About Energy Vault

Energy Vault develops sustainable energy storage solutions designed to transform the world's approach to utility-scale energy storage for grid resiliency. The company's proprietary, gravity-based Energy Storage Technology and the Energy Storage Management and Integration Platform are intended to help utilities, independent power producers and large industrial energy users significantly reduce their levelized cost of energy while maintaining power reliability. Utilizing eco-friendly materials with the ability to integrate waste materials for beneficial re-use, Energy Vault is facilitating the shift to a

circular economy while accelerating the clean energy transition for its customers.
