market participants are buyers and sellers in the principal (or most advantageous) market for the asset that (i) are independent of us, (ii) are knowledgeable, having a reasonable understanding about the asset based on all available information (including information that might be obtained through due diligence efforts that are usual and customary), (iii) are able to transact for the asset, and (iv) are willing to transact for the asset or liability (that is, they are motivated but not forced or otherwise compelled to do so).

Investments for which market quotations are readily available are valued at such market quotations unless the quotations are deemed not to represent fair value. We generally obtain market quotations from recognized exchanges, market quotation systems, independent pricing services or one or more broker-dealers or market makers. However, short term debt investments with original maturities of generally three months or less are valued at amortized cost, which approximates fair value. Debt and equity securities for which market quotations are not readily available, which is the case for many of our investments, or for which market quotations are deemed not to represent fair value, are valued at fair value using a consistently applied valuation process in accordance with our documented valuation policies and procedures reviewed and approved by the Valuation Committee. The policies were adopted by the Valuation Designee and approved by the Board. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the values that we may ultimately realize. In addition, changes in the market environment and other events may have differing impacts on the market quotations used to value some of our investments than on the fair values of our investments for which market quotations are not readily available. Market quotations may be deemed not to represent fair value in certain circumstances where we believe that facts and circumstances applicable to an issuer, a seller or purchaser, or the market for a particular security cause current market quotations to not reflect the fair value of the security. Examples of these events could include cases where a security trades infrequently causing a quoted purchase or sale price to become stale, where there is a “forced” sale by a distressed seller, where market quotations vary substantially among market makers, or where there is a wide bid-ask spread or significant increase in the bid-ask spread.

The valuation process adopted by the Valuation Designee with respect to investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value is as follows:

- The investment professionals of the Valuation Designee provide recent portfolio company financial statements and other reporting materials to independent valuation firms approved by the Valuation Committee.
- Such firms evaluate this information along with relevant observable market data to conduct independent appraisals each quarter, and their preliminary valuation conclusions are documented and discussed with senior management of the Valuation Designee.
- The fair value of smaller investments comprising in the aggregate less than 5% of our total capitalization may be determined by the Valuation Designee in good faith in accordance with our valuation policy without the employment of an independent valuation firm.
- The Valuation Designee determines the fair value of the remainder of investments in our portfolio in good faith based on the input of the Valuation Committee and the respective independent valuation firms.

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing one or more methodologies, including the market approach, the income approach, or in the case of recent investments, the cost approach, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that the Valuation Designee may take into account in determining the fair value of our investments include, as relevant and among other factors: available current market data, including relevant and applicable market trading and transaction comparable, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company’s ability to make payments, its earnings and discounted cash

flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, merger and acquisition comparable, our principal market (as the reporting entity) and enterprise values.

When valuing all of our investments, we strive to maximize the use of observable inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of us. Unobservable inputs are inputs that reflect our assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances.

Our investments may be categorized based on the types of inputs used in their valuation. The level in the GAAP valuation hierarchy in which an investment falls is based on the lowest level input that is significant to the valuation of the investment in its entirety. Investments are classified by GAAP into the three broad levels as follows:

Level 1 — Investments valued using unadjusted quoted prices in active markets for identical assets.

Level 2 — Investments valued using other unadjusted observable market inputs, e.g. quoted prices in markets that are not active or quotes for comparable instruments.

Level 3 — Investments that are valued using quotes and other observable market data to the extent available, but which also take into consideration one or more unobservable inputs that are significant to the valuation taken as a whole.

As of March 31, 2026, 0.0% of our investments were categorized as Level 1, 0.0% were categorized as Level 2, 99.9% were categorized as Level 3 investments valued based on valuations by independent third-party sources, and 0.1% were categorized as Level 3 investments valued based on valuations by the Valuation Designee.

As of December 31, 2025, 0.0% of our investments were categorized as Level 1, 0.0% were categorized as Level 2, 99.9% were categorized as Level 3 investments valued based on valuations by independent third-party sources, and 0.1% were categorized as Level 3 investments valued based on valuations by the Valuation Designee.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our consolidated financial statements express the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on the financial statements.

Revenue recognition

Interest and dividend income, including income paid in kind, is recorded on an accrual basis, when such amounts are considered collectible. Origination, structuring, closing, commitment and other upfront fees, including original issue discounts, earned with respect to capital commitments are generally amortized or accreted into interest income over the life of the respective debt investment, as are end-of-term or exit fees receivable upon repayment of a debt investment. Other fees, including certain amendment fees, prepayment fees and commitment fees on broken deals, are recognized as earned. Prepayment fees and similar income due upon the early repayment of a loan or debt security are recognized when earned and are included in interest income.

Certain of our debt investments are purchased at a discount to par as a result of the underlying credit risks and financial results of the issuer, as well as general market factors that influence the financial markets as a whole. Discounts on the acquisition of corporate bonds are generally amortized using the effective-interest or constant-yield method assuming there are no questions as to collectability. When principal payments on a loan are received in an amount in excess of the loan's amortized cost, the excess principal payments are recorded as interest income.

Debt investments are generally placed on non-accrual status when it is probable that principal or interest will not be collected according to the contractual terms. When a debt investment is placed on non-accrual status, accrued and unpaid interest (including any accrued PIK interest) is generally reversed, and discount accretion or premium amortization is discontinued. The Company does not reverse previously capitalized PIK income. Payments received on non-accrual investments may either be recognized as income or applied to principal depending upon the Company's judgment regarding collectability of the outstanding principal and interest. Non-accrual investments are restored to accrual status if past due principal and interest are paid or, in the Company's judgment, the repayment of the remaining contractual principal and interest is expected. The Company may opt not to place a distressed debt investment on non-accrual status if principal and interest are secured through sufficient collateral value and are in the process of collection through legal actions or other efforts that are expected to result in repayment of principal and interest.

Net realized gains or losses and net change in unrealized appreciation or depreciation

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized. Realized gains and losses are computed using the specific identification method. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

Portfolio and investment activity

During the three months ended March 31, 2026, we invested approximately \$22.5 million, comprised of new investments in 6 new and 2 existing portfolio companies, as well as draws made on existing commitments and PIK received on prior investments. Of these investments, \$18.0 million, or 80.1% of total acquisitions, were in senior secured loans. The remaining \$4.5 million, or 19.9% of total acquisitions, was comprised of equity investments. Additionally, we received approximately \$135.3 million in proceeds from sales or repayments of investments during the three months ended March 31, 2026.

During the three months ended March 31, 2025, we invested approximately \$66.0 million, comprised of new investments in 2 new and 9 existing portfolio companies, as well as draws made on existing commitments and PIK received on prior investments. Of these investments, \$60.5 million, or 91.7% of total acquisitions, were in senior secured loans. The remaining \$5.5 million, or 8.3% of total acquisitions, was comprised of equity investments. Additionally, we received approximately \$84.9 million in proceeds from sales or repayments of investments during the three months ended March 31, 2025.

At March 31, 2026, our consolidated investment portfolio of \$1,388.7 million (at fair value) consisted of 139 portfolio companies and was invested 91.8% in debt investments, primarily in senior secured debt. In aggregate, our investment portfolio was invested 87.5% in senior secured loans, 4.3% in senior secured notes, 0.0% in unsecured debt and 8.2% in equity investments. Our average portfolio company investment at fair value was approximately \$10.0 million. Our largest portfolio company investment based on fair value was approximately 8.3% of our portfolio and our five largest portfolio company investments based on fair value comprised approximately 24.9% of our portfolio at March 31, 2026.

At December 31, 2025, our consolidated investment portfolio of \$1,533.3 million (at fair value) consisted of 141 portfolio companies and was invested 92.5% in debt investments, primarily in senior secured debt. In aggregate, our investment portfolio was invested 88.6% in senior secured loans, 3.9% in senior secured notes, 0.0% in unsecured debt and 7.5% in equity investments. Our average portfolio company investment at fair value was approximately \$10.9 million. Our largest portfolio company investment based on fair value was approximately 7.2% of our portfolio and our five largest portfolio company investments by value comprised approximately 23.1% of our portfolio at December 31, 2025.

The industry composition of our portfolio at fair value at March 31, 2026 was as follows:

The weighted average effective yield of our debt portfolio based on fair value was 10.9% at March 31, 2026 and 11.1% at December 31, 2025, excluding non-accrual and non-income producing loans. The weighted average effective yield of our total portfolio based on fair value was 10.1% at March 31, 2026 and 10.2% at December 31, 2025. At March 31, 2026, 94.4% of debt investments in our portfolio bore interest based on floating rates, such as the Secured Overnight Financing Rate (“SOFR”), Euro Interbank Offered Rate (“EURIBOR”), Canadian Overnight Repo Rate Average (“CORRA”), the Federal Funds Rate or the Prime Rate, and 5.6% bore interest at fixed rates. The percentage of floating rate debt investments in our portfolio that were subject to an interest rate floor was 97.6% at March 31, 2026. Debt and preferred equity investments in thirteen portfolio companies were on non-accrual status as of March 31, 2026, representing 2.8% of the portfolio at fair value and 7.6% at cost. At December 31, 2025, 94.2% of debt investments in our portfolio bore interest based on floating rates, such as SOFR, EURIBOR, CORRA, the Federal Funds Rate or the Prime Rate, and 5.8% bore interest at fixed rates. The percentage of floating rate debt investments in our portfolio that were subject to an interest rate floor was 98.1% at December 31, 2025. Debt and preferred equity investments in fourteen portfolio companies were on non-accrual status as of December 31, 2025, representing 4.0% of the portfolio at fair value and 9.7% at cost.

Results of operations

Investment income

Investment income totaled \$42.6 million and \$55.9 million, respectively, for the three months ended March 31, 2026 and 2025, of which \$41.2 million and \$52.6 million were attributable to interest and fees on our debt investments, \$1.4 million and \$3.3 million to dividend income and \$0.0 million and \$0.0 million to other income, respectively. Included in interest and fees on our debt investments were \$2.4 million and \$2.4 million of non-recurring income related to prepayments and \$0.4 million and \$0.2 million in amendment fees for the three months ended March 31, 2026 and 2025, respectively. The decrease in investment income for the three months ended March 31, 2026 compared to the three months ended March 31, 2025 primarily reflects a decrease in portfolio size and a decrease in interest income due to lower SOFR rates during the three months ended March 31, 2026.

Expenses

Total operating expenses for the three months ended March 31, 2026 and 2025 were \$24.1 million and \$23.7 million, respectively, comprised of \$16.0 million and \$17.1 million in interest expense and related fees, \$4.7 million and \$5.5 million in base management fees, \$1.5 million and \$0.9 million in professional fees, \$0.5 million and \$0.6 million in administrative expenses, \$0.0 million and \$0.0 million in incentive fee expense, and \$1.4 million and \$1.4 million in other expenses, respectively, offset by \$0.0 million and \$1.8 million in management fee waivers. The increase in operating expenses for the three months ended March 31, 2026 compared to the three months ended March 31, 2025 primarily reflects an increase in net management fees due to the Company not accruing a management fee waiver during the three months ended March 31, 2026 and an increase in professional fees, partially offset by a decrease in interest expense as a result of lower debt outstanding and due to lower SOFR rates during the three months ended March 31, 2026.

Net investment income

Net investment income was \$18.5 million and \$32.2 million, respectively, for the three months ended March 31, 2026 and 2025. The decrease in net investment income for the three months ended March 31, 2026 compared to the three months ended March 31, 2025 primarily reflects the decrease in total investment income and increase in expenses during the three months ended March 31, 2026.

Net realized and unrealized gain or loss

Net realized gain (loss) for the three months ended March 31, 2026 and 2025 was \$(32.7) million and \$(40.9) million, respectively. Net realized loss for the three months ended March 31, 2026 was comprised primarily of \$19.1 million, \$11.5 million, and \$4.6 million in losses from the restructuring of our investments in Alpine, Fishbowl, and Suited Connector, respectively.

For the three months ended March 31, 2026 and 2025, the change in net unrealized appreciation (depreciation) was \$(2.0) million and \$29.6 million, respectively. The change in net unrealized depreciation for the three months ended March 31, 2026 primarily reflects an \$11.1 million unrealized loss on our investment in Job and Talent, a \$2.8 million unrealized loss on our investment in Pluralsight, a \$2.5 million unrealized loss on our investment in Brook & Whittle, and a \$2.2 million unrealized loss on our investment in Domo, partially offset by \$17.8 million, \$12.3 million, and \$4.5 million reversals of previously recognized unrealized losses from the restructuring of our investments in Alpine, Fishbowl and Suited Connector, respectively. The change in net unrealized appreciation for the three months ended March 31, 2025 primarily reflects \$23.9 million, \$7.5 million and \$5.3 million reversals of previously recognized unrealized losses from the dispositions of our investments in Securus, CIBT and McAfee, respectively, a \$10.8 million unrealized gain on our investment in Job and Talent and a \$5.3 million unrealized gain on our investment in AutoAlert, partially offset by an \$8.0 million unrealized loss on our investment in Razor, a \$2.7 million unrealized loss on our investment in Gordon Brothers, a \$2.3 million unrealized loss on our investment in Alpine, and a \$2.3 million unrealized loss on our investment in Brook & Whittle.

Incentive compensation

Incentive fees, included in operating expenses for the three months ended March 31, 2026 and 2025 were \$0.0 million and \$0.0 million, respectively. There was no change in incentive fee expense for the three months ended March 31, 2026 compared to the three months ended March 31, 2025 due to the Company not accruing incentive fees for the three months ended March 31, 2026 and March 31, 2025 as a result of the Company's cumulative total return not exceeding the total return hurdle.

Income tax expense, including excise tax

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its shareholders generally at least 90% of its investment company taxable income, as defined by the Code, for each year. The Company has made and intends to continue to make the requisite distributions to its shareholders which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income. Any excise tax expense is recorded at year end as such amounts are known. No excise tax was incurred for the three months ended March 31, 2026.

On March 18, 2024, the Company completed its previously announced Merger with BCIC. Pursuant to the Merger Agreement, BCIC was merged with and into Merger Sub, with Merger Sub continuing as the surviving company and as a subsidiary of SVCP. The

Merger was considered a tax-free reorganization and the Company has elected to carry forward the historical cost basis of the acquired BCIC investments for tax purposes. As a result of the Merger, BCIC's separate existence ceased.

Net increase (decrease) in net assets resulting from operations

The net increase (decrease) in net assets applicable to common shareholders resulting from operations was \$(16.3) million and \$20.9 million for the three months ended March 31, 2026 and 2025, respectively. The decrease in net assets resulting from operations during the three months ended March 31, 2026 was primarily due to higher net realized and unrealized losses and lower net investment income compared to the three months ended March 31, 2025.

Net investment income, net realized and unrealized gain (loss) and net increase (decrease) in net assets resulting from operations can vary from period to period as a result of various factors, including acquisitions, the level of new investment commitments, the recognition of realized gains and losses and changes in unrealized appreciation and depreciation on the investment portfolio.

Supplemental Non-GAAP information

On March 18, 2024, the Company completed its previously announced Merger with BCIC. The Merger has been accounted for as an asset acquisition of BCIC by the Company in accordance with the asset acquisition method of accounting as detailed in ASC 805-50 ("ASC 805"), Business Combinations-Related Issues. The Company determined the fair value of the shares of the Company's common stock that were issued to former BCIC shareholders pursuant to the Merger Agreement plus transaction costs to be the consideration paid in connection with the Merger under ASC 805. The consideration paid to BCIC shareholders was less than the aggregate fair values of the BCIC assets acquired and liabilities assumed, which resulted in a purchase discount (the "purchase discount"). The consideration paid was allocated to the individual BCIC assets acquired and liabilities assumed based on the relative fair values of net identifiable assets acquired other than "non-qualifying" assets and liabilities (for example, cash) and did not give rise to goodwill. As a result, the purchase discount was allocated to the cost basis of the BCIC investments acquired by the Company on a pro-rata basis based on their relative fair values as of the effective time of the Merger. Immediately following the Merger, the investments were marked to their respective fair values in accordance with ASC 820 which resulted in immediate recognition of net unrealized appreciation in the Consolidated Statement of Operations as a result of the Merger. The purchase discount allocated to the BCIC debt investments acquired will amortize over the remaining life of each respective debt investment through interest income, with a corresponding adjustment recorded to unrealized appreciation or depreciation on such investment acquired through its ultimate disposition. The purchase discount allocated to BCIC equity investments acquired will not amortize over the life of such investments through interest income and, assuming no subsequent change to the fair value of the equity investments acquired and disposition of such equity investments at fair value, the Company may recognize a realized gain with a corresponding reversal of the unrealized appreciation on disposition of such equity investments acquired.

As a supplement to the Company's reported GAAP financial measures, we have provided the following non-GAAP financial measures that we believe are useful:

- "Adjusted net investment income" – excludes the amortization of purchase accounting discount from net investment income calculated in accordance with GAAP;
- "Adjusted net realized and unrealized gain (loss)" – excludes the unrealized appreciation resulting from the purchase discount and the corresponding reversal of the unrealized appreciation from the amortization of the purchase discount from the determination of net realized and unrealized gain (loss) determined in accordance with GAAP; and
- "Adjusted net increase (decrease) in net assets resulting from operations" – calculates net increase (decrease) in net assets resulting from operations based on Adjusted net investment income and Adjusted net realized and unrealized gain (loss).

We believe that the adjustment to exclude the full effect of purchase discount accounting under ASC 805 from these financial measures is meaningful because of the potential impact on the comparability of these financial measures that we and investors use to assess our financial condition and results of operations period over period. Although these non-GAAP financial measures are intended to enhance investors' understanding of our business and performance, these non-GAAP financial measures should not be considered an alternative to GAAP. The aforementioned non-GAAP financial measures may not be comparable to similar non-GAAP financial measures used by other companies.

Liquidity and capital resources

Since our inception, our liquidity and capital resources have been generated primarily through the initial private placement of common shares of Special Value Continuation Fund, LLC (the predecessor entity) which were subsequently converted to common stock of the Company, the net proceeds from the initial and secondary public offerings of our common stock, amounts outstanding under our Leverage Program, and cash flows from operations, including investments sales and repayments and income earned from investments and cash equivalents. The primary uses of cash have been investments in portfolio companies, cash distributions to our equity holders, payments to service our Leverage Program and other general corporate purposes.

On February 27, 2024, the Board of Directors approved a new dividend reinvestment plan (the "DRIP") for the Company. The DRIP was effective as of March 18, 2024, and will apply to the reinvestment of cash distributions with a record date after March 18, 2024. Under the DRIP, shareholders will automatically receive cash dividends and distributions unless they "opt in" to the DRIP and elect to have their dividends and distributions reinvested in additional shares of the Company's common stock. Notwithstanding the foregoing, the former shareholders of BCIC that participated in the BCIC dividend reinvestment plan at the time of the Merger have been automatically enrolled in the Company's DRIP and will have their shares reinvested in additional shares of the Company's common stock on future distributions, unless they "opt out" of the DRIP. For the three months ended March 31, 2026, approximately \$0.4 million of cash distributions were reinvested for electing Participants through purchase of shares in the open market in accordance with the terms of the DRIP.

On February 24, 2015, the Company's Board of Directors approved a stock repurchase plan (the "Company Repurchase Plan") to acquire up to \$50.0 million in the aggregate of the Company's common stock at prices at certain thresholds below the Company's net asset value per share, in accordance with the guidelines specified in Rule 10b-18 and Rule 10b5-1 of the Exchange Act. The Company Repurchase Plan is designed to allow the Company to repurchase its common stock at times when it otherwise might be prevented from doing so under insider trading laws. The Company Repurchase Plan requires an agent selected by the Company to repurchase shares of common stock on the Company's behalf if and when the market price per share is at certain thresholds below the most recently reported net asset value per share. Under the plan, the agent will increase the volume of purchases made if the price of the Company's common stock declines, subject to volume restrictions. The timing and amount of any stock repurchased depends on the terms and conditions of the Company Repurchase Plan, the market price of the common stock and trading volumes, and no assurance can be given that any particular amount of common stock will be repurchased. The Company Repurchase Plan was re-approved on April 29, 2026, to be in effect through the earlier of April 30, 2027, unless further extended or terminated by the

Company's Board of Directors, or such time as the approved \$50.0 million repurchase amount has been fully utilized, subject to certain conditions.

The following table summarizes the total shares repurchased and amounts paid by the Company under the Company Repurchase Plan, including broker fees, for the three months ended March 31, 2026 and 2025:

	Three Months Ended March 31,

(1) Except for the 2029 Notes, all carrying values are the same as the principal amounts outstanding.

(2) As of March 31, 2026, \$220.0 million of the outstanding amount was subject to a SOFR credit adjustment of 0.10%. \$2.9 million of the outstanding amount bore interest at a rate of EURIBOR + 2.00%. \$4.0 million of the outstanding amount bore interest at a rate of CORRA + 2.00% with a credit adjustment of 0.30%.

(3) Operating Facility includes a \$100.0 million accordion which allows for expansion of the facility to up to \$400.0 million subject to consent from the lender and other customary conditions.

(4) Funding Facility II includes a \$50.0 million accordion which allows for expansion of the facility to up to \$250.0 million subject to consent from the lender and other customary conditions.

(5) Debt assumed by the Company as a result of the Merger with BCIC.

(6) The applicable margin for SOFR-based borrowings could be either 1.75% or 2.00% depending on a ratio of the borrowing base to certain committed indebtedness, and is also subject to a credit spread adjustment of 0.10%. If Merger Sub elects to borrow based on the alternate base rate, the applicable margin could be either 0.75% or 1.00% depending on a ratio of the borrowing base to certain committed indebtedness.

(7) Merger Sub Facility includes a \$60.0 million accordion which allows for expansion of the facility to up to \$325.0 million subject to consent from the lender and other customary conditions.

(8) Weighted-average interest rate, excluding fees of 0.35% or 0.36%.

Under Section 61(a) of the 1940 Act, prior to March 23, 2018, a BDC was generally not permitted to issue senior securities unless after giving effect thereto the BDC met a coverage ratio of total assets, less liabilities and indebtedness not represented by senior securities, to total senior securities, which includes all borrowings of the BDC, of at least 200%. On March 23, 2018, the Small Business Credit Availability Act (“SBCAA”) was signed into law, which among other things, amended Section 61(a) of the 1940 Act to add a new Section 61(a)(2) that reduces the asset coverage requirement applicable to BDCs from 200% to 150% so long as the BDC meets certain disclosure requirements and obtains certain approvals. The reduced asset coverage requirement would permit a BDC to have a ratio of total outstanding indebtedness to common equity of 2:1 as compared to a maximum of 1:1 under the 200% asset coverage requirement.

Effective November 7, 2018, the Company’s Board of Directors, including a “required majority” (as such term is defined in Section 57(o) of the 1940 Act) of our Board of Directors, approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the SBCAA (the “Asset Coverage Ratio Election”), which would have resulted (had the Company not received earlier shareholder approval) in our asset coverage requirement applicable to senior securities being reduced from 200% to 150%, effective on November 7, 2019. On February 8, 2019, the shareholders of the Company approved the Asset Coverage Ratio Election, and, as a result, effective on February 9, 2019, our asset coverage requirement applicable to senior securities was reduced from 200% to 150%. As of March 31, 2026, the Company’s asset coverage ratio was 168.3%.

On July 13, 2015, we obtained exemptive relief from the SEC to permit us to exclude debt outstanding under the SBA Debentures from our asset coverage test under the 1940 Act. The exemptive relief provides us with increased flexibility under the 150% asset coverage test by permitting the SBIC to borrow up to \$107.2 million more than it would otherwise be able to absent the receipt of this exemptive relief.

Net cash provided by operating activities during the three months ended March 31, 2026 was \$159.1 million, consisting primarily of the settlement of dispositions of investments (net of acquisitions) of \$141.9 million and \$17.2 million in net investment income (net of non-cash income and expenses).

Net cash used by financing activities was \$126.9 million during the three months ended March 31, 2026, consisting primarily of \$325.0 million in repayment of 2026 Notes, \$14.3 million in dividends paid to common shareholders and \$2.3 million in repurchases of shares offset by \$214.7 million in net credit facility draws.

At March 31, 2026, we had \$93.3 million in cash and cash equivalents.

The Operating Facility, Funding Facility II and Merger Sub Facility (in the aggregate) are secured by substantially all of the assets in our portfolio, including cash and cash equivalents, and are subject to compliance with customary affirmative and negative covenants, including the maintenance of a minimum stockholders' equity, the maintenance of a ratio of not less than 150% of total assets (less total liabilities other than indebtedness) to total indebtedness, and restrictions on certain payments and issuance of debt. Unfavorable economic conditions may result in a decrease in the value of our investments, which would affect both the asset coverage ratios and the value of the collateral securing the Operating Facility, Funding Facility II and Merger Sub Facility, and may therefore impact our ability to borrow under the Operating Facility, Funding Facility II and Merger Sub Facility. In addition to regulatory restrictions that restrict our ability to raise capital, the Leverage Program contains various covenants which, if not complied with, could accelerate repayment of debt, thereby materially and adversely affecting our liquidity, financial condition and results of operations. At March 31, 2026, we were in compliance with all financial and operational covenants required by the Leverage Program.

Unfavorable economic conditions, while potentially creating attractive opportunities for us, may decrease liquidity and raise the cost of capital generally, which could limit our ability to renew, extend or replace the Leverage Program on terms as favorable as are currently included therein. If we are unable to renew, extend or replace the Leverage Program upon the various dates of maturity, we expect to have sufficient funds to repay the outstanding balances in full from our net investment income and sales of, and repayments of principal from, our portfolio company investments, as well as from anticipated debt and equity capital raises, among other sources. Unfavorable economic conditions may limit our ability to raise capital or the ability of the companies in which we invest to repay our loans or engage in a liquidity event, such as a sale, recapitalization or initial public offering. The Operating Facility, Funding Facility II, Merger Sub Facility, and the 2029 Notes, mature in August 2029, July 2029, September 2028, and May 2029, respectively. Any inability to renew, extend or replace the Leverage Program could adversely impact our liquidity and ability to find new investments or maintain distributions to our shareholders.

Challenges in the market are intensified for us by certain regulatory limitations under the Code and the 1940 Act. To maintain our qualification as a RIC, we must satisfy, among other requirements, an annual distribution requirement to pay out at least 90% of our ordinary income and short-term capital gains to our shareholders. Because we are required to distribute our income in this manner, and because the illiquidity of many of our investments may make it difficult for us to finance new investments through the sale of current investments, our ability to make new investments is highly dependent upon external financing. While we anticipate being able to continue to satisfy all covenants and repay the outstanding balances under the Leverage Program when due, there can be no assurance that we will be able to do so, which could lead to an event of default.

Contractual obligations

In addition to obligations under our Leverage Program, we have entered into several contracts under which we have future commitments. Pursuant to an investment management agreement, the Advisor manages our day-to-day operations and provides investment advisory services to us. Payments under the investment management agreement are equal to a percentage of the value of our total assets (excluding cash and cash equivalents) and an incentive compensation, plus reimbursement of certain expenses incurred by the Advisor. Under the Administration Agreement, the Administrator provides us with administrative services, facilities and personnel. Payments under the Administration Agreement are equal to an allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us and may include rent and our allocable portion of the cost of certain of our officers and their respective staffs. We are responsible for reimbursing the Advisor for due diligence and negotiation expenses, fees and expenses of custodians, administrators, transfer and distribution agents, counsel and directors, insurance, filings and registrations, proxy expenses, expenses of communications to investors, compliance expenses, interest, taxes, portfolio transaction expenses, costs of responding to regulatory inquiries and reporting to regulatory authorities, costs and expenses of preparing and maintaining our books and records, indemnification, litigation and other extraordinary expenses and such other expenses as are approved by the directors as being reasonably related to our organization, offering, capitalization, operation or administration and any portfolio investments, as applicable. The Advisor is not responsible for any of the foregoing expenses and such services are not investment advisory services under the 1940 Act. Either party may terminate each of the Amended and Restated Investment Advisory Agreement and Administration Agreement without penalty upon not less than 60 days' written notice to the other.

Distributions

Our quarterly dividends and distributions to common shareholders are recorded on the ex-dividend date. Distributions are declared considering our estimate of annual taxable income available for distribution to shareholders and the amount of taxable income carried over from the prior year for distribution in the current year. We do not have a policy to pay distributions at a specific level and expect to continue to distribute substantially all of our taxable income. We cannot assure shareholders that they will receive any distributions or distributions at a particular level.

The following tables summarize dividends declared for the three months ended March 31, 2026 and 2025:

Date Declared	Record Date	Payment Date	Type	Amount Per Share	Total Amount	Reinvested Amount⁽¹⁾
February 27, 2026	March 17, 2026	March 31, 2026	Regular	\$ 0.17	\$ 14,318,949	\$ 368,016

We have elected to be taxed as a RIC under Subchapter M of the Code. In order to maintain favorable RIC tax treatment, we must distribute annually to our shareholders at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, out of the assets legally available for distribution. In order to avoid certain excise taxes imposed on RICs, we must distribute during each calendar year an amount at least equal to the sum of:

- 98% of our ordinary income (not taking into account any capital gains or losses) for the calendar year;
- 98.2% of the amount by which our capital gains exceed our capital losses (adjusted for certain ordinary losses) for the one-year period generally ending on October 31 of the calendar year; and
- certain undistributed amounts from previous years on which we paid no U.S. federal income tax.

We may, at our discretion, carry forward taxable income in excess of calendar year distributions and pay a 4% excise tax on this income. If we choose to do so, all other things being equal, this would increase expenses and reduce the amounts available to be distributed to our shareholders. We will accrue excise tax on estimated taxable income as required. In addition, although we currently

intend to distribute realized net capital gains (i.e., net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we may in the future decide to retain such capital gains for investment.

We may not be able to achieve operating results that will allow us to make dividends and distributions at a specific level or to increase the amount of these dividends and distributions from time to time. Also, we may be limited in our ability to make dividends and distributions due to the asset coverage test applicable to us as a BDC under the 1940 Act and due to provisions in our existing and future credit facilities. If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including possible loss of favorable RIC tax treatment. In addition, in accordance with U.S. generally accepted accounting principles and tax regulations, we include in income certain amounts that we have not yet received in cash, such as PIK interest, which represents contractual interest added to the loan balance that becomes due at the end of the loan term, or the accrual of original issue or market discount. Since we may recognize income before or without receiving cash representing such income, we may have difficulty meeting the requirement to distribute at least 90% of our investment company taxable income to obtain tax benefits as a RIC and may be subject to an excise tax.

In order to satisfy the annual distribution requirement applicable to RICs, we have the ability to declare a large portion of a dividend in shares of our common stock instead of in cash. As long as a portion of such dividend is paid in cash and certain requirements are met, the entire distribution would be treated as a dividend for U.S. federal income tax purposes.

Related Parties

We have entered into a number of business relationships with affiliated or related parties, including the following:

- Each of the Company, TCPC Funding II, and the SBIC has entered into an investment management agreement with the Advisor.
- The Company has entered into the Administration Agreement with the Administrator. The Administrator is an affiliate of the Advisor and certain other series and classes of SVOF/MM, LLC serve as the general partner or managing member of certain other funds managed by the Advisor.
- The Company has entered into a royalty-free license agreement with BlackRock and the Advisor, pursuant to which each of BlackRock and the Advisor has agreed to grant us a non-exclusive, royalty-free license to use the name “BlackRock” and “TCP”.

The Advisor and its affiliates, employees and associates currently do and in the future may manage other funds and accounts. The Advisor and its affiliates may determine that an investment is appropriate for us and for one or more of those other funds or accounts. Accordingly, conflicts may arise regarding the allocation of investments or opportunities among us and those accounts. In general, the Advisor will allocate investment opportunities pro rata among us and the other funds and accounts (assuming the investment satisfies the objectives of each) based on the amount of committed capital each then has available. The allocation of certain investment opportunities in private placements is subject to independent director approval pursuant to the terms of the co-investment exemptive order applicable to us. In certain cases, investment opportunities may be made other than on a pro rata basis. For example, we may desire to retain an asset at the same time that one or more other funds or accounts desire to sell it or we may not have additional capital to invest at a time the other funds or accounts do. If the Advisor is unable to manage our investments effectively, we may be unable to achieve our investment objective. In addition, the Advisor may face conflicts in allocating investment opportunities between us and certain other entities that could impact our investment returns. While our ability to enter into transactions with our affiliates is restricted under the 1940 Act, we have received an exemptive order from the SEC permitting certain affiliated investments subject to certain conditions. As a result, we may face conflict of interests and investments made pursuant to the exemptive order conditions which could in certain circumstances affect adversely the price paid or received by us or the availability or size of the position purchased or sold by us.

Recent Developments

On April 29, 2026, the Company’s Board of Directors re-approved the Company Repurchase Plan to acquire up to \$50.0 million in the aggregate of the Company’s common stock at prices at certain thresholds below the Company’s net asset value per share, in accordance with the guidelines specified in Rule 10b-18 and Rule 10b5-1 of the 1934 Act, to be in effect through the earlier of April 30, 2027, unless further extended or terminated by the Company’s Board of Directors, or such time as the approved \$50.0 million repurchase amount has been fully utilized, subject to certain conditions.

From April 1, 2026 through May 7, 2026, the Company repurchased 156,370 shares pursuant to the Company Repurchase Plan at a weighted average price of \$3.78, for a total cost of \$0.6 million.

On May 7, 2026, the Company's Board of Directors declared a second quarter dividend of \$0.17 per share, payable on June 30, 2026 to shareholders of record as of the close of business on June 16, 2026.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates. At March 31, 2026, 94.4% of debt investments in our portfolio bore interest based on floating rates, such as SOFR, EURIBOR, CORRA, the Federal Funds Rate or the Prime Rate. The interest rates on such investments generally reset by reference to the current market index after one to six months. At December 31, 2025, the percentage of floating rate debt investments in our portfolio that were subject to an interest rate floor was 94.2%. Floating rate investments subject to a floor generally reset by reference to the current market index after one to six months only if the index exceeds the floor.

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the difference between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income. We assess our portfolio companies periodically to determine whether such companies will be able to continue making interest payments in the event that interest rates increase. There can be no assurances that the portfolio companies will be able to meet their contractual obligations at any or all levels of increases in interest rates.

Based on our March 31, 2026 statement of assets and liabilities, the following table shows the annual impact on net investment income (excluding the related incentive compensation impact) of base rate changes in interest rates (considering interest rate floors for variable rate instruments and the fact that our assets and liabilities may not have the same base rate period as assumed in this table) assuming no changes in our investment and borrowing structure. Projected amounts in the table do not include the impact of interest rate changes on the Company's Interest Rate Swap.

Basis Point Change	Net Investment Income	Net Investment Income Per Share
Up 300 basis points	\$ 25,013,148	\$ 0.30
Up 200 basis points	16,675,432	0.20
Up 100 basis points	8,337,716	0.10
Down 100 basis points	(8,249,737)	(0.10)
Down 200 basis points	(15,731,959)	(0.19)
Down 300 basis points	(18,909,422)	(0.22)

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of the end of the period covered by this report, we, including our chief executive officer and chief financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based on our evaluation, our management, including the chief executive officer and chief financial officer, concluded that our disclosure controls and procedures were effective in timely alerting management, including the chief executive officer and chief financial officer, of material information about us required to be included in our periodic SEC filings. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, are based upon certain assumptions about the likelihood of future events and can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Internal Control Over Financial Reporting

There has not been any change in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II - Other Information.

Item 1. Legal Proceedings

From time to time, the Company and the Advisor may be parties to certain legal proceedings incidental to the normal course of our business, including with respect to our investments in our portfolio companies. On September 13, 2023, the Company was named as a defendant, together with the Advisor and certain other funds managed by the Advisor, as well as certain other defendants, in a lawsuit filed in the United States Bankruptcy Court for the Southern District of New York. The suit relates to a third-party sponsored collateralized loan obligation in which the Company and certain other defendants invested. The suit alleges that the Company and the other defendants knew or should have known of certain fraudulent activities of the third-party manager relating to its management of the collateralized loan obligation that caused the plaintiffs to suffer investment losses. The suit seeks to recover from the Company approximately \$15 million, plus interest, additional amounts from the other defendants, and attorneys' fees and costs from all defendants. The Company, the affiliated funds and the Advisor intend to vigorously defend against these claims and filed a motion to dismiss the lawsuit on November 6, 2023, which was argued in court on March 6, 2024. On November 8, 2024, the court issued a decision, granting in part and denying in part the motion to dismiss. As a result, on December 6, 2024, the plaintiffs filed an amended complaint containing substantially similar allegations but without the claims dismissed by the court. On January 23, 2025, the Company, the Advisor and the funds managed by it, along with other defendants, filed a motion to dismiss one of the counts in the amended complaint, which was granted on September 11, 2025. As of the date of this report, the Company and the Advisor cannot predict with a reasonable degree of certainty the likelihood of an unfavorable outcome, including any potential losses that could result.

On February 3, 2026, a putative securities class action lawsuit was filed in the United States District Court for the Central District of California, captioned *Burnell v. BlackRock TCP Capital Corp., et al.*, Case No. 2:26-cv-01102. The complaint names the Company and certain of its current and former executive officers as defendants. The complaint purports to be brought on behalf of a class of persons who purchased or otherwise acquired the Company's securities between November 6, 2024 and January 23, 2026, and alleges violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder, based on alleged materially false and misleading statements and/or omissions concerning the Company's business, operations and financial condition. The plaintiff seeks unspecified compensatory damages, interest, attorneys' fees and costs, and other relief. The Company believes the claims are without merit and intends to defend the action vigorously. The litigation is in its early stages, and at this time the Company cannot reasonably estimate the possible loss or range of loss, if any, that may result from this matter.

On February 24, 2026, a purported shareholder derivative action was filed in the United States District Court for the Central District of California, captioned *Terwilliger, derivatively on behalf of BlackRock TCP Capital Corp. v. Rajneesh Vig, et al.*, Case No. 2:26-cv-01968. The defendants are certain current and former officers and directors of the Company. The Company is named as a nominal defendant. The complaint asserts claims on behalf of the Company for alleged breaches of fiduciary duty, unjust enrichment, abuse of control, gross mismanagement, and waste of corporate assets arising out of alleged wrongdoing by the defendants between November 6, 2024 and January 23, 2026, including allegedly making or causing the Company to make materially false and misleading statements and omissions regarding the Company's business, operations, and prospects. The plaintiff seeks unspecified damages on behalf of the Company, corporate governance reforms, restitution, attorneys' fees and costs, and such other relief as the court may deem just and proper. The litigation is in its early stages, and at this time the Company cannot reasonably estimate the possible loss or range of loss, if any, that may result from this matter.

On April 14, 2026, a putative class action complaint was filed in the Commonwealth of Massachusetts Superior Court, Middlesex County, captioned *Curran, Comegna, Jones, and Inoa, on behalf of themselves and all others similarly situated v. BlackRock TCP Capital Corp., et al.* The complaint names the Company, a BlackRock portfolio manager, and John Does 1-5 as defendants. The complaint purports to be brought on behalf of a class of all individuals who worked for Newpro Operating, LLC ("Newpro"), a subsidiary of portfolio company Renovo Home Partners, LLC ("Renovo"), as of October 2025, when Newpro ceased operations and Renovo subsequently filed for chapter 7 bankruptcy. The complaint alleges that the defendants violated the Massachusetts Wage Act, M.G.L. c. 149, § 148, by failing to pay (1) their final wages, (2) amounts withheld from employees' pay in so-called "forget me accounts" for that year, and (3) accrued paid vacation days upon their involuntary termination on or about October 28, 2025. The complaint alleges that the Company controlled, directed, or participated to a substantial degree in formulating and determining the policy of Newpro, including the decision to terminate Newpro's employees without paying their earned but unpaid wages, and is therefore jointly and severally liable under Massachusetts law. The plaintiffs seek treble damages, interest, and attorneys' fees and costs. The Company believes the claims are without merit and intends to defend the action vigorously. The litigation is in its early stages, and at this time the Company cannot reasonably estimate the possible loss or range of loss, if any, that may result from this matter.

Item 1A. Risk Factors

There have been no material changes to the risk factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2025 (the “Annual Report”). In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in our Annual Report, which could materially affect our business, financial condition and/or operating results. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

Item 2: Unregistered Sales of Equity Securities, Use of Proceeds, and Issuer Purchases of Equity Securities.

The following table summarizes the total shares repurchased and amounts paid by the Company under the Company Repurchase Plan, including broker fees, for the three months ended March 31, 2026 and 2025.

	Three Months Ended March 31,	
	2026	2025
Shares Repurchased	505,433	3,150

Item 4. Mine Safety Disclosures.

None

Item 5. Other Information.

During the three months ended March 31, 2026, no director or Section 16 officer of the Company adopted or terminated a “Rule 10b5–1 trading arrangement” or “non-Rule 10b5–1 trading arrangement,” as each term is defined in Item 408 of Regulation S-K.

Price Range of Common Stock

Our common stock began trading on April 5, 2012 and is currently traded on The NASDAQ Global Select Market under the symbol “TCPC.” The following table lists the high and low closing sale price for our common stock, the closing sale price as a percentage of ending net asset value, or NAV, and quarterly distributions per share in each fiscal quarter for the first quarter of the year ended December 31, 2026 and for each fiscal quarter in the years ended December 31, 2025 and December 31, 2024. On March 31, 2026, the reported closing price of our common stock was \$3.61 per share.

Pursuant to
18 U.S.C. Section 1350**

In connection with the Quarterly Report on Form 10-Q of BlackRock TCP Capital Corp. Section 13(r) Disclosure

The disclosure reproduced below was initially included in the Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission by BlackRock, Inc. ("BlackRock") with respect to its fiscal quarter ended March 31, 2026, in accordance with Section 13(r) of the Securities Exchange Act of 1934, as amended, regarding activities at Malaysia Airport Holdings Berhad, in which certain funds and entities affiliated with Global Infrastructure Management, LLC, a consolidated subsidiary of BlackRock, obtained a minority noncontrolling interest. BlackRock TCP Capital Corp. did not independently verify or participate in the preparation of the disclosure reproduced below.

BlackRock included the following disclosure in its Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2026:

Certain funds and entities affiliated with Global Infrastructure Partners, a consolidated subsidiary of the Company, obtained a minority non-controlling interest in Malaysia Airport Holdings Berhad in March 2025. Malaysia Airport Holdings Berhad is the operator of Kuala Lumpur International Airport (KUL) and 38 other airports in Malaysia, as well as Sabiha Gokcen International Airport (SAW) in Istanbul, Turkey.

Malaysia Airport Holdings Berhad provided the below information in connection with activities during the fiscal quarter ended March 31, 2026. We have not independently verified this information or confirmed whether activities contained therein are subject to the Iran Threat Reduction and Syria Human Rights Act of 2012.

Malaysia Airport Holdings Berhad informed the registrant that through February 28, 2026, Iran Airtour operated flights to one airport that Malaysia Airport Holdings Berhad operates. Malaysia Airport Holdings Berhad does not track profits specifically attributable to these activities.

This disclosure does not relate to any activities conducted directly by the registrant and relates solely to activities conducted by Malaysia Airport Holdings Berhad.
