## Fourth Quarter and Full-Year 2024 Highlights:

- Reported Net Income per diluted share for the fourth quarter of 2024 of \$4.00, compared to \$1.02 in the fourth quarter of 2023. For the full-year 2024, the Company reported Net Income per diluted share of \$11.54 compared to \$6.32 in 2023. The year-over-year increases were primarily driven by gains on sale of real estate and gains on remeasurements of co-investments.
- Grew Core FFO per diluted share by 2.3% compared to the fourth quarter of 2023 and 3.8% compared to the full-year 2023, exceeding the high-end of the Company's original guidance range. The outperformance was primarily driven by favorable same-property revenue growth.
- Achieved same-property revenues and net operating income ("NOI") growth of 2.6% and 1.7%, respectively, compared to the fourth quarter of 2023. For the full-year 2024, same-property revenues and NOI grew 3.3% and 2.6%, respectively, both exceeding the high-end of the Company's original guidance range.
- For the full-year 2024, the Company acquired or increased its ownership interest in 13 apartment communities for a total contract price of \$1.4 billion on a gross basis (\$849.4 million at pro rata) and disposed of one apartment community for a contract price of \$252.4 million on a gross basis (\$205.7 million at pro rata).
- For the full-year 2024, the Company received cash proceeds of \$108.8 million from redemptions of structured finance investments yielding a weighted average return rate of 10.4%.

#### **INVESTMENT ACTIVITY**

## Acquisitions

In October, the Company acquired its joint venture partner's 49.9% interest in the BEX II portfolio, comprising four communities totaling 871 apartment homes, for a total contract price of \$337.5 million on a gross basis (\$168.4 million at pro rata). Concurrent with the closing, the Company assumed \$95.0 million of secured mortgages associated with the portfolio and consolidated the communities on the Company's financial statements. As a result of the acquisition, the Company recorded a gain on remeasurement of co-investments of \$40.6 million in the fourth quarter, which has been excluded from Total and Core FFO.

In November, the Company acquired Beaumont, a 344-unit apartment home community built in 2009 and located in Woodinville, WA for a contract price of \$136.1 million.

Subsequent to quarter end, the Company acquired The Plaza, a 307-unit apartment home community built in 2013 and located in Foster City, CA for a contract price of \$161.4 million.

## **Dispositions**

In October, the Company sold its 81.5% interest in a 76-year-old apartment home community located in San Mateo, CA for a contract price of \$252.4 million on a gross basis (\$205.7 million at pro rata). The Company recorded a gain on sale of real estate of \$175.6 million in the fourth quarter, which has been excluded from Total and Core FFO.

## **Other Investments**

In the fourth quarter, the Company received cash proceeds of \$58.4 million from the full and partial redemptions of three structured finance investments yielding a 9.7% weighted average rate of return. For the full-year 2024, the Company received cash proceeds of \$108.8 million from the redemptions of structured finance investments yielding a 10.4% weighted average rate of return.

In the fourth quarter, the Company repaid a \$72.0 million senior mortgage associated with a preferred equity investment in a stabilized apartment home community located in Oakland, CA and subsequently assumed full managerial control in January 2025. The Company has not accrued income on this investment since the fourth quarter of 2022 and impaired the investment in the fourth quarter of 2023. The Company will consolidate the apartment home community on its financial statements in the first quarter of 2025 and expects this investment will be FFO neutral to the 2025 forecast.

#### **BALANCE SHEET AND LIQUIDITY**

## Common Stock and Liquidity

For the full-year 2024, the Company did not issue any shares of common stock through its equity distribution program or repurchase any shares through its stock repurchase plan.

As of December 31, 2024, the Company had approximately \$1.3 billion in liquidity via undrawn capacity on its unsecured credit facilities, cash and cash equivalents, and marketable securities.

## FFO RECONCILIATION

FFO, as defined by the National Association of Real Estate Investment Trusts ("NAREIT"), is generally considered by industry analysts as an appropriate measure of performance of an equity REIT. Generally, FFO adjusts the net income of equity REITs for non-cash charges such as depreciation and amortization of rental properties, impairment charges, gains on sales of real estate and extraordinary items. Management considers FFO and FFO which excludes non-core items, which is referred to as "Core FFO," to be useful supplemental operating performance measures of an equity REIT because, together with net income and cash flows, FFO and Core FFO provide investors with additional bases to evaluate the operating performance and ability of a REIT to incur and service debt and to fund acquisitions and other capital expenditures and to pay dividends. By excluding gains or losses related to sales of depreciated operating properties and land and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help investors compare the operating performance of a real estate company between periods or as compared to different companies. By further adjusting for items that are not considered part of the Company's core business operations, Core FFO allows investors to compare the core operating performance of the Company to its performance in prior reporting periods and to the operating performance of other real estate companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual operating results. FFO and Core FFO do not represent net income or cash flows from operations as defined by U.S. generally accepted accounting principles ("GAAP") and are not intended to indicate whether cash flows will be sufficient to fund cash needs. These measures should not be considered as alternatives to net income as an indicator of the REIT's operating performance or to cash flows as a measure of liquidity. FFO and Core FFO do not measure whether cash flow is sufficient to fund all cash needs including principal amortization, capital improvements and distributions to stockholders. FFO and Core FFO also do not represent cash flows generated from operating, investing or financing activities as defined under GAAP. Management has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REITs' calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosures of FFO may not be comparable to the Company's calculation.

The following table sets forth the Company's calculation of diluted FFO and Core FFO for the three and twelve months ended December 31, 2024 and 2023 (in thousands, except for share and per share amounts):

## NET OPERATING INCOME ("NOI") AND SAME-PROPERTY NOI RECONCILIATIONS

NOI and Same-Property NOI are considered by management to be important supplemental performance measures to earnings from operations included in the Company's consolidated statements of income. The presentation of same-property NOI assists with the presentation of the Company's operations prior to the allocation of depreciation and any corporate-level or financing-related costs. NOI reflects the operating performance of a community and allows for an easy comparison of the operating performance of individual communities or groups of communities. In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. The Company defines same-property NOI as same-property revenues less same-property operating expenses, including property taxes. Please see the reconciliation of earnings from operations to NOI and same-property NOI, which in the table below is the NOI for stabilized properties consolidated by the Company for the periods presented (dollars in thousands):

#### SAFE HARBOR STATEMENT UNDER THE PRIVATE LITIGATION REFORM ACT OF 1995:

This press release includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forwardlooking statements are statements which are not historical facts, including statements regarding the Company's expectations, estimates, assumptions, hopes, intentions, beliefs and strategies regarding the future. Words such as "expects," "assumes," "anticipates," "may," "will," "intends," "plans," "projects," "believes," "seeks," "future," "estimates," and variations of such words and similar expressions are intended to identify such forward-looking statements. Such forward-looking statements include, among other things, statements regarding the Company's first quarter and full-year 2025 guidance (including net income, Total FFO and Core FFO, same-property growth and related assumptions) and anticipated yield on certain investments. While the Company's management believes the assumptions underlying its forward-looking statements are reasonable, such forward-looking statements involve known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control, which could cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The Company cannot assure the future results or outcome of the matters described in these statements; rather, these statements merely reflect the Company's current expectations of the approximate outcomes of the matters discussed.

Factors that might cause the Company's actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements include, but are not limited to, the following: assumptions related to our first quarter and full-year 2025 guidance; occupancy rates and rental demand may be adversely affected by competition and local economic and market conditions; there may be increased interest rates, inflation, escalated operating costs and possible recessionary impacts; geopolitical tensions and regional conflicts, and the related impacts on macroeconomic conditions, including, among other things, interest rates and inflation; the terms of any refinancing may not be as favorable as the terms of existing indebtedness; the Company's inability to maintain its investment grade credit rating with the rating agencies; the Company may be unsuccessful in the management of its relationships with its co-investment partners; the Company may fail to achieve its business objectives; time of actual completion and/or stabilization of development and redevelopment projects; estimates of future income from an acquired property may prove to be inaccurate; future cash flows may be inadequate to meet operating requirements and/or may be insufficient to provide for dividend payments in accordance with REIT requirements; changes in laws or regulations and the anticipated or actual impact of future changes in laws or regulations; unexpected difficulties in leasing of future development projects; volatility in financial and securities markets; the Company's failure to successfully operate acquired properties; unforeseen consequences from cyber-intrusion; government approvals, actions and initiatives, including the need for compliance with environmental requirements; and those further risks, special considerations, and other factors referred to in the Company's annual report on Form 10-K for the year ended December 31, 2023, quarterly reports on Form 10-Q, and those risk factors and special considerations set forth in the Company's other filings with the SEC which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements are made as of the date hereof, the Company assumes no obligation to update or supplement this information for any reason, and therefore, they may not represent the Company's estimates and assumptions after the date of this press release.

<sup>(1)</sup> Includes consolidated communities only.

<sup>(2)</sup> Acquisitions include properties acquired which did not have comparable stabilized results as of January 1, 2023.

(3) Non-residential/other, net consists of revenues generated from retail space, commercial properties, held for sale properties, disposition properties, properties undergoing significant construction activities that do not meet our redevelopment criteria and two communities located in the California counties of Santa Barbara and Santa Cruz, which the Company does not consider its core markets.

<sup>(4)</sup> Represents straight-line concessions for residential operating communities. Same-property revenues reflect concessions on a cash basis. Total Rental and Other Property Revenues reflect concessions on a straight-line basis in accordance with U.S. GAAP.

<sup>(5)</sup> Includes other expenses and intercompany eliminations pertaining to self-insurance.

<sup>(6)</sup> Annualized turnover is defined as the number of apartment homes turned over during the quarter, annualized, divided by the total number of apartment homes.

<sup>(7)</sup> Financial occupancy is defined as the percentage resulting from dividing actual rental income by total scheduled rental income. Actual rental income represents contractual rental income pursuant to leases without considering delinquency and concessions. Total scheduled rental income represents the value of all apartment homes, with occupied apartment homes valued at contractual rental rates pursuant to leases and vacant apartment homes valued at estimated market rents.

Data based on Essex Data Analytics forecasts and third-party projections.

- (1) Job Forecast: Refers to the difference between total non-farm industry employment (not seasonally adjusted) projected for the full-year 2025E as compared to the full-year 2024A.
- (2) Rent Forecast: Represents the forecasted change in economic rents for full-year 2025E compared to the full-year 2024A and excludes submarkets not targeted by Essex.
- (3) Residential Supply: Total supply includes the Company's estimate of multifamily ("MF") deliveries of properties with 50+ units and excludes student, senior and 100% affordable housing communities. Multifamily estimates incorporate a methodological enhancement ("delay-adjusted supply") to reflect the anticipated impact of continued construction delays in Essex markets. Single-family ("SF") estimates are based on trailing single-family permits.

## Components to 2025E Same-Property Revenue Growth

- Our 2025 outlook assumes a healthy but moderating U.S. economy with the West Coast gaining relative strength.
- We expect blended rate growth of 3.0% at the midpoint driven by higher job growth in the top-paying sectors and muted supply growth of just 0.5% of total stock projected to deliver in the Essex markets in 2025.

- 1. Concessions not shown as it is expected to be neutral to year-over-year 2025E same-property revenue growth.
- 2. Embedded revenue growth or "earn-in" is the contribution to revenue growth in 2025 from scheduled rent growth achieved in 2024. Calculated as annualized scheduled rent at the end of 2024 compared against full-year 2024 scheduled rent. Excludes concessions and vacancy.

## Components to 2025E Core FFO Per Share Growth

- Healthy drivers to the Company's Core FFO per share guidance midpoint are partially offset by expected headwinds in 2025.
- In particular, the impact from preferred equity redemptions and 2025 refinancings combined account for an approximate 2% headwind to growth.

#### Adjusted EBITDAre Reconciliation

The National Association of Real Estate Investment Trusts ("NAREIT") defines earnings before interest, taxes, depreciation and amortization for real estate ("EBITDAre") (September 2017 White Paper) as net income (computed in accordance with U.S. generally accepted accounting principles ("U.S. GAAP")) before interest expense, income taxes, depreciation and amortization expense, and further adjusted for gains and losses from sales of depreciated operating properties, impairment write-downs of depreciated operating properties, impairment write-downs of depreciated operating properties, investments in unconsolidated entities caused by a decrease in value of depreciated operating properties within the joint venture and adjustments to reflect the Company's share of EBITDAre of investments in unconsolidated entities.

The Company believes that EBITDAre is useful to investors, creditors and rating agencies as a supplemental measure of the Company's ability to incur and service debt because it is a recognized measure of performance by the real estate industry, and by excluding gains or losses related to sales or impairment of depreciated operating properties, EBITDAre can help compare the Company's credit strength between periods or as compared to different companies.

Adjusted EBITDAre represents EBITDAre further adjusted for non-comparable items and is a component of the credit ratio, "Net Indebtedness Divided by Adjusted EBITDAre, normalized and annualized," presented on page S-6, in the section titled "Selected Credit Ratios," and it is not intended to be a measure of free cash flow for management's discretionary use, as it does not consider certain cash requirements such as income tax payments, debt service requirements, capital expenditures and other fixed charges.

Adjusted EBITDAre is an important metric in evaluating the credit strength of the Company and its ability to service its debt obligations. The Company believes that Adjusted EBITDAre is useful to investors, creditors and rating agencies because it allows investors to compare the Company's credit strength to prior reporting periods and to other companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual credit quality.

EBITDAre and Adjusted EBITDAre are not recognized measurements under U.S. GAAP. Because not all companies use identical calculations, the Company's presentation of EBITDAre and Adjusted EBITDAre may not be comparable to similarly titled measures of other companies.

The reconciliations of Net Income available to common stockholders to EBITDAre and Adjusted EBITDAre are presented in the table below:

## **Reconciliations of Non-GAAP Financial Measures and Other Terms**

#### **Disposition Yield**

Net operating income that the Company anticipates giving up in the next 12 months less an estimate of property management costs allocated to the project divided by the gross sales price of the asset.

#### Acquisition Yield

Net operating income that the Company expects to achieve in the next 12 months less an estimate of property management costs allocated to the project and less an estimate for capital expenditures per unit divided by the gross sales price of the asset.

#### Encumbered

Encumbered means any mortgage, deed of trust, lien, charge, pledge, security interest, security agreement or other encumbrance of any kind.

#### Funds From Operations ("FFO") and Core FFO

FFO, as defined by NAREIT, is generally considered by industry analysts as an appropriate measure of performance of an equity REIT. Generally, FFO adjusts the net income of equity REITs for non-cash charges such as depreciation and amortization of rental properties, impairment charges, gains on sales of real estate and extraordinary items. Management considers FFO and FFO which excludes non-core items, which is referred to as "Core FFO," to be useful supplemental operating performance measures of an equity REIT because, together with net income and cash flows, FFO and Core FFO provide investors with additional bases to evaluate the operating performance and ability of a REIT to incur and service debt and to fund acquisitions and other capital expenditures and to pay dividends. By excluding gains or losses related to sales of depreciated operating properties and land and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help investors compare the operating performance of a real estate company between periods or as compared to different companies. By further adjusting for items that are not considered part of the Company's core business operations, Core FFO allows investors to compare the core operating performance of the Company to its performance in prior reporting periods and to the operating performance of other real estate companies without the effect of items that by their nature are not comparable from period to period and tend to obscure the Company's actual operating results.

FFO and Core FFO do not represent net income or cash flows from operations as defined by U.S. GAAP and are not intended to indicate whether cash flows will be sufficient to fund cash needs. These measures should not be considered as alternatives to net income as an indicator of the REIT's operating performance or to cash flows as a measure of liquidity. FFO and Core FFO do not measure whether cash flow is sufficient to fund all cash needs including principal amortization, capital improvements and distributions to stockholders. FFO and Core FFO also do not represent cash flows generated from operating, investing or financing activities as defined under GAAP. Management has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REITs' calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosures of FFO may not be comparable to the Company's calculation.

The reconciliations of diluted FFO and Core FFO are detailed on page S-3 in the section titled "Consolidated Funds From Operations".

#### Net Indebtedness Divided by Adjusted EBITDAre

This credit ratio is presented on page S-6 in the section titled "Selected Credit Ratios." This credit ratio is calculated by dividing net indebtedness by Adjusted EBITDAre, as annualized based on the most recent quarter, and adjusted for estimated net operating income from properties acquired or disposed of during the quarter. This ratio is presented by the Company because it provides rating agencies and investors an additional means of comparing the Company's ability to service debt obligations to that of other companies. Net indebtedness is total debt, net less unamortized premiums, discounts, debt issuance costs, unrestricted cash and cash equivalents, and marketable securities. The reconciliation of Adjusted EBITDAre is set forth in "Adjusted EBITDAre Reconciliation" on page S-17.1 The calculation of this credit ratio and a reconciliation of net indebtedness to total debt at pro rata share for co-investments, net is presented in the table below:

#### Net Operating Income ("NOI") and Same-Property NOI Reconciliations

NOI and same-property NOI are considered by management to be important supplemental performance measures to earnings from operations included in the Company's consolidated statements of income. The presentation of same-property NOI assists with the presentation of the Company's operations prior to the allocation of depreciation and any corporate-level or financing-related costs. NOI reflects the operating performance of a community and allows for an easy comparison of the operating performance of individual communities or groups of communities.

In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. The Company defines same-property NOI as same-property revenues less same-property operating expenses, including property taxes. Please see the reconciliation of earnings from operations to NOI and same-property NOI, which in the table below is the NOI for stabilized properties consolidated by the Company for the periods presented:

#### Public Bond Covenants

Public Bond Covenants refer to certain covenants set forth in instruments governing the Company's unsecured indebtedness. These instruments require the Company to meet specified financial covenants, including covenants relating to net worth, fixed charge coverage, debt service coverage, the amounts of total indebtedness and secured indebtedness, leverage and certain investment limitations. These covenants may restrict the Company's ability to expand or fully pursue its business strategies. The Company's ability to comply with these covenants may be affected by changes in the Company's operating and financial performance, changes in general business and economic conditions, adverse regulatory developments or other events adversely impacting it. The breach of any of these covenants could result in a default under the Company's indebtedness, which could cause those and other obligations to become due and payable. If any of the Company's indebtedness is accelerated, the Company any not be able to repay it. For risks related to failure to comply with these covenants, see "Item 1A: Risk Factors - Risks Related to Our Indebtedness and Financings" in the Company's annual report on Form 10-K and other reports filed by the Company with the Securities and Exchange Commission ("SEC").

The ratios set forth on page S-6 in the section titled "Public Bond Covenants" are provided only to show the Company's compliance with certain specified covenants that are contained in indentures related to the Company's issuance of Senior Notes, which indentures are filed by the Company with the SEC. See, for example, the indenture and supplemental indenture dated March 14, 2024, filed by the Company as Exhibit 4.1 and Exhibit 4.2 to the Company's Form 8-K, filed on March 14, 2024. These ratios should not be used for any other purpose, including without limitation to evaluate the Company's financial condition or results of operations, nor do they indicate the Company's covenant compliance as of any other date or for any other period. The capitalized terms in the disclosure are defined in the indentures filed by the Company with the SEC and may differ materially from similar terms used by other companies that present information about their covenant compliance.

#### Secured Debt

Secured Debt means debt of the Company or any of its subsidiaries which is secured by an encumbrance on any property or assets of the Company or any of its subsidiaries. The Company's total amount of Secured Debt is set forth on page S-5.

#### Unencumbered NOI to Adjusted Total NOI

This ratio is presented on page S-6 in the section titled "Selected Credit Ratios". Unencumbered NOI means the sum of NOI for those real estate assets which are not subject to an encumbrance securing debt. The ratio of Unencumbered NOI to Adjusted Total NOI for the three months ended December 31, 2024, annualized, is calculated by dividing Unencumbered NOI, annualized for the three months ended December 31, 2024 and as further adjusted for pro forma NOI for properties acquired or sold during the recent quarter, by Adjusted Total NOI as annualized. The calculation and reconciliation of NOI is set forth in "Net Operating Income ("NOI") and Same-Property NOI Reconciliations" above. This ratio is presented by the Company because it provides rating agencies and investors an additional means of comparing the Company's ability to service debt obligations to that of other companies.

The calculation of this ratio is presented in the table below:
