Forward-Looking Statements

These slides and any accompanying oral and written presentations contain forward-looking statements by Delek Logistics Partners, LP (defined as “we”, “our”) that are based upon our current expectations and involve a number of risks and uncertainties. Statements concerning current estimates, expectations and projections about our future results, performance, prospects and opportunities and other statements, concerns, or matters that are not historical facts are "forward-looking statements," as that term is defined under United States securities laws.

Investors are cautioned that the following important factors, among others, may affect these forward-looking statements: our dependence on Delek US Holdings, Inc. (“Delek US”) (NYSE: DK) for the substantial majority of our contribution margin, thereby indirectly subjecting us to Delek US Holdings' business risks; risks relating to the securities markets generally; risks relating to the age of our assets and operational hazards of our assets including, without limitation, releases, spills and other hazards inherent in transporting and storing crude oil and intermediate and finished petroleum products; the impact of adverse market conditions affecting the business of Delek Logistics; adverse changes in laws including with respect to tax and regulatory matters and other risks as disclosed in our annual report on Form 10-K, quarterly reports on Form 10-Q and other reports and filings with the United States Securities and Exchange Commission. There can be no assurance that actual results will not differ from those expected by management or described in forward-looking statements of Delek Logistics. Delek Logistics undertakes no obligation to update or revise such forward-looking statements to reflect events or circumstances that occur, or which Delek Logistics becomes aware of, after the date hereof.

Forward-looking statements should not be read as a guarantee of future performance or results and will not be accurate indications of the times at, or by which such performance or results will be achieved. Forward-looking information is based on information available at the time and/or management's good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. We undertake no obligation to update or revise any such forward-looking statements.

Delek Logistics Partners, LP
Overview

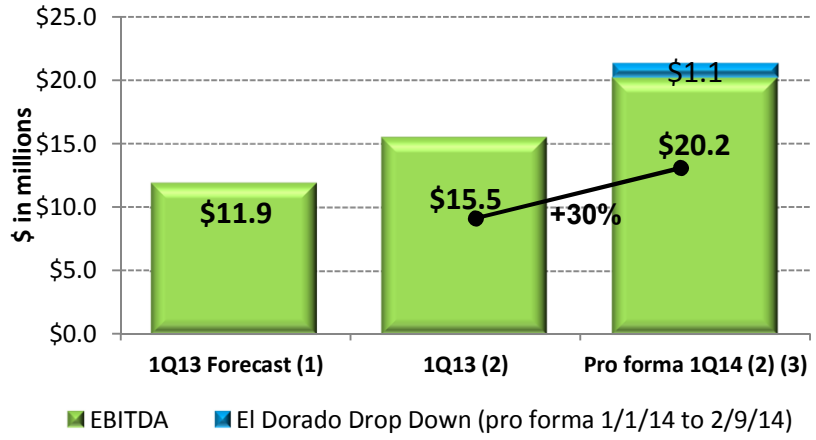

Improving EBITDA and Financial Flexibility to Support Growth

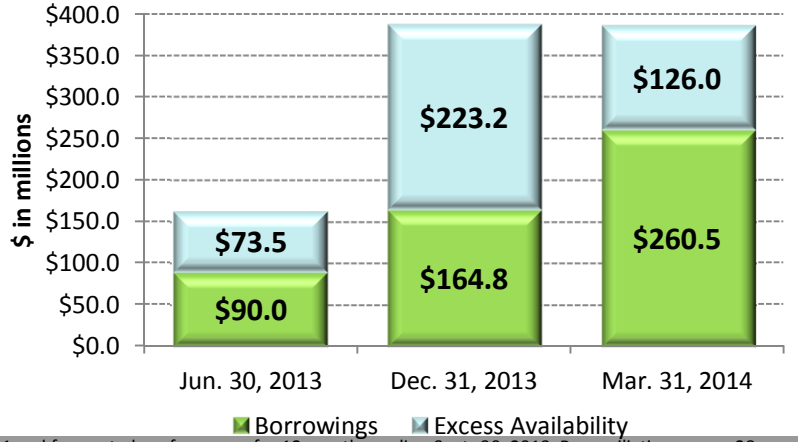

Solid EBITDA performance since IPO in Nov. 2012

Strong start to 2014 EBITDA

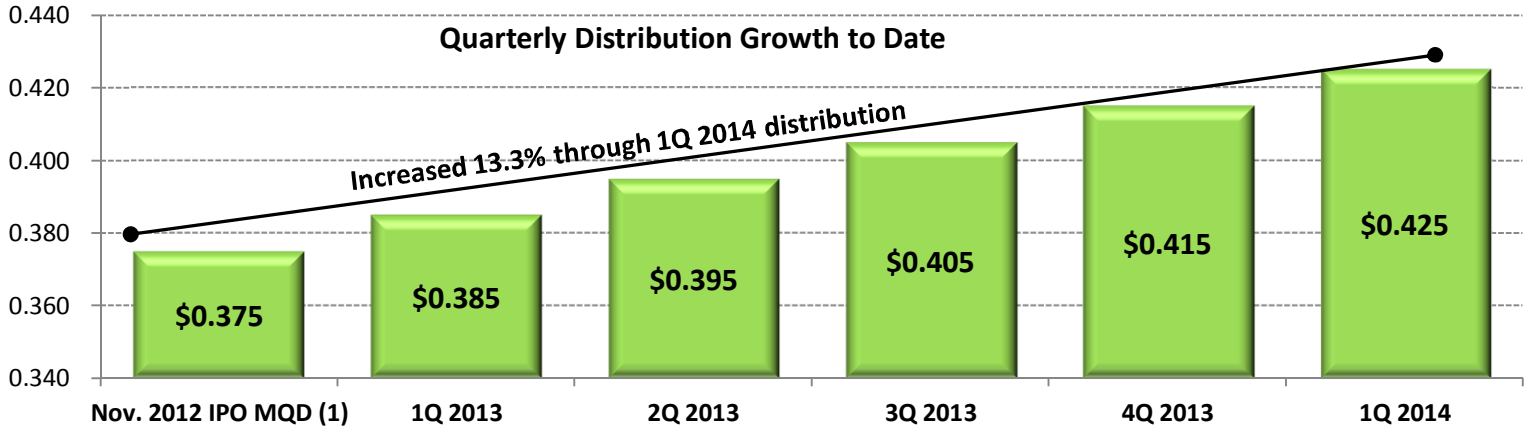

Financial Flexibility to support continued growth

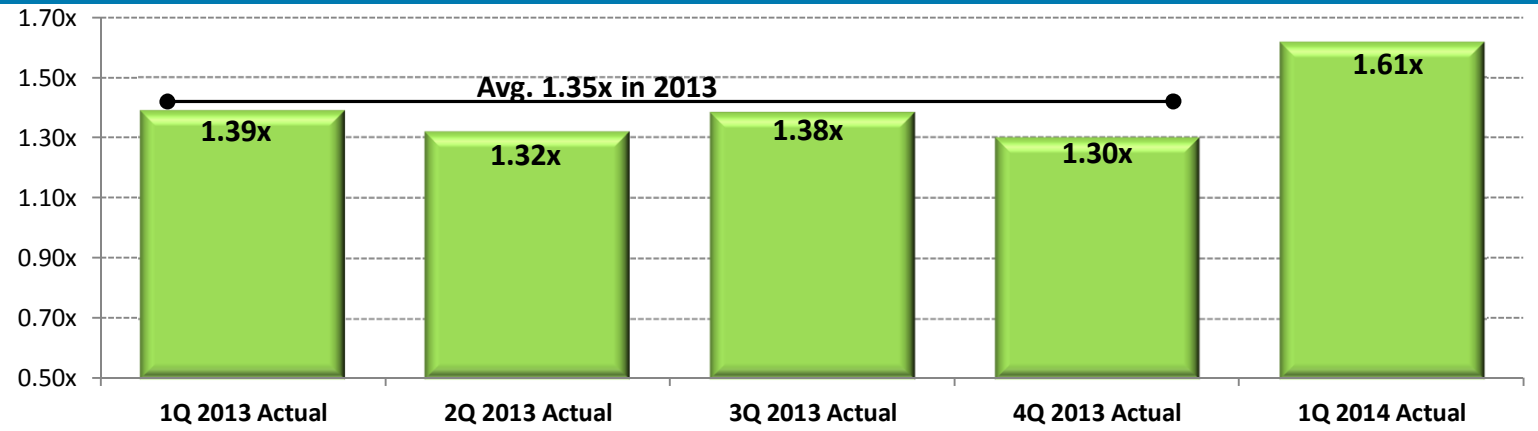

1) Amounts provided in the Nov. 1, 2012 IPO prospectus showing pro forma historical results for 2011 and forecasted performance for 12 months ending Sept. 30, 2013. Reconciliation on pg. 28
2) Reconciliation provided on page 28. Results in 2013 and 2014 are as reported excluding predecessor costs related to the drop down of the tank farms and product terminals at both Tyler and El Dorado during the respective periods. Tyler assets were acquired on July 26, 2013.
3) Amounts for drop down contribution based on daily EBITDA expected multiplied by days when the drop down assets were not included in operations of DKL according to purchase dates. Tyler drop down contribution based on 116 days multiplied by expected annual EBITDA of $10.5 million/365 days; El Dorado drop down contribution based on 315 days multiplied by expected annual EBITDA of $10.1 million/365 days. In 1Q14, El Dorado assets based on 40 days prior to the acquisition on Feb. 10, 2014. Actual results may vary based on market conditions and operating rates.

Increased Distribution with Conservative Coverage

Distribution has been increased five consecutive times since the IPO

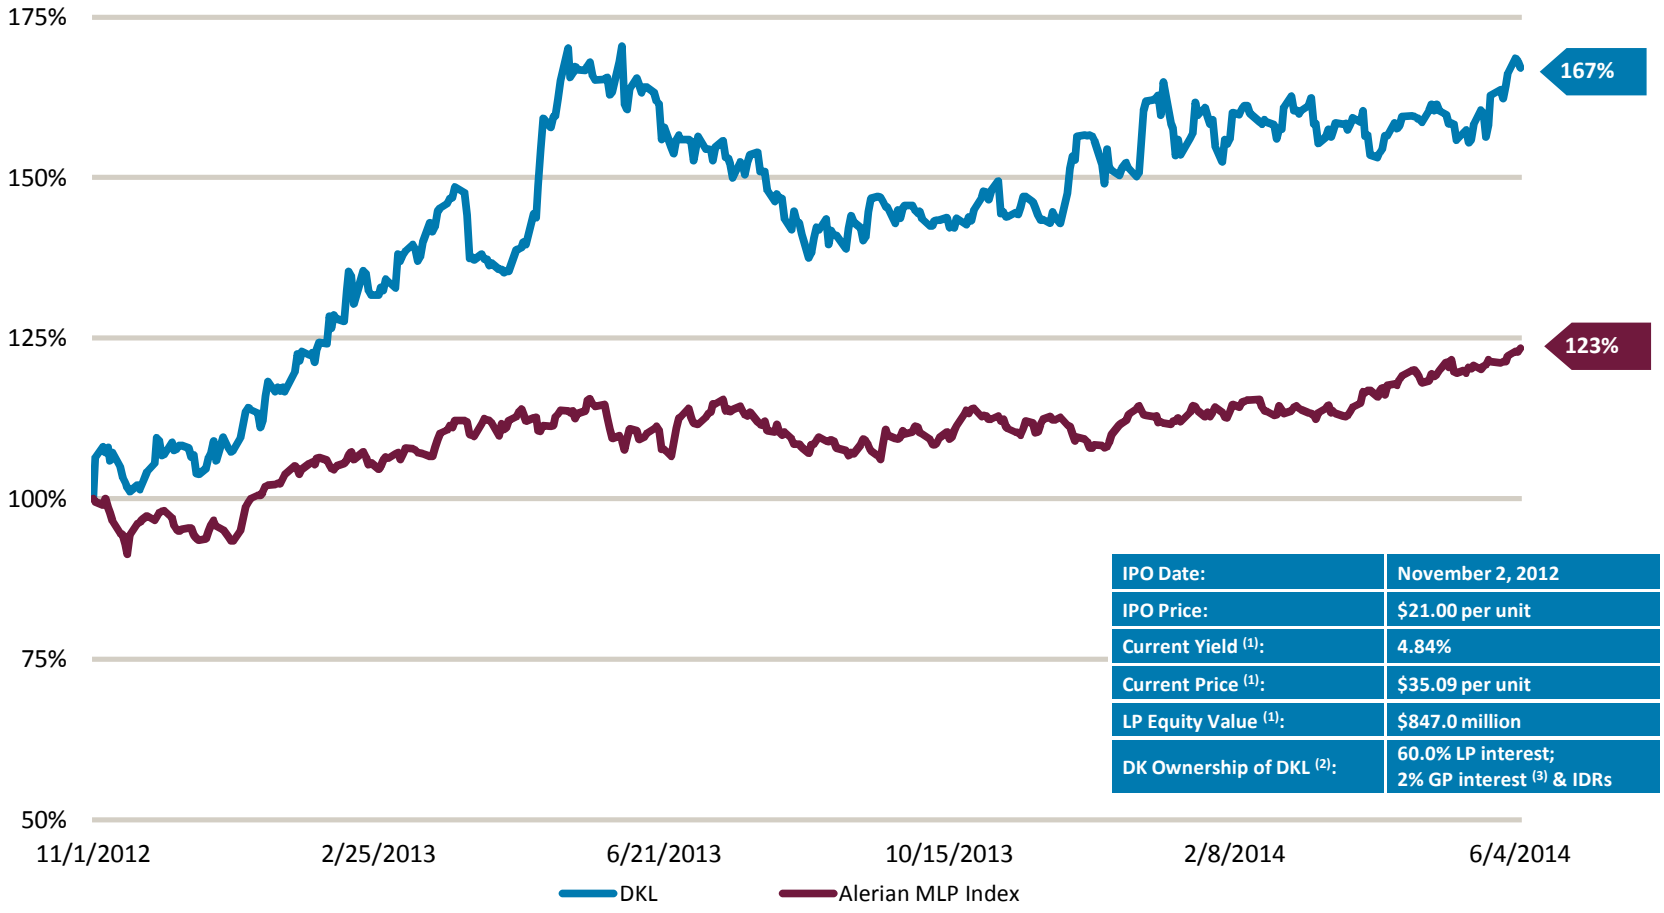

Distributable Cash Flow Coverage Ratio (2)

(1) MQD = minimum quarterly distribution set pursuant to the Partnership Agreement.
(2) Distribution coverage based on distributable cash flow divided by distribution amount in each period. Please see page 29 for reconciliation.

Recent Acquisitions Provided Stable Fee Based Growth

Approximately $22.1 million of expected annual EBITDA

Asset Overview

Stable Asset Base Positioned for Growth

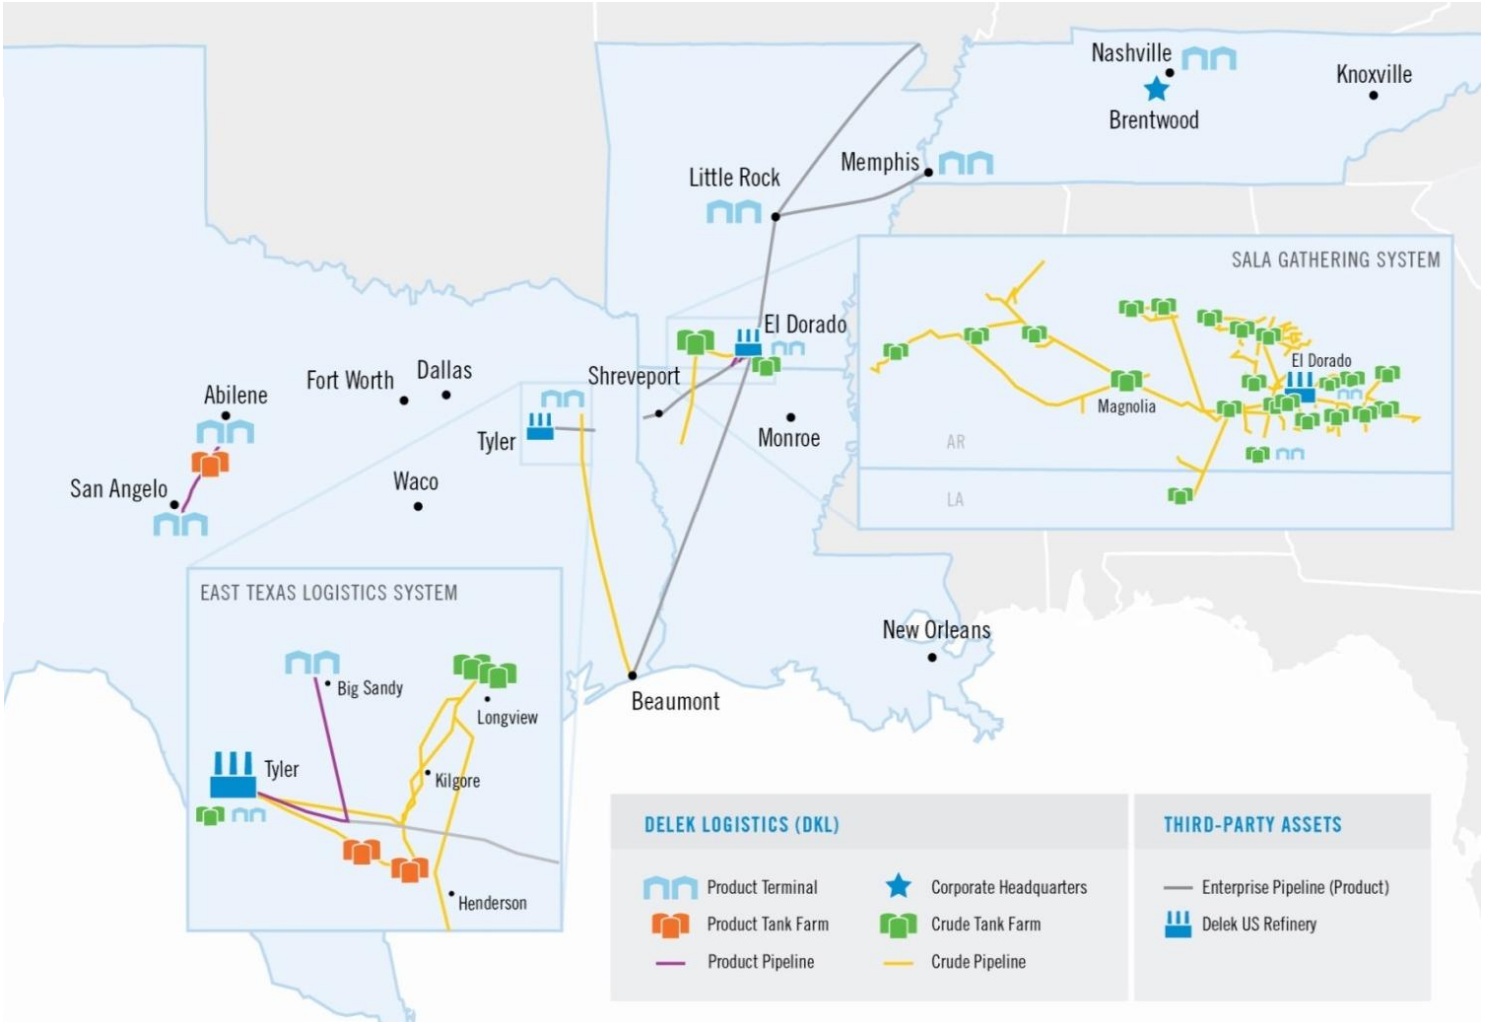

Growing logistics assets support crude sourcing and product marketing

Pipelines/Transportation Segment

- ~400 miles of crude transportation pipelines, includes the 195 mile crude oil pipeline from Longview to Nederland, TX
- ~ 600 mile crude oil gathering system in AR
- Storage facilities with 6.6 million barrels of active shell capacity

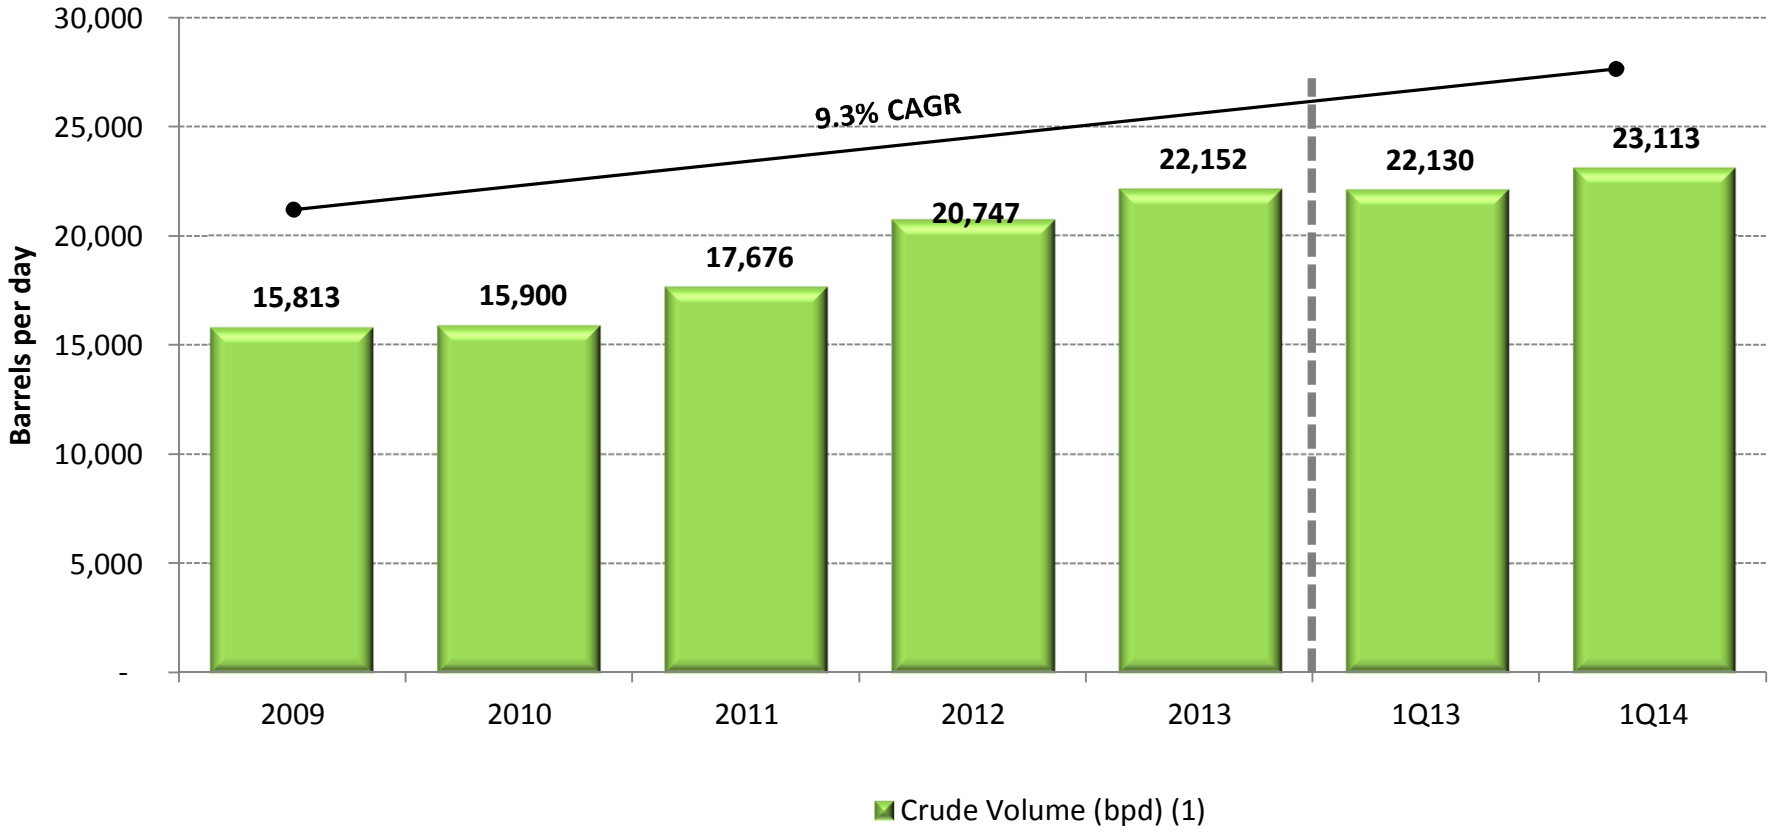

Wholesale/ Terminalling Segment

- Wholesale and marketing business in Texas
- 8 light product terminals: TX, TN,AR
- Approx. 1.0 million barrels of active shell capacity

Continued Increase in SALA Gathering System

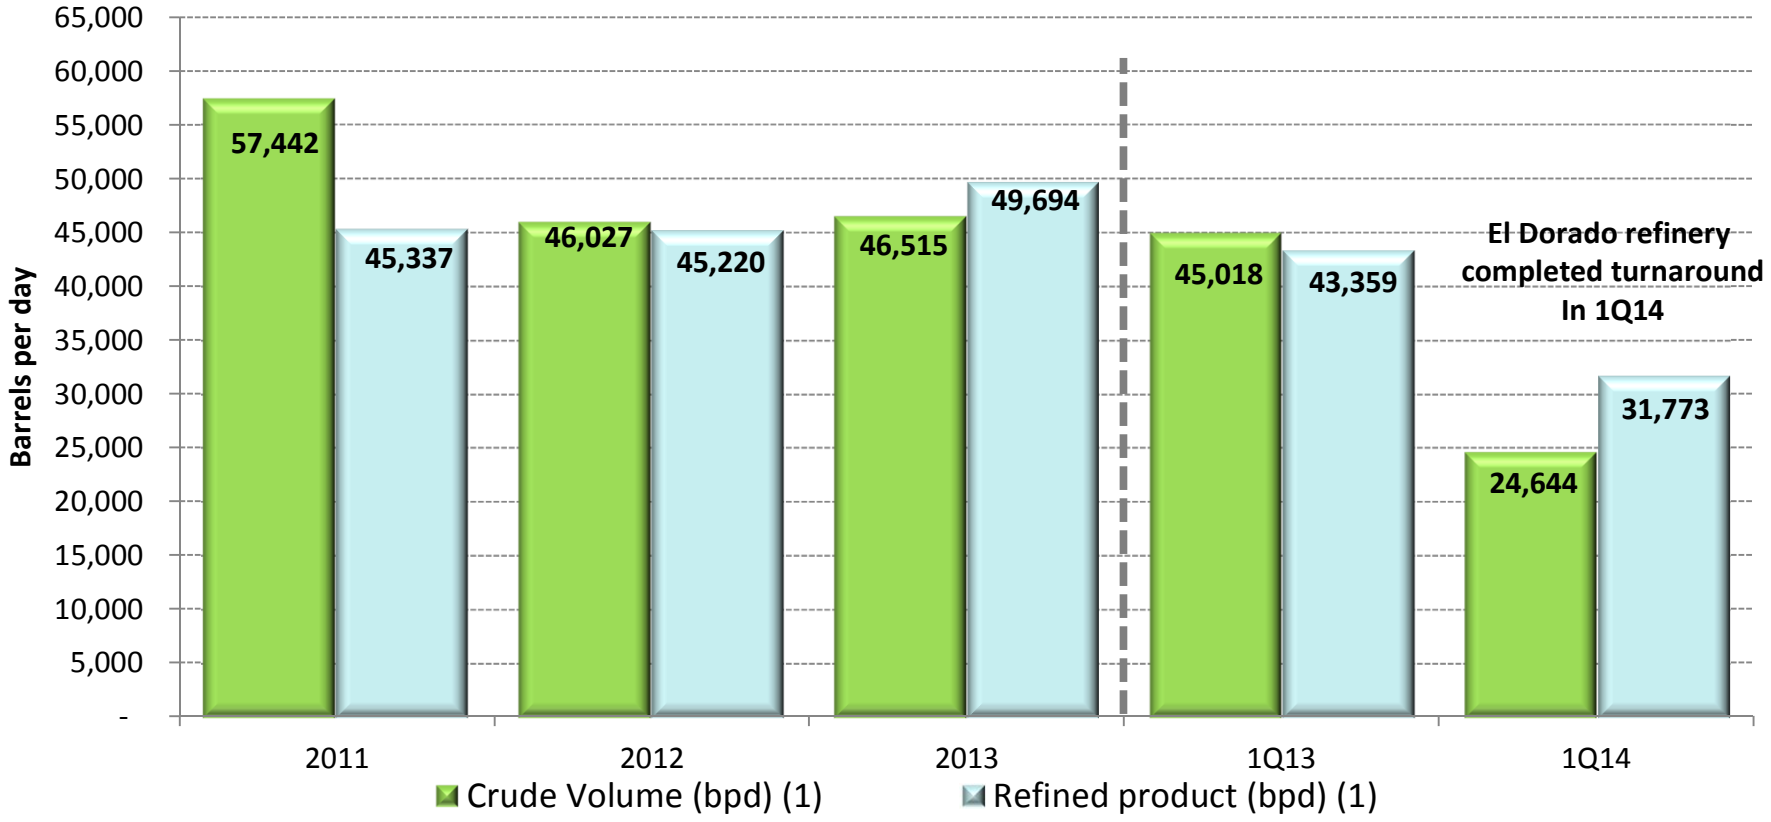

- Provides access to local Arkansas, east Texas and north Louisiana crudes to Delek US's El Dorado refinery.
- 600 mile crude oil gathering system, primarily within a 60-mile radius of the El Dorado refinery.
- Positioned to benefit from development in Brown Dense area.

(1) Delek US acquired majority ownership of Lion Oil in April 2011. Volumes in 2011 are based on 247 days of operations following the acquisition. Amounts in 2009 and 2010 are based on previous ownership data.

Lion Pipeline System – Potential Throughput Increase

- Provides non-gathered crude oil to Delek US' El Dorado refinery.
- Connects refinery to Enterprise TE Products Pipeline.
- Crude and light product throughput may benefit from improvements at Delek US' El Dorado refinery completed in 1Q14 turnaround that increased light crude capability by 10,000 bpd.

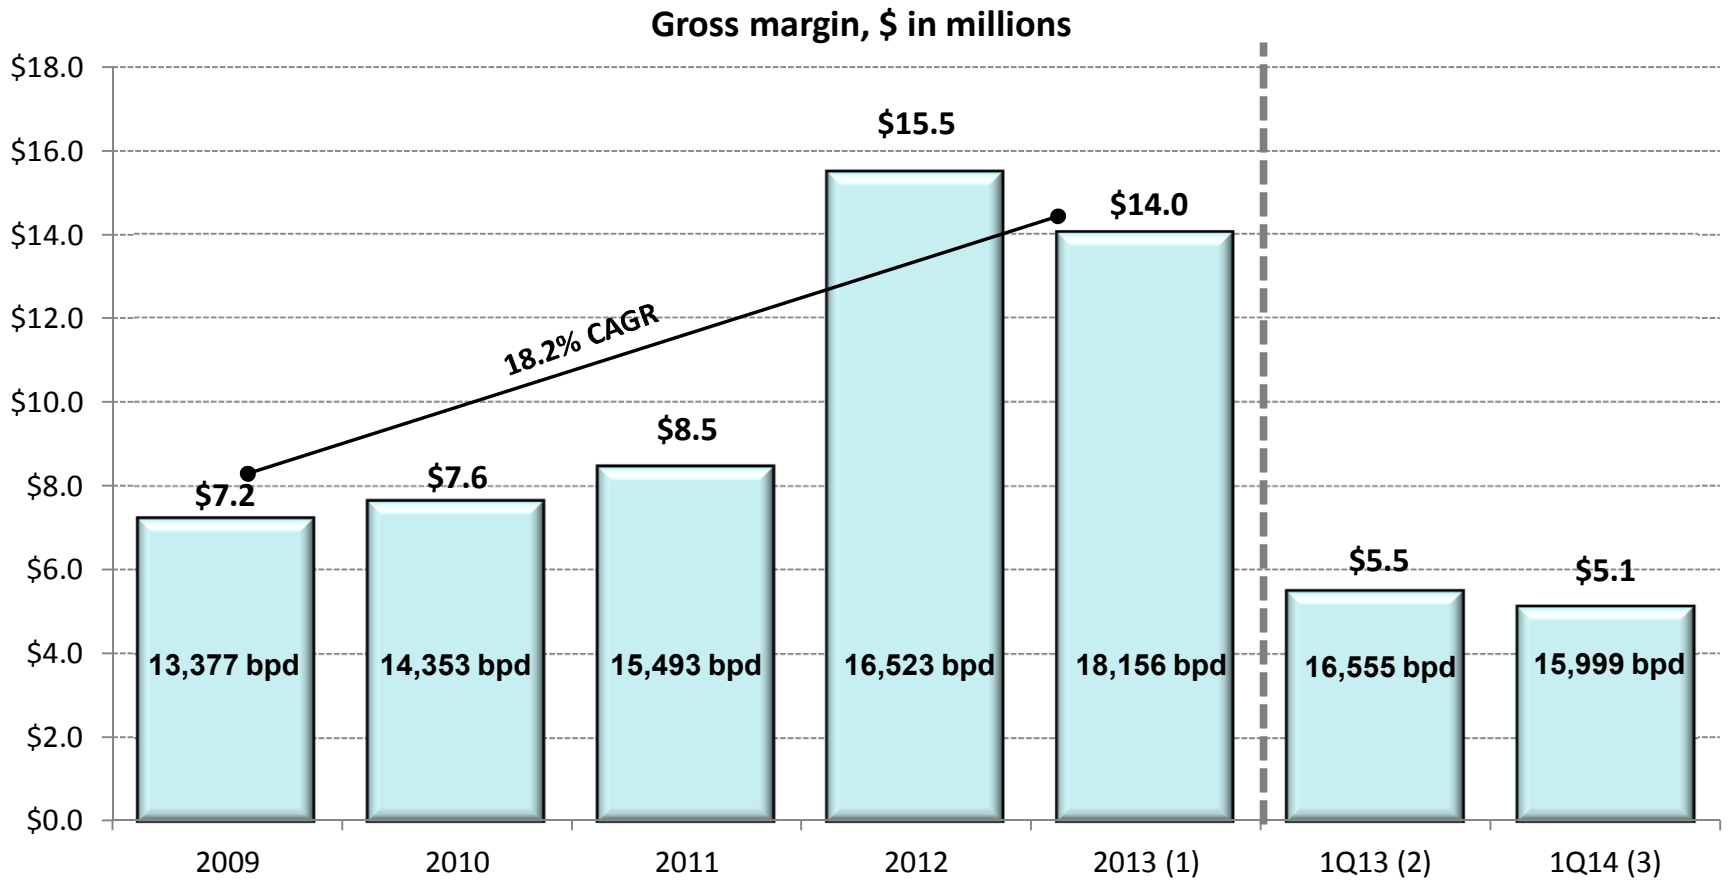

(1) Delek US acquired majority ownership of Lion Oil in April 2011. Volumes in 2011 are based on 247 days of operations following the acquisition.

West Texas Wholesale Business – Margins Remain Strong

Å Operates in an area around the Permian Basin; benefiting from robust economic activity.

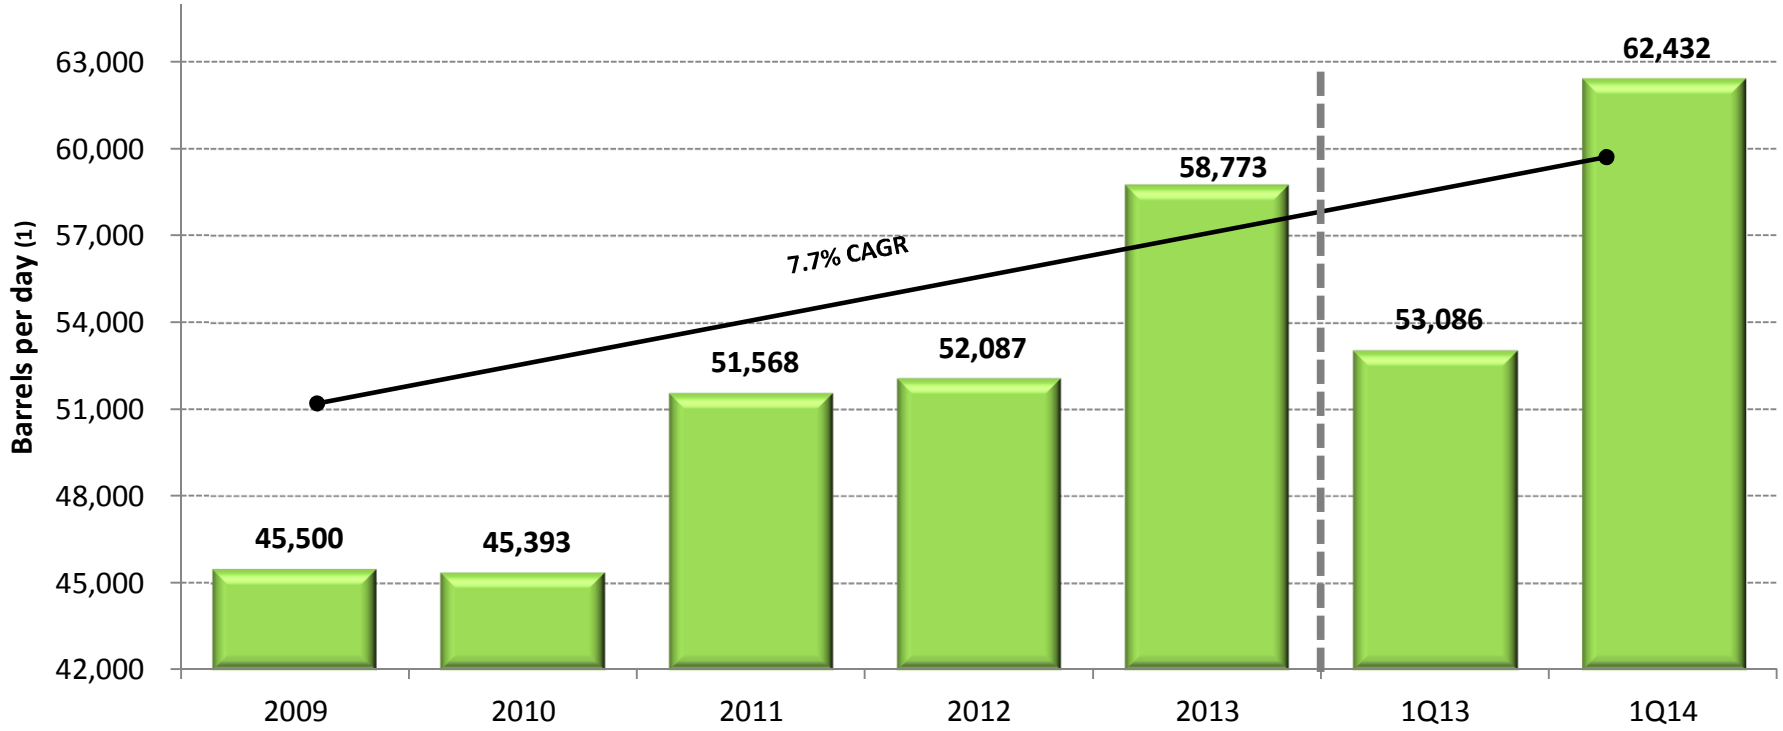

Å Purchases refined products from third parties for resale at owned and third party terminals in west Texas.

(1) 2013 west Texas gross margin per barrel includes $0.99/bbl associated with approximately $6.4 million of gross margin related to ethanol RINs sold during the period.
(2) 1Q13 west Texas gross margin per barrel includes $1.18/bbl associated with approximately $1.8 million of gross margin related to ethanol RINs sold during the period.
(3) 1Q14 west Texas gross margin per barrel includes $0.75/bbl associated with approximately $1.1 million of gross margin related to ethanol RINs sold during the period.

East Texas Marketing Volume Continues to Increase

- Volumes have been increasing as Delek US' Tyler refinery utilization improves; 1Q2014 volume 37% above 2009 level.
- Exclusive rights to market 100% of the refined products output of Delek US' Tyler refinery(1).
- Fee paid to Delek Logistics of $0.6065 per barrel of product sold plus 50% of margin above agreed base level generated on the sale.

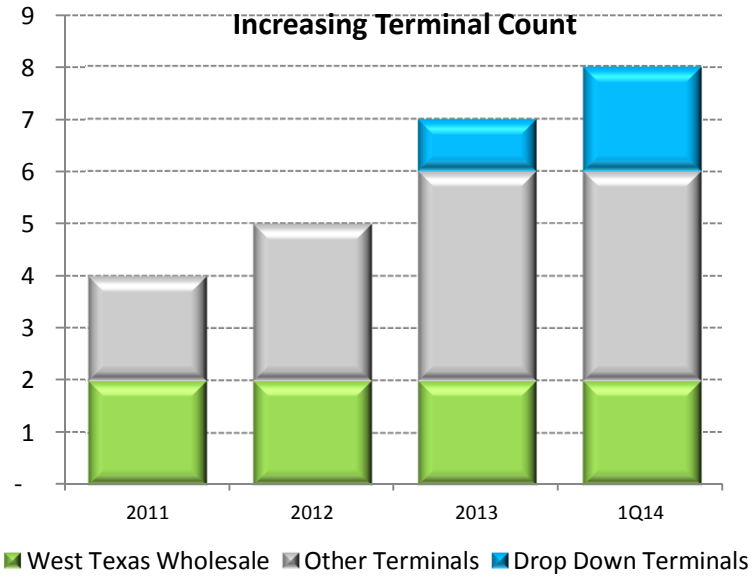

(1) East Texas marketing volumes exclude jet fuel and coke, which are not marketed by DKL.

Terminals – Growing Asset Base

Å Refined products terminalling services for Delek and/or third parties.

Nashville, TN	Å Serves Delek's retail segment and independent third parties
Memphis, TN	Å Supplied directly from El Dorado refinery through Enterprise refined products pipeline system
Big Sandy, TX (2)	Å Supplied by Delek's Tyler refinery through Hopewell pipeline (DKL asset)
Tyler, TX	Å Supplied by Delek's Tyler refinery Å Capacity of approximately 72,000 bpd Å Acquired in Jul. 2013
North Little Rock, AR	Å Supported primarily by Delek's El Dorado refinery Å Capacity of approximately 8,400 bpd Å Acquired in Oct. 2013
El Dorado, AR	Å Supplied by Delek's El Dorado refinery Å Capacity of approximately 26,700 bpd Å Acquired in Feb. 2014

(1) For reporting purposes, storage operations at Big Sandy, North Little Rock, El Dorado and Tyler are in the pipeline and transportation segment.
(2) Was not operating during 2011, 2012 and majority of 2013 however, contract with Delek has a minimum throughput requirement of 5,000 bpd.
Note: For reporting purposes, San Angelo and Abilene terminals are included in the west Texas wholesale business. The remaining are in terminalling.

Paline Pipeline – Potential EBITDA Increase in 2015

- 195 mile crude oil pipeline - Mainline pipeline flow reversed from northbound to southbound.
- 100% of mainline capacity contracted to major oil company through 12/31/2014
  - Contract revenue based on 30,000 bpd(1)
  - $535,700/month(1) Current Minimum throughput payment
- Provides for potential revenue increase beyond 2014*
  - At 30,000 bpd equates to 10.9 million (2) barrels per year
  - Sensitivity analysis at $1.00 per barrel rate increase would equate to approximately $10.9 million of EBITDA

*Actual change is subject to potential outcome of any contract negotiations related to this pipeline, market conditions and operating factors.

(1) Fee can be pro-rated upwards if volume exceeds 30,000 bpd
(2) Illustrative leverage based on 30,000 bpd multiplied by 365 days equals 10,950,000 barrels annually. A $1.00 per barrel change in the fee per barrel equates to approximately $10.9 million of EBITDA annually. Actual results subject to change based on market conditions, successful contract negotiations and operating factors.

Going Forward

Several Visible Pathways for Continued Growth

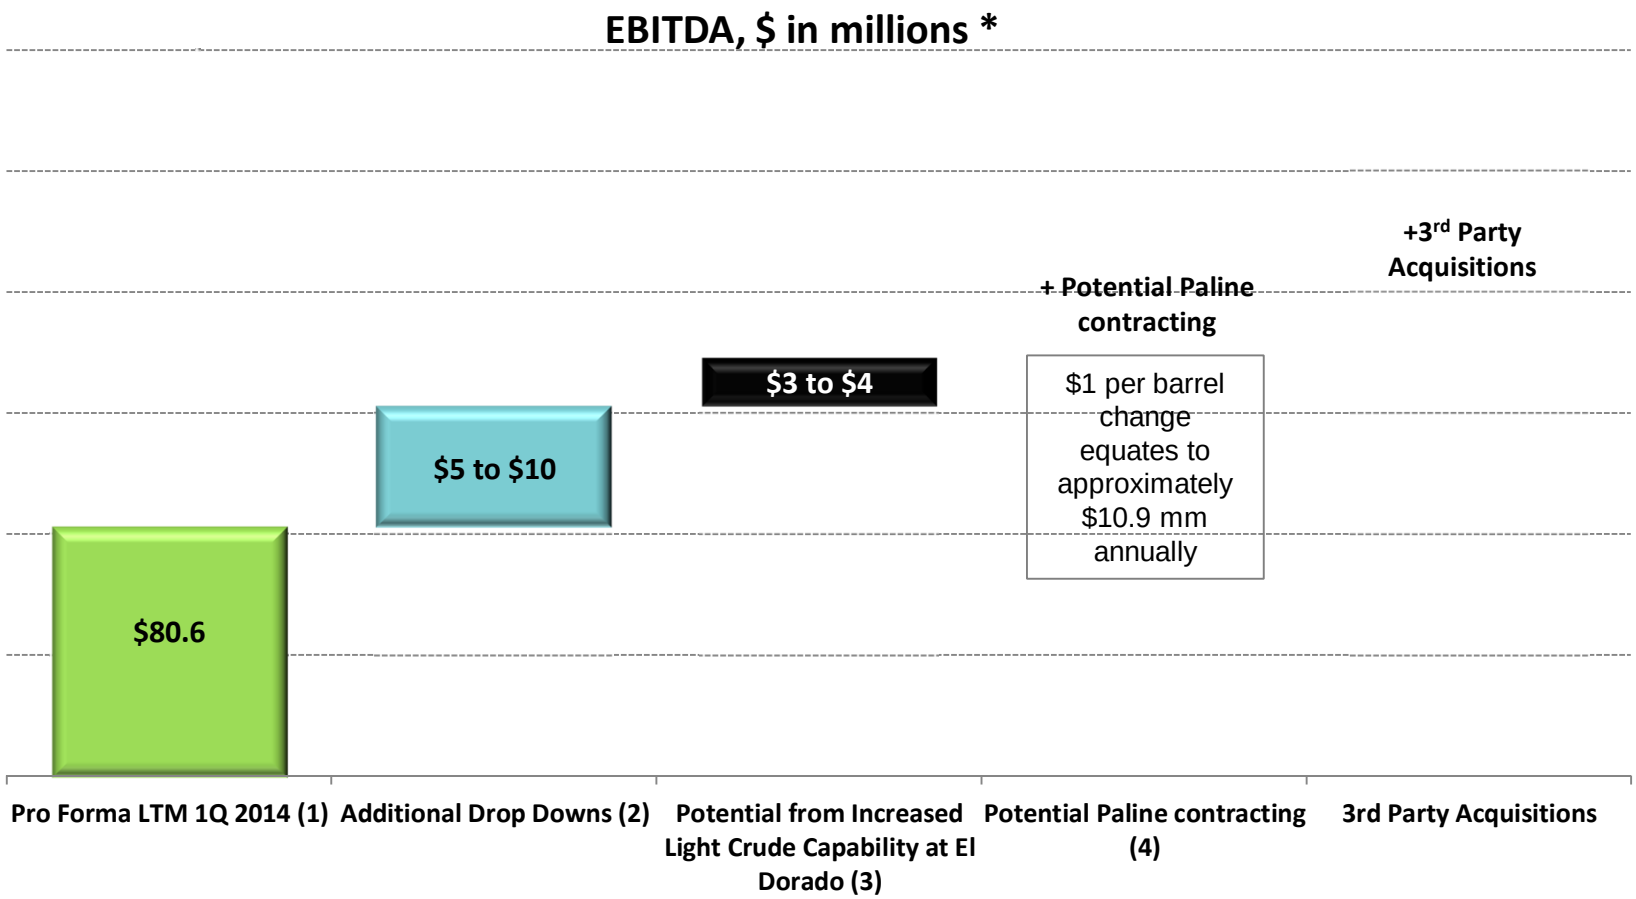

Organic Growth	▪ Paline Pipeline potentially contracting at a higher rate after 2014 ▪ Increasing activity in Arkansas gathering system ▪ Potential expansion of the North Little Rock terminal to 17,500 bpd
Acquisitive Growth	▪ Potential for 3rd party acquisitions (two completed in 2013) ▪ Ability to partner with Delek US to make acquisitions

Dropdowns from Delek US	▪ $5-$10 million of potential EBITDA; expected drop down timing next 12 months
	  ▪ 25,000 bpd (light crude) rail offloading facility at El Dorado refinery
	  ▪ 300,000 bbl crude oil tank (under construction) at Tyler refinery

Benefit from Growth at Delek US	▪ Improvement in throughput capability and/or flexibility at Delek US' refineries ▪ El Dorado refinery recently increased light crude processing capability by 10,000 bpd and this potentially increases throughput on DKL assets

Focus on Growth has Improved EBITDA

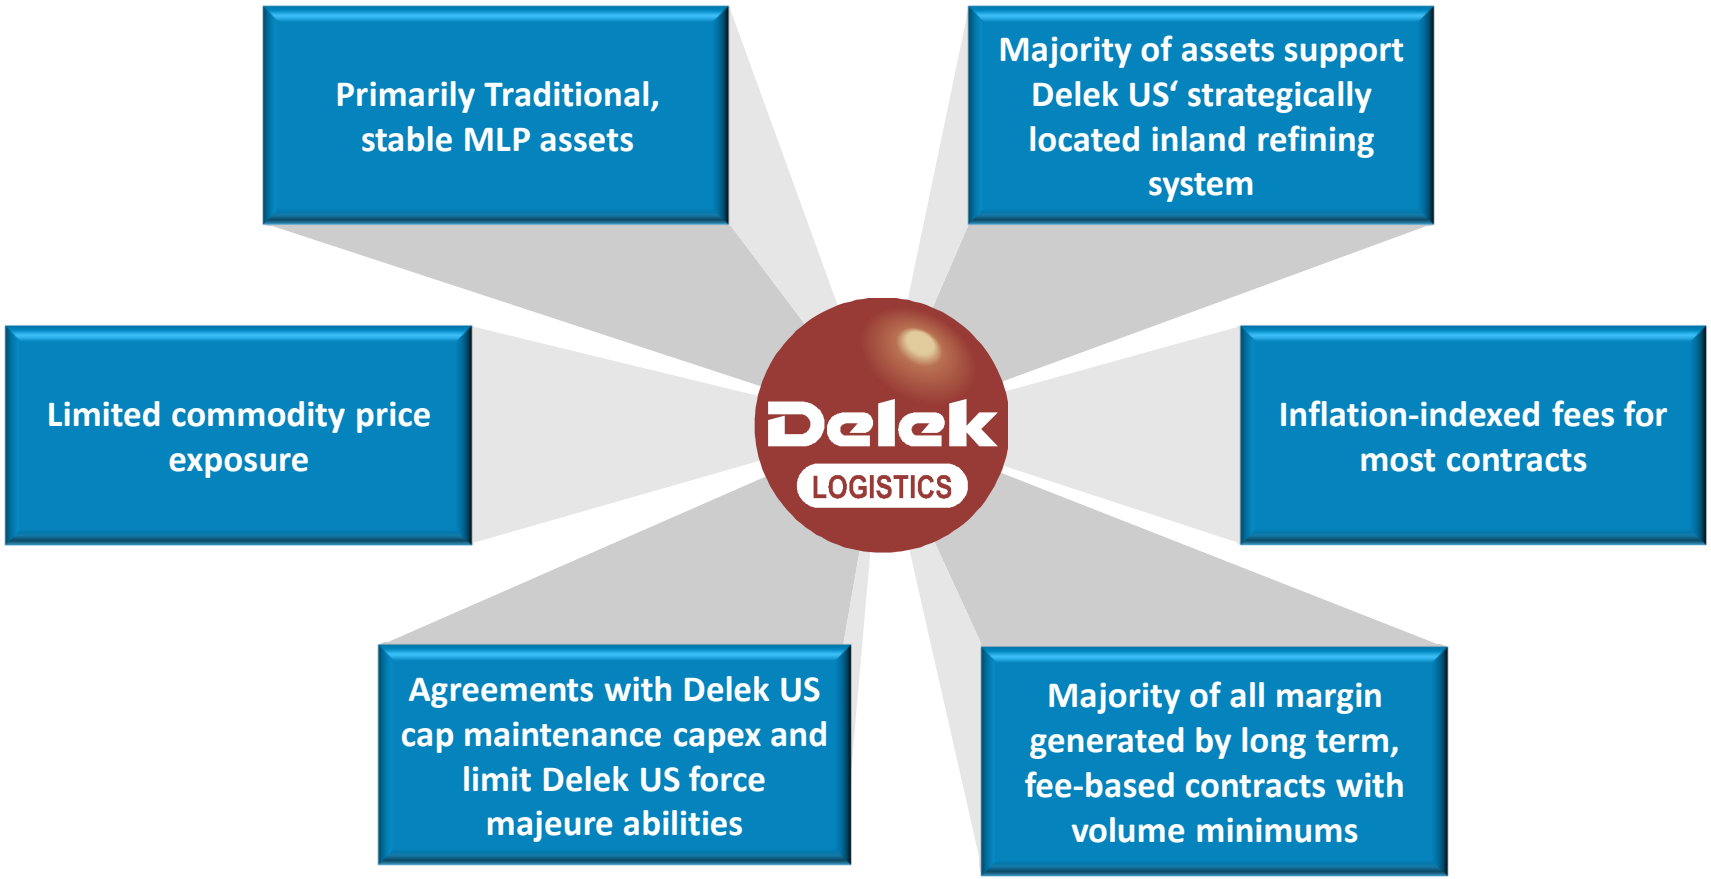

Visible Pathways for Growth Provide Potential for Continued EBTIDA Increase in Coming Quarters

*Estimated ranges; actual results subject to market conditions, operating performance and tariff rates.

(1) Reconciliation on pg. 28 for historical performance. Pro forma 1Q2014 includes amounts for drop down contribution based on daily EBITDA expected multiplied by days when the drop down assets were not included in operations of DKL according to purchase dates. Pro forma LTM 1Q2014 includes 116 days for Tyler assets and 315 days for El Dorado assets.
(2) Additional drop down range based on previous guidance.
(3) Annual potential contribution from increased throughput due light crude capability at El Dorado increasing by 10,000 bpd and tariff rates on the Lion Pipeline System.
(4) Actual amounts subject to contract negotiations, market conditions and throughput rates.

Questions and Answers

Appendix

Delek US' Refineries are Strategically Positioned and Flexible

Tyler Refinery (1)

- Inland refinery located in East Texas
  - 60,000 bpd, 9.5 complexity
- Primarily processes inland light sweet crudes (100% in 2013)
- 93% yield of gasoline, diesel and jet fuel in 2013

El Dorado Refinery (1)

- Inland refinery located in southern Arkansas
  - 80,000 bpd, 9.0 complexity (configured to run light or medium sour crude)
- Supply flexibility that can source West Texas, locally produced, and/or Gulf Coast crude
- 87% yield of gasoline and diesel in 2013
- Associated gathering system positioned for Brown Dense development

(1) As reported in Delek US' 2013 annual report on form 10-k.

Summary of Certain Contracts - footnotes

(1) Maximum term gives effect to the extension of the commercial agreement pursuant to the terms thereof.
(2) Represents average daily throughput for the period indicated.
(3) Excludes volumes gathered on the SALA Gathering System.
(4) Volumes gathered on the SALA Gathering System will not be subject to an additional tariff fee for transportation on the Lion Pipeline System to the El Dorado refinery.
(5) For any volumes in excess of 50,000 bpd, the throughput fee will be $0.638/bbl.
(6) $535,700 per month in 2014 and thereafter subject to annual escalation (Jan. 1) during any renewal periods. Fee pro-rated upwards if volume exceeds 30,000 bpd.
(7) Following the primary term, the marketing agreement automatically renews for successive 1-yr terms unless either party provides notice of non-renewal 10 months prior to the expiration of the then-current term.
(8) Delek US has agreed to pay the Partnership 50% of the margin, if any, above an agreed base level generated on the sale as an incentive fee, provided that the incentive fee will be not less than $175,000 nor greater than $500,000 per quarter.
(9) There is no relevant volume history at the terminal for the periods shown as the terminal has been idle since 2008.
(10) For more detailed information regarding contracts refer to documents filed with the SEC, including the Current Reports on Form 8-K filed and 8-K/A on Nov. 7, 2012, July 31, 2013 and Aug. 1, 2013; and El Dorado filed on Feb. 14, 2014.
(11) Tyler assets were purchased from Delek US on July 26, 2013 and pro forma terminal volume for 2012 was 55,000 bpd, 4Q13 volume was 52,700 ; Hopewell pipeline acquired from third party on July 19, 2013; North Little Rock was acquired on October 24, 2013 from a third party. El Dorado Assets were purchased in February 2014.

Amended and Restated Omnibus Agreement

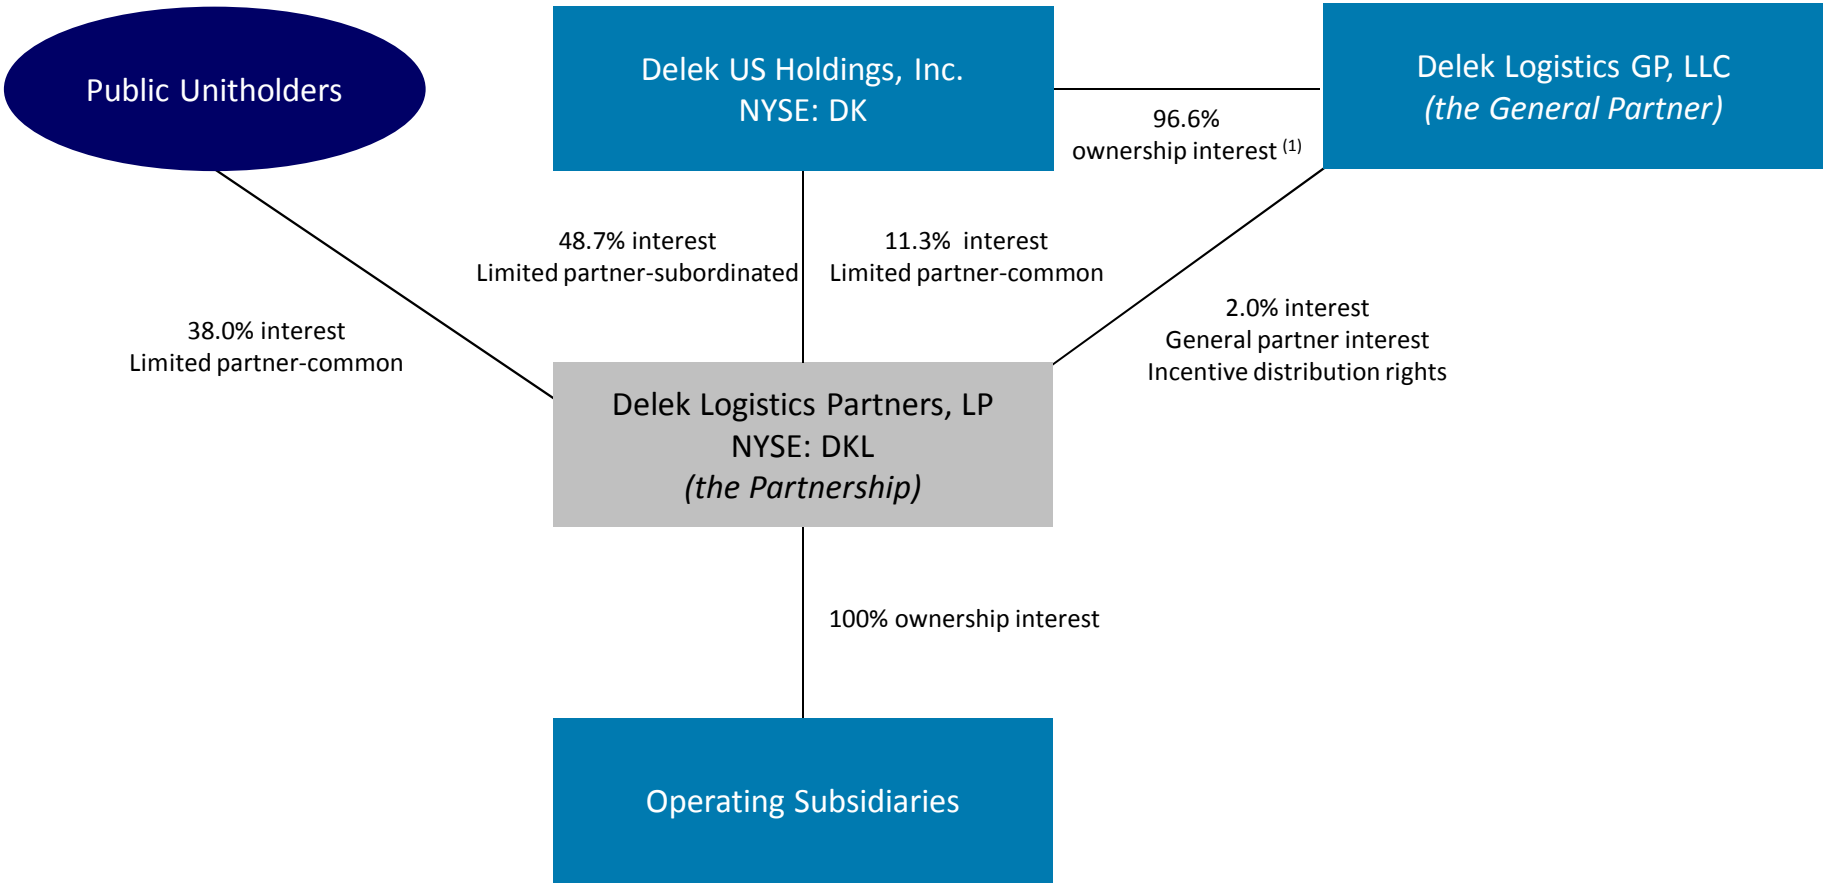

ROFO

- Under the omnibus agreement, Delek Logistics has a ROFO for 10-years post IPO if Delek US decides to sell the following assets:
  - Rail offloading racks in the El Dorado refinery.
- Delek Logistics has the right to purchase logistics assets Delek US acquires or constructs with a fair market value of $5.0 million or more
  - Delek Logistics retains a ROFO on these assets until 10-years post-IPO if it does not purchase an asset when constructed / acquired by Delek US.

Other Key Provisions

- Delek US will indemnify Delek Logistics for certain liabilities relating to contributed assets.
- Delek US has a ROFR if Delek Logistics sells any assets that serves Delek US' refineries or the Paline Pipeline.
- GP will not receive a management fee from the Partnership; Delek Logistics will pay Delek US an annual fee for G&A services and will reimburse the GP and/or Delek US for certain expenses.
- Limitations on exposure to assets contributed by Delek US relative to maintenance capital expenditures and certain expenses associated with repair/clean-up related events.
- For additional detailed information regarding this agreement please refer to documents filed with the SEC, including the Current Report on form 8-K filed Feb. 14, 2014.
