EXPLANATORY NOTE

This report combines the reports on Form 10-Q for the three month period ended March 31, 2023 of Essex Property Trust, Inc., a Maryland corporation, and Essex Portfolio, L.P., a Delaware limited partnership of which Essex Property Trust, Inc. is the sole general partner.

Unless stated otherwise or the context otherwise requires, references to the "Company," "we," "us" or "our" mean collectively Essex Property Trust, Inc. and those entities/subsidiaries owned or controlled by Essex Property Trust, Inc., including Essex Portfolio, L.P., and references to the "Operating Partnership" mean Essex Portfolio, L.P. and those entities/subsidiaries owned or controlled by Essex Portfolio, L.P. Unless stated otherwise or the context otherwise requires, references to "Essex" mean Essex Property Trust, Inc., not including any of its subsidiaries.

Essex operates as a self-administered and self-managed real estate investment trust ("REIT"), and is the sole general partner of the Operating Partnership. As the sole general partner of the Operating Partnership, Essex has exclusive control of the Operating Partnership's day-to-day management.

The Company is structured as an umbrella partnership REIT ("UPREIT") and Essex contributes all net proceeds from its various equity offerings to the Operating Partnership. In return for those contributions, Essex receives a number of Operating Partnership limited partnership units ("OP Units," and the holders of such OP Units, "Unitholders") equal to the number of shares of common stock it has issued in the equity offerings. Contributions of properties to the Company can be structured as tax-deferred transactions through the issuance of OP Units, which is one of the reasons why the Company is structured in the manner outlined above. Based on the terms of the Operating Partnership's partnership agreement, OP Units can be exchanged into Essex common stock on a one-for-one basis. The Company maintains a one-for-one relationship between the OP Units issued to Essex and shares of common stock.

The Company believes that combining the reports on Form 10-Q of Essex and the Operating Partnership into this single report provides the following benefits:

- enhances investors' understanding of Essex and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both Essex and the Operating Partnership; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

Management operates Essex and the Operating Partnership as one business. The management of Essex consists of the same members as the management of the Operating Partnership.

All of the Company's property ownership, development, and related business operations are conducted through the Operating Partnership and Essex has no material assets, other than its investment in the Operating Partnership. Essex's primary function is acting as the general partner of the Operating Partnership. As general partner with control of the Operating Partnership, Essex consolidates the Operating Partnership for financial reporting purposes. Therefore, the assets and liabilities of Essex and the Operating Partnership are the same on their respective financial statements. Essex also issues equity from time to time and guarantees certain debt of the Operating Partnership, as disclosed in this report. The Operating Partnership holds substantially all of the assets of the Company, including the Company's ownership interests in its co-investments. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from equity offerings by the Company, which are contributed to the capital of the Operating Partnership in exchange for OP Units (on a one-for-one share of common stock per OP Unit basis), the Operating Partnership generates all remaining capital required by the Company's business. These sources of capital include the Operating Partnership's working capital, net cash provided by operating activities, borrowings under its revolving credit facilities, the issuance of secured and unsecured debt and equity securities and proceeds received from disposition of certain properties and co-investments.

The Company believes it is important to understand the few differences between Essex and the Operating Partnership in the context of how Essex and the Operating Partnership operate as a consolidated company. Stockholders' equity, partners' capital and noncontrolling interest are the main areas of difference between the condensed consolidated financial statements of Essex and those of the Operating Partnership. The limited partners of the Operating Partnership are accounted for as partners' capital in the Operating Partnership's condensed consolidated financial statements and as noncontrolling interest in Essex's condensed consolidated financial statements. The noncontrolling interest in the Operating Partnership's condensed consolidated financial statements include the interest of unaffiliated partners in various consolidated partnerships and co-investment partners. The noncontrolling interest in Essex's condensed consolidated financial statements include (i) the same noncontrolling interest as

presented in the Operating Partnership's condensed consolidated financial statements and (ii) OP Unitholders. The differences between stockholders' equity and partners' capital result from differences in the equity issued at Essex and Operating Partnership levels.

To help investors understand the significant differences between Essex and the Operating Partnership, this report on Form 10-Q provides separate condensed consolidated financial statements for Essex and the Operating Partnership; a single set of consolidated notes to such financial statements that includes separate discussions of stockholders' equity or partners' capital, and earnings per share/unit, as applicable; and a combined Management's Discussion and Analysis of Financial Condition and Results of Operations.

This report on Form 10-Q also includes separate Part I, Item 4. Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of Essex and the Operating Partnership in order to establish that the requisite certifications have been made and that Essex and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 (the "Exchange Act") and 18 U.S.C. §1350.

In order to highlight the differences between Essex and the Operating Partnership, the separate sections in this report on Form 10-Q for Essex and the Operating Partnership specifically refer to Essex and the Operating Partnership. In the sections that combine disclosure of Essex and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and co-investments and holds assets and debt, reference to the Company is appropriate because the Company is one business and the Company operates that business through the Operating Partnership. The separate discussions of Essex and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

The information furnished in the accompanying unaudited condensed consolidated balance sheets, statements of income and comprehensive income, equity, capital, and cash flows of the Company and the Operating Partnership reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the aforementioned condensed consolidated financial statements for the interim periods and are normal and recurring in nature, except as otherwise noted.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the notes to such unaudited condensed consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations herein. Additionally, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2022.

Notes to Condensed Consolidated Financial Statements
March 31, 2023 and 2022

(1) Organization and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements present the accounts of Essex Property Trust, Inc. ("Essex" or the "Company"), which include the accounts of the Company and Essex Portfolio, L.P. and its subsidiaries (the "Operating Partnership," which holds the operating assets of the Company), prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and in accordance with the instructions to Form 10-Q. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented have been included and are normal and recurring in nature. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2022.

All significant intercompany accounts and transactions have been eliminated in the unaudited condensed consolidated financial statements.

The unaudited condensed consolidated financial statements for the three months ended March 31, 2023 and 2022 include the accounts of the Company and the Operating Partnership. Essex is the sole general partner of the Operating Partnership, with a 96.6% general partnership interest as of both March 31, 2023 and December 31, 2022. Total Operating Partnership limited partnership units ("OP Units," and the holders of such OP Units, "Unitholders") outstanding were 2,260,842 and 2,272,496 as of March 31, 2023 and December 31, 2022, respectively, and the redemption value of the units, based on the closing price of the Company's common stock totaled approximately \$472.8 million and \$481.6 million as of March 31, 2023 and December 31, 2022, respectively.

As of March 31, 2023, the Company owned or had ownership interests in 251 operating apartment communities, comprising 61,924 apartment homes, excluding the Company's ownership interest in preferred equity co-investments, loan investments, three operating commercial buildings, and a development pipeline comprised of one unconsolidated joint venture project. The operating apartment communities are located in Southern California (primarily Los Angeles, Orange, San Diego, and Ventura counties), Northern California (the San Francisco Bay Area) and the Seattle metropolitan areas.

Revenues and Gains on Sale of Real Estate

Revenues from tenants renting or leasing apartment homes are recorded when due from tenants and are recognized monthly as they are earned which generally approximates a straight-line basis, else, adjustments are made to conform to a straight-line basis. Apartment homes are rented under short-term leases (generally, lease terms of 9 to 12 months). Revenues from tenants leasing commercial space are recorded on a straight-line basis over the life of the respective lease. See Note 3, Revenues, for additional information regarding such revenues.

The Company also generates other property-related revenue associated with the leasing of apartment homes, including storage income, pet rent, and other miscellaneous revenue. Similar to rental income, such revenues are recorded when due from tenants and recognized monthly as they are earned.

Apart from rental and other property-related revenue, revenues from contracts with customers are recognized as control of the promised services is passed to the customer. For customer contracts related to management and other fees from affiliates (which includes asset management and property management), the transaction price and amount of revenue to be recognized is determined each quarter based on the management fee calculated and earned for that month or quarter. The contract will contain a description of the service and the fee percentage for management services. Payments from such services are one month or one quarter in arrears of the service performed.

The Company recognizes any gains on sales of real estate when it transfers control of a property and when it is probable that the Company will collect substantially all of the related consideration.

Marketable Securities

The Company reports its equity securities at fair value, based on quoted market prices (Level 1 for the common stock and investment funds and Level 2 for the unsecured debt, and as defined by the FASB standard for fair value measurements). As of March 31, 2023 and December 31, 2022, \$0.1 million and \$0.2 million, respectively, of equity securities presented within common stock, preferred stock, and stock funds in the tables below represent investments measured at fair value, using net asset value as a practical expedient, and are not categorized in the fair value hierarchy.

Unrealized gains and losses in equity securities and interest income are included in interest and other income on the condensed consolidated statements of income and comprehensive income.

As of March 31, 2023 and December 31, 2022, equity securities consisted primarily of investment funds-debt securities, common stock, preferred stock and stock funds.

As of March 31, 2023 and December 31, 2022, marketable securities consisted of the following (\$ in thousands):

	March 31, 2023		
	Cost	Gross Unrealized Loss	Carrying Value
Equity securities:			
Investment funds - debt securities	\$ 38,523	\$ (5,174)	\$ 33,349
Common stock, preferred stock, and stock funds	77,004	(3,351)	73,653
Total - Marketable securities	<u>\$ 115,527</u>	<u>\$ (8,525)</u>	<u>\$ 107,002</u>

	December 31, 2022		
	Cost	Gross Unrealized Loss	Carrying Value
Equity securities:			
Investment funds - debt securities	\$ 43,155	\$ (6,771)	\$ 36,384
Common stock, preferred stock, and stock funds	78,481	(2,122)	76,359
Total - Marketable securities	<u>\$ 121,636</u>	<u>\$ (8,893)</u>	<u>\$ 112,743</u>

The Company uses the specific identification method to determine the cost basis of a debt security sold and to reclassify amounts from accumulated other comprehensive income for such securities.

For the three months ended March 31, 2023 and 2022, the proceeds from sales and maturities of marketable securities totaled \$26.7 million and \$27.9 million, respectively, which resulted in \$0.9 million and \$12.2 million in realized gains, respectively, for such periods.

For the three months ended March 31, 2023 and 2022, the portion of equity security unrealized gains or losses that were recognized in income totaled \$0.4 million in gains and \$24.6 million in losses, respectively, and were included in interest and other income (loss) on the Company's condensed consolidated statements of income and comprehensive income.

Variable Interest Entities

In accordance with accounting standards for consolidation of variable interest entities ("VIEs"), the Company consolidated the Operating Partnership, 18 DownREIT entities (comprising nine communities), and six co-investments as of March 31, 2023 and December 31, 2022. The Company consolidates these entities because it is the primary beneficiary. The Company has no assets or liabilities other than its investment in the Operating Partnership. The consolidated total assets and liabilities related to the above consolidated co-investments and DownREIT entities, net of intercompany eliminations, were approximately \$945.9 million and \$326.7 million, respectively, as of March 31, 2023 and \$939.4 million and \$324.3 million, respectively, as of December 31, 2022. Noncontrolling interests in these entities was \$121.4 million and \$121.5 million as of March 31, 2023 and December 31, 2022, respectively. The Company's financial risk in each VIE is limited to its equity investment in the VIE. As of March 31, 2023 and December 31, 2022, the Company did not have any VIEs of which it was not the primary beneficiary.

Equity-based Compensation

The cost of share- and unit-based compensation awards is measured at the grant date based on the estimated fair value of the awards. The estimated fair value of stock options and restricted stock granted by the Company are being amortized over the vesting period. The estimated grant date fair values of the long term incentive plan units (discussed in Note 14, "Equity Based Compensation Plans," in the Company's annual report on Form 10-K for the year ended December 31, 2022) are being amortized over the expected service periods.

Fair Value of Financial Instruments

Management believes that the carrying amounts of the outstanding balances under its lines of credit, and notes and other receivables approximate fair value as of March 31, 2023 and December 31, 2022, because interest rates, yields, and other terms for these instruments are consistent with interest rates, yields, and other terms currently available for similar instruments. Management has estimated that the fair value of the Company's fixed rate debt with a carrying value of \$5.7 billion as of both March 31, 2023 and December 31, 2022 was approximately \$5.3 billion and \$5.2 billion, respectively. Management has estimated that the fair value of the Company's \$222.4 million and \$274.2 million of variable rate debt at March 31, 2023 and December 31, 2022, respectively, was approximately \$221.6 million and \$273.2 million, respectively, based on the terms of existing mortgage notes payable, unsecured debt, and variable rate demand notes compared to those available in the marketplace. Management believes that the carrying amounts of cash and cash equivalents, restricted cash, accounts payable and accrued liabilities, construction payables, other liabilities, and dividends payable approximate fair value as of March 31, 2023 and December 31, 2022 due to the short-term maturity of these instruments. Marketable securities are carried at fair value as of March 31, 2023 and December 31, 2022.

Capitalization of Costs

The Company's capitalized internal costs related to development and redevelopment projects were comprised primarily of interest and employee compensation and totaled \$4.8 million and \$5.4 million during the three months ended March 31, 2023 and 2022, respectively. The Company capitalizes leasing commissions associated with the lease-up of development communities and amortizes the costs over the life of the leases. The amounts capitalized for leasing commissions are immaterial for all periods presented.

Co-investments

The Company owns investments in joint ventures in which it has significant influence, but its ownership interest does not meet the criteria for consolidation in accordance with U.S. GAAP. Therefore, the Company accounts for co-investments using the equity method of accounting. Under the equity method of accounting, the investment is carried at the cost of assets contributed, plus the Company's equity in earnings, less distributions received and the Company's share of losses. The significant accounting policies of the Company's co-investment entities are consistent with those of the Company in all material respects.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

Upon the acquisition of a controlling interest of a co-investment, the co-investment entity is consolidated and a gain or loss is recognized upon the remeasurement of co-investments in the consolidated statement of income equal to the amount by which the fair value of the Company's previously owned co-investment interest exceeds its carrying value. A majority of the co-investments, excluding most preferred equity investments, compensate the Company for its asset management services and some of these investments may provide promote income if certain financial return benchmarks are achieved. Asset management fees are recognized when earned, and promote fees are recognized when the earnings events have occurred and the amount is determinable and collectible. Any promote fees are reflected in equity income from co-investments.

Cash, Cash Equivalents and Restricted Cash

Highly liquid investments with original maturities of three months or less when purchased are classified as cash equivalents. Restricted cash balances relate primarily to reserve requirements for capital replacement at certain communities in connection with the Company's mortgage debt.

Accounting Estimates

The preparation of condensed consolidated financial statements, in accordance with U.S. GAAP, requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to acquiring, developing and assessing the carrying values of its real estate portfolio, its investments in and advances to joint ventures and affiliates, its notes receivables, and its qualification as a real estate investment trust ("REIT"). The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions.

Deferred Revenues and Remaining Performance Obligations

When cash payments are received or due in advance of the Company's performance of contracts with customers, deferred revenue is recorded. The total deferred revenue balance related to such contracts was \$1.5 million and \$1.7 million as of March 31, 2023 and December 31, 2022, respectively, and was included in accounts payable and accrued liabilities within the accompanying condensed consolidated balance sheets. The amount of revenue recognized for the three months ended March 31, 2023 that was included in the December 31, 2022 deferred revenue balance was \$0.2 million, which was included in interest and other income (loss) within the condensed consolidated statements of income and comprehensive income.

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account in the revenue recognition accounting standard. As of March 31, 2023, the Company had \$1.5 million of remaining performance obligations. The Company expects to recognize approximately 34% of these remaining performance obligations in 2023, an additional 53% through 2025, and the remaining balance thereafter.

(4) Co-investments

The Company has joint ventures and preferred equity investments in co-investments which own, operate, and develop apartment communities and are accounted for under the equity method. Additionally, the Company has invested in six technology co-investments and as of March 31, 2023 and December 31, 2022 the co-investment balance of these investments was \$32.0 million and \$39.4 million, respectively, and the aggregate commitment was \$87.0 million as of both March 31, 2023 and December 31, 2022. The carrying values of the Company's co-investments as of March 31, 2023 and December 31, 2022 are as follows (\$ in thousands, except parenthetical amounts):

(6) Related Party Transactions

The Company charges certain fees relating to its co-investments for asset management, property management, development and redevelopment services. These fees from affiliates totaled \$3.3 million and \$3.1 million during the three months ended March 31, 2023 and 2022, respectively. All of these fees are net of intercompany amounts eliminated by the Company. The Company netted development and redevelopment fees of approximately \$0.5 million and \$0.4 million against general and administrative expenses for the three months ended March 31, 2023 and 2022, respectively.

The Company's Chairman and founder, Mr. George M. Marcus, is the Chairman of the Marcus & Millichap Company ("MMC"), which is a parent company of a diversified group of real estate service, investment, and development firms. Mr. Marcus is also the Chairman of Marcus & Millichap, Inc. ("MMI"), and Mr. Marcus owns a controlling interest in MMI, a national brokerage firm listed on the New York Stock Exchange. For the three months ended March 31, 2023 and 2022, the Company did not pay brokerage commissions related to real estate transactions to MMC and its affiliates.

In August 2022, the Company funded an \$11.2 million preferred equity investment in an entity whose sponsor includes an affiliate of MMC. The entity owns three multifamily communities located in Azusa, CA. The investment initially accrues interest based on a 9.5% preferred return and is scheduled to mature in August 2027.

In February 2022, the Company provided a \$32.8 million related party bridge loan to BEX II in connection with the payoff of a debt related to one of its properties located in Southern California. The note receivable was scheduled to mature in March 2022, but was subsequently paid off in April 2022.

In January 2022, the Company provided a \$100.7 million related party bridge loan to Wesco VI in connection with the acquisition of Vela. The note receivable accrued interest at 2.64% and was scheduled to mature in February 2022, but was paid off in January 2022. Additionally, the Company received cash of \$121.3 million in January 2022 for the payoff of the remaining related party bridge loans to Wesco VI as detailed below.

In November 2021, the Company provided a \$48.4 million related party bridge loan in connection with the purchase of an interest in a single asset entity owning an apartment home community in Vista, CA. The note receivable accrued interest at 2.36% and was scheduled to mature in February 2022, but was paid off in January 2022.

In November 2021, the Company provided a \$61.9 million related party bridge loan to Wesco VI in connection with the acquisition of The Rexford. The note receivable accrued interest at 2.36% and was scheduled to mature in February 2022, but was paid off in January 2022.

In October 2021, the Company provided a \$30.3 million related party bridge loan to Wesco VI in connection with the acquisition of Monterra in Mill Creek. The note receivable accrued interest at 2.30% and was scheduled to mature in April 2022, but was paid off in January 2022.

In September 2021, the Company provided a \$29.2 million related party bridge loan to Wesco VI in connection with the acquisition of Martha Lake Apartments. The note receivable accrued interest at 2.15% and was scheduled to mature in December 2021. In December 2021, the maturity date of the note receivable was extended to March 2022, and in January 2022, the note receivable was paid off.

In June 2019, the Company acquired Brio, a 300-unit apartment home community located in Walnut Creek, CA. The Company issued DownREIT units to an affiliate of MMC, based on a contract price of \$164.9 million. The property was encumbered by \$98.7 million of mortgage debt which was assumed by the Company at the time of acquisition. As a result of this transaction, the Company consolidated the property based on a VIE analysis performed by the Company.

In February 2019, the Company funded a \$24.5 million preferred equity investment in an entity whose sponsor is an affiliate of MMC, which owns a multifamily development community located in Mountain View, CA. The investment initially accrued interest based on an 11.0% preferred return which was reduced to 9.0% upon completion and lease-up of the project. The investment is scheduled to mature in February 2024.

In October 2018, the Company funded an \$18.6 million preferred equity investment in an entity whose sponsor is an affiliate of MMC. The entity wholly owns a 268-unit apartment home community development located in Burlingame, CA. The investment initially accrued interest based on a 12.0% preferred return which was reduced to 9.0% upon completion and lease-up of the project. The investment is scheduled to mature in April 2024.

In May 2018, the Company made a commitment to fund a \$26.5 million preferred equity investment in an entity whose sponsors include an affiliate of MMC. The entity wholly owns a 400-unit apartment home community located in Ventura, CA. The investment accrued interest based on a 10.25% initial preferred return. The investment was scheduled to mature in May 2023. In November 2021, the Company received cash of \$18.3 million for the partial redemption of this preferred equity investment, and the maturity of the remaining commitment was extended to December 2028. As of March 31, 2023, the Company had a remaining commitment of \$13.0 million and continues to accrue interest on a 9.0% preferred return. The remaining committed amount is expected to be funded if and when requested by the sponsors.

In March 2017, the Company converted its existing \$15.3 million preferred equity investment in Sage at Cupertino, a 230-unit apartment home community located in San Jose, CA, into a 40.5% common equity ownership interest in the property. The Company issued DownREIT units to the other members, including an MMC affiliate, based on an estimated property valuation of \$90.0 million. At the time of the conversion, the property was encumbered by \$52.0 million of mortgage debt. As a result of this transaction, the Company consolidates the property based on a consolidation analysis performed by the Company.

As described in Note 5, Notes and Other Receivables, the Company has provided short-term loans to affiliates. As of March 31, 2023 and December 31, 2022, \$6.9 million and \$7.0 million, respectively, of short-term loans remained outstanding due from joint venture affiliates and is classified within notes and other receivables in the accompanying condensed consolidated balance sheets.

(8) Segment Information

The Company's segment disclosures present the measure used by the chief operating decision makers for purposes of assessing each segment's performance. The Company's chief operating decision makers are comprised of several members of its executive management team who use net operating income ("NOI") to assess the performance of the business for the Company's reportable operating segments. NOI represents total property revenues less direct property operating expenses.

The executive management team generally evaluates the Company's operating performance geographically. The Company defines its reportable operating segments as the three geographical regions in which its communities are located: Southern California, Northern California, and Seattle Metro.

Excluded from segment revenues and NOI are management and other fees from affiliates and interest and other income. Non-segment revenues and NOI included in the following schedule also consist of revenues generated from commercial properties and properties that have been sold. Other non-segment assets include items such as real estate under development, co-investments, real estate held for sale, cash and cash equivalents, marketable securities, notes and other receivables, and prepaid expenses and other assets.

The revenues and NOI for each of the reportable operating segments are summarized as follows for the three months ended March 31, 2023 and 2022 (\$ in thousands):

(10) Derivative Instruments and Hedging Activities

In September 2022, the Company entered into an interest rate swap contract which effectively fixed the interest rate at 4.2% on future draw downs of the \$300.0 million unsecured term loan. The term loan matures in October 2024 with three 12-month extension options, each exercisable at the Company's option, and the swap has a termination date of October 2026. The term loan includes a 6-month delayed draw feature and had no balance drawn as of March 31, 2023 and December 31, 2022. This derivative qualifies for hedge accounting.

As of March 31, 2023 and December 31, 2022, the swap contracts were presented in the consolidated balance sheets as an asset of \$3.0 million and \$5.6 million, respectively, and were included in prepaid expenses and other assets on the consolidated balance sheets.

As of March 31, 2023 and December 31, 2022, the Company had no interest rate caps.

The Company has four total return swap contracts, with an aggregate notional amount of \$223.4 million, that effectively convert \$223.4 million of mortgage notes payable to a floating interest rate based on the Securities Industry and Financial Markets Association Municipal Swap Index ("SIFMA") plus a spread. The total return swaps provide fair market value protection on the mortgage notes payable to the counterparties during the initial period of the total return swap until the Company's option to call the mortgage notes at par can be exercised. The Company can currently call all four of its total return swaps, with \$223.4 million of the outstanding debt at par. These derivatives do not qualify for hedge accounting and had a carrying and fair value of zero at both March 31, 2023 and December 31, 2022. These total return swaps are scheduled to mature between December 2024 and November 2033. The realized gains of \$1.0 million and \$2.5 million for the three months ended March 31, 2023 and 2022, respectively were reported in the condensed consolidated statements of income and comprehensive income as total return swap income.

(11) Commitments and Contingencies

The Company is subject to various lawsuits in the normal course of its business operations. Such lawsuits have not had a material adverse effect on the Company's financial condition, results of operations or cash flows. While no assurances can be given, the Company does not believe there is any pending or threatened litigation against the Company that, individually or in the aggregate, would reasonably be expected to have a material adverse effect on the Company.

In late 2022 and early 2023, a number of purported class actions were filed against RealPage, Inc., a seller of revenue management software, and various lessors of multifamily housing which utilize this software, including the Company. The complaints allege collusion among defendants to artificially increase rents of multifamily residential real estate above competitive levels. The Company believes these lawsuits are without merit and intends to vigorously defend against them. Given their early stage, the Company is unable to predict the outcome or estimate the amount of loss, if any, that may result from such matters. The Company is also subject to various other legal and/or regulatory proceedings arising in the normal course of its business operations. The Company believes that, with respect to such matters that it is currently a party to, the ultimate disposition of any such matter will not result in a material adverse effect on the Company's financial condition, results of operations or cash flows. To the extent that such a matter arises or is identified in the future that has other than a remote risk of having a material impact on the condensed consolidated financial statements, the Company will disclose the estimated range of possible outcomes associated with it, and, if an outcome is probable, accrue an appropriate liability for that matter. The Company will consider whether any such matter results in an impairment of value on the affected property and, if so, impairment will be recognized.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the Company's Condensed Consolidated Financial Statements and accompanying Notes thereto included elsewhere herein and with the Company's 2022 annual report on Form 10-K for the year ended December 31, 2022. Capitalized terms not defined in this section have the meaning ascribed to them elsewhere in this quarterly report on Form 10-Q. The Company makes statements in this section that are forward-looking statements within the meaning of the federal securities laws. For a complete discussion of forward-looking statements, see the section in this Form 10-Q entitled "Forward-Looking Statements."

Essex is a self-administered and self-managed REIT that acquires, develops, redevelops, and manages apartment communities in selected residential areas located on the West Coast of the United States. Essex owns all of its interests in its real estate investments, directly or indirectly through the Operating Partnership. Essex is the sole general partner of the Operating Partnership and, as of March 31, 2023, had an approximately 96.6% general partnership interest in the Operating Partnership.

The Company's investment strategy has two components: constant monitoring of existing markets, and evaluation of new markets to identify areas with the characteristics that underlie rental growth. The Company's strong financial condition supports its investment strategy by enhancing its ability to quickly shift acquisition, development, redevelopment, and disposition activities to markets that will optimize the performance of the Company's portfolio.

As of March 31, 2023, the Company owned or had ownership interests in 251 operating apartment communities, comprising 61,924 apartment homes, excluding the Company's ownership interest in preferred equity co-investments, loan investments, three operating commercial buildings, and a development pipeline comprised of one unconsolidated joint venture project.

The Company's apartment communities are located in the following major regions:

Southern California (primarily Los Angeles, Orange, San Diego, and Ventura counties)

Northern California (the San Francisco Bay Area)

Seattle Metro (the Seattle metropolitan area)

As of March 31, 2023, the Company's development pipeline was comprised of one unconsolidated joint venture project under development aggregating 264 apartment homes and various predevelopment projects, with total incurred costs of \$101.0 million, and estimated remaining project costs of approximately \$23.0 million, \$11.7 million of which represents the Company's share of estimated remaining costs, for total estimated project costs of \$124.0 million.

The Company's consolidated apartment communities are as follows:

	As of March 31, 2023		As of March 31, 2022	
	Apartment Homes	%	Apartment Homes	%
Southern California	21,913	43 %	22,190	43 %
Northern California	19,245	37 %	19,230	37 %
Seattle Metro	10,341	20 %	10,341	20 %
Total	51,499	100 %	51,761	100 %

Co-investments, including Wesco I, Wesco III, Wesco IV, Wesco V, Wesco VI, BEXAEW, BEX II, BEX IV and 500 Folsom communities, developments under construction, and preferred equity interest co-investment communities are not included in the table presented above for both periods.

Market Considerations

While COVID-19's impact begins to dissipate, the Company continues to comply with the stated intent of local, county, state and federal laws, some of which limit rent increases during times of emergency and impair the ability to collect unpaid rent during certain timeframes and at various regions in which our communities are located, impacting the Company and its properties. Concurrently, geopolitical tensions between Russian and Ukraine increased uncertainty during 2022 and 2023. Inflation has caused an increase in consumer prices, thereby reducing purchasing power and elevating the risks of a recession. Due to increased inflation, the U.S. Federal Reserve raised the federal funds rate a total of seven times during 2022 and two times in 2023. In response, market interest rates have increased significantly during this time. At the same time, the labor market remains historically tight and companies continue to look to add employees, pushing unemployment lower.

The long-term impact of these developments will largely depend on future laws that may be enacted, the impact on job growth and the broader economy, and reactions by consumers, companies, governmental entities and capital markets.

Primarily as a result of the impact of the COVID-19 pandemic, the Company's cash delinquencies as a percentage of scheduled rental income for the Company's stabilized apartment communities or "Same-Property" (stabilized properties consolidated by the Company for the quarters ended March 31, 2023 and 2022) have generally remained higher than the pre-pandemic historical average of 0.35% since the second quarter of 2020. Cash delinquencies were elevated at 2.2% for the three months ended March 31, 2022 decreasing slightly to 2.1% for the three months ended March 31, 2023. The Company continues to work with residents to collect such cash delinquencies. As of March 31, 2023, the delinquencies have not had a material adverse impact on the Company's liquidity position.

The foregoing macroeconomic conditions have not negatively impacted the Company's ability to access traditional funding sources on the same or reasonably similar terms as were available in recent periods prior to the pandemic. The Company is not at material risk of not meeting the covenants in its credit agreements and is able to timely service its debt and other obligations.

Comparison of the Three Months Ended March 31, 2023 to the Three Months Ended March 31, 2022

The Company's average financial occupancy for the Company's Same-Property portfolio was 96.7% and 96.3% for the three months ended March 31, 2023 and 2022, respectively. Financial occupancy is defined as the percentage resulting from dividing actual rental income by total scheduled rental income. Actual rental income represents contractual rental income pursuant to leases without considering delinquency and concessions. Total scheduled rental income represents the value of all apartment homes, with occupied apartment homes valued at contractual rental rates pursuant to leases and vacant apartment homes valued at estimated market rents. The Company believes that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant apartment home at its estimated market rate.

Market rates are determined using the recently signed effective rates on new leases at the property and are used as the starting point in the determination of the market rates of vacant apartment homes. The Company may increase or decrease these rates based on a variety of factors, including overall supply and demand for housing, concentration of new apartment deliveries within the same submarket which can cause periodic disruption due to greater rental concessions to increase leasing velocity, and rental affordability. Financial occupancy may not completely reflect short-term trends in physical occupancy and financial occupancy rates, and the Company's calculation of financial occupancy may not be comparable to financial occupancy disclosed by other REITs.

The Company does not take into account delinquency and concessions to calculate actual rent for occupied apartment homes and market rents for vacant apartment homes. The calculation of financial occupancy compares contractual rates for occupied apartment homes to estimated market rents for unoccupied apartment homes, and thus the calculation compares the gross value of all apartment homes excluding delinquency and concessions. For apartment communities that are development properties in lease-up without stabilized occupancy figures, the Company believes the physical occupancy rate is the appropriate performance metric. While an apartment community is in the lease-up phase, the Company's primary motivation is to stabilize the property, which may entail the use of rent concessions and other incentives, and thus financial occupancy, which is based on contractual income, is not considered the best metric to quantify occupancy.

The regional breakdown of the Company's Same-Property portfolio for financial occupancy for the three months ended March 31, 2023 and 2022 is as follows:

	Three Months Ended March 31,	
	2023	2022
Southern California	96.8 %	96.3 %
Northern California	96.6 %	96.4 %
Seattle Metro	96.6 %	95.9 %

The following table provides a breakdown of revenues amounts, including revenues attributable to the Same-Properties:

	Number of Apartment	Three Months Ended March 31,		Dollar	Percentage
Property Revenues (\$ in thousands)	Homes	2023	2022	Change	Change
Same-Property Revenues:					
Southern California	21,352	\$ 163,265	\$ 151,044	\$ 12,221	8.1 %
Northern California	18,371	155,592	146,168	9,424	6.4 %
Seattle Metro	10,341	70,038	64,203	5,835	9.1 %
Total Same-Property Revenues	50,064	388,895	361,415	27,480	7.6 %
Non-Same Property Revenues		20,761	17,801	2,960	16.6 %
Total Property Revenues		\$ 409,656	\$ 379,216	\$ 30,440	8.0 %

Same-Property Revenues increased by \$27.5 million or 7.6% to \$388.9 million in the first quarter of 2023 from \$361.4 million in the first quarter of 2022. The increase was primarily attributable to an increase of 6.8% in average rental rates from \$2,407 in the first quarter of 2022 to \$2,571 in the first quarter of 2023 and 0.3% of the increase was attributable to a decrease in cash concessions in the first quarter of 2023 compared to the first quarter of 2022.

Non-Same Property Revenues increased by \$3.0 million or 16.6% to \$20.8 million in the first quarter of 2023 from \$17.8 million in the first quarter of 2022. The increase was primarily due to the acquisitions of Regency Palm Court and Windsor Court in 2022 and an increase in average rental rates offset by the sale of Anavia in 2022.

Management and other fees from affiliates increased by \$0.1 million or 3.7% to \$2.8 million in the first quarter of 2023 from \$2.7 million in the first quarter of 2022. The increase was primarily due to increase in revenues used to calculate management fees.

Property operating expenses, excluding real estate taxes increased by \$5.0 million or 7.3% to \$73.9 million for the first quarter of 2023 compared to \$68.9 million for the first quarter of 2022, primarily due to increases of \$2.8 million in maintenance and repairs expenses, \$1.3 million in administrative expenses, \$0.4 million in personnel costs, and \$0.4 million in utilities expenses. Same-Property operating expenses, excluding real estate taxes, increased by \$5.1 million or 7.6% to \$71.8 million in the first quarter of 2023 compared to \$66.7 million in the first quarter of 2022, primarily due to increases of \$2.7 million in maintenance and repairs expenses, \$1.0 million in insurance and other expense, \$0.6 million in utilities expenses, \$0.3 million in administrative expenses, and \$0.3 million in personnel costs.

Real estate taxes decreased by \$0.7 million or 1.5% to \$46.5 million for the first quarter of 2023 compared to \$47.2 million for the first quarter of 2022, primarily due to a decrease in Washington real estate taxes driven primarily by decreases in tax rates in 2022. Same-Property real estate taxes decreased slightly by \$0.7 million or 1.6% to \$43.0 million for the first quarter of 2023 compared to \$43.7 million for the first quarter of 2022 primarily due to a decrease in Washington real estate taxes driven primarily by decreases in tax rates in 2022.

Corporate-level property management expenses increased by \$1.2 million or 11.8% to \$11.4 million for the first quarter of 2023 compared to \$10.2 million for the first quarter of 2022 due to costs pertaining to the centralization of certain property level functions.

Depreciation and amortization expense increased by \$2.8 million or 2.1% to \$136.3 million for the first quarter of 2023 compared to \$133.5 million for the first quarter of 2022, primarily due to an increase in depreciation expense from the completion of Station Park Green (Phase IV) development property in 2022 and the purchase of the Company's joint venture partners's 49.8% interest in Essex JV LLC co-investment that owned Regency Palm Court and Windsor Court, in 2022.

Gain on sale of real estate and land of \$59.2 million in the first quarter of 2023 was primarily attributable to the sale of CBC and The Sweeps apartment home community.

Interest expense increased by \$0.6 million or 1.2% to \$51.0 million for the first quarter of 2023 compared to \$50.4 million for the first quarter of 2022, primarily due to higher interest rates on the Company's unsecured lines of credit which resulted in an increase in interest expense of \$0.5 million for the first quarter of 2023. Additionally, there was an \$0.6 million decrease in capitalized interest in the first quarter of 2023, due to a decrease in development activity as compared to the same period in 2022. These increases to interest expense were partially offset by various debt that was paid off, matured, or regular principal amortization during and after the first quarter of 2022, which resulted in a decrease in interest expense of \$0.5 million for the first quarter of 2023.

Total return swap income of \$1.0 million in the first quarter of 2023 consists of monthly settlements related to the Company's total return swap contracts with an aggregate notional amount of \$223.4 million.

Interest and other income (loss) increased by \$20.1 million or 264.5% to an income of \$12.5 million for the first quarter of 2023 compared to a loss of \$7.6 million for the first quarter of 2022, primarily due to unrealized gains resulting from an increase in the fair value of marketable securities and an increase of \$7.7 million in insurance reimbursements, legal settlements, and other, driven by a one-time legal settlement claim.

Equity income from co-investments decreased by \$10.3 million or 48.6% to \$10.9 million for the first quarter of 2023 compared to \$21.2 million for the first quarter of 2022, primarily due to a decrease of \$17.1 million in co-investment promote income and an \$1.6 million increase in equity loss from co-investments partially offset by an \$8.8 million decrease in equity loss from non-core co-investments.

Deferred tax benefit on unconsolidated co-investments of \$0.9 million for the first quarter of 2023 is primarily due to net realized loss on deemed sales from non-core unconsolidated co-investments.

Liquidity and Capital Resources

As of March 31, 2023, the Company had \$67.7 million of unrestricted cash and cash equivalents and \$107.0 million in marketable securities, all of which were equity securities. The Company believes that cash flows generated by its operations, existing cash and cash equivalents, marketable securities balances and availability under existing lines of credit are sufficient to meet all of its anticipated cash needs during the next twelve months. Additionally, the capital markets continue to be available and the Company is able to generate cash from the disposition of real estate assets to finance additional cash flow needs, including continued development and select acquisitions. In the event that economic disruptions occur, the Company may further utilize other resources such as its cash reserves, lines of credit, or decreased investment in redevelopment activities to supplement operating cash flows. The Company is carefully monitoring and managing its cash position in light of ongoing conditions and levels of operations. The timing, source and amounts of cash flows provided by financing activities and used in investing activities are sensitive to changes in interest rates and other fluctuations in the capital markets environment, which can affect the Company's plans for acquisitions, dispositions, development and redevelopment activities.

As of March 31, 2023, Moody's Investor Service, and Standard and Poor's credit agencies rated the Company and the Operating Partnership, Baa1/Stable, and BBB+/Stable, respectively.

As of March 31, 2023, the Company had two unsecured lines of credit aggregating \$1.24 billion. As of March 31, 2023, there was no outstanding balance on the Company's \$1.2 billion unsecured line of credit. The underlying interest rate is based on a tiered rate structure tied to the Company's credit ratings, adjusted for the Company's sustainability metric grid, and was at Adjusted SOFR plus 0.75% as of March 31, 2023. This facility is scheduled to mature in January 2027, with two six-month extensions, exercisable at the Company's option. As of March 31, 2023, there was \$0.5 million outstanding on the Company's \$35.0 million working capital unsecured line of credit. The underlying interest rate on the \$35.0 million line is based on a tiered rate structure tied to the Company's credit ratings, adjusted for the Company's sustainability metric grid, and was at Adjusted SOFR plus 0.75% as of March 31, 2023. This facility is scheduled to mature in July 2024.

In October 2022, the Operating Partnership entered into a \$300.0 million unsecured term loan with an interest rate at Adjusted SOFR plus 0.85%. The Company also entered into an interest rate swap contract to fix the interest rate at 4.2%. The loan matures in October 2024 with three 12-month extension options, exercisable at the Company's option. The loan includes a six-month delayed draw feature. As of March 31, 2023, the term loan had not been drawn and had a balance of zero.

In September 2021, the Company entered into a new equity distribution agreement pursuant to which the Company may offer and sell shares of its common stock having an aggregate gross sales price of up to \$900.0 million (the "2021 ATM Program"). In connection with the 2021 ATM Program, the Company may also enter into related forward sale agreements, and may sell shares of its common stock pursuant to these agreements. The use of a forward sale agreement would allow the Company to lock in a share price on the sale of shares of its common stock at the time the agreement is executed, but defer receipt of the proceeds from the sale of shares until a later date should the Company elect to settle such forward sale agreement, in whole or in part, in shares of common stock.

The 2021 ATM Program replaced the prior equity distribution agreement entered into in September 2018 (the "2018 ATM Program"), which was terminated upon the establishment of the 2021 ATM Program. During the three months ended March 31, 2023, the Company did not sell any shares of its common stock through the 2021 ATM Program. As of March 31, 2023, there are no outstanding forward purchase agreements, and \$900.0 million of shares remains available to be sold under the 2021 ATM Program.

In December 2015, the Company's Board of Directors authorized a stock repurchase plan to allow the Company to acquire shares in an aggregate of up to \$250.0 million. In February 2019, the Board of Directors approved the replenishment of the stock repurchase plan such that, as of such date, the Company had \$250.0 million of purchase authority remaining under the stock repurchase plan. In each of May and December 2020, the Board of Directors approved the replenishment of the stock repurchase plan such that, as of such date, the Company had \$250.0 million of purchase authority remaining under the replenished plan. In September 2022, the Company's Board of Directors approved a new stock repurchase plan to allow the Company to acquire shares of common stock up to an aggregate value of \$500.0 million. The plan supersedes the Company's previous common stock repurchase plan announced in December 2015. During the three months ended March 31, 2023, the Company repurchased and retired 437,026 shares of its common stock totaling \$95.7 million, including commissions, at an average price of \$218.88 per share. As of March 31, 2023, the Company had \$302.7 million of purchase authority remaining under the stock repurchase plan.

Essex pays quarterly dividends from cash available for distribution. Until it is distributed, cash available for distribution is invested by the Company primarily in investment grade securities held available for sale or is used by the Company to reduce balances outstanding under its line of credit.

Development and Predevelopment Pipeline

The Company defines development projects as new communities that are being constructed, or are newly constructed and are in a phase of lease-up and have not yet reached stabilized operations. As of March 31, 2023, the Company's development pipeline was comprised of one unconsolidated joint venture project under development aggregating 264 apartment homes, and various consolidated predevelopment projects, with total incurred costs of \$101.0 million, and estimated remaining project costs of approximately \$23.0 million, \$11.7 million of which represents the Company's share of estimated remaining costs, for total estimated project costs of \$124.0 million.

The Company defines predevelopment projects as proposed communities in negotiation or in the entitlement process with an expected high likelihood of becoming entitled development projects. The Company may also acquire land for future development purposes or sale.

The Company expects to fund the development and predevelopment communities by using a combination of some or all of the following sources: its working capital, amounts available on its lines of credit, construction loans, net proceeds from public and private equity and debt issuances, and proceeds from the disposition of assets, if any.

Derivative Activity

The Company uses interest rate swaps, interest rate caps, and total return swap contracts to manage certain interest rate risks. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps and total return swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

Alternative Capital Sources

The Company utilizes co-investments as an alternative source of capital for acquisitions of both operating and development communities. As of March 31, 2023, the Company had an interest in 264 apartment homes in a community actively under development with a joint venture for total estimated costs of \$102.0 million. Total estimated remaining costs are approximately \$23.0 million, of which the Company estimates its remaining investment in these development joint ventures will be approximately \$11.7 million. In addition, the Company had an interest in 10,425 apartment homes of operating communities with joint ventures for a total book value of \$468.8 million as of March 31, 2023.

Off-Balance Sheet Arrangements

The Company has various unconsolidated interests in certain joint ventures. The Company does not believe that these unconsolidated investments have a materially different impact on its liquidity, cash flows, capital resources, credit or market risk than its consolidated operations. See Note 4, Co-investments, in the Notes to Condensed Consolidated Financial Statements, for carrying values and combined summarized financial information of these unconsolidated investments.

Critical Accounting Estimates

The preparation of condensed consolidated financial statements, in accordance with U.S. GAAP, requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. The Company defines critical accounting estimates as those that involve a significant level of estimation uncertainty and have had or are reasonably likely to have a material impact on the financial condition or results of operations of the Company. The Company's critical accounting estimates relate principally to the following key areas: (i) accounting for the acquisition of investments in real estate; and (ii) evaluation of events and changes in circumstances indicating whether the Company's rental properties may be impaired. The Company bases its estimates on historical experience, current market conditions, and various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from those estimates made by management.

The Company's critical accounting policies and estimates have not changed materially from the information reported in Note 2, Summary of Critical and Significant Accounting Policies, in the Company's annual report on Form 10-K for the year ended December 31, 2022.

Forward-Looking Statements

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this quarterly report on Form 10-Q which are not historical facts may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Exchange Act, including statements regarding the Company's expectations, estimates, assumptions, hopes, intentions, beliefs and strategies regarding the future. Words such as "expects," "assumes," "anticipates," "may," "will," "intends," "plans," "projects," "believes," "seeks," "future," "estimates," and variations of such words and similar expressions are intended to identify such forward-looking statements. Such forward-looking statements include, among other things, statements regarding the Company's expectations related to the continued evolution of the work-from-home trend as well as other impacts on the Company's financial statements and operating results, the Company's intent, beliefs or expectations with respect to the timing of completion of current development and redevelopment projects and the stabilization of such projects, the timing of lease-up and occupancy of its apartment communities, the anticipated operating performance of its apartment communities, the total projected costs of development and redevelopment projects, co-investment activities, qualification as a REIT under the Internal Revenue Code of 1986, as amended, 2023 Same-Property revenue and operating expenses generally and in specific regions, the real estate markets in the geographies in which the Company's properties are located and in the United States in general, the adequacy of future cash flows to meet anticipated cash needs, its financing activities and the use of proceeds from such activities, the availability of debt and equity financing, general economic conditions including the potential impacts from such economic conditions, inflation, the labor market, supply chain impacts and ongoing hostilities between Russia and Ukraine, trends affecting the Company's financial condition or results of operations, changes to U.S. tax laws and regulations in general or specifically related to REITs or real estate, changes to laws and regulations in jurisdictions in which communities the Company owns are located, and other information that is not historical information.

While the Company's management believes the assumptions underlying its forward-looking statements are reasonable, such forward-looking statements involve known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control, which could cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The Company cannot assure the future results or outcome of the matters described in these statements; rather, these statements merely reflect the Company's current expectations of the approximate outcomes of the matters discussed. Factors that might cause the Company's actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements include, but are not limited to, the following: potential future outbreaks of infectious diseases or other health concerns, which could adversely affect the Company's business and its tenants, and cause a significant downturn in general economic conditions, the real estate industry, and the markets in which the Company's communities are located; the Company may fail to achieve its business objectives; the actual completion of development and redevelopment projects may be subject to delays; the stabilization dates of such projects may be delayed; the Company may abandon or defer development or

redevelopment projects for a number of reasons, including changes in local market conditions which make development less desirable, increases in costs of development, increases in the cost of capital or lack of capital availability, resulting in losses; the total projected costs of current development and redevelopment projects may exceed expectations; such development and redevelopment projects may not be completed; development and redevelopment projects and acquisitions may fail to meet expectations; estimates of future income from an acquired property may prove to be inaccurate; occupancy rates and rental demand may be adversely affected by competition and local economic and market conditions; there may be increased interest rates, inflation, escalated operating costs and possible recessionary impacts; as well as uncertainties regarding ongoing hostilities between Russia and Ukraine and the related impacts on macroeconomic conditions, including, among other things, interest rates and inflation; the Company may be unsuccessful in the management of its relationships with its co-investment partners; future cash flows may be inadequate to meet operating requirements and/or may be insufficient to provide for dividend payments in accordance with REIT requirements; changes in laws or regulations; the terms of any refinancing may not be as favorable as the terms of existing indebtedness; unexpected difficulties in leasing of development projects; volatility in financial and securities markets; the Company's failure to successfully operate acquired properties; unforeseen consequences from cyber-intrusion; the Company's inability to maintain our investment grade credit rating with the rating agencies; government approvals, actions and initiatives, including the need for compliance with environmental requirements; and those further risks, special considerations, and other factors referred to in this quarterly report on Form 10-Q, in the Company's annual report on Form 10-K for the year ended December 31, 2022, and those risk factors and special considerations set forth in the Company's other filings with the SEC which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements are made as of the date hereof, the Company assumes no obligation to update or supplement this information for any reason, and therefore, they may not represent the Company's estimates and assumptions after the date of this report.

Funds from Operations Attributable to Common Stockholders and Unitholders

Funds from Operations Attributable to Common Stockholders and Unitholders ("FFO") is a financial measure that is commonly used in the REIT industry. The Company presents FFO and FFO excluding non-core items (referred to as "Core FFO") as supplemental operating performance measures. FFO and Core FFO are not used by the Company as, nor should they be considered to be, alternatives to net income computed under U.S. GAAP as an indicator of the Company's operating performance or as alternatives to cash from operating activities computed under U.S. GAAP as an indicator of the Company's ability to fund its cash needs.

FFO and Core FFO are not meant to represent a comprehensive system of financial reporting and do not present, nor do they intend to present, a complete picture of the Company's financial condition and operating performance. The Company believes that net income computed under U.S. GAAP is the primary measure of performance and that FFO and Core FFO are only meaningful when they are used in conjunction with net income.

The Company considers FFO and Core FFO to be useful financial performance measurements of an equity REIT because, together with net income and cash flows, FFO and Core FFO provide investors with additional bases to evaluate operating performance and ability of a REIT to incur and service debt and to fund acquisitions and other capital expenditures and to pay dividends. By excluding gains or losses related to sales of depreciated operating properties and land and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help investors compare the operating performance of a real estate company between periods or as compared to different companies. By further adjusting for items that are not considered part of the Company's core business operations, Core FFO allows investors to compare the core operating performance of the Company to its performance in prior reporting periods and to the operating performance of other real estate companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual operating results. The Company believes that its condensed consolidated financial statements, prepared in accordance with U.S. GAAP, provide the most meaningful picture of its financial condition and its operating performance.

In calculating FFO, the Company follows the definition for this measure published by the National Association of Real Estate Investment Trusts ("NAREIT"), which is the leading REIT industry association. The Company believes that, under the NAREIT FFO definition, the two most significant adjustments made to net income are (i) the exclusion of historical cost depreciation and (ii) the exclusion of gains and losses from the sale of previously depreciated properties. The Company agrees that these two NAREIT adjustments are useful to investors for the following reasons:

- (a) historical cost accounting for real estate assets in accordance with U.S. GAAP assumes, through depreciation charges, that the value of real estate assets diminishes predictably over time. NAREIT stated in its White Paper on Funds from Operations "since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves." Consequently, NAREIT's definition of FFO reflects the fact that real estate, as an asset class, generally appreciates over time and depreciation charges required by U.S. GAAP do not reflect the underlying economic realities.
- (b) REITs were created as a legal form of organization in order to encourage public ownership of real estate as an asset class through investment in firms that were in the business of long-term ownership and management of real estate. The exclusion, in NAREIT's definition of FFO, of gains and losses from the sales of previously depreciated operating real estate assets allows investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT's activity and assists in comparing those operating results between periods.

Management believes that it has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REITs' calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosure of FFO may not be comparable to the Company's calculation.

The table below is a reconciliation of net income available to common stockholders to FFO and Core FFO for the three months ended March 31, 2023 and 2022 (in thousands, except share and per share amounts):

Essex Property Trust, Inc.

⁽⁴⁾ Assumes conversion of all outstanding limited partnership units in the Operating Partnership into shares of the Company's common stock and excludes DownREIT limited partnership units.

Net Operating Income

Net operating income ("NOI") and Same-Property NOI are considered by management to be important supplemental performance measures to earnings from operations included in the Company's condensed consolidated statements of income. The presentation of Same-Property NOI assists with the presentation of the Company's operations prior to the allocation of depreciation and any corporate-level or financing-related costs. NOI reflects the operating performance of a community and allows for an easy comparison of the operating performance of individual communities or groups of communities. In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. The Company defines Same-Property NOI as Same-Property revenues less Same-Property operating expenses, including property taxes. Please see the reconciliation of earnings from operations to NOI and Same-Property NOI, which in the table below is the NOI for stabilized properties consolidated by the Company for the periods presented (\$ in thousands):

	Three Months Ended March 31,	
	2023	2022
Earnings from operations	\$ 187,385	\$ 109,850
Adjustments:

Less: Non-Same Property NOI	(15,145)	(12,088)
Same-Property NOI	\$ 274,099	\$ 251,028

Item 3: Quantitative and Qualitative Disclosures About Market Risks

Interest Rate Hedging Activities

The Company's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company uses interest rate swaps as part of its cash flow hedging strategy. As of March 31, 2023, the Company had one interest rate swap contract to mitigate the risk of changes in the interest-related cash outflows on \$300.0 million of the unsecured term loan that had not been drawn and had a balance of zero.

The Company's interest rate swap was designated as cash flow hedge as of March 31, 2023. The following table summarizes the notional amount, carrying value, and estimated fair value of the Company's cash flow hedge derivative instruments used to hedge interest rates as of March 31, 2023. The notional amount represents the aggregate amount of a particular security that is currently hedged at one time, but does not represent exposure to credit, interest rates or market risks. The table also includes a sensitivity analysis to demonstrate the impact on the Company's derivative instruments from an increase or decrease in 10-year Treasury bill interest rates by 50 basis points, as of March 31, 2023.

(\$ in thousands)	Notional Amount	Maturity Date Range	Carrying and Estimated Fair Value	Estimated Carrying Value	
				+50 Basis Points	-50 Basis Points
Cash flow hedges:					
Interest rate swaps	\$ 300,000	2026	\$ 2,985	\$ 7,631	\$ (1,854)
Total cash flow hedges	\$ 300,000	2026	\$ 2,985	\$ 7,631	\$ (1,854)

Additionally, the Company has entered into total return swap contracts, with an aggregate notional amount of \$223.4 million that effectively convert \$223.4 million of fixed mortgage notes payable to a floating interest rate based on the SIFMA plus a spread and have a carrying value of zero at March 31, 2023. The Company is exposed to insignificant interest rate risk on these total return swaps as the related mortgages are callable, at par, by the Company, co-terminus with the termination of any related swap. These derivatives do not qualify for hedge accounting.

Interest Rate Sensitive Liabilities

The Company is exposed to interest rate changes primarily as a result of its lines of credit and long-term debt used to maintain liquidity and fund capital expenditures and expansion of the Company's real estate investment portfolio and operations. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, the Company borrows primarily at fixed rates and may enter into derivative financial instruments such as interest rate swaps, caps, and treasury locks in order to mitigate its interest rate risk on a related financial instrument. The Company does not enter into derivative or interest rate transactions for speculative purposes.

The Company's interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts and weighted average interest rates by year of expected maturity to evaluate the expected cash flows.

For the Years Ended	2023	2024	2025	2026	2027	Thereafter	Total	Fair value
(\$ in thousands, except for interest rates)								
Fixed rate debt	\$ 301,577	402,177	632,035	548,291	419,558	3,417,000	\$ 5,720,638	\$ 5,256,739
Average interest rate	3.4 %	4.0 %	3.5 %	3.5 %	3.8 %	3.0 %	3.2 %	
Variable rate debt ⁽¹⁾	\$ 646	1,389	1,019	1,114	84,397	135,269	\$ 223,834	\$ 221,598
Average interest rate	3.9 %	4.4 %	3.9 %	3.9 %	3.6 %	3.8 %	3.8 %	

⁽¹⁾ \$223.4 million of variable rate debt is tax exempt to the note holders.

The table incorporates only those exposures that exist as of March 31, 2023. It does not consider those exposures or positions that could arise after that date. As a result, the Company's ultimate realized gain or loss, with respect to interest rate fluctuations and hedging strategies would depend on the exposures that arise prior to settlement.

Item 4: Controls and Procedures

Essex Property Trust, Inc.

As of March 31, 2023, Essex carried out an evaluation, under the supervision and with the participation of management, including Essex's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Essex's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based upon that evaluation, Essex's Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2023, Essex's disclosure controls and procedures were effective to ensure that the information required to be disclosed by Essex in the reports that Essex files or submits under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such disclosure controls and procedures were also effective to ensure that information required to be disclosed in the reports that Essex files or submits under the Exchange Act is accumulated and communicated to Essex's management, including Essex's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in Essex's internal control over financial reporting, that occurred during the quarter ended March 31, 2023, that have materially affected, or are reasonably likely to materially affect, Essex's internal control over financial reporting.

Essex Portfolio, L.P.

As of March 31, 2023, the Operating Partnership carried out an evaluation, under the supervision and with the participation of management, including Essex's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Operating Partnership's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2023, the Operating Partnership's disclosure controls and procedures were effective to ensure that the information required to be disclosed by the Operating Partnership in the reports that the Operating Partnership files or submits under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such disclosure controls and procedures were also effective to ensure that information required to be disclosed in the reports that the Operating Partnership files or submits under the Exchange Act is accumulated and communicated to the Operating Partnership's management, including Essex's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in the Operating Partnership's internal control over financial reporting, that occurred during the quarter ended March 31, 2023, that have materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

Part II -- Other Information

Item 1: Legal Proceedings

The information regarding lawsuits, other proceedings and claims, set forth in Note 11, Commitments and Contingencies, in the Notes to Condensed Consolidated Financial Statements, is incorporated by reference into this Item 1. In addition to such matters referred to in Note 11, the Company is subject to various lawsuits in the normal course of its business operations. While the resolution of any such matter cannot be predicted with certainty, the Company is not currently a party to any legal proceedings nor is any legal proceeding currently threatened against the Company that the Company believes, individually or in the aggregate, would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 1A: Risk Factors

In addition to the other information set forth in this quarterly report on Form 10-Q, you should carefully consider the factors discussed in "Part I. Item 1A. Risk Factors" in the Company's annual report on Form 10-K for the year ended December 31, 2022, which could materially affect the Company's financial condition, results of operations or cash flows. There have been no material changes to the Risk Factors disclosed in Item 1A of the Company's annual report on Form 10-K for the year ended December 31, 2022, as filed with the SEC and available at www.sec.gov. The risks described in the Company's annual report on Form 10-K and subsequent quarterly reports on Form 10-Q are not the only risks facing the Company. Additional risks and uncertainties not currently known or that the Company currently deems to be immaterial may also materially adversely affect the Company's financial condition, results of operations or cash flows.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities; Essex Portfolio, L.P.

During the three months ended March 31, 2023, the Operating Partnership issued OP Units in private placements in reliance on the exemption from registration provided by Section 4(a)(2) of the Securities Act, in the amounts and for the consideration set forth below:

During the three months ended March 31, 2023, Essex issued an aggregate of 14,037 shares of its common stock upon the vesting of restricted stock awards and the exchange of OP units by limited partners or members into shares of common stock. Furthermore, for each share of common stock issued by Essex in connection with vesting of restricted stock awards and the exchange of OP units, the Operating Partnership issued OP Units to Essex, as required by the partnership agreement. During the three months ended March 31, 2023, 14,037 OP Units were issued to Essex pursuant to this mechanism.

Stock Repurchases

The following table summarizes the Company's purchases of its common stock during the three months ended March 31, 2023.

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Program ⁽¹⁾	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Program (in millions) ⁽¹⁾
January 1, 2023 - January 31, 2023	63,700	\$ 210.98	63,700	\$ 384.9
February 1, 2023 - February 28, 2023	106,118	\$ 233.86	106,118	\$ 360.1
March 1, 2023 - March 31, 2023	267,208	\$ 214.82	267,208	\$ 302.7
Total	437,026	\$ 218.88	437,026	\$ 302.7

⁽¹⁾ In September 2022, the Board of Directors approved a new stock repurchase plan to allow the Company to acquire shares of common stock up to an aggregate of \$500.0 million. The plan supersedes the Company's previous common stock repurchase plan announced in December 2015.

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
