Financial Outlook

The guidance provided below is based on Reddit's current estimates and is not a guarantee of future performance. This quidance is subject to significant risks and uncertainties that could cause actual results to differ materially, including the risk factors discussed in Reddit's reports on file with the Securities and Exchange Commission. Reddit undertakes no duty to update any forward-looking statements or estimates, except as required by applicable law.

As we look ahead, we will share our internal thoughts on revenue and Adjusted EBITDA for the third quarter.

In the third quarter of 2024, we estimate:

- Revenue in the range of \$290 million to \$310 million
- Adjusted EBITDA² in the range of \$40 million to \$60 million

Earnings Conference Call Information and Community Update

Reddit will host a conference call to discuss the results for the second quarter of 2024 on August 6, 2024, at 2:00 p.m. PT / 5:00 p.m. ET. A live webcast of the call can be accessed on Reddit's Investor Relations website at https://investor.redditinc.com and investor relations subreddit, r/RDDT, at https://www.reddit.com/r/RDDT/. A replay of the webcast and transcript will be available following the conclusion of the conference call on the same websites.

Reddit will solicit questions from the community in the investor relations subreddit, r/RDDT, at https://www.reddit.com/r/RDDT/ on Tuesday, August 6, 2024, and post responses following the earnings call at Reddit's Investor Relations website at https://investor.redditinc.com and r/RDDT at https://www.reddit.com/r/RDDT/.

Forward Looking Statements

This letter contains forward-looking statements within the meaning of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally relate to future events or Reddit's future financial or operating performance. In some cases, you can identify forward-looking statements because they contain words such as "may," "will," "should," "expects," "plans," "anticipates," "going to," "could," "intends," "target," "projects," "contemplates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these words or other similar terms or expressions that concern Reddit's expectations, strategy, priorities, plans or intentions. Forward-looking statements in this release include, but are not limited to, statements regarding Reddit's priorities, future financial and operating performance, including headcount strategy, breakeven performance objective, capitalization of training data, evolution of AI, international growth strategies to increase content consumption and improve local user experience, consumer product strategy with respect to growth and engagement, GAAP and non-GAAP guidance, strategies, and expectations of growth. Reddit's expectations and beliefs regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties that could cause actual results to differ materially from those projected, including those more fully described under the caption "Risk Factors" and elsewhere in documents that Reddit files with the Securities and Exchange Commission (the "SEC") from time to time, including Reddit's Quarterly Report on Form 10-Q for the guarter ended June 30, 2024, which is being filed with the SEC at or around the date hereof. The forward-looking statements in this release are based on information available to Reddit as of the date hereof, and Reddit undertakes no obligation to update any forward-looking statements, except as required by law.

A Note About Metrics

We define a daily active unique ("DAUq") as a user whom we can identify with a unique identifier who has visited a page on the Reddit website, www.reddit.com, or opened a Reddit application at least once during a 24-hour period. Average DAUq for a particular period is calculated by adding the number of DAUq on each day of that period and dividing that sum by the number of days in that period.

We define a weekly active unique ("WAUq") as a user whom we can identify with a unique identifier who has visited a page on the Reddit website, www.reddit.com, or opened a Reddit application at least once during a trailing seven-day period. Average quarterly WAUq for a particular period is calculated by adding the number of WAUq on each day of that period and dividing that sum by the number of days in that period.

We define average revenue per unique ("ARPU") as quarterly revenue in a given geography divided by the average DAUq in that geography. For the purposes of calculating ARPU, advertising revenue in a given geography is based on the geographic location in which advertising impressions are delivered, as this approximates revenue based on user activity, while other revenue in a given geography is based on the billing address of the customer.

Use of Non-GAAP Financial Measures

We use certain non-GAAP financial measures to supplement our consolidated financial statements, which are presented in accordance with U.S. GAAP, to evaluate our core operating performance. These non-GAAP financial measures include Adjusted EBITDA, Adjusted EBITDA margin, and Free Cash Flow. We use these non-GAAP financial measures to facilitate reviews of our operational performance and as a basis for strategic planning. By excluding certain items that are non-recurring or not reflective of the performance of our normal course of business, we believe that these non-GAAP financial measures provide meaningful supplemental information regarding our performance. Accordingly, we believe these non-GAAP financial measures are useful to investors and others because they allow investors to supplement their understanding of our financial trends and evaluate our ongoing and future performance in the same manner as management. However, there are a number of limitations related to the use of non-GAAP financial measures as they reflect the exercise of judgment by our management about which expenses are included or excluded in determining these non-GAAP measures. These non-GAAP measures should be considered in addition to, not as a substitute for or in isolation from, our financial results prepared in accordance with U.S. GAAP. Other companies, including companies in our industry, may calculate these non-GAAP financial measures differently or not at all, which reduces their usefulness as comparative measures.

A reconciliation is provided in the Appendix for each historical non-GAAP financial measure to the most directly comparable financial measure stated in accordance with U.S. GAAP. Reddit encourages investors to review the related U.S. GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable U.S. GAAP financial measures, and not to rely on any single financial measure to evaluate Reddit's business. We have not provided a reconciliation to the forward-looking GAAP equivalent measures for our non-GAAP guidance due to uncertainty regarding, and the potential variability of, reconciling items. Therefore, a reconciliation of these non-GAAP guidance measures to their corresponding GAAP guidance measures is not available without unreasonable effort.

Adjusted EBITDA is defined as net income (loss) excluding interest (income) expense, net, income tax expense (benefit), depreciation and amortization, stock-based compensation expense and related taxes, other (income) expense, net, and certain other non-recurring or non-cash items impacting net income (loss) that we do not consider indicative of our ongoing business performance. Other (income) expense, net consists primarily of realized gains and losses on sales of marketable securities, foreign currency transaction gains and losses, and other income and expense that are not indicative of our core operating performance. Adjusted EBITDA margin is defined as Adjusted EBITDA divided by revenue. We consider the exclusion of certain non-recurring or non-cash items in calculating Adjusted EBITDA to provide a useful measure for investors and others to evaluate our operating results in the same manner as management.

Free Cash Flow represents net cash provided by (used in) operating activities less purchases of property and equipment. We believe that Free Cash Flow is useful to investors as a liquidity measure because it measures our ability to generate or use cash. Once our business needs and obligations are met, cash can be used to maintain a strong balance sheet and invest in future growth. Additionally, we believe that Free Cash Flow is an important measure since we use third-party infrastructure partners to host our services and therefore we do not incur significant capital expenditures to support revenue generating activities.
