

LithiumAmericas

Student Talent Engagement Program

Click here or scan to explore current opportunities

We welcome talented students who are looking to gain practical experience in various positions at one of the most exciting mining and chemical processing projects in North America. We are committed to building the next generation of innovators by partnering with local academic institutions to introduce students to a wide range of career opportunities. We offer internships across Thacker Pass, Reno and Vancouver in departments including Operations, Legal, Human Resources, Engineering, Information Technology, Investor Relations & ESG/Corporate Communications and Finance.

Benefits of Working at Lithium Americas

Apply coursework and prior volunteer or work experience in a hands-on work environment

Collaborate cross-functionally across the business and work with leading professionals in the industry

Interns are paid a competitive compensation based on their academic year

Work in a supportive and inclusive environment, while gaining valuable experience and exploring future career opportunities

Testimonials from Past Interns

"Being trusted to take something from a rough idea to a working tool taught me more about problem-solving than any classroom project could." - Kenneth R, Data Analyst Intern, 2026

"Seeing how each person's work connects to the larger vision has reinforced the importance of collaboration and how every team contributes to the Company's success."
- Sarah S, Human Resources Intern, 2026
