Enpro Releases 2020 Corporate Sustainability Report

CHARLOTTE, N.C., May 25, 2021 -- EnPro Industries, Inc. (NYSE: NPO), has released its 2020 corporate sustainability report, which can be viewed at <https://www.enproindustries.com/about-us/environmental-sustainability/>. The report highlights the company's commitment to its people, its culture, and the planet. The report details its environmental performance, cultural initiatives, diversity and inclusion efforts, ethics and compliance practices, continued innovation thrust, employee development programs, and safety initiatives and accomplishments. With this report, Enpro furthers its reporting transparency about its efforts in corporate responsibility and sets ambitious near and long-term goals.

"On behalf of my Enpro colleagues, I am proud to share the story of our environmental, social, and governance efforts in our sustainability report," said Marvin Riley, President and Chief Executive Officer. "At Enpro we have created a dual bottom-line culture, which means we're committed to delivering both strong financial results and maximizing the development of our people each and every day. We are also committed to protecting our planet and minimizing our environmental impacts across our operations. This approach ensures that Enpro thrives for the next 100 years."

The report is structured according to global best practices for corporate sustainability reporting. It is based upon an assessment of which topics are most relevant to the company's stakeholders, the company's impacts on the world, and those factors that drive long-term value creation. It includes detailed discussions of Enpro's world-class health and safety programs, key metrics on environmental impact, and commitment to diversity, inclusion, human development, and innovation across all its businesses and product lines.

About Enpro

Enpro is a leading industrial technology company using materials science to push boundaries in semiconductor, life sciences, and other technology-enabled sectors. For more information about Enpro, visit the company's website at <http://www.enproindustries.com>.
