About IPG Photonics Corporation

IPG Photonics is a leading global manufacturer of high-performance fiber lasers and amplifiers for diverse applications in numerous markets, such as materials processing, communications, medical, and scientific and research. Founded in 1990, IPG Photonics pioneered the development and commercialization of optical fiber-based lasers, a new generation of lasers that combine the advantages of semiconductor diodes with the high amplification and precise beam qualities of specialty optical fibers. Fiber lasers deliver superior performance, reliability and usability at a lower total cost of ownership compared with conventional lasers, allowing end-users to increase productivity and lower operating costs. Headquartered in Oxford, Massachusetts, IPG has additional plants in Germany, Russia and Italy, and regional sales offices in Michigan, Japan, South Korea, China, India and the United Kingdom.
