

PRODUCTION GEOLOGICAL TECHNICIAN

Eagle River Mine Site Near Wawa, ON

COMPANY INFORMATION

Wesdome Gold Mines has had over 30 years of continuous gold mining operations in Canada. The Company is 100% Canadian focused with a pipeline of projects in various stages of development. The Company's strategy is to build Canada's next intermediate gold producer, producing 200,000+ ounces from two mines in Ontario and Quebec. The Eagle River Complex in Wawa, Ontario is currently producing gold at the Eagle River Underground Mine. Wesdome started production at the Kiena Complex in Val d'Or, Quebec in December 2022. The Company trades on the Toronto Stock Exchange under the symbol "WDO".

SUMMARY

Reporting to the Senior Geological Technician, the Geological Technician is responsible for the efficient completion of day-to-day activities assigned by the Geology and Mine Departments. Must be a committed team player with a strong knowledge and dedication to safety, production methods and equipment care. Other duties will be assigned as per operational needs.

POSITION RESPONSIBILITIES

Accountabilities and duties will include but not limited to the following:

- Lead by example, maintain safety standards by completing all required safety checks, audits, and inspections whereby equipment and process are protected against hazards with a proven commitment to health, safety, and the environment.
- Mapping and sampling in underground development and production headings
- Assist in grade control which includes sampling and monitoring of mining areas, assay validation, grade estimation, and support production.
- Provide continuous improvement for existing processes.
- Help in stope reconciliations, dilution estimates, grade forecasting and grade blending.
- Use Promine/Deswik/Datamine to complete 3D modelling for specific projects.
- Core logging and sampling.
- Verify QAQC assays and help maintain the chip/DDH database integrity.
- Generate grade control models in accordance with the forecasted timelines.
- Diamond test and hole planning (Grade Control Exploration, delineation and conversion)
