OUTLOOK

For fiscal 2024, the United States Department of Agriculture (USDA) indicates domestic protein production (beef, pork, chicken and turkey) should increase slightly compared to fiscal 2023 levels. The following is a summary of the updated outlook for each of our segments, as well as an outlook for revenues, capital expenditures, net interest expense, liquidity and tax rate for fiscal 2024. Certain of the outlook numbers include adjusted operating income (loss) (a non-GAAP metric) for each segment. The Company is not able to reconcile its full-year fiscal 2024 projected adjusted results to its fiscal 2024 projected GAAP results because certain information necessary to calculate such measures on a GAAP basis is unavailable or dependent on the timing of future events outside of our control. Therefore, because of the uncertainty and variability of the nature of and the amount of any potential applicable future adjustments, which could be significant, the Company is unable to provide a reconciliation for these forward-looking non-GAAP measures without unreasonable effort. Adjusted operating income (loss) should not be considered a substitute for operating income (loss) or any other measures of financial performance reported in accordance with GAAP. Investors should rely primarily on the Company's GAAP results and use non-GAAP financial measures only supplementally in making investment decisions.

Beef

USDA projects domestic production will decrease approximately 2% in fiscal 2024 as compared to fiscal 2023. We anticipate adjusted operating loss between (\$400) million and (\$100) million in fiscal 2024.

Pork

USDA projects domestic production will increase approximately 3% in fiscal 2024 as compared to fiscal 2023. We anticipate adjusted operating income of \$50 million to \$150 million in fiscal 2024.

Chicken

USDA projects chicken production will increase approximately 1% in fiscal 2024 as compared to fiscal 2023. We anticipate adjusted operating income of \$700 million to \$900 million for fiscal 2024.

Prepared Foods

We anticipate adjusted operating income of \$850 million to \$950 million in fiscal 2024.

International/Other

We anticipate improved results from our foreign operations in fiscal 2024 on an adjusted basis.

Total Company

We anticipate total company adjusted operating income of \$1.4 billion to \$1.8 billion for fiscal 2024.

Revenue

We expect sales to be relatively flat in fiscal 2024 as compared to fiscal 2023.

Capital Expenditures

We expect capital expenditures between \$1.2 billion and \$1.4 billion for fiscal 2024. Capital expenditures include investments in profit improvement projects as well as projects for maintenance and repair. This includes completion of capacity expansion projects as well as new equipment, automation technology and processes for product innovation.

Net Interest Expense

We expect net interest expense to approximate \$400 million for fiscal 2024.

Liquidity

We expect total liquidity, which was approximately \$4.4 billion as of March 30, 2024, to remain above our minimum liquidity target of \$1.0 billion. We anticipate using existing liquidity to retire the \$1.25 billion senior notes due August 2024.

Tax Rate

We currently expect our adjusted effective tax rate to be around 24% for fiscal 2024.

Non-GAAP Financial Measures

Adjusted Operating Income (Loss), Adjusted Income (Loss) before Income Taxes, Adjusted Income Tax Expense (Benefit), Adjusted Net Income (Loss) Attributable to Tyson and Adjusted EPS, EBITDA, Adjusted EBITDA, net debt to EBITDA, net debt to Adjusted EBITDA and Free Cash Flow are presented as supplemental financial measures in the evaluation of our business that are not required by, or presented in accordance with GAAP. The non-GAAP financial measures are tools intended to assist our management and investors in comparing our performance on a consistent basis for purposes of business decision-making by removing the impact of certain items that management believes do not directly reflect our core operations on an ongoing basis. These non-GAAP measures should not be a substitute for their comparable GAAP financial measures. Investors should rely primarily on our GAAP results and use non-GAAP financial measures only supplementally in making investment decisions. We believe the presentation of these non-GAAP financial measures helps management and investors to assess our operating performance from period to period, including our ability to generate earnings sufficient to service our debt, enhances understanding of our financial performance and highlights operational trends. These measures are widely used by investors and rating agencies in the valuation, comparison, rating and investment recommendations of companies. Our calculation of non-GAAP measures may not be comparable to similarly titled measures reported by other companies and other companies may not define these non-GAAP financial measures in the same way, which may limit their usefulness of comparative measures.

Definitions

EBITDA is defined as net income (loss) before interest, income taxes (benefits), depreciation and amortization. Net debt to EBITDA (Adjusted EBITDA) represents the ratio of our debt, net of cash, cash equivalents and short-term investments, to EBITDA (and to Adjusted EBITDA). EBITDA, Adjusted EBITDA, net debt to EBITDA and net debt to Adjusted EBITDA are presented as supplemental financial measurements in the evaluation of our business.

Adjusted EBITDA, Adjusted Operating Income (Loss), Adjusted Income (Loss) before Income Taxes, Adjusted Income Tax Expense (Benefit), Adjusted Net Income (Loss) Attributable to Tyson and Adjusted EPS are defined as EBITDA, Operating Income (Loss), Income (Loss) before Income Taxes, Income Tax Expense (Benefit), Net Income (Loss) Attributable to Tyson and diluted earnings per share, respectively, excluding the impacts of any items that management believes do not directly reflect our core operations on an ongoing basis.

Free Cash Flow is defined as Cash Provided by Operating Activities minus payments for Property, Plant and Equipment.

Forward-Looking Statements

Certain information in this release constitutes forward-looking statements as contemplated by the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, but are not limited to, current views and estimates of our outlook for fiscal 2024, other future economic circumstances, industry conditions in domestic and international markets, our performance and financial results (e.g., debt levels, return on invested capital, value-added product growth, capital expenditures, tax rates, access to foreign markets and dividend policy). These forward-looking statements are subject to a number of factors and uncertainties that could cause our actual results and experiences to differ materially from anticipated results and expectations expressed in such forward-looking statements. We wish to caution readers not to place undue reliance on any forward-looking statements, which are expressly qualified in their entirety by this cautionary statement and speak only as of the date made. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. Among the factors that may cause actual results and experiences to differ from anticipated results and expectations expressed in such forward-looking statements are the following: (i) global pandemics have had, and may in the future have, an adverse impact on our business and operations; (ii) the effectiveness of restructuring or financial excellence programs; (iii) access to foreign markets together with foreign economic conditions, including currency fluctuations, import/export restrictions and foreign politics; (iv) cyberattacks, other cyber incidents, security breaches or other disruptions of our information technology systems; (v) risks associated with our failure to consummate favorable acquisition transactions or integrate certain acquisitions' operations; (vi) the Tyson Limited Partnership's ability to exercise significant control over the Company; (vii) fluctuations in the cost and availability of inputs and raw materials, such as live cattle, live swine, feed grains (including corn and soybean meal) and energy; (viii) market conditions for finished products, including competition from other global and domestic food processors, supply and pricing of competing products and alternative proteins and demand for alternative proteins; (ix) outbreak of a livestock disease (such as African swine fever (ASF), avian influenza (AI) or bovine spongiform encephalopathy (BSE)), which could have an adverse effect on livestock we own, the availability of livestock we purchase, consumer perception of certain protein products or our ability to conduct our operations; (x) changes in consumer preference and diets and our ability to identify and react to consumer trends; (xi) effectiveness of advertising and marketing programs; (xii) significant marketing plan changes by large customers or loss of one or more large customers; (xiii) our ability to leverage brand value propositions; (xiv) changes in availability and relative costs of labor and contract farmers and our ability to maintain good relationships with team members, labor unions, contract farmers and independent producers providing us livestock, including as a result of our relocation of certain corporate team members to our world headquarters in Springdale, Arkansas; (xv) issues related to food safety, including costs resulting from product recalls, regulatory compliance and any related claims or litigation; (xvi) the effect of climate change and any legal or regulatory response thereto; (xvii) compliance with and changes to regulations and laws (both domestic and foreign), including changes in accounting standards, tax laws, environmental laws, agricultural laws and occupational, health and safety laws; (xviii) adverse results from litigation; (xix) risks associated with leverage, including cost increases due to rising interest rates or changes in debt ratings or outlook; (xx) impairment in the carrying value of our goodwill or indefinite life intangible assets; (xxi) our participation in a multiemployer pension plan; (xxii) volatility in capital markets or interest rates; (xxiii) risks associated with our commodity purchasing activities; (xxiv) the effect of, or changes in, general economic conditions; (xxv) impacts on our operations caused by factors and forces beyond our control, such as natural disasters, fire, bioterrorism, pandemics, armed conflicts or extreme weather; (xxvi) failure to maximize or assert our intellectual property rights; (xxvii) effects related to changes in tax rates, valuation of deferred tax assets and liabilities, or tax laws and their interpretation; and (xxviii) the other risks and uncertainties detailed from time to time in our filings with the Securities and Exchange Commission, including those included under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our most recent Annual Report on Form 10-K and Quarterly reports on Form 10-Q.
