Beyond, Inc. Reports Second Quarter Results with Sequential Revenue Growth and Significant Profitability Gains

2025-07-28

Q2 Revenue of \$282M Increased 22% Sequentially Over First Quarter 2025

Year-over-Year Net Loss narrows by 55% with Adjusted EBITDA loss of \$8M improving 78% reflecting focused execution, disciplined expense management, and continued progress on path to profitability

MURRAY, Utah--(BUSINESS WIRE)-- Beyond, Inc. (NYSE:BYON), owner of Bed Bath & Beyond, Overstock, buybuy BABY, and a blockchain asset portfolio, today reported financial results for the second quarter ended June 30, 2025.

Adrienne Lee, President and Chief Financial Officer of Beyond, commented, "Our second quarter results reflect substantial progress in stabilizing our business and delivering improved profitability. This gives me confidence in our ability to move from transformational efforts into executing growth initiatives. We remain disciplined on deploying capital, delivering efficiencies, identifying growth opportunities and monetizing assets -- laying the groundwork for sustainable value creation."

Marcus Lemonis, Executive Chairman and Principal Executive Officer, added, "We continue to be laser focused on strengthening our core e-commerce retail business while actively unlocking value in our blockchain asset portfolio. With the newly signed into law GENIUS Act creating long-awaited regulatory clarity and consumer protections for digital assets, we believe the proprietary technology and innovative practices both tZERO and GrainChain bring to the business ecosystem are significant."

Lemonis concluded, "Our strategic priorities remain unchanged, we continue to enhance our digital experience for our value-seeking customers while unifying our tech stack across our family of brands. We are excited about our first small-

format Bed Bath & Beyond Home store in Nashville, Tennessee. It's a smart, scalable model that puts our iconic brands back in the heart of communities."

Supplemental Operational Data

We measure our business using operational metrics, in addition to the financial metrics shown above and the non-GAAP financial measures explained below. We believe these metrics provide investors with additional information regarding our financial results and provide key performance indicators to track our progress. These indicators include changes in customer order patterns and the mix of products purchased by our customers.

Active customers represent the total number of unique customers who have made at least one purchase during the prior twelve-month period. This metric captures both the inflow of new customers and the outflow of existing customers who have not made a purchase during the prior twelve-month period.

Last twelve months (LTM) net revenue per active customer represents total net revenue in a twelve-month period divided by the total number of active customers for the same twelve-month period.

Orders delivered represents the total number of orders delivered in any given period, including orders that may eventually be returned. As we ship a large volume of packages through multiple carriers, actual delivery dates may not always be available, and in those circumstances, we estimate delivery dates based on historical data.

Average order value is defined as total net revenue in any given period divided by the total number of orders delivered in that period.

Orders per active customer is defined as orders delivered in a twelve-month period divided by active customers for the same twelve-month period.

The following table provides our key operating metrics:

(in thousands, except for LTM net revenue per active customer, average order value and orders per active customer)

	Three months ended June 30,	
	2025	2024
Active customers	4,356	6,221
LTM net revenue per active customer	\$ 259	\$ 247
Orders delivered	1,289	1,949
Average order value	\$ 219	\$ 204
Orders per active customer	1.32	1.39

Non-GAAP Financial Measures and Reconciliations

We are providing certain non-GAAP financial measures in this release and related earnings conference call, including adjusted diluted net loss per share, adjusted EBITDA, and free cash flow. We use these non-GAAP measures internally in analyzing our financial results and we believe they are useful to investors, as a supplement to GAAP measures, in evaluating our ongoing operational performance and, in the case of free cash flow, our liquidity position, in the same manner as our management and board of directors. We have provided reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures in this earnings release. These non-GAAP financial measures should be used in addition to and in conjunction with the results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures.

Adjusted diluted net loss per share is a non-GAAP financial measure that is calculated as net income (net loss) less the income or losses recognized from our equity method securities, net of related tax. We believe that this adjustment to our net income (net loss) before calculating per share amounts for the current period presented provides a useful comparison between our operating results from period to period.

Adjusted EBITDA is a non-GAAP financial measure that is calculated as net income (net loss) before depreciation and amortization, stock-based compensation, interest and other income (expense), provision (benefit) for income taxes, and special items. We believe the exclusion of certain benefits and expenses in calculating adjusted EBITDA facilitates operating performance comparisons on a period-to-period basis. Exclusion of items in the non-GAAP presentation should not be construed as an inference that these items are unusual, infrequent or non-recurring.

Free cash flow is a non-GAAP financial measure that is calculated as net cash provided by or used in operating activities reduced by expenditures for property and equipment. We believe free cash flow is a useful measure to evaluate the cash impact of the operations of the business including purchases of property and equipment which are a necessary component of our ongoing operations.
