# Forward-Looking Statements & Non-GAAP Presentation

This presentation contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements include, among others, statements of expectations, beliefs, future plans and strategies, anticipated results from operations and developments and other matters that are not historical facts. The forward-looking statements are based on management’s beliefs as well as on a number of assumptions concerning future events. Readers of these materials are cautioned not to put undue reliance on these forward-looking statements, which are not a guarantee of performance and are subject to a number of uncertainties and other factors that could cause actual events or results to differ materially from those expressed or implied by the forward-looking statements. The most important factors that could prevent the Company from achieving its stated goals include, but are not limited to: (a) the ability and willingness of the Company’s tenants, operators, borrowers, managers and other third parties to satisfy their obligations under their respective contractual arrangements with the Company, including, in some cases, their obligations to indemnify, defend and hold the Company harmless from and against various claims, litigation and liabilities; (b) the ability of the Company’s tenants, operators, borrowers and managers to maintain the financial strength and liquidity necessary to satisfy their respective obligations and liabilities to third parties, including without limitation obligations under their existing credit facilities and other indebtedness; (c) the Company’s success in implementing its business strategy and the Company’s ability to identify, underwrite, finance, consummate and integrate diversifying acquisitions and investments, including investments in different asset types and outside the United States; (d) macroeconomic conditions such as a disruption of or a lack of access to the capital markets, changes in the debt rating on U.S. government securities, default or delay in payment by the United States of its obligations, and changes in the federal or state budgets resulting in the reduction or nonpayment of Medicare or Medicaid reimbursement rates; (e) the nature and extent of future competition, including new construction in the markets in which the Company’s seniors housing communities and medical office buildings are located; (f) the extent of future or pending healthcare reform and regulation, including cost containment measures and changes in reimbursement policies, procedures and rates; (g) increases in the Company’s borrowing costs as a result of changes in interest rates and other factors; (h) the ability of the Company’s tenants, operators and managers, as applicable, to comply with laws, rules and regulations in the operation of the Company’s properties, to deliver high-quality services, to attract and retain qualified personnel and to attract residents and patients; (i) the Company’s ability and willingness to maintain its qualification as a REIT in light of economic, market, legal, tax and other considerations; (j) the ability and willingness of the Company’s tenants to renew their leases with the Company upon expiration of the leases, the Company’s ability to reposition its properties on the same or better terms in the event of nonrenewal or in the event the Company exercises its right to replace an existing tenant or manager, and obligations, including indemnification obligations, the Company may incur in connection with the replacement of an existing tenant or manager; (k) consolidation activity in the seniors housing and healthcare industries resulting in a change of control of, or a competitor’s investment in, one or more of the Company’s tenants, operators, borrowers or managers or significant changes in the senior management of the Company’s tenants, operators, borrowers or managers; and (l) the other factors set forth in the Company’s periodic filings with the Securities and Exchange Commission.

## **Adjusted Pro Forma Earnings Before Interest Taxes Depreciation and Amortization (“EBITDA”)**

## **Annualized Revenue & Net Operating Income (“NOI”)**

A period's reported revenue and Reported Segment NOI, extrapolated on a per diem, monthly or quarterly basis to an annualized result. Results may be adjusted for certain one-time or out-of-period items, reflect only Ventas's share of ownership and are presented in US dollars (“USD”) based on the applicable exchange rates where revenue and expenses are translated from a foreign currency

## **Cash Flow Coverage**

For Triple-Net Stabilized assets, operator-reported EBITDARM divided by cash rent for a period. Operator-reported EBITDARM and rent may be adjusted for certain one-time. Because Triple-Net financials are delivered to Ventas following the reporting period, Cash Flow Coverage is reported in arrears

## **Cash NOI**

Reported Segment NOI for consolidated assets, typically on a Constant Currency basis, excluding the impact of non-cash items such as straight-line rent and the amortization of lease intangibles. In certain cases results may be adjusted to reflect non-recurring items and the receipt of cash payments and fees not fully recognized as Reported Segment NOI in the period

## **Constant Currency**

To eliminate the impact of exchange rate movements, all portfolio performance-based disclosures assume constant exchange rates across comparable periods, using the following methodology: the current period's results are shown in actual reported USD, while prior comparison period's results are adjusted and converted to USD based on the average exchange rate for the current period.

## **Deal Costs**

Merger-related costs and expenses, including amortization of intangibles, transition and integration expenses, expenses related to the re-audit and re-review in 2014 of the Company's historical financial statements and related matters, and deal costs and expenses, including expenses and recoveries relating to acquisition lawsuits. “Deals” may include, but are not limited to, pending or consummated merger and spin-off activity, acquisitions, investments, dead deals and other corporate transactions.

# Definition Of Terms

## Funds Available for Distribution (“FAD”)

Normalized FAD after subtracting Deal Costs and unusual items related to unconsolidated entities.

## FAD Capex

FAD Capex is (i) Ventas-invested capital expenditures, whether routine or non-routine, that extend the useful life of a property but are not expected to generate incremental income for the Company; (ii) Office Building and Triple-Net leasing commissions paid to third-party agents and (iii) capital expenditures for second-generation tenant improvements. It excludes costs for a first generation lease (e.g., a development project) or related to properties that have undergone redevelopment.

## Nareit Funds from Operations (“FFO”)

Net income attributable to common stockholders (computed in accordance with GAAP) excluding gains (or losses) from sales of real estate property, including gain (or loss) on re-measurement of equity method investments and impairment write-downs of depreciable real estate, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect FFO on the same basis.

## Non-Stabilized

Properties (i) that have recently been developed or redeveloped, (ii) where major renovation or redevelopment is underway, (iii) where operations have been impacted by a materially disruptive event such as flood or fire, or (iv) in the case of Triple-Net assets, that have undergone an operator or business model transition.

## Normalized FAD

Normalized FFO excluding non-cash components and straight-line rental adjustments, and deducting FAD Capex.

## Normalized FFO

Nareit FFO excluding the following income and expense items (which may be recurring in nature): (i) Deal Costs, (ii) the impact of any expenses related to asset impairment and valuation allowances, the write-off of unamortized deferred financing fees, or additional costs, expenses, discounts, make whole payments, penalties or premiums incurred as a result of early retirement or payment of the Company's debt, (iii) the non-cash effect of income tax benefits or expenses, the non-cash impact of changes to the Company's executive equity compensation plan, derivative transactions that have non-cash mark to market impacts on the Company's income statement and non-cash charges related to lease terminations, (iv) the financial impact of contingent consideration, severance-related costs and charitable donations to the Ventas Charitable Foundation, (v) gains and losses for non-operational foreign currency hedge agreements and changes in the fair value of financial instruments, (vi) gains and losses on non-real estate dispositions and other unusual items related to unconsolidated entities and (vii) net expenses or recoveries related to natural disasters.

## Occupancy

For seniors housing and post-acute properties, generally reflects average operator-reported unit and bed occupancy, respectively, for the reporting period. For Office properties, generally reflects occupied square footage divided by net rentable square footage as of the end of the reporting period. Because Triple-Net financials are delivered to Ventas following the reporting period, Occupancy is reported in arrears.

# Definition Of Terms

## Reported Segment NOI

The Company defines Reported Segment NOI as total revenues, less interest and other income, property-level operating expenses and office building services costs. For debt investments, total interest income. Cash receipts may differ due to straight-line recognition of certain rental income and the application of other GAAP policies.

## Same-Store

Properties owned, consolidated and operational for the full period in both comparison periods and are not otherwise excluded; provided, however, that the Company may include selected properties that otherwise meet the same-store criteria if they are included in substantially all of, but not a full, period for one or both of the comparison periods, and in the Company's judgment such inclusion provides a more meaningful presentation of its portfolio performance. Excludes (i) properties sold or classified as held for sale or properties whose operations were classified as discontinued operations in accordance with GAAP; (ii) for the Office Portfolio, those properties for which management has an intention to institute a redevelopment plan because the properties may require major property-level expenditures to maximize value, increase net operating income, maintain a market-competitive position and/or achieve property stabilization; and (iii) for other assets, those properties (A) that have transitioned operators or business models after the start of the prior comparison period or (B) for which an operator or business model transition has been scheduled after the start of the prior comparison period. Newly developed properties in the Office Portfolio and Triple-Net Leased Portfolio will be included in same-store if in service for the full period in both periods presented.

## Stabilized

Properties that do not meet the definition of Non-Stabilized, including those that were once Non-Stabilized and were reclassified upon the earlier of (i) the properties achieving requisite levels of occupancy, and (ii) a predetermined amount of time between substantial completion of work (in the case of developments and redevelopments) or the event date (in the case of transitions and materially disruptive events).

## Ventas Investment

For owned assets, the current quarter's reported gross book value, which reflects the initial book value of an investment at the date of acquisition, adjusted in accordance with GAAP for items such as additional capital investment and/or asset impairments. Figures reflect Ventas's share of ownership for both consolidated and unconsolidated joint ventures and are presented in USD based on the exchange rates as of the last day of the reporting quarter for non-US assets. For debt investments, the current quarter's reported net book value, adjusted in accordance with GAAP for fair value, reserves, discounts and deferred income.
