VANCOUVER, BRITISH COLUMBIA, March 5, 2021 – VanadiumCorp Resource Inc. (TSX VENTURE:"VRB") (OTCBB:"VRBFF") (FRANKFURT:"NWN") (the "Company") is pleased to announce it has changed its ticker symbol from APAFF to VRBFF on the United States OTC Markets effective immediately.

No action is required by current shareholders relative to the ticker symbol change.

About VanadiumCorp

VanadiumCorp Resource Inc. is an integrated green technology company with strategic vanadium mineral deposit assets. VanadiumCorp is focused on commercializing disruptive technologies to process mineral concentrates, produce and regenerate vanadium battery electrolytes sustainably, and construct next-generation vanadium redox flow-battery "VRFB" systems. VRFBs are 100% green technology from mine or waste to battery when hydrometallurgical processes produce the vanadium source commodity. (See VanadiumCorp's 100% owned & patented "VEPT" green process technology).

Proven VRFB technologies improve renewable energy efficiencies by storing temporary energy surpluses and feeding them back into the electrical grid as required. VanadiumCorp also wholly owns one of the largest and metallurgically favourable vanadium mineral deposits in the world, located in mining-friendly Quebec, Canada.
