## Full-Year 2024 Guidance:

Johnson & Johnson does not provide GAAP financial measures on a forward-looking basis because the company is unable to predict with reasonable certainty the ultimate outcome of legal proceedings, unusual gains and losses, acquisition-related expenses, and purchase accounting fair value adjustments without unreasonable effort. These items are uncertain, depend on various factors, and could be material to Johnson & Johnson's results computed in accordance with GAAP.

### **Note to Investors Concerning Forward-Looking Statements:**

This press release contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995 regarding, among other things: future operating and financial performance, product development, and market position and business strategy. The reader is cautioned not to rely on these forward-looking statements. These statements are based on current expectations of future events. If underlying assumptions prove inaccurate or known or unknown risks or uncertainties materialize, actual results could vary materially from the expectations and projections of Johnson & Johnson. Risks and uncertainties include, but are not limited to: economic factors, such as interest rate and currency exchange rate fluctuations; competition, including technological advances, new products and patents attained by competitors; challenges inherent in new product research and development, including uncertainty of clinical success and obtaining regulatory approvals; uncertainty of commercial success for new and existing products; challenges to patents; the impact of patent expirations; the ability of the Company to successfully execute strategic plans, including restructuring plans; the impact of business combinations and divestitures; manufacturing difficulties or delays, internally or within the supply chain; product efficacy or safety concerns resulting in product recalls or regulatory action; significant adverse litigation or government action, including related to product liability claims; changes to applicable laws and regulations, including tax laws and global health care reforms; trends toward health care cost containment; changes in behavior and spending patterns of purchasers of health care products and services; financial instability of international economies and legal systems and sovereign risk; increased scrutiny of the health care industry by government agencies; the Company's ability to realize the anticipated benefits from the separation of Kenvue Inc; and Kenvue's ability to succeed as a standalone publicly traded company. A further list and descriptions of these risks, uncertainties and other factors can be found in Johnson & Johnson's Annual Report on Form 10-K for the fiscal year ended December 31, 2023, including in the sections captioned "Cautionary Note Regarding Forward-Looking Statements" and "Item 1A. Risk Factors," and in Johnson & Johnson's subsequent Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission. Copies of these filings are available online at [www.sec.gov](http://www.sec.gov), [www.jnj.com](http://www.jnj.com) or on request from Johnson & Johnson. Any forward-looking statement made in this release speaks only as of the date of this release. Johnson & Johnson does not undertake to update any forward-looking statement as a result of new information or future events or developments.

**Notes:**

- 1 COVID-19 Vaccine related costs include remaining commitments and obligations, including external manufacturing network exit costs and required clinical trial expenses, associated with the Company's completion of its COVID-19 vaccine contractual commitments.
- 2 In fiscal 2023, the company completed a prioritization of its research and development (R&D) investment within the Innovative Medicine segment to focus on the most promising medicines with the greatest benefit to patients. This resulted in the exit of certain programs within therapeutic areas. The R&D program exits are primarily in infectious diseases and vaccines including the discontinuation of its respiratory syncytial virus (RSV) adult vaccine program, hepatitis and HIV development. The restructuring expenses of \$144 million in the fiscal first quarter of 2024 and \$130 million in the fiscal first quarter of 2023 include the termination of partnered and non-partnered program costs and asset impairments.  
  
In fiscal 2023, the company initiated a restructuring program of its Orthopaedics franchise within the MedTech segment to streamline operations by exiting certain markets, product lines and distribution network arrangements. The restructuring expenses of \$27 million in the fiscal first quarter of 2024 primarily includes costs related to market and product exits.
- 3 European Medical Device Regulation (MDR) costs represent one-time compliance costs for the Company's previously registered products. MDR is a replacement of the existing European Medical Devices Directive regulatory framework, and manufacturers of currently marketed medical devices were required to comply with EU MDR beginning in May 2021. The Company considers the adoption of EU MDR to be a significant one-time regulatory change and is not indicative of on-going operations. The Company has excluded only external third-party regulatory and consulting costs from its MedTech operating segments' measures of profit and loss used for making operating decisions and assessing performance which will be completed during 2024.
- 4 The tax impact related to special item adjustments reflects the current and deferred income taxes associated with the above pre-tax special items in arriving at adjusted earnings.
