The following segment results are reported on a non-GAAP basis. Refer to the required reconciliations of non-GAAP to comparable GAAP measures at the end of this press release.

Consumer and Insurance Segment (“C&I”)

C&I adjusted pretax income was \$305 million and adjusted net income was \$229 million for the first quarter of 2026, compared to \$275 million and \$207 million, respectively, in the prior year quarter. Adjusted earnings per diluted share were \$1.95 for the first quarter of 2026, compared to \$1.72 in the prior year quarter.

Management runs the business based on capital generation, which it defines as C&I adjusted net income excluding the after-tax change in C&I allowance for finance receivable losses while still considering the current period C&I net charge-offs. Capital generation was \$194 million for the first quarter of 2026, comparable to the prior year quarter.

Managed receivables, which includes loans serviced for our whole loan sale partners and auto finance loans originated by third parties, were \$26.1 billion at March 31, 2026, up 6% from \$24.6 billion at March 31, 2025.

Consumer loan originations totaled \$3.1 billion in the first quarter of 2026, up 3% from \$3.0 billion in the prior year quarter.

Total revenue, comprising interest income and total other revenue, was \$1.6 billion in the first quarter of 2026, up 6% from \$1.5 billion in the prior year quarter. Interest income in the first quarter of 2026 was \$1.4 billion, up 6% from \$1.3 billion in the prior year quarter. The increase was driven by receivables growth.

Interest expense was \$322 million in the first quarter of 2026, up 4% from \$311 million in the prior year quarter, due to an increase in average debt to support our receivables growth.

The provision for finance receivable losses was \$465 million in the first quarter of 2026, up \$9 million compared to the prior year period. During the first quarter of 2026, the allowance for finance receivable losses decreased \$47 million driven by a seasonal decline in receivables.

Use of Non-GAAP Financial Measures

We report the operating results of Consumer and Insurance using the Segment Accounting Basis, which (i) reflects our allocation methodologies for interest expense and operating costs, to reflect the manner in which we assess our business results and (ii) excludes the impact of applying purchase accounting (eliminates premiums/discounts on our finance receivables and long-term debt at acquisition, as well as the amortization/accretion in future periods). Consumer and Insurance adjusted pretax income (loss), Consumer and Insurance adjusted net income (loss), and Consumer and Insurance adjusted earnings (loss) per diluted share are key performance measures used to evaluate the performance of our business. Consumer and Insurance adjusted pretax income (loss) represents income (loss) before income taxes on a Segment Accounting Basis and excludes net loss resulting from repurchases and repayments of debt, restructuring charges, and other items and strategic activities. We believe these non-GAAP financial measures are useful in assessing the profitability of our segment.

We also use pretax capital generation and capital generation, non-GAAP financial measures, as a key performance measure of our segment. Pretax capital generation represents Consumer and Insurance adjusted pretax income, as discussed above, and excludes the change in our Consumer and Insurance allowance for finance receivable losses in the period while still considering the Consumer and Insurance net charge-offs incurred during the period. Capital generation represents the after-tax effect of pretax capital generation. We believe that these non-GAAP measures are useful in assessing the capital created in the period impacting the overall capital adequacy of the Company. We believe that the Company's reserves, combined with its equity, represent the Company's loss absorption capacity.

We utilize these non-GAAP measures in evaluating our performance. Additionally, these non-GAAP measures are consistent with the performance goals established in OMH's executive compensation program. These non-GAAP financial measures should be considered supplemental to, but not as a substitute for or superior to, income (loss) before income taxes, net income, or other measures of financial performance prepared in accordance with GAAP.
