✓ RYBREVANT / LAZCLUZE Non Small Cell Lung Cancer	Neuroscience posdinemab Alzheimer's Disease	JNJ-5322 (BCMA/GPRC5D/CD3) Hematologic Malignancies	Neuroscience JNJ-1887 sCD59 Geographic Atrophy
✓ TALVEY (talquetamab) Relapsed Refractory Multiple myeloma	✓ IMAAVY (nipocalimab) Autoantibody Diseases	JNJ-6420 225Ac KLK2 Prostate Cancer	RPGR Gene Therapy Retinitis Pigmentosa
✓ TARIS Platform * Bladder Cancer	Select Other Areas Milvexian Thrombosis	JNJ-8343 KLK2 / CD3 Prostate Cancer	seltorexant Adjunctive treatment for major depressive disorder with insomnia symptoms
		JNJ-8543 (CD79/CD20/CD3) Hematologic Malignancies	
		✓ AKEEGA (niraparib/abiraterone) Metastatic castration-resistant prostate cancer (mCRPC)	

- ☒ Submitted in US or EU
- ☒ Approved in US or EU

PYS refers to peak year non-risk adjusted operational sales, including partner sales. Filings/approvals assumed to be in the US and EU unless otherwise noted. This is not a fully exhaustive list of all pipeline programs and assets. The pipeline includes assets currently progressing through clinical trials as well as those under review by regulatory bodies. Inclusion in the pipeline is based on the current status of these programs and assets and does not guarantee continued investment. This information is as of the date hereof to the best of the Company’s knowledge. Johnson & Johnson assumes no obligation to update this information.

Niraparib licensed from Tesaro; DUOBODY platform licensed from Genmab relates to several bispecific antibody programs (Amivantamab, Teclistamab , Talquetamab); Lazertinib licensed from Yuhan Corporation; AAV-RPGR licensed from UCL Business Plc; JNJ-1887 acquired from Hemera Biosciences; Milvexian co-developed with Bristol Myers Squibb; (CAR) T-cell therapies [JNJ-90014496 and JNJ-90009530] AbelZeta collaboration and license agreement; JNJ-2113 licensed from and co-developing with Protagonist Therapeutics, Inc.; NBTXR3: Nanobiotix

*Total TARIS platform is expected to be \$5B+ in non risk adjusted peak year sales. This includes both TAR-200 and TAR-210; approval above is specific to only TAR-200.
