Auna vaccination center available to the Ministry of Health

- Headquarters has the necessary protocols, infrastructure and personnel.
- Initially, it is expected to immunize 1,000 people per day free of charge.

Clínicas Auna, aligned with its commitment to transform health care, joins the campaign "Lend my shoulder for Peru" and will make available to the State a vaccination center to support the territorial immunization process implemented by the Ministry of Health (MINSA), which will start operating in the coming days.

The center is located in Clínica Delgado Auna in the district of Miraflores and has the necessary infrastructure and installed capacity to attend those who will be vaccinated, complying with a differentiated flow during the tour and wait, providing the highest quality standards and biosafety protocols.

In a first stage, it is expected to serve 1,000 people per day, expanding its locations to reach 3,000 people in the coming weeks. Vaccination will be free of charge for everyone without

exception and will be carried out according to the order of priority indicated by the Government.

"In such a challenging and delicate situation for health as the current one, making synergies is of the utmost importance. Therefore, we welcome the initiative of the State to invite the private sector to collaborate with the vaccination process in order to, together, achieve results that positively impact the health of more people. The objective is only one: to vaccinate the majority of the population in the shortest time possible and thus, save more lives", said Luis Felipe Pinillos, Auna's General Manager.

As part of the private sector, which has been essential in the fight of the pandemic, Clínicas Auna seeks to continue joining efforts to save the most precious thing we have, lives.
