TSX, NYSE AMERICAN: GAU

FORWARD LOOKING INFORMATION

Cautionary Note Regarding Forward-Looking Statements

Certain statements and information contained in this presentation constitute "forward-looking statements" within the meaning of applicable U.S. securities laws and "forward-looking information" within the meaning of applicable Canadian securities laws, which we refer to collectively as "forward-looking statements". Forward-looking statements are statements and information regarding possible events, conditions or results of operations that are based upon assumptions about future conditions and courses of action. All statements and information other than statements of historical fact may be forward looking statements. In some cases, forward-looking statements can be identified by the use of words such as "seek", "expect", "anticipate", "budget", "plan", "estimate", "continue", "forecast", "intend", "believe", "predict", "potential", "target", "may", "could", "would", "might", "will" and similar words or phrases (including negative variations) suggesting future outcomes or statements regarding an outlook.

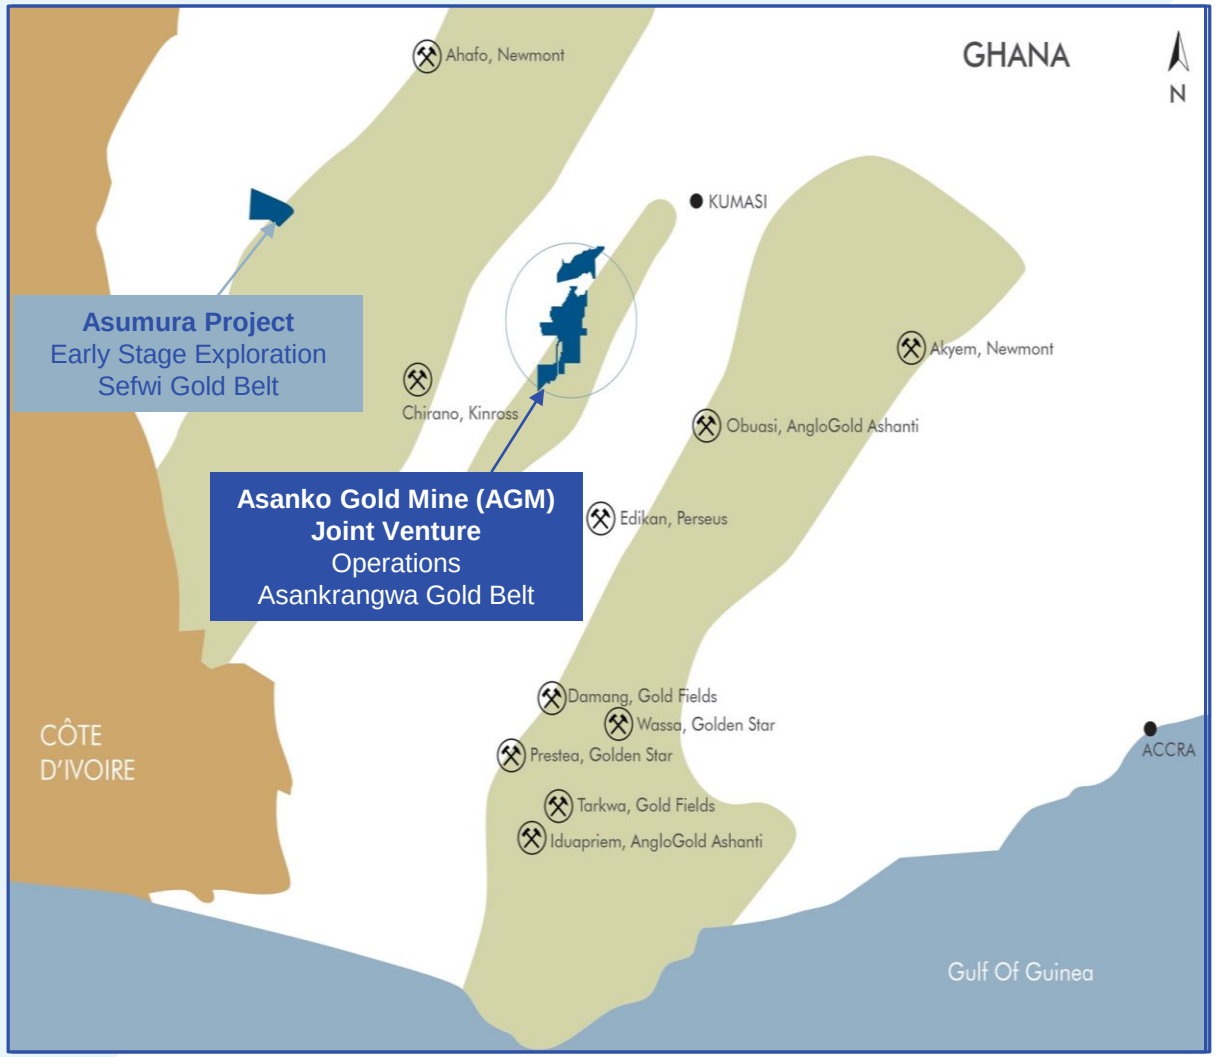

Forward-looking statements in this presentation include, but are not limited to: estimates regarding the value of the gold currently held at the AGM; expectations with respect to the Company's exploration program, including the expected results therefrom and the associated impact on the AGM's mineral reserve and resource estimates, the timelines associated therewith, additional follow-on exploration programs, the ability of the exploration program to replace depletion from mining operations and the expected cost of the exploration program; statements with respect to future sales pursuant to the Company's at-the-market offering; statements with respect to planned mining and development operations at the AGM for the remainder of 2020; expectations regarding development capital; expected gold production; and cost estimates. Such forward-looking statements are based on a number of material factors and assumptions, including, but not limited to: the ability of the AGM to continue to operate during the COVID-19 pandemic; that gold production and other activities will not be curtailed as a result of the COVID-19 pandemic; that the AGM will be able to continue to ship doré from the AGM site to be refined; that the doré produced by the AGM will continue to be able to be refined at similar rates and costs to the AGM, or at all; that the other current or potential future effects of the COVID-19 pandemic on the Company's business, operations and financial position, including restrictions on the movement of persons (and in particular, the AGM's workforce), restrictions on business activities, including access to the AGM, restrictions on the transport of goods, trade restrictions, increases in the cost of necessary inputs, reductions in the availability of necessary inputs and productivity and operational constraints, will not impact its 2020 production and cost guidance; that the Company's and the AGM's responses to the COVID-19 pandemic will be effective in continuing its operations in the ordinary course; the accuracy of the estimates and assumptions underlying the Mineral Resource and Mineral Reserve estimates, including future gold prices, cut-off grades and production and processing estimates; the successful completion of development and exploration projects, planned expansions or other projects within the timelines anticipated and at anticipated production levels; that mineral resources can be developed as planned; that the Company's relationship with joint venture partners will continue to be positive and beneficial to the Company; interest and exchange rates; that required financing and permits will be obtained; general economic conditions; that labour disputes or disruptions, flooding, ground instability, geotechnical failure, fire, failure of plant, equipment or processes to operate are as anticipated and other risks of the mining industry will not be encountered; that contracted parties provide goods or services in a timely manner; that there is no material adverse change in the price of gold or other metals; competitive conditions in the mining industry; title to mineral properties; costs; taxes; the retention of the Company's key personnel; and changes in laws, rules and regulations applicable to Galiano.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to differ materially from those anticipated in such forward-looking statements. The Company believes the expectations reflected in such forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be correct and you are cautioned not to place undue reliance on forward-looking statements contained herein. Some of the risks and other factors which could cause actual results to differ materially from those expressed in the forward-looking statements contained in this presentation, include, but are not limited to: the Company's and/or the AGM's operations may be curtailed or halted entirely as a result of the COVID-19 pandemic, whether as a result of governmental or regulatory law or pronouncement, or otherwise; that the doré produced at the AGM may not be able to be refined at expected levels, on expected terms or at all; that the Company and/or the AGM will experience increased operating costs as a result of the COVID-19 pandemic; that the AGM may not be able to source necessary inputs on commercially reasonable terms, or at all; the Company's and the AGM's responses to the COVID-19 pandemic may not be successful in continuing its operations in the ordinary course; mineral reserve and resource estimates may change and may prove to be inaccurate; life of mine estimates are based on a number of factors and assumptions and may prove to be incorrect; AGM has a limited operating history and is subject to risks associated with establishing new mining operations; sustained increases in costs, or decreases in the availability, of commodities consumed or otherwise used by the Company may adversely affect the Company; actual production, costs, returns and other economic and financial performance may vary from the Company's estimates in response to a variety of factors, many of which are not within the Company's control; adverse geotechnical and geological conditions (including geotechnical failures) may result in operating delays and lower throughput or recovery, closures or damage to mine infrastructure; the ability of the Company to treat the number of tonnes planned, recover valuable materials, remove deleterious materials and process ore, concentrate and tailings as planned is dependent on a number of factors and assumptions which may not be present or occur as expected; the Company's operations may encounter delays in or losses of production due to equipment delays or the availability of equipment; the Company's operations are subject to continuously evolving legislation, compliance with which may be difficult, uneconomic or require significant expenditures; the Company may be unsuccessful in attracting and retaining key personnel; labour disruptions could adversely affect the Company's operations; the Company's business is subject to risks associated with operating in a foreign country; risks related to the Company's use of contractors; the hazards and risks normally encountered in the exploration, development and production of gold; the Company's operations are subject to environmental hazards and compliance with applicable environmental laws and regulations; the Company's operations and workforce are exposed to health and safety risks; unexpected costs and delays related to, or the failure of the Company to obtain, necessary permits could impede the Company's operations; the Company's title to exploration, development and mining interests can be uncertain and may be contested; the Company's properties may be subject to claims by various community stakeholders; risks related to limited access to infrastructure and water; the Company's exploration programs may not successfully expand its current mineral reserves or replace them with new reserves; the Company's common shares may experience price and trading volume volatility; the Company's revenues are dependent on the market prices for gold, which have experienced significant recent fluctuations; the Company may not be able to secure additional financing when needed or on acceptable terms; Company shareholders may be subject to future dilution; risks related to changes in interest rates and foreign currency exchange rates; changes to taxation laws applicable to the Company may affect the Company's profitability and ability to repatriate funds; the Company's primary asset is held through a joint venture, which exposes the Company to risks inherent to joint ventures, including disagreements with joint venture partners and similar risks; risks related to the Company's internal controls over financial reporting and compliance with applicable accounting regulations and securities laws; the carrying value of the Company's assets may change and these assets may be subject to impairment charges; the Company may be liable for uninsured or partially insured losses; the Company may be subject to litigation; the Company may be unsuccessful in identifying targets for acquisition or completing suitable corporate transactions, and any such transactions may not be beneficial to the Company or its shareholders; the Company must compete with other mining companies and individuals for mining interests; and risks related to information systems security threats.

Although the Company has attempted to identify important factors that could cause actual results or events to differ materially from those described in the forward-looking statements, you are cautioned that this list is not exhaustive and there may be other factors that the Company has not identified. Furthermore, the Company undertakes no obligation to update or revise any forward-looking statements included in, or incorporated by reference in, this presentation if these beliefs, estimates and opinions or other circumstances should change, except as otherwise required by applicable law.

All numbers presented for the AGM on 100% basis, unless otherwise stated. The AGM is 50:50 Joint Venture with Gold Fields, Galiano is the operator. All dollar amounts US$ unless otherwise stated.

GALIANO AT A GLANCE

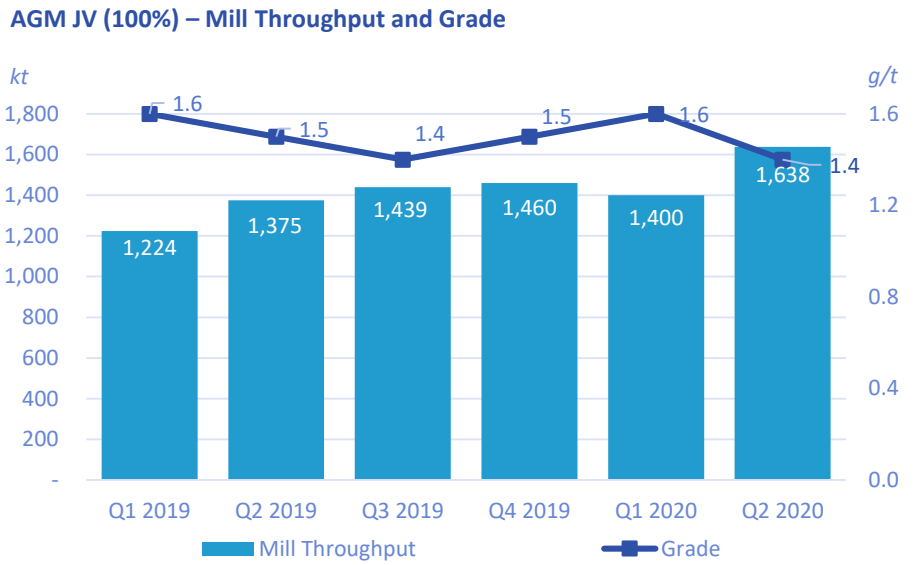

Key Information	
Basic shares outstanding[1]	**223.2m**
Corporate cash & receivables[2]	**$68.0m**
Market capitalization (basic)[3]	**$361.5m**
Share price[3]	**$1.62**

ON TRACK FOR 2020 GUIDANCE AT THE ASANKO GOLD MINE(1)

- **Gold production guidance: 225,000 – 245,000 oz**
  - Q2A = 69,026oz; YTD(2) = 135,359oz
  - Cut 2 at Nkran depleted in May 2020, H2 2020: Esaase, Akwasiso and stockpiles with lower grades
- **All-in sustaining cost(3) guidance: $1,000 - $1,100/oz**
  - Q2A = $1,067/oz; YTD(2) = $929/oz
    - H2 planned increase in sustaining capital: TSF Raise, waste stripping at Akwasiso and Esaase Main pits
  - Cost reduction program targeting a reduction of costs by $100/oz per year partially deferred as a result of COVID-19
- **Development capital guidance: $24 million**
  - YTD(2) : $16 million
  - Tetrem village relocation on track for completion Q4 2020

(1) Asanko Gold Mine Joint Venture information presented on 100% basis, unless otherwise stated
(2) YTD = as of June 30, 2020
(3) Refer to Appendix A for non-GAAP financial measures

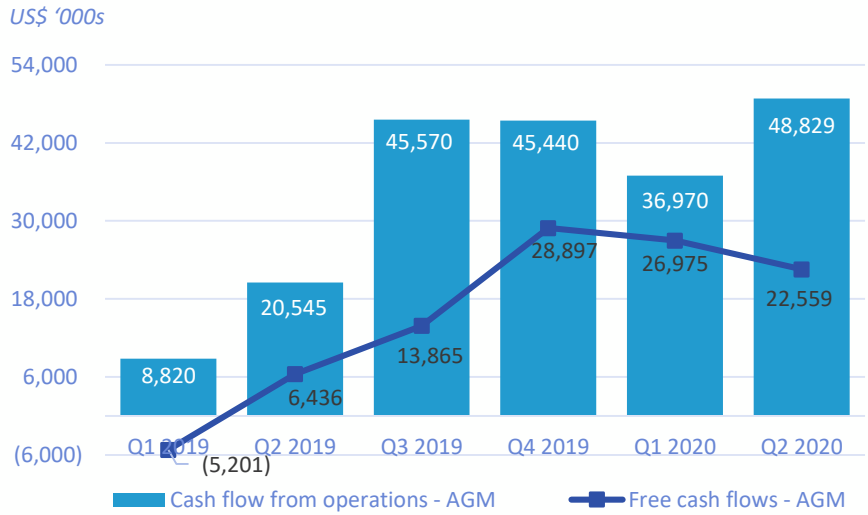

FOCUS ON FREE CASHFLOW GENERATION

ASANKO GOLD MINE (AGM JV) (100%)

Strong Cash Flow Generation

- Low capital mine development plan
  - February 2020 updated life of mine plan
- Free cash flow focus started in mid-2019
  - 2019: $120m cash flow from ops, $44m free cash flow[1]
  - H1 2020: $86m cash flow from ops, $50m free cash flow[1]
- Distributing cash to JV Partners
  - $95m in distributions over last 3 quarters
  - Q2 2020: $30m distribution

AGM JV (100%) – Cash Flow from Operations and Free Cash Flow(1)

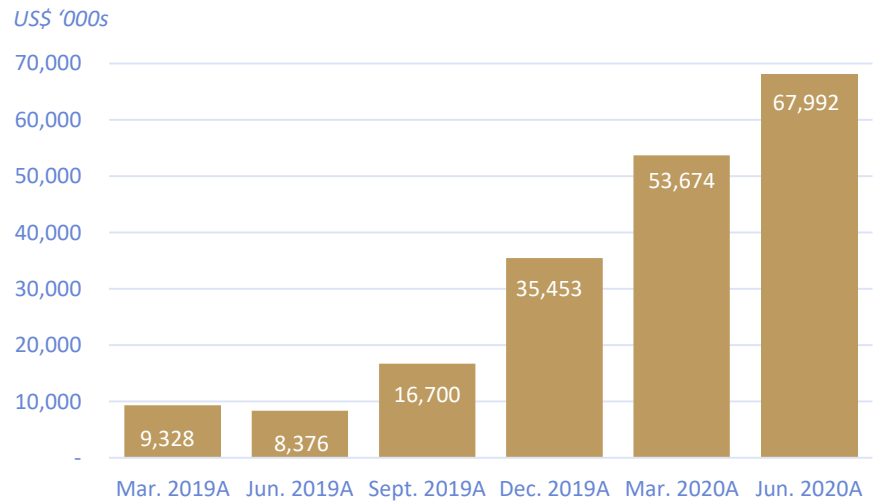

GALIANO GOLD

Strong Balance Sheet

- Rebuilt balance sheet
- $47.5m in distributions from JV
- No debt

Galiano Cash & Receivable Balance(2)

(1) Refer to Appendix A for non-GAAP financial measures
(2) Unaudited cash and receivable balance as of Mar. 31, 2019, Jun. 30, 2019, Sep. 30, 2019, Mar. 31, 2020 and Jun. 30, 2020

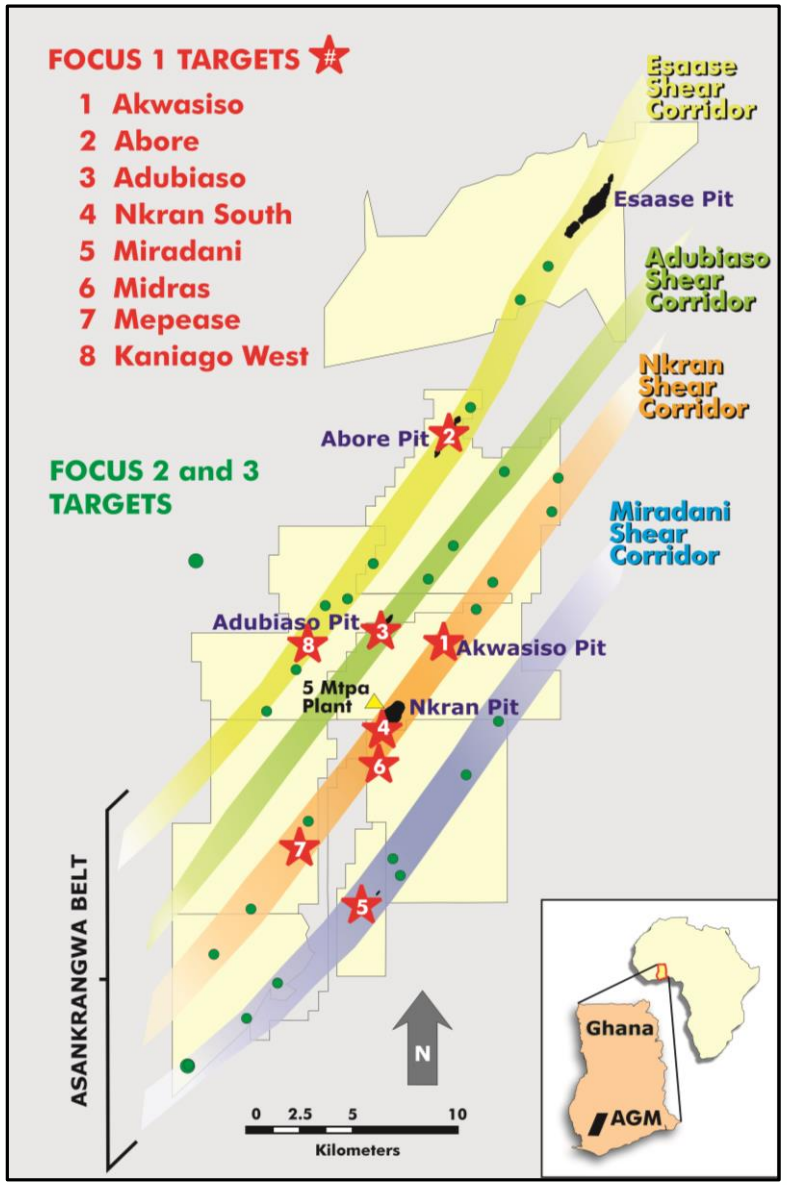

RE-INVIGORATED EXPLORATION PROGRAM WITH $10M BUDGET IN 2020

Exploration Objectives

1) **Near-term** – to replace depletion from mining activity in 2020 and 2021
2) **Medium-term** – to improve the business plan for 2023 to 2026 by delineating Mineral Reserves by the end of 2022 that have superior economics (return on invested capital) to Cut 3 at Nkran
3) **Longer-term** – to advance exploration targets +1 million ounce potential to be in production by 2027 to replace Esaase

Initial Drilling Program - 2020

- **Replacing depletion and improving five-year business plan**
  - 5 drill rigs expected to drill approximately 36,000 meters of diamond drilling and reverse circulation drilling during Q2 & Q3 2020
  - Nine high priority targets will be tested
  - Following completion additional drilling programs for Q3 & Q4 2020 will be designed based on the outcomes of the initial program

RESPONSIBLE BUSINESS CONDUCT

ENVIRONMENT

Limiting environmental impact and remediating any disturbances:

- Maximizing energy efficiency
- Tracking GHG emissions
- Minimizing water use
- Reducing waste

SOCIAL

Engaging with local communities to create self-sustaining legacies:

- Improving healthcare services
- Strengthening literacy
- Broadening access to finance
- Enhance local procurement plan
- Support community infrastructure

GOVERNANCE

Maintaining sound corporate governance and ethical business:

- Suite of ESG policies
- Human rights impact assessment
- Independent Tailings Review Panel
- Sustainability Committee

ICMM International Council on Mining & Metals
Health and safety performance indicators

IFC International Finance Corporation WORLD BANK GROUP
Performance Standards
1 Risk Management
2 Labor
3 Resource Efficiency

8 Cultural Heritage

THE GHANA CHAMBER OF MINES
MINING COMPANY OF THE YEAR 2018 & 2019

projectc.u.r.e.

GRI Empowering Sustainable Decisions

SUSTAINABLE DEVELOPMENT GOALS

UN Guiding Principles on Business and Human Rights

UNIQUE AND HIGHLY ATTRACTIVE INVESTMENT PROPOSITION

Underpinned by a cost reduction initiative and flexible capital structure

Refreshed Board and Management

Building on a strong ESG foundation

On track to meet 2020 guidance

Building upon a strong corporate brand

Sustaining production

Delivering responsible gold production in West Africa

Generating FCF and maintaining a solid balance sheet

Contributing to socio-economic development

Focusing on a high-quality project pipeline through exploration & acquisition

APPENDICES

APPENDIX A - FOOTNOTES

Note 1: Guidance projections used in this document ("Guidance") are considered "forward-looking statements" and represent management's good faith estimates or expectations of future production results as of the date hereof. Guidance is based upon certain assumptions, including, but not limited to, metal prices, oil prices, certain exchange rates and other assumptions. Such assumptions may prove to be incorrect and actual results may differ materially from those anticipated. Consequently, Guidance cannot be guaranteed. As such, investors are cautioned not to place undue reliance upon Guidance and forward-looking statements as there can be no assurance that the plans, assumptions or expectations upon which they are placed will occur.

Note 2: The Company has included certain non-GAAP performance measures throughout this presentation. These performance measures are employed by management to assess the Company's operating and financial performance and to assist in business decision-making. The Company believes that, in addition to conventional measures prepared in accordance with GAAP, certain investors and other stakeholders use this information to evaluate the Company's operating and financial performance; however, as explained elsewhere herein, these non-GAAP performance measures do not have any standardized meaning. Accordingly, these performance measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

Note 3: In June 2013, the World Gold Council ("WGC"), a non-regulatory association of many of the world's leading gold mining companies established to promote the use of gold to industry, provided guidance for the calculation of "all-in sustaining costs per gold ounce" in an effort to encourage improved understanding and comparability of the total costs associated with mining an ounce of gold. The Company has adopted the reporting of "all-in sustaining costs per gold ounce", which is a non-GAAP performance measure. The Company believes that the all-in sustaining costs per gold ounce measure provides additional insight into the costs of producing gold by capturing all of the expenditures required for the discovery, development and sustaining of gold production and allows the Company to assess its ability to support capital expenditures to sustain future production from the generation of operating cash flows. The Company believes that, in addition to conventional measures prepared in accordance with IFRS, some investors use this information to evaluate the JV's performance and ability to generate cash flow, disposition of which is subject to the terms of the JVA. Accordingly, it is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Other companies may calculate all-in sustaining costs per ounce differently. The JV does not calculate this information for use by both JV partners, rather it is calculated by the Company solely for the Company's own disclosure purposes. See below for reconciliations of AISC of the AGM to various operating expenses of the AGM on a 100% basis (the nearest GAAP measures), as presented in the notes to the condensed consolidated annual financial statements of the Company.

(in thousands of US dollars except per ounce amounts)	Year ended[1]			
	Dec. 31, 2019	Dec. 31, 2018	Dec. 31, 2017	Dec. 31, 2016
Total cash costs	210,392	170,923	127,379	96,987
General & Administrative expenses – JV[2]	6,341	8,609	11,117	8,844
Sustaining capital expenditures	6,442	3,892	8,447	3,727
Sustaining capitalized stripping costs[3]	37,075	59,769	59,915	35,952
Reclamation cost accretion	903	888	650	124
Sustaining lease payments	13,705	-	-	-
Interest on lease liabilities	1,817	-	-	-
All-in sustaining cost	**276,675**	**244,081**	**207,508**	**145,634**
Gold ounces sold	248,862	227,772	206,079	147,950
All-in sustaining cost per gold ounce sold ($/ounce) – JV	**1,112**	**1,072**	**1,007**	**984**
Average realized price per gold ounce sold ($/ounce)	**1,376**	**1,247**	**1,243**	**1,247**
All-in sustaining margin ($/ounce)	**264**	**175**	**236**	**263**
All-in sustaining margin	**65,700**	**39,860**	**48,635**	**38,911**

(1) The AGM did not commence commercial production until production until April 1, 2016 and, therefore, all-in sustaining costs per gold ounce for the years ended December 31, 2019, December 31, 2018 and December 31, 2017 may not be comparable to the year ended December 31, 2016
(2) Excluded from the G&A costs of the AGM is non-cash share-based compensation expense of $208k for the year ended December 31, 2019 (2018 - $199k; 2017 - $79k)
(3) Excludes stripping costs on operating pits which have yet to achieve steady-state production

(1) Excluded from the G&A costs of the AGM is non-cash share-based compensation expense of $53k for the three months ended Jun. 30, 2020 (Mar. 31, 2019 - $16k, Jun. 30, 2019 - $39k, Sept. 30, 2019 – 75k, Dec. 31, 2019 - $78k, Mar. 31, 2020 - $84k)

APPENDIX A – FOOTNOTES CONT'D

Note 4: Free cash flow is a non-GAAP performance measure which the Company believes, in addition to conventional measures prepared in accordance with GAAP, the Company and certain investors use to evaluate the Company's ability to generate cashflows. Accordingly, it is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Free Cash Flow is calculated as cash flows from operating activities of the JV adjusted for cash flows associated with sustaining and non-sustaining capital expenditures and payments made to mining contractors for leases capitalized under IFRS 16. The following table provides a reconciliation of Free Cash Flow of the AGM to its cash flows from operating activities on a 100% basis (the nearest GAAP measures), as presented in the notes to the consolidated annual financial statements of the Company for the year ended December 31, 2019 and the interim financial statements of the Company for the quarters ended June 30, 2020, March 31 ,2020, September 30, 2019, June 30, 2019 and March 31, 2019.

(in thousands of US dollars)	Three months ended					
	Jun. 30, 2020	Mar. 31, 2020	Dec. 31, 2019	Sep. 30, 2019	Jun. 30, 2019	Mar. 31, 2019
Cash flows from operating activities before working capital changes	44,269	56,518	33,808	30,177	35,335	10,465

APPENDIX C - CAUTIONARY NOTE

Cautionary Note to United States Investors Regarding Mineral Reporting Standards:

*As a British Columbia corporation and a "reporting issuer" under Canadian securities laws, the Company is required to provide disclosure regarding its mineral properties, including the AGM, in accordance with Canadian National Instrument 43-101 Standards of Disclosure for Mineral Projects ("**NI 43-101**"). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. In accordance with NI 43-101, the Company uses the terms mineral reserves and resources as they are defined in accordance with the CIM Definition Standards on mineral reserves and resources (the "**CIM Definition Standards**") adopted by the Canadian Institute of Mining, Metallurgy and Petroleum. In particular, the terms "mineral reserve", "proven mineral reserve", "probable mineral reserve", "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" used in this annual report and the documents incorporated by reference herein are Canadian mining terms defined in accordance with CIM Definition Standards. These definitions differ from the definitions in the disclosure requirements promulgated by the SEC. Accordingly, information contained in this press release may not be comparable to similar information made public by U.S. companies reporting pursuant to SEC disclosure requirements.*

United States investors are also cautioned that while the SEC will now recognize "measured mineral resources", "indicated mineral resources" and "inferred mineral resources", investors should not to assume that any part or all of the mineralization in these categories will ever be converted into a higher category of mineral resources or into mineral reserves. Mineralization described using these terms has a greater amount of uncertainty as to their existence and feasibility than mineralization that has been characterized as reserves. Accordingly, investors are cautioned not to assume that any "measured mineral resources", "indicated mineral resources", or "inferred mineral resources" that the Company reports are or will be economically or legally mineable.

Further, "inferred resources" have a greater amount of uncertainty as to their existence and as to whether they can be mined legally or economically. Therefore, United States investors are also cautioned not to assume that all or any part of the inferred resources exist. In accordance with Canadian rules, estimates of "inferred mineral resources" cannot form the basis of feasibility or other economic studies, except in limited circumstances where permitted under NI 43-101.

APPENDIX C – MINERAL RESOURCE & MINERAL RESERVE ESTIMATE

Mineral Resource Estimate as at December 31, 2019

Deposit	Measured			Indicated			Measured & Indicated Total			Inferred		
	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)
Nkran				8.5	2.14	586	8.5	2.14	586	-	-	-
Esaase				43.2	1.69	2,348	43.2	1.69	2,348	5.4	1.54	269
Akwasiso				2.8	1.82	165	2.8	1.82	165	0.4	2.16	29

Total	**2.3**	**0.76**	**57**	**61.7**	**1.74**	**3,447**	**64.1**	**1.70**	**3,504**	**7.0**	**1.59**	**357**

Notes:

- *Estimated Mineral Resources are reported at a cut-off grade of 0.5 g/t gold and assuming a gold price of US$1,500/oz.*
- *Figures are rounded to the appropriate level of precision for the reporting of Mineral Resources.*
- *Due to rounding, some columns or rows may not compute as shown.*
- *Estimated Mineral Resources are stated as in situ dry metric tonnes.*
- *Estimated Mineral Resources are reported inclusive of Estimated Mineral Reserves. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. The estimate of Mineral Resources may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues including but not limited to those noted under Cautionary Note Regarding Forward-Looking Statements.*
- *The Nkran, Esaase and Akwasiso MREs have been prepared by CSA Global who are independent of the Company. The Abore, Asuadai and Adubiaso MREs have been prepared by the Company and reviewed and accepted by CSA Global.*

APPENDIX C CONT'D – MINERAL RESOURCE & MINERAL RESERVE ESTIMATE

Mineral Reserve Estimate as at December 31, 2019

Deposit	Proven			Probable			Proven & Probable Total		
	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)	Tonnes (Mt)	Au Grade (g/t)	Au Content (koz)
Nkran				10.9	1.64	577	10.9	1.64	577
Esaase Main				29.1	1.33	1,245	29.1	1.33	1,245
Esaase South				4.5	1.44	210	4.5	1.44	210
Akwasiso				1.9	1.43	87	1.9	1.43	87
Abore				2.8	1.42	127	2.8	1.42	127
Adubiaso				0.8	1.51	38	0.8	1.51	38
Asuadai				1.0	1.12	37	1.0	1.12	37
Stockpiles	2.3	0.76	57				2.3	0.76	57
Total	**2.3**	**0.76**	**57**	**51.1**	**1.41**	**2,320**	**53.4**	**1.38**	**2,377**

Notes:

- *Estimated Mineral Reserves are reported assuming a gold price of US$1,300/oz.*
- *Estimated Mineral Reserves are defined within pit designs guided by pit shells derived from Whittle Four-X™ software (Whittle).*
- *Estimated Mineral Reserves are reported based on the maximum of: (a) the calculated marginal cut-off grades for each of the pits ranging between (0.38 - 0.71) g/t gold, and (b) 0.50 g/t gold.*
- *Figures are rounded to the appropriate level of precision for the reporting of Mineral Reserves. Due to rounding, some columns or rows may not compute as shown.*
- *Estimated Mineral Reserves are stated as in situ dry metric tonnes.*
- *The mine plan underpinning the estimated Mineral Reserves has been prepared by Snowden and reviewed and accepted by CSA Global. Both Snowden and CSA Global are independent of the Company.*
- *No Mineral Reserves have been estimated using estimated Inferred Mineral Resources.The estimate of Mineral Reserves may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues including but not limited to those noted under Cautionary Note Regarding Forward-Looking Statements.*

Qualified Person Statement

The scientific and technical contents in this presentation have been approved by Mr DM Begg, Pr.Sci.Nat., Senior Vice President Technical Services of Galiano Gold Inc., who is a "Qualified Person" as defined by Canadian National Instrument 43-101 (Standards of Mineral Disclosure). Mr. Begg is not independent of Galiano Gold Inc.

The data verification processes applied for the purposes of this presentation are consistent with those described in the Company's Amended and Restated Definitive Feasibility Study related to the AGM on June 9, 2017 (amended and restated on December 20, 2017).
