

Public CbCR EU Directive

On 11 November 2021, the European Parliament formally adopted the public European Union ("EU") country-by-country reporting ("CbCR") directive ("Directive"). All EU countries were required to transfer the Directive into domestic legislation as of 22 June 2023. Following this, if specified revenue thresholds are exceeded, multinational groups, and where relevant certain standalone operations, may be required to provide the public with specified financial and operational information.

The Directive suggested that public CbCR disclosure should commence for financial years starting on or after 22 June 2024. For Canada Goose Holdings Inc. ("CG Group") this would result in its first public CbCR disclosure being in respect of its financial year ended on 29 March 2026 (to be filed no later than 12 months after that financial year end, i.e. by 28 March 2027).

Despite the EU's suggested commencement date of the Directive, Romania's adoption of the Directive prescribed commencement of public CbCR disclosure for accounting periods starting from 1 January 2023 (subject to meeting certain criteria). As the CG Group has a Romanian entity and met the criteria prescribed by Romania's adoption of the Directive, it is required to provide public CbCR disclosure in respect of its financial year ended on 30 March 2025 ("FY25").

The information disclosed herein is provided in accordance with the applicable Directive and may not correspond to similar data reported in other public filings.
