The Deferred Share Units held by each Eligible Director who is not a US Taxpayer shall be redeemed automatically and with no further action by the Eligible Director on the 20th business day following the Separation Date for that Eligible Director. For US Taxpayers, Deferred Share Units held by an Eligible Director who is a Specified Employee will be automatically redeemed with no further action by the Eligible Director on the date that is six (6) months following the Separation Date for the Eligible Director, or if earlier, upon such Eligible Director's death. Upon redemption, the former Eligible Director shall be entitled to receive and the Company shall issue, subject to the limitations set forth in Section 7.1 of this Plan, the number of Shares issued from treasury equal to the number of Deferred Share Units in the Eligible Director's account, subject to any applicable deductions and withholdings. In the event a Separation Date occurs during a year and Deferred Share Units have been granted to such Eligible Director for that entire year, the Eligible Director will only be entitled to a pro-rated Deferred Share Unit Payment in respect of

such Deferred Share Units based on the number of days that he or she was an Eligible Director in such year.

No amount will be paid to, or in respect of, an Eligible Director under this Plan or pursuant to any other arrangement, and no other additional Deferred Share Units will be granted to compensate for a downward fluctuation in the value of the Shares of the Company nor will any other benefit be conferred upon, or in respect of, an Eligible Director for such purpose.

5.4 Death of Participant

In the event of the death of an Eligible Director, the Deferred Share Units shall be redeemed automatically and with no further action on the 20th business day following the death of an Eligible Director.

5.5 Payment of Dividends

Subject to the absolute discretion of the Board, in the event that a dividend (other than a stock dividend) is declared and paid by the Company on the Shares, an Eligible Director may be credited with additional Deferred Share Units. The number of such additional Deferred Share Units, if any, will be calculated by dividing (a) the total amount of the dividends that would have been paid to the Eligible Director if the Deferred Share Units in the Eligible Director's account on the dividend record date had been outstanding Shares (and the Eligible Director held no other Shares), by (b) the Fair Market Value of the Shares on the date on which such dividends were paid. If the foregoing results in a fractional Deferred Share Unit, the fraction shall be disregarded. Any additional Deferred Share Units awarded pursuant to this Section will be subject to the same terms, including the time of settlement, as the Deferred Share Units to which they relate.

PART 6
WITHHOLDING TAXES

6.1 Withholding Taxes

The Company or any Designated Affiliate may take such steps as are considered necessary or appropriate for the withholding of any taxes or other amounts which the Company or any Designated Affiliate is required by any law or regulation of any governmental authority whatsoever to withhold in connection with any Award including, without limiting the generality of the foregoing, the withholding of all or any portion of any payment or the withholding of the issue of any Shares to be issued under this Plan, until such time as the Participant has paid the Company or any Designated Affiliate for any amount which the Company or Designated Affiliate is required to withhold by law with respect to such taxes or other amounts. Without limitation to the foregoing, the Board may adopt administrative rules under this Plan, which provide for the automatic sale of Shares (or a portion thereof) in the market upon the issuance of such Shares under this Plan on behalf of the Participant to satisfy withholding obligations under an Award.

PART 7
GENERAL

7.1 Number of Shares

The aggregate number of Shares that may be issued under this Plan (together with any other securities-based compensation arrangements of the Company in effect from time to time) shall not exceed 14,400,737 Shares, such Shares to be allocated among Awards and Participants in amounts and at such times as may be determined by the Board from time to time. In addition, the aggregate number of Shares that may be issued and issuable under this Plan (when combined with all of the Company's other security-based compensation arrangements, as applicable),

(a) to Insiders shall not exceed 10% of the Company's outstanding issue from time-to-time;

(b) to Insiders within any one-year period shall not exceed 10% of the Company's outstanding issue from time to time; and

(c) to any one Insider and his or her associates or Affiliates within any one-year period shall not exceed 5% of the Company's outstanding issue from time to time.

In no event will the number of Shares that may be issued to any one Participant pursuant to Awards under this Plan (when combined with all of the Company's other security-based compensation arrangement, as applicable) exceed 5% of the Company's outstanding issue from time to time.

The aggregate number of Options that may be granted under this Plan to any one non-employee director of the Company within any one-year period shall not exceed a maximum value of C$100,000 worth of securities, and together with any Restricted Share Rights and Deferred Share Units granted under this Plan and any securities granted under all other securities-based compensation arrangements, such aggregate value shall not exceed C$150,000 in any on-year period. The calculation of this limitation shall not include however: (i) the initial securities granted under securities-based compensation arrangements to a person who was not previously a director of the Company, upon such person becoming or agreeing to become a director of the Company (however, the aggregate number of securities granted under all securities-based compensation arrangements in this initial grant to any one non-employee director shall not exceed the foregoing maximum values of securities); (ii) the securities granted under securities-based compensation arrangements to a director of the Company who was also an officer of the Company at the time of grant but who subsequently became a non-employee director; and (iii) any securities granted to a non-employee director that is granted in lieu of any director cash fee provided the value of the security awarded has the same value as the cash fee given up in exchange for such security. For greater clarity, in this Plan, securities-based compensation arrangements include securities issued under this Plan and any other compensation arrangements implemented by the Company including stock options, other stock option plans, employee stock purchase plans, stock appreciation right plans, deferred share unit plans, performance share unit plans, restricted share unit plans or any other compensation or incentive mechanism involving the issuance or potential issuance of Shares from treasury, but excludes any compensation arrangement that does not involve the issuance of

Shares from treasury and any other compensation arrangements assumed or inherited by the Company in connection with the acquisition of another entity.

For the purposes of this Section 7.1, "outstanding issue" means the total number of Shares, on a non-diluted basis, that are issued and outstanding immediately prior to the date that any Shares are issued or reserved for issuance pursuant to an Award.

For greater clarity, the issuance of Arrangement Restricted Share Rights and Arrangement Deferred Share Units shall not be treated as a new grant of Restricted Share Rights and Deferred Share Units, respectively.

7.2 Lapsed Awards

If Awards are surrendered, terminated or expire without being exercised in whole or in part, new Awards may be granted covering the Shares not issued under such lapsed Awards, subject to any restrictions that may be imposed by the Toronto Stock Exchange.

7.3 Adjustment in Shares Subject to this Plan

If there is any change in the Shares through the declaration of stock dividends of Shares, through any consolidations, subdivisions or reclassification of Shares, or otherwise, the number of Shares available under this Plan, the Shares subject to any Award, and the exercise price of any Option shall be adjusted as determined to be appropriate by the Board, and such adjustment shall be effective and binding for all purposes of this Plan.

7.4 Transferability

Any Awards accruing to any Participant in accordance with the terms and conditions of this Plan shall not be transferable unless specifically provided herein. During the lifetime of a Participant all Awards may only be exercised by the Participant. Awards are non-transferable except by will or by the laws of descent and distribution.

7.5 Employment

Nothing contained in this Plan shall confer upon any Participant any right with respect to employment or continuance of employment with the Company or any Affiliate, or interfere in any way with the right of the Company or any Affiliate to terminate the Participant's employment at any time. Participation in this Plan by a Participant is voluntary.

7.6 Record Keeping

The Company shall maintain a register in which shall be recorded:

(a) the name and address of each Participant;

(b) the number of Awards granted to each Participant and relevant details regarding such Awards; and

(c) such other information as the Board may determine.

7.7 Necessary Approvals

This second amended and restated equity incentive plan of the Corporation continues to be in effect. The amendments adopted by the Board on May 15, 2023 shall become effective on such date, except for Part 9 which shall become effective on the Arrangement Effective Date as contemplated in the Plan of Arrangement, subject in all cases to the approval of (a) the Toronto Stock Exchange and (b) the New York Stock Exchange.

7.8 Amendments to Plan

The Board shall have the power to, at any time and from time to time, either prospectively or retrospectively, amend, suspend or terminate this Plan or any Award granted under this Plan without shareholder approval, including, without limiting the generality of the foregoing: changes of a clerical or grammatical nature, changes regarding the persons eligible to participate in this Plan, changes to the exercise price, vesting, term and termination provisions of the Award, changes to the Cashless Surrender Right provisions, changes to the authority and role of the Board under this Plan, and any other matter relating to this Plan and the Awards that may be granted hereunder, provided however that:

(a) such amendment, suspension or termination is in accordance with applicable laws and the rules of any stock exchange on which the Shares are listed;

(b) no amendment to this Plan or to an Award granted hereunder will have the effect of impairing, derogating from or otherwise adversely affecting the terms of an Award which is outstanding at the time of such amendment without the written consent of the holder of such Award;

(c) the expiry date of an Option Period in respect of an Option shall not be more than ten (10) years from the date of grant of an Option except as expressly provided in Section 3.4;

(d) the Directors shall obtain shareholder approval of:

(i) any amendment to the number of Shares specified in Section 7.1;

(ii) any amendment to the limitations on Shares that may be reserved for issuance, or issued, to Insiders, or remove participation limits on non-employee directors or increase the amounts of participation limits on non-employee directors;

(iii) any amendment that would reduce the exercise price of an outstanding Option other than pursuant to Section 7.3 or permits the cancellation and re-issuance of Options;

(iv) any amendment that would extend the expiry date of the Option Period in respect of any Option granted under this Plan except as expressly contemplated in Section 3.4;

(v) any amendment to permit Options to be transferred other than for normal estate settlement purposes; or

(vi) any amendment to reduce the range of amendments requiring shareholder approval contemplated in this Section.

If this Plan is terminated, the provisions of this Plan and any administrative guidelines and other rules and regulations adopted by the Board and in force on the date of termination will continue in effect as long as any Award or any rights pursuant thereto remain outstanding and, notwithstanding the termination of this Plan, the Board shall remain able to make such amendments to this Plan or the Award as they would have been entitled to make if this Plan were still in effect.

7.9 No Representation or Warranty

The Company makes no representation or warranty as to the future market value of any Shares issued in accordance with the provisions of this Plan.

7.10 Section 409A

It is intended that any payments under the Plan to US Taxpayers shall be exempt from or comply with Section 409A of the Code, and all provisions of the Plan shall be construed and interpreted in a manner consistent with the requirements for avoiding taxes and penalties under Section 409A of the Code.

7.11 Compliance with Applicable Law, etc.

If any provision of this Plan or any agreement entered into pursuant to this Plan contravenes any law or any order, policy, by-law or regulation of any regulatory body or stock exchange having authority over the Company or this Plan, then such provision shall be deemed to be amended to the extent required to bring such provision into compliance therewith.

All Awards and securities which may be acquired pursuant to the exercise of the Awards to be issued pursuant to the Plan will be issued pursuant to the registration requirements of the U.S. Securities Act and applicable state securities laws or an exemption or exclusion from such registration requirements.

7.12 Clawback and Recoupment

All Awards under this Plan shall be subject to forfeiture or other penalties pursuant to any Company clawback policy, as may be adopted or amended from time to time, and such forfeiture and/or penalty conditions or provisions as determined by the Committee.

7.13 Term of the Plan

This Plan shall remain in effect until it is terminated by the Board.

The Company may from time-to-time grant Options to Participants pursuant to this Plan.

3.2 Price

The exercise price per Share of any Option shall be not less than one hundred per cent (100%) of the Fair Market Value of the Share on the date of grant.

3.3 Grant of Options

The Board, on the recommendation of the Committee, may at any time authorize the granting of Options to such Participants as it may select for the number of Shares that it shall designate, subject to the provisions of this Plan. The Board may also, by way of Board resolution, delegate to the CEO the authority to grant any of a designated number of Options (such number to be specified by the Board in the aforementioned resolution) to Eligible Employees, other than Eligible Employees who are officers or directors of the Company (such Options, the **"Delegated Options**"). The date of grant of an Option shall be (i) the date such grant was approved by the Committee for recommendation to the Board, provided the Board approves such grant; or (ii) for a grant of an Option not approved by the Committee for recommendation to the Board, the date such grant was approved by the Board; or (iii) in respect of Delegated Options, the date such grant is made by the CEO. Notwithstanding the foregoing, the Board may authorize the grant of Options at any time with such grant to be effective at a later date and the corresponding determination of the exercise price to be done at such date to accommodate any Blackout Period or such other circumstances where such delayed grant is deemed appropriate, and the date of grant of such Options shall then be the effective date of the grant.

Each Option granted to a Participant shall be evidenced by a stock option grant letter or agreement with terms and conditions consistent with this Plan and as approved by the Board on the recommendation of the Committee, or, in respect of Delegated Options, by the CEO (and in all cases which terms and conditions need not be the same in each case and may be changed from time to time, subject to Section 7.8 of this Plan, and the approval of any material changes by the Toronto Stock Exchange or such other exchange or exchanges on which the Shares are then traded).

3.4 Terms of Options

The Option Period shall be five (5) years from the date such Option is granted, or such greater or lesser duration as the Board, on the recommendation of the Committee, or in the case of Delegated Options, the CEO, may determine at the date of grant, and may thereafter be reduced with respect to any such Option as provided in Section 3.6 hereof covering termination of employment or death of the Optionee; provided, however, that at any time the expiry date of the Option Period in respect of any outstanding Option under this Plan should be determined to occur either during a Blackout Period or within ten (10) business days following the expiry of the Blackout Period, the expiry

date of such Option Period shall be deemed to be the date that is the tenth (10th) business day following the expiry of the Blackout Period.

Unless otherwise determined from time to time by the Board, on the recommendation of the Committee, or, in respect of Delegated Options, by the CEO, Options shall vest and may be exercised (in each case to the nearest full Share) during the Option Period as follows:

(a) at any time during the first six (6) months of the Option Period, the Optionee may purchase up to 25% of the total number of Shares reserved for issuance pursuant to his or her Option; and

(b) at any time during each additional six (6) month period of the Option Period the Optionee may purchase an additional 25% of the total number of Shares reserved for issuance pursuant to his or her Option plus any Shares not purchased in accordance with the preceding subsection (a) and this subsection (b) until, after the 18th month of the Option Period, 100% of the Option will be exercisable.

Except as set forth in Section 3.6, no Option may be exercised unless the Optionee is at the time of such exercise:

(a) in the case of an Eligible Employee, in the employ (or retained as a Service Provider) of the Company or a Designated Affiliate and shall have been continuously so employed or retained since the grant of the Option; or

(b) in the case of an Eligible Director, a director of the Company or a Designated Affiliate and shall have been such a director continuously since the grant of the Option.

The exercise of any Option will be contingent upon the Optionee having entered into an Option agreement with the Company on such terms and conditions as have been approved by the Board, on the recommendation of the Committee, or, in respect of the Delegated Options, by the CEO, and which in any case incorporates by reference the terms of this Plan. The exercise of any Option will, subject to Section 3.5, also be contingent upon receipt by the Company of cash payment of the full purchase price of the Shares being purchased.

3.5 Cashless Surrender Right

Participants have the right (the "**Cashless Surrender Right**"), in lieu of the right to exercise an Option, to surrender such Option in whole or in part by notice in writing delivered by the Participant to the Company electing to the Cashless Surrender Right and, in lieu of receiving the number of Shares (the "**Option Shares**") to which such surrendered Option (or portion thereof) relates, to receive the number of Shares, disregarding fractions, which is equal to the quotient obtained by:

(a) subtracting the applicable Option exercise price per Share from the Fair Market Value per Share on the business day immediately prior to the exercise of the Cashless Surrender Right and multiplying the remainder by the number of Option Shares; and

(b) dividing the product obtained under subsection 3.5(a) by the Fair Market Value per Share on the business day immediately prior to the exercise of the Cashless Surrender Right.

If a Participant exercises a Cashless Surrender Right in connection with an Option, it is exercisable only to the extent and on the same conditions that the related Option is exercisable under this Plan.

3.6 Effect of Termination of Employment or Death

If an Optionee:

(a) dies while employed by, a Service Provider to, or while a director of, the Company or a Designated Affiliate, any Option held by him or her at the date of death shall become exercisable in whole or in part, but only by the person or persons to whom the Optionee's rights under the Option shall pass by the Optionee's will or applicable laws of descent and distribution. Unless otherwise determined by the Board, on the recommendation of the Committee, all such Options shall be exercisable only to the extent that the Optionee was entitled to exercise the Option at the date of his or her death and only for 12 months after the date of death or prior to the expiration of the Option Period in respect thereof, whichever is sooner; and

(b) ceases to be employed by, a Service Provider to, or act as a director of, the Company or a Designated Affiliate for cause, no Option held by such Optionee will, unless otherwise determined by the Board, on the recommendation of the Committee, be exercisable following the date on which such Optionee ceases to be so engaged. If an Optionee ceases to be employed by, a Service Provider to, or act as a director of, the Company or a Designated Affiliate for any reason other than cause then, unless otherwise determined by the Board, on the recommendation of the Committee, any Option held by such Optionee at the effective date thereof shall become exercisable for a period of up to 12 months thereafter or prior to the expiration of the Option Period in respect thereof, whichever is sooner.

3.7 Effect of Change of Control

If a Triggering Event occurs within the 12-month period immediately following a Change of Control pursuant to the provisions of Section 2.1(m)(A), (B), (D) or (E), all outstanding Options shall vest immediately and become exercisable on the date of such Triggering Event.

In the event of a Change of Control pursuant to the provisions of Section 2.1(m)(C), all Options outstanding shall immediately vest and become exercisable on the date of such Change of Control.

The provisions of this Section 3.7 shall be subject to the terms of any employment agreement between the Participant and the Company.

3.8 Effect of Amalgamation or Merger

Subject to Section 3.7, if the Company amalgamates or otherwise completes a plan of arrangement or merges with or into another corporation, any Shares receivable on the exercise of an Option shall be converted into the securities, property or cash which the Participant would have received upon such amalgamation, arrangement or merger if the Participant had exercised his or her Option immediately prior to the record date applicable to such amalgamation, arrangement or merger, and the option price shall be adjusted appropriately by the Board and such adjustment shall be binding for all purposes of this Plan.

PART 4
RESTRICTED SHARE RIGHTS AND PERFORMANCE SHARE UNITS

4.1 Participants

The Board has the right to grant, in its sole and absolute discretion, to any Participant, rights to receive any number of fully paid and non-assessable Shares ("**Restricted Share Rights**" or "**Restricted Share Unit**") as a discretionary payment in consideration of past services to the Company or as an incentive for future services, subject to this Plan and with such additional provisions and restrictions as the Board may determine. Restricted Share Rights may be granted subject to performance conditions and/or performance multipliers, in which case such Restricted Share Rights may be designated as "Performance Share Units".

4.2 Restricted Share Right Grant Letter

Each grant of a Restricted Share Right under this Plan shall be evidenced by a grant letter or agreement (a "**Restricted Share Right Grant Letter**") issued to the Participant by the Company. Such Restricted Share Right Grant Letter shall be subject to all applicable terms and conditions of this Plan and may be subject to any other terms and conditions which are not inconsistent with this Plan and which the Board, on the recommendation of the Committee, deems appropriate for inclusion in a Restricted Share Right Grant Letter. The provisions of the various Restricted Share Right Grant Letters issued under this Plan need not be identical.

4.3 Restricted Period

Concurrent with the determination to grant Restricted Share Rights to a Participant, the Board, on the recommendation of the Committee, shall determine the Restricted Period and vesting requirements applicable to such Restricted Share Rights. Vesting of a Restricted Share Right shall be determined at the sole discretion of the Board at the time of grant and shall be specified in the Restricted Share Right Grant Letter. Vesting requirements may be based upon the continued employment or other service of a Participant, and/or to performance conditions to be achieved by the Company or a class of Participants or by a particular Participant on an individual basis, within a Restricted Period, for such Restricted Share Rights to entitle the holder thereof to receive the underlying Shares (and the number of underlying Shares that may be received may be subject to performance multipliers). Upon expiry of the applicable Restricted Period (or on the Deferred Payment Date, as applicable), a Restricted Share Right shall be automatically settled, and without the payment of additional consideration or any other further action on the part of the holder of the

Restricted Share Right, the underlying Shares shall be issued to the holder of such Restricted Share Rights, which Restricted Share Rights shall then be cancelled.

4.4 Deferred Payment Date

Participants who are residents of Canada for the purposes of the *Income Tax Act* (Canada), or who are residents of Argentina, and not, in either case, a US Taxpayer, may elect to defer receipt of all or any part of the Shares underlying Restricted Share Rights until one or more Deferred Payment Dates. Any other Participants may not elect a Deferred Payment Date.

4.5 Prior Notice of Deferred Payment Date

Participants who elect to set a Deferred Payment Date must, in respect of each such Deferred Payment Date, give the Company written notice of the Deferred Payment Date(s) not later than thirty (30) days prior to the expiration of the applicable Restricted Period. For certainty, Participants shall not be permitted to give any such notice after the day which is thirty (30) days prior to the expiration of the Restricted Period and a notice once given may not be changed or revoked. For the avoidance of doubt, the foregoing shall not prevent a Participant from electing an additional Deferred Payment Date, provided, however that notice of such election is given by the Participant to the Company not later than thirty (30) days prior to the expiration of the subject Restricted Period.

4.6 Retirement or Termination during Restricted Period

Subject to the terms of any employment agreement or Award agreement between the Company and the Participant, in the event and to the extent of the Retirement or Termination and/or, as applicable, the Director Retirement or Director Termination of a Participant from all such roles with the Company during the Restricted Period, any Restricted Share Rights held by the Participant shall immediately terminate and be of no further force or effect; provided, however, that the Board shall have the absolute discretion to modify the Restricted Share Rights, including to provide that the Restricted Period shall terminate immediately prior to the date of such occurrence or allow the Restricted Share Rights to continue in accordance with their original Restricted Periods.

4.7 Retirement or Termination after Restricted Period

In the event and to the extent of the Retirement or Termination and/or, as applicable, the Director Retirement or Director Termination of the Participant from all such roles with the Company following the Restricted Period and prior to a Deferred Payment Date, the Participant shall be entitled to receive, and the Company shall issue forthwith, Shares in satisfaction of the Restricted Share Rights then held by the Participant.

4.8 Death or Disability of Participant

In the event of the death or total disability of a Participant, any Shares represented by Restricted Share Rights held by the Participant shall be immediately issued by the Company to the Participant or legal representative of the Participant.

4.9 Payment of Dividends

Subject to the absolute discretion of the Board, in the event that a dividend (other than a stock dividend) is declared and paid by the Company on the Shares, a Participant may be credited with additional Restricted Share Rights. The number of such additional Restricted Share Rights, if any, will be calculated by dividing (a) the total amount of the dividends that would have been paid to the Participant if the Restricted Share Rights (including Restricted Share Rights in which the Restricted Period has expired but the Shares have not been issued due to a Deferred Payment Date) in the Participant's account on the dividend record date had been outstanding Shares (and the Participant held no other Shares) by (b) the Fair Market Value of the Shares on the date on which such dividends were paid. If the foregoing results in a fractional Restricted Share Right, the fraction shall be disregarded. Any additional Restricted Share Rights awarded pursuant to this Section will be subject to the same terms, including the time of settlement, as the Restricted Share Rights to which they relate.

4.10 Change of Control

If a Triggering Event occurs within the 12-month period immediately following a Change of Control pursuant to the provisions of Section 2.1(m)(A), (B), (D) or (E) all outstanding Restricted Share Rights shall vest immediately and be settled by the issuance of Shares notwithstanding the Restricted Period and any Deferred Payment Date.

In the event of a Change of Control pursuant to the provisions of Section 2.1(m)(C), all Restricted Shares Rights outstanding shall immediately vest and be settled by the issuance of Shares notwithstanding the Restricted Period and any Deferred Payment Date.

Notwithstanding any provision of this Plan, in the event of a Change of Control, all Arrangement Restricted Share Rights outstanding held by Arrangement Departing Participants shall vest immediately and be settled by the issuance of Shares notwithstanding the Restricted Period and any Deferred Payment Date.

The provisions of this Section 4.10 shall be subject to the terms of any employment agreement between the Participant and the Company.

4.11 Settlement Basis for Performance Share Units

In respect of Performance Share Units that are accelerated as a result of a Change of Control or the total disability or death of a Participant, unless the Board determines otherwise and subject to any employment agreement or Award agreement between the Company and the Participant, (i) in respect of any performance measurement periods that are completed on or prior to the Change of Control, total disability or death of a Participant, the proportion of Performance Share Units equivalent to the performance measurement periods completed shall be settled by applying a performance multiplier calculated based on the actual performance in respect to such completed periods, and (ii) in respect of any performance measurement periods that are not completed on or prior to the Change of Control, total disability or death of a Participant, the equivalent proportion of Performance Share Units in respect to such periods shall be settled by applying a performance multiplier of one Share for each Performance Share Unit.

PART 5
DEFERRED SHARE UNITS

5.1 Deferred Share Unit Grants

The Board may from time to time determine to grant Deferred Share Units to one or more Eligible Directors in a lump sum amount or on regular intervals, based on such formulas or criteria as the Board may from time to time determine. Deferred Share Units will be credited to the Eligible Director's account when designated by the Board.

5.2 Deferred Share Unit Grant Letter

Each grant of a Deferred Share Unit under this Plan shall be evidenced by a grant letter or agreement (a "**Deferred Share Unit Grant Letter**") issued to the Eligible Director by the Company. Such Deferred Share Unit Grant Letter shall be subject to all applicable terms and conditions of this Plan and may be subject to any other terms and conditions which are not inconsistent with this Plan and which the Board deems appropriate for inclusion in a Deferred Share Unit Grant Letter. The provisions of Deferred Share Unit Grant Letters issued under this Plan need not be identical.

5.3 Redemption of Deferred Share Units and Issuance of Deferred Shares

The Deferred Share Units held by each Eligible Director who is not a US Taxpayer shall be redeemed automatically and with no further action by the Eligible Director on the 20th business day following the Separation Date for that Eligible Director. For US Taxpayers, Deferred Share Units held by an Eligible Director who is a Specified Employee will be automatically redeemed with no further action by the Eligible Director on the date that is six (6) months following the Separation Date for the Eligible Director, or if earlier, upon such Eligible Director's death. Upon redemption, the former Eligible Director shall be entitled to receive and the Company shall issue, subject to the limitations set forth in Section 7.1 of this Plan, the number of Shares issued from treasury equal to the number of Deferred Share Units in the Eligible Director's account, subject to any applicable deductions and withholdings. In the event a Separation Date occurs during a year and Deferred Share Units have been granted to such Eligible Director for that entire year, the Eligible Director will only be entitled to a pro-rated Deferred Share Unit Payment in respect of such Deferred Share Units based on the number of days that he or she was an Eligible Director in such year.

No amount will be paid to, or in respect of, an Eligible Director under this Plan or pursuant to any other arrangement, and no other additional Deferred Share Units will be granted to compensate for a downward fluctuation in the value of the Shares of the Company nor will any other benefit be conferred upon, or in respect of, an Eligible Director for such purpose.

5.4 Death of Participant

In the event of the death of an Eligible Director, the Deferred Share Units shall be redeemed automatically and with no further action on the 20th business day following the death of an Eligible Director.

5.5 Payment of Dividends

Subject to the absolute discretion of the Board, in the event that a dividend (other than a stock dividend) is declared and paid by the Company on the Shares, an Eligible Director may be credited with additional Deferred Share Units. The number of such additional Deferred Share Units, if any, will be calculated by dividing (a) the total amount of the dividends that would have been paid to the Eligible Director if the Deferred Share Units in the Eligible Director's account on the dividend record date had been outstanding Shares (and the Eligible Director held no other Shares), by (b) the Fair Market Value of the Shares on the date on which such dividends were paid. If the foregoing results in a fractional Deferred Share Unit, the fraction shall be disregarded. Any additional Deferred Share Units awarded pursuant to this Section will be subject to the same terms, including the time of settlement, as the Deferred Share Units to which they relate.

PART 6
WITHHOLDING TAXES

6.1 Withholding Taxes

The Company or any Designated Affiliate may take such steps as are considered necessary or appropriate for the withholding of any taxes or other amounts which the Company or any Designated Affiliate is required by any law or regulation of any governmental authority whatsoever to withhold in connection with any Award including, without limiting the generality of the foregoing, the withholding of all or any portion of any payment or the withholding of the issue of any Shares to be issued under this Plan, until such time as the Participant has paid the Company or any Designated Affiliate for any amount which the Company or Designated Affiliate is required to withhold by law with respect to such taxes or other amounts. Without limitation to the foregoing, the Board may adopt administrative rules under this Plan, which provide for the automatic sale of Shares (or a portion thereof) in the market upon the issuance of such Shares under this Plan on behalf of the Participant to satisfy withholding obligations under an Award.

PART 7
GENERAL

7.1 Number of Shares

The aggregate number of Shares that may be issued under this Plan (together with any other securities-based compensation arrangements of the Company in effect from time to time) shall not exceed 14,400,737 Shares, such Shares to be allocated among Awards and Participants in amounts and at such times as may be determined by the Board from time to time. In addition, the aggregate number of Shares that may be issued and issuable under this Plan (when combined with all of the Company's other security-based compensation arrangements, as applicable),

(a) to Insiders shall not exceed 10% of the Company's outstanding issue from time to time;

(b) to Insiders within any one-year period shall not exceed 10% of the Company's outstanding issue from time to time; and

(c) to any one Insider and his or her associates or Affiliates within any one-year period shall not exceed 5% of the Company's outstanding issue from time to time.

In no event will the number of Shares that may be issued to any one Participant pursuant to Awards under this Plan (when combined with all of the Company's other security-based compensation arrangement, as applicable) exceed 5% of the Company's outstanding issue from time to time.

The aggregate number of Options that may be granted under this Plan to any one non-employee director of the Company within any one-year period shall not exceed a maximum value of C$100,000 worth of securities, and together with any Restricted Share Rights and Deferred Share Units granted under this Plan and any securities granted under all other securities-based compensation arrangements, such aggregate value shall not exceed C$150,000 in any one-year period. The calculation of this limitation shall not include however: (i) the initial securities granted under securities-based compensation arrangements to a person who was not previously a director of the Company, upon such person becoming or agreeing to become a director of the Company (however, the aggregate number of securities granted under all securities-based compensation arrangements in this initial grant to any one non-employee director shall not exceed the foregoing maximum values of securities); (ii) the securities granted under securities-based compensation arrangements to a director of the Company who was also an officer of the Company at the time of grant but who subsequently became a non-employee director; and (iii) any securities granted to a non-employee director that is granted in lieu of any director cash fee provided the value of the security awarded has the same value as the cash fee given up in exchange for such security. For greater clarity, in this Plan, securities-based compensation arrangements include securities issued under this Plan and any other compensation arrangements implemented by the Company including stock options, other stock option plans, employee stock purchase plans, stock appreciation right plans, deferred share unit plans, performance share unit plans, restricted share unit plans or any other compensation or incentive mechanism involving the issuance or potential issuance of Shares from treasury, but excludes any compensation arrangement that does not involve the issuance of Shares from treasury and any other compensation arrangements assumed or inherited by the Company in connection with the acquisition of another entity.

For the purposes of this Section 7.1, "outstanding issue" means the total number of Shares, on a non-diluted basis, that are issued and outstanding immediately prior to the date that any Shares are issued or reserved for issuance pursuant to an Award.

For greater clarity, the issuance of Arrangement Restricted Share Rights and Arrangement Deferred Share Units shall not be treated as a new grant of Restricted Share Rights and Deferred Share Units, respectively.

7.2 Lapsed Awards

If Awards are surrendered, terminated or expire without being exercised in whole or in part, new Awards may be granted covering the Shares not issued under such lapsed Awards, subject to any restrictions that may be imposed by the Toronto Stock Exchange.

7.3 Adjustment in Shares Subject to this Plan

If there is any change in the Shares through the declaration of stock dividends of Shares, through any consolidations, subdivisions or reclassification of Shares, or otherwise, the number of Shares available under this Plan, the Shares subject to any Award, and the exercise price of any Option shall be adjusted as determined to be appropriate by the Board, and such adjustment shall be effective and binding for all purposes of this Plan.

7.4 Transferability

Any Awards accruing to any Participant in accordance with the terms and conditions of this Plan shall not be transferable unless specifically provided herein. During the lifetime of a Participant all Awards may only be exercised by the Participant. Awards are non-transferable except by will or by the laws of descent and distribution.

7.5 Employment

Nothing contained in this Plan shall confer upon any Participant any right with respect to employment or continuance of employment with the Company or any Affiliate, or interfere in any way with the right of the Company or any Affiliate to terminate the Participant's employment at any time. Participation in this Plan by a Participant is voluntary.

7.6 Record Keeping

The Company shall maintain a register in which shall be recorded:

(a) the name and address of each Participant;

(b) the number of Awards granted to each Participant and relevant details regarding such Awards; and

(c) such other information as the Board may determine.

7.7 Necessary Approvals

This equity incentive plan of the Corporation shall become effective on the Arrangement Effective Date as contemplated in the Plan of Arrangement and subject to (a) the approval of the Toronto Stock Exchange and the New York Stock Exchange and (b) applicable shareholder approval.

7.8 Amendments to Plan

The Board shall have the power to, at any time and from time to time, either prospectively or retrospectively, amend, suspend or terminate this Plan or any Award granted under this Plan without shareholder approval, including, without limiting the generality of the foregoing: changes of a clerical or grammatical nature, changes regarding the persons eligible to participate in this Plan, changes to the exercise price, vesting, term and termination provisions of the Award, changes to the Cashless Surrender Right provisions, changes to the authority and role of the Board under

this Plan, and any other matter relating to this Plan and the Awards that may be granted hereunder, provided however that:

(a) such amendment, suspension or termination is in accordance with applicable laws and the rules of any stock exchange on which the Shares are listed;

(b) no amendment to this Plan or to an Award granted hereunder will have the effect of impairing, derogating from or otherwise adversely affecting the terms of an Award which is outstanding at the time of such amendment without the written consent of the holder of such Award;

(c) the expiry date of an Option Period in respect of an Option shall not be more than ten (10) years from the date of grant of an Option except as expressly provided in Section 3.4;

(d) the Directors shall obtain shareholder approval of:

(i) any amendment to the number of Shares specified in Section 7.1;

(ii) any amendment to the limitations on Shares that may be reserved for issuance, or issued, to Insiders, or remove participation limits on non-employee directors or increase the amounts of participation limits on non-employee directors;

(iii) any amendment that would reduce the exercise price of an outstanding Option other than pursuant to Section 7.3 or permits the cancellation and re-issuance of Options;

(iv) any amendment that would extend the expiry date of the Option Period in respect of any Option granted under this Plan except as expressly contemplated in Section 3.4;

(v) any amendment to permit Options to be transferred other than for normal estate settlement purposes; or

(vi) any amendment to reduce the range of amendments requiring shareholder approval contemplated in this Section.

If this Plan is terminated, the provisions of this Plan and any administrative guidelines and other rules and regulations adopted by the Board and in force on the date of termination will continue in effect as long as any Award or any rights pursuant thereto remain outstanding and, notwithstanding the termination of this Plan, the Board shall remain able to make such amendments to this Plan or the Award as they would have been entitled to make if this Plan were still in effect.

7.9 No Representation or Warranty

The Company makes no representation or warranty as to the future market value of any Shares issued in accordance with the provisions of this Plan.

7.10 Section 409A

It is intended that any payments under the Plan to US Taxpayers shall be exempt from or comply with Section 409A of the Code, and all provisions of the Plan shall be construed and interpreted in a manner consistent with the requirements for avoiding taxes and penalties under Section 409A of the Code.

7.11 Compliance with Applicable Law, etc.

If any provision of this Plan or any agreement entered into pursuant to this Plan contravenes any law or any order, policy, by-law or regulation of any regulatory body or stock exchange having authority over the Company or this Plan, then such provision shall be deemed to be amended to the extent required to bring such provision into compliance therewith.

All Awards and securities which may be acquired pursuant to the exercise of the Awards to be issued pursuant to the Plan will be issued pursuant to the registration requirements of the U.S. Securities Act and applicable state securities laws or an exemption or exclusion from such registration requirements.

7.12 Clawback and Recoupment

All Awards under this Plan shall be subject to forfeiture or other penalties pursuant to any Company clawback policy, as may be adopted or amended from time to time, and such forfeiture and/or penalty conditions or provisions as determined by the Committee.

7.13 Term of the Plan

Once effective in accordance with Section 7.7, this Plan shall remain in effect until it is terminated by the Board.

PART 8
ADMINISTRATION OF THIS PLAN

8.1 Administration by the Committee

(a) Unless otherwise determined by the Board, this Plan shall be administered by the Governance, Nomination, Compensation and Leadership Committee (the "**Committee**") or equivalent committee appointed by the Board and constituted in accordance with such Committee's charter.

(b) The Committee shall have the power, where consistent with the general purpose and intent of this Plan and subject to the specific provisions of this Plan, to:

(i) adopt and amend rules and regulations relating to the administration of this Plan and make all other determinations necessary or desirable for the administration of this Plan. The interpretation and construction of the provisions of this Plan and related agreements by the Committee shall be final and conclusive. The Committee may correct any defect or supply any

omission or reconcile any inconsistency in this Plan or in any related agreement in the manner and to the extent it shall deem expedient to carry this Plan into effect and it shall be the sole and final judge of such expediency; and

(ii) otherwise exercise the powers delegated to the Committee by the Board and under this Plan as set forth herein.

8.2 Board Role

(a) The Board, on the recommendation of the Committee or of its own volition, shall determine and designate from time to time the individuals to whom Awards shall be made, the amounts of the Awards and the other terms and conditions of the Awards. The Board may delegate this authority as it sees fit, including as set forth in Section 3.3.

(b) The Board may delegate any of its responsibilities or powers under this Plan to (i) the Committee, or (ii) the CEO as set forth in Section 3.3.

(c) In the event the Committee or, in respect of the Delegated Options, the CEO, is unable or unwilling to act in respect of a matter involving this Plan, the Board shall fulfill the role of the Committee (or CEO, as the case may be) provided for herein.

PART 9
PLAN OF ARRANGEMENT

9.1 Plan of Arrangement

This equity incentive plan contemplates the Plan of Arrangement. To the extent applicable, it is intended that the Outstanding Restricted Share Rights and the Outstanding Deferred Share Units will be exchanged for Arrangement Restricted Share Rights and Arrangement Deferred Share Units, respectively, pursuant to the Plan of Arrangement on a tax-deferred basis under subsection 7(1.4) of the *Income Tax Act* (Canada).

9.2 Arrangement Restricted Share Rights

(a) For all purposes under the Plan, the date on which an Arrangement Restricted Share Right is granted for purposes of the Plan shall be deemed to be the date of the grant of the Outstanding Restricted Share Right for which such Arrangement Restricted Share Right was exchanged as part of the Plan of Arrangement and, except as set out herein or in the Plan of Arrangement and with such adjustments as the circumstances require, the Arrangement Restricted Share Right shall be deemed (unless otherwise determined by the Board) to have the same terms and conditions (including vesting and expiration) as the Outstanding Restricted Share Right for which such Arrangement Restricted Share Right was exchanged as part of the Plan of Arrangement.

(b) With respect to Arrangement Restricted Share Rights that replace Performance Share Units (as defined in the Remainco Equity Incentive Plan), all such Arrangement Restricted Share Rights shall (unless otherwise determined by the Board) be subject to the same time based vesting period as the Performance Share Units they replace and upon vesting such Arrangement Restricted Share Rights shall be fully satisfied by the issuance of one Share (unless otherwise determined by the Board) irrespective of the applicable performance multiplier to which the Performance Share Unit was subject. Notwithstanding the foregoing, Arrangement Restricted Share Rights that replace Performance Share Units that were fully vested and outstanding prior to the Arrangement Effective Time may be settled by the Company in accordance with the performance multiplier applicable to the Performance Share Units replaced.

(c) In addition, notwithstanding anything contained herein to the contrary, in respect of each person who was a "Participant" as defined in the Remainco Equity Incentive Plan immediately prior to the Arrangement Effective Time, who does not become an Eligible Director or Eligible Employee due to or in connection with the Arrangement (each such person, an "**Arrangement Departing Participant**"), and who remains a director, officer or employee of Remainco or any Remainco Designated Affiliate, or provides ongoing services for Remainco or any Remainco Designated Affiliate and complies with the definition of "consultant" or "advisor" as set forth in Form S-8 (a "**Remainco Service Provider**"), all Arrangement Restricted Share Rights (other than those issued pursuant to paragraph (b)) issued to Arrangement Departing Participants that replace Outstanding Restricted Share Rights shall (unless otherwise determined by the Board) immediately vest and the underlying Shares shall be issued to the holder of such Arrangement Restricted Share Rights as soon as practicable by the Company following the Arrangement Effective Date (provided that the Company may establish a schedule for the settlement of Arrangement Restricted Share Rights to ensure the orderly sale of Shares in the markets to satisfy tax withholding obligations), which Arrangement Restricted Share Rights shall then be cancelled.

(d) With respect to Arrangement Restricted Share Rights issued to an Arrangement Departing Participant that are not immediately vested, upon such Arrangement Departing Participant ceasing to be a director, officer or employee of Remainco or any Remainco Designated Affiliates, or a Remainco Service Provider, as applicable, such Arrangement Departing Participant shall be treated for the purposes of this Plan as having ceased to be so employed with the Company and its Designated Affiliates and such Arrangement Departing Participant's Arrangement Restricted Share Rights shall be dealt with in accordance with Section 4.6 of this Plan.

9.3 Arrangement Deferred Share Units

(a) For all purposes under the Plan, the date on which an Arrangement Deferred Share Unit is granted for purposes of the Plan shall be deemed to be the date of the grant of the Outstanding Deferred Share Unit for which such Arrangement Deferred

Share Unit was exchanged as part of the Plan of Arrangement and, except as set out herein or in the Plan of Arrangement and with such adjustments as the circumstances require, the Arrangement Deferred Share Unit shall be deemed (unless otherwise determined by the Board) to have the same terms and conditions (including vesting and expiration) as the Outstanding Deferred Share Unit for which such Arrangement Deferred Share Unit was exchanged as part of the Plan of Arrangement.

(b) Notwithstanding anything contained herein to the contrary, (unless otherwise determined by the Board) all Arrangement Deferred Share Units issued to Arrangement Departing Participants shall immediately vest and the underlying Shares shall be issued to the holder of such Arrangement Deferred Share Units as soon as practicable by the Company following the Arrangement Effective Date (provided that the Company may establish a schedule for the settlement of Arrangement Deferred Share Units to ensure the orderly sale of Shares in the markets to satisfy tax withholding obligations), which Arrangement Deferred Share Units shall then be cancelled.

MANAGEMENT SERVICES AGREEMENT

THIS MANAGEMENT SERVICES AGREEMENT (this "**Agreement**") is made the 20th day of December, 2024 (the "**Effective Date**") among:

- LAC Management LLC, a limited liability company existing under the Laws of the State of Nevada ("**Manager**");
- Lithium Nevada Ventures LLC, a limited liability company existing under the Laws of the State of Delaware ("**Company**");
- Lithium Nevada LLC, a limited liability company existing under the Laws of the State of Nevada ("**LNC**"); and
- for purposes of Section 9, Lithium Americas Corp., a corporation organized and existing under the laws of the Province of British Columbia ("**LAC**").

WHEREAS Company and its subsidiaries, including LNC, are engaged in the business of the development, construction, start-up, financing, ownership, operation and monetization of the Thacker Pass lithium project (the "**Project**"); and

WHEREAS Company wishes to retain Manager and desires Manager to provide the Services (as hereinafter defined), and Manager is willing to perform such Services under the terms and subject to the conditions of this Agreement.

NOW THEREFORE in consideration of the mutual covenants and agreements herein contained, the parties hereto covenant and agree as follows:

1. **Rules of Construction.** The words "hereof," "herein" and "hereunder" and words of similar import when used in this Agreement shall refer to this Agreement as a whole and not to any particular provision of this Agreement. All references herein to Sections, unless the context requires a different construction, shall be deemed to be references to the Sections of this Agreement. In this Agreement, unless a clear contrary intention appears, the word "including" (and with correlative meaning "include") means including, without limiting the generality of any description preceding such term. Words, terms and phrases used, but not specifically defined, in this Agreement shall have the meanings commonly ascribed to such words, terms or phrases. The headings of the various sections of this Agreement are for convenience only and shall not affect the meaning of the terms and conditions of this Agreement. No provision of this Agreement shall be interpreted or construed against any party solely because that party or its legal representative drafted such provision. Each reference in this Agreement to a party shall be construed to include its successors and permitted assigns. Capitalized terms used but not defined herein shall have the meaning ascribed to such terms in the amended and restated limited liability company agreement of Company dated December 20, 2024 (the **"Company LLC Agreement"**).

2. Term and Termination.

2.1. The term of this Agreement shall commence as of the Effective Date and, unless terminated earlier pursuant to Section 2.2 or Section 2.3 or extended by mutual agreement by the parties, end on the earlier of (a) regulatory approval of final reclamation and closure of the Project in Humboldt County, Nevada and (b) the date when Manager ceases to, directly or indirectly, own any equity interests of Company (the "**Term**"), in each case, subject to Section 2.4.

2.2. Subject to Sections 2.3 and 2.4, this Agreement may only be terminated during the Term by mutual written agreement between the parties, other than as set forth below.

(a) *Termination by Manager*. Subject to Section 2.4, Manager may terminate this Agreement immediately upon written notice to Company in the event of any of the following trigger events by Company:

(i) Company fails to pay to Manager any amounts due under this Agreement (other than any amounts which are the subject of a bona fide dispute) for ninety (90) days or more after such payment is due; *provided* this termination right shall not be available to Manager unless Manager has provided Company with notice of such payment failure at least sixty (60) days prior to termination under this Section 2.2(a)(i);

(ii) a material default or material breach by Company under this Agreement that (A) is not reasonably curable or (B) if reasonably curable, is not cured by Company within sixty (60) days after written notice thereof from Manager to Company;

(iii) Manager and its Affiliates collectively hold Proportionate Interests of less than [***]% and Manager has provided Company with at least ten (10) business days' written notice of its intention to terminate this Agreement;

(iv) a dissolution, liquidation or winding up of Company;

(v) commencement of proceedings by Company to be adjudicated a voluntary bankrupt, or Company's consent to the filing of a bankruptcy proceeding against it;

(vi) Company files a petition, proposal or answer or consent seeking reorganization, readjustment, arrangement, composition or similar relief under any bankruptcy Law or makes an assignment for the benefit of its creditors generally;

(vii) Company consents to the appointment of a receiver, liquidator, trustee or assignee in bankruptcy over all or substantially all of its assets;

(viii) any proceeding with respect to Company is commenced under Chapter 11 of the United States Bankruptcy Code or similar legislation relating to a compromise or arrangement with creditors or claimants, and such proceeding has not been stayed or terminated prior to the expiry of thirty (30) days after such proceeding has been commenced; or

(ix) Company purports to assign or transfer this Agreement or any right or interest herein except in accordance with Section 16.

(b) *Termination by Company*. Subject to Section 2.4, Company may terminate this Agreement immediately upon written notice to Manager in the event of any of the following trigger events by Manager:

(i) a material default or material breach by Manager under this Agreement that (A) is not reasonably curable or (B) if reasonably curable, is not cured by Manager within sixty (60) days after written notice thereof from Company to Manager;

(ii) Manager and its Affiliates collectively hold Proportionate Interests of less than [***]% and Company has provided Manager with at least ten (10) business days' written notice of its intention to terminate this Agreement;

(iii) a dissolution, liquidation or winding up of Manager;

(iv) commencement of proceedings by the Manager to be adjudicated a voluntary bankrupt, or the Manager's consent to the filing of a bankruptcy proceeding against it;

(v) Manager files a petition, proposal or answer or consent seeking reorganization, readjustment, arrangement, composition or similar relief under any bankruptcy Law or makes an assignment for the benefit of its creditors generally;

(vi) Manager consents to the appointment of a receiver, liquidator, trustee or assignee in bankruptcy over all or substantially all of its assets;

(vii) any proceeding with respect to the Manager is commenced under Chapter 11 of the United States Bankruptcy Code or similar legislation relating to a compromise or arrangement with creditors or claimants, and such proceeding has not been stayed or terminated

prior to the expiry of thirty (30) days after such proceeding has been commenced;

(viii) Manager's failure to comply with the compliance covenants set forth on Schedule B (the "**Compliance Covenants**"), to the extent such failure is not (1) cured or corrected in all material respects within 30 days of the earlier of Manager's receipt of notice or knowledge of same, or (2) if such incident of non-compliance (A) is not material, (B) is solely related to non-compliance with Section 1.1(c), Section 1.2(a)(ii) or Section 1.3(b) of the Compliance Covenants and (C) was not subject to a cure period under applicable Law but cannot be reasonably cured within such 30 day period, (x) the preparation and adoption by Manager of a bona fide plan within such 30 day period to cure such incident of non-compliance as soon as reasonably practicable and (y) the curing of such incident of non-compliance is within 60 days of the earlier of Manager's receipt of notice or knowledge of same;

(ix) a Parent Change of Control if it results in (A) the LAC Parent becoming a Sanctioned Person, FEOC or GM Competitor or (B) Manager not being reasonably capable of performing the Services contemplated hereby in substantially the same manner, and at substantially the same price, as during the twelve (12) months preceding such Parent Change of Control; or

(x) Manager purports to assign or transfer this Agreement or any right or interest herein except in accordance with Section 16.

2.3. Any termination of this Agreement shall not affect any rights of any party that have accrued prior to the date of termination, nor relieve a party from any of its obligations or liabilities that have arisen hereunder prior to the date of termination, nor will it affect any obligations and rights contained in this Section 2.3 or in any of the other provisions of this Agreement that survive termination of this Agreement.

2.4. In the event of Manager's removal or resignation pursuant to Section 2.2(a)(iii) or Section 2.2(b), then notwithstanding the provisions thereof, this Agreement shall be extended for a period of time not to exceed six (6) months (any such extension, and the period of such extension, at the Company's sole discretion) (the "**Transition Period**"). During the Transition Period, and as part of the Services provided by Manager during the Transition Period in exchange for the Management Fee, Manager shall provide the Company Group and their respective designee(s) with reasonable transition services to facilitate an orderly transition from Manager's Services (the "**Disengagement Services**"), to the extent such Disengagement Services are reasonably requested by Company. The parties shall cooperate and use commercially reasonable efforts to effectuate a smooth transition throughout the Transition Period, and, to the extent reasonably practical, without

any (unless pre-approved by the Company in writing, in its sole discretion): (a) interruption of Services; (b) adverse impact on the provision of Services; or (c) interruption of any Services provided by Service Providers.

3. Services.

3.1. During the Term of this Agreement and subject to the terms and conditions of this Agreement, Manager shall provide LNC or the Company and its other wholly-owned subsidiaries (collectively, the "**Company Group**" and each, a "**Company Group Member**"), with the services described in Schedule A-1 (the "**Services**"). LNC hereby acknowledges that Manager is not in the business of providing such Services other than under this Agreement. Notwithstanding the foregoing or anything herein to the contrary, the provision of the Services hereunder and the payment of any amounts by any Company Group Member to Manager hereunder shall be deemed to have been made in accordance with the Payment Principles attached as Schedule F.

3.2. Manager shall provide personnel reasonably required to staff and perform the Services which may be accomplished to the extent necessary by employees of Manager or its Affiliates ("**Personnel**"); *provided*, *however*, that the employees of Manager or its Affiliates utilized by Manager for the performance of the Services shall not be required to be dedicated solely to providing the Services and may, at the discretion of Manager, be employed by Manager or its Affiliates to perform duties unrelated to the Services.

3.3. Manager may have portions of the Services specifically identified on Schedule A-2, as amended from time to time pursuant to the terms set forth herein, performed by subcontractors pursuant to contracts for the provision of Services with Service Providers (such contracts, "**Service Contracts**") to the extent consistent with Approved Third-Party Expenses. Manager shall ensure that all Service Contracts that are entered into following the Effective Date are entered into directly with the Company Group, other than any Service Contracts that Manager determines in good faith would be more beneficial to the Company Group if entered into by the Manager and or any of its Affiliates because of a group or volume discount or similar benefit, or that are "enterprise-level" agreements, including software licenses or relating to cybersecurity incident response, that would otherwise be impractical to enter into on a standalone basis in respect of the Company Group. With respect to the Services set forth on Schedule A-2 (Third-Party Services) marked with an asterisk for which a Service Contract is already in effect as of the Effective Date, Manager shall either (a) arrange for the Service Contract to be assigned to the Company Group, (b) cause the Company Group to enter into a new Service Contract with the applicable Service Provider consistent with Approved Third-Party Expenses, or (c) ensure that such existing Service Contract names the Company as an intended third-party beneficiary with all rights of enforcement thereunder. Manager shall provide copies of all Service Contracts to the Company.

3.4. Manager shall oversee and review the performance of all contractors of Manager or its Affiliates and all other direct suppliers, vendors and any other counterparty to the Service Contracts (collectively, the "**Service Providers**", and each, a "**Service Provider**"). Manager shall incorporate, and require each Service Provider to incorporate, to the extent applicable any GM Supply Chain Policy in its contract for goods or services used in connection with this Agreement, unless Manager determines in good faith, after receiving advice from counsel, that (i) the Service Provider maintains its own code of conduct and/or other supply chain policy(s) and (ii) such code and/or other policy(s) are substantially similar in all material respects to the applicable portions of the GM Supply Chain Policies.

3.5. Manager shall cause the Services to be provided by Manager (i) in accordance with the terms and subject to the conditions set forth in Schedules A-1 and A-2 and this Agreement; (ii) in good faith and with the best interests of the Project and the Company Group, and in connection therewith shall exercise the standard and degree of care, diligence and skill that a reasonably prudent Person would exercise in comparable circumstances; (iii) in compliance in all material respects (and require such compliance of others doing work on behalf of Manager) with the requirements of all applicable Laws, rules, codes, regulations, ordinances, and other legal and governmental requirements of any local, provincial, territorial, federal or international jurisdiction in providing the Services (including any applicable professional licensing or permitting Laws), as well as in compliance with the Compliance Covenants; (iv) in compliance with good mining standards and practices within the North American mining industry, (v) in compliance with any Offtake Agreement with GM and (vi) in compliance with the policies set forth on, and attached to, Schedule E (the "**GM Supply Chain Policies**"). In the performance of this Agreement and the Services hereunder, Manager shall provide the Services as an independent contractor and shall have authority to select the means, methods and manner of performing the Services (in compliance with this Agreement).

3.6. During the Term, Manager will direct the Personnel on a "day-to-day" basis, and the Personnel shall be subject to, and be treated by Manager in compliance with, all of the local jurisdiction's rules and policies that apply to Manager. For greater certainty, and without limitation, (i) Manager will set overall policy and make all material decisions with respect to the Personnel providing the Services; (ii) Manager will retain ultimate authority over the Personnel during the Term; (iii) the Personnel will be under the exclusive supervision, direction and control of the board of directors of Manager; (iv) with respect to the performance of the Services, Manager will ensure that the Personnel complies with all requirements of the Company as set forth in the Company LLC Agreement and any Offtake Agreement with GM or with respect to any applicable GM Supply Chain Policy; and (v) the Company Group will not have or exercise any control or supervision over the Personnel providing the Services.

3.7. Subject to Section 3.2, neither party will make any changes to Schedule A-1 or Schedule A-2 except with the prior consent of the other party.

3.8. Manager shall be responsible for the maintenance of all required personnel records for the Personnel.

3.9. Unless expressly authorized by the Company in writing (pursuant to a Specified Approval) or pursuant to an Approved Third-Party Expense, in performing the Services and within its scope of authority, Manager shall not act as the Company Group's agent. All Services provided by the Manager shall be for the account of the Company Group.

3.10. Notwithstanding anything in this Agreement to the contrary but subject to Section 3.11, Manager may not take any action in connection with the Services that would require approval of the Board of Directors of the Company, Specified Approval or Supermajority Approval pursuant to the Company LLC Agreement without obtaining the applicable required approval. Manager shall timely seek Company Consent from the Company as necessary to timely or properly perform its obligations hereunder. The Company shall review and promptly respond to all requests from Manager for the prior written consent of the Company for any required Board of Directors approval, Specified Approval or Supermajority Approval (the "**Company Consent**"). For the avoidance of doubt, Manager shall not seek Company Consent to add new Services under this Agreement other than in connection with the review and approval of the Programs and Budgets as set forth in Section 7.2 of the Company LLC Agreement.

3.11. In the event of an Emergency, Manager shall, subject to Section 3.10 but notwithstanding anything else in this Section 3 to the contrary, (i) take action to prevent or mitigate any actual or threatened damage, injury or loss arising out of such Emergency, and may commit funds and incur expenses that, in Manager's discretion, are required to respond to or otherwise address such Emergency, including the safeguarding of life and property, and to comply with applicable Law, and (ii) commence, or cause to be commenced, any required remediation, maintenance or repair work necessary to keep the Project operating safely (or to restore the Project to safe operating condition) and in compliance with all applicable Law ("**Emergency Expenses**"). Manager shall take reasonable steps to mitigate any and all Emergency Expenses.

3.12. During the Term, Manager shall keep in full force and effect and maintain at its sole cost and expense the policies of insurance covering the insurance categories set forth in Schedule C-1 (Manager-Only Insurance Requirements) in respect of the Manager, with the specified minimum limits of liability specified therein, and shall keep in full force and effect and maintain the policies of insurance covering the insurance categories set forth in Schedule C-2 (Shared Insurance Requirements) in respect of the Company Group (and such policies may also cover Manager and its Affiliates), with the specified minimum limits of liability specified therein, subject to the allocation of costs between Manager and the Company Group in accordance with Approved Third-Party Expenses. Manager shall ensure that all Service Providers are contractually obligated to Manager to maintain the applicable policies of insurance as required by industry best practices.

4. Relationship of the Parties. In the exercise of their respective rights and the performance of their respective obligations hereunder, the parties hereto are and shall remain independent parties. The parties are not and shall not be deemed to be partners or joint venturers with one another and nothing herein shall be construed so as to impose any liability as such on any of them. During the Term, all Personnel shall be employees of Manager and its Affiliates and shall not have any employment relationship with the Company Group while performing the Services (it being acknowledged that certain Personnel may serve as directors or officers of a Company Group Member). Subject to the terms of this Agreement, Manager shall be solely responsible for the performance of the Services. Manager shall be entirely and solely in control of its acts and the acts of its and its Affiliates' employees and agents while engaged in the performance of the Services. For purposes of this Agreement, "**Affiliate**" means with respect to a Person, any other Person that directly, or indirectly through one or more intermediaries, Controls, is Controlled by or is under common Control with, the subject Person. Notwithstanding the previous sentence, Manager shall not be considered an Affiliate of the Company Group Members (other than as used in Section 2.2).

5. Fees and Invoicing.

5.1. Company shall pay or cause to be paid to the Manager a fee of USD$[***] per month for the Services performed by Manager hereunder (the "**Management Fee**"), which amount shall be adjusted annually with the Specified Approval of the Company (any such approved Management Fee, an "**Approved Management Fee**" and, together with the Management Fee, the "**Management Fees**"); *provided* that until the required Specified Approval of the Company is obtained for any revised Management Fee, the Company shall continue to pay or cause to be paid to the Manager the prior Approved Management Fee (increased by CPI), which shall be deemed to be the Approved Management Fee under this Agreement until a new Approved Management Fee is adopted in accordance with this Agreement. Manager shall not charge or collect any fees in excess of the Management Fee or, from and after approval thereof, an Approved Management Fee (it being understood that the Manager shall have no right to adjust the Management Fee pursuant to Section 7.6 of the Company LLC Agreement or otherwise), and the Manager acknowledges and agrees that in no event shall any Emergency Expense or Sustaining Expense adjustment constitute a portion of the Management Fee for the purposes of any CPI increases pursuant to this Section 5.1. The Manager acknowledges and agrees that (a) Approved Management Fees prior to Production Commencement shall not be paid in accordance with Section 5.3, and (b) in the event the Company does not have sufficient cash on hand to pay the Approved Management Fees, no Contribution Notice shall be submitted or delivered to the Members to request additional capital to be contributed to the Company in order to fund such Approved Management Fees, but instead, in each case, such amount shall be accrued by the Company and such accrued and unpaid Management Fees shall be subject to Sections 7.15 and 9.1(a)(ii) of the Company LLC Agreement. For the avoidance of doubt, no payment is required for any Approved Management Fees under this Agreement if such Approved Management Fees are properly accrued in accordance with Section 7.15 of the Company LLC Agreement, and any Approved

Management Fees that are deemed paid pursuant to Section 7.15 of the Company LLC Agreement shall be deemed paid pursuant to this Agreement.

5.2. In addition to the Management Fees, the Company will reimburse Manager for (a) Emergency Expenses and Sustaining Expenses, and (b) the amount of the Approved Third-Party Expenses incurred by Manager in connection with the Services performed by third-party Service Providers and consistent with the then Approved Third-Party Expenses. As of the Effective Date, the Approved Third-Party Expenses for the Services are set forth on Schedule A-2, and shall not exceed an aggregate amount of (a) for the period from the Effective Date through December 31, 2024, USD$[***] divided by 365, then multiplied by the number of days between the Effective Date and December 31, 2024, and (b) for the period from January 1, 2025 through December 31, 2025, USD$[***]. Subject to Section 3.3, Approved Third-Party Expenses may be incurred by Manager in the name of the Company Group or incurred in the name of Manager, and Company shall pay or reimburse such Approved Third-Party Expenses promptly after receiving an invoice therefore together with reasonable supporting documentation (including, if applicable, regarding allocation between the Manager and its Affiliates, on the one hand, and the Company Group, on the other hand). "**Approved Third-Party Expenses**" means all amounts to be paid to third parties (including Governmental Authorities), including Service Providers, in connection with the provision of the Services that have been approved by the Company by Specified Approval or are set forth in an Approved Program and Budget. Manager acknowledges and agrees that to the extent any Approved Third-Party Expenses are not included in an Approved Program and Budget, such Approved Third-Party Expenses may not be incurred unless (and then only to the extent) expressly approved by Specified Approval. The Management Fee and detail of Approved Third-Party Expenses as of the Effective Date are set forth on Schedule D. In connection with seeking any approval of an Approved Program and Budget or other adjustment to the Management Fees or the Approved Third-Party Expenses, Manager shall provide to the Company such documentation as the Company may reasonably request. The Manager acknowledges and agrees that (a) Approved Third-Party Expenses prior to Production Commencement shall not be paid in accordance with Section 5.3 and (b) in the event the Company does not have sufficient cash on hand to pay the Approved Third-Party Expenses, no Contribution Notice shall be submitted or delivered to the Members to request additional capital to be contributed to the Company in order to fund such Approved Third-Party Expenses, but instead, in each case, such amount shall be accrued by the Company and such accrued and unpaid Approved Third-Party Expenses shall be subject to Sections 7.15 and 9.1(a)(ii) of the Company LLC Agreement. For the avoidance of doubt, no payment is required for any Approved Third-Party Expenses under this Agreement if such Approved Third-Party Expenses are properly accrued in accordance with Section 7.15 of the Company LLC Agreement, and any Approved Third-Party Expenses that are deemed paid pursuant to Section 7.15 of the Company LLC Agreement shall be deemed paid pursuant to this Agreement.

5.3. Manager shall, within fifteen (15) days after the end of each month, invoice Company in U.S. dollars for outstanding Management Fees and Approved Third-Party Expenses due to Manager for the prior month, and Company shall pay each invoice in U.S. dollars within thirty (30) days of the date of invoice. All applicable sales, goods and services, harmonized sales and value-added taxes charged by Manager shall be separately identified on the invoice and such invoices shall contain all information required by applicable Law including any prescribed information. In the event a jurisdiction requires Company to withhold tax from a payment to Manager, Company shall provide Manager with appropriate documentation and shall apply the tax withholding as a payment.

5.4. Manager shall keep books of account and such other records as appropriate to accurately provide the Services (including as necessary for the Company to comply with its obligations under Section 7.7 of the Company LLC Agreement) and to record the Services and related costs provided pursuant to this Agreement and all costs and expenses incurred by Manager in connection therewith, including itemized lists of costs and expenses and allocation percentages with written description and justification of such allocations. Such books of account and other records shall be open to inspection by Company.

6. Intellectual Property.

6.1. Manager, on behalf of itself and its Affiliates, hereby grants to the Company and each Company Group Member a non-exclusive, worldwide, royalty free, irrevocable, non-transferable, non-sublicensable (except in connection with the receipt of the Services), limited license to use any Intellectual Property owned by Manager that is provided or otherwise made available by Manager to the Company or any other Company Group Member as part of the Services. Except as expressly set forth in this Section 6, nothing in this Agreement shall be construed to grant any Company Group Member or any other Person any rights in or to any Intellectual Property of Manager or its Affiliates. "**Intellectual Property**" means all (a) patents and pending patent applications, including provisionals, continuations, divisionals, continuations-in-part, reissues, or re-examinations thereof, (b) trademarks, (c) copyrights and works of authorship, (d) trade secrets, know-how, inventions, discoveries, formulae, practices, processes, procedures, ideas, specifications, engineering data, databases, and data collections, and (e) any other proprietary right, whether registered or unregistered.

6.2. During the Term, any Intellectual Property developed or conceived of by or for the Company Group, whether developed or conceived of solely by or for a Company Group Member or jointly by a Company Group Member with Manager or an Affiliate of Manager, including enhancements, modifications, derivatives, variants and improvements to any aspect of the Intellectual Property (collectively, "**New IP**"), will be considered to be a work made for hire or developed under a contract of services by Manager for the Company Group. Manager hereby assigns to Company, and shall cause any Affiliate to assign to Company, and Company shall own, all right, title and interest to all New IP. For clarity, Intellectual Property

independently conceived of by Manager or any of its Affiliates, including any enhancements, modifications, derivatives, variants and improvements to Manager's Intellectual Property, shall not be considered New IP.

7. Ownership of Other Property. Except as otherwise contemplated by Section 6, all of the assets and properties owned, purchased, leased, developed, constructed and otherwise acquired or entered into in connection with the performance of the Services pursuant to this Agreement shall be and remain the sole property of the Company Group. During the term of this Agreement, Manager shall not, and shall cause its Affiliates to not, hold any such assets or properties in the name of the Manager or its Affiliates, it being understood that all such assets and properties shall be held in the name of a Company Group Member.

8. Indemnification.

8.1. Manager's Indemnity. Manager shall indemnify, defend and hold harmless the Company Group and their respective successors and assigns and officers, directors, Affiliates, shareholders, partners, members, managers, representatives and agents (collectively, but excluding the Manager Indemnified Parties, the "**Company Indemnified Parties**") from and against any and all claims, losses, damages, charges, liabilities, obligations and expenses (including reasonable attorneys' fees and expenses) (collectively, "**Losses**") against or incurred by a Company Indemnified Party directly attributable to the negligence, willful misconduct or fraud of Manager during the term of this Agreement; *provided*, *however*, that nothing contained herein shall be deemed to render Manager liable for, or obligated to indemnify any Company Indemnified Party against, any Losses to the extent attributable to or resulting from, the negligence or willful misconduct of any Company Indemnified Party or their respective agents or authorized representatives, Affiliates, subcontractors (other than Manager) and employees at any time during the term of this Agreement.

8.2. Company's Indemnity. The Company shall indemnify, defend and hold harmless Manager and its successors and assigns and officers, directors, Affiliates, shareholders, partners, members, managers, representatives and agents (collectively, but excluding the Company Indemnified Parties, the "**Manager Indemnified Parties**") from and against any and all Losses against or incurred by a Manager Indemnified Party arising in connection with this Agreement or in relation to the provision of the Services other than Losses for which the Manager is obligated to indemnify the Company Indemnified Parties pursuant to Section 8.1.

8.3. Procedures. If any claim is brought against a party hereto (the "**Indemnified Party**"), then the other party hereto (the "**Indemnifying Party**") shall be entitled to participate in, and, unless a conflict of interest between the parties may exist with respect to such claim, assume the defense of such claim, with counsel reasonably acceptable to Indemnified Party. If Indemnifying Party does not assume the defense of Indemnified Party, or if a conflict precludes counsel for Indemnifying Party from providing the defense, then Indemnifying Party shall reimburse Indemnified Party on a monthly basis for the reasonable cost of Indemnified Party's defense through

separate counsel of Indemnified Party's choice. If Indemnifying Party assumes the defense of Indemnified Party with acceptable counsel, Indemnified Party, at its sole option and expense, may participate in the defense with counsel of its own choice without relieving Indemnifying Party of any of its obligations hereunder. Indemnifying Party shall not settle any claim without the prior written approval of Indemnified Party, which approval shall not be unreasonably withheld, delayed or conditioned.

8.4. Limitation of Liability. Except in the case of fraud, willful misconduct or negligence, neither party hereto shall be liable for any consequential, special, exemplary or indirect losses or damages whatsoever, whether based in contract, in tort (including negligence and strict liability) or on any other legal or equitable theory, except to the extent such damages (a) constitute direct damages or (b) are awarded in connection with a third-party claim.

8.5. Sole Remedy. The indemnities set forth in this Section 8 and any right to terminate this Agreement, constitute the Indemnified Parties' sole and exclusive remedies under or in connection with this Agreement and the transactions contemplated by this Agreement (including for any breach of or failure to perform any covenant or agreement set forth in this Agreement or for any other reason and regardless of the theory upon which any claim may be based, whether contract, equity, tort, fraud, warranty, strict liability, or any other theory of liability). Any and all claims arising out of or in connection with this Agreement and the transactions contemplated by this Agreement must be brought under and in accordance with the terms of this Agreement. To the extent that any Indemnified Party incurs any losses for which it would otherwise be entitled to assert any claim to indemnification, contribution, or recovery against the other party hereto or any of its Affiliates, or its and their respective shareholders, members, directors, managers, officers, employees, agents, advisors or representatives, in connection with this Agreement or the transactions contemplated by this Agreement, other than pursuant to the exclusive remedies described in this Section 8, such party hereby waives, releases, and agrees not to assert such claim, and such party agrees to cause each of its other Indemnified Parties, to waive, release, and agree not to assert such claim, in each case regardless of the theory upon which any claim may be based, whether contract, equity, tort, fraud, warranty, strict liability or any other theory of liability.

9. Guarantee.

9.1. LAC hereby, unconditionally and irrevocably, as primary obligator and not merely as surety, guarantees the full and timely performance of all obligations and liabilities of Manager (including any obligation or liability resulting from any indemnification, dispute resolution, mediation or arbitration) under this Agreement (the "**Obligations**").

9.2. In furtherance of the foregoing, if at any time Manager fails, neglects or refuses to timely or fully perform any of the Obligations in accordance with the terms and conditions set forth in this Agreement, then upon receipt of written notice from

Company or any member of the Company Group with a claim or demand (any such Person, a "**Claimant**"), specifying the failure, LAC shall perform, or cause to be performed, any such obligation, responsibility, or undertaking as required pursuant to the terms and conditions of this Agreement, including all payment obligations of the Manager under this Agreement. LAC acknowledges that the Company may, in its sole discretion, and including on behalf of any other Company Group Member, bring and prosecute a separate action or actions against LAC in respect of any or all of the Obligations, regardless of whether action is brought against Manager or whether Manager is joined in any such action or actions (but, for the avoidance of doubt, without any right to duplicative recovery). Subject to the immediately preceding sentence, with respect to any claim, action or proceeding against LAC in connection with this Section 9, LAC shall be entitled to assert only those defenses which Manager would be able to assert if such claim, action or proceeding were to be asserted or instituted against Manager.

9.3. Except as to applicable statutes of limitations, the Obligations of LAC shall not be released or discharged, in whole or in part, or otherwise affected by (i) the failure of any Claimant to assert any claim or demand or to enforce any right or remedy against Manager, (ii) any rescission, waiver, compromise, consolidation or other amendment or modification of any of the terms or provisions of this Agreement (other than in connection with an assignment permitted by Section 16 or an amendment of this Section 9 in accordance with Section 21), (iii) any change in the organizational existence, structure or ownership of Manager or LAC, (iv) any insolvency, bankruptcy, reorganization or other similar proceeding affecting Manager or LAC, (v) the existence of any claim, set-off or other right which Manager or LAC may have at any time against any Claimant, whether in connection with the Obligations or otherwise, (vi) the value, genuineness, validity or enforceability of this Agreement or (vii) any other act or omission that may in any manner or to any extent vary the risk of or to LAC or otherwise operate as a discharge of LAC as a matter of law or equity; *provided* that LAC shall be entitled to assert, as a defense to any payment or performance by LAC under this Agreement, any contractual claim or defense that Manager could assert against the Claimant under the terms of, or with respect to, this Agreement to the extent that such claim or defense would, under the terms of this Agreement, relieve LAC of the applicable Obligations.

9.4. To the fullest extent permitted by Law, LAC hereby expressly waives any and all rights or defenses arising by reason of any Law which would otherwise require any election of remedies by any Claimant, including any right to require any Claimant to proceed against any additional or substitute obligors or guarantors or to pursue or exhaust any other remedy available to any Claimant. LAC waives diligence, all defenses which may be available by virtue of any valuation, stay, moratorium Law or other similar Law now or hereinafter in effect, any right to require the marshalling of any assets and all suretyship defenses generally. LAC acknowledges that it has and will continue to receive substantial direct and indirect benefits from the transactions contemplated by this Agreement and that the waivers set forth in this Section 9.4 are knowingly made in contemplation of such benefits.

9.5. No delay on the part of any Claimant in the exercise of any right or remedy shall operate as a waiver thereof, and no single exercise by any Claimant of any right or remedy shall preclude other or further exercise thereof or the exercise of any other right or remedy; nor can any modification or waiver of any provision of this Section 9 be binding upon any Claimant (other than any amendment in accordance with Section 21). Each and every right, remedy and power hereby granted to any Claimant or allowed it by Law or other agreement shall be cumulative and not exclusive of any other, and may be exercised by such Claimant at any time or from time to time.

10. **Confidentiality**. All non-public, confidential or proprietary information of Company ("**Confidential Information**"), including, but not limited to, specifications, samples, patterns, designs, plans, drawings, documents, data, business operations, lists, pricing, discounts or rebates disclosed by Company to Manager, whether disclosed orally or disclosed or accessed in written, electronic or other form or media, and whether or not marked, designated or otherwise identified as "confidential," in connection with this Agreement is confidential, solely for Manager's use in performing this Agreement and may not be disclosed or copied unless authorized by Company in writing. Confidential Information does not include any information that: (a) is or becomes generally available to the public other than as a result of Manager's breach of this Agreement; (b) is obtained by Manager on a non-confidential basis from a third party that was not legally or contractually restricted from disclosing such information; or (c) Manager establishes by documentary evidence was in Manager's possession prior to Company's disclosure hereunder. Manager shall use the same degree of care, but no less than reasonable care, to protect the Company's Confidential Information as it uses to protect its own Confidential Information. Notwithstanding the foregoing, Confidential Information may be disclosed by the Manager in accordance with Section 13.1(b) of the Company LLC Agreement, mutatis mutandis. Upon Company request, Manager shall promptly return all documents and other materials received from the disclosing party. Company shall be entitled to injunctive relief for any violation of this Section 9.

11. **Compliance with Law**. Manager shall comply with all applicable Laws, regulations and ordinances in all material respects. Manager has and shall maintain in effect all licenses, permissions, authorizations, consents and permits that it needs to carry out its obligations under this Agreement.

12. **Force Majeure**. In the event Manager is rendered unable, wholly or in part, by Force Majeure to carry out its obligations under this Agreement, Manager shall give notice in writing to the Company promptly after the occurrence of such event, setting out the extent to which the ability of Manager to perform the Services has been affected by such Force Majeure, and the obligations of Manager, so far as and to the extent that they are affected by such Force Majeure, shall be suspended during the continuance of any inability so caused. As soon as practicable, Manager shall send Company a report on the actions needed to be taken to overcome the effects of the Force Majeure and estimates of the costs entailed in and time required for overcoming the effects of the event of Force Majeure. "**Force Majeure**" means any cause or causes not reasonably within the control of Manager, and which, by the exercise of reasonable diligence, Manager is unable to prevent or overcome,

including, in each case, to the extent satisfying the foregoing, strikes; lockouts or other industrial disturbances; acts of the public enemy; acts of terror; sabotage; wars; blockades; military action; insurrections; riots; epidemics; pandemics; landslides; lighting; earthquakes; fires; storms; floods; washouts; civil disturbances; explosions or other casualty events; breakage or accident to, or partial or total failure of, machinery or equipment; the necessity for testing, inspections or making repairs or alterations to machinery or equipment; act action or restraint by any Governmental Authority; and any changes in applicable Law imposed after the Effective Date.

13. **Entire Agreement**. This Agreement, including and together with any related schedules, attachments and appendices, constitutes the sole and entire agreement of the parties with respect to the subject matter contained herein, and supersedes all prior and contemporaneous understandings, agreements, representations and warranties, both written and oral, regarding such subject matter.

14. **Severability**. If any term or provision of this Agreement is invalid, illegal or unenforceable in any jurisdiction, such invalidity, illegality or unenforceability shall not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction.

15. **Waiver**. No waiver by any party of any of the provisions of this Agreement shall be effective unless explicitly set forth in writing and signed by the party so waiving. Except as otherwise set forth in this Agreement, no failure to exercise, or delay in exercising, any right, remedy, power or privilege arising from this Agreement shall operate or be construed as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege.

16. **Assignment**. No party may assign any or all of their rights, benefits and obligations under this Agreement to any other person without the prior written consent of the other party hereto and *provided* that such assigning party remains liable to observe and perform all of its obligations and covenants hereunder and such assignee agrees in writing with the other party to be bound by the terms and provisions of this Agreement; *provided*, *that*, the Company may assign this Agreement without the consent of Manager to a third party purchaser of all or substantially all of the Company's assets. Manager shall not, without the prior written consent of the Company, permit, directly or indirectly, a (a) change of Control (other than a Parent Change of Control) or (b) transfer of any direct Equity Securities of Manager to (i) a Sanctioned Person, (ii) a FEOC or (iii) a GM Competitor. In the event there is a change of Control of Company resulting from a transfer pursuant to the requirements set forth in the Company LLC Agreement, in connection with the consummation of the applicable transfer, Manager shall assign all of its rights, benefits and obligations under this Agreement to the transferee (or an Affiliate) and shall ensure that an entity with the appropriate financial wherewithal assumes the guarantee obligations of LAC set forth in Section 9.

17. **No Third-Party Beneficiaries**. This Agreement benefits solely the parties to this Agreement and their respective permitted successors and assigns and nothing in this

Agreement, express or implied, confers on any other person any legal or equitable right, benefit or remedy of any nature whatsoever under or by reason of this Agreement.

18. **No Set Off**. Regardless of any other rights under any agreements, neither Manager nor Company shall have the right to set-off the amount of any claim it may have under this Agreement, whether contingent or otherwise, against any amount owed by such party to the other party, whether under this Agreement or otherwise.

19. **Survival**. The terms and provisions of the obligations or agreements of the parties hereto under Section 1, Section 6 and Sections 8 through 25 shall survive any termination of this Agreement and will be construed as agreements independent of any other provisions of this Agreement.

20. **Notice**. Any notices required or permitted under this Agreement shall be in writing and shall be deemed to have been duly given when delivered or sent if delivered in person or sent by facsimile or electronic transmission (*provided* confirmation is obtained), on the third business day after dispatch by registered or certified mail, or on the next business day if transmitted by national overnight courier, in each case as follows: (a) if to Manager: LAC Management LLC, 5310 Kietzke Lane, Suite 200, Reno, Nevada 89511, Attention: General Counsel, Email: [***]; and (b) if to Company: HoldCo 1 LLC, 5310 Kietzke Lane, Suite 200, Reno, Nevada 89511, Attention: General Manager, Email: [***].

21. **Amendment of Agreement**. No modification, amendment or waiver of any of the provisions of this Agreement shall be effective unless it is in writing and signed by the parties hereto.

22. **Governing Law**. This Agreement, and the rights and liabilities of the parties hereto under this Agreement, shall be governed by and interpreted in accordance with the Laws of the State of Nevada, except for its rules as to conflicts of laws that would apply the Laws of another state.

23. **Arbitration**. Each of the parties hereto shall use commercially reasonable efforts to resolve any dispute among them that relates to this Agreement and to settle any such dispute through joint cooperation and consultation. Any dispute whatsoever among any of the parties with respect to the interpretation of, or relating to any alleged breach of, this Agreement that the parties are unable to settle within thirty (30) days, as set forth in the preceding sentence, shall be resolved by final and binding arbitration administered by the International Centre for Dispute Resolution in accordance with its International Arbitration Rules, before a panel of three (3) arbitrators. Any such arbitration shall be held in New York, New York unless another location is mutually agreed upon by the parties to such arbitration. Such arbitration shall be the exclusive remedy hereunder with respect to any dispute relating to this Agreement; *provided*, *however*, that nothing contained in this Section 23 shall limit any party's right to bring (a) post-arbitration actions seeking to enforce an arbitration award or (b) actions seeking emergency or temporary injunctive or other similar temporary relief (pending the resolution of the arbitration contemplated herein) in the event of a breach or threatened breach of any of the provisions of this Agreement. If this Section 23 is for any reason held to be invalid or otherwise inapplicable

with respect to any dispute, then any action or proceeding brought with respect to any dispute arising under this Agreement, or to interpret or clarify any rights or obligations arising hereunder, shall be maintained solely and exclusively in the state or U.S. federal courts in the State of Nevada. With respect to any action or proceeding that a successful party to the arbitration may wish to bring to enforce any arbitral award or to seek injunctive or other similar relief in the event of the breach or threatened breach of this Agreement (or any other agreement contemplated hereby), each party irrevocably and unconditionally (and without limitation): (i) submits to and accepts, for itself and in respect of its assets, generally and unconditionally the non-exclusive jurisdiction of the courts of the United States and the State of Nevada; (ii) waives any objection it may have now or in the future that such action or proceeding has been brought in an inconvenient forum; (iii) agrees that in any such action or proceeding it will not raise, rely on or claim any immunity (including from suit, judgment, attachment before judgment or otherwise, execution or other enforcement); (iv) waives any right of immunity which it has or its assets may have at any time; and (v) consents generally to the giving of any relief or the issue of any process in connection with any such action or proceeding including the making, enforcement or execution of any order or judgment against any of its property. Each party shall use best efforts to cause any proceeding conducted pursuant to this Section 23 to be held in confidence by the International Centre for Dispute Resolution, the arbitrators and each of the parties to such proceeding and their respective Affiliates, and all information relating to or disclosed by any party thereto in connection with such proceeding shall be treated by the parties thereto, their respective Affiliates and the arbitrators as confidential business information and no disclosure of such information shall be made by any party thereto, its Affiliates or the arbitrator without the prior written consent of the party thereto furnishing such information in connection with the arbitration proceeding, except as required by applicable law or to enforce any award of the arbitrators. The party whom the arbitrators determines is the prevailing party in such arbitration shall receive, in addition to any other award pursuant to such arbitration or associated judgment, reimbursement from the other party of all reasonable legal fees incurred with respect to such arbitration.

24. **Waiver of Jury Trial**. EACH PARTY TO THIS AGREEMENT HEREBY KNOWINGLY AND VOLUNTARILY WAIVES ITS RIGHTS TO TRIAL BY JURY IN ANY LITIGATION INVOLVING OR IN ANY WAY RELATING TO A DISPUTE ARISING HEREUNDER.

25. **No Recourse**. No Person who is not a named party to this Agreement, including without limitation any director, officer, employee, incorporator, member, partner, stockholder, Affiliate, financing source, attorney or representative of any named party to this Agreement ("**Non-Party Affiliates**") shall have any liability (whether in contract or in tort, in law or in equity, or based upon any theory that seeks to impose liability of an entity party against its owners or affiliates) for any obligations or liabilities arising under, in connection with or related to this Agreement or for any claim based on, in respect of, or by reason of this Agreement or its negotiation or execution; and each party hereto waives and releases all such liabilities, claims and obligations against any such Non-Party Affiliates.

26. **Counterparts**. This Agreement may be executed in multiple counterparts, each of which shall be deemed an original, and all of which together shall constitute one and the same

instrument. Any such counterpart may be delivered by electronic mail and each party waives any defense that delivery by electronic mail affects the enforceability of this Agreement.

As soon as practicable after the date of this Agreement, and in any event within 30 days after the date on which Manager adopts an anti-corruption compliance policy, Manager shall provide a copy of such policy to the Company, together with the resolutions of the Board of Directors or other relevant official document evidencing Manager's adoption of such policy. SUPPLIER CODE OF CONDUCT

This Supplier Code of Conduct ("Code") articulates General Motors Company's ("GM") expectations of the conduct of suppliers and business partners doing business with GM ("suppliers"). This Code is based on our corporate values for responsible and sustainable products and operations and aligns with the ten principles of the United Nations Global Compact, of which, GM is a signatory. Suppliers are expected to understand and act consistent with GM's approach to integrity, responsible sourcing, and supply chain management. GM expects suppliers will cascade similar expectations through their own supply chains.

GM endeavors to do business with suppliers that meet our standards and behave consistently with, and positively reflect, GM's values throughout the supply chain. GM expects that suppliers will satisfy contractual requirements, comply with laws, regulations, and GM policies and act consistently with the principles and values of our GM Code of Conduct, Winning with Integrity, and this Code.

HUMAN RIGHTS

GM expects all suppliers to have processes in place to prevent, mitigate, and take effective measures to remediate adverse human rights impacts. Suppliers are expected and required to adhere to and cascade GM's Human Rights Policy or equivalent expectations throughout their supply chain.

The United Nations Guiding Principles on Business and Human Rights serve as a guiding framework for GM's work related to human rights. GM is also committed, and expects suppliers to commit, to the OECD Guidelines for Multinational Enterprises; the International Labor Organization's (ILO) Declaration on Fundamental Principles and Rights at Work; the International Bill of Human Rights; the Universal Declaration of Human Rights; and the International Covenant on Economic, Social and Cultural Rights. Suppliers are expected to comply with these internationally recognized standards.

Freely Chosen Employment

Suppliers and their employment agencies will not use slave, forced prisoner, bonded, indentured, or any other form of forced or involuntary labor. Suppliers will also not engage, directly or indirectly, in human trafficking. Suppliers will provide all workers with a written employment agreement or notification that contains a description of terms and conditions of employment as part of the hiring process, and foreign migrant workers will receive the employment agreement prior to the worker departing from their country of origin with no substitution or change(s) upon arrival in the receiving country except as required to meet local law. Employees must be free to terminate their employment without penalty.

Freedom of Movement

Suppliers and their employment agencies will not impose restrictions on entering or exiting company-provided facilities including, if applicable, workers' dormitories or living quarters, except when lawful and necessary for safety or security purposes. Suppliers will refrain from restricting workers' movement through the retention of bank payment cards or similar arrangements for accessing wages. Suppliers will also refrain from requiring workers to use company-provided accommodation. Suppliers and their employment agencies, will not destroy, withhold, or conceal identity or immigration documents, such as government-issued identification, passports, or work permits.

Child Labor

Suppliers and their employment agencies will not use child labor. GM has a zero-tolerance policy regarding the use of child labor. Suppliers will implement an appropriate mechanism to verify that the age of workers and workers recruited comply with the ILO Minimum Age Convention (No. 138) and will provide substantiation of this verification upon request. If child labor is discovered in its supply chain, suppliers will cease employment of the chiId/children and take reasonable measures to enroll the chiId/chiIdren in a remediation/education program. Suppliers will not use workers under the age of 18 ("young workers") to perform work that is likely to jeopardize their health or safety. If young workers are found to be involved in work that is likely to jeopardize their health or safety, suppliers will take reasonable measures to immediately remove the young workers from the situation and provide alternative work that is age appropriate.

Working Hours

Suppliers will comply with local laws and collective bargaining agreements (where applicable) regarding working hours. Working hours must not exceed the maximum set by local law.

Wages and Benefits

Suppliers and their employment agencies will pay wages and provide benefits and compensation to workers that comply with all applicable wage laws and regulations, including those relating to minimum wages, overtime hours, medical leave, and legally mandated benefits, and in line with Article 7 of the International Covenant on Economic, Social and Cultural Rights. Suppliers will refrain from making any deductions from wages as a disciplinary measure or imposing any financial burdens on workers related to recruitment costs. For each pay period, suppliers will provide workers with a timely and understandable written wage statement that includes sufficient information to verify accurate compensation for work performed. Workers shall receive equal pay for equal work, including paying a fair wage that meets or exceeds legal minimum standards. All use of temporary, dispatch and outsourced labor shall be within the limits of the local law. In the absence of local law, the wage rate for student workers, interns, and apprentices should be at least a substantially similar wage rate as other entry-level workers performing equal or similar tasks. Workers must be paid directly, in a timely fashion, and in recognized currency. Suppliers will keep records of worker hours and wage documentation in accordance with local law.

Humane Treatment

Suppliers will not engage in harsh or inhumane treatment including violence, gender-based violence, sexual harassment, sexual abuse, corporal punishment, mental or physical coercion, bullying, public shaming, or verbal abuse of workers; nor is there to be the threat of any such treatment. Suppliers will have disciplinary policies and procedures in place for any violations of these requirements that are clearly defined and communicated to workers.

Recruitment Practices

Suppliers will not require workers to pay suppliers' agents' or sub-agents' recruitment fees or other related fees for their employment. Suppliers will provide full reimbursement to job seekers and workers if they have been required to pay any such fees or related costs. If necessary for a supplier to use a labor broker, the supplier will only use brokers that employ ethical recruitment practices, comply with applicable laws, and do not withhold identity documents.

Non-Discrimination/Non-Harassment

Suppliers will be committed to a workplace free of harassment and unlawful discrimination. Suppliers will not engage in discrimination, harassment, intimidation, violence, or other adverse actions to employees based on race, color, age, gender, sexual orientation, gender identity and expression, ethnicity or national origin, disability, pregnancy, religion, political affiliation, union membership, covered veteran status, protected genetic information, marital status or any other basis prohibited by law including in hiring and employment practices such as wages, promotions, rewards, and access to training.

Freedom of Association

Suppliers will comply with and respect all applicable laws and ILO core conventions related to the rights of workers to form and join trade unions of their own choosing, to bargain collectively, to engage in peaceful assembly, as well as respect the right of workers to refrain from such activities. Suppliers will avoid any form of threats, intimidation, physical or legal attacks against stakeholders, including union members and union representatives, exercising their legal rights to freedom of expression, association, and peaceful assembly.

Vulnerable Groups

Suppliers will commit to protect the rights of vulnerable groups within their businesses and supply chains, particularly the rights of women, indigenous peoples, children, and migrant workers. Suppliers will develop and implement internal measures to provide equal pay and opportunities throughout all levels of employment. Suppliers will also implement measures to address health and safety concerns that are particularly prevalent among women workers, including, but not limited to, preventing sexual harassment, offering physical security, and providing reasonable accommodation for nursing mothers.

Human Rights Defenders

Human rights defenders are individuals or groups who act to promote and protect human rights and fundamental freedoms through peaceful means. Suppliers will commit to neither tolerate nor contribute to threats, intimidation, or attacks against human rights defenders in relation to their operations to create safe and enabling environments for civic engagement and human rights at local, national, or international levels.

Diversity, Equity, and Inclusion

GM encourages suppliers to develop and promote inclusive cultures where diversity is valued and celebrated and everyone is able to contribute fully and reach their full potential. Suppliers should encourage diversity in all levels of their workforce and leadership, including boards of directors.

HEALTH & SAFETY

Suppliers will provide clean, healthy, and safe working environments for their personnel that meet or exceed legal standards. Suppliers will have safety procedures for their employees and tracking tools that drive to a goal of zero workplace safety incidents. Supplier employees will have the right to refuse work and report any conditions that do not meet these criteria. Suppliers will also properly manage the health and safety of contractors performing work on supplier's premises.

Occupational Safety

Suppliers will identify, assess, and mitigate worker potential for exposure to all health and safety hazards including eliminating the hazard, substituting processes or materials, controlling through proper design, implementing engineering and administrative controls, preventative maintenance, and safe work procedures (including lockout/tagout). Suppliers will provide ongoing occupational health and safety training, including prior to the beginning of work. Health and safety related information shall be clearly posted in the facility or placed in a location identifiable and accessible by workers. Where hazards cannot be adequately controlled by these means, suppliers will provide workers with appropriate, well-maintained, personal protective equipment (PPE) and associated training on how and when it needs to be applied. Suppliers will also provide communication and training to their workforce regarding the risks to them associated with these hazards.

Emergency Preparedness

Suppliers will work to actively identify and assess potential emergency situations and events and minimize their impact by implementing emergency plans and response procedures including emergency reporting, employee notification and evacuation procedures, worker training, and drills. Suppliers will execute emergency drills at least annually or as required by local law. Emergency plans should include appropriate fire detection and suppression equipment, clear and unobstructed egress, adequate exit facilities, contact information for emergency responders, and recovery plans.

Physically Demanding Work

Suppliers will identify, evaluate, and control worker exposure to the hazards of physically demanding tasks, including manual material handling and heavy or repetitive lifting, prolonged standing, and highly repetitive or forceful assembly tasks.

Machine Safeguarding

Suppliers will evaluate production and other machinery for safety hazards. Physical guards, safeguarding devices, and barriers must be provided and properly maintained where machinery presents an injury hazard to workers.

Sanitation, Food, and Housing

Suppliers will take reasonable measures to provide workers with ready access to clean toilet facilities, potable water, and sanitary eating facilities. Any worker dormitories or living quarters provided by suppliers should also be maintained to be clean and safe, and provided with appropriate emergency egress, hot water for bathing and showering, adequate lighting and heat and ventilation, and individually secured accommodations for storing personal and valuable items.

Occupational Injury and Illness

Suppliers will have procedures and systems to prevent, investigate, root cause, manage, track, and report occupational injury and illness, including provisions to encourage worker reporting, classify and record injury and illness cases, provide necessary medical treatment, investigate cases, and implement corrective actions to eliminate their causes, and facilitate the return of workers to work.

Product Safety

Suppliers and contractors will promptly communicate any safety concern related to GM vehicles. "Speak Up for Safety" is a program that suppliers and contractors working on behalf of GM can use to report vehicle safety concerns and make suggestions to improve safety. Safety concerns or suggestions can be made at any time through the GM Awareline.

ENVIRONMENT

Responsible Stewardship

Suppliers will continually strive to protect the communities and environment that surround them. Suppliers will also continually strive to conserve natural resources including water, fossil fuels, minerals, and virgin forest products by practices such as modifying production, maintenance and facility processes, materials substitution, re-use, conservation, recycling, or other means. Suppliers should promote circularity and closed loop systems by supporting the use of sustainable, renewable natural resources while reducing emissions, pollution, and waste.

Environmental Permits and Reporting

Suppliers will follow applicable local, national, and international environmental laws. Suppliers will obtain and keep current all required environmental permits, approvals, and registrations, follow their operational and reporting requirements, and will provide said documentation to GM upon request. GM encourages all suppliers to be bold and go beyond compliance obligations to integrate additional environmentally sustainable practices throughout the company.

Pollution Prevention

Suppliers will minimize or eliminate emissions and discharges of pollutants and generation of waste at the source or by practices such as adding pollution control equipment, modifying production, maintenance, and facility processes, or by other means. Suppliers will routinely monitor and disclose, appropriately control, minimize, and strive to eliminate contributing to pollution, as required by and in accordance with applicable law. Suppliers should assess cumulative impacts of pollution sources at their facilities.

Greenhouse Gas Emissions

Suppliers will continually strive to reduce greenhouse gas emissions. Suppliers will track Scope 1, 2, and 3 greenhouse gas emissions. Upon request, suppliers will share Scope 1, 2, and 3 greenhouse gas emissions data with GM, and/or publish that data through GM's preferred third-party. Suppliers shall establish time-bound emission reduction goals and shall strive to obtain approved science-based targets that are at a minimum aligned with GM's Supplier Sustainability Partnership Pledge.

Other Air Emissions

Suppliers will follow applicable local, national, and international air pollution control laws. Suppliers will characterize, routinely monitor, control, and treat emissions of air pollutants as required by law. Ozone depleting substances must be effectively managed in accordance with the Montreal Protocol and applicable regulations. Suppliers will conduct routine monitoring of the performance of their air emission control systems. Hazardous air emissions shall be characterized, monitored, and controlled as required by permits and local, national, or international regulation. Suppliers will monitor performance of air emission control systems for effectiveness.

Hazardous Substances

Suppliers will identify, label, store, and manage chemicals, waste, and other materials posing a hazard to human health or the environment and will use safe handling, movement, storage, use, recycling or reuse, and disposal in compliance with GM requirements and international, national, and local laws. Suppliers will look for ways to reduce the use of hazardous materials and substances of concern within products and their manufacturing processes.

Materials Restrictions

Suppliers will adhere to all applicable laws, regulations and GM requirements regarding restrictions and prohibitions of specific substances in products and manufacturing including labeling and disposal. If requested, suppliers will provide information or reports of the composition of all substances or materials supplied to GM.

Solid Waste

Suppliers will implement a systematic approach to identify, manage, reduce, and responsibly dispose of or recycle solid waste (non-hazardous).

Water Management

Suppliers will implement a water management program that documents, characterizes, and monitors water sources, use, and discharge; seeks opportunities to conserve water; and controls channels of contamination. Wastewater must be characterized, monitored, controlled, and treated as required prior to discharge or disposal. Suppliers will conduct routine monitoring of their wastewater treatment and containment systems for optimal performance and to meet regulatory compliance. Suppliers should effectively reuse and recycle water. Supplier should prevent unpermitted discharges and mitigate the potential impacts of such discharges and from flooding caused by rainwater run-off.

Animal Welfare

Suppliers will respect the welfare of animals and provide humane treatment in line with the five animal freedoms formalized by the World Organization for Animal Health (OIE) concerning animal welfare which include: freedom from hunger, thirst and malnutrition; freedom from fear and distress; freedom from physical and thermal discomfort; freedom from pain, injury and disease; and freedom to express normal patterns of behavior. No animal should be raised and killed for the single purpose of being used in automotive products.

GM does not conduct or commission the use of animals in tests for research purposes or in the development of our vehicles, either directly or indirectly. Suppliers will not supply any raw materials, components, parts or assemblies to GM that involved testing on animals in its research or development.

Continuous Improvement

Suppliers will take measures to increase innovation and efficiency throughout their companies and reduce their carbon footprint, energy use, water use, material use, wastes, and other emissions. Suppliers should have a sustainable procurement policy in place to communicate sustainability expectations through the supply chain. Suppliers will set sustainability goals, accurately track results, and report on progress.

RESPONSIBLE SOURCING

Due Diligence

Suppliers will implement a policy committing to the responsible sourcing of all minerals and materials in line with GM's Conflict Minerals Policy and Responsible Minerals Sourcing Policy. These policies require conducting due diligence in accordance with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, including its current supplements on tin, tantalum, tungsten and gold (3TG). Suppliers will disclose to GM, as necessary, updated smelter/refiner information for any 3TG mineral used in the production of its parts, materials, components, and products. Suppliers will also engage with sub-tier suppliers to conduct due diligence by providing reporting templates or other information upon request.

Land Rights

Suppliers will respect the communities in which they are based and serve. Suppliers will respect the land rights of individuals, indigenous people, and local communities in accordance with local laws, the ILO Indigenous and Tribal Peoples Convention (No. 169), and the United Nations Declaration on the Rights of Indigenous People. Suppliers will respect the rights of local communities to decent living conditions, education, employment, social activities, and the right to Free, Prior, and Informed Consent (FPIC) to developments that affect them and the lands on which they live, with particular consideration for the presence of vulnerable groups. Suppliers should also protect ecosystems, especially key biodiversity areas, impacted by their operations, and avoid illegal deforestation in accordance with international biodiversity regulations, including the IUCN Resolutions and Recommendations on biodiversity. Suppliers should routinely monitor and control their impact on soil quality to prevent soil erosion, nutrient degradation, subsidence, and contamination. Suppliers should routinely monitor and control the levels of industrial noise to avoid noise pollution.

BUSINESS INTEGRITY

Anti-Corruption/Anti-Bribery

Suppliers will not tolerate corruption, bribery, money laundering, embezzlement, extortion, or fraud in any form. This includes giving or receiving anything of value, including money, gifts, or unlawful incentives to improperly influence negotiations or any other dealings with governments and government officials, customers, or any other third parties. Suppliers will implement monitoring, record keeping, and enforcement procedures to comply with anti-corruption laws.

Disclosure of Information

Suppliers will accurately disclose information regarding their labor, health and safety, environmental practices, business activities, structure, financial situation, and performance in accordance with applicable regulations. All of supplier business dealings will be transparently performed and accurately reflected on the supplier's business books and records. Falsification of records or misrepresentation of conditions or practices in the supply chain are unacceptable.

Intellectual Property

Suppliers will respect intellectual property rights. Transfer of technology and know-how must be done in a manner that protects intellectual property rights, and customer and supplier information must be safeguarded.

Counterfeit Parts

Suppliers will never utilize counterfeit components in any product supplied to GM. Suppliers will also minimize the risk of introducing diverted parts and materials into deliverable products and adhere to relevant technical regulations in the product design process.

Privacy

Suppliers will protect the reasonable privacy expectations of personal information of everyone they do business with, including suppliers, customers, consumers, and employees. Suppliers will comply with privacy and information security laws and regulatory requirements when personal information is collected, stored, processed, transmitted, and shared.

Export Controls and Economic Sanctions

Suppliers will comply with all applicable restrictions on the export, re-export, release or other transfer of goods, software, services, and technology; all applicable economic sanctions restrictions involving certain territories, entities and individuals (to include conducting appropriate due diligence on third parties); and all other similar trade-related laws and regulations.

Ethical Behavior

Suppliers will uphold the highest standards of integrity in all business interactions, including standards of fair business, advertising, and competition. Suppliers will avoid conflicts of interest and operate honestly and ethically throughout the supply chain and in accordance with applicable law, including those laws pertaining to anti-competitive business practices, respect for and protection of intellectual property, company and personal data, and export controls and economic sanctions. Suppliers will require that their employees avoid and disclose situations where their financial or other interests conflict with job responsibilities, or situations giving any appearance of impropriety.

Grievance Mechanisms and Non-Retaliation

Suppliers will provide a clearly communicated grievance mechanism, in local languages, for workers to utilize to report integrity concerns, human rights concerns, safety issues, and misconduct without fear of reprisal. Subject to any restrictions imposed by law, suppliers will provide workers with a safe, confidential, and anonymous environment to provide grievance and feedback and will reasonably protect whistleblower confidentiality. Suppliers will also have a process in place for subcontractors and the community associated with the supplier's operations to raise concerns to the supplier. When creating such mechanisms, suppliers should consult potential or actual users on the design, implementation, or performance of the mechanism. Suppliers should periodically assess their grievance mechanism against the UN Guiding Principles' effectiveness

criteria. Suppliers will prohibit all forms of retaliation against those who raise concerns in good faith. Suppliers will also appropriately investigate reports and take corrective action, if needed. Suppliers will cascade these expectations through their own supply chain.

Reporting Concerns to GM

Subject to any restriction posed by law, suppliers will promptly inform GM of any concern related to issues governed by this Code and collaborate with GM in subsequent investigations. GM policy prohibits retaliation against any person reporting such a concern. To report a concern, suppliers can always speak directly to their GM Global Purchasing and Supply Chain representative. In addition, the GM Awareline allows employees, contractors, suppliers, and others to report concerns of misconduct affecting GM. Individuals can file a report 24 hours a day, 7 days a week by phone, web, or email. Individuals filing reports on the GM Awareline can remain anonymous, as permitted by law. The link to access information for GM's Awareline is located here.

Addressing Impacts

When potential adverse impacts are discovered, suppliers will investigate, and where appropriate, will engage with potentially affected stakeholders and/or their representatives with the aim of identifying mutually agreeable solutions or remedies and providing for or cooperating in their remediation through legitimate processes. Suppliers will cascade this expectation through their own supply chains.

MANAGEMENT SYSTEMS

Suppliers will develop and implement an appropriate internal management system to comply with applicable law and the content of this Code. Suppliers will be able to demonstrate compliance with this Code upon GM's request and will take any action to correct any non-compliance. If requested, suppliers will complete questionnaires or participate in on-site assessment or audits.

The management system should contain the following elements:

Leadership Commitment

Suppliers will clearly identify senior executives and company representatives responsible for ensuring implementation of the management system and associated programs. Senior management should review the status of the management systems on a regular basis.

Stakeholder Engagement

Suppliers will continuously improve their sustainability and stakeholder engagement progress. GM also encourages suppliers to work closely with local communities to implement projects and strategies that improve the community and those who live there.

Risk Assessment and Management

Suppliers will have processes and strategies in place to identify and control business risk, legal compliance, environmental, health and safety, and labor practices and ethics risks associated with the supplier's operations. Suppliers should determine the relative significance for each risk and implement appropriate procedural and physical controls to control the identified risks and meet regulatory compliance. Suppliers will continually monitor and enforce these standards in their operations and supply chain including subcontractors.

Improvement Objectives

Suppliers should conduct a periodic self-assessment, preferably administered through a third party, regarding conformity to legal and regulatory requirements, the content of this Code, and customer contractual requirements related to social and environmental responsibility. Suppliers will also have a process for timely correction of deficiencies identified by internal or external assessments, inspections, investigations, and reviews.

Training

Suppliers will have programs for new and ongoing training of managers and workers to implement their policies, procedures, and improvement objectives and to meet applicable legal and regulatory requirements and comply with this Code and GM's policies.

Communication and Documentation

Suppliers will have a process for communicating clear and accurate information about their policies, practices, expectations, and performance to workers, suppliers, and customers. Suppliers will also create and maintain documents and records to meet regulatory compliance and conformity to company requirements along with appropriate confidentiality to protect privacy.

Supplier Responsibility

Suppliers will have a process to communicate these Code requirements through their supply chain and to require suppliers to adopt management systems and practices for compliance with this Code or requirements materially consistent with this Code. Upon request, suppliers will provide evidence of efforts to cascade this Code or requirements materially consistent with this Code through their supply chains.

TERMS AND CONDITIONS

1. Term and conditions precedent.

The effective date of this Agreement shall be the Execution Date. The commercial terms of purchase and sale set forth in this Agreement shall become operative as of the Phase One Effective Date (as defined below), provided that:

1.1. Adjustment Tranche 2 Investment[Reserved]. If pursuant to the Tranche 2 Subscription Agreement, the Outside Date (as that term is defined in the Tranche 2 Subscription Agreement) has passed, and either: (i) GM did not make the Tranche 2 Investment (as that term is defined in the Tranche 2 Subscription Agreement) by the Outside Date and the failure to make the Tranche 2 Investment by the Outside Date was not caused by, or resulted from, LAC Parent's failure to fulfill any of its obligations or breach of any of its representations, warranties or covenants under the Tranche 2 Subscription Agreement; or (ii) GM completed the Tranche 2 Investment but Section 8.1(b)(i) of the Master Purchase Agreement is operative; then in the case of either Section 1.1(i) or (ii), there shall be a proportionate adjustment to the fixing of all subsequent purchase and sale quantities in accordance with the provisions of this Agreement, including without limitation: (i) the quantity of Phase One Product and Phase One Volume (as defined below); (ii) the Minimum Annualized Production Rate (as defined below); (iii) the available lithium hydroxide for the purposes of Section 1.7; (iv) the percentage of GM requirements referenced in Section 2.2(i) below, but not including the binding quantity of any Buyer Quarterly Purchase Forecast (as defined below) determined in accordance with this Agreement; and (v) the available Phase Two Product (as defined below). For clarity, proportionate is benchmarked by the percentage of $650 million that is actually advanced by GM. For example purposes only, if GM advances 40%, then the applicable figures and amounts set forth in this Agreement shall be multiplied by 40%. Notwithstanding the foregoing, if either (i) LAC Parent terminates the Tranche 2 Subscription Agreement pursuant to Section 7.1(b) of the Tranche 2 Subscription Agreement or (ii) GM completes the Tranche 2 Investment but Section 8.1(b)(ii) of the Master Purchase Agreement is operative, there shall be no proportionate adjustment to the fixing of ~~all subsequent purchase and sale quantities as otherwise required by this Section 1.1.~~

1.2. Definition of Commencement of Commercial Production. "Commencement of Commercial Production" means and shall be deemed to have been achieved on the day on which the production facility to be developed at the Project (the "Production Facility") has operated for a period of thirty (30) consecutive days at an annualized rate during such period of at least 80% of its expected Phase One capacity of 40,000 tonnes of Product per year (the "Minimum Annualized Production Rate").

1.3. Phase One Effective Date. The Phase One effective date shall commence on the date of the Commencement of Commercial Production (the "Phase One Effective Date") and shall continue for twenty (20) years after the Phase One Effective Date (the "Phase One Term"); provided, however, that, other than with respect to the Stub Period (as defined below), the Phase One Term shall be extended by an equivalent amount of time for each calendar year in which the Annual Production Forecast (as defined below) (the "MAPR Extension") is

less than the Minimum Annualized Production Rate. If there is an MAPR Extension, references to the Phase One Term shall be to the Phase One Term as extended by the MAPR Extension (if any).

1.4. Anticipated Commencement of Commercial Production. Supplier anticipates that production of Product will start by December 31, 2026 and that Commencement of Commercial Production shall occur on or before December 31, 2027, in both cases subject to the occurrence of a force majeure event (as defined in the General Terms).

1.5. Progress Updates. Commencing on the Execution Date, Supplier shall update GM periodically (and in any event no less than quarterly) on the progress of development of the Production Facility and the then estimated date of Commencement of Commercial Production. Supplier will provide to GM written notice of the projected Commencement of Commercial Production at least one hundred and eighty (180) days prior to the Commencement of Commercial Production, and thereafter will provide monthly progress updates including any revisions to the projected Commencement of Commercial Production. Supplier shall provide GM with written notice of the Commencement of Commercial Production within five (5) Business Days thereof. For purposes of this Agreement, "Business Day" means any day that is not a Saturday, Sunday or other day on which national banks in New York, New York, are authorized or required by law to remain closed.

1.6. Purchase Prior to Commencement of Commercial Production. GM (for itself or through a Designated Purchaser) shall have the right to purchase all Phase One Product at the Production Facility prior to the Commencement of Commercial Production, in accordance with the provisions of this Agreement but based upon such minimum aggregate shipment quantities and such shipment delivery schedules as well as provisions as to chemical specifications as Supplier and GM shall reasonably agree. Commencing two (2) calendar months prior to the first month in which Supplier reasonably expects Phase I Product to be produced, by no later than the fifth Business Day of such calendar month and each calendar month thereafter prior to the Commencement of Commercial Production, Supplier will provide to GM a production forecast (the "Monthly Production Forecast") for the second succeeding calendar month (the "Relevant Month"), which identifies, among other things, Supplier's total forecast production of the aggregate quantity of Product expected to be produced in the Relevant Month and the shipping schedule for the Relevant Month (the "Monthly Shipping Schedule"). Within thirty (30) Business Days after receipt of the Monthly Production Forecast, GM must notify Supplier in the form agreed by the Parties from time to time, as to the amount of the consolidated quantity of the Product all GM Buyers elect to acquire in the Relevant Month and confirm the Monthly Shipping Schedule for the Relevant Month and provide Supplier with the amount of Product to be shipped to each GM Buyer. If GM does not give notice within the timeframe specified above, GM, for and on behalf of itself and all of the GM Buyers, shall be deemed to have declined to purchase the Product during the Relevant Month. If GM and/or its Designated Purchasers decline (or have been deemed to decline) to purchase all or any portion of the Phase One

Product produced prior to the Commencement of Commercial Production, Supplier shall be entitled (but not obligated), in its discretion, to sell such Product to any Person.

1.7. Evaluation of Lithium Hydroxide. The Parties will evaluate the technical and financial feasibility for Supplier to conduct operations to further process the Product to produce lithium hydroxide. If the Parties agree to the development of a lithium hydroxide production facility, the Parties will amend this Agreement to establish mutually agreed upon terms for the purchase and sale of lithium hydroxide. In the event the Parties are unable to reach agreement on such amended terms to be made to this Agreement, the Parties agree to resolve any differences in accordance with the dispute resolution procedures set forth in Section 18 of the General Terms.

1.8. Operational Details. The Parties will also work together throughout the Phase One Term, each acting in good faith to agree on, as needed, further operational details regarding, among other things, the purchase process, logistics, sampling, transportation and delivery of the Product; provided, however, that any such additional details shall not supersede the terms of this Agreement unless agreed by the Parties in writing.

2. Volumes.

2.1. GM Buyers.

(A) Supplier shall sell the Product to GM or any purchaser (for the avoidance of doubt, which may include GM affiliates or tiered suppliers) designated by GM and pre-approved in writing by Supplier (such approved purchasers, the "Designated Purchasers" and, collectively with GM, the "GM Buyers" or each a "GM Buyer").

(B) Supplier shall not unreasonably refuse or delay approval of a Designated Purchaser designated by GM. For clarity, if Supplier has terminated a Designated Purchaser Agreement (as defined below) as a result of a default of the applicable Designated Purchaser, such Designated Purchaser will no longer be deemed to be a Designated Purchaser that has received the approval of Supplier, and Supplier will provide GM with written notice thereof. If GM determines that a Designated Purchaser shall no longer be a Designated Purchaser pursuant to this Agreement, GM will provide notice of such termination to Designated Purchaser and Supplier.

2.2. Option Phase One Volume. Supplier grants to GM an option for GM Buyers to purchase any or all Product that Supplier produces for Phase One (the "Phase One Volume"). It is understood and agreed by GM that so long as GM purchases Product pursuant to this Agreement, GM will purchase a minimum volume of Product equal to the lesser of: (i) the lithium carbonate equivalent of [***] of GM's requirements for lithium that is necessary for use in the production of battery cells manufactured by GM or its affiliates, subsidiaries, or joint venture partners in North America; or (ii) 100 percent (100%) of the Phase One Volume.

2.3. Annual Production Forecast. Supplier will, not later than: (i) ninety (90) days prior to the Phase One Effective Date (with respect to the period of time from the Phase One Effective Date through December 31 of the year in which the Phase One Effective Date occurs (the "Stub Period")); and (ii) July 31 of each year of the Phase One Term thereafter provide to GM the estimated total Phase One Volume for the following [***] calendar years (the "Annual Production Forecast"). The [***] of each Annual Production Forecast shall represent the binding forecast from Supplier for the subsequent [***], which shall be delivered to GM in accordance with the Shipping Schedule (as defined below) set forth in Section 2.5 below. The [***] of each Annual Production Forecast is non-binding. Reference is made to Exhibit G for a summary of the provisions of Sections 2.3 through 2.7 (although such Exhibit G does not modify such Sections but is merely intended to be a shorthand summary for ease of reference purposes).

2.4. Annual Purchase Forecast. GM will, not later than: (i) forty-five (45) days after receipt of the Annual Production Forecast (with respect to the Stub Period); or (ii) August 31 of each year of the Phase One Term, notify Supplier of the quantity of Product which GM Buyers will purchase in each quarter of the Stub Period or the subsequent [***] calendar years, as applicable (the "Annual Purchase Forecast"). The [***] of each Annual Purchase Forecast shall constitute a firm obligation of GM to (directly or in combination with the Designated Purchasers) purchase that quantity of Product during the applicable [***] (the "Annual Quantity"). The [***] of each Annual Production Forecast shall not constitute a firm obligation of GM to purchase that quantity of Product.

2.5. Seller Quarterly Production Forecast. Supplier will, no later than the fifth Business Day of each calendar quarter (each, a "Quarter"), provide to GM a rolling twelve (12)-month production forecast (the "Seller Quarterly Production Forecast") that is consistent with the Annual Production Forecast and identifies, among other things: (A) Supplier's total forecast production of the aggregate quantity of Product expected to be produced for the next four (4) Quarters; and (B) the shipping schedule for the next Quarter. The shipping schedule will identify each relevant GM Buyer based on the prior Quarter's Buyer Quarterly Purchase Forecast provided by GM under Section 2.6 ("Shipping Schedule"). In no event shall the Shipping Schedule for the first Quarter provide for a shortfall of more than [***]% from the quantity set forth in any Seller Quarterly Production Forecast and a shortfall of more than [***]% from the quantity in Quarters two, three and four of the Seller Quarterly Production Forecast (each, the "Permitted Variance"). Reference is made to Exhibit E for an example of a Seller Quarterly Production Forecast. Any shortfall in a Shipping Schedule shall not reduce the binding annual quantity of Product set forth in an Annual Production Forecast and Annual Purchase Forecast, and any such shortfall in one Quarter shall be made up by Supplier in a subsequent Quarter.

2.6. Buyer Quarterly Purchase Forecast. GM must, within twenty (20) Business Days after receipt of the Seller Quarterly Production Forecast: (A) notify Supplier in the form agreed by the Parties from time to time, as to the amount of the consolidated quantity of the Product all GM Buyers elect to acquire in each Quarter identified in the Seller Quarterly Production Forecast (the "Buyer Quarterly Purchase Forecast"); and (B) confirm (or, in accordance with Section 2.7, request changes to) the Shipping Schedule for the next Quarter and provide Supplier with the amount of Product to be shipped to each GM Buyer.

Reference is made to Exhibit E for an example of a Buyer Quarterly Purchase Forecast. If GM does not give notice within the timeframe specified above, GM, for and on behalf of itself and all of the GM Buyers, is deemed to have elected to exercise its option to purchase the same proportion of the available Product that was exercised by all GM Buyers in the prior Quarter and to accept the Shipping Schedule for the next Quarter.

2.7. Modifications to Quantity of Product. Supplier will have five (5) Business Days following receipt of each Buyer Quarterly Purchase Forecast in which to notify Buyer that Supplier confirms, or proposes modifications to, the quantity of Product set out for the first Quarter in each Buyer Quarterly Purchase Forecast based upon operational timelines at the Production Facility. Any modifications proposed by Supplier shall be set out in such notice. If Supplier so confirms, or does not give any such notice within such five (5) Business Day period, the quantity of Product set out for the first Quarter in such Buyer Quarterly Purchase Forecast will constitute the firm order quantity of Product to be shipped during that Quarter (the quantities for the other four (4) Quarters being estimates only) (the "Quarterly Delivery Quantity"). If Supplier has notified GM within the above five (5) Business Day period of proposed modifications to the Quarterly Delivery Quantity, the Parties shall promptly discuss and resolve any such proposed quantity modifications.

2.8. Unallocated Phase One Product. Supplier agrees that all Product produced from the Supplier's production facility at Thacker Pass during the Phase One Term shall be allocated and sold pursuant to this Agreement. If GM declines its option to purchase any of the Phase One Product in accordance with this Agreement (or is deemed to have done so), Supplier shall have the full and unrestricted right to sell all or part of such Phase One Product to other purchaser(s) on any terms that Supplier is able to negotiate. For the avoidance of doubt, GM declining to purchase any specific Phase One Product shall have no impact on GM's option to purchase subsequent available Phase One Product, and Supplier shall not have the full and unrestricted right to sell any Phase One Product to other purchaser(s) until GM declines its option to purchase such specific Phase One Product.

2.9. Purchase Orders. With respect to all purchases of Product by GM Buyers pursuant to this Agreement:

(A) The GM Buyer will issue to Supplier, and Supplier will accept, one or more blanket purchase orders for purchase of the Product pursuant to which Supplier will produce and deliver Product in accordance with the firm portion of the Annual Purchase Forecast and the Seller Quarterly Production Forecast and releases to be communicated to Supplier setting forth the quantities of Product to be delivered and the delivery dates in accordance with the Shipping Schedule and subject to the Permitted Variance in Quarterly Shipping Schedules set forth in Section 2.5 (all such purchase orders, together with any related releases or agreements, each a "Purchase Contract"). Such Purchase Contract will be made pursuant to the terms and conditions of this Agreement including the General Terms and shall not modify the terms of this Agreement.

(B) Payment terms for each release of Product (each a "Release") under a Purchase Contract shall be net [***] days following the GM Buyer's receipt of the Product at the GM Buyer's facility but not later than [***] days after first loading of the Product at Thacker Pass or the Alternate Location (as defined in the General Terms).

2.10. Designated Purchasers.

(A) For the avoidance of doubt, the volumes of Product in this Agreement are in the aggregate and apply to all purchases made under this Agreement, whether by GM or any other Designated Purchaser.

(B) A GM Buyer that is identified in the Buyer Quarterly Purchase Forecast will be responsible for issuing Purchase Orders, making payment and receiving Product, all subject to the terms of this Agreement with respect to GM or the Designated Purchaser Agreement with respect to any Designated Purchaser. GM will provide any Designated Purchaser written notice of the price to be paid by Designated Purchaser to Supplier for the Product pursuant to this Agreement, with a copy of such notice to be provided by GM to Supplier.

(C) Following the notification by GM to Supplier of any Designated Purchaser: (i) sales to such Designated Purchaser will be subject to the Designated Purchaser entering into a direct agreement with Supplier substantially in the form attached to this Agreement as **Exhibit B** (the "Designated Purchaser Agreement"), which such Designated Purchaser Agreement may be modified prior to its execution by mutual agreement by Supplier and GM.

(D) Any Purchase Contract or order placed by a Designated Purchaser shall create an independent contractor relationship between Supplier and such Designated Purchaser, and GM shall not guaranty any obligations of any Designated Purchaser and Supplier's sole remedy for any breach of a Designated Purchaser Agreement by a Designated Purchaser shall be to enforce Supplier's rights against a Designated Purchaser pursuant to such Designated Purchaser Agreement and under applicable law.

(E) In the event that Supplier assigns its rights under this Agreement as contemplated by Section 16.7, Supplier will provide notice of such assignment within five (5) Business Days to all Designated Purchasers with whom Supplier has executed a Designated Purchaser Agreement, and shall contemporaneously provide a written copy of such notice to GM.

2.11. Right to Phase One Product. In the event that Supplier or any affiliate sells any Phase One Product to another Person other than GM and/or its Designated Purchasers in accordance with this Agreement, and Supplier is unable to provide GM and/or its Designated Purchasers with the quantity of Product set forth in the Buyer Quarterly Purchase Forecast—whether due to a force majeure event (as defined in the General Terms)) or otherwise—neither Supplier nor any of its affiliates shall provide any Phase One Product

to another Person other than GM and/or its Designated Purchasers until all quantities set forth in a Buyer Quarterly Purchase Forecast are delivered; provided that, if GM and/or its Designated Purchasers have purchased lithium carbonate from one or more third parties to replace undelivered Product under this Agreement during a force majeure event impacting Supplier, this Section 2.11 shall not apply to the extent of such purchases from third parties.

3. Right of First Offer for Phase Two Product.

3.1. Certain Defined Terms. For the purposes of this Section 3: (i) "Trigger Point" is the later of: (1) December 31, 2025; and (2) the date upon which Supplier, acting as a prudent operator (but subject to any force majeure event (as defined in the General Terms), estimates is eighteen (18) months prior to the Phase One Effective Date; (ii) "Phase Two" means the planned incremental capacity of approximately 40,000 tonnes of Product per year developed at the Thacker Pass Project in addition to the Phase One Product; (iii) "Phase Two Product" is the nameplate capacity volumes to be produced from Phase Two, as such capacity may be adjusted down pursuant to the provisions of Section 1.1; ~~and~~ (iv) "ROFO Provisions" are the provisions of this Section 3 pursuant to which Supplier grants to GM a right of first offer with respect to Phase Two Product and (v) "Phase Two Offtake" means an offtake agreement between Supplier and GM with respect to the Phase Two Product.

3.2. Notice of Trigger Point. Supplier agrees to send a written notice to GM advising of the Trigger Point as and when the same has been reasonably ascertained. If the Trigger Point is subject to change, Supplier shall promptly send one or more written notices to GM updating the Trigger Point.

3.3. Compliance with ROFO Provisions. Supplier (directly or through an affiliate) cannot offer to sell Phase Two Product to a third Person (which offer to sell, for clarity, may include establishing a Joint Venture with respect to the Project pursuant to which the counterparty has a right to purchase or otherwise obtain Phase Two Product) (a "Phase Two Product Transaction") unless and until Supplier has first complied with the provisions of this Section 3. For clarity, without the prior written consent of GM, Supplier cannot implement the ROFO Provisions or enter into a Phase Two Product Transaction prior to the Trigger Point.

3.4. ROFO Notice. If, after the Trigger Point, Supplier (directly or through an affiliate) desires to enter into a Phase Two Product Transaction, Supplier shall first deliver a notice in writing (the "ROFO Notice") to GM whereby the Supplier offers to enter into a Phase Two Product Transaction with GM on the terms and conditions set out in the ROFO Notice (the "Sale Terms").

3.5. Sale Terms. The Sale Terms shall include, to the extent applicable, the price for the Phase Two Product as well as any attendant investment in and/or provision of capital or other consideration to either Supplier and/or the Project as well as all other material terms and conditions in reasonable detail.

3.6. Evaluation Period. For a period of twenty (20) Business Days after receipt of the ROFO Notice (the "Evaluation Period"), GM shall have the right to send a written notice to Supplier (the "Offer Response"). If, during the Evaluation Period, Supplier amends or modifies the terms and conditions set forth in the ROFO Notice prior to receiving the Offer Response from GM, the Evaluation Period shall reset. The Offer Response shall set out whether: (i) GM is not interested in pursuing the Phase Two Product Transaction; (ii) GM is willing to pursue the Phase Two Product Transaction on the terms and conditions set out in the ROFO Notice, including without limitation, the Sale Terms; or (iii) GM is willing to pursue the Phase Two Product Transaction, but with alterations/amendments/revisions to the terms and conditions set out in the ROFO Notice, including without limitation, the Sale Terms (the "Suggested Revised Terms"). If no Offer Response is sent by GM to Supplier within the Evaluation Period, then GM is deemed to have elected the option described in Subsection 3.6(i).

3.7. Non Response – Offeree Commercial Agreement. If the Offer Response is as set out in Subsection 3.6(i) or is deemed to be as set out in Subsection 3.6(i), Supplier (directly or through an affiliate) shall have a period of one hundred and eighty (180) days after the receipt (or non-receipt) of such Offer Response to negotiate with a third Person (the "Offeree") a Phase Two Product Transaction and to enter into a binding agreement of purchase and sale or other form of commercial agreement, as the case may be (the "Commercial Agreement") with the Offeree, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent. If the Commercial Agreement is not executed and delivered within such time frame then the ROFO Provisions shall reset and again be applicable to any subsequent contemplated Phase Two Product Transaction.

3.8. Standard ROFO Negotiation Period. If the Offer Response is as set out in Subsection 3.6(ii), Supplier and GM shall, each acting in good faith, for a period of a further one hundred and sixty (160) days (the "Standard ROFO Negotiation Period") negotiate the binding Commercial Agreement, based on the Sale Terms, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent.

3.9. End of Standard ROFO Negotiation Period – Offeree Commercial Agreement. If, by the end of the Standard ROFO Negotiation Period, Supplier and GM have not executed and delivered a binding Commercial Agreement based on the Sale Terms, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent, then Supplier shall have a period of one hundred and eighty (180) days after the last day of the Standard ROFO Negotiation Period, to negotiate with an Offeree a Phase Two Product

Transaction on terms and conditions that are materially better (considered as a whole package) to Supplier than those set out in the ROFO Notice and to enter into a binding Commercial Agreement with the Offeree, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent. Supplier shall not disclose to an Offeree any of the information provided by GM to Supplier in the Offer Response or during the Standard ROFO Negotiation Period. In considering whether the terms and conditions are materially better, the Parties shall take into consideration, among other things, the offtake price, volume, investment quantum, form of investment, timing, execution risk, and government relations. If the Commercial Agreement is not executed and delivered within such time frame, then the ROFO Provisions shall reset and again be applicable to any subsequent contemplated Phase Two Product Transaction.

3.10. Revised ROFO Negotiation Period. If the Offer Response is as set out in Subsection 3.6(iii), Supplier and GM shall, each acting in good faith, for a period of a further one hundred and sixty (160) days (the "Revised ROFO Negotiation Period") negotiate mutually acceptable alterations/amendments/revisions to the terms and conditions set out in the ROFO Notice, including without limitation, the Sale Terms (the "Revised Terms") as well as, to the extent applicable, the binding Commercial Agreement, based on such mutually acceptable Revised Terms, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent.

3.11. End of Revised ROFO Negotiation Period – Offeree Commercial Agreement. If by the end of the Revised ROFO Negotiation Period, Supplier and GM have not negotiated mutually acceptable alterations/amendments/revisions to the terms and conditions set out in the ROFO Notice, including, without limitation, mutually acceptable Revised Terms, or, have not executed and delivered a binding Commercial Agreement based on the mutually acceptable Revised Terms, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent, then Supplier (directly or through an affiliate) shall have a period of one hundred and eighty (180) days after the last day of the Revised ROFO Negotiation Period, to negotiate with an Offeree a Phase Two Product Transaction on terms and conditions that are materially better (considered as a whole package) to Supplier (directly or through an affiliate) than the Suggested Revised Terms set out in the Offeree Notice and to enter into a binding Commercial Agreement with the Offeree, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent. Supplier (directly or through an affiliate) shall not disclose to an Offeree any of the information provided by GM to Supplier in the Offer Response or during the Revised ROFO Negotiation Period. In considering whether the terms and conditions are materially better, the Parties shall take into consideration, among other things, the offtake price, volume, investment quantum, form of investment, timing, execution risk, and government relations. If the Commercial Agreement is

not executed and delivered within such time frame then the ROFO Provisions shall reset and again be applicable.

3.12. Clarification as to Due Diligence. For clarity, it is understood and agreed that the fact that an Offeree may have a right to conduct a due diligence investigation of the Supplier (and/or its applicable affiliates) and/or the Project and to receive customary representations and warranties and indemnities from Supplier shall not be considered for purposes of determining whether the terms are materially better (considered as a whole package) to Supplier.

3.13. Applicability of Article 3. For clarity, it is understood and agreed that the provisions of this Article 3 shall only be operative if the Phase Two Offtake is not executed or is otherwise terminated.

4. Pricing.

4.1. Quarterly Price. Pricing for the Phase One Product, including any Phase One Product produced at the Production Facility prior to the Commencement of Commercial Production, will be set Quarterly (the "Quarterly Price"), as set forth in Section 4.2. Once the Quarterly Price is established, such price will be fixed for the duration of the relevant Quarter, and GM will communicate the Quarterly Price in writing to all GM Buyers purchasing Product during such Quarter, and shall provide a copy of such notice to Supplier. The Quarterly Price shall not include duties, tariffs, taxes, or other government-imposed charges applied to the sale of the Product hereunder, all of which will be invoiced by Supplier and paid by GM or the Designated Purchaser, as applicable.

4.2. Fastmarkets MB Price. The Quarterly Price will be the average Fastmarkets MB Price (the "Fastmarkets MB Price") price per tonne for lithium carbonate, averaged over the prior Quarter (the "Reference Price"), less a discount as calculated in accordance with Section 4.3 (the "Discount"). The Fastmarkets MB Price shall be the average of the daily average price published by Fastmarkets MB LI-0029: Lithium Carbonate 99.5% Li2CO3 min, Battery Grade Spot Price CIF China, Japan and Korea Index ($ per kg) during the applicable reference period. Supplier shall convert the $ per kg reported by Fastmarkets MB to $ per tonne. In the event that (a) the Fastmarkets MB Price ceases to be published, or (b) in the reasonable opinion of either GM or Supplier (i) the Fastmarkets MB Price (or individual transactions within the index) cease to represent, or (ii) an alternative index becomes commercially available that more accurately represents an appropriate arms' length price for the sale and purchase of lithium carbonate of similar quality and in a similar location as the Product, GM and Supplier will negotiate and agree in good faith to a replacement index, the exclusion of certain transactions for a relevant period, or other mutually acceptable means of objectively determining an arms' length basis for pricing of the Product. Notwithstanding the foregoing, the Product shall have a floor price of $12,000 (the "Floor Price") per tonne. Beginning on January 1 of the second calendar year after the Phase One Effective Date, and on January 1 of each calendar year thereafter, the Floor Price shall be adjusted, up

or down, based on the percentage change between the average annual Producer Price Index ("PPI") from the immediately preceding calendar year and the calendar year before that; provided, however, that three months before the tenth anniversary and the fifteenth anniversary, respectively, of the Phase One Effective Date, the Parties shall meet and discuss in good faith and potentially renegotiate the Floor Price and its adjustment structure set forth in this Section 4.2 (upward or downward) based on economics and other relevant factors at that time. Changes, if any, to the Floor Price or related adjustment structure must be mutually agreed to by the Parties. The PPI is defined as the "212 Mining (except oil and gas)" subsector as published by the U.S. Bureau of Labor Statistics.

4.3. Discount. The Discount will be calculated using a weighted average cumulative tiered structure based on the following.

Reference Price (US $/t)	Discount
$15,000 - $24,999	[***]%
$25,000 - $34,999	[***]%
> $35,000	[***]%

For illustration purposes only, if the Reference Price for Product for the prior calendar quarter was $37,500 per tonne, the Discount would be calculated as follows:

Discount = (24,999-15,000)*[***]% + (34,999-25,000)*[***]% + (37,500-35,000)*[***]% = $[***] or [***]%

Discount selling price = $37,500 - $[***] = $[***] per tonne

4.4. Renegotiate Pricing. GM and Supplier shall meet periodically in good faith to discuss and potentially renegotiate the pricing structure set forth in this Section 4 (upward or downward) based on Supplier's actual operating results and reasonable transparency, with consideration to global inflation, operational and investment efficiencies, and other relevant factors over time.

5. Delivery Location, Title, and Incoterms. Product shall be delivered in accordance with Section 2 of the General Terms. If and only if GM and Supplier agree to an Alternate Location (as defined in the General Terms), GM will provide written notice of such Alternate Location to any Designated Purchaser and will provide a copy of such written notice to Supplier.

6. Product Specification.

6.1. Chemical Specifications. The initial specification, packaging, and concentration requirements for the Product are set forth in **Exhibit C** (collectively, the "Specifications"). Final chemical specifications, including inert chemical specifications, will be provided by the GM Buyer no later than twelve (12) months before the Commencement of Commercial Production. Supplier will provide a Certificate of Analysis ("COA") with all deliveries of Product to GM Buyers. The required contents of the COA will be defined in the Specifications, including the results of any required chemical, physical or other performance testing.

6.2. Changes to Specifications. GM and Supplier shall discuss on an annual basis any proposed changes to the Specifications for the following year, in all cases upon at least twelve (12) months' prior written notice. Any changes to the Specifications and timing of implementation of such changes shall be as agreed in writing by the Parties. Any additional processing costs arising from changes to the Specifications requested by GM shall be paid by GM or the Designated Purchaser.

7. Confidentiality.

7.1. Non-Agreement Information. GM does not expect to receive any confidential technical or related information (the "Non-Agreement Information") from Supplier or LAC Parent, and GM will not be subject to confidentiality or nondisclosure obligations with respect to any such Non-Agreement Information (including Section 15 of the General Terms) unless Supplier and LAC Parent on the first hand and GM on the second hand have agreed to confidentiality and nondisclosure obligations in a writing signed by their respective authorized representatives that expressly applies to such Non-Agreement Information (a "Standalone CA"). Supplier and LAC Parent agree not to assert any claim (other than for breach of a Standalone CA) with respect to any Non-Agreement Information that Supplier or LAC Parent has disclosed or may hereafter disclose to GM, the Designated Purchasers, or their respective affiliates and subsidiaries.

7.2. GM Information. Supplier and LAC Parent shall not, and shall ensure that their respective affiliates shall not, publicly disclose any information regarding GM or any of its affiliates, GM's purchase of Phase One Product under this Agreement, or the Designated Purchasers under the Designated Purchaser Agreements (collectively, "GM Information") without the prior written consent of GM, provided, that no consent of GM shall be required for Supplier or LAC Parent to disclose GM Information if such disclosure is required: (i) by applicable securities laws, including, for greater certainty, the rules of any stock exchange upon which securities of Supplier or LAC Parent or any of their respective affiliates are traded; or (ii) to the extent necessary to enforce this Agreement including without limitation for the purposes of dispute resolution as set forth in Section 18 of the General Terms; provided that Supplier or LAC Parent, as the case may be shall (x) to the extent feasible in accordance with the requirements of applicable law, give prior written notice to GM and an opportunity for GM to review and comment on

the requisite disclosure before it is made, including an opportunity for GM to prevent such disclosure and (y) use commercially reasonable efforts to incorporate GM's comments or limit such disclosure, by seeking confidential treatment or otherwise. Any disclosures made by Supplier or LAC Parent pursuant to Section 15 of the General Terms shall comply with the terms of this Section 7.2. This Section 7.2 shall survive for a period of two years following the expiration or termination of this Agreement.

7.3. Notice to Designated Purchaser. Any notice required to be provided by Supplier to a Designated Purchaser pursuant to Section 15 of the General Terms (as will be incorporated into the General Terms attached to any Designated Purchaser Agreement) will contemporaneously be provided by Supplier to GM, and GM shall have all of the same rights as the Designated Purchaser with respect to the disclosure of such confidential information.

8. Sampling and Testing; Material Origin; Special Warnings and Instructions.

8.1. Responsible and Ethical. Supplier represents and warrants that the lithium material mined and supplied to GM will be sourced in a responsible and ethical manner. Supplier will undergo a third party Environmental Social, and Governance ("ESG") independent assessment at Supplier's mining facility pursuant to one of the following two approved responsible sourcing frameworks: (i) the Responsible Minerals Initiative: The Responsible Minerals Assurance Process ("RMAP"); or (ii) the Initiative for Responsible Mining Assurance ("IRMA") Standard for Responsible Mining. In the event that (a) the RMAP or IRMA assessments are no longer available, or (b) in the reasonable opinion of either GM or Supplier (i) the RMAP or IRMA assessment ceases to be a credible independent assessor of responsible sourcing framework, or (ii) another independent, credible assessor becomes available, GM and Supplier will discuss in good faith and may agree in writing to an alternative third party ESG assessment/protocol of Supplier.

8.2. RMAP Assessment. If Supplier selects the RMAP assessment for their mining facility/operations, Supplier will schedule the assessment within six (6) months from the Phase One Effective Date and begin that assessment within one (1) year from the Phase One Effective Date. Supplier shall be fully conformant or carry an active status to this framework throughout the Phase One Term starting one (1) year after the Phase One Effective Date. In each RMAP assessment, Supplier shall incorporate the Responsible Minerals Initiative Environmental, Social and Governance add-on assessment. The results of this ESG assessment will be shared with GM, and GM and Supplier will mutually agree upon any necessary corrective action plan (including timing) to address gaps identified during such assessment.

8.3. IRMA Engagement. If Supplier selects the IRMA Standard for Responsible Mining for its mining facility/operations, the IRMA engagement must include a completed IRMA approved independent third-party audit at Supplier's mine site. This audit shall be completed within eighteen (18) months from the Phase One Effective Date. Following this independent third-party audit, Supplier shall share with GM the results (audit report) of their IRMA audit. GM and Supplier shall mutually agree upon a timeline for resolving (i.e., corrective action plan) any critical requirements that were not fully met during the audit to ensure continuous ESG improvement at the mine site during the Phase One Term.

8.4. Feedstock Supplemented. If, during the Phase One Term, the mine source (feedstock) changes from the initial mine site, or if the initial mine source (feedstock) is supplemented with another mine site, Supplier shall notify GM immediately and shall work with GM to ensure that the responsible sourcing standards set forth in this Section 8 are incorporated at all additional mine site(s).

9. Audit.

9.1. Responsible and Ethical. Supplier represents and warrants that the Product will be processed in a responsible and ethical manner throughout the term of this Agreement. Supplier agrees that its mineral processing facility will be conformant and actively engaged to one of the following two approved independent third party responsible sourcing (i.e., ESG) frameworks (i.e., Standards): (i) the RMAP by the Responsible Minerals Initiative ("RMI"); or (ii) the IRMA Mineral Processing Standard by the Initiative for Responsible Mining Assurance. In the event that (a) the RMAP or IRMA assessments are no longer available, or (b) in the reasonable opinion of either GM or Supplier (i) the RMAP or IRMA assessment ceases to be a credible independent assessor of responsible sourcing framework, or (ii) another independent, credible assessor becomes available, GM and Supplier will discuss in good faith and may agree in writing to an alternative third party ESG assessment/protocol of Supplier.

9.2. Responsible Sourcing. If Supplier elects to satisfy its commitment to responsible sourcing at its mineral processing facility through the RMI framework, Supplier agrees to meet the obligations set forth by the RMI to be conformant or active to the RMAP. Thus, on an annual basis, Supplier agrees to procure an independent third-party responsible sourcing assessment (i.e., audit) at Supplier's mineral processing (i.e., smelting/refining) facility, that will demonstrate to GM that Supplier's management systems and sourcing practices are in conformance with the RMAP standards. The approved responsible sourcing assessment is conducted by the RMI. Through successful completion (conformant or active status) of this assessment, the Supplier will demonstrate alignment to the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict Affected and High-Risk Areas ("OECD Guidance") and the commitments adopted by the RMI in the RMI's Global Responsible Sourcing Due Diligence Standard for Mineral Supply Chains All Minerals, and be assessed by an independent, RMI-approved third-party auditor. Supplier agrees that its processing facility shall be fully

conformant or carry an active status to this framework throughout the term of this Agreement starting one (1) year after the Execution Date.

9.3. RMI ESG Add On Assessment. In each RMAP assessment, Supplier also agrees to incorporate at its mineral processing facility the RMI ESG add-on assessment. The results of this ESG assessment will be shared with GM, and GM and Supplier will mutually agree upon any necessary corrective action plan (including timing) to address gaps identified during such assessment.

9.4. Engagement with IRMA. If Supplier chooses to satisfy its commitment to responsible sourcing at its mineral processing facility through active engagement with the IRMA Mineral Processing Standard, such commitment shall require completion of IRMA's Mineral Processing Standard by an independent third-party auditor (i.e., not a self-assessment) at Supplier's mineral ore processing facility. This audit shall be completed within eighteen (18) months after the Phase One Effective Date. Following this third-party audit, Supplier shall share with GM the results (audit report) of the IRMA audit. GM and Supplier shall mutually agree upon a timeline for resolving (i.e., corrective action plan) any critical requirements that were not fully met during the audit to ensure continuous ESG improvement at the mineral processing facility over the term of this Agreement.

9.5. Artisanal or Small Scale Mining. Supplier will: (a) promptly notify GM if Supplier becomes aware of any instance of artisanal or small-scale mining lithium or lithium-containing product entering Supplier's operations or supply chain related to this Agreement; (b) promptly notify GM if Supplier becomes aware of any instance of a subcontractor of Supplier providing any materials or services related to this Agreement failing to comply with any material provision of Supplier's standards; (c) promptly notify GM of the occurrence of any event where Supplier's compliance officer is notified of any event that is likely to negatively affect people, environment or company reputation relating to this Agreement together with an explanation of Supplier's prevention and mitigation plan for same; and (d) promptly notify GM of any NGO or media requests relating to Supplier's supply of Product to GM, and will fully cooperate with GM in preparing a response thereto.

9.6. Media Requests. If GM notifies Supplier of any NGO or media requests relating to Supplier's supply of Product to GM, Supplier will fully cooperate with providing to GM such information as GM reasonably requests for GM's use in preparing a response thereto. The Parties will mutually agree on any information provided by Supplier in accordance with this provision prior to disclosure of such information.

10. Inflation Reduction Act Considerations.

10.1. Lithium Processing Location. Supplier acknowledges that the Product will be used to manufacture or assemble Lithium-Ion Batteries that will ultimately be incorporated by GM into vehicles that may be eligible for a "Clean Vehicle Credit" under Section 30D of the Internal Revenue Code of 1986, as amended (the "Code"). The lithium is processed into carbonate in Thacker Pass, Nevada. Supplier will not

change the lithium processing location without first obtaining GM's advance written consent which shall not be unreasonably delayed or withheld. The Parties agree that GM may reasonably consider such alternate location's impact on the GM vehicles into which the Product is incorporated qualifying for the Clean Vehicle Credit. For clarity, written consent to relocate the lithium carbonate processing must be obtained directly from GM notwithstanding any agreement(s) pursuant to which a Designated Purchaser actually purchases the Product. Supplier covenants and agrees that the Product will not be extracted, processed or recycled by a foreign entity of concern, as described in Section 30D of the Code. Supplier agrees to provide GM with information and detail as is reasonably requested by GM to support GM's calculations and certifications in order for GM to maximize the Clean Vehicle Credits under Section 30D of the Code. Supplier further agrees to exercise reasonable effort in good faith to enable GM to maximize the Clean Vehicle Credits under Section 30D of the Code.

10.2. Lithium Extraction Attestations.

Supplier covenants and agrees that no portion of the lithium will be extracted, processed or recycled by a foreign entity of concern, as such term is defined in Section 30D of the Code. Supplier will provide attestations, signed by an officer of Supplier, that such lithium was not extracted, processed or recycled by a foreign entity of concern under Section 30D of the Code. Such attestation shall be in form and substance acceptable to GM and consistent to satisfy GM's obligations under Section 30D of the Code, including any regulations, notices or guidance thereunder.

11. Access to Information, ESG Committee and Annual Review.

11.1. Access to Information.

GM will have access and information rights to Supplier's Thacker Pass location and Supplier will permit GM and the Designated Purchasers a minimum of four (4) aggregated and a maximum of eight (8) aggregated site visits to Thacker Pass (only) per year. GM will comply with all health and safety regulations of Supplier. Such site visits will be at the sole risk, cost and expense of GM. GM shall give Supplier a minimum of 72 hours prior written notice in advance of each site visit. Each such site visit shall not interfere with the operations of Supplier. To the extent Supplier changes or adds a new lithium processing location in accordance with Section 10.1 of this Agreement, GM's rights pursuant to this Section 11.1 shall also apply to such additional locations. These access and information rights shall include access to Supplier's premises and books and records for the purpose of auditing Supplier's compliance with the terms of this Agreement and any Designated Purchaser Agreement (including, without limitation, charges under this Agreement and any Designated Purchaser Agreement) or inspecting or conducting an inventory of finished Products, work-in-process, raw materials, and all work or other items to be provided pursuant to this Agreement located at Supplier's premises. Supplier will cooperate with GM and the Designated Purchasers so as to facilitate such audit, including, without limitation, by segregating and promptly producing such records

as GM and any Designated Purchaser may reasonably request, and otherwise making records and other materials accessible to GM and any Designated Purchaser. Supplier will preserve all records pertinent to this Agreement and any Designated Purchaser Agreement, and Supplier's performance under this Agreement and any Designated Purchaser Agreement, for a period of not less than one year after any GM Buyer's final payment to Supplier under this Agreement and any Designated Purchaser Agreement. Any such audit or inspection conducted by GM and any Designated Purchaser or their representatives will not constitute acceptance of any Products (whether in progress or finished), relieve Supplier of any liability under this Agreement or any Designated Purchaser Agreement or prejudice any rights or remedies available to GM.

11.2. ESG Committee.

GM and Supplier will establish an ESG committee (the "ESG Committee") to collaborate on key initiatives such as responsible sourcing. The ESG Committee will meet at least once per Quarter, unless otherwise mutually agreed by the Parties.

11.3. Annual Review Meetings.

The Supplier and GM shall meet at least once per calendar year during the Phase One Term as reasonably appropriate on a date and location mutually agreeable to the Supplier and GM (each a "Review Meeting"). At each Review Meeting the Supplier and GM shall seek to address and discuss any outstanding issues under this Agreement, including without limitation, the reconciliation of purchase orders with respect to the then current Annual Quantity.

12. Compliance Obligations.

Supplier will use all reasonable endeavors to at all times comply with GM's Supplier Code of Conduct, GM's Human Rights Policy and GM's Responsible Minerals Sourcing Policy, attached to this Agreement as **Exhibit D**. Supplier also agrees to trace the source and origin of all components of the Product, and to provide to GM all information and documentation reasonably requested by GM resulting from such supply chain mapping.

13. Order of Precedence.

To the extent of any inconsistency between this Agreement, the Designated Purchaser Agreements, and the General Terms, such agreements will have the following order of precedence: (i) first, this Agreement, (ii) second, the General Terms, and (iii) third, the Designated Purchaser Agreements.

14. Termination.

14.1. Termination for Cause. The occurrence of any one or more of the following events will be an "Event of Default" upon the defaulting Party's receipt of written notice of the occurrence of such event from another Party and the expiration of any applicable cure period provided below.

(A) Events of Default as set forth in Section 17 of the General Terms.

(B) Supplier fails to comply with any of its obligations set forth in Section 8 or Section 9 of this Agreement and such failure continues for at least thirty (30) Business Days and, if Supplier is diligently pursuing such a cure at the expiration of such thirty (30) Business Day period, Supplier shall be granted an additional thirty (30) Business Day period to effect such cure.

(C) Any LAC Party enters into a Joint Venture contemplated by the provisions of Section 16.7(C)(1) without GM's prior written consent. In such instance, GM shall have thirty (30) Business Days from the date GM becomes aware of the entry of such a Joint Venture to provide the LAC Parties with notice of termination pursuant to this Section 14.1.

(D) Any LAC Party enters into a Project Sale contemplated by the provisions of Section 16.7(D)(1) without GM's prior written consent. In such instance, GM shall have thirty (30) Business Days from the date GM becomes aware of such a Project Sale to provide the LAC Parties with notice of termination pursuant to this Section 14.1.

(E) Upon the occurrence of a Change of Control of any LAC Party to a Restricted Person which occurs without the consent of GM. To the extent that the foregoing occurs without the prior written consent of GM, GM shall have thirty (30) Business Days from the date GM becomes aware of the foregoing to provide the LAC Parties with notice of termination pursuant to this Section 14.1(E).

Upon the occurrence of an Event of Default by a Party, the non-defaulting Party (i.e. the Parties for the purposes of this Section, being the LAC Parties on the first hand and GM on the second hand) may elect to terminate this Agreement, for cause, in whole or in part, by notice of termination to the defaulting Party.

14.2. Other Permitted Termination. GM may terminate this Agreement, without liability owing to or due from any LAC Party, upon the occurrence of a Change of Control of any LAC Party to a GM Competitor or a GM Competitor Nominee, which occurs without the prior written consent of GM. To the extent that the foregoing occurs without GM's prior written consent, GM shall have thirty (30) Business Days from the date GM becomes aware of the foregoing to provide the LAC Parties with notice of termination pursuant to this Section 14.2.

14.3. [*Intentionally Deleted*].

15. Default By Designated Purchaser.

Any Event of Default by a Designated Purchaser pursuant to the terms of a Designated Purchaser Agreement shall not constitute a default by GM under this Agreement, and shall not constitute grounds for Supplier to terminate this Agreement.

16. General Terms.

16.1. Interpretation. All references to dates or time of day are references to the date or time of day in New York, New York. "Dollars" and "$" means United States Dollars.

16.6. No *Contra Proferentem*. The Parties are competent and experienced in business, and have negotiated and reviewed this Agreement with their counsel. Any ambiguous language in this Agreement should therefore not be construed against any Party as the drafter of that language.

16.7. Permitted Transfers/ Successors and Assigns.

(A) The following definitions are used for the purposes of this Section 16.7 and as applicable, throughout the other provisions of this Agreement. However, for clarity if a transfer or assignment is not expressed as being specifically prohibited pursuant to the terms of this Agreement, then it is not prohibited hereunder.

(C) Joint Ventures For Subject North American Business

(1) Supplier shall not, and shall ensure that its affiliates (including without limitation, LAC Parent) do not, without the prior written consent of GM, establish a Joint Venture with a Joint Venture Participant who is a Non Permitted Party with respect to the Subject North American Business, regardless of whether such Non Permitted Party enters into any offtake or similar agreement for any lithium produced at the Thacker Pass Project. Supplier and LAC Parent acknowledge and agree that any consent granted by GM to enable the consummation of any such Joint Venture shall not waive or otherwise diminish any of GM's rights under Section 2 or Section 3, or otherwise under this Agreement. It is acknowledged that if GM grants its prior written consent to a Joint Venture under this Section 16.7(C)(1), Supplier and LAC Parent shall have the right to assign this Agreement, in whole or in part, to the Joint Venture pursuant to an agreement under which, such Joint Venture assumes in writing all duties and obligations under this Agreement (to the extent that the assumption of the obligations under this Agreement by the Joint Venture do not happen by operation of law). Moreover, if the Joint Venture entails the ownership of more than 50% of the shares of Supplier, any such right to assign this Agreement in whole or in part shall include the right to assign this Agreement to the new

shareholder of Supplier and, to the extent applicable, the corporate entity that is at the top of the corporate chain of the new shareholder.

(2) Supplier and any of its affiliates (including without limitation, LAC Parent) may enter into a Joint Venture with a Joint Venture Participant who is a Permitted Party with respect to the Subject North American Business, regardless of whether such Permitted Party may have a right to purchase or otherwise obtain lithium under an offtake or similar agreement produced at the Thacker Pass Project. For the avoidance of doubt, any such Joint Venture shall not be subject to Section 3.3 of the Investor Rights Agreement and GM shall not have a Participation Right (as defined in the Investor Rights Agreement) with respect to such Joint Venture. This Section 16.7(C)(2) shall not waive or otherwise diminish any of GM's rights under Section 2 or Section 3, or otherwise under this Agreement. It is acknowledged that the Supplier and LAC Parent shall have the right to assign this Agreement in whole or in part to the Joint Venture pursuant to an agreement under which such Joint Venture assumes in writing all duties and obligations under this Agreement (to the extent that the assumption of the obligations under this Agreement by the Joint Venture do not happen by operation of law) provided that such assignment will not relieve the assignor of its obligations hereunder. Moreover, if the Joint Venture entails the ownership of more than 50% of the shares of Supplier, any such right to assign this Agreement in whole or in part shall include the right to assign this Agreement to the new shareholder of Supplier and, to the extent applicable, the corporate entity that is at the top of the corporate chain of the new shareholder. GM shall act reasonably in considering requests from Supplier and LAC Parent, as the case may be, to be relieved of their respective obligations hereunder (in whole or in part), which requests may be both prior to or after the consummation of any applicable Joint Venture.

(D) Sale of the Thacker Pass Project

(1) Supplier shall not, and shall ensure that its affiliates (including without limitation, LAC Parent) do not, without the prior written consent of GM, directly or indirectly, sell all or a material portion of the Thacker Pass Project, regardless of the structure of such sale, whether through sale of equity, sale of assets, or a statutory plan of arrangement, merger or other business combination, and whether in a single transaction or a series of related transactions (so long as such structure is not a Joint Venture or a Change of Control in that those are governed by other Sections of this Agreement as contemplated in Section 16.7(D)(4)) (any such transaction(s), a "Project Sale"), to a transferee (a "Transferee") that is a Non Permitted Party. If GM grants its prior written consent, Supplier and

LAC Parent shall have the right to assign this Agreement to the Transferee pursuant to an agreement under which such Transferee assumes in writing all duties and obligations of the LAC Parties under this Agreement.

(2) Supplier and LAC Parent may, without the prior written consent of GM, consummate a Project Sale with a Transferee that is a Permitted Party and assign this Agreement to the Transferee pursuant to an agreement under which such Transferee assumes in writing all duties and obligations of the LAC Parties under this Agreement.

(3) Supplier and LAC Parent shall give GM at least five (5) Business Days prior notice (a "Project Sale Notice") of the execution and delivery of a definitive agreement giving effect to the Project Sale by Supplier or its applicable affiliate, including without limitation, LAC Parent (but in any event at least thirty (30) days prior to the consummation of the Project Sale). The Project Sale Notice shall contain reasonable detail with respect to the proposed Transferee, and Supplier and LAC Parent shall respond to GM's reasonable requests for additional information regarding the facts, circumstances, terms and conditions of the proposed Project Sale, to enable GM to identify whether the Transferee is a Permitted Party or a Non Permitted Party.

(4) It is understood and agreed that this Section 16.7(D) does not apply to: (i) a Joint Venture transaction (as a Joint Venture transaction is covered by Section 16.7(C)); or (ii) a transaction that is a Change of Control (as a Change of Control transaction is covered by Section 14.2); and none of the foregoing references in this Section 16.7(D)(4) constitutes a Project Sale for the purposes of this Section 16.7(D).

(E) GM shall not have the right to sell, assign or transfer, directly or indirectly, in whole or in part, its rights and obligations under this Agreement, other than to a Designated Purchaser as provided herein.

(F) Save and except as expressly permitted by the provisions of Section 14.2, Section 14.3, Section 16.7(C) and Section 16.7(D), Supplier and LAC Parent shall not have the right to sell, assign or transfer, directly or indirectly, in whole or in part, their respective rights and obligations under this Agreement.

(G) This Agreement and all of the Parties' obligations are binding upon their respective successors and permitted assigns, and, together with the rights and remedies of the Parties under this Agreement, inure to the benefit of the Parties and their respective successors and permitted assigns.

(H) Change of Control of Supplier. Neither Supplier nor LAC Parent shall, without the prior written consent of GM, solicit offers for, participate in discussions or negotiations relating to, furnish any documentation or other information relating to, or enter into a Change of Control of Supplier or LAC Parent to a Restricted Person.

(I) Injunctive Relief. Supplier and LAC Parent acknowledge and agree that money damages will not be a sufficient remedy for any actual or threatened breach of this Section 16.7 by Supplier or LAC Parent and that, in addition to all other rights and remedies that GM may have, GM will be entitled to specific performance and temporary, preliminary and permanent injunctive relief in connection with any action to enforce this Section 16.7, without any requirement of a bond or other security to be provided by GM.

16.8. No Third-Party Beneficiaries. Except as otherwise provided herein, the Parties agree that this Agreement is intended to benefit solely the Parties to this Agreement and is not intended for the benefit of any third parties.

16.9. No Waiver. The failure of a Party at any time to require performance by another Party of any provision of this Agreement will in no way affect the right to require such performance at any time thereafter, nor will the waiver of a Party of a breach of any provision of this Agreement constitute a waiver of any succeeding breach of the same or any other provision.

16.10. Cumulative Remedies. The rights and remedies specified in this Agreement are cumulative and not exclusive of any rights or remedies that a Party would otherwise have.

16.11. Survival. Any Sections that expressly or by their nature survive expiration or termination shall survive the expiration or termination of this Agreement.

16.12. Severability. If any term of this Agreement is invalid or unenforceable under applicable law or regulation, such term will be deemed reformed or deleted, as the case may be, but only to the extent necessary to comply with such applicable law or regulation, and the remaining provisions of this Agreement will remain in full force and effect.

16.13. No Agency. The LAC Parties on the one hand and GM on the other hand are independent contracting parties and nothing in this Agreement will make either such Party the agent or legal representative of the other for any purpose whatsoever, nor does it grant either such Party any authority to assume or to create any obligation on behalf of or in the name of the other.

16.14. Cooperation. Each of the Parties agrees to reasonably cooperate with the other Parties and to take all additional actions that may be reasonably necessary to give full force and effect to this Agreement.

16.15. Counterparts. This Agreement may be executed in any number of duplicate originals or counterparts, and each duplicate original or counterpart will be deemed an original and taken together will be one and the same instrument. The Parties agree that their respective signatures may be electronically delivered, and that such electronic transmissions will be treated as originals for all purposes.

16.16. General Terms. References in the General Terms to the "Contract" shall mean this Agreement, including, without limitation, all terms, provisions, sub-parts, sections and exhibits, and any documents incorporated by reference herein including, but not limited to, the General Terms. References in the General Terms to "Buyer" shall mean the applicable GM Buyer. Capitalized terms used in the General Terms but not defined therein shall have the meanings given to such terms in this Agreement.

16.17. Traceability. Supplier must trace the source and origin of all goods and materials to be used in connection with this Agreement and make such information available to GM for prior written approval before any such direct or indirect supplier may be used in connection with this Agreement (the "Supply Chain Map"). Supplier will not change the source or origin of any goods or materials identified in the Supply Chain Map without first obtaining GM's advance written consent. For clarity, written consent to change the source or origin of any goods or materials identified in the Supply Chain Map must be obtained directly from GM.

Supplier will put policies and process in place to obtain sourcing and origin information from sub-tier suppliers and include all such information in the Supply Chain Map upon receipt. Supplier will proactively, and on an ongoing basis, monitor the source and origin of all goods and material used in connection with this Agreement. Supplier must obtain GM's prior written consent to the procurement of any goods or materials used in connection with this Agreement that originate or are otherwise extracted, processed, recycled, manufactured or assembled, in whole or in part:

(i) by an FEOC; or

(ii) in a territory identified in Country Group D, Supplement No. 1 to 15 C.F.R. Part 740: (see https://www.bis.doc.gov/index.php/documents/regulation-docs/2255-supplement-no-1-to-part-740-country-groups-1/file). Egypt, Israel, United Arab Emirates, Uzbekistan and Vietnam are excluded from the Country Group D supplement. GM may, in its discretion, authorize purchases *from such other Group* D territories for which a risk mitigation plan is approved by GM.

Supplier will comply with all applicable GM policies, as amended, relating to supply chain resiliency and compliance. Supplier will incorporate, and require its subcontractors at all tiers to incorporate, these terms and any applicable GM policy in its contract for goods or materials used in connection with this Agreement.

GENERAL TERMS AND CONDITIONS

1. Shipping; Packaging

Supplier will comply, in all respects, with the shipping and packaging requirements agreed to by Buyer and Supplier and as incorporated in this Contract by reference. Supplier will (a) properly pack and mark Product in accordance with the laws and regulations of the country of manufacture, including, without limitation, laws and regulations governing the handling and transportation of dangerous goods or hazardous materials; (b) provide with each shipment packing slips with Buyer's Contract and/or release number and date of first loading marked thereon; (c) promptly forward the original bill of lading or other shipping documents for each shipment in accordance with Buyer's instructions; and (d) include on bills of lading or other shipping documents the correct classification of the goods. The marks on each package and identification of the goods on packing slips, bills of lading and invoices (when required) must be sufficient to enable Buyer to easily identify the goods purchased.

2. Transfer of Title

Supplier shall ship the Product FCA Thacker Pass (Incoterms 2020) or FCA an alternate location (an "Alternate Location") provided in a writing sent from GM to Buyer (in the event Buyer is a Party other than GM) with a copy to Supplier. Title to and risk of loss of the Product shall transfer to Buyer at the time of first loading onto Buyer's transport of the Product by Supplier at Thacker Pass or the Alternate Location. All risk for loss of Product after such first loading of the Product by Supplier at Thacker Pass or the Alternate Location shall pass to Buyer and shall not be borne by Supplier.

3. Protection Against Labor Disruptions

Supplier will use its best efforts to ensure the uninterrupted supply of Product to Buyer notwithstanding any existence of a labor disruption.

4. Subcontracting

None of the Parties will subcontract in whole or in part any of its obligations under this Contract without the prior written consent of the other Party. Any such consent will not release the applicable Party from, or limit, any of such Party's obligations under this Contract. For clarity, it is understood and agreed that the operation of the Thacker Pass Project, including the loading of finished goods, may entail the use of subcontractors and such use shall not be in breach of this clause.

5. Product Warranty; Warranty of Performance

Supplier warrants and guarantees that the goods sold under this Contract shall be merchantable, conform with all Specifications, and are free and clear of all liens other than those that may arise by operation of law, that the goods will be released in connection with the Certificate of Analysis ("COA") that Supplier will provide with all deliveries of goods to Buyer, and will comply with applicable laws (the "Warranty"). The Warranty (other than being merchantable and free and clear of all liens other than those that may arise by operation of law) does not extend to Off Spec Product

that is retained by Buyer. The duration of the Warranty will begin on the date the title and risk of loss for such goods passes to Buyer in accordance with Section 2 of this Contract (the "Title Transfer Date") and end on the earlier of (the "Warranty End Date"): (a) [***] from the Title Transfer Date; or (b) upon incorporation of such goods into another product of Buyer to the extent such incorporation alters the goods so as to make the analysis required to validate the COA unachievable. Other than in the event of Supplier's gross negligence or willful, wanton, or reckless misconduct, after the Warranty End Date, Supplier shall not be required to accept any claim with respect to the Warranty. Buyer agrees that to the extent practicable it shall notify Supplier within fifteen (15) Business Days of becoming aware that a Warranty Claim may be alleged by Buyer. Except as expressly set forth in this Contract, the Warranty is irrevocable by Supplier, and Supplier may not limit or disclaim the Warranty.

In the event Buyer provides written notification to Supplier (the "Specification Notice") of variation of Product from the Specifications, with such notice to be delivered within the later of: (a) 180 days of title passing from Supplier to Buyer as provided in Section 2; or (b) if the Product was stored unused at a facility reasonably acceptable to Supplier, within 45 days of the date the Product is removed from such storage (the "Cut Off Date"), Buyer shall not be obligated to purchase and take delivery of the relevant shipment; provided, however, Supplier and Buyer will consult each other and shall negotiate in good faith (for a period of five (5) Business Days after the date of delivery of the Specification Notice) whether Buyer will accept the Product with appropriate price reductions (the "Off Spec Product") or whether Buyer shall return the Off Spec Product to Supplier at Thacker Pass (or the Alternate Location if loaded at the Alternate Location), such return to be at the cost and expense of Supplier. If such negotiations do not culminate in agreement after the end of such period of five (5) Business Days after the date of delivery of the Specification Notice, Buyer shall immediately return the Off Spec Product to Supplier, such return to be at the cost and expense of Supplier. In all cases, Buyer and Supplier will work together in good faith to minimize return shipping costs. In the event Buyer provides Supplier with a Specification Notice after Buyer has paid for the Product, and such Product is returned to Supplier in accordance with this Section 5, Buyer shall receive either a refund of the amount paid for the Product or a credit from Supplier in the amount that was paid for the Product, provided, however, that if Supplier has replacement Product available, Buyer may elect to receive replacement Product instead of the refund or credit.

Product to be delivered hereunder (with the exception of Off Spec Product that is accepted by Buyer) shall not: (i) contain extraneous materials; (ii) contain elements or substances at levels or in concentrations dangerous or harmful to health, safety, the environment or generally considered in the lithium industry to be deleterious or harmful or (iii) exhibit physical properties or characteristics which differ from industry standards for comparable products in the marketplace to a degree or in a manner which results in Buyer having to incur increased costs of transporting, storing or handling the Product (collectively, the "Prohibited Characteristics"). For greater certainty, the presence in Product of any element or compound in quantities within the ranges specified in the Product Specifications shall not constitute a Prohibited Characteristic. Both Parties understand the hazards and handling of the Product and will follow industry and local governmental practices and standards for handling.

6. Ingredients Disclosure; Special Warnings and Instructions

At least ten (10) Business Days prior to, as well as in connection with, the shipment of the Product from Thacker Pass or the Alternate Location, as the case may be, Supplier agrees to furnish to Buyer written warning and notice (including, without limitation, appropriate labels on the goods, containers and packing) of any dangerous goods or hazardous material that forms part of any shipment of Products, together with such special handling instructions as may be necessary to advise carriers, Buyer, and their respective employees of how to exercise that measure of care and precaution that will comply with any applicable laws or regulations and best prevent bodily injury or property damage in the handling, transportation, processing, use or disposal of the Products, containers and packing shipped to Buyer from Thacker Pass or the Alternate Location.

7. Payment

Promptly after each shipment of goods from Thacker Pass or the Alternate Location, as the case may be, Supplier will issue a single invoice for the shipped Products. Each invoice must comply with applicable law, if any, and include the following information: (a) amount due (in the currency specified in this Contract); (b) Contract number; (c) if applicable, purchase order number; (d) if applicable, the intra-EU VAT number; and (e) net weight of the goods.

Buyer will pay for the Product in accordance with the payment terms and in the currency specified elsewhere in this Contract. Payments may be made electronically (including, without limitation, by bank transfer or recorded bill of exchange, where applicable).

8. Customs; Origin

Credits or benefits resulting or arising from this Contract, including trade credits, export credits or the refund of duties, taxes or fees, will belong to Buyer to the extent Buyer pays such duties, taxes or fees directly or those duties, taxes, or fees are passed along to Buyer in the contract price. To the extent Supplier pays and does not pass along to Buyer such duties, taxes or fees, any applicable credits or refunds will belong to Supplier. Supplier will timely and accurately provide all information necessary (including written documentation and electronic transaction records) to permit Buyer to receive such benefits or credits, if Buyer pays such duties, taxes or fees either directly or indirectly, as well as to fulfill its import and, where required by this Contract, export customs related obligations, origin marking or labeling requirements and local content origin requirements, if any. Supplier will undertake such arrangements as necessary for the goods to be covered by any duty deferral or free trade zone program(s) of the country of import. Supplier will ensure compliance with the recommendations or requirements of all applicable Authorized Economic Operator (AEO), governmental security/anti-terrorism and enhanced border release programs (including, without limitation, the United States Bureau of Customs and Border Protection's Customs-Trade Partnership Against Terrorism (C-TPAT)). At the request of Buyer or the appropriate Customs Authority, Supplier will certify in writing its compliance with the foregoing.

9. Transactional Tax

Unless otherwise provided in this Contract, the prices set forth in this Contract will be exclusive of all transactional taxes, including any sales, use, excise, services, value added tax, goods and services tax, or similar tax, and these taxes should be separately identified by Supplier in Supplier's invoice, even if the tax rate is zero. Buyer will not be responsible for any transactional taxes charged by the Supplier that are not identified in this manner. Supplier shall separately state all charges for transactional taxes on its invoices (or other such documents). Additionally, Supplier shall provide Buyer with invoices in line with the applicable tax laws in its country to enable the Buyer to reclaim the transactional taxes and Supplier will provide such documentation no later than when the payment to which the invoice relates is due from Buyer. Supplier will be responsible for remitting the transactional tax to the applicable taxing authority except for those states or jurisdictions where Buyer has provided Supplier with an appropriate exemption certificate. Supplier will use reasonable efforts to apply for such exemptions where applicable. Supplier will not charge Buyer for any transactional taxes charged by a subcontracting supplier if such tax is recoverable by Supplier, or if not recoverable, it would have been, had the transaction been structured through other entities (either the Supplier's or the Buyer's affiliated companies). If transactional taxes are not recoverable by Supplier, Supplier agrees to provide detailed billing, customs or other documents as requested, which set out the transactional taxes paid or payable to any of the Buyer's subcontracting supplier or to a taxing authority.

10. Intellectual Property Indemnification

The LAC Parties will investigate, defend, hold harmless and indemnify Buyer, its successors, its affiliates (collectively "Buyer Group") and its dealers and customers against any actual or alleged claims of infringement or other assertions of proprietary rights violations (including patent, trademark, copyright, industrial design right, or other proprietary right, misuse, or misappropriation of trade secret) and resulting damages and expenses (including attorney's and other professional fees) arising in any way in relation to the Products (collectively "IP claims"). The LAC Parties expressly waives any claim against Buyer Group that any such IP claims arose out of compliance with Buyer Group's or its dealers' or customers' specification or direction.

11. Remedies; Indemnity

The rights and remedies reserved to each Party in this Contract are cumulative with, and additional to, all other rights and remedies of each Party under applicable law or in equity. It is understood and agreed that for the purposes of this Section 11 (Remedies; Indemnity), Section 12 (Force Majeure), Section 15 (Confidentiality), Section 16 (Compliance with Laws), Section 17 (Termination For Cause) and Section 18 (Governing Law and Jurisdiction), LAC Parent and Supplier act as one Party.

Notwithstanding anything else to the contrary in this Contract, and save in respect of: (i) liability for fraud, death or personal injury caused by gross negligence or willful misconduct; or (ii) liability for infringement or other proprietary rights violations (including patent, trademark, copyright, industrial design right, or other proprietary right, misuse, or misappropriation of trade secret) arising in any way in relation to the Product, neither Party shall in any circumstances be liable to the other Party as a result of its performance of, or failure to perform, this Contract or any provision

in this Contract, whether in contract, tort or breach of statutory duty or howsoever arising for (a) any loss of profit, anticipated profit or revenue (with respect to the foregoing, save and except for failures by Buyer to make payments for Product as anticipated by this Contract, the losses for which are specifically not excluded and are included), any loss of savings or anticipated savings, any loss of production, any loss of use, any loss of contract or business opportunity, any loss of or damage to goodwill or any business interruption, whether of a direct or indirect nature, (b) any special, indirect and/or consequential losses, or (c) punitive, exemplary or special damages.

Each Party (a "First Party") will indemnify, defend and hold harmless the other Party against any liability, claim, demand and expense (including, without limitation, legal and other professional fees) arising from or relating to any failure of the First Party to fully perform any of its obligations under this Contract.

12. Force Majeure

Any delay or failure of either Party to perform its obligations under this Contract will be excused to the extent that Supplier is unable to produce, sell or deliver, or Buyer is unable to accept delivery, buy or use, the goods or services covered by this Contract, directly as the result of an event or occurrence beyond the reasonable control of such Party, without such Party's fault or negligence (a "force majeure event"), including, if applicable, actions by any governmental authority (whether valid or invalid), fires, floods, windstorms, explosions, riots, natural disasters, wars and sabotage; provided that written notice of such force majeure event (including the anticipated duration of the delay) must be given by the affected Party to the other Party as soon as possible (but in no event more than 20 days after the force majeure event occurs).

During any force majeure event affecting Supplier's performance, Buyer may, at its sole option: (i) purchase Product from other sources, without liability to Supplier; and/or (ii) reduce the volumes set forth in any forecast by the amount of Product purchased from such other sources; provided that Supplier may sell Product to third parties to the extent of such Buyer purchases from other sources.

The affected Party will use all diligent efforts to ensure that the effects of any force majeure event are minimized and, as promptly as possible, resume full performance under this Contract. If the delay lasts more than twelve (12) months from notice of the force majeure event being given, either Party may immediately terminate this Contract without liability to either Party.

13. Insurance

Supplier will maintain insurance coverage as would a prudent mine operator in the State of Nevada. Supplier shall insure its interest in the Product for full value for damage or loss arising until title and risk pass to the Buyer as provided in Section 2 with an insurance company rated 'A-' or higher by AM Best.

14. Technical Information

Buyer does not expect to receive any confidential technical or other information (the "Non-Contract Information") from the LAC Parties, and Buyer will not be subject to confidentiality or nondisclosure obligations with respect to any such information (including under Section 15 hereof) unless the LAC Parties and Buyer have agreed to confidentiality and nondisclosure obligations in a writing signed by their respective authorized representatives that expressly applies to such Non-Contract Information (a "Standalone CA"). The LAC Parties agree not to assert any claim (other than for breach of a Standalone CA) with respect to any Non-Contract Information that the LAC Parties have disclosed or may hereafter disclose to Buyer or its affiliates and subsidiaries.

15. Confidentiality; No Advertising

The Parties agree that the contents of this Contract are confidential and not intended for use or dissemination by either Party without the express written consent of the other Party. For the purposes of this Section 15 a Party making disclosure together with its affiliates and representatives is a "Disclosing Party" and the non-Disclosing Party is an "Affected Party".

A Disclosing Party may disclose the existence and terms of this Contract (the "Disclosure Exceptions"): (i) to the extent required by law (including the rules of any applicable stock exchange), or by any governmental agency or required or requested to be disclosed pursuant to legal process (including discovery requests) or in connection with any bankruptcy, insolvency, or similar proceeding involving either of the Parties, provided that the Disclosing Party shall (A) immediately upon receiving notice that it is required to make a disclosure under law or stock exchange rules, give the Affected Party prior written notice and an opportunity of not less than 48 hours for the Affected Party to review and comment on the requisite disclosure before it is made, including an opportunity for the Affected Party to prevent such disclosure, (B) use its best efforts to incorporate the Affected Party's comments or limit such disclosure, by seeking confidential treatment or otherwise, and (C) promptly provide the Affected Party with notice of any requirement to provide any such information, regardless of when such disclosure shall be made; (ii) to the extent necessary to enforce this Contract including, without limitation, for the purposes of dispute resolution as set forth in Section 18; (iii) to any designated purchaser, employee, officer, director, agent, affiliate, representative, lawyer, investor, broker, potential transferee, financier, partner, member, shareholder or actual or potential financing source of the Disclosing Party or that Disclosing Party's affiliates (but not its representatives) provided that any such person or entity must be, prior to the disclosure, subject to confidentiality obligations that are the same as or more restrictive than the confidentiality obligations in this Contract and that the Disclosing Party disclosing such information to them will be responsible for any breach thereof; and (iv) to the extent such information is or becomes generally available to the public other than as a result of a disclosure by the Disclosing Party in violation of this Contract.

Unless required by applicable law or pursuant to any rules or regulations of any applicable securities exchange, neither Party will in any manner, without first obtaining the other Party's consent, which consent will not be unreasonably withheld or delayed: (i) advertise or publish the fact that Supplier has contracted to furnish Buyer the Product; (ii) use the other Party's trademarks, trade names or confidential information in such Party's advertising or promotional materials; or (iii) use the other Party's trademarks, trade names or confidential information in any form of

electronic communication such as web sites (internal or external), blogs or other types of postings, except as may be required to perform hereunder or as required by law. Any announcement made by the Parties in relation to the execution of this Contract will be agreed in advance by the Parties.

16. Compliance with Laws

Supplier, and any goods or services supplied by Supplier, and Buyer, in connection with its obligations under this Contract, will comply with all applicable laws, rules, regulations, orders, conventions, ordinances or standards of the country(ies) of destination or that relate to the manufacture, labeling, transportation, importation, exportation, licensing, approval or certification of the Product, including, without limitation, those relating to environmental matters, the handling and transportation of dangerous goods or hazardous materials, data protection and privacy, wages, hours and conditions of employment, subcontractor selection, discrimination, occupational health/safety and motor vehicle safety. Supplier, in all respects, and Buyer, in connection with its obligations under this Contract, further represent that neither they nor any of their subcontractors, vendors, agents or other associated third parties will utilize child, slave, prisoner or any other form of forced or involuntary labor, or engage in abusive employment or corrupt business practices, in the supply of Product under this Contract. Supplier, in all respects, and Buyer, in connection with its obligations under this Contract, agree to comply with all applicable anti-corruption laws, including, without limitation, the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act, and that neither they nor any of their subcontractors, vendors, agents or other associated third parties will engage in any form of commercial bribery, nor directly or indirectly provide or offer to provide, anything of value to or for the benefit of, any official or employee of a governmental authority or of any government-owned, government-controlled or government-affiliated entity to obtain or retain any contract, business opportunity or other business benefit, or to influence any act or decision of that person in his/her official capacity. At Buyer's request, Supplier will certify in writing its compliance with the foregoing.

17. Termination for Cause

Upon the occurrence of any of the following "Events of Default" by a Party, the non-defaulting Party may elect to terminate this Contract, in whole or in part, by notice of termination to the defaulting Party and the expiration of any applicable cure period provided below: (a) Either Party repudiates or materially breaches its obligations, or refuses to materially perform its obligations, under this Contract, and if such breach is capable of being cured within twenty (20) Business Days, such breach is not cured by the breaching Party within twenty (20) Business Days of written notice of the occurrence of an Event of Default being provided by the other Party; or (b) Any secured or lien creditor commences a foreclosure action of its liens, security interests and/or mortgages in or against a material portion of a Party's assets or a Party: (A) commences, or has commenced against it, any case, proceeding or other action under Title 11 of the United States Code or any other liquidation, bankruptcy, conservatorship, moratorium, receivership, insolvency, rearrangement, reorganization or similar debtor relief laws of the United States or any other applicable jurisdictions in effect from time to time, seeking (i) to have an order for relief entered with respect to it, (ii) to adjudicate it as bankrupt or insolvent, (iii) to commence or implement any plan of reorganization, arrangement, adjustment, winding-up, liquidation, dissolution, composition or other relief with respect to it or its debts or (iv) the appointment of a receiver, trustee, custodian,

conservator or other similar official for it or for all or any substantial part of its assets; or (B) makes a general assignment for the benefit of its creditors (collectively, an "Insolvency Event").

18. Governing Law and Jurisdiction

This Contract shall be governed by the laws of the State of New York, excluding the provisions of the United Nations Convention on Contracts for the International Sale of Goods (CISG), and without regard to its conflict of laws principles. Any action, dispute or proceeding seeking to enforce any provision of, or based on any right arising solely out of, this Contract (collectively, "Disputes") shall be first handled pursuant to the following escalation process. Any Party may submit its position on any Dispute in writing to the other Party and such other Party shall, within five (5) Business Days thereafter, submit its position on the Dispute in writing to the first Party. As promptly as practicable, but no later than five (5) Business Days thereafter, the Parties shall enter into good faith negotiations to attempt to resolve the Dispute. If those negotiations do not resolve the Dispute within fifteen (15) Business Days after the first Party's submission, then either Party may require that the Dispute be submitted, in writing to Jeffrey Morrison, Vice President of Global Purchasing and Supply Chain of Buyer and Jonathan Evans of Supplier (or, in each case, their functional successors), who shall negotiate in good faith and use their reasonable best efforts to expeditiously resolve the Dispute for a period of fifteen (15) Business Days after that submission, unless Jeffrey Morrison, Vice President of Global Purchasing and Supply Chain of Buyer and Jonathan Evans of Supplier (or in each case their functional successors) mutually agree to extend such period of negotiation. Any agreement pertaining to a Dispute shall be reduced to writing, be signed by the Parties and be final and binding upon the Parties. All negotiations pursuant to this Section 18 shall be confidential, and shall be treated as compromise and settlement negotiations for purposes of applicable rules of evidence. In the event that a Dispute has not been resolved after the use of the escalation procedures set forth above, then either Party may initiate the arbitration process. The Dispute shall be submitted to and settled by binding arbitration in New York, New York in accordance with the Administered Arbitration Rules of the International Institute for Conflict Prevention & Resolution, and such arbitration shall be in English. For disputes that involve alleged losses that do not exceed $25 million, the Parties shall mutually agree on a single arbitrator within a period of five (5) Business Days of receipt of notice that the other Party has referred a Dispute to arbitration, and if the Parties cannot agree upon the single arbitrator within such period of five (5) Business Days, the single arbitrator shall be appointed as promptly as practicable by the International Institute for Conflict Prevention & Resolution. For disputes that involve alleged losses that exceed $25 million, each Party shall, within five (5) Business Days of receipt of notice that the other Party has referred a Dispute to arbitration, appoint one nominating arbitrator and such nominating arbitrators shall together select within five (5) Business Days a neutral arbitrator who will conduct the arbitration. If such nominating arbitrators are not able to select a neutral arbitrator, the neutral arbitrator shall be appointed as promptly as practicable by the International Institute for Conflict Prevention & Resolution. The costs of the arbitrator shall be in the cause. The single arbitrator or the one neutral arbitrator shall make a decision within sixty (60) days of the arbitrator's appointment. The arbitrator shall not be empowered to award punitive or exemplary damages. The award rendered by the arbitrator shall be final and binding upon the Parties, and the judgement on the award rendered may be entered in any court having jurisdiction thereof. All Disputes shall be settled in this manner in lieu of an action at law or equity; provided, however, that nothing in this Section 18 shall be construed as precluding the bringing of an action for temporary or preliminary injunctive relief or other equitable relief. Each Party hereby

irrevocably and unconditionally (i) waives any objection to the laying of venue of any such action, suit or proceeding in any such court, (ii) agrees not to plead or claim in any such court that any such action, suit or proceeding brought in any such court has been brought in an inconvenient forum and (iii) agrees that service of any court paper may be effected on such Party in any manner as may be provided under applicable laws or court rules of the State of New York.

Exhibit B

This Agreement shall become effective on the Effective Date and shall terminate upon notice to Purchaser from GM or Supplier of the earlier to occur of (a) expiration or termination of the Offtake Agreement; (b) termination by GM of Purchaser's designation as a Designated Purchaser under the Offtake Agreement; or (c) revocation by Supplier of Purchaser's approval as a Designated Purchaser under the Offtake Agreement (the "Term"). Any payment obligations owing from Purchaser to Supplier for Products pursuant to this Agreement shall survive the termination of this Agreement.

2. **Specifications**. The specifications for the Products (the "Specifications") are attached hereto as **Annex A**. Any new Specifications, and any modifications or amendments to the Specifications shall be communicated by GM to Supplier and Purchaser.

3. **Quantity**. Purchaser shall purchase from Supplier the quantity of Product directed by GM for Purchaser's use in Battery components for GM vehicles. The Product Price will be exclusive of any applicable sales or other similar tax, if any, that is required by law to be added to the sales price. Any adjustments to the Product Price will be prospective only and in no event will Purchaser be obligated to pay any retrospective price increase.

5. **Ordering Process**. Purchaser may from time to time submit purchase orders— including blanket purchase orders—to Supplier (the "Purchase Orders") and issue releases for Products to Supplier.[1] This Agreement, including any exhibits hereto, shall be expressly incorporated into any Purchase Orders.

6. **Payment Terms**. Purchaser shall pay for all Products purchased hereunder net thirty (30) days after Purchaser's receipt of the Products at Purchaser's facility but not later than ninety (90) days after first loading of the Product at Thacker Pass or the Alternate Location (as defined in the General Terms and Conditions). If any payment due under this Agreement is not paid when due in accordance with the applicable provisions of this Agreement, and Supplier has provided written notice of such non-payment to Purchaser and Purchaser has failed to cure such non-payment within five (5) Business Days of receipt of such notice from Supplier, Supplier shall have the right to suspend, without any prejudice to any of Supplier's other rights and remedies under this Agreement, any ongoing supply of Product under this Agreement until such payment is made.

7. **Access to Information**. Purchaser will have access and information rights to Supplier's Thacker Pass location. To the extent Purchaser wishes to exercise such rights, Purchaser shall coordinate the exercise of such rights with GM. In the event of any site visit by Purchaser, Purchaser will comply with all health and safety regulations of Supplier.

8. **Non-Assignment**. Under no circumstances may Purchaser transfer, assign or delegate, in whole or in part, any of its rights or obligations under this Agreement (including, without limitation, any right of payment), whether directly or indirectly, by merger, acquisition or contribution to a joint venture. Supplier may transfer, assign or delegate, in whole or in part, any of its rights or obligations under this Agreement (including, without limitation, any right of payment), whether directly or indirectly, solely in connection with an assignment of its rights pursuant to the Offtake Agreement, and Supplier shall provide Purchaser with written notice of any such assignment within five (5) business days thereof.

9. **Authority**. Each of the representatives executing this Agreement on behalf of the Parties represents and warrants that he or she possesses the corporate power and authority to execute this Agreement on behalf of the respective Parties and that this Agreement has been duly authorized by the Parties. Each of the Parties represents and warrants that the execution and delivery by that Party of this Agreement, or compliance or performance by that Party with any of the provisions of this Agreement will not conflict with, or result in any violation or breach of, or default (with or without notice or lapse of time, or both) under any provision of the certificate of incorporation and by-laws or comparable organizational documents of that Party, any material contract of that Party, any judicial order applicable to that Party, or any applicable law, in each case, in existence as of the Effective Date.

10. **Order of Preference**. In the event of a conflict between or among any document relating to this Agreement, the applicable document will prevail as follows: (i) this Agreement; (ii) any Purchase Order in written form confirmed by Supplier; (iii) the General Terms and Conditions; and (iv) any other exhibits or schedules attached to and incorporated into the foregoing.

12. **REPRESENTATIONS**. THE PARTIES ACKNOWLEDGE THAT THEY HAVE BEEN GIVEN THE OPPORTUNITY TO CONSULT WITH COUNSEL OF THEIR CHOICE BEFORE EXECUTING THIS AGREEMENT AND ARE DOING SO WITHOUT DURESS, INTIMIDATION, OR COERCION AND WITHOUT RELIANCE UPON ANY REPRESENTATIONS, WARRANTIES, OR COMMITMENTS OTHER THAN THOSE REPRESENTATIONS, WARRANTIES, OR COMMITMENTS SET FORTH IN THIS AGREEMENT.

13. **Miscellaneous**.

For the avoidance of doubt, electronic communication shall not qualify as a written notice or document, unless otherwise explicitly specified by written mutual agreement.

(c) No Waiver. The failure of either Party at any time to require performance by the other Party of any provision of this Agreement will in no way affect the right to require such performance at any time thereafter, nor will the waiver of either Party of a breach of any provision of this Agreement constitute a waiver of any succeeding breach of the same or any other provision.

(d) No Agency. Supplier and Purchaser are independent contracting parties and nothing in this Agreement will make either Party the agent or legal representative of the other for any purpose whatsoever, nor does it grant either Party any authority to assume or to create any obligation on behalf of or in the name of the other Party.

(e) Contact Person. The Parties shall each appoint a contact person, to whom information and notices required under this Agreement and other communication shall be addressed.

(f) Language. (h) Counterparts. This Agreement may be executed electronically and may be executed in counterparts, each of which will be deemed an original, but all of which together will constitute one and the same document.

General Terms and Conditions

[See attached]

GENERAL TERMS AND CONDITIONS

1. Shipping; Packaging

Supplier will comply, in all respects, with the shipping and packaging requirements agreed to by Buyer and Supplier and as incorporated in this Contract by reference. Supplier will (a) properly pack and mark Product in accordance with the laws and regulations of the country of manufacture, including, without limitation, laws and regulations governing the handling and transportation of dangerous goods or hazardous materials; (b) provide with each shipment packing slips with Buyer's Contract and/or release number and date of first loading marked thereon; (c) promptly forward the original bill of lading or other shipping documents for each shipment in accordance with Buyer's instructions; and (d) include on bills of lading or other shipping documents the correct classification of the goods. The marks on each package and identification of the goods on packing slips, bills of lading and invoices (when required) must be sufficient to enable Buyer to easily identify the goods purchased.

2. Transfer of Title

Supplier shall ship the Product FCA Thacker Pass (Incoterms 2020) or FCA an alternate location (an "Alternate Location") provided in a writing sent from GM to Buyer (in the event Buyer is a Party other than GM) with a copy to Supplier. Title to and risk of loss of the Product shall transfer to Buyer at the time of first loading onto Buyer's transport of the Product by Supplier at Thacker Pass or the Alternate Location. All risk for loss of Product after such first loading of the Product by Supplier at Thacker Pass or the Alternate Location shall pass to Buyer and shall not be borne by Supplier.

3. Protection Against Labor Disruptions

Supplier will use its best efforts to ensure the uninterrupted supply of Product to Buyer notwithstanding any existence of a labor disruption.

4. Subcontracting

None of the Parties will subcontract in whole or in part any of its obligations under this Contract without the prior written consent of the other Party. Any such consent will not release the applicable Party from, or limit, any of such Party's obligations under this Contract. For clarity, it is understood and agreed that the operation of the Thacker Pass Project, including the loading of finished goods, may entail the use of subcontractors and such use shall not be in breach of this clause.

5. Product Warranty; Warranty of Performance

Supplier warrants and guarantees that the goods sold under this Contract shall be merchantable, conform with all Specifications, and are free and clear of all liens other than those that may arise by operation of law, that the goods will be released in connection with the Certificate of Analysis ("COA") that Supplier will provide with all deliveries of goods to Buyer, and will comply with applicable laws (the "Warranty"). The Warranty (other than being merchantable and free and clear of all liens other than those that may arise by operation of law) does not extend to Off Spec Product

that is retained by Buyer. The duration of the Warranty will begin on the date the title and risk of loss for such goods passes to Buyer in accordance with Section 2 of this Contract (the "Title Transfer Date") and end on the earlier of (the "Warranty End Date"): (a) [***] from the Title Transfer Date; or (b) upon incorporation of such goods into another product of Buyer to the extent such incorporation alters the goods so as to make the analysis required to validate the COA unachievable. Other than in the event of Supplier's gross negligence or willful, wanton, or reckless misconduct, after the Warranty End Date, Supplier shall not be required to accept any claim with respect to the Warranty. Buyer agrees that to the extent practicable it shall notify Supplier within fifteen (15) Business Days of becoming aware that a Warranty Claim may be alleged by Buyer. Except as expressly set forth in this Contract, the Warranty is irrevocable by Supplier, and Supplier may not limit or disclaim the Warranty.

In the event Buyer provides written notification to Supplier (the "Specification Notice") of variation of Product from the Specifications, with such notice to be delivered within the later of: (a) 180 days of title passing from Supplier to Buyer as provided in Section 2; or (b) if the Product was stored unused at a facility reasonably acceptable to Supplier, within 45 days of the date the Product is removed from such storage, but in any event not later than the Warranty End Date (the "Cut Off Date"), Buyer shall not be obligated to purchase and take delivery of the relevant shipment; provided, however, Supplier and Buyer will consult each other and shall negotiate in good faith (for a period of five (5) Business Days after the date of delivery of the Specification Notice) whether Buyer will accept the Product with appropriate price reductions (the "Off Spec Product") or whether Buyer shall return the Off Spec Product to Supplier at Thacker Pass (or the Alternate Location if loaded at the Alternate Location), such return to be at the cost and expense of Supplier. If such negotiations do not culminate in agreement after the end of such period of five (5) Business Days after the date of delivery of the Specification Notice, Buyer shall immediately return the Off Spec Product to Supplier, such return to be at the cost and expense of Supplier. In all cases, Buyer and Supplier will work together in good faith to minimize return shipping costs. In the event Buyer provides Supplier with a Specification Notice after Buyer has paid for the Product, and such Product is returned to Supplier in accordance with this Section 5, Buyer shall receive either a refund of the amount paid for the Product or a credit from Supplier in the amount that was paid for the Product, provided, however, that if Supplier has replacement Product available, Buyer may elect to receive replacement Product instead of the refund or credit.

Product to be delivered hereunder (with the exception of Off Spec Product that is accepted by Buyer) shall not: (i) contain extraneous materials; (ii) contain elements or substances at levels or in concentrations dangerous or harmful to health, safety, the environment or generally considered in the lithium industry to be deleterious or harmful or (iii) exhibit physical properties or characteristics which differ from industry standards for comparable products in the marketplace to a degree or in a manner which results in Buyer having to incur increased costs of transporting, storing or handling the Product (collectively, the "Prohibited Characteristics"). For greater certainty, the presence in Product of any element or compound in quantities within the ranges specified in the Product Specifications shall not constitute a Prohibited Characteristic. Both Parties understand the hazards and handling of the Product and will follow industry and local governmental practices and standards for handling.

6. Ingredients Disclosure; Special Warnings and Instructions

At least ten (10) Business Days prior to, as well as in connection with, the shipment of the Product from Thacker Pass or the Alternate Location, as the case may be, Supplier agrees to furnish to Buyer written warning and notice (including, without limitation, appropriate labels on the goods, containers and packing) of any dangerous goods or hazardous material that forms part of any shipment of Products, together with such special handling instructions as may be necessary to advise carriers, Buyer, and their respective employees of how to exercise that measure of care and precaution that will comply with any applicable laws or regulations and best prevent bodily injury or property damage in the handling, transportation, processing, use or disposal of the Products, containers and packing shipped to Buyer from Thacker Pass or the Alternate Location.

7. Payment

Promptly after each shipment of goods from Thacker Pass or the Alternate Location, as the case may be, Supplier will issue a single invoice for the shipped Products. Each invoice must comply with applicable law, if any, and include the following information: (a) amount due (in the currency specified in this Contract); (b) Contract number; (c) if applicable, purchase order number; (d) if applicable, the intra-EU VAT number; and (e) net weight of the goods.

Buyer will pay for the Product in accordance with the payment terms and in the currency specified elsewhere in this Contract. Payments may be made electronically (including, without limitation, by bank transfer or recorded bill of exchange, where applicable).

8. Customs; Origin

Credits or benefits resulting or arising from this Contract, including trade credits, export credits or the refund of duties, taxes or fees, will belong to Buyer to the extent Buyer pays such duties, taxes or fees directly or those duties, taxes, or fees are passed along to Buyer in the contract price. To the extent Supplier pays and does not pass along to Buyer such duties, taxes or fees, any applicable credits or refunds will belong to Supplier. Supplier will timely and accurately provide all information necessary (including written documentation and electronic transaction records) to permit Buyer to receive such benefits or credits, if Buyer pays such duties, taxes or fees either directly or indirectly, as well as to fulfill its import and, where required by this Contract, export customs related obligations, origin marking or labeling requirements and local content origin requirements, if any. Supplier will undertake such arrangements as necessary for the goods to be covered by any duty deferral or free trade zone program(s) of the country of import. Supplier will ensure compliance with the recommendations or requirements of all applicable Authorized Economic Operator (AEO), governmental security/anti-terrorism and enhanced border release programs (including, without limitation, the United States Bureau of Customs and Border Protection's Customs-Trade Partnership Against Terrorism (C-TPAT)). At the request of Buyer or the appropriate Customs Authority, Supplier will certify in writing its compliance with the foregoing.

9. Transactional Tax

Unless otherwise provided in this Contract, the prices set forth in this Contract will be exclusive of all transactional taxes, including any sales, use, excise, services, value added tax, goods and services tax, or similar tax, and these taxes should be separately identified by Supplier in Supplier's invoice, even if the tax rate is zero. Buyer will not be responsible for any transactional taxes charged by the Supplier that are not identified in this manner. Supplier shall separately state all charges for transactional taxes on its invoices (or other such documents). Additionally, Supplier shall provide Buyer with invoices in line with the applicable tax laws in its country to enable the Buyer to reclaim the transactional taxes and Supplier will provide such documentation no later than when the payment to which the invoice relates is due from Buyer. Supplier will be responsible for remitting the transactional tax to the applicable taxing authority except for those states or jurisdictions where Buyer has provided Supplier with an appropriate exemption certificate. Supplier will use reasonable efforts to apply for such exemptions where applicable. Supplier will not charge Buyer for any transactional taxes charged by a subcontracting supplier if such tax is recoverable by Supplier, or if not recoverable, it would have been, had the transaction been structured through other entities (either the Supplier's or the Buyer's affiliated companies). If transactional taxes are not recoverable by Supplier, Supplier agrees to provide detailed billing, customs or other documents as requested, which set out the transactional taxes paid or payable to any of the Buyer's subcontracting supplier or to a taxing authority.

10. Intellectual Property Indemnification

The LAC Parties will investigate, defend, hold harmless and indemnify Buyer, its successors, its affiliates (collectively "Buyer Group") and its dealers and customers against any actual or alleged claims of infringement or other assertions of proprietary rights violations (including patent, trademark, copyright, industrial design right, or other proprietary right, misuse, or misappropriation of trade secret) and resulting damages and expenses (including attorney's and other professional fees) arising in any way in relation to the Products (collectively "IP claims"). Supplier expressly waives any claim against Buyer Group that any such IP claims arose out of compliance with Buyer Group's or its dealers' or customers' specification or direction.

11. Remedies; Indemnity

It is understood and agreed that for the purposes of this Section 11 (Remedies; Indemnity), Section 12 (Force Majeure), Section 15 (Confidentiality), Section 16 (Compliance with Laws), Section 17 (Termination For Cause) and Section 18 (Governing Law and Jurisdiction), LAC Parent and Supplier act as one Party. The rights and remedies reserved to each Party in this Contract are cumulative with, and additional to, all other rights and remedies of each Party under applicable law or in equity.

Notwithstanding anything else to the contrary in this Contract, and save in respect of: (i) liability for fraud, death or personal injury caused by gross negligence or willful misconduct; or (ii) liability for infringement or other proprietary rights violations (including patent, trademark, copyright, industrial design right, or other proprietary right, misuse, or misappropriation of trade secret) arising in any way in relation to the Product, neither Party shall in any circumstances be liable to the other Party as a result of its performance of, or failure to perform, this Contract or any provision

in this Contract, whether in contract, tort or breach of statutory duty or howsoever arising for (a) any loss of profit, anticipated profit or revenue (with respect to the foregoing, save and except for failures by Buyer to make payments for Product as anticipated by this Contract, the losses for which are specifically not excluded and are included), any loss of savings or anticipated savings, any loss of production, any loss of use, any loss of contract or business opportunity, any loss of or damage to goodwill or any business interruption, whether of a direct or indirect nature, (b) any special, indirect and/or consequential losses, or (c) punitive, exemplary or special damages.

Each Party (a "First Party") will indemnify, defend and hold harmless the other Party against any liability, claim, demand and expense (including, without limitation, legal and other professional fees) arising from or relating to any failure of the First Party to fully perform any of its obligations under this Contract.

12. Force Majeure

Any delay or failure of either Party to perform its obligations under this Contract will be excused to the extent that Supplier is unable to produce, sell or deliver, or Buyer is unable to accept delivery, buy or use, the goods or services covered by this Contract, directly as the result of an event or occurrence beyond the reasonable control of such Party, without such Party's fault or negligence (a "force majeure event"), including, if applicable, actions by any governmental authority (whether valid or invalid), fires, floods, windstorms, explosions, riots, natural disasters, wars and sabotage; provided that written notice of such force majeure event (including the anticipated duration of the delay) must be given by the affected Party to the other Party as soon as possible (but in no event more than 20 days after the force majeure event occurs).

During any force majeure event affecting Supplier's performance, Buyer may, at its sole option: (i) purchase Product from other sources, without liability to Supplier; and/or (ii) reduce the volumes set forth in any forecast by the amount of Product purchased from such other sources.

The affected Party will use all diligent efforts to ensure that the effects of any force majeure event are minimized and, as promptly as possible, resume full performance under this Contract. If the delay lasts more than twelve (12) months from notice of the force majeure event being given, either Party may immediately terminate this Contract without liability to either Party.

13. Insurance

Supplier will maintain insurance coverage as would a prudent mine operator in the State of Nevada. Supplier shall insure its interest in the Product for full value for damage or loss arising until title and risk pass to the Buyer as provided in Section 2 with an insurance company rated 'A-' or higher by AM Best.

14. Technical Information

Buyer does not expect to receive any confidential technical or other information (the "Non-Contract Information") from the LAC Parties, and Buyer will not be subject to confidentiality or nondisclosure obligations with respect to any such information (including under Section 15 hereof) unless the LAC Parties and Buyer have agreed to confidentiality and nondisclosure obligations in a writing signed by their respective authorized representatives that expressly applies to such Non-Contract Information (a "Standalone CA"). The LAC Parties agrees not to assert any claim (other than for breach of a Standalone CA) with respect to any Non-Contract Information that the LAC Parties has disclosed or may hereafter disclose to Buyer or its affiliates and subsidiaries.

15. Confidentiality; No Advertising

The Parties agree that the contents of this Contract are confidential and not intended for use or dissemination by either Party without the express written consent of the other Party. For the purposes of this Section 15 a Party making disclosure together with its affiliates and representatives is a "Disclosing Party" and the non-Disclosing Party is an "Affected Party".

A Disclosing Party may disclose the existence and terms of this Contract (the "Disclosure Exceptions"): (i) to the extent required by law (including the rules of any applicable stock exchange), or by any governmental agency or required or requested to be disclosed pursuant to legal process (including discovery requests) or in connection with any bankruptcy, insolvency, or similar proceeding involving either of the Parties, provided that the Disclosing Party shall (A) immediately upon receiving notice that it is required to make a disclosure under law or stock exchange rules, give the Affected Party prior written notice and an opportunity of not less than 48 hours for the Affected Party to review and comment on the requisite disclosure before it is made, including an opportunity for the Affected Party to prevent such disclosure, (B) use its best efforts to incorporate the Affected Party's comments or limit such disclosure, by seeking confidential treatment or otherwise, and (C) promptly provide the Affected Party with notice of any requirement to provide any such information, regardless of when such disclosure shall be made; (ii) to the extent necessary to enforce this Contract including, without limitation, for the purposes of dispute resolution as set forth in Section 18; (iii) to any designated purchaser, employee, officer, director, agent, affiliate, representative, lawyer, investor, broker, potential transferee, financier, partner, member, shareholder or actual or potential financing source of the Disclosing Party or that Disclosing Party's affiliates (but not its representatives) provided that any such person or entity must be, prior to the disclosure, subject to confidentiality obligations that are the same as or more restrictive than the confidentiality obligations in this Contract and that the Disclosing Party disclosing such information to them will be responsible for any breach thereof; and (iv) to the extent such information is or becomes generally available to the public other than as a result of a disclosure by the Disclosing Party in violation of this Contract.

Unless required by applicable law or pursuant to any rules or regulations of any applicable securities exchange, neither Party will in any manner, without first obtaining the other Party's consent, which consent will not be unreasonably withheld or delayed: (i) advertise or publish the fact that Supplier has contracted to furnish Buyer the Product; (ii) use the other Party's trademarks, trade names or confidential information in such Party's advertising or promotional materials; or (iii) use the other Party's trademarks, trade names or confidential information in any form of

electronic communication such as web sites (internal or external), blogs or other types of postings, except as may be required to perform hereunder or as required by law. Any announcement made by the Parties in relation to the execution of this Contract will be agreed in advance by the Parties.

16. Compliance with Laws

Supplier, and any goods or services supplied by Supplier, and Buyer, in connection with its obligations under this Contract, will comply with all applicable laws, rules, regulations, orders, conventions, ordinances or standards of the country(ies) of destination or that relate to the manufacture, labeling, transportation, importation, exportation, licensing, approval or certification of the Product, including, without limitation, those relating to environmental matters, the handling and transportation of dangerous goods or hazardous materials, data protection and privacy, wages, hours and conditions of employment, subcontractor selection, discrimination, occupational health/safety and motor vehicle safety. Supplier, in all respects, and Buyer, in connection with its obligations under this Contract, further represent that neither they nor any of their subcontractors, vendors, agents or other associated third parties will utilize child, slave, prisoner or any other form of forced or involuntary labor, or engage in abusive employment or corrupt business practices, in the supply of Product under this Contract. Supplier, in all respects, and Buyer, in connection with its obligations under this Contract, agree to comply with all applicable anti-corruption laws, including, without limitation, the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act, and that neither they nor any of their subcontractors, vendors, agents or other associated third parties will engage in any form of commercial bribery, nor directly or indirectly provide or offer to provide, anything of value to or for the benefit of, any official or employee of a governmental authority or of any government-owned, government-controlled or government-affiliated entity to obtain or retain any contract, business opportunity or other business benefit, or to influence any act or decision of that person in his/her official capacity. At Buyer's request, Supplier will certify in writing its compliance with the foregoing.

17. Termination for Cause

Upon the occurrence of any of the following "Events of Default" by a Party, the non-defaulting Party may elect to terminate this Contract, in whole or in part, by notice of termination to the defaulting Party and the expiration of any applicable cure period provided below: (a) Either Party repudiates or materially breaches its obligations, or refuses to materially perform its obligations, under this Contract, and if such breach is capable of being cured within twenty (20) Business Days, such breach is not cured by the breaching Party within twenty (20) Business Days of written notice of the occurrence of an Event of Default being provided by the other Party; or (b) Any secured or lien creditor commences a foreclosure action of its liens, security interests and/or mortgages in or against a material portion of a Party's assets or a Party: (A) commences, or has commenced against it, any case, proceeding or other action under Title 11 of the United States Code or any other liquidation, bankruptcy, conservatorship, moratorium, receivership, insolvency, rearrangement, reorganization or similar debtor relief laws of the United States or any other applicable jurisdictions in effect from time to time, seeking (i) to have an order for relief entered with respect to it, (ii) to adjudicate it as bankrupt or insolvent, (iii) to commence or implement any plan of reorganization, arrangement, adjustment, winding-up, liquidation, dissolution, composition or other relief with respect to it or its debts or (iv) the appointment of a receiver, trustee, custodian,

conservator or other similar official for it or for all or any substantial part of its assets; or (B) makes a general assignment for the benefit of its creditors (collectively, an "Insolvency Event").

18. Governing Law and Jurisdiction

This Contract shall be governed by the laws of the State of New York, excluding the provisions of the United Nations Convention on Contracts for the International Sale of Goods (CISG), and without regard to its conflict of laws principles. Any action, dispute or proceeding seeking to enforce any provision of, or based on any right arising solely out of, this Contract (collectively, "Disputes") shall be first handled pursuant to the following escalation process. Any Party may submit its position on any Dispute in writing to the other Party and such other Party shall, within five (5) Business Days thereafter, submit its position on the Dispute in writing to the first Party.

As promptly as practicable, but no later than five (5) Business Days thereafter, the Parties shall enter into good faith negotiations to attempt to resolve the Dispute. If those negotiations do not resolve the Dispute within fifteen (15) Business Days after the first Party's submission, then either Party may require that the Dispute be submitted, in writing to [_____] of Buyer and Jonathan Evans of Supplier (or, in each case, their functional successors), who shall negotiate in good faith and use their reasonable best efforts to expeditiously resolve the Dispute for a period of fifteen (15) Business Days after that submission, unless [_____] of Buyer and Jonathan Evans of Supplier (or in each case their functional successors) mutually agree to extend such period of negotiation. Any agreement pertaining to a Dispute shall be reduced to writing, be signed by the Parties and be final and binding upon the Parties. All negotiations pursuant to this Section 18 shall be confidential, and shall be treated as compromise and settlement negotiations for purposes of applicable rules of evidence. In the event that a Dispute has not been resolved after the use of the escalation procedures set forth above, then either Party may initiate the arbitration process. The Dispute shall be submitted to and settled by binding arbitration in New York, New York in accordance with the Administered Arbitration Rules of the International Institute for Conflict Prevention & Resolution, and such arbitration shall be in English. For disputes that involve alleged losses that do not exceed $25 million, the Parties shall mutually agree on a single arbitrator within a period of five (5) Business Days of receipt of notice that the other Party has referred a Dispute to arbitration, and if the Parties cannot agree upon the single arbitrator within such period of five (5) Business Days, the single arbitrator shall be appointed as promptly as practicable by the International Institute for Conflict Prevention & Resolution. For disputes that involve alleged losses that exceed $25 million, each Party shall, within five (5) Business Days of receipt of notice that the other Party has referred a Dispute to arbitration, appoint one nominating arbitrator and such nominating arbitrators shall together select within five (5) Business Days a neutral arbitrator who will conduct the arbitration. If such nominating arbitrators are not able to select a neutral arbitrator, the neutral arbitrator shall be appointed as promptly as practicable by the International Institute for Conflict Prevention & Resolution. The costs of the arbitrator shall be in the cause. The single arbitrator or the one neutral arbitrator shall make a decision within sixty (60) days of the arbitrator's appointment. The arbitrator shall not be empowered to award punitive or exemplary damages. The award rendered by the arbitrator shall be final and binding upon the Parties, and the judgement on the award rendered may be entered in any court having jurisdiction thereof. All Disputes shall be settled in this manner in lieu of an action at law or equity; provided, however, that nothing in this Section 18 shall be construed as precluding the bringing of an action for temporary or preliminary injunctive relief or other equitable relief. Each Party hereby irrevocably

and unconditionally (i) waives any objection to the laying of venue of any such action, suit or proceeding in any such court, (ii) agrees not to plead or claim in any such court that any such action, suit or proceeding brought in any such court has been brought in an inconvenient forum and (iii) agrees that service of any court paper may be effected on such Party in any manner as may be provided under applicable laws or court rules of the State of New York.

Exhibit D

GM's Supplier Code of Conduct, GM's Human Rights Policy and GM's Responsible Minerals Sourcing Policy

[See attached]

SUPPLIER CODE OF CONDUCT

This Supplier Code of Conduct ("Code") articulates General Motors Company's ("GM") expectations of the conduct of suppliers and business partners doing business with GM ("suppliers"). This Code is based on our corporate values for responsible and sustainable products and operations and aligns with the ten principles of the United Nations Global Compact, of which, GM is a signatory. Suppliers are expected to understand and act consistent with GM's approach to integrity, responsible sourcing, and supply chain management. GM expects suppliers will cascade similar expectations through their own supply chains.

GM endeavors to do business with suppliers that meet our standards and behave consistently with, and positively reflect, GM's values throughout the supply chain. GM expects that suppliers will satisfy contractual requirements, comply with laws, regulations, and GM policies and act consistently with the principles and values of our GM Code of Conduct, Winning with Integrity, and this Code.

HUMAN RIGHTS

GM expects all suppliers to have processes in place to prevent, mitigate, and take effective measures to remediate adverse human rights impacts. Suppliers are expected and required to adhere to and cascade GM's Human Rights Policy or equivalent expectations throughout their supply chain.

The United Nations Guiding Principles on Business and Human Rights serve as a guiding framework for GM's work related to human rights. GM is also committed, and expects suppliers to commit, to the OECD Guidelines for Multinational Enterprises; the International Labor Organization's (ILO) Declaration on Fundamental Principles and Rights at Work; the International Bill of Human Rights; the Universal Declaration of Human Rights; and the International Covenant on Economic, Social and Cultural Rights. Suppliers are expected to comply with these internationally recognized standards.

Freely Chosen Employment

Suppliers and their employment agencies will not use slave, forced prisoner, bonded, indentured, or any other form of forced or involuntary labor. Suppliers will also not engage, directly or indirectly, in human trafficking. Suppliers will provide all workers with a written employment agreement or notification that contains a description of terms and conditions of employment as part of the hiring process, and foreign migrant workers will receive the employment agreement prior to the worker departing from their country of origin with no substitution or change(s) upon arrival in the receiving country except as required to meet local law. Employees must be free to terminate their employment without penalty.

Freedom of Movement

Suppliers and their employment agencies will not impose restrictions on entering or exiting company-provided facilities including, if applicable, workers' dormitories or living quarters, except when lawful and necessary for safety or security purposes. Suppliers will refrain from restricting workers' movement through the retention of bank payment cards or similar arrangements for accessing wages. Suppliers will also refrain from requiring workers to use company-provided accommodation. Suppliers and their employment agencies, will not destroy, withhold, or conceal identity or immigration documents, such as government-issued identification, passports, or work permits.

Child Labor

Suppliers and their employment agencies will not use child labor. GM has a zero-tolerance policy regarding the use of child labor. Suppliers will implement an appropriate mechanism to verify that the age of workers and workers recruited comply with the ILO Minimum Age Convention (No. 138) and will provide substantiation of this verification upon request. If child labor is discovered in its supply chain, suppliers will cease employment of the child/children and take reasonable measures to enroll the child/children in a remediation/education program. Suppliers will not use workers under the age of 18 ("young workers") to perform work that is likely to jeopardize their health or safety. If young workers are found to be involved in work that is likely to jeopardize their health or safety, suppliers will take reasonable measures to immediately remove the young workers from the situation and provide alternative work that is age appropriate.

Working Hours

Suppliers will comply with local laws and collective bargaining agreements (where applicable) regarding working hours. Working hours must not exceed the maximum set by local law.

Wages and Benefits

Suppliers and their employment agencies will pay wages and provide benefits and compensation to workers that comply with all applicable wage laws and regulations, including those relating to minimum wages, overtime hours, medical leave, and legally mandated benefits, and in line with Article 7 of the International Covenant on Economic, Social and Cultural Rights. Suppliers will refrain from making any deductions from wages as a disciplinary measure or imposing any financial burdens on workers related to recruitment costs. For each pay period, suppliers will provide workers with a timely and understandable written wage statement that includes sufficient information to verify accurate compensation for work performed. Workers shall receive equal pay for equal work, including paying a fair wage that meets or exceeds legal minimum standards. All use of temporary, dispatch and outsourced labor shall be within the limits of the local law. Safety concerns or suggestions can be made at any time through the GM Awareline.

ENVIRONMENT

Responsible Stewardship

Suppliers will continually strive to protect the communities and environment that surround them. Suppliers will also continually strive to conserve natural resources including water, fossil fuels, minerals, and virgin forest products by practices such as modifying production, maintenance and facility processes, materials substitution, re-use, conservation, recycling, or other means. Suppliers should promote circularity and closed loop systems by supporting the use of sustainable, renewable natural resources while reducing emissions, pollution, and waste.

Environmental Permits and Reporting

Suppliers will follow applicable local, national, and international environmental laws. Suppliers will obtain and keep current all required environmental permits, approvals, and registrations, follow their operational and reporting requirements, and will provide said documentation to GM upon request. GM encourages all suppliers to be bold and go beyond compliance obligations to integrate additional environmentally sustainable practices throughout the company.

Pollution Prevention

Suppliers will minimize or eliminate emissions and discharges of pollutants and generation of waste at the source or by practices such as adding pollution control equipment, modifying production, maintenance, and facility processes, or by other means. Suppliers will routinely monitor and disclose, appropriately control, minimize, and strive to eliminate contributing to pollution, as required by and in accordance with applicable law. Suppliers should assess cumulative impacts of pollution sources at their facilities.

Wastewater must be characterized, monitored, controlled, and treated as required prior to discharge or disposal. Suppliers will conduct routine monitoring of their wastewater treatment and containment systems for optimal performance and to meet regulatory compliance. Suppliers should effectively reuse and recycle water. Supplier should prevent unpermitted discharges and mitigate the potential impacts of such discharges and from flooding caused by rainwater run-off.

No animal should be raised and killed for the single purpose of being used in automotive products.

GM does not conduct or commission the use of animals in tests for research purposes or in the development of our vehicles, either directly or indirectly. Suppliers will not supply any raw materials, components, parts or assemblies to GM that involved testing on animals in its research or development.

Continuous Improvement

Suppliers will take measures to increase innovation and efficiency throughout their companies and reduce their carbon footprint, energy use, water use, material use, wastes, and other emissions. Suppliers should have a sustainable procurement policy in place to communicate sustainability expectations through the supply chain. Suppliers will set sustainability goals, accurately track results, and report on progress.

RESPONSIBLE SOURCING

Due Diligence

Suppliers will implement a policy committing to the responsible sourcing of all minerals and materials in line with GM's Conflict Minerals Policy and Responsible Minerals Sourcing Policy. These policies require conducting due diligence in accordance with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, including its current supplements on tin, tantalum, tungsten and gold (3TG). Suppliers will disclose to GM, as necessary, updated smelter/refiner information for any 3TG mineral used in the production of its parts, materials, components, and products. Suppliers will also engage with sub-tier suppliers to conduct due diligence by providing reporting templates or other information upon request.

Suppliers will require that their employees avoid and disclose situations where their financial or other interests conflict with job responsibilities, or situations giving any appearance of impropriety.

Grievance Mechanisms and Non-Retaliation

Suppliers will provide a clearly communicated grievance mechanism, in local languages, for workers to utilize to report integrity concerns, human rights concerns, safety issues, and misconduct without fear of reprisal. Subject to any restrictions imposed by law, suppliers will provide workers with a safe, confidential, and anonymous environment to provide grievance and feedback and will reasonably protect whistleblower confidentiality. Suppliers will also have a process in place for subcontractors and the community associated with the supplier's operations to raise concerns to the supplier. When creating such mechanisms, suppliers should consult potential or actual users on the design, implementation, or performance of the mechanism. Suppliers should periodically assess their grievance mechanism against the UN Guiding Principles' effectiveness

criteria. Suppliers will prohibit all forms of retaliation against those who raise concerns in good faith. Suppliers will also appropriately investigate reports and take corrective action, if needed. Suppliers will cascade these expectations through their own supply chain.

Reporting Concerns to GM

Subject to any restriction posed by law, suppliers will promptly inform GM of any concern related to issues governed by this Code and collaborate with GM in subsequent investigations. GM policy prohibits retaliation against any person reporting such a concern. To report a concern, suppliers can always speak directly to their GM Global Purchasing and Supply Chain representative. In addition, the GM Awareline allows employees, contractors, suppliers, and others to report concerns of misconduct affecting GM. Individuals can file a report 24 hours a day, 7 days a week by phone, web, or email. Individuals filing reports on the GM Awareline can remain anonymous, as permitted by law. The link to access information for GM's Awareline is located here.

Addressing Impacts

Suppliers will cascade this expectation through their own supply chains.

MANAGEMENT SYSTEMS

Suppliers will develop and implement an appropriate internal management system to comply with applicable law and the content of this Code. Suppliers will be able to demonstrate compliance with this Code upon GM's request and will take any action to correct any non--compliance. If requested, suppliers will complete questionnaires or participate in on-site assessment or audits.

The management system should contain the following elements:

Leadership Commitment

Suppliers will clearly identify senior executives and company representatives responsible for ensuring implementation of the management system and associated programs. Senior management should review the status of the management systems on a regular basis.

Stakeholder Engagement

Suppliers will continuously improve their sustainability and stakeholder engagement progress. GM also encourages suppliers to work closely with local communities to implement projects and strategies that improve the community and those who live there.

Risk Assessment and Management

Suppliers will have processes and strategies in place to identify and control business risk, legal compliance, environmental, health and safety, and labor practices and ethics risks associated with the supplier's operations. Suppliers should determine the relative significance for each risk and implement appropriate procedural and physical controls to control the identified risks and meet regulatory compliance. Suppliers will continually monitor and enforce these standards in their operations and supply chain including subcontractors.

Improvement Objectives

Suppliers should conduct a periodic self-assessment, preferably administered through a third party, regarding conformity to legal and regulatory requirements, the content of this Code, and customer contractual requirements related to social and environmental responsibility. Suppliers will also have a process for timely correction of deficiencies identified by internal or external assessments, inspections, investigations, and reviews.

HUMAN RIGHTS POLICY

Effective as of August 17, 2021

Introduction

General Motors Company (GM) understands that long-term success starts with a company's value system and a principled approach to doing business. This policy strives to make clear and transparent how we define, approach, govern and support universal human rights and the dignity of people throughout our operations, our communities in which we operate, and our global supply chain.

Our Commitment

The UN Guiding Principles on Business and Human Rights (the UN Guiding Principles) serve as a guiding framework for our work related to human rights. It establishes that the role of government is to *protect* human rights, the role of business is to *respect* human rights, and that both can play important roles to *remedy* adverse human rights impacts if and when they occur. GM is committed to respecting all internationally recognized human rights, including those described in the Universal Declaration of Human Rights, the International Labour Organization's (ILO) Declaration on Fundamental Principles and Rights at Work (the ILO Core Conventions), the OECD Guidelines for Multinational Enterprises, and the UN Global Compact (to which GM is a signatory).

Workers' Rights

The International Labour Organization (ILO) has established eight fundamental Conventions that cover four fundamental rights at work. Collectively, these are covered in the ILO Declaration on Fundamental Principles and Rights at Work (1998) and are also referred to as the ILO Core Conventions. General Motors commits to respect these rights, which are:

- Freedom of association and the effective recognition of the right to collective bargaining;
- The elimination of all forms of forced or compulsory labor;
- The effective abolition of child labor; and
- The elimination of discrimination in respect of employment and occupation.

In addition, we are committed to the following and expect our suppliers and contractors to share in our commitment as we have set forth in our Supplier Code of Conduct:

- We will provide and maintain safe and healthy working conditions that meet or exceed applicable legal standards for occupational health and safety.
- We will not use or tolerate human trafficking.

- We will comply with all applicable laws concerning working hours.
- We view diversity and inclusion as a strength. We respect what each individual brings to our team. We will not tolerate harassment or discrimination on the basis of race, religion, age, national origin, disability, sexual orientation, gender identity or expression, family status, veteran status, or any other protected class.
- We employ ethical recruitment practices and prohibit recruiters from charging recruitment fees to potential employees and from withholding identity documents. Where our employees have employment contracts, we provide access to those contracts. We pay fair wages.
- We expect our suppliers to commit to respecting each of the ILO Core Conventions as listed above, as well as other human rights, as detailed in our Supplier Code of Conduct. As noted therein, General Motors expects that its suppliers will cascade similar expectations throughout their own supply chains.

Rights of Vulnerable Groups

We recognize and respect the rights of vulnerable groups around the world, such as indigenous peoples, children, and migrant workers. We expect our suppliers to be similarly committed to protecting the rights of vulnerable groups. The rights of these groups have been established and codified in various international conventions, including:

- United Nations (UN) Convention on the Elimination of all Forms of Discrimination against Women (CEDAW), 1979
- UN Convention on the Rights of the Child (CRC), 1989
- International Convention on the Elimination of All Forms of Racial Discrimination (ICERD), 1965
- International Labour Organization (ILO) Convention 107, Indigenous and Tribal Populations Convention, 1957
- ILO Convention 169, Indigenous and Tribal Peoples Convention, 1991
- UN Declaration of the Rights of Indigenous Peoples (UNDRIP), 2007
- UN Convention on the Rights of Persons with Disabilities (CRPD), 2006

We recognize that around the world women face discrimination, lack access to skills and training, and often lack protection of basic rights and laws. We support women's rights and economic inclusion, including support for equal pay.

We commit to neither tolerate nor knowingly contribute to threats, intimidation, or attacks against human rights defenders in relation to our operations. We encourage our suppliers to make the same commitment.

Addressing Impacts

We take seriously our responsibility to identify, prevent, mitigate, and remediate human rights related risks and impacts to which we may cause or contribute. We will implement the necessary policies and processes to fulfill each of these responsibilities.

When we discover potential adverse human rights impacts, we will investigate, and where appropriate, we will engage with potentially affected stakeholders and/or their representatives with the aim of identifying mutually agreeable solutions or remedies and providing for or cooperating in their remediation through legitimate processes.

Similarly, we expect our suppliers to have processes in place to prevent, mitigate, and remediate adverse human rights impacts that they may cause or to which they may contribute and we expect those suppliers to cascade that expectation as well through their own supply chains pursuant to our Supplier Code of Conduct.

Stakeholder Engagement

We support the communities in which we operate and are committed to engage with our stakeholders taking into account their views as we conduct our business.

Privacy

We are committed to respecting the privacy of individuals, including employees and customers. We follow globally recognized privacy principles and strive to implement reasonable and appropriate practices in our collection, use, and sharing of personal information about individuals.

Reporting and Enforcement Mechanism

We put in place several reporting mechanisms and have strong anti-retaliation policies. We monitor our operations and information about our suppliers for potential violations and take action if violations occur, up to and including termination of employment or contract. Employees, suppliers, contractors, or others can report any incidents or concerns using GM's grievance mechanism - our Awareline - 24 hours per day, 7 days per week by phone, Web, or email.

We do not tolerate retaliation against anyone for raising a concern in good faith as reflected in our non-retaliation policy and our non-retaliation expectations are made clear to our suppliers in our Supplier Code of Conduct.

Disclosure

We report our actions and engagement on human rights in our annual sustainability report. We also make public on our website our values, principles, policies, and practices that this policy reinforces.

Addressing Potential Conflicts

General Motors operates in many different jurisdictions subject to different laws and regulations. In situations where our human rights policies are more stringent than local laws, we adhere to our own policies. In situations where laws or regulations in a particular jurisdiction conflict with our policies, we strive to apply our policies and international standards as far as local law allows.

RESPONSIBLE MINERALS SOURCING POLICY

General Motors (GM) is committed to sustainable and responsible sourcing of goods and services throughout our supply chain, including the various extracted minerals from around the world that ultimately become incorporated into our goods or services. As the auto industry's development of electric vehicles matures, responsible sourcing is an increasingly important part of our commitment. We recognize the importance of mitigating any inadvertent adverse impact that GM demand for minerals may cause to the environment, society, and people in regions where the minerals are extracted or processed.

GM understands that certain minerals predominantly originate from Conflict Affected and High-Risk Areas (CAHRA)[1], including the Democratic Republic of Congo ("DRC") and its adjoining countries, where there are heightened concerns that proceeds from minerals could be used to contribute to armed conflict or human rights abuses. In particular, the minerals tin, tungsten, tantalum, and gold ("3TG Minerals") that are extracted or processed in certain geographies and contribute to armed conflict in DRC and its adjoining countries have become commonly referred to as "conflict minerals." Similar concerns exist with additional minerals identified in Appendix A to this policy.

Consistent with our company values, GM's goal is to avoid sourcing minerals in a way that contributes to armed conflict or human rights abuses. GM's goal is also to continue to support the communities in those areas that depend on the mining industry through the sustainable sourcing of minerals in accordance with this policy. We are adopting this policy and have designed our program and due diligence practices in accordance with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict Affected and High Risk Areas(OECD Due Diligence Guidance) in order to address responsible mineral sourcing.

As an organization, we have committed to:

I. Exercise due diligence with relevant suppliers in accordance with the OECD Guidance.
II. Collaborate with customers, suppliers, and industry associations to help develop long term solutions to enable responsible sourcing.
III. Support sourcing initiatives to improve the upstream communities in our supply chain.
IV. Encourage smelters and refiners in our supply chain to successfully complete the Responsible Minerals Assurance Process (RMAP).

What we require of our suppliers:

I. Create and maintain a publicly available responsible minerals policy consistent with the OECD Guidance.
II. Establish due diligence frameworks and management systems consistent with the OECD Guidance.
III. On an annual basis, complete reporting templates for the minerals identified in Appendix A.

IV. Utilize smelters and refiners that conform to an independent third-party responsible minerals sourcing program.
V. Extend these requirements and expectations to all their sub-tier suppliers.

If we determine that a supplier in our supply chain violates one of these responsible sourcing requirements, we will endeavor to obtain an acceptable remediation of the violation, including without limitation directly communicating with suppliers and making available compliance education and training. We may also reassess our business relationship with a supplier if identified violations are not remedied.

1. OECD definition of conflict-affected and high-risk areas: "Conflict-affected and high-risk areas are identified by the presence of armed conflict, widespread violence or other risks of harm to people. Armed conflict may take a variety of forms, such as a conflict of international or non-international character, which may involve two or more states, or may consist of wars of liberation, or insurgencies, civil wars, etc. High-risk areas may include areas of political instability or repression, institutional weakness, insecurity, collapse of civil infrastructure and widespread violence. Such areas are often characterized by widespread human rights abuses and violations of national or international law."

GM shall be entitled to thirty-eight percent (38%) of the Phase Two Product, unless (a) LAC Parent or one of its subsidiaries has not completed its FID Capital Contribution (as defined in the JV Agreement) by the date that is the nine (9) month anniversary of the Execution Date or (b) immediately after such FID Capital Contribution, LAC Parent does not hold at least $51,000,000 of cash net of any financing fees required to be paid by LAC or any of its affiliates, in which case GM shall be entitled to forty-eight percent (48%) of the Phase Two Product (the "Phase Two Share").

1.2. Definition of Commencement of Commercial Production. "Commencement of Commercial Production" means and shall be deemed to have been achieved on the day on which the production facility to be developed for Phase Two (the "Production Facility") has operated for a period of thirty (30) consecutive days at an annualized rate during such period of at least 80% of its final anticipated nameplate capacity per year, as agreed by the Parties at the time of the final investment decision with respect to Phase Two (the "Minimum Annualized Production Rate").

1.3. Phase Two Effective Date. The Phase Two effective date shall commence on the date of the Commencement of Commercial Production (the "Phase Two Effective Date") and shall continue for twenty (20) years after the Phase Two Effective Date (the "Phase Two Term"); provided, however, that, other than with respect to the Stub Period (as defined below), the Phase Two Term shall be extended by an equivalent amount of time for each calendar year in which the Annual Production Forecast (as defined below) (the "MAPR Extension") is less than the Minimum Annualized Production Rate. If there is an MAPR Extension, references to the Phase Two Term shall be to the Phase Two Term as extended by the MAPR Extension (if any).

1.4. [reserved].

1.5. Progress Updates. Supplier will provide to GM written notice of the projected Commencement of Commercial Production at least one hundred eighty (180) days prior to the Commencement of Commercial Production, and thereafter will provide monthly progress updates including any revisions to the projected Commencement of Commercial Production. Supplier shall provide GM with written notice of the Commencement of Commercial Production within five (5) Business Days thereof. For purposes of this Agreement, "Business Day" means any day that is not a

Saturday, Sunday or other day on which national banks in New York, New York, are authorized or required by law to remain closed.

1.6. Purchase Prior to Commencement of Commercial Production. Provided that (a) the Phase One Offtake Agreement has not terminated and (b) GM's currently binding Annual Purchase Forecast for Phase One is equal to the then-binding Annual Production Forecast for Phase One (subsections (a) and (b) together are referred to as the "Phase One Volume Requirement"), GM (for itself or through a Designated Purchaser) shall have the right to purchase up to its full Phase Two Share of all Phase Two Product prior to the Commencement of Commercial Production, in accordance with the provisions of this Agreement but based upon such minimum aggregate shipment quantities and such shipment delivery schedules as well as provisions as to chemical specifications as Supplier and GM shall reasonably agree. Commencing two (2) calendar months prior to the first month in which Supplier reasonably expects the Commencement of Commercial Production for Phase Two Product to occur, by no later than the fifth Business Day of such calendar month and each calendar month thereafter prior to the Commencement of Commercial Production, Supplier will provide to GM a production forecast (the "Monthly Production Forecast") for the second succeeding calendar month (the "Relevant Month"), which identifies, among other things, Supplier's total forecast production of the aggregate quantity of Product expected to be produced in the Relevant Month and the shipping schedule for the Relevant Month (the "Monthly Shipping Schedule"). Within thirty (30) Business Days after receipt of the Monthly Production Forecast, GM must notify Supplier in the form agreed by the Parties from time to time, as to the amount of the consolidated quantity of the Product all GM Buyers elect to acquire in the Relevant Month and confirm the Monthly Shipping Schedule for the Relevant Month and provide Supplier with the amount of Product to be shipped to each GM Buyer. If GM does not give notice within the timeframe specified above, GM, for and on behalf of itself and all of the GM Buyers, shall be deemed to have declined to purchase the Product during the Relevant Month. If GM and/or its Designated Purchasers decline (or have been deemed to decline) to purchase all or any portion of its Phase Two Share of the Phase Two Product produced prior to the Commencement of Commercial Production, Supplier shall be entitled (but not obligated), in its discretion, to sell such Product to any Person. The ROFO Provisions set forth in Section 3 are not applicable to any sales described in this Section 1.6.

1.7. Evaluation of Lithium Hydroxide. The Parties will evaluate the technical and financial feasibility for Supplier to conduct operations to further process the Product to produce lithium hydroxide. If the Parties agree to the development of a lithium hydroxide production facility, the Parties will amend this Agreement to establish mutually agreed upon terms for the purchase and sale of lithium hydroxide. In the event the Parties are unable to reach agreement on such amended terms to be made to this Agreement, the Parties agree to resolve any differences in accordance with the dispute resolution procedures set forth in Section 18 of the General Terms.

1.8. Operational Details. The Parties will also work together throughout the Phase Two Term, each acting in good faith to agree on, as needed, further operational details regarding, among other things, the purchase process, logistics, sampling, transportation and delivery of the Product; provided, however, that any such additional details shall not supersede the terms of this Agreement unless agreed by the Parties in writing.

2. Volumes.

2.1. GM Buyers.

(A) Supplier shall sell the Phase Two Share to GM or any purchaser (for the avoidance of doubt, which may include GM affiliates or tiered suppliers) designated by GM and pre-approved in writing by Supplier (such approved purchasers, the "Designated Purchasers" and, collectively with GM, the "GM Buyers" or each a "GM Buyer").

(B) Supplier shall not unreasonably refuse or delay approval of a Designated Purchaser designated by GM. For clarity, if Supplier has terminated a Designated Purchaser Agreement (as defined below) as a result of a default of the applicable Designated Purchaser, such Designated Purchaser will no longer be deemed to be a Designated Purchaser that has received the approval of Supplier, and Supplier will provide GM with written notice thereof. If GM determines that a Designated Purchaser shall no longer be a Designated Purchaser pursuant to this Agreement, GM will provide notice of such termination to Designated Purchaser and Supplier.

2.2. Option Phase Two Volume. For each year during the Term that GM is satisfying any then applicable Phase One Volume Requirement, Supplier grants to GM an option for GM Buyers to purchase up to its Phase Two Share of all Product that Supplier produces for the Phase Two Production Facility (the "Phase Two Volume"). It is understood and agreed by GM that during any period that GM purchases Phase Two Volume pursuant to this Agreement, GM will purchase a minimum volume of Product equal to the lesser of: (i) the lithium carbonate equivalent of [***] percent of GM's requirements for lithium that is necessary for use in the production of battery cells manufactured by GM or its affiliates, subsidiaries, or joint venture partners in North America ([***] percent is an aggregated figure under this Agreement and the Phase One Offtake Agreement); or (ii) [***] percent of the Phase Two Volume. For clarity, upon termination of the Phase One Offtake Agreement, the Phase One Volume Requirement will be zero when considering if GM is eligible to exercise its option to the Phase Two Volume and if GM exercises such option, each reference to [***] percent in clause (i) above will be [***] percent such that GM's minimum purchase obligation will be [***] of GM's requirements for lithium that is necessary for use in the production of battery cells manufactured by GM or its affiliates, subsidiaries, or joint venture partners in North America.

2.3. Annual Production Forecast. If GM exercises its option consistent with the requirements of Section 2.2 above, Supplier will, not later than ninety (90) days prior to the Phase Two Effective Date (with respect to the period of time from the Phase Two Effective Date through December 31 of the year in which the Phase Two Effective Date occurs (the "Stub Period")); and thereafter by July 31 of each year of the Phase Two Term, provide to GM the estimated total Phase Two Volume multiplied by the Phase Two Share for the following [***] calendar years (the "Annual Production Forecast"). The [***] of each Annual Production Forecast shall represent the binding forecast from Supplier for the subsequent [***], which shall be delivered to GM in accordance with the Shipping Schedule (as defined below) set forth in Section 2.5 below. The [***] of each Annual Production Forecast is non-binding. Reference is made to Exhibit G for a summary of the provisions of Sections 2.3 through 2.7 (although such Exhibit G does not modify such Sections but is merely intended to be a shorthand summary for ease of reference purposes).

2.4. Annual Purchase Forecast. GM will, not later than: (i) forty-five (45) days after receipt of the Annual Production Forecast (with respect to the Stub Period); or (ii) August 31 of each year of the Phase Two Term, notify Supplier of the quantity of Product which GM Buyers will purchase in each quarter of the Stub Period or the subsequent [***] calendar years, as applicable (the "Annual Purchase Forecast"). The [***] of each Annual Purchase Forecast shall constitute a firm obligation of GM to (directly or in combination with the Designated Purchasers) purchase that quantity of Product during the applicable [***] (the "Annual Quantity"). The [***] of each Annual Production Forecast shall not constitute a firm obligation of GM to purchase that quantity of Product.

2.5. Seller Quarterly Production Forecast. Supplier will, no later than the fifth Business Day of each calendar quarter (each, a "Quarter"), provide to GM a rolling twelve (12)-month production forecast (the "Seller Quarterly Production Forecast") that is consistent with the Annual Production Forecast and identifies, among other things: (A) Supplier's total forecast production of the aggregate quantity of Product expected to be produced for the next four (4) Quarters multiplied by the Phase Two Share; and (B) the shipping schedule for the next Quarter. The shipping schedule will identify each relevant GM Buyer based on the prior Quarter's Buyer Quarterly Purchase Forecast provided by GM under Section 2.6 ("Shipping Schedule"). In no event shall the Shipping Schedule for the first Quarter provide for a shortfall of more than [***]% from the quantity set forth in any Seller Quarterly Production Forecast and a shortfall of more than [***]% from the quantity in Quarters two, three and four of the Seller Quarterly Production Forecast (each, the "Permitted Variance"). Reference is made to Exhibit E for an example of a Seller Quarterly Production Forecast. Any shortfall in a Shipping Schedule shall not reduce the binding annual quantity of Product set forth in an Annual Production Forecast and Annual Purchase Forecast, and any such shortfall in one Quarter shall be made up by Supplier in a subsequent Quarter.

2.6. Buyer Quarterly Purchase Forecast. GM must, within twenty (20) Business Days after receipt of the Seller Quarterly Production Forecast: (A) notify Supplier in the form agreed by the Parties from time to time, as to the amount of the consolidated quantity of the Product all GM Buyers elect to acquire in each Quarter identified in the Seller Quarterly Production Forecast (the "Buyer Quarterly Purchase Forecast"); and (B) confirm (or, in accordance with Section 2.7, request changes to) the Shipping Schedule for the next Quarter and provide Supplier with the amount of Product to be shipped to each GM Buyer. Reference is made to Exhibit E for an example of a Buyer Quarterly Purchase Forecast. If GM does not give notice within the timeframe specified above, GM, for and on behalf of itself and all of the GM Buyers, is deemed to have elected to exercise its option to purchase the same proportion of its Phase Two Share of the available Product that was exercised by all GM Buyers in the prior Quarter and to accept the Shipping Schedule for the next Quarter.

2.7. Modifications to Quantity of Product. Supplier will have five (5) Business Days following receipt of each Buyer Quarterly Purchase Forecast in which to notify Buyer that Supplier confirms, or proposes modifications to, the quantity of Product set out for the first Quarter in each Buyer Quarterly Purchase Forecast based upon operational timelines at the Production Facility. Any modifications proposed by Supplier shall be set out in such notice. If Supplier so confirms, or does not give any such notice within such five (5) Business Day period, the quantity of Product set out for the first Quarter in such Buyer Quarterly Purchase Forecast will constitute the firm order quantity of Product to be shipped during that Quarter (the quantities for the other four (4) Quarters being estimates only) (the "Quarterly Delivery Quantity"). If Supplier has notified GM within the above five (5) Business Day period of proposed modifications to the Quarterly Delivery Quantity, the Parties shall promptly discuss and resolve any such proposed quantity modifications.

2.8. Unallocated Phase Two Product. Supplier agrees that all Product produced from the Supplier's Phase Two Production Facility at the Project during the Phase Two Term shall be allocated and sold pursuant to this Agreement. If GM declines (or is not eligible to exercise due to a failure to purchase the Phase One Volume Requirement) its option to purchase any of the Phase Two Share of the Phase Two Product in accordance with this Agreement (or is deemed to have done so), Supplier shall have the full and unrestricted right to sell all or part of such Phase Two Share of the Phase Two Product to other purchaser(s) on any terms that Supplier is able to negotiate. For the avoidance of doubt, GM declining to purchase its Phase Two Share of any specific Phase Two Product shall have no impact on GM's option to purchase its subsequent Phase Two Share of available Phase Two Product, and Supplier shall not have the full and unrestricted right to sell the Phase Two Share of any Phase Two Product to other purchaser(s) until GM declines its option to purchase its Phase Two Share of such specific Phase Two Product. The ROFO Provisions set forth in Section 3 are not applicable to any sales described in this Section 2.8.

2.9. Purchase Orders. With respect to all purchases of Product by GM Buyers pursuant to this Agreement:

(A) The GM Buyer will issue to Supplier, and Supplier will accept, one or more blanket purchase orders for purchase of the Product pursuant to which Supplier will produce and deliver Product in accordance with the firm portion of the Annual Purchase Forecast and the Seller Quarterly Production Forecast and releases to be communicated to Supplier setting forth the quantities of Product to be delivered and the delivery dates in accordance with the Shipping Schedule and subject to the Permitted Variance in Quarterly Shipping Schedules set forth in Section 2.5 (all such purchase orders, together with any related releases or agreements, each a "Purchase Contract"). Such Purchase Contract will be made pursuant to the terms and conditions of this Agreement including the General Terms and shall not modify the terms of this Agreement.

(B) Payment terms for each release of Product under a Purchase Contract shall be net [***] days following the GM Buyer's receipt of the Product at the GM Buyer's facility but not later than [***] days after first loading of the Product at the Project or the Alternate Location (as defined in the General Terms).

2.10. Designated Purchasers.

(A) For the avoidance of doubt, the volumes of Product in this Agreement are in the aggregate and apply to all purchases made under this Agreement, whether by GM or any other Designated Purchaser.

(B) A GM Buyer that is identified in the Buyer Quarterly Purchase Forecast will be responsible for issuing Purchase Orders, making payment and receiving Product, all subject to the terms of this Agreement with respect to GM or the Designated Purchaser Agreement with respect to any Designated Purchaser. GM will provide any Designated Purchaser written notice of the price to be paid by Designated Purchaser to Supplier for the Product pursuant to this Agreement, with a copy of such notice to be provided by GM to Supplier.

(C) Following the notification by GM to Supplier of any Designated Purchaser: (i) sales to such Designated Purchaser will be subject to the Designated Purchaser entering into a direct agreement with Supplier substantially in the form attached to this Agreement as **Exhibit B** (the "Designated Purchaser Agreement"), which such Designated Purchaser Agreement may be modified prior to its execution by mutual agreement by Supplier and GM.

(D) Any Purchase Contract or order placed by a Designated Purchaser shall create an independent contractor relationship between Supplier and such Designated Purchaser, and GM shall not guaranty any obligations of any Designated Purchaser and Supplier's sole remedy for any breach of a Designated Purchaser Agreement by a Designated Purchaser shall be to enforce Supplier's rights against a Designated Purchaser pursuant to such Designated Purchaser Agreement and under applicable law.

(E) In the event that Supplier assigns its rights under this Agreement as contemplated by Section 16.7, Supplier will provide notice of such assignment within five (5) Business Days to all Designated Purchasers with whom Supplier has executed a Designated Purchaser Agreement, and shall contemporaneously provide a written copy of such notice to GM.

2.11. Right to Phase Two Product. In the event that Supplier or any affiliate sells any Phase Two Product to another Person other than GM and/or its Designated Purchasers in accordance with this Agreement, and Supplier is unable to provide GM and/or its Designated Purchasers with the quantity of Product set forth in the Buyer Quarterly Purchase Forecast—whether due to a force majeure event (as defined in the General Terms) or otherwise—Supplier and its affiliates shall allocate any Phase Two Product such that GM receives not less than its pro rata share of actually produced Phase Two Product; provided that, if GM and/or its Designated Purchasers have purchased lithium carbonate from one or more third parties to replace undelivered Product under this Agreement during a force majeure event impacting Supplier, this Section 2.11 shall not apply to the extent of such purchases from third parties.

3. Right of First Offer for Phase Two Product.

3.1. Certain Defined Terms. For the purposes of this Section 3: (i) "Trigger Point" is the date upon which Supplier reasonably anticipates is 16 months prior to the final investment decision with respect to Phase Two and provides GM with written confirmation of its development plan for Phase Two; and (ii) "ROFO Provisions" are the provisions of this Section 3 pursuant to which Supplier grants to GM a right of first offer with respect to the remaining Phase Two Product not covered by GM's Phase Two Share.

3.2. Notice of Trigger Point. Supplier agrees to send a written notice to GM advising of the Trigger Point as and when the same has been reasonably ascertained. If the Trigger Point is subject to change, Supplier shall promptly send one or more written notices to GM updating the Trigger Point.

3.3. Compliance with ROFO Provisions. During any period that GM is in compliance with the Phase One Volume Requirement and additionally GM has committed in the then-binding Annual Purchase Forecast to purchase the entire Phase Two Share identified in the binding Annual Production Forecast of the Phase Two Product, Supplier (directly or through an affiliate) cannot offer to sell the remaining Phase

Two Product not covered by GM's Phase Two Share to a third Person (a "Phase Two Product Transaction") unless and until Supplier has first complied with the provisions of this Section 3. For clarity, without the prior written consent of GM, Supplier cannot implement the ROFO Provisions or enter into a Phase Two Product Transaction prior to the Trigger Point.

3.4. ROFO Notice. If, after the Trigger Point, Supplier (directly or through an affiliate) desires to enter into a Phase Two Product Transaction, Supplier shall first deliver a notice in writing (the "ROFO Notice") to GM whereby the Supplier offers to enter into a Phase Two Product Transaction with GM on the terms and conditions set out in the ROFO Notice (the "Sale Terms").

3.5. Sale Terms. The Sale Terms shall include, to the extent applicable, the price for the Phase Two Product as well as any attendant investment in and/or provision of capital or other consideration to either Supplier and/or the Project as well as all other material terms and conditions in reasonable detail.

3.6. Evaluation Period. For a period of twenty (20) Business Days after receipt of the ROFO Notice (the "Evaluation Period"), GM shall have the right to send a written notice to Supplier (the "Offer Response"). If, during the Evaluation Period, Supplier amends or modifies the terms and conditions set forth in the ROFO Notice prior to receiving the Offer Response from GM, the Evaluation Period shall reset. The Offer Response shall set out whether: (i) GM is not interested in pursuing the Phase Two Product Transaction; (ii) GM is willing to pursue the Phase Two Product Transaction on the terms and conditions set out in the ROFO Notice, including without limitation, the Sale Terms; or (iii) GM is willing to pursue the Phase Two Product Transaction, but with alterations/amendments/revisions to the terms and conditions set out in the ROFO Notice, including without limitation, the Sale Terms (the "Suggested Revised Terms"). If no Offer Response is sent by GM to Supplier within the Evaluation Period, then GM is deemed to have elected the option described in Subsection 3.6(i).

3.7. Non Response – Offeree Commercial Agreement. If the Offer Response is as set out in Subsection 3.6(i) or is deemed to be as set out in Subsection 3.6(i), Supplier (directly or through an affiliate) shall have a period of one hundred eighty (180) days after the receipt (or non-receipt) of such Offer Response to negotiate with a third Person (the "Offeree") a Phase Two Product Transaction and to enter into a binding agreement of purchase and sale or other form of commercial agreement, as the case may be (the "Commercial Agreement") with the Offeree, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent. If the Commercial Agreement is not executed and delivered within such time frame then the ROFO Provisions shall reset and again be applicable to any subsequent contemplated Phase Two Product Transaction.

3.8. Standard ROFO Negotiation Period. If the Offer Response is as set out in Subsection 3.6(ii), Supplier and GM shall, each acting in good faith, for a period of a further one hundred sixty (160) days (the "Standard ROFO Negotiation Period") negotiate the binding Commercial Agreement, based on the Sale Terms, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent.

3.9. End of Standard ROFO Negotiation Period – Offeree Commercial Agreement. If, by the end of the Standard ROFO Negotiation Period, Supplier and GM have not executed and delivered a binding Commercial Agreement based on the Sale Terms, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent, then Supplier shall have a period of one hundred eighty (180) days after the last day of the Standard ROFO Negotiation Period, to negotiate with an Offeree a Phase Two Product Transaction on terms and conditions that are materially better (considered as a whole package) to Supplier than those set out in the ROFO Notice and to enter into a binding Commercial Agreement with the Offeree, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent. Supplier shall not disclose to an Offeree any of the information provided by GM to Supplier in the Offer Response or during the Standard ROFO Negotiation Period. In considering whether the terms and conditions are materially better, the Parties shall take into consideration, among other things, the offtake price, volume, investment quantum, form of investment, timing, execution risk, and government relations. If the Commercial Agreement is not executed and delivered within such time frame, then the ROFO Provisions shall reset and again be applicable to any subsequent contemplated Phase Two Product Transaction.

3.10. Revised ROFO Negotiation Period. If the Offer Response is as set out in Subsection 3.6(iii), Supplier and GM shall, each acting in good faith, for a period of a further one hundred sixty (160) days (the "Revised ROFO Negotiation Period") negotiate mutually acceptable alterations/amendments/revisions to the terms and conditions set out in the ROFO Notice, including without limitation, the Sale Terms (the "Revised Terms") as well as, to the extent applicable, the binding Commercial Agreement, based on such mutually acceptable Revised Terms, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent.

3.11. End of Revised ROFO Negotiation Period – Offeree Commercial Agreement. If by the end of the Revised ROFO Negotiation Period, Supplier and GM have not negotiated mutually acceptable alterations/amendments/revisions to the terms and conditions set out in the ROFO Notice, including, without limitation, mutually acceptable Revised Terms, or, have not executed and delivered a binding Commercial Agreement based on the mutually acceptable Revised Terms, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent, then Supplier (directly or through an affiliate) shall have a period of one hundred eighty (180) days after the last day of

the Revised ROFO Negotiation Period, to negotiate with an Offeree a Phase Two Product Transaction on terms and conditions that are materially better (considered as a whole package) to Supplier (directly or through an affiliate) than the Suggested Revised Terms set out in the Offeree Notice and to enter into a binding Commercial Agreement with the Offeree, which binding Commercial Agreement, for clarity, may provide that closing is conditional upon the satisfaction of conditions precedent. Supplier (directly or through an affiliate) shall not disclose to an Offeree any of the information provided by GM to Supplier in the Offer Response or during the Revised ROFO Negotiation Period. In considering whether the terms and conditions are materially better, the Parties shall take into consideration, among other things, the offtake price, volume, investment quantum, form of investment, timing, execution risk, and government relations. If the Commercial Agreement is not executed and delivered within such time frame then the ROFO Provisions shall reset and again be applicable.

3.12. Clarification as to Due Diligence. For clarity, it is understood and agreed that the fact that an Offeree may have a right to conduct a due diligence investigation of the Supplier (and/or its applicable affiliates) and/or the Project and to receive customary representations and warranties and indemnities from Supplier shall not be considered for purposes of determining whether the terms are materially better (considered as a whole package) to Supplier.

3.13. Limitation on Term of Commercial Agreement with Third-Party. Notwithstanding anything herein to the contrary, if, consistent with the ROFO Provisions set forth above, Supplier enters into a Commercial Agreement with an Offeree for Product beginning prior to or at the Effective Date, the term of such Commercial Agreement shall not exceed (i) twelve (12) years if such Commercial Agreement is entered into in connection with the financing or funding for Phase Two or (ii) five (5) years if not required to support the financing or funding for Phase Two. For Commercial Agreements with an Offeree entered into after the Effective Date, the term of such Commercial Agreement shall not, without GM consent, exceed three (3) years from the date that GM declines (or is deemed to decline or not entitled) to exercise the ROFO.

4. Pricing.

4.1. Quarterly Price. Pricing for the Phase Two Product, including any Phase Two Product produced at the Production Facility prior to the Commencement of Commercial Production, will be set Quarterly (the "Quarterly Price"), as set forth in Section 4.2. Once the Quarterly Price is established, such price will be fixed for the duration of the relevant Quarter, and GM will communicate the Quarterly Price in writing to all GM Buyers purchasing Product during such Quarter, and shall provide a copy of such notice to Supplier. The Quarterly Price shall not include duties, tariffs, taxes, or other government-imposed charges applied to the sale of the Product hereunder, all of which will be invoiced by Supplier and paid by GM or the Designated Purchaser, as applicable.

4.2. Fastmarkets MB Price. The Quarterly Price will be the average Fastmarkets MB Price (the "Fastmarkets MB Price") price per tonne for lithium carbonate, averaged over the prior Quarter (the "Reference Price"), less a discount as calculated in accordance with Section 4.3 (the "Discount"). The Fastmarkets MB Price shall be the average of the daily average price published by Fastmarkets MB LI-0029: Lithium Carbonate 99.5% Li2CO3 min, Battery Grade Spot Price CIF China, Japan and Korea Index ($ per kg) during the applicable reference period. Supplier shall convert the $ per kg reported by Fastmarkets MB to $ per tonne. In the event that (a) the Fastmarkets MB Price ceases to be published, or (b) in the reasonable opinion of either GM or Supplier (i) the Fastmarkets MB Price (or individual transactions within the index) cease to represent, or (ii) an alternative index becomes commercially available that more accurately represents an appropriate arms' length price for the sale and purchase of lithium carbonate of similar quality and in a similar location as the Product, GM and Supplier will negotiate and agree in good faith to a replacement index, the exclusion of certain transactions for a relevant period, or other mutually acceptable means of objectively determining an arms' length basis for pricing of the Product. The Phase Two Product will not have a floor price.

4.3. Discount. The Discount will be calculated using a weighted average cumulative tiered structure based on the following.

Reference Price (US $/t)	**Discount**
$15,000 - $24,999	[***]%
$25,000 - $34,999	[***]%
> $35,000	[***]%

For illustration purposes only, if the Reference Price for Product for the prior calendar quarter was $37,500 per tonne, the Discount would be calculated as follows:

Discount = (24,999-15,000)*[***]% + (34,999-25,000)*[***]% + (37,500-35,000)*[***]% = $[***] or [***]%

Discount selling price = $37,500 - $[***] = $[***] per tonne

4.4. Renegotiate Pricing. GM and Supplier shall meet periodically in good faith to discuss and potentially renegotiate the pricing structure set forth in this Section 4 (upward or downward) based on Supplier's actual operating results and reasonable transparency, with consideration to global inflation, operational and investment efficiencies, and other relevant factors over time.

5. Delivery Location, Title, and Incoterms. Product shall be delivered in accordance with Section 2 of the General Terms. If and only if GM and Supplier agree to an Alternate Location (as defined in the General Terms), GM will provide written notice of such Alternate Location to any Designated Purchaser and will provide a copy of such written notice to Supplier.

6. Product Specification.

6.1. Chemical Specifications. The initial specification, packaging, and concentration requirements for the Product are set forth in Exhibit C (collectively, the "Specifications"). Final chemical specifications, including inert chemical specifications, will be provided by the GM Buyer no later than twelve (12) months before the Commencement of Commercial Production. Supplier will provide a Certificate of Analysis ("COA") with all deliveries of Product to GM Buyers. The required contents of the COA will be defined in the Specifications, including the results of any required chemical, physical or other performance testing.

6.2. Changes to Specifications. Following the final investment decision with respect to Phase Two, GM and Supplier shall discuss on an annual basis any proposed changes to the Specifications for the following year, in all cases upon at least twelve (12) months' prior written notice. Any changes to the Specifications and timing of implementation of such changes shall be as agreed in writing by the Parties. Any additional processing costs arising from changes to the Specifications requested by GM shall be paid by GM or the Designated Purchaser.

7. Confidentiality.

7.1. Non-Agreement Information. GM does not expect to receive any confidential technical or related information (the "Non-Agreement Information") from Supplier or LAC Parent, and GM will not be subject to confidentiality or nondisclosure obligations with respect to any such Non-Agreement Information (including Section 15 of the General Terms) unless Supplier and LAC Parent on the first hand and GM on the second hand have agreed to confidentiality and nondisclosure obligations in a writing signed by their respective authorized representatives that expressly applies to such Non-Agreement Information (a "Standalone CA"). Supplier and LAC Parent agree not to assert any claim (other than for breach of a Standalone CA) with respect to any Non-Agreement Information that Supplier or LAC Parent has disclosed or may hereafter disclose to GM, the Designated Purchasers, or their respective affiliates and subsidiaries.

7.2. GM Information. Supplier and LAC Parent shall not, and shall ensure that their respective affiliates shall not, publicly disclose any information regarding GM or any of its affiliates, GM's purchase of its Phase Two Share of the Phase Two Product under this Agreement, or the Designated Purchasers under the Designated Purchaser Agreements (collectively, "GM Information") without the prior written consent of GM, provided, that no consent of GM shall be required for Supplier or LAC Parent to disclose GM Information if such disclosure is required: (i) by

applicable securities laws, including, for greater certainty, the rules of any stock exchange upon which securities of Supplier or LAC Parent or any of their respective affiliates are traded; or (ii) to the extent necessary to enforce this Agreement including without limitation for the purposes of dispute resolution as set forth in Section 18 of the General Terms; provided that Supplier or LAC Parent, as the case may be shall (x) to the extent feasible in accordance with the requirements of applicable law, give prior written notice to GM and an opportunity for GM to review and comment on the requisite disclosure before it is made, including an opportunity for GM to prevent such disclosure and (y) use commercially reasonable efforts to incorporate GM's comments or limit such disclosure, by seeking confidential treatment or otherwise. Any disclosures made by Supplier or LAC Parent pursuant to Section 15 of the General Terms shall comply with the terms of this Section 7.2. This Section 7.2 shall survive for a period of two years following the expiration or termination of this Agreement.

7.3. Notice to Designated Purchaser. Any notice required to be provided by Supplier to a Designated Purchaser pursuant to Section 15 of the General Terms (as will be incorporated into the General Terms attached to any Designated Purchaser Agreement) will contemporaneously be provided by Supplier to GM, and GM shall have all of the same rights as the Designated Purchaser with respect to the disclosure of such confidential information.

8. Sampling and Testing; Material Origin; Special Warnings and Instructions.

8.1. Responsible and Ethical. Supplier represents and warrants that the lithium material mined and supplied to GM will be sourced in a responsible and ethical manner. Supplier will undergo a third party Environmental Social, and Governance ("ESG") independent assessment at Supplier's mining facility pursuant to one of the following two approved responsible sourcing frameworks: (i) the Responsible Minerals Initiative: The Responsible Minerals Assurance Process ("RMAP"); or (ii) the Initiative for Responsible Mining Assurance ("IRMA") Standard for Responsible Mining. In the event that (a) the RMAP or IRMA assessments are no longer available, or (b) in the reasonable opinion of either GM or Supplier (i) the RMAP or IRMA assessment ceases to be a credible independent assessor of responsible sourcing framework, or (ii) another independent, credible assessor becomes available, GM and Supplier will discuss in good faith and may agree in writing to an alternative third party ESG assessment/protocol of Supplier.

8.2. RMAP Assessment. If Supplier selects the RMAP assessment for their mining facility/operations, Supplier will schedule the assessment within six (6) months from the Phase Two Effective Date and begin that assessment within one (1) year from the Phase Two Effective Date. Supplier shall be fully conformant or carry an active status to this framework throughout the Phase Two Term starting one (1) year after the Phase Two Effective Date. In each RMAP assessment, Supplier shall incorporate the Responsible Minerals Initiative Environmental, Social and Governance add-on assessment. The results of this ESG assessment will be shared

with GM, and GM and Supplier will mutually agree upon any necessary corrective action plan (including timing) to address gaps identified during such assessment.

8.3. IRMA Engagement. If Supplier selects the IRMA Standard for Responsible Mining for its mining facility/operations, the IRMA engagement must include a completed IRMA approved independent third-party audit at Supplier's mine site. This audit shall be completed by eighteen (18) months from the Phase Two Effective Date. Following this independent third-party audit, Supplier shall share with GM the results (audit report) of their IRMA audit. GM and Supplier shall mutually agree upon a timeline for resolving (i.e., corrective action plan) any critical requirements that were not fully met during the audit to ensure continuous ESG improvement at the mine site during the Phase Two Term.

8.4. Feedstock Supplemented. If, during the Phase Two Term, the mine source (feedstock) changes from the initial mine site, or if the initial mine source (feedstock) is supplemented with another mine site, Supplier shall notify GM immediately and shall work with GM to ensure that the responsible sourcing standards set forth in this Section 8 are incorporated at all additional mine site(s).

9. Audit.

9.1. Responsible and Ethical. Supplier represents and warrants that the Product will be processed in a responsible and ethical manner throughout the term of this Agreement. Supplier agrees that its mineral processing facility will be conformant and actively engaged to one of the following two approved independent third party responsible sourcing (i.e., ESG) frameworks (i.e., Standards): (i) the RMAP by the Responsible Minerals Initiative ("RMI"); or (ii) the IRMA Mineral Processing Standard by the Initiative for Responsible Mining Assurance. In the event that (a) the RMAP or IRMA assessments are no longer available, or (b) in the reasonable opinion of either GM or Supplier (i) the RMAP or IRMA assessment ceases to be a credible independent assessor of responsible sourcing framework, or (ii) another independent, credible assessor becomes available, GM and Supplier will discuss in good faith and may agree in writing to an alternative third party ESG assessment/protocol of Supplier.

9.2. Responsible Sourcing. If Supplier elects to satisfy its commitment to responsible sourcing at its mineral processing facility through the RMI framework, Supplier agrees to meet the obligations set forth by the RMI to be conformant or active to the RMAP. Thus, on an annual basis, Supplier agrees to procure an independent third-party responsible sourcing assessment (i.e., audit) at Supplier's mineral processing (i.e., smelting/refining) facility, that will demonstrate to GM that Supplier's management systems and sourcing practices are in conformance with the RMAP standards. The approved responsible sourcing assessment is conducted by the RMI. Through successful completion (conformant or active status) of this assessment, the Supplier will demonstrate alignment to the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict Affected and High-Risk Areas and the commitments adopted by the RMI in the RMI's Global

Responsible Sourcing Due Diligence Standard for Mineral Supply Chains All Minerals, and be assessed by an independent, RMI-approved third-party auditor. Supplier agrees that its processing facility shall be fully conformant or carry an active status to this framework throughout the term of this Agreement starting one (1) year after the Execution Date.

9.3. RMI ESG Add On Assessment. In each RMAP assessment, Supplier also agrees to incorporate at its mineral processing facility the RMI ESG add-on assessment. The results of this ESG assessment will be shared with GM, and GM and Supplier will mutually agree upon any necessary corrective action plan (including timing) to address gaps identified during such assessment.

9.4. Engagement with IRMA. If Supplier chooses to satisfy its commitment to responsible sourcing at its mineral processing facility through active engagement with the IRMA Mineral Processing Standard, such commitment shall require completion of IRMA's Mineral Processing Standard by an independent third-party auditor (i.e., not a self-assessment) at Supplier's mineral ore processing facility. This audit shall be completed by eighteen (18) months after the Phase Two Effective Date. Following this third-party audit, Supplier shall share with GM the results (audit report) of the IRMA audit. GM and Supplier shall mutually agree upon a timeline for resolving (i.e., corrective action plan) any critical requirements that were not fully met during the audit to ensure continuous ESG improvement at the mineral processing facility over the term of this Agreement.

9.5. Artisanal or Small Scale Mining. Supplier will: (a) promptly notify GM if Supplier becomes aware of any instance of artisanal or small-scale mining lithium or lithium-containing product entering Supplier's operations or supply chain related to this Agreement; (b) promptly notify GM if Supplier becomes aware of any instance of a subcontractor of Supplier providing any materials or services related to this Agreement failing to comply with any material provision of Supplier's standards; (c) promptly notify GM of the occurrence of any event where Supplier's compliance officer is notified of any event that is likely to negatively affect people, environment or company reputation relating to this Agreement together with an explanation of Supplier's prevention and mitigation plan for same; and (d) promptly notify GM of any NGO or media requests relating to Supplier's supply of Product to GM, and will fully cooperate with GM in preparing a response thereto.

9.6. Media Requests. If GM notifies Supplier of any NGO or media requests relating to Supplier's supply of Product to GM, Supplier will fully cooperate with providing to GM such information as GM reasonably requests for GM's use in preparing a response thereto. The Parties will mutually agree on any information provided by Supplier in accordance with this provision prior to disclosure of such information.

10. Inflation Reduction Act Considerations.

10.1. Lithium Processing Location. Supplier acknowledges that the Product will be used to manufacture or assemble Lithium-Ion Batteries that will ultimately be incorporated by GM into vehicles that may be eligible for a "Clean Vehicle Credit" under Section 30D of the Internal Revenue Code of 1986, as amended (the "Code"). The lithium is processed into carbonate in Thacker Pass, Nevada. Supplier will not change the lithium processing location without first obtaining GM's advance written consent which shall not be unreasonably delayed or withheld. The Parties agree that GM may reasonably consider such alternate location's impact on the GM vehicles into which the Product is incorporated qualifying for the Clean Vehicle Credit. For clarity, written consent to relocate the lithium carbonate processing must be obtained directly from GM notwithstanding any agreement(s) pursuant to which a Designated Purchaser actually purchases the Product. Supplier covenants and agrees that the Product will not be extracted, processed or recycled by a foreign entity of concern, as described in Section 30D of the Code. Supplier agrees to provide GM with information and detail as is reasonably requested by GM to support GM's calculations and certifications in order for GM to maximize the Clean Vehicle Credits under Section 30D of the Code. Supplier further agrees to exercise reasonable effort in good faith to enable GM to maximize the Clean Vehicle Credits under Section 30D of the Code.

10.2. Lithium Extraction Attestations.

Supplier covenants and agrees that no portion of the lithium will be extracted, processed or recycled by a *foreign entity of concern*, as such term is defined in Section 30D of the Code. Supplier will provide attestations, signed by an officer of Supplier, that such lithium was not extracted, processed or recycled by a foreign entity of concern under Section 30D of the Code. Such attestation shall be in form and substance acceptable to GM and consistent to satisfy GM's obligations under Section 30D of the Code, including any regulations, notices or guidance thereunder.

11. Access to Information, ESG Committee and Annual Review.

11.1. Access to Information.

GM will have access and information rights to Supplier's Phase Two Production Facility and mine location and Supplier will permit GM and the Designated Purchasers a minimum of four (4) aggregated and a maximum of eight (8) aggregated site visits to the Phase Two Production Facility (only) per year. GM will comply with all health and safety regulations of Supplier. Such site visits will be at the sole risk, cost and expense of GM. GM shall give Supplier a minimum of 72 hours prior written notice in advance of each site visit. Each such site visit shall not interfere with the operations of Supplier. To the extent Supplier changes or adds a new lithium processing location in accordance with Section 10.1 of this Agreement, GM's rights pursuant to this Section 11.1 shall also apply to such additional locations. These access and information rights shall include access to Supplier's

premises and books and records for the purpose of auditing Supplier's compliance with the terms of this Agreement and any Designated Purchaser Agreement (including, without limitation, charges under this Agreement and any Designated Purchaser Agreement) or inspecting or conducting an inventory of finished Products, work-in-process, raw materials, and all work or other items to be provided pursuant to this Agreement located at Supplier's premises. Supplier will cooperate with GM and the Designated Purchasers so as to facilitate such audit, including, without limitation, by segregating and promptly producing such records as GM and any Designated Purchaser may reasonably request, and otherwise making records and other materials accessible to GM and any Designated Purchaser. Supplier will preserve all records pertinent to this Agreement and any Designated Purchaser Agreement, and Supplier's performance under this Agreement and any Designated Purchaser Agreement, for a period of not less than one year after any GM Buyer's final payment to Supplier under this Agreement and any Designated Purchaser Agreement. Any such audit or inspection conducted by GM and any Designated Purchaser or their representatives will not constitute acceptance of any Products (whether in progress or finished), relieve Supplier of any liability under this Agreement or any Designated Purchaser Agreement or prejudice any rights or remedies available to GM.

11.2. ESG Committee.

GM and Supplier will establish an ESG committee (the "ESG Committee") to collaborate on key initiatives such as responsible sourcing. The ESG Committee will meet at least once per Quarter, unless otherwise mutually agreed by the Parties.

11.3. Annual Review Meetings.

The Supplier and GM shall meet at least once per calendar year during the Phase Two Term as reasonably appropriate on a date and location mutually agreeable to the Supplier and GM (each a "Review Meeting"). At each Review Meeting the Supplier and GM shall seek to address and discuss any outstanding issues under this Agreement, including without limitation, the reconciliation of purchase orders with respect to the then current Annual Quantity.

12. Compliance Obligations.

Supplier will use all reasonable endeavors to at all times comply with GM's Supplier Code of Conduct, GM's Human Rights Policy and GM's Responsible Minerals Sourcing Policy, attached to this Agreement as **Exhibit D**. Supplier also agrees to trace the source and origin of all components of the Product, and to provide to GM all information and documentation reasonably requested by GM resulting from such supply chain mapping.

13. Order of Precedence.

To the extent of any inconsistency between this Agreement, the Designated Purchaser Agreements, and the General Terms, such agreements will have the following order of precedence: (i) first, this Agreement, (ii) second, the General Terms, and (iii) third, the Designated Purchaser Agreements.

14. Termination.

14.1. Termination for Cause. The occurrence of any one or more of the following events will be an "Event of Default" upon the defaulting Party's receipt of written notice of the occurrence of such event from another Party and the expiration of any applicable cure period provided below.

(A) Events of Default as set forth in Section 17 of the General Terms.

(B) Supplier fails to comply with any of its obligations set forth in Section 8 or Section 9 of this Agreement and such failure continues for at least thirty (30) Business Days and, if Supplier is diligently pursuing such a cure at the expiration of such thirty (30) Business Day period, Supplier shall be granted an additional thirty (30) Business Day period to effect such cure.

(C) Upon the occurrence of a Change of Control of any LAC Party to a Restricted Person which occurs without the consent of GM. To the extent that the foregoing occurs without the prior written consent of GM, GM shall have thirty (30) Business Days from the date GM becomes aware of the foregoing to provide the LAC Parties with notice of termination pursuant to this Section 14.1(C).

Upon the occurrence of an Event of Default by a Party, the non-defaulting Party (i.e. the Parties for the purposes of this Section, being the LAC Parties on the first hand and GM on the second hand) may elect to terminate this Agreement, for cause, in whole or in part, by notice of termination to the defaulting Party.

14.2. [Reserved].

15. Default By Designated Purchaser.

Any Event of Default by a Designated Purchaser pursuant to the terms of a Designated Purchaser Agreement shall not constitute a default by GM under this Agreement, and shall not constitute grounds for Supplier to terminate this Agreement.

16. General Terms.

16.1. Interpretation. All references to dates or time of day are references to the date or time of day in New York, New York. "Dollars" and "$" means United States Dollars.

16.2. Notices. All notices, requests, and other communications that are required or may be given under this Agreement must be in writing by electronic transmission and will be deemed received as of the date following the day the electronic transmission is dispatched. Any addresses set forth in this Section may be changed, from time to time, by notice given in the manner provided in this Section.

16.3. Entire Agreement. This Agreement and any schedules, exhibits, or other documents executed in connection with this Agreement, together with any agreements expressly incorporated into this Agreement and all recitals in this Agreement (which recitals are incorporated as covenants of the Parties), constitute the entire understanding of the Parties in connection with the subject matter of this Agreement and supersedes all prior proposals, negotiations, representations, understandings, commitments, and agreements, whether oral or written, with regard to the subject matter and provisions of this Agreement.

16.4. Modification. This Agreement may not be modified, altered, or amended except by an agreement in writing signed by all Parties.

16.5. Authority. Each of the Parties represents and warrants that the execution and delivery by that Party of this Agreement, or compliance or performance by that Party with any of the provisions of this Agreement will not conflict with, or result in any violation or breach of, or default (with or without notice or lapse of time, or both) under any provision of the certificate of incorporation and by-laws or comparable organizational documents of that Party, any material contract of that Party, any judicial order applicable to that Party, or any applicable law, in each case, in existence as of the Execution Date.

16.6. No *Contra Proferentem*. The Parties are competent and experienced in business, and have negotiated and reviewed this Agreement with their counsel. Any ambiguous language in this Agreement should therefore not be construed against any Party as the drafter of that language.

16.8. No Third-Party Beneficiaries. Except as otherwise provided herein, the Parties agree that this Agreement is intended to benefit solely the Parties to this Agreement and is not intended for the benefit of any third parties.

16.9. No Waiver. The failure of a Party at any time to require performance by another Party of any provision of this Agreement will in no way affect the right to require such performance at any time thereafter, nor will the waiver of a Party of a breach of any provision of this Agreement constitute a waiver of any succeeding breach of the same or any other provision.

16.10. Cumulative Remedies. The rights and remedies specified in this Agreement are cumulative and not exclusive of any rights or remedies that a Party would otherwise have.

16.11. Survival. Any Sections that expressly or by their nature survive expiration or termination shall survive the expiration or termination of this Agreement.

16.12. Severability. If any term of this Agreement is invalid or unenforceable under applicable law or regulation, such term will be deemed reformed or deleted, as the case may be, but only to the extent necessary to comply with such applicable law

or regulation, and the remaining provisions of this Agreement will remain in full force and effect.

16.13. No Agency. Supplier on the one hand and GM on the other hand are independent contracting parties and nothing in this Agreement will make either such Party the agent or legal representative of the other for any purpose whatsoever, nor does it grant either such Party any authority to assume or to create any obligation on behalf of or in the name of the other.

16.14. Cooperation. Each of the Parties agrees to reasonably cooperate with the other Parties and to take all additional actions that may be reasonably necessary to give full force and effect to this Agreement.

16.15. Counterparts. This Agreement may be executed in any number of duplicate originals or counterparts, and each duplicate original or counterpart will be deemed an original and taken together will be one and the same instrument. Capitalized terms used in the General Terms but not defined therein shall have the meanings given to such terms in this Agreement.

16.17. Traceability. Supplier must trace the source and origin of all goods and materials to be used in connection with this Agreement and make such information available to GM for prior written approval before any such direct or indirect supplier may be used in connection with this Agreement (the "Supply Chain Map"). Supplier will not change the source or origin of any goods or materials identified in the Supply Chain Map without first obtaining GM's advance written consent. For clarity, written consent to change the source or origin of any goods or materials identified in the Supply Chain Map must be obtained directly from GM.

Supplier will put policies and process in place to obtain sourcing and origin information from sub-tier suppliers and include all such information in the Supply Chain Map upon receipt. Supplier will proactively, and on an ongoing basis, monitor the source and origin of all goods and material used in connection with this Agreement. Supplier must obtain GM's prior written consent to the procurement of any goods or materials used in connection with this Agreement that originate or are otherwise extracted, processed, recycled, manufactured or assembled, in whole or in part:

(i) by an FEOC; or

(ii) in a territory identified in Country Group D, Supplement No. 1 to 15 C.F.R. Part 740: (see https://www.bis.doc.gov/index.php/documents/regulation-docs/2255-supplement-no-1-to-part-740-country-groups-1/file). Egypt, Israel, United Arab Emirates, Uzbekistan and Vietnam are excluded from the Country Group D supplement. GM may, in its discretion, authorize purchases *from such other Group* D territories for which a risk mitigation plan is approved by GM.

Supplier will comply with all applicable GM policies, as amended, relating to supply chain resiliency and compliance. Supplier will incorporate, and require its subcontractors at all tiers to incorporate, these terms and any applicable GM policy in its contract for goods or materials used in connection with this Agreement.

17. **REPRESENTATIONS.** THE PARTIES ACKNOWLEDGE THAT THEY HAVE BEEN GIVEN THE OPPORTUNITY TO CONSULT WITH COUNSEL OF THEIR CHOICE BEFORE EXECUTING THIS AGREEMENT AND ARE DOING SO WITHOUT DURESS, INTIMIDATION, OR COERCION AND WITHOUT RELIANCE UPON ANY REPRESENTATIONS, WARRANTIES, OR COMMITMENTS OTHER THAN THOSE REPRESENTATIONS, WARRANTIES, OR COMMITMENTS SET FORTH IN THIS AGREEMENT.

General Terms and Conditions

[See attached.]

GENERAL TERMS AND CONDITIONS

1. Shipping; Packaging

Supplier will comply, in all respects, with the shipping and packaging requirements agreed to by Buyer and Supplier and as incorporated in this Contract by reference. Supplier will (a) properly pack and mark Product in accordance with the laws and regulations of the country of manufacture, including, without limitation, laws and regulations governing the handling and transportation of dangerous goods or hazardous materials; (b) provide with each shipment packing slips with Buyer's Contract and/or release number and date of first loading marked thereon; (c) promptly forward the original bill of lading or other shipping documents for each shipment in accordance with Buyer's instructions; and (d) include on bills of lading or other shipping documents the correct classification of the goods. The marks on each package and identification of the goods on packing slips, bills of lading and invoices (when required) must be sufficient to enable Buyer to easily identify the goods purchased.

2. Transfer of Title

Supplier shall ship the Product FCA Thacker Pass (Incoterms 2020) or FCA an alternate location (an "Alternate Location") provided in a writing sent from GM to Buyer (in the event Buyer is a Party other than GM) with a copy to Supplier. Title to and risk of loss of the Product shall transfer to Buyer at the time of first loading onto Buyer's transport of the Product by Supplier at Thacker Pass or the Alternate Location. All risk for loss of Product after such first loading of the Product by Supplier at Thacker Pass or the Alternate Location shall pass to Buyer and shall not be borne by Supplier.

3. Protection Against Labor Disruptions

Supplier will use its best efforts to ensure the uninterrupted supply of Product to Buyer notwithstanding any existence of a labor disruption.

4. Subcontracting

None of the Parties will subcontract in whole or in part any of its obligations under this Contract without the prior written consent of the other Party. Any such consent will not release the applicable Party from, or limit, any of such Party's obligations under this Contract. For clarity, it is understood and agreed that the operation of the Thacker Pass Project, including the loading of finished goods, may entail the use of subcontractors and such use shall not be in breach of this clause.

5. Product Warranty; Warranty of Performance

Supplier warrants and guarantees that the goods sold under this Contract shall be merchantable, conform with all Specifications, and are free and clear of all liens other than those that may arise by operation of law, that the goods will be released in connection with the Certificate of Analysis ("COA") that Supplier will provide with all deliveries of goods to Buyer, and will comply with applicable laws (the "Warranty"). The Warranty (other than being merchantable and free and clear of all liens other than those that may arise by operation of law) does not extend to Off Spec Product

that is retained by Buyer. The duration of the Warranty will begin on the date the title and risk of loss for such goods passes to Buyer in accordance with Section 2 of this Contract (the "Title Transfer Date") and end on the earlier of (the "Warranty End Date"): (a) [***] from the Title Transfer Date; or (b) upon incorporation of such goods into another product of Buyer to the extent such incorporation alters the goods so as to make the analysis required to validate the COA unachievable. Other than in the event of Supplier's gross negligence or willful, wanton, or reckless misconduct, after the Warranty End Date, Supplier shall not be required to accept any claim with respect to the Warranty. Buyer agrees that to the extent practicable it shall notify Supplier within fifteen (15) Business Days of becoming aware that a Warranty Claim may be alleged by Buyer. Except as expressly set forth in this Contract, the Warranty is irrevocable by Supplier, and Supplier may not limit or disclaim the Warranty.

In the event Buyer provides written notification to Supplier (the "Specification Notice") of variation of Product from the Specifications, with such notice to be delivered within the later of: (a) 180 days of title passing from Supplier to Buyer as provided in Section 2; or (b) if the Product was stored unused at a facility reasonably acceptable to Supplier, within 45 days of the date the Product is removed from such storage (the "Cut Off Date"), Buyer shall not be obligated to purchase and take delivery of the relevant shipment; provided, however, Supplier and Buyer will consult each other and shall negotiate in good faith (for a period of five (5) Business Days after the date of delivery of the Specification Notice) whether Buyer will accept the Product with appropriate price reductions (the "Off Spec Product") or whether Buyer shall return the Off Spec Product to Supplier at Thacker Pass (or the Alternate Location if loaded at the Alternate Location), such return to be at the cost and expense of Supplier. If such negotiations do not culminate in agreement after the end of such period of five (5) Business Days after the date of delivery of the Specification Notice, Buyer shall immediately return the Off Spec Product to Supplier, such return to be at the cost and expense of Supplier. In all cases, Buyer and Supplier will work together in good faith to minimize return shipping costs. In the event Buyer provides Supplier with a Specification Notice after Buyer has paid for the Product, and such Product is returned to Supplier in accordance with this Section 5, Buyer shall receive either a refund of the amount paid for the Product or a credit from Supplier in the amount that was paid for the Product, provided, however, that if Supplier has replacement Product available, Buyer may elect to receive replacement Product instead of the refund or credit.

Product to be delivered hereunder (with the exception of Off Spec Product that is accepted by Buyer) shall not: (i) contain extraneous materials; (ii) contain elements or substances at levels or in concentrations dangerous or harmful to health, safety, the environment or generally considered in the lithium industry to be deleterious or harmful or (iii) Exhibit physical properties or characteristics which differ from industry standards for comparable products in the marketplace to a degree or in a manner which results in Buyer having to incur increased costs of transporting, storing or handling the Product (collectively, the "Prohibited Characteristics"). For greater certainty, the presence in Product of any element or compound in quantities within the ranges specified in the Product Specifications shall not constitute a Prohibited Characteristic. Both Parties understand the hazards and handling of the Product and will follow industry and local governmental practices and standards for handling.

6. Ingredients Disclosure; Special Warnings and Instructions

At least ten (10) Business Days prior to, as well as in connection with, the shipment of the Product from Thacker Pass or the Alternate Location, as the case may be, Supplier agrees to furnish to Buyer written warning and notice (including, without limitation, appropriate labels on the goods, containers and packing) of any dangerous goods or hazardous material that forms part of any shipment of Products, together with such special handling instructions as may be necessary to advise carriers, Buyer, and their respective employees of how to exercise that measure of care and precaution that will comply with any applicable laws or regulations and best prevent bodily injury or property damage in the handling, transportation, processing, use or disposal of the Products, containers and packing shipped to Buyer from Thacker Pass or the Alternate Location.

7. Payment

Promptly after each shipment of goods from Thacker Pass or the Alternate Location, as the case may be, Supplier will issue a single invoice for the shipped Products. Each invoice must comply with applicable law, if any, and include the following information: (a) amount due (in the currency specified in this Contract); (b) Contract number; (c) if applicable, purchase order number; (d) if applicable, the intra-EU VAT number; and (e) net weight of the goods.

Buyer will pay for the Product in accordance with the payment terms and in the currency specified elsewhere in this Contract. Payments may be made electronically (including, without limitation, by bank transfer or recorded bill of exchange, where applicable).

8. Customs; Origin

Credits or benefits resulting or arising from this Contract, including trade credits, export credits or the refund of duties, taxes or fees, will belong to Buyer to the extent Buyer pays such duties, taxes or fees directly or those duties, taxes, or fees are passed along to Buyer in the contract price. To the extent Supplier pays and does not pass along to Buyer such duties, taxes or fees, any applicable credits or refunds will belong to Supplier. Supplier will timely and accurately provide all information necessary (including written documentation and electronic transaction records) to permit Buyer to receive such benefits or credits, if Buyer pays such duties, taxes or fees either directly or indirectly, as well as to fulfill its import and, where required by this Contract, export customs related obligations, origin marking or labeling requirements and local content origin requirements, if any. Supplier will undertake such arrangements as necessary for the goods to be covered by any duty deferral or free trade zone program(s) of the country of import. Supplier will ensure compliance with the recommendations or requirements of all applicable Authorized Economic Operator (AEO), governmental security/anti-terrorism and enhanced border release programs (including, without limitation, the United States Bureau of Customs and Border Protection's Customs-Trade Partnership Against Terrorism (C-TPAT)). At the request of Buyer or the appropriate Customs Authority, Supplier will certify in writing its compliance with the foregoing.

9. Transactional Tax

Unless otherwise provided in this Contract, the prices set forth in this Contract will be exclusive of all transactional taxes, including any sales, use, excise, services, value added tax, goods and services tax, or similar tax, and these taxes should be separately identified by Supplier in Supplier's invoice, even if the tax rate is zero. Buyer will not be responsible for any transactional taxes charged by the Supplier that are not identified in this manner. Supplier shall separately state all charges for transactional taxes on its invoices (or other such documents). Additionally, Supplier shall provide Buyer with invoices in line with the applicable tax laws in its country to enable the Buyer to reclaim the transactional taxes and Supplier will provide such documentation no later than when the payment to which the invoice relates is due from Buyer. Supplier will be responsible for remitting the transactional tax to the applicable taxing authority except for those states or jurisdictions where Buyer has provided Supplier with an appropriate exemption certificate. Supplier will use reasonable efforts to apply for such exemptions where applicable. Supplier will not charge Buyer for any transactional taxes charged by a subcontracting supplier if such tax is recoverable by Supplier, or if not recoverable, it would have been, had the transaction been structured through other entities (either the Supplier's or the Buyer's affiliated companies). If transactional taxes are not recoverable by Supplier, Supplier agrees to provide detailed billing, customs or other documents as requested, which set out the transactional taxes paid or payable to any of the Buyer's subcontracting supplier or to a taxing authority.

10. Intellectual Property Indemnification

Supplier will investigate, defend, hold harmless and indemnify Buyer, its successors, its affiliates (collectively "Buyer Group") and its dealers and customers against any actual or alleged claims of infringement or other assertions of proprietary rights violations (including patent, trademark, copyright, industrial design right, or other proprietary right, misuse, or misappropriation of trade secret) and resulting damages and expenses (including attorney's and other professional fees) arising in any way in relation to the Products (collectively "IP claims"). The LAC Parties expressly waives any claim against Buyer Group that any such IP claims arose out of compliance with Buyer Group's or its dealers' or customers' specification or direction.

11. Remedies; Indemnity

The rights and remedies reserved to each Party in this Contract are cumulative with, and additional to, all other rights and remedies of each Party under applicable law or in equity. It is understood and agreed that for the purposes of this Section 11 (Remedies; Indemnity), Section 12 (Force Majeure), Section 15 (Confidentiality), Section 16 (Compliance with Laws), Section 17 (Termination For Cause) and Section 18 (Governing Law and Jurisdiction), LAC Parent and Supplier act as one Party.

Notwithstanding anything else to the contrary in this Contract, and save in respect of: (i) liability for fraud, death or personal injury caused by gross negligence or willful misconduct; or (ii) liability for infringement or other proprietary rights violations (including patent, trademark, copyright, industrial design right, or other proprietary right, misuse, or misappropriation of trade secret) arising in any way in relation to the Product, neither Party shall in any circumstances be liable to the other Party as a result of its performance of, or failure to perform, this Contract or any provision

in this Contract, whether in contract, tort or breach of statutory duty or howsoever arising for (a) any loss of profit, anticipated profit or revenue (with respect to the foregoing, save and except for failures by Buyer to make payments for Product as anticipated by this Contract, the losses for which are specifically not excluded and are included), any loss of savings or anticipated savings, any loss of production, any loss of use, any loss of contract or business opportunity, any loss of or damage to goodwill or any business interruption, whether of a direct or indirect nature, (b) any special, indirect and/or consequential losses, or (c) punitive, exemplary or special damages.

Each Party (a "First Party") will indemnify, defend and hold harmless the other Party against any liability, claim, demand and expense (including, without limitation, legal and other professional fees) arising from or relating to any failure of the First Party to fully perform any of its obligations under this Contract.

12. Force Majeure

Any delay or failure of either Party to perform its obligations under this Contract will be excused to the extent that Supplier is unable to produce, sell or deliver, or Buyer is unable to accept delivery, buy or use, the goods or services covered by this Contract, directly as the result of an event or occurrence beyond the reasonable control of such Party, without such Party's fault or negligence (a "force majeure event"), including, if applicable, actions by any governmental authority (whether valid or invalid), fires, floods, windstorms, explosions, riots, natural disasters, wars and sabotage; provided that written notice of such force majeure event (including the anticipated duration of the delay) must be given by the affected Party to the other Party as soon as possible (but in no event more than 20 days after the force majeure event occurs).

During any force majeure event affecting Supplier's performance, Buyer may, at its sole option: (i) purchase Product from other sources, without liability to Supplier; and/or (ii) reduce the volumes set forth in any forecast by the amount of Product purchased from such other sources; provided that Supplier may sell Product to third parties to the extent of such Buyer purchases from other sources.

The affected Party will use all diligent efforts to ensure that the effects of any force majeure event are minimized and, as promptly as possible, resume full performance under this Contract. If the delay lasts more than twelve (12) months from notice of the force majeure event being given, either Party may immediately terminate this Contract without liability to either Party.

13. Insurance

Supplier will maintain insurance coverage as would a prudent mine operator in the State of Nevada. Supplier shall insure its interest in the Product for full value for damage or loss arising until title and risk pass to the Buyer as provided in Section 2 with an insurance company rated 'A-' or higher by AM Best.

14. Technical Information

Buyer does not expect to receive any confidential technical or other information (the "Non-Contract Information") from the LAC Parties, and Buyer will not be subject to confidentiality or nondisclosure obligations with respect to any such information (including under Section 15 hereof)

unless the LAC Parties and Buyer have agreed to confidentiality and nondisclosure obligations in a writing signed by their respective authorized representatives that expressly applies to such Non-Contract Information (a "Standalone CA"). The LAC Parties agree not to assert any claim (other than for breach of a Standalone CA) with respect to any Non-Contract Information that the LAC Parties have disclosed or may hereafter disclose to Buyer or its affiliates and subsidiaries.

15. Confidentiality; No Advertising

The Parties agree that the contents of this Contract are confidential and not intended for use or dissemination by either Party without the express written consent of the other Party. For the purposes of this Section 15 a Party making disclosure together with its affiliates and representatives is a "Disclosing Party" and the non-Disclosing Party is an "Affected Party".

A Disclosing Party may disclose the existence and terms of this Contract (the "Disclosure Exceptions"): (i) to the extent required by law (including the rules of any applicable stock exchange), or by any governmental agency or required or requested to be disclosed pursuant to legal process (including discovery requests) or in connection with any bankruptcy, insolvency, or similar proceeding involving either of the Parties, provided that the Disclosing Party shall (A) immediately upon receiving notice that it is required to make a disclosure under law or stock exchange rules, give the Affected Party prior written notice and an opportunity of not less than 48 hours for the Affected Party to review and comment on the requisite disclosure before it is made, including an opportunity for the Affected Party to prevent such disclosure, (B) use its best efforts to incorporate the Affected Party's comments or limit such disclosure, by seeking confidential treatment or otherwise, and (C) promptly provide the Affected Party with notice of any requirement to provide any such information, regardless of when such disclosure shall be made; (ii) to the extent necessary to enforce this Contract including, without limitation, for the purposes of dispute resolution as set forth in Section 18; (iii) to any designated purchaser, employee, officer, director, agent, affiliate, representative, lawyer, investor, broker, potential transferee, financier, partner, member, shareholder or actual or potential financing source of the Disclosing Party or that Disclosing Party's affiliates (but not its representatives) provided that any such person or entity must be, prior to the disclosure, subject to confidentiality obligations that are the same as or more restrictive than the confidentiality obligations in this Contract and that the Disclosing Party disclosing such information to them will be responsible for any breach thereof; and (iv) to the extent such information is or becomes generally available to the public other than as a result of a disclosure by the Disclosing Party in violation of this Contract.

Unless required by applicable law or pursuant to any rules or regulations of any applicable securities exchange, neither Party will in any manner, without first obtaining the other Party's consent, which consent will not be unreasonably withheld or delayed: (i) advertise or publish the fact that Supplier has contracted to furnish Buyer the Product; (ii) use the other Party's trademarks, trade names or confidential information in such Party's advertising or promotional materials; or (iii) use the other Party's trademarks, trade names or confidential information in any form of electronic communication such as web sites (internal or external), blogs or other types of postings, except as may be required to perform hereunder or as required by law. Any announcement made by the Parties in relation to the execution of this Contract will be agreed in advance by the Parties.

16. Compliance with Laws

Supplier, and any goods or services supplied by Supplier, and Buyer, in connection with its obligations under this Contract, will comply with all applicable laws, rules, regulations, orders, conventions, ordinances or standards of the country(ies) of destination or that relate to the manufacture, labeling, transportation, importation, exportation, licensing, approval or certification of the Product, including, without limitation, those relating to environmental matters, the handling and transportation of dangerous goods or hazardous materials, data protection and privacy, wages, hours and conditions of employment, subcontractor selection, discrimination, occupational health/safety and motor vehicle safety. Supplier, in all respects, and Buyer, in connection with its obligations under this Contract, further represent that neither they nor any of their subcontractors, vendors, agents or other associated third parties will utilize child, slave, prisoner or any other form of forced or involuntary labor, or engage in abusive employment or corrupt business practices, in the supply of Product under this Contract. Supplier, in all respects, and Buyer, in connection with its obligations under this Contract, agree to comply with all applicable anti-corruption laws, including, without limitation, the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act, and that neither they nor any of their subcontractors, vendors, agents or other associated third parties will engage in any form of commercial bribery, nor directly or indirectly provide or offer to provide, anything of value to or for the benefit of, any official or employee of a governmental authority or of any government-owned, government-controlled or government-affiliated entity to obtain or retain any contract, business opportunity or other business benefit, or to influence any act or decision of that person in his/her official capacity. At Buyer's request, Supplier will certify in writing its compliance with the foregoing.

17. Termination for Cause

Upon the occurrence of any of the following "Events of Default" by a Party, the non-defaulting Party may elect to terminate this Contract, in whole or in part, by notice of termination to the defaulting Party and the expiration of any applicable cure period provided below: (a) Either Party repudiates or materially breaches its obligations, or refuses to materially perform its obligations, under this Contract, and if such breach is capable of being cured within twenty (20) Business Days, such breach is not cured by the breaching Party within twenty (20) Business Days of written notice of the occurrence of an Event of Default being provided by the other Party; or (b) Any secured or lien creditor commences a foreclosure action of its liens, security interests and/or mortgages in or against a material portion of a Party's assets or a Party: (A) commences, or has commenced against it, any case, proceeding or other action under Title 11 of the United States Code or any other liquidation, bankruptcy, conservatorship, moratorium, receivership, insolvency, rearrangement, reorganization or similar debtor relief laws of the United States or any other applicable jurisdictions in effect from time to time, seeking (i) to have an order for relief entered with respect to it, (ii) to adjudicate it as bankrupt or insolvent, (iii) to commence or implement any plan of reorganization, arrangement, adjustment, winding-up, liquidation, dissolution, composition or other relief with respect to it or its debts or (iv) the appointment of a receiver, trustee, custodian, conservator or other similar official for it or for all or any substantial part of its assets; or (B) makes a general assignment for the benefit of its creditors (collectively, an "Insolvency Event").

18. Governing Law and Jurisdiction

This Contract shall be governed by the laws of the State of New York, excluding the provisions of the United Nations Convention on Contracts for the International Sale of Goods (CISG), and without regard to its conflict of laws principles. Any action, dispute or proceeding seeking to

enforce any provision of, or based on any right arising solely out of, this Contract (collectively, "Disputes") shall be first handled pursuant to the following escalation process. Any Party may submit its position on any Dispute in writing to the other Party and such other Party shall, within five (5) Business Days thereafter, submit its position on the Dispute in writing to the first Party. As promptly as practicable, but no later than five (5) Business Days thereafter, the Parties shall enter into good faith negotiations to attempt to resolve the Dispute. If those negotiations do not resolve the Dispute within fifteen (15) Business Days after the first Party's submission, then either Party may require that the Dispute be submitted, in writing to Jeffrey Morrison, Vice President of Global Purchasing and Supply Chain of Buyer and Jonathan Evans of Supplier (or, in each case, their functional successors), who shall negotiate in good faith and use their reasonable best efforts to expeditiously resolve the Dispute for a period of fifteen (15) Business Days after that submission, unless Jeffrey Morrison, Vice President of Global Purchasing and Supply Chain of Buyer and Jonathan Evans of Supplier (or in each case their functional successors) mutually agree to extend such period of negotiation. Any agreement pertaining to a Dispute shall be reduced to writing, be signed by the Parties and be final and binding upon the Parties. All negotiations pursuant to this Section 18 shall be confidential, and shall be treated as compromise and settlement negotiations for purposes of applicable rules of evidence. In the event that a Dispute has not been resolved after the use of the escalation procedures set forth above, then either Party may initiate the arbitration process. The Dispute shall be submitted to and settled by binding arbitration in New York, New York in accordance with the Administered Arbitration Rules of the International Institute for Conflict Prevention & Resolution, and such arbitration shall be in English. For disputes that involve alleged losses that do not exceed $25 million, the Parties shall mutually agree on a single arbitrator within a period of five (5) Business Days of receipt of notice that the other Party has referred a Dispute to arbitration, and if the Parties cannot agree upon the single arbitrator within such period of five (5) Business Days, the single arbitrator shall be appointed as promptly as practicable by the International Institute for Conflict Prevention & Resolution. For disputes that involve alleged losses that exceed $25 million, each Party shall, within five (5) Business Days of receipt of notice that the other Party has referred a Dispute to arbitration, appoint one nominating arbitrator and such nominating arbitrators shall together select within five (5) Business Days a neutral arbitrator who will conduct the arbitration. If such nominating arbitrators are not able to select a neutral arbitrator, the neutral arbitrator shall be appointed as promptly as practicable by the International Institute for Conflict Prevention & Resolution. The costs of the arbitrator shall be in the cause. The single arbitrator or the one neutral arbitrator shall make a decision within sixty (60) days of the arbitrator's appointment. The arbitrator shall not be empowered to award punitive or exemplary damages. The award rendered by the arbitrator shall be final and binding upon the Parties, and the judgement on the award rendered may be entered in any court having jurisdiction thereof. All Disputes shall be settled in this manner in lieu of an action at law or equity; *provided*, *however*, that nothing in this Section 18 shall be construed as precluding the bringing of an action for temporary or preliminary injunctive relief or other equitable relief. Each Party hereby irrevocably and unconditionally (i) waives any objection to the laying of venue of any such action, suit or proceeding in any such court, (ii) agrees not to plead or claim in any such court that any such action, suit or proceeding brought in any such court has been brought in an inconvenient forum and (iii) agrees that service of any court paper may be effected on such Party in any manner as may be provided under applicable laws or court rules of the State of New York.

The Product Price will be exclusive of any applicable sales or other similar tax, if any, that is required by law to be added to the sales price. Any adjustments to the Product Price will be prospective only and in no event will Purchaser be obligated to pay any retrospective price increase.

5. **Ordering Process**. Purchaser may from time to time submit purchase orders—including blanket purchase orders—to Supplier (the "Purchase Orders") and issue releases for Products to Supplier.[1] This Agreement, including any exhibits hereto, shall be expressly incorporated into any Purchase Orders.

6. **Payment Terms**. Purchaser shall pay for all Products purchased hereunder net thirty (30) days after Purchaser's receipt of the Products at Purchaser's facility but not later than ninety (90) days after first loading of the Product at Thacker Pass or the Alternate Location (as defined in the General Terms and Conditions). If any payment due under this Agreement is not paid when due in accordance with the applicable provisions of this Agreement, and Supplier has provided written notice of such non-payment to Purchaser and Purchaser has failed to cure such non-payment within five (5) Business Days of receipt of such notice from Supplier, Supplier shall have the right to suspend, without any prejudice to any of Supplier's other rights and remedies under this Agreement, any ongoing supply of Product under this Agreement until such payment is made.

8. **Non-Assignment**. Under no circumstances may Purchaser transfer, assign or delegate, in whole or in part, any of its rights or obligations under this Agreement (including, without limitation, any right of payment), whether directly or indirectly, by merger, acquisition or contribution to a joint venture. Supplier may transfer, assign or delegate, in whole or in part, any of its rights or obligations under this Agreement (including, without limitation, any right of payment), whether directly or indirectly, solely in connection with an assignment of its rights pursuant to the Offtake Agreement, and Supplier shall provide Purchaser with written notice of any such assignment within five (5) business days thereof.

9. **Authority**. Each of the representatives executing this Agreement on behalf of the Parties represents and warrants that he or she possesses the corporate power and authority to execute this Agreement on behalf of the respective Parties and that this Agreement has been duly authorized by the Parties. Each of the Parties represents and warrants that the execution and delivery by that Party of this Agreement, or compliance or performance by that Party with any of the provisions of this Agreement will not conflict with, or result in any violation or breach of, or

[1] Supplier and GM to agree on ordering process prior to Supplier entering into any Designated Purchaser Agreement.

10. Order of Preference. 12. REPRESENTATIONS. THE PARTIES ACKNOWLEDGE THAT THEY HAVE BEEN GIVEN THE OPPORTUNITY TO CONSULT WITH COUNSEL OF THEIR CHOICE BEFORE EXECUTING THIS AGREEMENT AND ARE DOING SO WITHOUT DURESS, INTIMIDATION, OR COERCION AND WITHOUT RELIANCE UPON ANY REPRESENTATIONS, WARRANTIES, OR COMMITMENTS OTHER THAN THOSE REPRESENTATIONS, WARRANTIES, OR COMMITMENTS SET FORTH IN THIS AGREEMENT.

13. Miscellaneous.

(a) Amendments. All changes and amendments to this Agreement or any Purchase Order must be in writing to be valid. This requirement of written form can only be waived in writing specifically stating the intent to amend this Agreement or the relevant Purchase Order.

The notice or document is deemed to be served when delivered, sent or transmitted in one of the above ways. The original document shall in any case be submitted afterwards. For the avoidance of doubt, electronic communication shall not qualify as a written notice or document, unless otherwise explicitly specified by written mutual agreement.

(c) No Waiver. The failure of either Party at any time to require performance by the other Party of any provision of this Agreement will in no way affect the right to require such performance at any time thereafter, nor will the waiver of either Party of a breach of any provision of this Agreement constitute a waiver of any succeeding breach of the same or any other provision.

(d) No Agency. Supplier and Purchaser are independent contracting parties and nothing in this Agreement will make either Party the agent or legal representative of the other for any purpose whatsoever, nor does it grant either Party any authority to assume or to create any obligation on behalf of or in the name of the other Party.

(e) Contact Person. The Parties shall each appoint a contact person, to whom information and notices required under this Agreement and other communication shall be addressed.

(f) Language. The language of the Agreement and its documents, information and data relating or pursuant thereto, for negotiations, discussions and correspondence between the Parties shall be English, unless otherwise agreed by the Parties in individual cases or otherwise expressly stated in relevant provisions of the Agreement.

(g) Severability. If any term of this Agreement is invalid or unenforceable under applicable law or regulation, such term will be deemed reformed or deleted, as the case may be, but only to the extent necessary to comply with such applicable law or regulation, and the remaining provisions of this Agreement will remain in full force and effect.

(h) Counterparts. This Agreement may be executed electronically and may be executed in counterparts, each of which will be deemed an original, but all of which together will constitute one and the same document.

14. **Interpretation**.

(a) The Parties acknowledge and agree that: (i) the rule of construction to the effect that any ambiguities are resolved against the drafting Party shall not be employed in the interpretation of this Agreement; and (ii) the terms and provisions of this Agreement shall be construed fairly as to the Parties and not in favor of or against a Party, regardless of which Party was generally responsible for the preparation of this Agreement.

(b) The term "including" means "including without limitation"; the term "or" shall not be exclusive; the terms "year" and "calendar year" mean the period of months from January 1 through and including December 31; the term "quarter" means a calendar quarter unless otherwise indicated.

General Terms and Conditions

[See attached]

GENERAL TERMS AND CONDITIONS

Supplier will comply, in all respects, with the shipping and packaging requirements agreed to by Buyer and Supplier and as incorporated in this Contract by reference. Supplier will (a) properly pack and mark Product in accordance with the laws and regulations of the country of manufacture, including, without limitation, laws and regulations governing the handling and transportation of dangerous goods or hazardous materials; (b) provide with each shipment packing slips with Buyer's Contract and/or release number and date of first loading marked thereon; (c) promptly forward the original bill of lading or other shipping documents for each shipment in accordance with Buyer's instructions; and (d) include on bills of lading or other shipping documents the correct classification of the goods. The marks on each package and identification of the goods on packing slips, bills of lading and invoices (when required) must be sufficient to enable Buyer to easily identify the goods purchased.

2. Transfer of Title

Supplier shall ship the Product FCA Thacker Pass (Incoterms 2020) or FCA an alternate location (an "Alternate Location") provided in a writing sent from GM to Buyer (in the event Buyer is a Party other than GM) with a copy to Supplier. Title to and risk of loss of the Product shall transfer to Buyer at the time of first loading onto Buyer's transport of the Product by Supplier at Thacker Pass or the Alternate Location. All risk for loss of Product after such first loading of the Product by Supplier at Thacker Pass or the Alternate Location shall pass to Buyer and shall not be borne by Supplier.

3. Protection Against Labor Disruptions

Supplier will use its best efforts to ensure the uninterrupted supply of Product to Buyer notwithstanding any existence of a labor disruption.

4. Subcontracting

None of the Parties will subcontract in whole or in part any of its obligations under this Contract without the prior written consent of the other Party. Any such consent will not release the applicable Party from, or limit, any of such Party's obligations under this Contract. For clarity, it is understood and agreed that the operation of the Thacker Pass Project, including the loading of finished goods, may entail the use of subcontractors and such use shall not be in breach of this clause.

5. Product Warranty; Warranty of Performance

Supplier warrants and guarantees that the goods sold under this Contract shall be merchantable, conform with all Specifications, and are free and clear of all liens other than those that may arise by operation of law, that the goods will be released in connection with the Certificate of Analysis ("COA") that Supplier will provide with all deliveries of goods to Buyer, and will comply with

applicable laws (the "Warranty"). The Warranty (other than being merchantable and free and clear of all liens other than those that may arise by operation of law) does not extend to Off Spec Product that is retained by Buyer. The duration of the Warranty will begin on the date the title and risk of loss for such goods passes to Buyer in accordance with Section 2 of this Contract (the "Title Transfer Date") and end on the earlier of (the "Warranty End Date"): (a) [***] from the Title Transfer Date; or (b) upon incorporation of such goods into another product of Buyer to the extent such incorporation alters the goods so as to make the analysis required to validate the COA unachievable. Other than in the event of Supplier's gross negligence or willful, wanton, or reckless misconduct, after the Warranty End Date, Supplier shall not be required to accept any claim with respect to the Warranty. Buyer agrees that to the extent practicable it shall notify Supplier within fifteen (15) Business Days of becoming aware that a Warranty Claim may be alleged by Buyer. Except as expressly set forth in this Contract, the Warranty is irrevocable by Supplier, and Supplier may not limit or disclaim the Warranty.

In the event Buyer provides written notification to Supplier (the "Specification Notice") of variation of Product from the Specifications, with such notice to be delivered within the later of: (a) 180 days of title passing from Supplier to Buyer as provided in Section 2; or (b) if the Product was stored unused at a facility reasonably acceptable to Supplier, within 45 days of the date the Product is removed from such storage, but in any event not later than the Warranty End Date (the "Cut Off Date"), Buyer shall not be obligated to purchase and take delivery of the relevant shipment; provided, however, Supplier and Buyer will consult each other and shall negotiate in good faith (for a period of five (5) Business Days after the date of delivery of the Specification Notice) whether Buyer will accept the Product with appropriate price reductions (the "Off Spec Product") or whether Buyer shall return the Off Spec Product to Supplier at Thacker Pass (or the Alternate Location if loaded at the Alternate Location), such return to be at the cost and expense of Supplier. If such negotiations do not culminate in agreement after the end of such period of five (5) Business Days after the date of delivery of the Specification Notice, Buyer shall immediately return the Off Spec Product to Supplier, such return to be at the cost and expense of Supplier. In all cases, Buyer and Supplier will work together in good faith to minimize return shipping costs. In the event Buyer provides Supplier with a Specification Notice after Buyer has paid for the Product, and such Product is returned to Supplier in accordance with this Section 5, Buyer shall receive either a refund of the amount paid for the Product or a credit from Supplier in the amount that was paid for the Product, provided, however, that if Supplier has replacement Product available, Buyer may elect to receive replacement Product instead of the refund or credit.

Product to be delivered hereunder (with the exception of Off Spec Product that is accepted by Buyer) shall not: (i) contain extraneous materials; (ii) contain elements or substances at levels or in concentrations dangerous or harmful to health, safety, the environment or generally considered in the lithium industry to be deleterious or harmful or (iii) Exhibit physical properties or characteristics which differ from industry standards for comparable products in the marketplace to a degree or in a manner which results in Buyer having to incur increased costs of transporting, storing or handling the Product (collectively, the "Prohibited Characteristics"). For greater certainty, the presence in Product of any element or compound in quantities within the ranges specified in the Product Specifications shall not constitute a Prohibited Characteristic. Both Parties understand the hazards and handling of the Product and will follow industry and local governmental practices and standards for handling.

6. Ingredients Disclosure; Special Warnings and Instructions

At least ten (10) Business Days prior to, as well as in connection with, the shipment of the Product from Thacker Pass or the Alternate Location, as the case may be, Supplier agrees to furnish to Buyer written warning and notice (including, without limitation, appropriate labels on the goods, containers and packing) of any dangerous goods or hazardous material that forms part of any shipment of Products, together with such special handling instructions as may be necessary to advise carriers, Buyer, and their respective employees of how to exercise that measure of care and precaution that will comply with any applicable laws or regulations and best prevent bodily injury or property damage in the handling, transportation, processing, use or disposal of the Products, containers and packing shipped to Buyer from Thacker Pass or the Alternate Location.

7. Payment

Promptly after each shipment of goods from Thacker Pass or the Alternate Location, as the case may be, Supplier will issue a single invoice for the shipped Products. Each invoice must comply with applicable law, if any, and include the following information: (a) amount due (in the currency specified in this Contract); (b) Contract number; (c) if applicable, purchase order number; (d) if applicable, the intra-EU VAT number; and (e) net weight of the goods.

Buyer will pay for the Product in accordance with the payment terms and in the currency specified elsewhere in this Contract. Payments may be made electronically (including, without limitation, by bank transfer or recorded bill of exchange, where applicable).

8. Customs; Origin

Credits or benefits resulting or arising from this Contract, including trade credits, export credits or the refund of duties, taxes or fees, will belong to Buyer to the extent Buyer pays such duties, taxes or fees directly or those duties, taxes, or fees are passed along to Buyer in the contract price. To the extent Supplier pays and does not pass along to Buyer such duties, taxes or fees, any applicable credits or refunds will belong to Supplier. Supplier will timely and accurately provide all information necessary (including written documentation and electronic transaction records) to permit Buyer to receive such benefits or credits, if Buyer pays such duties, taxes or fees either directly or indirectly, as well as to fulfill its import and, where required by this Contract, export customs related obligations, origin marking or labeling requirements and local content origin requirements, if any. Supplier will undertake such arrangements as necessary for the goods to be covered by any duty deferral or free trade zone program(s) of the country of import. Supplier will ensure compliance with the recommendations or requirements of all applicable Authorized Economic Operator (AEO), governmental security/anti-terrorism and enhanced border release programs (including, without limitation, the United States Bureau of Customs and Border Protection's Customs-Trade Partnership Against Terrorism (C-TPAT)). At the request of Buyer or the appropriate Customs Authority, Supplier will certify in writing its compliance with the foregoing.

9. Transactional Tax

Unless otherwise provided in this Contract, the prices set forth in this Contract will be exclusive of all transactional taxes, including any sales, use, excise, services, value added tax, goods and services tax, or similar tax, and these taxes should be separately identified by Supplier in Supplier's invoice, even if the tax rate is zero. Buyer will not be responsible for any transactional taxes charged by the Supplier that are not identified in this manner. Supplier shall separately state all charges for transactional taxes on its invoices (or other such documents). Additionally, Supplier shall provide Buyer with invoices in line with the applicable tax laws in its country to enable the Buyer to reclaim the transactional taxes and Supplier will provide such documentation no later than when the payment to which the invoice relates is due from Buyer. Supplier will be responsible for remitting the transactional tax to the applicable taxing authority except for those states or jurisdictions where Buyer has provided Supplier with an appropriate exemption certificate. Supplier will use reasonable efforts to apply for such exemptions where applicable. Supplier will not charge Buyer for any transactional taxes charged by a subcontracting supplier if such tax is recoverable by Supplier, or if not recoverable, it would have been, had the transaction been structured through other entities (either the Supplier's or the Buyer's affiliated companies). If transactional taxes are not recoverable by Supplier, Supplier agrees to provide detailed billing, customs or other documents as requested, which set out the transactional taxes paid or payable to any of the Buyer's subcontracting supplier or to a taxing authority.

10. Intellectual Property Indemnification

Supplier will investigate, defend, hold harmless and indemnify Buyer, its successors, its affiliates (collectively "Buyer Group") and its dealers and customers against any actual or alleged claims of infringement or other assertions of proprietary rights violations (including patent, trademark, copyright, industrial design right, or other proprietary right, misuse, or misappropriation of trade secret) and resulting damages and expenses (including attorney's and other professional fees) arising in any way in relation to the Products (collectively "IP claims"). The LAC Parties expressly waives any claim against Buyer Group that any such IP claims arose out of compliance with Buyer Group's or its dealers' or customers' specification or direction.

11. Remedies; Indemnity

It is understood and agreed that for the purposes of this Section 11 (Remedies; Indemnity), Section 12 (Force Majeure), Section 15 (Confidentiality), Section 16 (Compliance with Laws), Section 17 (Termination For Cause) and Section 18 (Governing Law and Jurisdiction), LAC Parent and Supplier act as one Party. The rights and remedies reserved to each Party in this Contract are cumulative with, and additional to, all other rights and remedies of each Party under applicable law or in equity.

Notwithstanding anything else to the contrary in this Contract, and save in respect of: (i) liability for fraud, death or personal injury caused by gross negligence or willful misconduct; or (ii) liability for infringement or other proprietary rights violations (including patent, trademark, copyright, industrial design right, or other proprietary right, misuse, or misappropriation of trade secret) arising in any way in relation to the Product, neither Party shall in any circumstances be liable to the other Party as a result of its performance of, or failure to perform, this Contract or any provision

in this Contract, whether in contract, tort or breach of statutory duty or howsoever arising for (a) any loss of profit, anticipated profit or revenue (with respect to the foregoing, save and except for failures by Buyer to make payments for Product as anticipated by this Contract, the losses for which are specifically not excluded and are included), any loss of savings or anticipated savings, any loss of production, any loss of use, any loss of contract or business opportunity, any loss of or damage to goodwill or any business interruption, whether of a direct or indirect nature, (b) any special, indirect and/or consequential losses, or (c) punitive, exemplary or special damages.

Each Party (a "First Party") will indemnify, defend and hold harmless the other Party against any liability, claim, demand and expense (including, without limitation, legal and other professional fees) arising from or relating to any failure of the First Party to fully perform any of its obligations under this Contract.

12. Force Majeure

Any delay or failure of either Party to perform its obligations under this Contract will be excused to the extent that Supplier is unable to produce, sell or deliver, or Buyer is unable to accept delivery, buy or use, the goods or services covered by this Contract, directly as the result of an event or occurrence beyond the reasonable control of such Party, without such Party's fault or negligence (a "force majeure event"), including, if applicable, actions by any governmental authority (whether valid or invalid), fires, floods, windstorms, explosions, riots, natural disasters, wars and sabotage; provided that written notice of such force majeure event (including the anticipated duration of the delay) must be given by the affected Party to the other Party as soon as possible (but in no event more than 20 days after the force majeure event occurs).

During any force majeure event affecting Supplier's performance, Buyer may, at its sole option: (i) purchase Product from other sources, without liability to Supplier; and/or (ii) reduce the volumes set forth in any forecast by the amount of Product purchased from such other sources.

The affected Party will use all diligent efforts to ensure that the effects of any force majeure event are minimized and, as promptly as possible, resume full performance under this Contract. If the delay lasts more than twelve (12) months from notice of the force majeure event being given, either Party may immediately terminate this Contract without liability to either Party.

13. Insurance

Supplier will maintain insurance coverage as would a prudent mine operator in the State of Nevada. Supplier shall insure its interest in the Product for full value for damage or loss arising until title and risk pass to the Buyer as provided in Section 2 with an insurance company rated 'A-' or higher by AM Best.

14. Technical Information

Buyer does not expect to receive any confidential technical or other information (the "Non-Contract Information") from the LAC Parties, and Buyer will not be subject to confidentiality or nondisclosure obligations with respect to any such information (including under Section 15 hereof) unless the LAC Parties and Buyer have agreed to confidentiality and nondisclosure obligations in a writing signed by their respective authorized representatives that expressly applies to such Non-

Contract Information (a "Standalone CA"). The LAC Parties agrees not to assert any claim (other than for breach of a Standalone CA) with respect to any Non-Contract Information that the LAC Parties has disclosed or may hereafter disclose to Buyer or its affiliates and subsidiaries.

15. Confidentiality; No Advertising

The Parties agree that the contents of this Contract are confidential and not intended for use or dissemination by either Party without the express written consent of the other Party. For the purposes of this Section 15 a Party making disclosure together with its affiliates and representatives is a "Disclosing Party" and the non-Disclosing Party is an "Affected Party".

A Disclosing Party may disclose the existence and terms of this Contract (the "Disclosure Exceptions"): (i) to the extent required by law (including the rules of any applicable stock exchange), or by any governmental agency or required or requested to be disclosed pursuant to legal process (including discovery requests) or in connection with any bankruptcy, insolvency, or similar proceeding involving either of the Parties, provided that the Disclosing Party shall (A) immediately upon receiving notice that it is required to make a disclosure under law or stock exchange rules, give the Affected Party prior written notice and an opportunity of not less than 48 hours for the Affected Party to review and comment on the requisite disclosure before it is made, including an opportunity for the Affected Party to prevent such disclosure, (B) use its best efforts to incorporate the Affected Party's comments or limit such disclosure, by seeking confidential treatment or otherwise, and (C) promptly provide the Affected Party with notice of any requirement to provide any such information, regardless of when such disclosure shall be made; (ii) to the extent necessary to enforce this Contract including, without limitation, for the purposes of dispute resolution as set forth in Section 18; (iii) to any designated purchaser, employee, officer, director, agent, affiliate, representative, lawyer, investor, broker, potential transferee, financier, partner, member, shareholder or actual or potential financing source of the Disclosing Party or that Disclosing Party's affiliates (but not its representatives) provided that any such person or entity must be, prior to the disclosure, subject to confidentiality obligations that are the same as or more restrictive than the confidentiality obligations in this Contract and that the Disclosing Party disclosing such information to them will be responsible for any breach thereof; and (iv) to the extent such information is or becomes generally available to the public other than as a result of a disclosure by the Disclosing Party in violation of this Contract.

Unless required by applicable law or pursuant to any rules or regulations of any applicable securities exchange, neither Party will in any manner, without first obtaining the other Party's consent, which consent will not be unreasonably withheld or delayed: (i) advertise or publish the fact that Supplier has contracted to furnish Buyer the Product; (ii) use the other Party's trademarks, trade names or confidential information in such Party's advertising or promotional materials; or (iii) use the other Party's trademarks, trade names or confidential information in any form of electronic communication such as web sites (internal or external), blogs or other types of postings, except as may be required to perform hereunder or as required by law. Any announcement made by the Parties in relation to the execution of this Contract will be agreed in advance by the Parties.

16. Compliance with Laws

Supplier, and any goods or services supplied by Supplier, and Buyer, in connection with its obligations under this Contract, will comply with all applicable laws, rules, regulations, orders, conventions, ordinances or standards of the country(ies) of destination or that relate to the manufacture, labeling, transportation, importation, exportation, licensing, approval or certification of the Product, including, without limitation, those relating to environmental matters, the handling and transportation of dangerous goods or hazardous materials, data protection and privacy, wages, hours and conditions of employment, subcontractor selection, discrimination, occupational health/safety and motor vehicle safety. Supplier, in all respects, and Buyer, in connection with its obligations under this Contract, further represent that neither they nor any of their subcontractors, vendors, agents or other associated third parties will utilize child, slave, prisoner or any other form of forced or involuntary labor, or engage in abusive employment or corrupt business practices, in the supply of Product under this Contract. Supplier, in all respects, and Buyer, in connection with its obligations under this Contract, agree to comply with all applicable anti-corruption laws, including, without limitation, the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act, and that neither they nor any of their subcontractors, vendors, agents or other associated third parties will engage in any form of commercial bribery, nor directly or indirectly provide or offer to provide, anything of value to or for the benefit of, any official or employee of a governmental authority or of any government-owned, government-controlled or government-affiliated entity to obtain or retain any contract, business opportunity or other business benefit, or to influence any act or decision of that person in his/her official capacity. At Buyer's request, Supplier will certify in writing its compliance with the foregoing.

17. Termination for Cause

Upon the occurrence of any of the following "Events of Default" by a Party, the non-defaulting Party may elect to terminate this Contract, in whole or in part, by notice of termination to the defaulting Party and the expiration of any applicable cure period provided below: (a) Either Party repudiates or materially breaches its obligations, or refuses to materially perform its obligations, under this Contract, and if such breach is capable of being cured within twenty (20) Business Days, such breach is not cured by the breaching Party within twenty (20) Business Days of written notice of the occurrence of an Event of Default being provided by the other Party; or (b) Any secured or lien creditor commences a foreclosure action of its liens, security interests and/or mortgages in or against a material portion of a Party's assets or a Party: (A) commences, or has commenced against it, any case, proceeding or other action under Title 11 of the United States Code or any other liquidation, bankruptcy, conservatorship, moratorium, receivership, insolvency, rearrangement, reorganization or similar debtor relief laws of the United States or any other applicable jurisdictions in effect from time to time, seeking (i) to have an order for relief entered with respect to it, (ii) to adjudicate it as bankrupt or insolvent, (iii) to commence or implement any plan of reorganization, arrangement, adjustment, winding-up, liquidation, dissolution, composition or other relief with respect to it or its debts or (iv) the appointment of a receiver, trustee, custodian, conservator or other similar official for it or for all or any substantial part of its assets; or (B) makes a general assignment for the benefit of its creditors (collectively, an "Insolvency Event").

18. Governing Law and Jurisdiction

This Contract shall be governed by the laws of the State of New York, excluding the provisions of the United Nations Convention on Contracts for the International Sale of Goods (CISG), and without regard to its conflict of laws principles. Any action, dispute or proceeding seeking to enforce any provision of, or based on any right arising solely out of, this Contract (collectively, "Disputes") shall be first handled pursuant to the following escalation process. Any Party may submit its position on any Dispute in writing to the other Party and such other Party shall, within five (5) Business Days thereafter, submit its position on the Dispute in writing to the first Party. As promptly as practicable, but no later than five (5) Business Days thereafter, the Parties shall enter into good faith negotiations to attempt to resolve the Dispute. If those negotiations do not resolve the Dispute within fifteen (15) Business Days after the first Party's submission, then either Party may require that the Dispute be submitted, in writing to [_____] of Buyer and Jonathan Evans of Supplier (or, in each case, their functional successors), who shall negotiate in good faith and use their reasonable best efforts to expeditiously resolve the Dispute for a period of fifteen (15) Business Days after that submission, unless [_____] of Buyer and Jonathan Evans of Supplier (or in each case their functional successors) mutually agree to extend such period of negotiation. Any agreement pertaining to a Dispute shall be reduced to writing, be signed by the Parties and be final and binding upon the Parties. All negotiations pursuant to this Section 18 shall be confidential, and shall be treated as compromise and settlement negotiations for purposes of applicable rules of evidence. In the event that a Dispute has not been resolved after the use of the escalation procedures set forth above, then either Party may initiate the arbitration process. The Dispute shall be submitted to and settled by binding arbitration in New York, New York in accordance with the Administered Arbitration Rules of the International Institute for Conflict Prevention & Resolution, and such arbitration shall be in English. For disputes that involve alleged losses that do not exceed $25 million, the Parties shall mutually agree on a single arbitrator within a period of five (5) Business Days of receipt of notice that the other Party has referred a Dispute to arbitration, and if the Parties cannot agree upon the single arbitrator within such period of five (5) Business Days, the single arbitrator shall be appointed as promptly as practicable by the International Institute for Conflict Prevention & Resolution. For disputes that involve alleged losses that exceed $25 million, each Party shall, within five (5) Business Days of receipt of notice that the other Party has referred a Dispute to arbitration, appoint one nominating arbitrator and such nominating arbitrators shall together select within five (5) Business Days a neutral arbitrator who will conduct the arbitration. If such nominating arbitrators are not able to select a neutral arbitrator, the neutral arbitrator shall be appointed as promptly as practicable by the International Institute for Conflict Prevention & Resolution. The costs of the arbitrator shall be in the cause. The single arbitrator or the one neutral arbitrator shall make a decision within sixty (60) days of the arbitrator's appointment. The arbitrator shall not be empowered to award punitive or exemplary damages. The award rendered by the arbitrator shall be final and binding upon the Parties, and the judgement on the award rendered may be entered in any court having jurisdiction thereof. All Disputes shall be settled in this manner in lieu of an action at law or equity; *provided*, *however*, that nothing in this Section 18 shall be construed as precluding the bringing of an action for temporary or preliminary injunctive relief or other equitable relief. Each Party hereby irrevocably and unconditionally (i) waives any objection to the laying of venue of any such action, suit or proceeding in any such court, (ii) agrees not to plead or claim in any such court that any such action, suit or proceeding brought in any such court has been brought in an inconvenient forum and (iii) agrees that service of any court paper may be effected on such Party in any manner as may be provided under applicable laws or court rules of the State of New York.

GM's Supplier Code of Conduct, GM's Human Rights Policy and GM's Responsible Minerals Sourcing Policy

[See attached.]

SUPPLIER CODE OF CONDUCT

This Supplier Code of Conduct ("Code") articulates General Motors Company's ("GM") expectations of the conduct of suppliers and business partners doing business with GM ("suppliers"). This Code is based on our corporate values for responsible and sustainable products and operations and aligns with the ten principles of the United Nations Global Compact, of which, GM is a signatory. Suppliers are expected to understand and act consistent with GM's approach to integrity, responsible sourcing, and supply chain management. GM expects suppliers will cascade similar expectations through their own supply chains.

GM endeavors to do business with suppliers that meet our standards and behave consistently with, and positively reflect, GM's values throughout the supply chain. GM expects that suppliers will satisfy contractual requirements, comply with laws, regulations, and GM policies and act consistently with the principles and values of our GM Code of Conduct, Winning with Integrity, and this Code.

HUMAN RIGHTS

GM expects all suppliers to have processes in place to prevent, mitigate, and take effective measures to remediate adverse human rights impacts. Suppliers are expected and required to adhere to and cascade GM's Human Rights Policy or equivalent expectations throughout their supply chain.

The United Nations Guiding Principles on Business and Human Rights serve as a guiding framework for GM's work related to human rights. GM is also committed, and expects suppliers to commit, to the OECD Guidelines for Multinational Enterprises; the International Labor Organization's (ILO) Declaration on Fundamental Principles and Rights at Work; the International Bill of Human Rights; the Universal Declaration of Human Rights; and the International Covenant on Economic, Social and Cultural Rights. Suppliers are expected to comply with these internationally recognized standards.

Freely Chosen Employment

Suppliers and their employment agencies will not use slave, forced prisoner, bonded, indentured, or any other form of forced or involuntary labor. Suppliers will also not engage, directly or indirectly, in human trafficking. Suppliers will provide all workers with a written employment agreement or notification that contains a description of terms and conditions of employment as part of the hiring process, and foreign migrant workers will receive the employment agreement prior to the worker departing from their country of origin with no substitution or change(s) upon arrival in the receiving country except as required to meet local law. Employees must be free to terminate their employment without penalty.

Freedom of Movement

Suppliers and their employment agencies will not impose restrictions on entering or exiting company-provided facilities including, if applicable, workers' dormitories or living quarters, except when lawful and necessary for safety or security purposes. Suppliers will refrain from restricting workers' movement through the retention of bank payment cards or similar arrangements for accessing wages. Suppliers will also refrain from requiring workers to use company-provided accommodation. Suppliers and their employment agencies, will not destroy, withhold, or conceal identity or immigration documents, such as government-issued identification, passports, or work permits.

Child Labor

Suppliers and their employment agencies will not use child labor. GM has a zero-tolerance policy regarding the use of child labor. Suppliers will implement an appropriate mechanism to verify that the age of workers and workers recruited comply with the ILO Minimum Age Convention (No. 138) and will provide substantiation of this verification upon request. If child labor is discovered in its supply chain, suppliers will cease employment of the child/children and take reasonable measures to enroll the child/children in a remediation/education program. Suppliers will not use workers under the age of 18 ("young workers") to perform work that is likely to jeopardize their health or safety. If young workers are found to be involved in work that is likely to jeopardize their health or safety, suppliers will take reasonable measures to immediately remove the young workers from the situation and provide alternative work that is age appropriate.

Working Hours

Suppliers will comply with local laws and collective bargaining agreements (where applicable) regarding working hours. Working hours must not exceed the maximum set by local law.

Wages and Benefits

Suppliers and their employment agencies will pay wages and provide benefits and compensation to workers that comply with all applicable wage laws and regulations, including those relating to minimum wages, overtime hours, medical leave, and legally mandated benefits, and in line with Article 7 of the International Covenant on Economic, Social and Cultural Rights. Suppliers will refrain from making any deductions from wages as a disciplinary measure or imposing any financial burdens on workers related to recruitment costs. For each pay period, suppliers will provide workers with a timely and understandable written wage statement that includes sufficient information to verify accurate compensation for work performed. Workers shall receive equal pay for equal work, including paying a fair wage that meets or exceeds legal minimum standards. All use of temporary, dispatch and outsourced labor shall be within the limits of the local law. In the absence of local law, the wage rate for student workers, interns, and apprentices should be at least a substantially similar wage rate as other entry-level workers performing equal or similar tasks. Workers must be paid directly, in a timely fashion, and in recognized currency. Suppliers will keep records of worker hours and wage documentation in accordance with local law.

Humane Treatment

Suppliers will not engage in harsh or inhumane treatment including violence, gender-based violence, sexual harassment, sexual abuse, corporal punishment, mental or physical coercion, bullying, public shaming, or verbal abuse of workers; nor is there to be the threat of any such treatment. Suppliers will have disciplinary policies and procedures in place for any violations of these requirements that are clearly defined and communicated to workers.

Recruitment Practices

Suppliers will not require workers to pay suppliers' agents' or sub-agents' recruitment fees or other related fees for their employment. Suppliers will provide full reimbursement to job seekers and workers if they have been required to pay any such fees or related costs. If necessary for a supplier to use a labor broker, the supplier will only use brokers that employ ethical recruitment practices, comply with applicable laws, and do not withhold identity documents.

Non-Discrimination/Non-Harassment

Suppliers will be committed to a workplace free of harassment and unlawful discrimination. Suppliers will not engage in discrimination, harassment, intimidation, violence, or other adverse actions to employees based on race, color, age, gender, sexual orientation, gender identity and expression, ethnicity or national origin, disability, pregnancy, religion, political affiliation, union membership, covered veteran status, protected genetic information, marital status or any other basis prohibited by law including in hiring and employment practices such as wages, promotions, rewards, and access to training.

Freedom of Association

Suppliers will comply with and respect all applicable laws and ILO core conventions related to the rights of workers to form and join trade unions of their own choosing, to bargain collectively, to engage in peaceful assembly, as well as respect the right of workers to refrain from such activities. Suppliers will avoid any form of threats, intimidation, physical or legal attacks against stakeholders, including union members and union representatives, exercising their legal rights to freedom of expression, association, and peaceful assembly.

Vulnerable Groups

Suppliers will commit to protect the rights of vulnerable groups within their businesses and supply chains, particularly the rights of women, indigenous peoples, children, and migrant workers. Suppliers will develop and implement internal measures to provide equal pay and opportunities throughout all levels of employment. Suppliers will also implement measures to address health and safety concerns that are particularly prevalent among women workers, including, but not limited to, preventing sexual harassment, offering physical security, and providing reasonable accommodation for nursing mothers.

Human Rights Defenders

Human rights defenders are individuals or groups who act to promote and protect human rights and fundamental freedoms through peaceful means. Suppliers will commit to neither tolerate nor contribute to threats, intimidation, or attacks against human rights defenders in relation to their operations to create safe and enabling environments for civic engagement and human rights at local, national, or international levels.

Diversity, Equity, and Inclusion

GM encourages suppliers to develop and promote inclusive cultures where diversity is valued and celebrated and everyone is able to contribute fully and reach their full potential. Suppliers should encourage diversity in all levels of their workforce and leadership, including boards of directors.

HEALTH & SAFETY

Suppliers will provide clean, healthy, and safe working environments for their personnel that meet or exceed legal standards. Suppliers will have safety procedures for their employees and tracking tools that drive to a goal of zero workplace safety incidents. Supplier employees will have the right to refuse work and report any conditions that do not meet these criteria. Suppliers will also properly manage the health and safety of contractors performing work on supplier's premises.

Occupational Safety

Suppliers will identify, assess, and mitigate worker potential for exposure to all health and safety hazards including eliminating the hazard, substituting processes or materials, controlling through proper design, implementing engineering and administrative controls, preventative maintenance, and safe work procedures (including lockout/tagout). Suppliers will provide ongoing occupational health and safety training, including prior to the beginning of work. Health and safety related information shall be clearly posted in the facility or placed in a location identifiable and accessible by workers. Where hazards cannot be adequately controlled by these means, suppliers will provide workers with appropriate, well-maintained, personal protective equipment (PPE) and associated training on how and when it needs to be applied. Suppliers will also provide communication and training to their workforce regarding the risks to them associated with these hazards.

Emergency Preparedness

Suppliers will work to actively identify and assess potential emergency situations and events and minimize their impact by implementing emergency plans and response procedures including emergency reporting, employee notification and evacuation procedures, worker training, and drills. Suppliers will execute emergency drills at least annually or as required by local law. Emergency plans should include appropriate fire detection and suppression equipment, clear and unobstructed egress, adequate exit facilities, contact information for emergency responders, and recovery plans.

Physically Demanding Work

Suppliers will identify, evaluate, and control worker exposure to the hazards of physically demanding tasks, including manual material handling and heavy or repetitive lifting, prolonged standing, and highly repetitive or forceful assembly tasks.

Machine Safeguarding

Suppliers will evaluate production and other machinery for safety hazards. Physical guards, safeguarding devices, and barriers must be provided and properly maintained where machinery presents an injury hazard to workers.

Sanitation, Food, and Housing

Suppliers will take reasonable measures to provide workers with ready access to clean toilet facilities, potable water, and sanitary eating facilities. Any worker dormitories or living quarters provided by suppliers should also be maintained to be clean and safe, and provided with appropriate emergency egress, hot water for bathing and showering, adequate lighting and heat and ventilation, and individually secured accommodations for storing personal and valuable items.

Occupational Injury and Illness

Suppliers will have procedures and systems to prevent, investigate, root cause, manage, track, and report occupational injury and illness, including provisions to encourage worker reporting, classify and record injury and illness cases, provide necessary medical treatment, investigate cases, and implement corrective actions to eliminate their causes, and facilitate the return of workers to work.

Product Safety

Suppliers and contractors will promptly communicate any safety concern related to GM vehicles. "Speak Up for Safety" is a program that suppliers and contractors working on behalf of GM can use to report vehicle safety concerns and make suggestions to improve safety. Safety concerns or suggestions can be made at any time through the GM Awareline.

ENVIRONMENT

Responsible Stewardship

Suppliers will continually strive to protect the communities and environment that surround them. Suppliers will also continually strive to conserve natural resources including water, fossil fuels, minerals, and virgin forest products by practices such as modifying production, maintenance and facility processes, materials substitution, re-use, conservation, recycling, or other means. Suppliers should promote circularity and closed loop systems by supporting the use of sustainable, renewable natural resources while reducing emissions, pollution, and waste.

Environmental Permits and Reporting

Suppliers will follow applicable local, national, and international environmental laws. Suppliers will obtain and keep current all required environmental permits, approvals, and registrations, follow their operational and reporting requirements, and will provide said documentation to GM upon request. GM encourages all suppliers to be bold and go beyond compliance obligations to integrate additional environmentally sustainable practices throughout the company.

Pollution Prevention

Suppliers will minimize or eliminate emissions and discharges of pollutants and generation of waste at the source or by practices such as adding pollution control equipment, modifying production, maintenance, and facility processes, or by other means. Suppliers will routinely monitor and disclose, appropriately control, minimize, and strive to eliminate contributing to pollution, as required by and in accordance with applicable law. Suppliers should assess cumulative impacts of pollution sources at their facilities.

Greenhouse Gas Emissions

Suppliers will continually strive to reduce greenhouse gas emissions. Suppliers will track Scope 1, 2, and 3 greenhouse gas emissions. Upon request, suppliers will share Scope 1, 2, and 3 greenhouse gas emissions data with GM, and/or publish that data through GM's preferred third-party. Suppliers shall establish time-bound emission reduction goals and shall strive to obtain approved science-based targets that are at a minimum aligned with GM's Supplier Sustainability Partnership Pledge.

Other Air Emissions

Suppliers will follow applicable local, national, and international air pollution control laws. Suppliers will characterize, routinely monitor, control, and treat emissions of air pollutants as required by law. Ozone depleting substances must be effectively managed in accordance with the Montreal Protocol and applicable regulations. Suppliers will conduct routine monitoring of the performance of their air emission control systems. Hazardous air emissions shall be characterized, monitored, and controlled as required by permits and local, national, or international regulation. Suppliers will monitor performance of air emission control systems for effectiveness.

Hazardous Substances

Suppliers will identify, label, store, and manage chemicals, waste, and other materials posing a hazard to human health or the environment and will use safe handling, movement, storage, use, recycling or reuse, and disposal in compliance with GM requirements and international, national, and local laws. Suppliers will look for ways to reduce the use of hazardous materials and substances of concern within products and their manufacturing processes.

Materials Restrictions

Suppliers will adhere to all applicable laws, regulations and GM requirements regarding restrictions and prohibitions of specific substances in products and manufacturing including labeling and disposal. If requested, suppliers will provide information or reports of the composition of all substances or materials supplied to GM.

Solid Waste

Suppliers will implement a systematic approach to identify, manage, reduce, and responsibly dispose of or recycle solid waste (non-hazardous).

Water Management

Suppliers will implement a water management program that documents, characterizes, and monitors water sources, use, and discharge; seeks opportunities to conserve water; and controls channels of contamination. Wastewater must be characterized, monitored, controlled, and treated as required prior to discharge or disposal. Suppliers will conduct routine monitoring of their wastewater treatment and containment systems for optimal performance and to meet regulatory compliance. Suppliers should effectively reuse and recycle water. Supplier should prevent unpermitted discharges and mitigate the potential impacts of such discharges and from flooding caused by rainwater run-off.

Animal Welfare

Suppliers will respect the welfare of animals and provide humane treatment in line with the five animal freedoms formalized by the World Organization for Animal Health (OIE) concerning animal welfare which include: freedom from hunger, thirst and malnutrition; freedom from fear and distress; freedom from physical and thermal discomfort; freedom from pain, injury and disease; and freedom to express normal patterns of behavior. No animal should be raised and killed for the single purpose of being used in automotive products.

GM does not conduct or commission the use of animals in tests for research purposes or in the development of our vehicles, either directly or indirectly. Suppliers will not supply any raw materials, components, parts or assemblies to GM that involved testing on animals in its research or development.

Continuous Improvement

Suppliers will take measures to increase innovation and efficiency throughout their companies and reduce their carbon footprint, energy use, water use, material use, wastes, and other emissions. Suppliers should have a sustainable procurement policy in place to communicate sustainability expectations through the supply chain. Suppliers will set sustainability goals, accurately track results, and report on progress.

RESPONSIBLE SOURCING

Due Diligence

Suppliers will implement a policy committing to the responsible sourcing of all minerals and materials in line with GM's Conflict Minerals Policy and Responsible Minerals Sourcing Policy. These policies require conducting due diligence in accordance with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, including its current supplements on tin, tantalum, tungsten and gold (3TG). Suppliers will disclose to GM, as necessary, updated smelter/refiner information for any 3TG mineral used in the production of its parts, materials, components, and products. Suppliers will also engage with sub-tier suppliers to conduct due diligence by providing reporting templates or other information upon request.

Land Rights

Suppliers will respect the communities in which they are based and serve. Suppliers will respect the land rights of individuals, indigenous people, and local communities in accordance with local laws, the ILO Indigenous and Tribal Peoples Convention (No. 169), and the United Nations Declaration on the Rights of Indigenous People. Suppliers will respect the rights of local communities to decent living conditions, education, employment, social activities, and the right to Free, Prior, and Informed Consent (FPIC) to developments that affect them and the lands on which they live, with particular consideration for the presence of vulnerable groups. Suppliers should also protect ecosystems, especially key biodiversity areas, impacted by their operations, and avoid illegal deforestation in accordance with international biodiversity regulations, including the IUCN Resolutions and Recommendations on biodiversity. Suppliers should routinely monitor and control their impact on soil quality to prevent soil erosion, nutrient degradation, subsidence, and contamination. Suppliers should routinely monitor and control the levels of industrial noise to avoid noise pollution.

BUSINESS INTEGRITY

Anti-Corruption/Anti-Bribery

Suppliers will not tolerate corruption, bribery, money laundering, embezzlement, extortion, or fraud in any form. This includes giving or receiving anything of value, including money, gifts, or unlawful incentives to improperly influence negotiations or any other dealings with governments and government officials, customers, or any other third parties. Suppliers will implement monitoring, record keeping, and enforcement procedures to comply with anticorruption laws.

Disclosure of Information

Suppliers will accurately disclose information regarding their labor, health and safety, environmental practices, business activities, structure, financial situation, and performance in accordance with applicable regulations. All of supplier business dealings will be transparently performed and accurately reflected on the supplier's business books and records. Falsification of records or misrepresentation of conditions or practices in the supply chain are unacceptable.

Intellectual Property

Suppliers will respect intellectual property rights. Transfer of technology and know-how must be done in a manner that protects intellectual property rights, and customer and supplier information must be safeguarded.

Counterfeit Parts

Suppliers will never utilize counterfeit components in any product supplied to GM. Suppliers will also minimize the risk of introducing diverted parts and materials into deliverable products and adhere to relevant technical regulations in the product design process.

Privacy

Suppliers will protect the reasonable privacy expectations of personal information of everyone they do business with, including suppliers, customers, consumers, and employees. Suppliers will comply with privacy and information security laws and regulatory requirements when personal information is collected, stored, processed, transmitted, and shared.

Export Controls and Economic Sanctions

Suppliers will comply with all applicable restrictions on the export, re-export, release or other transfer of goods, software, services, and technology; all applicable economic sanctions restrictions involving certain territories, entities and individuals (to include conducting appropriate due diligence on third parties); and all other similar trade-related laws and regulations.

Ethical Behavior

Suppliers will uphold the highest standards of integrity in all business interactions, including standards of fair business, advertising, and competition. Suppliers will avoid conflicts of interest and operate honestly and ethically throughout the supply chain and in accordance with applicable law, including those laws pertaining to anti-competitive business practices, respect for and protection of intellectual property, company and personal data, and export controls and economic sanctions. Suppliers will require that their employees avoid and disclose situations where their financial or other interests conflict with job responsibilities, or situations giving any appearance of impropriety.

Grievance Mechanisms and Non-Retaliation

Suppliers will provide a clearly communicated grievance mechanism, in local languages, for workers to utilize to report integrity concerns, human rights concerns, safety issues, and misconduct without fear of reprisal. Subject to any restrictions imposed by law, suppliers will provide workers with a safe, confidential, and anonymous environment to provide grievance and feedback and will reasonably protect whistleblower confidentiality. Suppliers will also have a process in place for subcontractors and the community associated with the supplier's operations to raise concerns to the supplier. When creating such mechanisms, suppliers should consult potential or actual users on the design, implementation, or performance of the mechanism. Suppliers should periodically assess their grievance mechanism against the UN Guiding Principles' effectiveness

criteria. Suppliers will prohibit all forms of retaliation against those who raise concerns in good faith. Suppliers will also appropriately investigate reports and take corrective action, if needed. Suppliers will cascade these expectations through their own supply chain.

Reporting Concerns to GM

Subject to any restriction posed by law, suppliers will promptly inform GM of any concern related to issues governed by this Code and collaborate with GM in subsequent investigations. GM policy prohibits retaliation against any person reporting such a concern. To report a concern, suppliers can always speak directly to their GM Global Purchasing and Supply Chain representative. In addition, the GM Awareline allows employees, contractors, suppliers, and others to report concerns of misconduct affecting GM. Individuals can file a report 24 hours a day, 7 days a week by phone, web, or email. Individuals filing reports on the GM Awareline can remain anonymous, as permitted by law. The link to access information for GM's Awareline is located here.

Addressing Impacts

When potential adverse impacts are discovered, suppliers will investigate, and where appropriate, will engage with potentially affected stakeholders and/or their representatives with the aim of identifying mutually agreeable solutions or remedies and providing for or cooperating in their remediation through legitimate processes. Suppliers will cascade this expectation through their own supply chains.

MANAGEMENT SYSTEMS

Suppliers will develop and implement an appropriate internal management system to comply with applicable law and the content of this Code. Suppliers will be able to demonstrate compliance with this Code upon GM's request and will take any action to correct any noncompliance. If requested, suppliers will complete questionnaires or participate in on-site assessment or audits.

The management system should contain the following elements:

Leadership Commitment

Suppliers will clearly identify senior executives and company representatives responsible for ensuring implementation of the management system and associated programs. Senior management should review the status of the management systems on a regular basis.

Stakeholder Engagement

Suppliers will continuously improve their sustainability and stakeholder engagement progress. GM also encourages suppliers to work closely with local communities to implement projects and strategies that improve the community and those who live there.

Risk Assessment and Management

Suppliers will have processes and strategies in place to identify and control business risk, legal compliance, environmental, health and safety, and labor practices and ethics risks associated with the supplier's operations. Suppliers should determine the relative significance for each risk and implement appropriate procedural and physical controls to control the identified risks and meet regulatory compliance. Suppliers will continually monitor and enforce these standards in their operations and supply chain including subcontractors.

Improvement Objectives

Suppliers should conduct a periodic self-assessment, preferably administered through a third party, regarding conformity to legal and regulatory requirements, the content of this Code, and customer contractual requirements related to social and environmental responsibility. Suppliers will also have a process for timely correction of deficiencies identified by internal or external assessments, inspections, investigations, and reviews.

Training

Suppliers will have programs for new and ongoing training of managers and workers to implement their policies, procedures, and improvement objectives and to meet applicable legal and regulatory requirements and comply with this Code and GM's policies.

Communication and Documentation

Suppliers will have a process for communicating clear and accurate information about their policies, practices, expectations, and performance to workers, suppliers, and customers. Suppliers will also create and maintain documents and records to meet regulatory compliance and conformity to company requirements along with appropriate confidentiality to protect privacy.

Supplier Responsibility

Suppliers will have a process to communicate these Code requirements through their supply chain and to require suppliers to adopt management systems and practices for compliance with this Code or requirements materially consistent with this Code. Upon request, suppliers will provide evidence of efforts to cascade this Code or requirements materially consistent with this Code through their supply chains.

HUMAN RIGHTS POLICY

Effective as of August 17, 2021

Introduction

General Motors Company (GM) understands that long-term success starts with a company's value system and a principled approach to doing business. This policy strives to make clear and transparent how we define, approach, govern and support universal human rights and the dignity of people throughout our operations, our communities in which we operate, and our global supply chain.

Our Commitment

The UN Guiding Principles on Business and Human Rights (the UN Guiding Principles) serve as a guiding framework for our work related to human rights. It establishes that the role of government is to protect human rights, the role of business is to respect human rights, and that both can play important roles to remedy adverse human rights impacts if and when they occur. GM is committed to respecting all internationally recognized human rights, including those described in the Universal Declaration of Human Rights, the International Labour Organization's (ILO) Declaration on Fundamental Principles and Rights at Work (the ILO Core Conventions), the OECD Guidelines for Multinational Enterprises, and the UN Global Compact (to which GM is a signatory).

Workers' Rights

The International Labour Organization (ILO) has established eight fundamental Conventions that cover four fundamental rights at work. Collectively, these are covered in the ILO Declaration on Fundamental Principles and Rights at Work (1998) and are also referred to as the ILO Core Conventions. General Motors commits to respect these rights, which are:

- Freedom of association and the effective recognition of the right to collective bargaining;
- The elimination of all forms of forced or compulsory labor;
- The effective abolition of child labor; and
- The elimination of discrimination in respect of employment and occupation.

In addition, we are committed to the following and expect our suppliers and contractors to share in our commitment as we have set forth in our Supplier Code of Conduct:

- We will provide and maintain safe and healthy working conditions that meet or exceed applicable legal standards for occupational health and safety.
- We will not use or tolerate human trafficking.
- We will comply with all applicable laws concerning working hours.
- We view diversity and inclusion as a strength. We respect what each individual brings to our team. We will not tolerate harassment or discrimination on the basis of race, religion, age, national origin, disability, sexual orientation, gender identity or expression, family status, veteran status, or any other protected class.

- We employ ethical recruitment practices and prohibit recruiters from charging recruitment fees to potential employees and from withholding identity documents. Where our employees have employment contracts, we provide access to those contracts. We pay fair wages.

We expect our suppliers to commit to respecting each of the ILO Core Conventions as listed above, as well as other human rights, as detailed in our Supplier Code of Conduct. As noted therein, General Motors expects that its suppliers will cascade similar expectations throughout their own supply chains.

Rights of Vulnerable Groups

We recognize and respect the rights of vulnerable groups around the world, such as indigenous peoples, children, and migrant workers. We expect our suppliers to be similarly committed to protecting the rights of vulnerable groups. The rights of these groups have been established and codified in various international conventions, including:

- United Nations (UN) Convention on the Elimination of all Forms of Discrimination against Women (CEDAW), 1979
- UN Convention on the Rights of the Child (CRC), 1989
- International Convention on the Elimination of All Forms of Racial Discrimination (ICERD), 1965
- International Labour Organization (ILO) Convention 107, Indigenous and Tribal Populations Convention, 1957
- ILO Convention 169, Indigenous and Tribal Peoples Convention, 1991
- UN Declaration of the Rights of Indigenous Peoples (UNDRIP), 2007
- UN Convention on the Rights of Persons with Disabilities (CRPD), 2006

We recognize that around the world women face discrimination, lack access to skills and training, and often lack protection of basic rights and laws. We support women's rights and economic inclusion, including support for equal pay.

We commit to neither tolerate nor knowingly contribute to threats, intimidation, or attacks against human rights defenders in relation to our operations. We encourage our suppliers to make the same commitment.

Addressing Impacts

We take seriously our responsibility to identify, prevent, mitigate, and remediate human rights related risks and impacts to which we may cause or contribute. We will implement the necessary policies and processes to fulfill each of these responsibilities.

When we discover potential adverse human rights impacts, we will investigate, and where appropriate, we will engage with potentially affected stakeholders and/or their representatives with the aim of identifying mutually agreeable solutions or remedies and providing for or cooperating in their remediation through legitimate processes.

Similarly, we expect our suppliers to have processes in place to prevent, mitigate, and remediate adverse human rights impacts that they may cause or to which they may contribute and we expect those suppliers to cascade that expectation as well through their own supply chains pursuant to our Supplier Code of Conduct.

Stakeholder Engagement
We support the communities in which we operate and are committed to engage with our stakeholders taking into account their views as we conduct our business.

Privacy
We are committed to respecting the privacy of individuals, including employees and customers. We follow globally recognized privacy principles and strive to implement reasonable and appropriate practices in our collection, use, and sharing of personal information about individuals.

Reporting and Enforcement Mechanism
We put in place several reporting mechanisms and have strong anti-retaliation policies. We monitor our operations and information about our suppliers for potential violations and take action if violations occur, up to and including termination of employment or contract. Employees, suppliers, contractors, or others can report any incidents or concerns using GM's grievance mechanism - our Awareline - 24 hours per day, 7 days per week by phone, Web, or email.

We do not tolerate retaliation against anyone for raising a concern in good faith as reflected in our non-retaliation policy and our non-retaliation expectations are made clear to our suppliers in our Supplier Code of Conduct.

Disclosure
We report our actions and engagement on human rights in our annual sustainability report. We also make public on our website our values, principles, policies, and practices that this policy reinforces.

Addressing Potential Conflicts
General Motors operates in many different jurisdictions subject to different laws and regulations. In situations where our human rights policies are more stringent than local laws, we adhere to our own policies. In situations where laws or regulations in a particular jurisdiction conflict with our policies, we strive to apply our policies and international standards as far as local law allows.

RESPONSIBLE MINERALS SOURCING POLICY

General Motors (GM) is committed to sustainable and responsible sourcing of goods and services throughout our supply chain, including the various extracted minerals from around the world that ultimately become incorporated into our goods or services. As the auto industry's development of electric vehicles matures, responsible sourcing is an increasingly important part of our commitment. We recognize the importance of mitigating any inadvertent adverse impact that GM demand for minerals may cause to the environment, society, and people in regions where the minerals are extracted or processed.

GM understands that certain minerals predominantly originate from Conflict Affected and High-Risk Areas (CAHRA)1, including the Democratic Republic of Congo ("DRC") and its adjoining countries, where there are heightened concerns that proceeds from minerals could be used to contribute to armed conflict or human rights abuses. In particular, the minerals tin, tungsten, tantalum, and gold ("3TG Minerals") that are extracted or processed in certain geographies and contribute to armed conflict in DRC and its adjoining countries have become commonly referred to as "conflict minerals." Similar concerns exist with additional minerals identified in Appendix A to this policy.

Consistent with our company values, GM's goal is to avoid sourcing minerals in a way that contributes to armed conflict or human rights abuses. GM's goal is also to continue to support the communities in those areas that depend on the mining industry through the sustainable sourcing of minerals in accordance with this policy. We are adopting this policy and have designed our program and due diligence practices in accordance with the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict Affected and High Risk Areas(OECD Due Diligence Guidance) in order to address responsible mineral sourcing.

As an organization, we have committed to:

I. Exercise due diligence with relevant suppliers in accordance with the OECD Guidance.
II. Collaborate with customers, suppliers, and industry associations to help develop long term solutions to enable responsible sourcing.
III. Support sourcing initiatives to improve the upstream communities in our supply chain.
IV. Encourage smelters and refiners in our supply chain to successfully complete the Responsible Minerals Assurance Process (RMAP).

What we require of our suppliers:

I. Create and maintain a publicly available responsible minerals policy consistent with the OECD Guidance.
II. Establish due diligence frameworks and management systems consistent with the OECD Guidance.
III. On an annual basis, complete reporting templates for the minerals identified in Appendix A.
IV. Utilize smelters and refiners that conform to an independent third-party responsible minerals sourcing program.
V. Extend these requirements and expectations to all their sub-tier suppliers.

If we determine that a supplier in our supply chain violates one of these responsible sourcing requirements, we will endeavor to obtain an acceptable remediation of the violation, including without limitation directly communicating with suppliers and making available compliance education and training. We may also reassess our business relationship with a supplier if identified violations are not remedied.

1. OECD definition of conflict-affected and high-risk areas: "Conflict-affected and high-risk areas are identified by the presence of armed conflict, widespread violence or other risks of harm to people. Armed conflict may take a variety of forms, such as a conflict of international or non-international character, which may involve two or more states, or may consist of wars of liberation, or insurgencies, civil wars, etc. High-risk areas may include areas of political instability or repression, institutional weakness, insecurity, collapse of civil infrastructure and widespread violence. Such areas are often characterized by widespread human rights abuses and violations of national or international law."

Section 2.03 Mechanics for Requesting Advances.

(a) Advance Requests. Subject to the Funding Agreements, from time to time during the Availability Period, the Borrower may request Advances under the Funding Agreements by delivering to DOE, by an Acceptable Delivery Method, an appropriately completed request with respect to such Advance or Advances (each, an "**Advance Request**"), in the form attached as Exhibit A-1 (*Form of Advance Request*) (as such form may be amended, supplemented or modified from time to time by DOE, the "**Form of Advance Request**") and otherwise in form and substance satisfactory to DOE:

(i) in the event the requested Advance is an amount less than five hundred million Dollars ($500,000,000), not less than fifteen (15) Business Days and not more than twenty (20) Business Days prior to the Requested Advance Date; and

(ii) in the event the requested Advance is an amount equal to or greater than five hundred million Dollars ($500,000,000), not less than twenty (20) Business Days and not more than twenty-two (22) Business Days prior to any Requested Advance Date.

(b) Frequency. The Borrower may request Advances in accordance with clause (a) above no earlier than thirty (30) days from the date of the immediately preceding Advance Request; *provided* that (i) the Borrower shall not deliver an Advance Request more frequently than once per calendar month without the prior written consent of DOE; and (ii) in no event shall the Requested Advance Date be on a date occurring during: (A) the last three (3) Business Days of any calendar month (other than March, June, September or December); (B) the last seven (7) Business Days of March, June, September or December; or (C) the period from September 15 to and including the third (3rd) Business Day of October.

Section 2.04 Mechanics for Funding Advances.

(a) Advance Funding.

(i) Satisfaction of Conditions. Promptly after receipt of an Advance Request complying with Section 2.03(a) (*Advance Requests*), DOE shall review such Advance Request to determine whether all certificates and documentation required to be attached thereto have been delivered to it.

(ii) Advance Request Approval Notice. With respect to any Advance under the Funding Agreements, if DOE determines that (x) the Advance Request has been satisfactorily completed pursuant to Section 2.04(a)(i) (*Satisfaction of Conditions*), and (y) all conditions precedent set forth in Section 5.04 (*Advance Approval Conditions Precedent*) in respect of the requested Advance have been satisfied (or waived in writing), then DOE shall issue to FFB an Advance Request Approval Notice:

(A) in the event the Advance is an amount less than five hundred million Dollars ($500,000,000), no later than three (3) Business Days prior to the Requested Advance Date; and

(B) in the event the Advance is an amount equal to or greater than five hundred million Dollars ($500,000,000), five (5) Business Days prior to the Requested Advance Date.

(iii) Funding. For any requested Advance for which an Advance Request Approval Notice has been issued pursuant to this Section 2.04(a) (*Advance Funding*) and for which no Drawstop Notice has been issued pursuant to clause (b) below, FFB shall fund such Advance on the Requested Advance Date in accordance with the Note Purchase Agreement and the Note. Such funds shall be applied as specified in the Funding Agreements and in accordance with clause (d) below; *provided* that, if any Drawstop Notice has been issued and is in effect on the Requested Advance Date with respect to any funds received by the Borrower, such funds (together with any additional amounts due

thereon or arising therefrom) shall be returned by the Borrower to FFB pursuant to clause (b) below.

(b) Drawstop Notices.

(i) Issuance. Following the issuance of any Advance Request Approval Notice by DOE pursuant to clause (a) above and on or prior to the Requested Advance Date, DOE or FFB may, from time to time, issue a notice substantially in the form attached hereto as Exhibit B (*Form of Drawstop Notice*) (a "**Drawstop Notice**") to the Borrower and to DOE or FFB, as the case may be, if and only if DOE or FFB, as the case may be, determines that:

(A) any condition set forth in Section 5.03 (*Conditions Precedent to the First Advance Date*), Section 5.04 (*Advance Approval Conditions Precedent*) or Section 5.05 (*Conditions Precedent to FFB Advance*), as applicable, with respect to such Advance is not met, or, having been met on the applicable Advance Request date, is no longer met; or

(B) to the extent the Advance Request Approval Notice has been issued for any Advance under the Note and the Note Purchase Agreement, the conditions precedent to such Advance contained in the Note and the Note Purchase Agreement are not met, or, having been met, are no longer met.

(ii) Consequences. If a Drawstop Notice is issued, FFB shall not be obligated to make the requested Advance set forth on such Drawstop Notice; *provided* that, if FFB makes any such Advance to the Borrower following the issuance of a Drawstop Notice, the Borrower shall return such Advance to FFB within one (1) Business Day following receipt thereof; *provided further* that any amount required to be returned by the Borrower pursuant to this clause (ii) shall accrue interest at the Late Charge Rate from the date such Advance is made until such Advance is returned and be subject to payment of a make-whole amount in accordance with the Note. Following the return of such Advance, FFB shall deliver an invoice to the Borrower setting forth the interest and other applicable make-whole amount due and payable with respect to such returned amount. The Borrower shall pay promptly, but in no event later than five (5) Business Days following delivery of such invoice, such interest and other applicable make-whole amounts as directed by FFB, and the Borrower shall pay all costs and expenses incurred by DOE, FFB, or the Collateral Agent as a result of such DOE Advance withdrawal. Any amounts returned pursuant to this clause (ii) shall be available for reborrowing.

(c) No Liability.

(i) The Borrower acknowledges and agrees that DOE shall only be required to use its reasonable efforts to provide FFB with the necessary Advance Request Approval Notices within the time frames specified in Section 2.04(a)(i) (*Satisfaction of Conditions*) and (ii) (*Advance Request Approval Notice*) above, but DOE shall in any event ensure that FFB receives all such Advance Requests and Advance Request Approval Notices as soon

as reasonably practicable following receipt from the Borrower of the applicable Advance Requests, certificates and other documentation specified above (subject to the Borrower satisfying all applicable conditions precedent specified in Article V (*Conditions Precedent*)).

(ii) Neither DOE nor FFB shall have any liability for any action taken (including the delivery of a Drawstop Notice) or omitted to be taken (including the refusal to fund any Advance or Advances following the issuance of a Drawstop Notice) or for any loss or injury resulting from its actions or inaction or its performance or lack of performance of any of its other obligations hereunder unless and solely to the extent such liability arises from the gross negligence or willful misconduct of DOE or FFB as determined in a final and non-appealable judgment of a court of competent jurisdiction. In no event shall DOE, FFB or any subsequent holder of the Note be liable, and each such Person shall be exempt from liability in accordance with Section 11.08 (*Limitation on Liability*), in each case: (A) for acting in accordance with, or relying upon, any entitlement order, instruction, notice, demand, certificate or document from the Borrower or any entity acting on behalf of the Borrower; or (B) in the case of FFB or any subsequent holder of the Note, for acting in accordance with, or relying upon, any Drawstop Notice issued by DOE.

(iii) Notwithstanding anything contained in this Agreement to the contrary, neither DOE nor FFB shall incur any liability to the Borrower, any Affiliate thereof or to any other Secured Party for not performing any act or fulfilling any duty, obligation or responsibility hereunder or under any other Financing Document by reason of any Lender Force Majeure Event; it being understood that DOE or FFB, as the case may be, shall resume performance hereunder as soon as reasonably practicable after such Lender Force Majeure Event ceases to prevent or otherwise hinder DOE or FFB, as applicable, from performing hereunder or thereunder.

(d) Disbursement of Proceeds.

(i) The Borrower shall apply the proceeds of any Advance solely to:

(A) with respect to the proceeds from (1) the First Advance or (2) any subsequent Advance to the extent approved in advance in writing by DOE (in its sole discretion), in each case, fund any Equity Refund;

(B) on and after the First Advance Date, pay for Eligible Project Costs that are due and payable or that are reasonably expected to become due and payable in the next ninety (90) day period following the relevant Advance Date (it being understood that at the time of submission of the relevant Advance Request the Borrower shall be in possession of all the invoices, or other documentation reasonably acceptable to DOE, necessary to evidence the incurrence or anticipated incurrence of such Eligible Project Costs); and/or

(C) without duplication of clause (B), fund the Reserve Account Requirement for the Debt Service Reserve Account in accordance with the Accounts Agreement.

(ii) In no event shall the proceeds of Advances be:

(A) applied towards any portion of Project Costs incurred prior to the Eligibility Effective Date;

(B) used to pay interest payments on the Loan (including any portion of the principal attributable to capitalized interest) or programmatic fees charged by or paid to DOE relating to the Loan;

(C) disbursed to fund (or reimburse the Borrower or any Borrower Entity for) any contribution made under the Equity Funding Commitment; or

(D) used to pay any portion of the Project Costs that are not Eligible Project Costs.

Section 2.05 Advance Requirements under the Funding Agreements. Notwithstanding anything to the contrary contained in this Article II (*Funding*), the Borrower shall comply with each disbursement requirement set forth in the Funding Agreements. Unless otherwise specified in the Funding Agreements, all determinations to be made with respect to the Funding Agreements shall be made by DOE.

Section 2.06 No Approval of Work. The making of any Advance or Advances under the Financing Documents shall not be deemed an approval or acceptance by any Secured Party of any work, labor, supplies, materials or equipment furnished or supplied with respect to the Project.

Section 2.07 Determination of Advance Amounts. As of any date of any requested Advance, after giving effect to the Advance:

(a) the sum of (i) the aggregate outstanding principal amount of all Advances made to the Borrower under the Note (including, for the avoidance of doubt, the principal amount of such requested Advance), and (ii) the Aggregate Capitalized Interest, shall not exceed [***] of the sum of: (iii) the amount of Eligible Project Costs (excluding all interest, regardless of whether such interest has been capitalized, or otherwise) incurred and paid on or prior to the relevant Requested Advance Date (or with respect to the final Advance, reasonably anticipated to be paid within ninety (90) days after such Requested Advance Date), and (iv) the Aggregate Interest During Capitalization Period;

(b) the outstanding principal amount of the Loan shall not exceed the Maximum Principal Amount; and

(c) the aggregate amount of capitalized interest shall not exceed the Maximum Capitalized Interest Amount.

ARTICLE III

PAYMENTS; PREPAYMENTS

Section 3.01 Place and Manner of Payments.

(a) All payments due under the Note shall be made by the Borrower to FFB pursuant to the terms of the Funding Agreements.

(b) All payments to be made to DOE under this Agreement shall be sent by the Borrower in Dollars in immediately available funds before 1:00 p.m. (District of Columbia time) on the date when due to such account as DOE shall direct by written notice to the Borrower not less than five (5) Business Days prior to the date when due).

(c) In the event that the date of any payment to DOE or the expiration of any time period hereunder occurs on a day that is not a Business Day, then such payment or expiration of time period shall be made or occur on the next succeeding Business Day, and such extension of time shall in such cases be included in computing interest or fees, if any, in connection with such payment.

(d) The Borrower understands and agrees that DOE and FFB are agencies or instrumentalities of the United States and that all payments to DOE or FFB hereunder or under the Financing Documents are payable, and shall in all cases be paid, free and clear of all Taxes.

Section 3.02 Maturity and Amortization.

(a) Maturity Date. The Borrower shall repay the outstanding Loan on the Maturity Date.

(b) Payments. The Note shall: (i) be stated to amortize in consecutive quarterly installments of principal payable on each Payment Date, commencing on the First Principal Payment Date (or, if not a Business Day, the next Business Day) in the amounts set forth in the amortization schedule set out in Schedule 3.02 (*Amortization Schedule*); *provided* that Payment Dates shall not occur on the last two (2) days of any month; and (ii) provide for the capitalization and payment of interest in accordance with Section 3.04 (*Interest Provisions Relating to All Advances*) and the Funding Agreements.

Section 3.03 Evidence of Debt. The entries made in the internal records maintained by or on behalf of DOE evidencing the amounts from time to time: (i) advanced by FFB under the Note Purchase Agreement and the Note; (ii) paid by DOE to FFB pursuant to Section 6.3 (*Reimbursement*) of the Program Financing Agreement; or (iii) paid by or on behalf of the Borrower from time to time in respect thereof, shall constitute, absent manifest error, evidence of the existence and amount of the Note Obligations of the Borrower as therein recorded.

Section 3.04 Interest Provisions Relating to All Advances.

(a) Interest Amount and Interest Computations.

(i) Interest shall accrue on the outstanding principal amount of each Advance from the date such Advance is disbursed to the Borrower pursuant to the Note Purchase Agreement and the Note, to the date such Advance is due, in each case, at a rate *per annum* as specified in the Funding Agreements. Except as provided in clause (ii) below, interest accrued on the outstanding principal balance of each Advance shall be due and payable to FFB on each Payment Date beginning on the first Payment Date to occur after the date on which such Advance is made, through and including the Maturity Date.

(ii) For each Advance made prior to the First Principal Payment Date, the amount of accrued interest on the Note that would otherwise be due and payable on each Payment Date to occur until the date immediately prior to the First Principal Payment Date shall be capitalized on the respective Payment Date and be added to the principal amount due under the Note, and interest shall accrue on the sum of the outstanding principal (including such capitalized interest) at the rate established for such Advance in accordance with paragraph 6 of the Note; *provided* that the aggregate amount of accrued interest that may be capitalized shall not exceed the Maximum Capitalized Interest Amount and shall not cause the total outstanding amount under the Note to exceed the Maximum Loan Amount. The amount of interest that shall be capitalized on each Advance shall be determined as set forth in the Note.

(iii) Without limiting the foregoing, all Overdue Amounts shall: (A) accrue interest at the Late Charge Rate; and (B) be payable by the Borrower in accordance with the Funding Agreements.

(iv) The Borrower hereby authorizes FFB to record in an account or accounts maintained by FFB on its books: (A) the interest rates applicable to all Advances; (B) the date and amount of each principal and interest payment on each Advance outstanding; and (C) such other information as FFB may determine is necessary for the computation of interest and the Prepayment Price payable by the Borrower under the Note. The Borrower acknowledges and agrees that all computations of interest and the Prepayment Price by FFB pursuant to this Section 3.04 (*Interest Provisions Relating to All Advances*) and the Note shall, in the absence of manifest error, be evidence of the amount thereof. All computations of interest shall be made as set forth in the relevant Funding Agreement.

(b) Interest Payment Dates. Subject to the terms of the Note Purchase Agreement and the Note, the Borrower shall pay accrued interest on the outstanding principal amount of each Advance: (i) on each Payment Date, as and to the extent specified in clause (a) above; (ii) on each prepayment date (to the extent thereof); and (iii) at maturity (whether by acceleration or otherwise).

Section 3.05 Prepayments.

(a) Terms of All Prepayments.

(i) With respect to any prepayment of any Advance, whether such prepayment is voluntary or mandatory, including a prepayment upon acceleration, the Borrower shall comply with all applicable terms and provisions of this Agreement and the Funding Agreements.

(ii) All prepayments of the Note shall be: (A) applied to Advances as specified in the relevant Prepayment Election Notice; and (B) due in an amount equal to the Prepayment Price calculated by FFB in accordance with the terms of the Note.

(iii) Except for funds repaid pursuant to Section 2.04(b)(ii) (*Consequences*), the Borrower may not reborrow the principal amount of any Advance that is prepaid, nor shall any such prepayment create availability for further borrowings during the Availability Period.

(iv) Simultaneously with all partial prepayments of the Advances under the Loan, whether voluntary or mandatory, the Borrower shall pay all accrued interest and other fees, costs, expenses and other Secured Obligations, in each case, then outstanding in respect of the principal amount being prepaid. Any prepayments of the Advances under the Loan in full shall require payment in full of all other Secured Obligations.

(v) If the Borrower shall fail to make a prepayment to FFB on any Intended Prepayment Date in accordance with this Agreement and the Note, the Borrower shall pay FFB a Late Charge on any Overdue Amount from such Intended Prepayment Date to the date on which payment is made, computed in accordance with the provisions of the Note.

(vi) Any prepayment made pursuant to this Section 3.05 (*Prepayments*) shall be applied: (A) to the specific Advances identified by the Borrower in accordance with the FFB Documents; and (B) in the inverse order of maturity among the outstanding principal amounts of such Advances.

(vii) In the event of any prepayment in full of all outstanding Advances under the Loan pursuant to this Section 3.05 (*Prepayments*) on or prior to the last day of the Availability Period, the remaining Loan Commitment Amount shall be deemed to be reduced to zero Dollars ($0), unless otherwise agreed to by DOE.

(b) Voluntary Prepayments.

(i) Subject to clause (ii) below, the Borrower may at any time and from time to time prepay all or any portion of the outstanding principal amount of any Advance under the Note, upon prior submission of a Prepayment Election Notice by the Borrower to DOE and FFB (with a copy to the Collateral Agent) not less than ten (10) Business Days prior to the Intended Prepayment Date in accordance with the terms hereof and the Note;

provided that to the extent that such partial prepayment is made prior to the expiration of the Availability Period, DOE has provided its prior written consent in respect thereof.

(ii) Any partial prepayment made under clause (i) above shall also be subject to the following:

(A) no Default or Event of Default has occurred and is continuing or could reasonably be expected to occur as a result of such prepayment; and

(B) to the extent such prepayment is made after the expiration of the Availability Period, the Borrower has demonstrated to the satisfaction of DOE that, immediately following such prepayment:

(1) each Reserve Account is funded in an amount equal to or greater than the applicable Reserve Account Requirement;

(2) if the Substantial Completion Date has not yet occurred, the Substantial Completion Date is expected to occur on or before the Substantial Completion Longstop Date;

(3) if the Project Completion Date has not yet occurred, the Project Completion Date is expected to occur on or before the Project Completion Longstop Date, and the total funding committed and available to the Borrower is sufficient to pay all remaining Project Costs in accordance with the then-applicable Construction Budget, Integrated Project Schedule, Mine Plan and Base Case Financial Model; and

(4) the total funding available to and revenues expected to be received by the Project during the current operating period will be, in the aggregate, sufficient to pay all Operating Costs in accordance with the then-applicable O&M Budget and Base Case Financial Model.

(c) Mandatory Prepayments.

(i) The Borrower shall prepay the Advances upon the occurrence of any of the following events (each, a "**Mandatory Prepayment Event**"), in the amount required below (such prepayment amounts, the "**Mandatory Prepayment Amounts**"); *provided* that the relevant Mandatory Prepayment Amount received and required to be paid pursuant to this Section 3.05(c) (*Mandatory Prepayments*) shall not be increased to account for any other amounts due and payable hereunder directly in connection with such prepayment, but rather such amounts shall be netted out of such Mandatory Prepayment Amount thereby reducing the amount of principal so paid:

(A) upon receipt by the Borrower or the Subsidiary Guarantor of any payment in respect of performance liquidated damages or breach under any Major

Project Document made to the Borrower or the Subsidiary Guarantor, the Net Amount thereof;

(B) the Net Amount of any Loss Proceeds received by the Borrower or the Subsidiary Guarantor, at the time and to the extent required in accordance with Section 7.04 (*Event of Loss*);

(C) upon receipt by the Borrower or the Subsidiary Guarantor of any payment as a result of the termination or repudiation of any Major Project Document, the Net Amount thereof; *provided* that if such Major Project Document is a Replaceable Contract, the Borrower may satisfy the Replacement Contract Conditions and enter into a Replacement Contract in respect thereof in lieu of making such prepayment;

(D) upon receipt by the Borrower or the Subsidiary Guarantor of the proceeds of any Disposition (other than a Permitted Disposition pursuant to clause (a), (c) or (d) of the definition thereof) in a single transaction or a series of related transactions of any asset of the Borrower or the Subsidiary Guarantor, that portion of the Net Amount of the proceeds of such Disposition to the extent greater than thirty million Dollars ($30,000,000) individually or in the aggregate, in any Fiscal Year;

(E) at the discretion of DOE, on any Payment Date, all funds on deposit in the Restricted Payment Suspense Account if no transfer or distribution of such funds has occurred on any of the immediately preceding seven (7) consecutive Payment Dates and cannot occur on such Payment Date due to a failure to satisfy the Restricted Payment Conditions;

(F) on each Payment Date on and after the First Principal Payment Date, fifty percent (50%) of all funds on deposit in the Revenue Account prior to any transfers to the Restricted Payment Suspense Account as of such Payment Date (such funds, "**Excess Cash**" and such prepayment, the "**Cash Sweep Mandatory Prepayment**"), after giving effect to all other withdrawals and transfers from the Revenue Account required to be made on such Payment Date pursuant to the Accounts Agreement; *provided* that if the Offtaker, together with any Designated Purchaser, elects to purchase less than (x) 32,000 tonnes in either of the first two (2) years of the Phase One Term (as defined in the Offtake Agreement) or (y) 35,000 tonnes after such first two (2) years, in each case, of the expected product in: (1) a given year pursuant to Sections 2.3 and 2.4 of the Offtake Agreement, a Cash Sweep Mandatory Prepayment of sixty-seven and five-tenths percent (67.5%) of Excess Cash shall apply for such given year; (2) two (2) consecutive years pursuant to Sections 2.3 and 2.4 of the Offtake Agreement, a Cash Sweep Mandatory Prepayment of seventy-five percent (75%) of Excess Cash shall apply with respect to the second (2nd) such consecutive year (and for the avoidance of doubt, clause (1) above shall apply with respect to the first such year); or (3) three (3) consecutive years pursuant to Sections 2.3 and 2.4 of the Offtake Agreement, a

(G) on the Project Completion Date, to the extent that the Project Completion Date Base Case Financial Model demonstrates that a portion of the Loan must be prepaid in order for the Debt Sizing Parameters to be satisfied as of the Project Completion Date, in the amount necessary to cause the satisfaction of the Debt Sizing Parameters as of the Project Completion Date; *provided* that (i) the Project Completion Date shall not occur until the Borrower has made such prepayment in full; and (ii) any prepayment pursuant to this clause (G) shall be paid from (x) *first*, the then-available amount of the Base Equity Commitment in excess of the amount necessary to pay the Pre-Completion Costs projected to become due and payable up to the Project Completion Date, (y) *second*, to the extent of any remaining insufficiency, the Funded Completion Support Commitment (in each case of clauses (x) and (y) to the extent of funds are actually contributed to the Borrower to fund such prepayment); and (z) *third*, to the extent of any remaining insufficiency, Additional Equity Contributions from the Sponsor to the Borrower;

(H) with respect to any Reserve Account funded, in part or full, upon receipt of the proceeds of any Advance, the amount equal to any Acceptable Credit Support that is credited to such account in lieu of such proceeds to the extent the aggregate amount credited to and on deposit in such Reserve Account then exceeds the applicable Reserve Account Requirement; *provided* that such prepayment shall be limited to the amount deposited in the applicable Reserve Account that was funded into such Reserve Account with the proceeds of any Advance;

(I) on any Quarterly Reporting Date, a sum equal to any Excess Advance Amount as of such Quarterly Reporting Date;

(J) on any date, the amount equal to any Excess Loan Amount as of such date;

(K) upon the receipt by the Borrower or the Subsidiary Guarantor of any Issuance Proceeds, the amount equal to such Issuance Proceeds;

(L) upon the determination by DOE that any Applicable Law has made it unlawful or impossible for FFB to make Advances or maintain the Loan or any portion thereof, or DOE to reimburse or commit to reimburse FFB the amount of any Advance, or otherwise renders unlawful the performance by DOE or FFB of their respective obligations under the Financing Documents, the amount equal to all outstanding Advances and all other Secured Obligations under the Financing Documents; and

(M) upon receipt by the Borrower or the Subsidiary Guarantor of any Extraordinary Amount in excess of twenty million Dollars ($20,000,000) during any Fiscal Year, individually or in the aggregate, the amount equal to (x) such Extraordinary Amount *minus* (y) any amounts that are otherwise required to be used pursuant to the Financing Documents; *provided* that the Borrower shall deposit, or cause to be deposited, any Extraordinary Amounts not required to be prepaid hereunder into the Revenue Account.

(iii) Any Mandatory Prepayments of Advances made under the Note shall be made on the Intended Prepayment Date set forth in the relevant Prepayment Election Notice delivered pursuant to this Section 3.05 (*Prepayments*), which Intended Prepayment Dates shall occur within the applicable time frames provided in this Section 3.05(c) (*Mandatory Prepayments*).

The Borrower acknowledges and agrees to such subrogation and shall execute such instruments and take such actions as DOE may reasonably request to evidence such subrogation and to perfect the right of DOE to receive any amounts paid or payable thereunder. If and to the extent that DOE shall be fully and indefeasibly reimbursed in cash or immediately available funds by the Borrower pursuant to Section 4.01 (*Reimbursement and Other Payment Obligations*) in respect of any payment made by DOE of

Reimbursement Amounts, such reimbursement shall be deemed to constitute an equal and corresponding payment in respect of DOE's rights of subrogation hereunder in respect of such payment of Reimbursement Amounts.

Section 4.03 Obligations Absolute.

(a) The obligations of the Borrower under this Article IV (*Reimbursement and Other Payment Obligations*) shall be absolute and unconditional, and shall be paid or performed strictly in accordance with this Agreement under all circumstances irrespective of:

Each such proposed O&M Budget shall be consistent with the Base Case Financial Model being submitted concurrently to DOE for approval in accordance with Section 8.02(a) (*Annual Reports*) (*provided* that, for the avoidance of doubt, differences in the use of accrual versus cash basis accounting in the preparation of each such proposed O&M Budget and the Base Case Financial Model being submitted concurrently to DOE for approval shall not render such documents

inconsistent with each other) and shall be accompanied by a certification of a Responsible Officer of the Borrower that, to the best of such Responsible Officer's Knowledge, such proposed O&M Budget is a reasonable estimate for the period covered thereby and is in compliance with the requirements of this Section 7.29 (*O&M Budget*). DOE shall approve or reject in writing all or any portion of a proposed O&M Budget. If DOE does not approve all or portions of an O&M Budget, DOE shall advise the Borrower of the items that are rejected and the reason or reasons therefor.

With respect to those items of any proposed O&M Budget that are not approved, the Borrower and DOE shall continue to consult regarding such items in good faith, during which time an amount equal to up to 110% of the Operating Costs (other than Variable Sulfur Costs) in the O&M Budget for the preceding Fiscal Year related to such items shall be applicable, an amount equal to up to 125% of the aggregate Variable Sulfur Costs in the O&M Budget for the preceding Fiscal Year shall be applicable, and shall for all purposes of this Agreement be deemed to be part of the approved O&M Budget for the current Fiscal Year solely until such time as such previously non-approved items for the current Fiscal Year have been approved in writing by DOE.

(iv) Each proposed O&M Budget submitted pursuant to this Section 7.29 (*O&M Budget*) shall:

(A) be prepared in good faith on the basis of all facts and circumstances then existing and known to the Borrower, and assumptions that the Borrower believes to be reasonable as to all factual and legal matters material to such estimates (which shall be set forth in reasonable detail in the O&M Budget), and reflect the Borrower's best estimate of the future revenues and expenditures to be received or incurred by the Borrower and the Subsidiary Guarantor;

(B) be based on the same format and maintained substantially on the same basis as, and provide sufficient detail to permit a meaningful comparison to, the O&M Budgets for the previous Fiscal Years; and

(3) such other information as may be reasonably requested by DOE.

(b) Amendments to O&M Budget. If at any time during any Fiscal Year, Operating Costs to be paid during the balance of such Fiscal Year exceed or could reasonably be expected to exceed the limitations set forth in Section 9.07(c) (*Approved Construction Changes; Integrated Project Schedule; Budgets*), the Borrower shall deliver a proposed amendment to the then-current O&M Budget to DOE and the Independent Engineer describing the purpose of such amendment and certifying that such amendment is reasonably necessary or advisable for the operation and maintenance of the Project. Such proposed amendment shall become effective on the date approved by DOE and, until such proposed amendment is approved, the Borrower shall comply with the approved O&M Budget (subject to the allowance provisions of this Section 7.29 (*O&M Budget*)) until the proposed amendment is approved by DOE.

the laws of any State or territory of the United States in which the Project is located (*provided*, that the Borrower and each other Borrower Entity is, or may be, subject to regulation of contracting or marketing by a public utility commission) or (ii) subject to such rate, financial and/or organizational regulation and compliant in all material respects with the laws of the relevant State or territory of the United States and the regulations of the PUCN.

One or more Governmental Judgments shall be entered (i) against any Borrower Entity and such Governmental Judgments have not been vacated, discharged or stayed or bonded pending appeal within thirty (30) days of the occurrence thereof, and the aggregate amount of all such Governmental Judgments outstanding at any time (except to the extent any applicable insurer(s) have acknowledged liability therefor) exceeds: (A) in the case of the Borrower, twenty million Dollars ($20,000,000); (B) in the case of the Subsidiary Guarantor, one million Dollars ($1,000,000); (C) in the case of the Direct Parent, one million Dollars ($1,000,000); or (D) in the case of the Sponsor prior to the Sponsor Cut-Off Date, one hundred million Dollars ($100,000,000) or (ii) that is in the form of an injunction or similar form of relief requiring suspension or abandonment of operation of the Project that is not satisfied or discharged.

(n) Construction and Operation. Any of the following occurs:

(i) the Substantial Completion Date shall not have occurred by the Substantial Completion Longstop Date;

(ii) the Project Completion Date shall not have occurred by the Project Completion Longstop Date;

(iii) on any Calculation Date beginning from the first Calculation Date occurring eight full Fiscal Quarters after the Project Completion Date, any failure of the Project to satisfy at least eighty-five percent (85%) of production capacity as compared against the production assumptions for the corresponding eight (8) Fiscal Quarters ending on such calculation date set out in the Base Case Financial Model;

(iv) the Borrower shall cease to maintain Project Mining Claims and rights and/or access to sufficient water supply for the Project.

(o) Environmental Matters. Any (i) Adverse Proceeding alleging any material violation of any Environmental Law or asserting any material Environmental Claim has been instituted against any Borrower Entity or in relation to the Project, or (ii) any Governmental Judgment imposing a penalty, monetary damages, remediation requirements or restrictions of construction or operations of the Project is issued relating to any violation of Environmental Law, violation of the terms or conditions of any Required Approval issued under any Environmental Law or restricting the use of any such Required Approval in any material respect, and such Adverse Proceeding or Governmental Judgment is not (x) dismissed within sixty (60) days of institution, including as a result of satisfaction of any judgment or settlement of any claim that does not otherwise result in an Event of Default hereunder; or (y) diligently contested or appealed by the applicable Borrower Entity in accordance with Permitted Contest Conditions or, by other parties solely to the extent another party to such Adverse Proceeding or subject to such Governmental Judgment controls the right to contest such Adverse Proceeding or Governmental Judgment, is being diligently contested by such other party, as certified by the Borrower in an Officer's Certificate, including a reasonably detailed description of such efforts; *provided* that to benefit

from the cure periods described above, in any such case, the Borrower shall have timely notified DOE of such Adverse Proceeding or Governmental Judgment and consulted in good faith with DOE with respect to its intended response.

(p) Event of Loss. All or a material portion of the Project or the Project Site is destroyed or becomes permanently inoperative as a result of an Event of Loss.

(q) Changes in Ownership. Any Change of Control occurs.

(r) Prohibited Persons. Any Borrower Entity or Major Project Participant shall be or shall have become a Prohibited Person or Debarred Person.

(s) ERISA Events. (t) Certain Governmental Actions. Any Governmental Authority shall (i) lawfully condemn or assume custody of all of the property or assets (or a substantial part thereof) of any Borrower Entity; or (ii) take lawful action to displace the management of, or the Equity Interests in, any Borrower Entity.

(u) Abandonment or Suspension of Project.

(i) Prior to the Project Completion Date, construction of the Mine or the Processing Facility shall be suspended for a period of sixty (60) consecutive days or ninety (90) days in the aggregate in any Fiscal Year, in each case, other than scheduled shutdowns or scheduled maintenance conducted in accordance with the Integrated Project Schedule; *provided* that if such suspension is the direct result of the occurrence of an Event of Force Majeure, if, before the end of such sixty (60) consecutive day period or ninety (90) day period, as applicable, DOE shall have received and agreed in writing to a remediation plan signed by a Responsible Officer of the Borrower confirming the Borrower's intent to resume construction (within no more than ninety (90) additional days) and the Borrower's good faith belief that Substantial Completion can be achieved by the Substantial Completion Long Stop Date and Project Completion can be achieved by the Project Completion Long Stop Date, then such suspension of construction shall not be deemed an Event of Default unless work is not resumed within the period specified in, and undertaken in accordance with, the remediation plan.

(ii) From and after the Project Completion Date, the Mine or the Processing Facility shall cease to operate for a period of sixty (60) consecutive days or ninety (90) days in the aggregate in any Fiscal Year, in each case, other than scheduled shutdowns or schedule maintenance conducted in accordance with the Operating Plan; *provided* that if such cessation is the direct result of the occurrence of an Event of Force Majeure, if, before the end of such sixty (60) consecutive day period or ninety (90) day period, as applicable, DOE shall have received and agreed in writing to a remediation plan signed by a

Responsible Officer of the Borrower confirming the Borrower's intent to resume operation (within no more than ninety (90) additional days), then such cessation of operations shall not be deemed an Event of Default unless operations are not resumed within the period specified in, and undertaken in accordance with, the remediation plan.

(iii) The Borrower shall abandon, or suspend, agree in writing to abandon or suspend, or make any public statements regarding its intention to abandon, or suspend, the Project, the Mine or the Processing Facility, or take any action that could be deemed an "abandonment," or "suspension."

(v) Compliance with International Compliance Directives and Anti-Money Laundering Laws.

(i) The making of any Advances or the use of the proceeds thereof shall violate or cause any Person, including any Secured Party, to violate any International Compliance Directives or Anti-Money Laundering Laws or other applicable Anti-Corruption Laws.

(ii) Any violation by any Borrower Entity or any Major Project Participant of any International Compliance Directives, Anti-Money Laundering Laws or Anti-Corruption Laws.

(w) Material Adverse Effect. Any event or condition that has had or could reasonably be expected to have a Material Adverse Effect shall occur and be continuing.

For the avoidance of doubt, each clause of this Section 10.01 (*Events of Default*) shall operate independently, and the occurrence of any such event shall constitute an Event of Default.

Section 10.02 Remedies; Waivers.

(a) Upon the occurrence of and during the continuance of an Event of Default, DOE or the Collateral Agent may exercise any one or more of the rights and remedies set forth below:

(i) declare all or any portion of the indebtedness and obligations of every type or description owed by the Borrower to DOE and FFB under this Agreement and each other Financing Document to be immediately due and payable, and the same shall thereupon be immediately due and payable;

(ii) exercise any rights and remedies available under the Financing Documents, including DOE's right to prevent access to or prevent the operation by the Borrower and the Subsidiary Guarantor of the Project or any of the Collateral (except to the extent necessary for the Borrower and the Subsidiary Guarantor to comply with any Applicable Law requirements);

(iii) take whatever action at law or in equity as may appear necessary or desirable in its judgment to collect the amounts then due and thereafter to become due

under the Financing Documents or to enforce performance of any obligation of the Borrower under the Financing Documents;

(iv) (A) deny any request for, and shall not be obligated to make, any further Advances; and (B) reduce the Loan Commitment Amount to zero Dollars ($0);

(v) take those actions necessary to perfect and maintain the Liens of the Security Documents pursuant to which assets have been pledged as collateral for the repayment under the Financing Documents;

(vi) set off and apply such amounts to the satisfaction of the Secured Obligations under all of the Financing Documents, including any moneys of any Borrower Entity on deposit with any Secured Party; and/or

(vii) without limiting or being limited by any of the foregoing, draw upon any Acceptable Credit Support issued pursuant to any Financing Document in accordance with its terms, and apply such funds to the payment of the Secured Obligations.

(b) Upon the occurrence of an Event of Default referred to in Section 10.01(k) (*Bankruptcy; Insolvency; Dissolution*), (i) all Loan Commitment Amounts shall automatically be reduced to zero Dollars ($0); and (ii) each Advance made under the Note, together with interest accrued thereon and all other amounts due under the Note, this Agreement and the other Financing Documents, shall immediately mature and become due and payable, without any other presentment, demand, diligence, protest, notice of acceleration, or other notice of any kind, all of which the Borrower hereby expressly waives.

(c) Unless otherwise expressly provided, no remedy herein conferred upon or reserved is intended to be exclusive of any other available remedy, but each remedy shall be cumulative and shall be in addition to other remedies given under the Financing Documents or existing at law or in equity. No delay or failure to exercise any right or power accruing under any Financing Document upon the occurrence and during the continuance of any Event of Default or otherwise shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient.

(d) In order to entitle DOE to exercise any remedy reserved to DOE in this Agreement, it shall not be necessary to give any notice, other than such notice as may be required in this Agreement or any other Financing Document or under Applicable Law.

(e) If any proceeding has been commenced to enforce any right or remedy under this Agreement, and such proceeding has been discontinued or abandoned for any reason, or has been determined adversely to DOE or FFB, then, in every such case subject to any determination in such proceeding, (i) the parties hereto shall be restored to their respective former positions hereunder; and (ii) thereafter, all rights and remedies of DOE or FFB, as the case may be, shall continue as though no such proceeding had been instituted.

(f) DOE shall have the right, to be exercised (or not) in its complete discretion, to waive any covenant, Default or Event of Default by a writing setting forth the terms, conditions and extent of such waiver signed by DOE and delivered to the other parties hereto. Any such waiver may be effected only in writing duly executed by DOE, and no other course of conduct shall constitute a waiver of any provision hereof. Unless such writing expressly provides to the contrary, any waiver so granted shall extend only to the specific event or occurrence so waived and not to any other similar event or occurrence that occurs subsequent to the date of such waiver.

(g) Upon the occurrence and during the continuation of any Default, in the event that the Borrower fails to procure or maintain (or cause to be procured and maintained) the Required Insurance, DOE may (but shall not be obligated to) procure the Required Insurance and pay the premiums in connection therewith and all amounts so paid by DOE shall become an additional Secured Obligation owed by the Borrower to DOE, and the Borrower shall forthwith pay any such amounts to DOE, together with interest on such amounts at the Late Charge Rate from the date so paid.

Section 10.03 Accelerated Advances. Upon the delivery of a notice of acceleration, the accelerated amount due and payable under the Note shall be the Prepayment Price (as defined in and determined pursuant to the Note) under the Note.

ARTICLE XI

MISCELLANEOUS

Section 11.01 Waiver and Amendment.

(a) No failure or delay by DOE or the other Secured Parties in exercising any right, power or remedy shall operate as a waiver thereof or otherwise impair any rights, powers or remedies of the Secured Parties. No single or partial exercise of any such right, power or remedy shall preclude any other or further exercise thereof or the exercise of any other legal right, power or remedy.

(b) The rights, powers or remedies provided for herein are cumulative and are not exclusive of any other rights, powers or remedies provided by law or in any other Transaction Document. The assertion or employment of any right, power or remedy hereunder, or otherwise, shall not prevent the concurrent assertion of any other right, power or remedy.

(c) Except as otherwise provided herein, neither this Agreement nor any provision hereof may be changed, waived, discharged or terminated unless such change, waiver, discharge or termination is in writing and executed by the Borrower and DOE.

(d) Any amendment to or waiver of this Agreement or any other Transaction Document or any provision hereof or thereof that constitutes a "modification" (as defined in Section 502(9) of FCRA) that increases the amount of the Credit Subsidy Cost (as calculated in accordance with FCRA and OMB Circulars A-11 and A-129) shall be subject to the availability to DOE of funds

appropriated by the U.S. Congress, or, to the extent permitted by Applicable Law, payment by the Borrower, to meet any such increase in the Credit Subsidy Cost.

Section 11.02 Right of Set-Off. In addition to any rights now or hereafter granted under Applicable Law or otherwise, and not by way of limitation of any such rights, upon the occurrence and during the continuance of an Event of Default, each Secured Party is hereby authorized at any time or from time to time, without presentment, demand, protest or other notice of any kind to the Borrower or to any other Person, any such notice being hereby expressly waived, to set-off and to appropriate and apply any and all deposits (general or special, time or demand, provisional or final) and any other Indebtedness at any time held or owing by such Secured Party (including by any branches and agencies of such Secured Party wherever located) to or for the credit or the account of the Borrower against and on account of the Secured Obligations and liabilities of the Borrower to such Secured Party under this Agreement or any other Financing Document. Each of DOE, FFB and each subsequent holder of the Note or any portion of the Note shall promptly notify the Borrower after any such set-off and application made by it; *provided* that the failure to give such notice shall not affect the validity of such set-off and application.

Section 11.03 Survival of Representations and Warranties. All representations and warranties made hereunder, in the other Financing Documents and in any document, certificate or statement delivered pursuant hereto or thereto or in connection herewith or therewith (including any Advance Request) shall survive the execution and delivery of this Agreement and the making of the Advances under the Funding Agreements.

Section 11.04 Notices. Except to the extent otherwise expressly provided herein or as required by Applicable Law, any communications, including any notices, between or among the parties to the Financing Documents shall be provided using the addresses listed in Schedule 11.04 (*Notices*), and shall be in writing and shall be considered as properly given: (a) if delivered in person; (b) if sent by overnight delivery service for domestic delivery or international courier for international delivery; (c) in the event overnight delivery service or international courier service is not readily available, if mailed by first class mail (or airmail for international delivery), postage prepaid, registered or certified with return receipt requested; or (d) if transmitted by electronic mail, to the electronic mail address set forth in Schedule 11.04 (*Notices*). Notice so given shall be effective upon delivery to the addressee, except that communication or notice so transmitted by direct written electronic means shall be deemed to have been validly and effectively given on the day (if a Business Day and, if not, on the following Business Day) on which it is validly transmitted if transmitted before 5:00 p.m. (District of Columbia time), recipient's time, and if transmitted after that time, on the next following Business Day. Any party has the right to change its address for notice under any of the Financing Documents to any other location by giving prior written notice to each of the other parties in the manner set forth hereinabove.

Section 11.05 Severability. In case any one or more of the provisions contained in any Financing Document should be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby, and the parties hereto shall engage the parties to the Financing Documents to enter into good faith negotiations to replace the invalid, illegal or unenforceable provision.

Section 11.06 Judgment Currency. The Borrower shall, to the fullest extent permitted under Applicable Law, indemnify DOE and FFB against any loss incurred by DOE or FFB, as the case may be, as a result of any judgment or order being given or made for any amount due to DOE or FFB hereunder or under any other Financing Document and such judgment or order being expressed and to be paid in a currency (the "**Judgment Currency**") other than Dollars (the "**Currency of Denomination**") and as a result of any variation between (a) the rate of exchange at which amounts in the Currency of Denomination are converted into Judgment Currency for the purpose of such judgment or order, and (b) the rate of exchange at which DOE or FFB would have been able to purchase the Currency of Denomination with the amount of the Judgment Currency actually received by DOE or FFB, as the case may be, had DOE or FFB, as the case may be, utilized the amount of Judgment Currency so received to purchase the Currency of Denomination as promptly as practicable upon receipt thereof. The foregoing indemnity shall continue in full force and effect notwithstanding any such judgment or order as aforesaid. The term "rate of exchange" shall include any premiums and costs of exchange payable in connection with the purchase of, or conversion into, the relevant Currency of Denomination that are documented and reasonable in light of market conditions at the time of such conversion.

Section 11.07 Indemnification.

(a) In addition to any and all rights of reimbursement, indemnification, subrogation or any other rights pursuant to this Agreement or under law or in equity, the Borrower shall pay, and shall protect, indemnify and hold harmless DOE, FFB, each other governmental agency and instrumentality of the United States, each other holder of the Note or any portion thereof, each Secured Party, and each of their respective officers, directors, employees, representatives, attorneys, advisers and agents (each, an "**Indemnified Party**") from and against (and shall reimburse each Indemnified Party as the same are incurred) any and all liabilities, obligations, losses, damages, penalties, claims, actions, judgments, suits, costs, expenses and disbursements incurred by any of them (without duplication of Section 4.01(c) (*Reimbursement and Other Payment Obligations*)) (each, an "**Indemnified Liability**"), to which such Indemnified Party may become subject arising out of or relating to any or all of the following: (i) the execution or delivery of this Agreement, any Transaction Document or any agreement or instrument contemplated hereby or thereby, the performance by the parties hereto or thereto of their respective obligations hereunder or thereunder or the consummation of the transactions contemplated hereby or thereby, (iii) the enforcement or preservation of any rights under this Agreement, any Transaction Document or any agreement or instrument prepared in connection herewith or therewith, (iii) any Loan or the use or proposed use of the proceeds thereof, (iv) any actual or alleged presence or Release of a Hazardous Substance, on, under or originating from any property owned, occupied or operated by any Borrower Entity or any of its Affiliates in connection with the Project, or any environmental liability related in any way to any Borrower Entity or any of its Affiliates or their respective owned, occupied, or operated properties arising out of or relating to the Project, or (v) any actual or prospective claim, litigation, investigation or proceeding relating to any of the foregoing, whether based on contract, tort or any other theory, whether brought by any third party or by any Borrower Entity or any of its Affiliates or otherwise, and regardless of whether any Indemnified Party is a party thereto, such items (i) through (v) including, to the extent permitted by Applicable Law, the fees of counsel and third-party consultants selected by such Indemnified

Party incurred in connection with any investigation, litigation or other proceeding or in connection with enforcing the provisions of this Section 11.07 (*Indemnification*); *provided* that the Borrower shall not have any obligation under this Section 11.07 (*Indemnification*) to any Indemnified Party with respect to Indemnified Liabilities to the extent they arise from the gross negligence or willful misconduct of such Indemnified Party (as determined pursuant to a final, Non-Appealable judgment by a court of competent jurisdiction). Any claims under this Section 11.07 (*Indemnification*) in respect of any Indemnified Liabilities are referred to herein, collectively, as "**Indemnity Claims**". This Section 11.07 (*Indemnification*) shall not apply with respect to Taxes other than any Taxes that represent losses, claims or damages arising from any non-Tax claim.

(b) All sums paid and costs incurred by any Indemnified Party with respect to any matter indemnified hereunder shall (i) be added to the Secured Obligations and (ii) be secured by the Security Documents. Each Indemnified Party shall use commercially reasonable efforts to promptly notify the Borrower in a timely manner of any such amounts payable by the Borrower hereunder; *provided* that any failure to provide such notice shall not affect the Borrower's obligations under this Section 11.07 (*Indemnification*).

(c) Each Indemnified Party within ten (10) Business Days after the receipt by it of notice of the commencement of any action for which indemnity may be sought by it, or by any Person controlling it, from the Borrower on account of the agreements contained in this Section 11.07 (*Indemnification*), shall notify the Borrower in writing of the commencement thereof, but the failure of such Indemnified Party to so notify the Borrower of any such action shall not release the Borrower from any liability that it may have to such Indemnified Party.

(d) To the extent that the undertaking in the preceding clauses of this Section 11.07 (*Indemnification*) may be unenforceable because it is violative of any law or public policy, and to provide for just and equitable contribution in the event of any such unenforceability (other than due to application of this Section 11.07 (*Indemnification*)), the Borrower shall contribute the maximum portion that it is permitted to pay and satisfy under Applicable Law to the payment and satisfaction of such undertakings.

(e) The provisions of this Section 11.07 (*Indemnification*) shall survive the Release Date, the foreclosure under the Security Documents and satisfaction or discharge of the Secured Obligations and shall be in addition to any other rights and remedies of any Indemnified Party.

(f) Any amounts payable by the Borrower pursuant to this Section 11.07 (*Indemnification*) shall be payable within the later to occur of (i) ten (10) Business Days after the Borrower receives an invoice for such amounts from any applicable Indemnified Party, and (ii) five (5) Business Days prior to the date on which such Indemnified Party expects to pay such costs on account of which the Borrower's indemnity hereunder is payable, and if not paid by such applicable date shall bear interest at the Late Charge Rate from and after such applicable date until paid in full.

(g) The Borrower shall be entitled, at its expense, to participate in the defense of any Indemnity Claim; *provided* that such Indemnified Party shall have the right to retain its own counsel, at the Borrower's expense, and such participation by the Borrower in the defense thereof

shall not release the Borrower of any liability that it may have to the applicable Indemnified Party. Any Indemnified Party against whom any Indemnity Claim is made shall be entitled to compromise or settle any such Indemnity Claim; *provided* that the Borrower shall not be liable for any such compromise or settlement effected without its prior written consent unless, in the case of an Indemnified Party that is a branch or agency of the United States federal government only, (i) such Indemnified Party is required by law (other than any regulation issued by DOE or FFB, unless DOE or FFB, as the case may be, is required pursuant to Applicable Law to issue regulations requiring it to compromise or settle such Indemnity Claim) to compromise or settle such Indemnity Claim, and (ii) such Indemnified Party shall have provided a legal opinion to the Borrower from outside counsel reasonably acceptable to the Borrower that such Indemnified Party is required by law to compromise or settle such Indemnity Claim.

(h) Upon payment of any Indemnity Claim by the Borrower pursuant to this Section 11.07 (*Indemnification*), the Borrower, without any further action, shall be subrogated to any and all claims that the applicable Indemnified Party may have relating thereto, and such Indemnified Party shall at the request and expense of the Borrower cooperate with the Borrower and give at the request and expense of the Borrower such further assurances as are necessary or advisable to enable the Borrower vigorously to pursue such claims.

(i) No Indemnified Party shall be obliged to pursue first any recovery under any other indemnity or reimbursement obligation before seeking recovery under the indemnification and reimbursement obligations of the Borrower under this Agreement.

Section 11.08 Limitation on Liability.

(a) No claim shall be made by any Borrower Entity or any of its Affiliates against any Secured Party, Secured Party Advisor or any of their Affiliates, directors, employees, attorneys or agents, including the Secured Party Advisors, for any special, indirect, consequential or punitive damages (whether or not the claim therefor is based on contract, tort or duty imposed by law), in connection with, arising out of or in any way related to the transactions contemplated by this Agreement or the other Financing Documents or any act or omission or event occurring in connection therewith; and the Borrower hereby waives, releases and agrees, and shall cause the Subsidiary Guarantor to waive, release and agree, not to sue upon any such claim for any such damages, whether or not accrued and whether or not known or suspected to exist in its favor.

(b) Notwithstanding anything to the contrary, Borrower recognizes and agrees that the client relationship exists solely between DOE and each Secured Party Advisor. There shall be no inference of confidentiality, warranty, fiduciary, or other client relationship between Borrower and any Secured Party Advisor as a result of this Agreement, and the Borrower specifically disavows any such relationship with any Secured Party Advisor and any associated obligation, duty or care or liability owed by any Secured Party Advisor to the Borrower. The Borrower further acknowledges and agrees that each Secured Party Advisor, its Affiliates and subcontractors, and their respective personnel shall not be liable to the Borrower for any claims, liabilities, or expenses relating to or in connection with this Agreement ("**Claims**") whatsoever. For clarity, in no event shall any Secured Party Advisor, its Affiliates or subcontractors, or their respective personnel be liable to the Borrower for any loss of use, data, goodwill, revenues or profits (whether or not

deemed to constitute a direct Claim), or any consequential, special, indirect, incidental, punitive, or exemplary loss, damage, or expense, relating to or in connection with this Agreement.

Section 11.09 Successors and Assigns.

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties to this Agreement and their respective successors and permitted assigns.

(b) The Borrower may not assign or otherwise transfer (whether by operation of law or otherwise) any of its rights or obligations under this Agreement or under any other Financing Document without the prior written consent of DOE and, in the case of any Funding Agreement, FFB.

(c) Solely for purposes of compliance with Sections 163(f), 871(h)(2)(B)(i) and 881(c)(2) of the Code, the Borrower shall maintain a register for the recordation of the names and addresses of each Person that acquires an interest in the Loan in accordance with the provisions of the FFB Documents and the principal amounts (and stated interest) of the Advances owing to each such Person pursuant to the terms of this Agreement from time to time (the "**Register**"). The Register shall be available for inspection by any Secured Party, at any reasonable time and from time to time upon reasonable prior notice.

Section 11.10 FFB Right to Sell Loan. If FFB has (a) fully funded the Loan, or (b) partially funded the Loan and the Availability Period has expired, in each case, FFB shall have the right to sell all or any portion of the Note, or any participation share thereof, without the prior written consent of the Borrower in accordance with the Funding Documents. Upon any such sale, any reimbursement obligations of the Loan by DOE shall automatically terminate and be of no further force and effect. For any such sale prior to the end of the Availability Period until FFB has funded the Loan, the Borrower, DOE and FFB shall enter in agreements satisfactory to them in respect of FFB's right to sell the Note and delegate its obligations under the Note Purchase Agreement.

Section 11.11 Further Assurances and Corrective Instruments.

(a) The Borrower shall execute and deliver, or cause to be executed and delivered, to DOE such additional documents or other instruments and shall take or cause to be taken such additional actions as DOE may require or reasonably request in writing to: (i) cause the Financing Documents to be properly executed, binding and enforceable in all relevant jurisdictions; (ii) perfect and maintain the priority of the Secured Parties' security interest in all Collateral; (iii) enable the Secured Parties to preserve, protect, exercise and enforce all other rights, remedies or interests granted or purported to be granted under the Financing Documents; and (iv) otherwise carry out the purposes of the Transaction Documents.

(b) The Borrower may submit to DOE written requests for the parties to enter into, execute, acknowledge and deliver amendments or supplements hereto; it being understood that DOE shall be permitted to approve or reject all such requests in its discretion.

Section 11.12 Reinstatement. Where any discharge is made in whole or in part, or any arrangement is made on the faith of, any payment, security or other disposition which is avoided or must be repaid, whether upon the insolvency or bankruptcy of the Borrower, this Agreement shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Borrower's obligations hereunder, or any part thereof, is, pursuant to Applicable Laws, rescinded or reduced in amount, or must otherwise be restored or returned by any Secured Party. In the event that any payment or any part thereof is so rescinded, reduced, restored or returned, such obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

Section 11.13 Governing Law; Waiver of Jury Trial.

(a) THIS AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE FEDERAL LAW OF THE UNITED STATES. TO THE EXTENT THAT FEDERAL LAW DOES NOT SPECIFY THE APPROPRIATE RULE OF DECISION FOR A PARTICULAR MATTER AT ISSUE, IT IS THE INTENTION AND AGREEMENT OF THE PARTIES TO THIS AGREEMENT THAT THE LAW OF THE STATE OF NEW YORK (WITHOUT GIVING EFFECT TO ITS CONFLICT OF LAWS PRINCIPLES (EXCEPT SECTION 5-1401 OF THE NEW YORK GENERAL OBLIGATIONS LAW)) SHALL BE ADOPTED AS THE GOVERNING FEDERAL RULE OF DECISION.

(b) EACH OF THE PARTIES TO THIS AGREEMENT HEREBY KNOWINGLY, VOLUNTARILY, INTENTIONALLY AND IRREVOCABLY WAIVES ANY RIGHTS IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY DISPUTE BASED HEREON, OR ARISING OUT OF, UNDER, OR IN CONNECTION WITH, THIS AGREEMENT, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN), OR ACTIONS OF THE BORROWER. THIS PROVISION IS A MATERIAL INDUCEMENT FOR EACH PARTY TO ENTER INTO THIS AGREEMENT AND THE OTHER FINANCING DOCUMENTS.

Section 11.14 Submission to Jurisdiction; Etc. By execution and delivery of this Agreement, the Borrower irrevocably and unconditionally:

(a) submits for itself and its property in any legal action or proceeding against it arising out of or in connection with this Agreement or any other Financing Document, or for recognition and enforcement of any judgment in respect thereof, to the non-exclusive general jurisdiction of (i) the courts of the United States for the District of Columbia; (ii) the courts of the United States in and for the Southern District of New York in New York County; (iii) any other federal court of competent jurisdiction in any other jurisdiction where it or any of its property may be found; (iv) the state courts of the District of Columbia and New York County; and (v) appellate courts from any of the foregoing;

(b) consents that any such action or proceeding may be brought in or removed to such courts, and waives any objection, or right to stay or dismiss any action or proceeding, that it may now or hereafter have to the venue of any such action or proceeding in any such court or that such

action or proceeding was brought in an inconvenient court and agrees not to plead or claim the same;

(c) agrees to irrevocably designate and appoint an agent satisfactory to DOE for service of process in New York under this Agreement and any other Financing Document governed by the laws of the State of New York, with respect to any action or proceeding in New York, as its authorized agent to receive, accept and confirm receipt of, on its behalf, service of process in any such proceeding. The Borrower agrees that service of process, writ, judgment or other notice of legal process upon said agent shall be deemed and held in every respect to be effective personal service upon it. The Borrower shall maintain such appointment (or that of a successor satisfactory to DOE) continuously in effect at all times while the Borrower is obligated under this Agreement;

SCHEDULE 7.03

INSURANCE

References in this Schedule to Sections shall be construed as references to Sections of this Schedule, unless the context otherwise requires.

Unless otherwise defined in this letter, capitalized terms used in this letter shall have the meanings given to them in the Loan Arrangement and Reimbursement Agreement dated October 28, 2024 (as may be amended, supplemented or otherwise modified from time to time, the "**LARA**"), between the United States Department of Energy ("**DOE**") and Lithium Nevada Corp. (the "**Borrower**").

1. **Required Insurance**

The Borrower shall effect and maintain at all times:

(a) during the Construction Period, the insurance specified in Section 6 (*Construction Period Required Insurance*) and Section 8 (*All phases Insurance*) and all other insurance, if any, required from time to time under Applicable Law or any Major Project Document then in effect.

(b) during the Operating Period, the insurance specified in Section 7 (*Operating Period Required Insurance*) and Section 8 (*All phases Insurance*) and all other insurance, if any, required from time to time under Applicable Law or any Major Project Document then in effect.

2. **Other permitted insurance; amendments for commercial unavailability**

(a) The Borrower may only effect and/or maintain insurance in addition to that required under Section 1 (*Required Insurance*) or otherwise required under the LARA to the extent that such additional insurance does not affect in any way the Borrower's or the Secured Parties' rights or remedies under the insurance required under Section 1 (*Required Insurance*).

(b) In the event any insurance (including the limits or deductibles thereof) hereby required to be maintained will not be reasonably available and commercially feasible in the commercial insurance market, DOE will not unreasonably withhold its agreement to waive such requirement to the extent the maintenance thereof is not so available; provided, that such waiver will be conditioned on the following:

(i) the Borrower will first request any such waiver in writing, which request will be accompanied by a written report prepared by the Borrower's insurance broker, certifying that such insurance is "not reasonably available and commercially feasible" (and, in any case where the required amount is not so available, certifying as to the maximum amount which is so available) and explaining in detail the basis for such conclusions;

(ii) at any time after the granting of any such waiver, but not more often than once a year, DOE may request, and the Borrower will furnish to DOE within fifteen (15) days after such request, supplemental reports reasonably acceptable to DOE from the Borrower's placing broker updating their prior report and reaffirming such conclusion; and

(iii) any such waiver will be effective only so long as such insurance is not reasonably available and commercially feasible in the commercial insurance market.

(c) The failure at any time to satisfy the condition to any waiver of an insurance requirement set forth in Section 2(b) will not impair or be construed as a relinquishment of the Borrower's ability to obtain a waiver of an insurance requirement pursuant to the preceding sentence at any other time upon satisfaction of such conditions.

(d) For purposes of this Section 2, insurance will "not be reasonably available and commercially feasible" if either (i) it is obtainable only at excessive costs which are not justified in terms of the risk to be insured and is generally not being carried by or applicable to projects or operations similar to the Project because of such excessive costs; or (ii) it would require changes to the business of the Borrower or any of its Affiliates that are neither feasible nor practical.

3. **Common terms of Required Insurance**

- at least 30 days (or such lesser period (if any) as may be specified from time to time by Insurers in the case of war risks and kindred perils) before any cancellation is to take effect if any Insurer cancels or gives notice of such cancellation of any insurance relating to the Project for any reason;

- promptly of any default in the payment of any premium or failure to renew any insurance and DOE shall be given not less than 10 days in which to procure the payment of the defaulted premium without the insurance being cancelled;

- at least 30 days (or such lesser period (if any) as may be specified from time to time by Insurers in the case of war risks and kindred perils) before any reduction in limits or coverage, any increase in deductibles or any termination before the original expiry date is to take effect;

- at least 10 days before any suspension, cancellation or termination of any insurance is to take effect; and

- of any act or omission or of any event of which the Insurer has knowledge and which might invalidate or render unenforceable or unworkable in whole or in part any insurance relative to the Project.

No changes may be made to the sum insured or the risks covered under the policy unless the Borrower confirms in writing, with DOE in copy, to the Insurer that such change is in compliance with the LARA.

h. Notices

Any notice or document to be served in relation to this policy may be delivered or sent by prepaid first class recorded delivery post (if within the United States) or by prepaid airmail (if elsewhere), to the party to be served at its registered office or at such other address as it may notify to the other parties in writing in accordance with this section.

Notices to DOE shall be sent to the address details notified by DOE to the insurers or the brokers through whom this policy was placed in writing in accordance with this section.

i. No Obligation for Premium Payment

None of the Secured Parties shall be liable for the payment of any premium under this policy, but this shall not relieve the Borrower from its obligations to pay any premium due under this policy.

j. Notice of Assignment

The Insurers acknowledge that they have notice that by a Security Agreement, by and among the Borrower, KV Project LLC and the Collateral Agent, and dated on or about the date of the LARA, the Insured has granted first ranking security interest to the Collateral Agent of all its rights under the insurances relating to the Project (including this policy), including all its rights, title and interest in and to the proceeds of such insurances, taken out by it or on its behalf or in which it has an interest to the extent of such interest.

Any restriction in the policy on, or requirement for the Insurers' consent to, any assignment or transfer or other creation of security interest of all or part of the Insureds' rights under or in respect of the policy is hereby waived and shall not apply to the Insured's granting of security interest at any time in respect of such rights to the Collateral Agent.

k. Additional Insured

The Secured Parties and their respective directors, officers, employees and assigns are additional insureds under this policy.

(i) Loss payee section type 1: To attach as an additional endorsement to each insurance policy in respect of Construction All Risks and Property Damage All Risks and Machinery Breakdown:

All amounts payable under this policy shall be paid to the Loss Proceeds Account (as defined in the LARA) of the Borrower (ABA number 021000089 and account number 14018200), unless and until the Collateral Agent has notified the Insurers or the broker through whom this policy was placed to the contrary. Settlements of amounts payable as aforesaid shall, up to the amounts so paid, wholly discharge the Insurers towards all other insured parties.

(ii) Loss payee section type 2: To attach as an additional endorsement to each insurance policy in respect of delay in start-up and business interruption:

The Insurers agree that unless and until the Collateral Agent notifies the Insurers or the broker through whom this policy was placed to the contrary, all amounts payable under this policy shall be paid in full to the Loss Proceeds Account (as defined in the LARA) of the Borrower (ABA number 021000089 and account number 14018200). Settlements of amounts payable as aforesaid shall, up to the amounts so paid, wholly discharge the insurers towards all other insured parties.

SCHEDULE 7.18

DAVIS-BACON ACT CONTRACT PROVISIONS

Section 1. Definitions. For purposes of this Schedule 7.18 the definitions set forth in Section 5.2 of title 29 of the Code of Federal Regulations ("**CFR**") are incorporated by reference herein, except to the extent modified below. Capitalized terms used and not otherwise defined herein or in 29 CFR part 5 (as may be modified below), have the meanings assigned thereto in Annex I to the Loan Arrangement and Reimbursement Agreement dated as of October 28, 2024 (the "**LARA**") between Lithium Nevada Corp. and the U.S. Department of Energy.

(a) "**Administrator**" means the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, or authorized representative.

(b) "**Construction, prosecution**, **completion, or repair**" means the following:

(i) These terms include all types of work done:

(A) on a particular building or work at the site of the work, as defined in 29 CFR 5.2 by laborers and mechanics employed by a construction contractor or construction subcontractor; or

(B) in the construction or development of a project under a development statute.

(ii) These terms include, without limitation (except as specified in this definition):

(A) altering, remodeling, installation (where appropriate) on the site of the work of items fabricated off-site;

(B) painting and decorating;

(C) manufacturing or furnishing of materials, articles, supplies or equipment on the site of the Project, but only if such work is done by laborers or mechanics:

I. employed by a contractor or subcontractor, as defined in 29 CFR 5.2; or

II. in the construction or development of a project under a development statute;

(D) "Covered transportation," defined as any of the following activities:

I. transportation that takes place entirely within a location meeting the definition of "site of the work" in this Section 1, or

II. transportation of one or more "significant portion(s)" of the building or work between a "secondary construction site" as defined in this Section 1 and a "primary construction site" as defined in 29 CFR 5.2;

III. transportation between an "adjacent or virtually adjacent dedicated support site" as defined in this Section 1 and a "primary construction site" or "secondary construction site" as defined in this Section 1; and

IV. "Onsite activities essential or incidental to offsite transportation," defined as activities conducted by a truck driver or truck driver's assistant on the site of the work that are essential or incidental to the transportation of materials or supplies to or from the site of the work, such as loading, unloading, or waiting for materials to be loaded or unloaded, but only where the driver or driver's assistant's time spent on the site of the work is not de minimis; and

V. any transportation or related activities, whether on or off the site of the work, by laborers and mechanics employed in the construction or development of a project under a development statute.

(E) Demolition and/or removal, under any of the following circumstances:

I. Where the demolition and/or removal activities themselves constitute construction, alteration, and/or repair of an existing building or work. Examples of such activities include the removal of asbestos, paint, components, systems, or parts from a facility that will not be demolished; as well as contracts for hazardous waste removal, land recycling, or reclamation that involve substantial earth moving, removal of contaminated soil, re- contouring surfaces, and/or habitat restoration.

II. Where subsequent construction covered in whole or in part by the labor standards in 29 CFR part 5 is contemplated at the site of the demolition or removal, either as part of the same contract or as part of a future contract. In determining whether covered construction is contemplated within the

meaning of this provision, relevant factors include, but are not limited to, the existence of engineering or architectural plans or surveys of the site; the allocation of, or an application for, Federal funds; contract negotiations or bid solicitations; the stated intent of the relevant government officials; and the disposition of the site after demolition.

III. Where otherwise required by statute.

(iii) Except for transportation that constitutes "covered transportation" as defined in this Section 1, construction, prosecution, completion, or repair does not include the transportation of materials or supplies to or from the site of the work.

(c) "**Contracting officer**" means (i) the individual, a duly appointed successor, or authorized representative who is designated and authorized to enter into contracts on behalf of the Federal agency, sponsor, owner, applicant, or other similar entity or (ii) any representative designated by DOE to the Borrower Entities from time to time for purposes of Davis-Bacon Act compliance.

(d) "**DBA Contract Party**" means any contractor, subcontractor (including any lower tier subcontractor) or other entity (other than any Borrower Entity but including, if applicable, the Sponsor or any Affiliate) that is party to a DBA Covered Contract; it being understood that the foregoing exclusion of each Borrower Entity from the definition of DBA Contract Party in no way affects such Borrower Entity's Davis-Bacon Act obligations as set forth in this Schedule 7.18.

(e) "**DBA Covered Contract**" means any contract, agreement or other arrangement for the "construction, prosecution, completion or repair" (as such term is defined above) of the Project (including this Agreement) in connection with 29 CFR part 5.

(f) "**Laborer or mechanic**" includes at least those workers whose duties are manual or physical in nature (including those workers who use tools or who are performing the work of a trade), as distinguished from mental or managerial. The term "laborer" or "mechanic" includes apprentices, trainees, and helpers, and, in the case of contracts subject to the Contract Work Hours and Safety Standards Act, watchpersons or guards. The term does not apply to workers whose duties are primarily administrative, executive, or clerical, rather than manual. Persons employed in a *bona fide* executive, administrative, or professional capacity as defined in 29 CFR part 541 are not deemed to be laborers or mechanics. Forepersons who devote more than 20 percent of their time during a workweek to mechanic or laborer duties, and who do not meet the criteria of part 541, are laborers and mechanics for the time so spent.

(g) "**Site of the work**" is defined as follows:

(i) "Site of work" includes all of the following:

(A) The primary construction site(s), defined as the physical place or places where the building or work called for in the contract will remain.

(B) Any secondary construction site(s), defined as any other site(s) where a significant portion of the building or work is constructed, provided that such construction is for specific use in that building or work and does not simply reflect the manufacture or construction of a product made available to the general public, and provided further that the site is either established specifically for the performance of the contract or project (including the Project), or is dedicated exclusively, or nearly so, to the performance of the contract or project (including the Project)for a specific period of time. A "significant portion" of a building or work means one or more entire portion(s) or module(s) of the building or work, such as a completed room or structure, with minimal construction work remaining other than the installation and/or final assembly of the portions or modules at the place where the building or work will remain. A "significant portion" does not include materials or prefabricated component parts such as prefabricated housing components. A "specific period of time" means a period of weeks, months, or more, and does not include circumstances where a site at which multiple projects are in progress is shifted exclusively or nearly so to a single project for a few hours or days in order to meet a deadline.

(C) Any adjacent or virtually adjacent dedicated support sites, defined as:

I. job headquarters, tool yards, batch plants, borrow pits, and similar facilities of a contractor or subcontractor that are dedicated exclusively, or nearly so, to performance of the contract or project (including the Project), and adjacent or virtually adjacent to either a primary construction site or a secondary construction site, and

II. locations adjacent or virtually adjacent to a primary construction site at which workers perform activities associated with directing vehicular or pedestrian traffic around or away from the primary construction site.

(ii) With the exception of locations that are on, or that themselves constitute, primary or secondary construction sites as defined in paragraphs (i)(A) and (B) of this definition, site of the work does not include:

(A) permanent home offices, branch plant establishments, fabrication plants, tool yards, etc., of a contractor or subcontractor whose location and continuance in operation are determined wholly without regard to a particular Federal or federally assisted contract or project or the Project; or

(B) fabrication plants, batch plants, borrow pits, job headquarters, tool yards, etc., of a material supplier, which are established by a material supplier, as defined in 29 C.F.R. part 5.2, for the project before opening of bids and not on the primary construction site or a secondary construction site, even where the operations for a period of time may be dedicated exclusively, or nearly so, to the performance of a contract or the Project.

(h) "**Wage determination**" includes the original decision and any subsequent decisions revising, modifying, superseding, correcting, or otherwise changing the provisions of the original decision. The application of the wage determination shall be in accordance with the provisions of Sec. 1.6 of title 29 of the Code of Federal Regulations.

Section 2. DBA Contract Provisions. The Borrower Entities shall, and shall cause each DBA Contract Party, to comply with each of the following provisions:

(a) **Minimum wages**.

(i) **Wage rates and fringe benefits**. All laborers and mechanics employed or working on the site of the work (or otherwise working in construction or development of a project under a development statute), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and *bona fide* fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof , regardless of any contractual relationship which may be alleged to exist between any Borrower Entity and such laborers and mechanics, or between any DBA Contract Party and such laborers and mechanics. As provided in paragraphs (d) and (e) of 29 CFR 5.5, the appropriate wage determinations are effective by operation of law even if they are not attached to the LARA or other applicable contract.

Contributions made or costs reasonably anticipated for *bona fide* fringe benefits under the Davis-Bacon Act (40 U.S.C. 3141(2)(B)) on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of subparagraph (a)(v) below; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics must be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in Section 2(d) below. Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein; provided, that the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under subparagraph (a)(iii) below) as attached hereto as Appendix A and the Davis-Bacon poster (WH-1321) must be posted at all times by each Borrower Entity and each DBA Contract Party at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

(ii) **Frequently recurring classifications**.

(A) In addition to wage and fringe benefit rates that have been determined to be prevailing under the procedures set forth in 29 CFR part 1, a wage determination may contain, pursuant to 29 CFR 1.3(f), wage and fringe benefit rates for classifications of laborers and mechanics for which conformance requests are regularly submitted pursuant to paragraph (a)(iii) below, *provided* that:

I. the work performed by the classification is not performed by a classification in the wage determination for which a prevailing wage rate has been determined;

II. the classification is used in the area by the construction industry; and

III. the wage rate for the classification bears a reasonable relationship to the prevailing wage rates contained in the wage determination.

(B) The Administrator will establish wage rates for such classifications in accordance with paragraph (a)(iii)(A)(III) below. Work performed in such a classification must be paid at no less than the wage and fringe benefit rate listed on the wage determination for such classification.

(iii) **Conformance**

(A) Any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under any DBA Covered Contract or otherwise to perform work for the construction, prosecution, completion, or repair of the Project shall be classified in conformance with the wage determination. Conformance of an additional classification and wage rate and fringe benefits is appropriate only when the following criteria have been met:

I. the work to be performed by the classification requested is not performed by a classification in the wage determination;

II. the classification is utilized in the area by the construction industry; and

III. the proposed wage rate, including any *bona fide* fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) The conformance process may not be used to split, subdivide, or otherwise avoid application of classifications listed in the wage determination.

(C) If any Borrower Entity or any DBA Contract Party, as the case may be, and the respective laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the proposed classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken will be sent by the contracting officer by email to [***]. Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) In the event any Borrower Entity or any DBA Contract Party, as the case may be, or the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer will, by email to [***], refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting

officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(E) The contracting officer must promptly notify the Borrower Entity or any DBA Contract Party of the action taken by the Wage and Hour Division under paragraphs (a)(iii)(C) and (D) above. The Borrower Entity or DBA Contract Party, as applicable, must furnish a written copy of such determination to each affected worker or it must be posted as a part of the wage determination. The wage rate (including fringe benefits where appropriate) determined pursuant to subparagraphs (a)(iii)(C) or (D) above must be paid to all workers performing work in the classification under any DBA Covered Contract from the first day on which work is performed in the classification.

(iv) **Fringe Benefits not expressed as an hourly rate**. Whenever the minimum wage rate prescribed in any DBA Covered Contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, any Borrower Entity or any DBA Contract Party may either pay the benefit as stated in the wage determination or may pay another *bona fide* fringe benefit or an hourly cash equivalent thereof.

(v) **Unfunded Plans.** If any Borrower Entity or any DBA Contract Party does not make payments to a trustee or other third person, such Borrower Entity or DBA Contract Party may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing *bona fide* fringe benefits under a plan or program; provided, that the Secretary of Labor has found, upon the written request of such Borrower Entity or DBA Contract Party, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require any Borrower Entity or any DBA Contract Party to set aside, in a separate account, assets for the meeting of obligations under the plan or program.

(b) **Withholding**.

(i) **Withholding requirements.** DOE may upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from any Borrower Entity or a DBA Contract Party, as the case may be, so much of the accrued payments or advances under the contract or any DBA Covered Contract, as may be considered necessary to satisfy the liabilities of the Borrower Entity or applicable DBA Contract Party for the full amount of wages and monetary relief, including interest, required by the clauses set forth in this Section 2 for violations of the LARA or applicable DBA Covered Contract, or to satisfy any such liabilities required by any other Federal contract, or federally assisted contract subject to Davis-Bacon labor standards, that is held by the same Borrower Entity. The necessary funds may be withheld from the Borrower Entity or DBA

Contract Party under the LARA, any other Federal contract with the same Borrower Entity, or any other federally assisted contract that is subject to Davis-Bacon labor standards requirements and is held by the same Borrower Entity, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the contractor liability for which the funds were withheld. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or otherwise working in construction or development of a project under a development statute) all or part of the wages required hereby or by any DBA Covered Contract, or upon any Borrower Entity's or DBA Contract Party's failure to submit the required records as discussed in paragraph (c)(iv) below, the DOE may on its own initiative and after written notice to the Borrower Entity or DBA Contract Party, sponsor, applicant, owner, or other entity, take such action as may be necessary to cause the suspension of any further Advance until such violations have ceased.

(ii) **Priority to withheld funds**. The Department of Labor has priority to funds withheld or to be withheld in accordance with paragraph (b)(i) above or paragraph (c)(i) of Section 3 below, or both, over claims to those funds by:

(A) a Borrower Entity's or DBA Contract Party's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(B) a contracting agency for its reprocurement costs;

(C) a trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a Borrower Entity or a contractor, or a Borrower Entity's or contractor's bankruptcy estate;

(D) a Borrower Entity's or a DBA Contract Party's assignee(s);

(E) a Borrower Entity's or a DBA Contract Party's successor(s); or

(F) a claim asserted under the Prompt Payment Act, 31 U.S.C. 3901-3907.

(c) **Records and Certified Payrolls**.

(i) **Basic record requirements**

(A) **Length of record retention**. All regular payrolls and other basic records must be maintained by each Borrower Entity and each DBA Contract Party during the course of the work and preserved for all laborers and mechanics working at the site of the work (or otherwise working in construction or development of a project under a

development statute) for a period of at least 3 years after all the work on the Project is completed.

(B) **Information required.** Such records must contain the name; Social Security number; last known address, telephone number, and email address of each such worker; each worker's correct classification(s) of work actually performed; hourly rates of wages paid (including rates of contributions or costs anticipated for *bona fide* fringe benefits or cash equivalents thereof of the types described in 40 U.S.C. 3141(2)(B) of the Davis-Bacon Act); daily and weekly number of hours actually worked in total on each covered contract, deductions made; and actual wages paid.

(C) **Additional records related to fringe benefits.** Whenever the Secretary of Labor has found under paragraph (a)(v) of this Section 2 that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in 40 U.S.C. 3142(2)(B) of the Davis-Bacon Act, each applicable Borrower Entity and each applicable DBA Contract Party must maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

(D) **Additional records relating to apprenticeship.** Each Borrower Entity and each DBA Contract Party with apprentices working under approved programs must maintain written evidence of the registration of apprenticeship programs, the registration of the apprentices, and the ratios and wage rates prescribed in the applicable programs.

(ii) **Certified payroll requirements**

(A) **Frequency and method of submission**. The Borrower Entities and each DBA Contract Party must submit weekly, for each week in which any DBA--or Related Acts—covered work is performed, or otherwise any DBA Covered Contract work is performed, a copy of all certified payrolls to the Borrower. The highest tier DBA Contract Party is responsible for the submission of copies of certified payrolls by all subcontractors and lower tier subcontractors. Unless otherwise directed by DOE, the Borrower shall submit weekly for each week in which any DBA Covered Contract work is performed a copy of all of its certified payrolls, as well as all certified payrolls of each other Borrower Entity and each DBA Contract Party, to the DOE contracting officer.

(B) **Information required**. The certified payrolls submitted must set out accurately and completely all of the information required to be maintained under subparagraph (c)(i)(B) above, except that full Social Security numbers and last known addresses, telephone numbers, and email addresses must not be included on weekly transmittals. Instead, the certified payrolls need only include an individually identifying number for each worker (e.g., the last four digits of the worker's Social Security number). The required weekly certified payroll information shall be submitted using Optional Form WH-347 or in any other format desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division website at https://www.dol.gov/sites/dolgov/files/WHD/legacy/files/wh347/.pdf or its successor website. It is not a violation of this Section 2 for any Borrower Entity to require another Borrower Entity or a DBA Contract Party to provide full Social Security numbers and last known addresses, telephone numbers, and email addresses to the Borrower Entity for its own records, without weekly submission by the DBA Contract Party to the sponsoring government agency (or the Borrower Entity, sponsor, owner, or other entity, as the case may be, that maintains such records).

(C) **Statement of Compliance**. Each certified payroll submitted must be accompanied by a "Statement of Compliance," signed by the Borrower Entity or DBA Contract Party or the Borrower Entity's or DBA Contract Party's agent who pays or supervises the payment of the persons working on the contract and must certify the following:

I. that the certified payroll for the payroll period contains the information required to be provided under paragraph (c)(i) above, the appropriate information and basic records are being maintained under paragraph (c)(i) above, and such information and records are correct and complete;

II. that each laborer or mechanic (including each helper and apprentice) working on the construction, prosecution, completion, or repair of the Project during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR part 3; and

III. that each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification(s) of work actually performed, as specified in the applicable wage determination incorporated

into this Schedule 7.18 (*Davis-Bacon Act Contract Provisions*).

(D) **Use of Optional Form WH-347.** The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH- 347 will satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (c)(ii)(C) above.

(E) **Signature.** The signature by any Borrower Entity, contractor, subcontractor, or the Borrower Entity's, contractor's or subcontractor's agency must be an original handwritten signature or a legally valid electronic signature.

(F) **Falsification.** The falsification of any of the above certifications may subject the Borrower Entities or any DBA Contract Party to civil or criminal prosecution under 18 U.S.C. 1001 and 31 U.S.C. 3729.

(G) **Length of certified payroll retention.** The Borrower Entities and the DBA Contract Parties must preserve all certified payrolls during the course of the work and for a period of 3 years after all the work on the Project is completed.

(iii) **Contracts, subcontracts, and related documents.** The Borrower Entities and DBA Contract Parties must maintain, as applicable, the LARA, each DBA Covered Contract, subcontract and related documents including, without limitation, bids, proposals, amendments, modifications, and extensions. The applicable Borrower Entity or DBA Contract Party must preserve, as applicable, the LARA, the applicable DBA Covered Contract, subcontracts, and related documents during the course of the work and for a period of 3 years after all the work on the Project is completed.

(iv) **Required disclosures and access**.

(A) **Required record disclosures and access to workers.** Each Borrower Entity and each DBA Contract Party must make the records required under subparagraph (c)(i) through (iii) above, and any other documents that DOE or the Department of Labor deems necessary to determine compliance with the labor standards provisions of any of the applicable statutes referenced by 29 CFR 5.1, available for inspection, copying, or transcription by authorized representatives of DOE or the Department of Labor, and must permit such representatives to interview employees during working hours on the job.

(B) **Sanctions for non-compliance with records and worker access requirements.** If any Borrower Entity or any DBA Contract Party

fails to submit the required records or to make them available, or refuses to permit worker interviews during working hours on the job, DOE may, after written notice to such Borrower Entity or DBA Contract Party or the sponsor, owner, or other entity, as the case may be, that maintains such records or that employs such workers, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12. In addition, any contractor or other person that fails to submit the required records or make those records available to Wage and Hour Division ("**WHD**") within the time WHD requests that the records be produced will be precluded from introducing as evidence in an administrative proceeding under 29 CFR part 6 any of the required records that were not provided or made available to WHD. WHD will take into consideration a reasonable request from the contractor or person for an extension of the time for submission of records. WHD will determine the reasonableness of the request and may consider, among other things, the location of the records and the volume of production.

(C) **Required information disclosures.** Borrower Entities and DBA Contract Parties must maintain the full Social Security number and last known address telephone number, and email address of each covered worker, and must provide them upon request to the DOE if the agency is a party to the contract, or to the Wage and Hour Division of the Department of Labor. If the Federal agency is not such a party to the contract, the Borrower Entity, DBA Contract Party, or both, must, upon request, provide the full Social Security number and last known address, telephone number, and email address of each covered worker to the sponsor, owner, or other entity, as the case may be, that maintains such records, for transmission to DOE, the Borrower Entity or DBA Contract Party, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or other compliance action.

(d) **Apprentices and equal employment opportunity**.

(i) **Apprentices**.

(A) **Rate of pay**. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a *bona fide* apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship ("**OA**"), or with a State Apprenticeship Agency recognized by the OA. A person who is not individually registered

in the program, but who has been certified by the OA or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice, will be permitted to work at less than the predetermined rate for the work they perform in the first 90 days of probationary employment as an apprentice in such a program. In the event the OA or a State Apprenticeship Agency recognized by the OA withdraws approval of an apprenticeship program, the applicable Borrower Entity or DBA Contract Party will no longer be permitted to use apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(B) **Fringe benefits.** Apprentices must be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringe benefits must be paid in accordance with that determination.

(C) **Apprenticeship ratio.** The allowable ratio of apprentices to journeymen on the job site in any craft classification must not be greater than the ratio permitted to the applicable Borrower Entity or DBA Contract Party as to the entire work force under the registered program or the ratio applicable to the locality of the Project pursuant to paragraph (d)(i)(D) below. Any worker listed on a payroll at an apprentice wage rate who is not registered or otherwise employed as stated in paragraph (d)(i)(A) above must be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

(D) **Reciprocity of ratios and wage rates.** Where any Borrower Entity or DBA Contract Party is performing construction on the Project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in such Borrower Entity's or DBA Contract Party's registered program shall be observed. If there is no applicable ratio or wage rate for the locality of the Project, the ratio and wage rate specified in the Borrower Entity or DBA Contract Party's registered program must be observed.

(ii) **Equal employment opportunity**. The use of apprentices and journeyworkers under 29 CFR part 5 must be in conformity with the equal

employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

(e) **Compliance with Copeland Act requirements**. Each Borrower Entity and each DBA Contract Party shall comply with the requirements of 29 CFR part 3, which are incorporated by reference into the LARA and each other DBA Covered Contract.

(f) **Subcontracts**. Each Borrower Entity and each DBA Contract Party must insert in any DBA Covered Contract the clauses contained in paragraphs (a) through (k) of this Section 2, along with the applicable wage determination(s) and such other clauses or contract modifications as DOE may by appropriate instructions require, and a clause requiring each higher tier DBA Contract Party to include these clauses and wage determination(s) in any lower tier DBA Covered Contract. The Borrower is responsible for the compliance by any other Borrower Entity and any DBA Contract Party or lower tier DBA Contract Party with all the contract clauses in this Section 2. In the event of any violations of these clauses, the Borrower Entity(ies) or DBA Contract Party(ies) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors (or in the case of a Borrower Entity, of all DBA Contract Parties), and may be subject to debarment, as appropriate.

(g) **Contract termination: debarment**. A breach of the contract clauses in 29 CFR 5.5, as they may be modified or supplemented hereby, may be grounds for termination (by DOE) of any DBA Covered Contract, and for debarment as a contractor / subcontractor as provided in 29 CFR 5.12.

(h) **Compliance with Davis-Bacon and Related Act requirements**. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 (other than Section 5.5(b) of 29 CFR part 5) are herein incorporated by reference in the LARA and each DBA Covered Contract.

(i) **Disputes concerning labor standards**. Disputes arising out of the labor standards provisions of the LARA or any DBA Covered Contract shall not be subject to the general disputes clause of such contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between any Borrower Entity or any DBA Contract Party (or any of its subcontractors) and DOE, the U.S. Department of Labor, or the applicable employees or their representatives.

(j) **Certification of eligibility**.

(i) By entering into the LARA or, in the case of each DBA Contract Party, any other DBA Covered Contract, each Borrower Entity and the DBA Contract Party certifies that neither it nor any person or firm who has an interest in a Borrower Entity or such DBA Contract Party is a person or firm ineligible

to be awarded Government contracts by virtue of 40 U.S.C. 3144(b) or 29 CFR 5.12(a).

(ii) No part of the LARA or any other DBA Covered Contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue 40 U.S.C. 3144(b) or 29 CFR 5.12(a).

(iii) The penalty for making false statements is prescribed in the U.S. Code, Title 18 Crimes and Criminal Procedure, 18 U.S.C. 1001.

(k) **Anti-retaliation**. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

(i) notifying any Borrower Entity or DBA Contract Party of any conduct which the worker reasonably believes constitutes a violation of the DBA, Related Acts, or 29 CFR part 1, 3 or 5;

(ii) filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under the DBA, Related Acts, or 29 CFR part 1, 3 or 5;

(iii) cooperating in any investigation or other compliance action, or testifying in any proceeding under the DBA, Related Acts, or 29 CFR part 1, 3 or 5; or

(iv) informing any other person about their rights under the DBA, Related Acts, or 29 CFR part 1, 3 or 5.

Section 3. Contract Work Hours and Safety Standards Act. The Borrower Entities shall and shall cause each DBA Contract Party that is party to a DBA Covered Contract to comply with the following provisions. As used in this Section 3, the terms laborers and mechanics include watchmen and guards.

(a) **Overtime requirements**. None of the Borrower Entities or DBA Contract Parties may require or permit any laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(b) **Violation; liability for unpaid wages; liquidated damages**. In the event of any violation of the clause set forth in paragraph (a) above the Borrower Entities and each DBA Contract Party responsible therefor shall be liable for the unpaid wages. In addition, the Borrower Entities and such DBA Contract Party shall be liable to the United States for liquidated damages. Such liquidated damages shall be

computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (a) above, in the sum of $31 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (a) above.

(c) **Withholding for unpaid wages and liquidated damages**.

(i) **Withholding requirements**. DOE may upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from any Borrower Entity or a DBA Contract Party, as the case may be, so much of the accrued payments or advances under the LARA or any DBA Covered Contract as may be considered necessary to satisfy the liabilities of the Borrower Entity or applicable DBA Contract Party for any unpaid wages, monetary relief, including interest, and liquidated damages required, required by the clauses set forth in this Section 3, any other Federal contract with the same Borrower Entity, or any other federally assisted contract subject to the Contract Work Hours and Safety Standards Act that is held by the same Borrower Entity, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be use to satisfy the Borrower Entity or DBA Contract Party.

(ii) **Priority to withheld funds**. The Department of Labor has priority to funds withheld or to be withheld in accordance with paragraphs (b)(i) of Section 2 or (c)(i) of this Section 3, or both, over claims to those funds by:

(A) a Borrower Entity's or contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(B) a contracting agency for its reprocurement costs;

(C) a trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a Borrower Entity or a contractor, or a Borrower Entity's or contractor's bankruptcy estate;

(D) a Borrower Entity's or contractor's assignee(s);

(E) a Borrower Entity's or contractor's successor(s); or

(F) a claim asserted under the Prompt Payment Act, 31 U.S.C. 3901-3907.

(d) **Subcontracts**. The Borrower Entities and the DBA Contract Parties must insert in any DBA Covered Contracts the clauses set forth in paragraph (a) through (e) of this Section 3 and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for

compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (a) through (d) of this Section 3. The Borrower is responsible for the compliance by any other Borrower Entity and any DBA Contract Party or lower tier DBA Contract Party with all the contract clauses in this Section 3. In the event of any violations of these clauses, the Borrower Entity(ies) and or any DBA Contract Party(ies) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and associated liquidated damages and may be subject to debarment, as appropriate.

(e) **Anti-retaliation**. It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

(i) notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the Contract Works Hours and Safety Standards Act ("**CWHSSA**") or its implementing regulations in 29 CFR part 5;

(ii) filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under the CWHSSA or 29 CFR part 5;

(iii) cooperating in any investigation or other compliance action, or testifying in any proceeding under the CWHSSA or 29 CFR part 5; or

(iv) informing any other person about their rights under the CWHSSA, or 29 CFR part 5.

WAGE DETERMINATIONS

"General Decision Number: NV20230031 10/13/2023

Superseded General Decision Number: NV20220031

State: Nevada

Construction Type: Building
BUILDING CONSTRUCTION PROJECTS (does not include single family homes or apartments up to and including 4 stories).

County: Humboldt County in Nevada.

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.l (a)(2)-(60).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	Executive Order 14026 generally applies to the contract. The contractor must pay all covered workers at least $16.20 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2023.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	Executive Order 13658 generally applies to the contract. The contractor must pay all covered workers at least $12.15 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2023.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at http: //www.dol.gov/whd/govcontracts.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at
https: //www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the

Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4) All decisions by the Administrative Review Board are final.

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.l(a)(2)-(60).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	Executive Order 14026 generally applies to the contract. The contractor must pay all covered workers at least $16.20 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2023.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	Executive Order 13658 generally applies to the contract. The contractor must pay all covered workers at least $12.15 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2023.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at http://www.dol.gov/whd/govcontracts.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at
https://www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (11)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted

average of the current negotiated/CBA rate of the union locals from which the rate is

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

(H) The Borrower's obligations to DOE and FFB will be secured by the Liens granted under the Security Documents, to the extent provided therein.

(I) The parties hereto desire: (a) to specify, among other things, the terms and conditions for: (i) the delivery by DOE of the Principal Instruments required for FFB to purchase the Note pursuant to the Note Purchase Agreement; (ii) the delivery by DOE of Advance Request Approval Notices; and (iii) certain indemnity and reimbursement obligations of the Borrower to DOE; and (b) to provide for certain other matters related thereto.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto hereby agree as follows:

ARTICLE II

FUNDING

Section 2.01 Loan. Subject to the terms and conditions hereof and of the Funding Agreements, on the Execution Date, DOE shall deliver to FFB the Principal Instruments required, in accordance with Section 4.2 (*Delivery of Principal Instruments by the Secretary to FFB*) of the Note Purchase Agreement, in connection with the offer to FFB to purchase on the Execution Date, the Note contemplated thereunder in an aggregate maximum principal amount not to exceed one billion nine hundred seventy million Dollars ($1,970,000,000) (the "**Maximum Principal Amount**") and an aggregate amount of capitalized interest in accordance with Section 3.04(a) (*Interest Amount and Interest Computations*) (the "**Maximum Capitalized Interest Amount**" and together with the Maximum Principal Amount, the "**Maximum Loan Amount**", and the loan extended under the Note, the "**Loan**").

Section 2.02 Availability and Reductions.

(a) Maximum Loan Amount; Availability Period. Subject to the terms and conditions hereof and of the Funding Agreements, DOE shall, during the Availability Period, deliver to FFB an Advance Request Approval Notice authorizing FFB to make Advances in accordance with Section 2.04(a)(ii) (*Advance Request Approval Notice*); *provided* that, after giving effect to any Advances and the use of proceeds thereof and subject to Section 2.07(c) (*Determination of Advance Amounts*), the aggregate amount of all Advances made to the Borrower under the Note shall not exceed the Maximum Loan Amount and shall otherwise comply with the Debt Sizing Parameters.

(b) Loan Commitment Amount Reductions. The Borrower may, on not less than thirty (30) days' prior written notice to DOE and upon the satisfaction of any consent requirement or other applicable provisions of this Agreement and each other Financing Document, permanently reduce the Loan Commitment Amount, in whole or in part, but only if:

(i) the Borrower demonstrates to DOE's satisfaction that the total funding committed and available to the Project is sufficient to pay all remaining Project Costs in accordance with the then applicable Construction Budget, Integrated Project Schedule, Mine Plan and Base Case Financial Model;

(ii) DOE is satisfied that the proposed reduction or cancellation would not reasonably be expected to cause a Default or an Event of Default;

(iii) the Borrower shall have delivered to DOE, by an Acceptable Delivery Method, a certificate, in form and substance satisfactory to DOE, with respect to the matters set forth in clauses (i) and (ii) above; and

(iv) upon such cancellation or reduction, the Borrower shall pay all expenses and other amounts then due with respect to, or as a result of, such cancellation or reduction under this Agreement.

(c) No Reborrowing. Once reduced or canceled, the Loan Commitment Amount may not be reinstated or increased.

(d) DOE Termination. If the First Advance Date has not occurred by the First Advance Longstop Date, DOE may terminate this Agreement upon no less than ten (10) Business Days' prior written notice to the Borrower. Once terminated, this Agreement may not be reinstated.

Section 2.03 Mechanics for Requesting Advances.

(a) Advance Requests. Subject to the Funding Agreements, from time to time during the Availability Period, the Borrower may request Advances under the Funding Agreements by delivering to DOE, by an Acceptable Delivery Method, an appropriately completed request with respect to such Advance or Advances (each, an "**Advance Request**"), in the form attached as Exhibit A-1 (*Form of Advance Request*) (as such form may be amended, supplemented or modified from time to time by DOE, the "**Form of Advance Request**") and otherwise in form and substance satisfactory to DOE:

(i) in the event the requested Advance is an amount less than five hundred million Dollars ($500,000,000), not less than fifteen (15) Business Days and not more than twenty (20) Business Days prior to the Requested Advance Date; and

(ii) in the event the requested Advance is an amount equal to or greater than five hundred million Dollars ($500,000,000), not less than twenty (20) Business Days and not more than twenty-two (22) Business Days prior to any Requested Advance Date.

(b) Frequency. The Borrower may request Advances in accordance with clause (a) above no earlier than thirty (30) days from the date of the immediately preceding Advance Request; *provided* that (i) the Borrower shall not deliver an Advance Request more frequently than once per calendar month without the prior written consent of DOE; and (ii) in no event shall the Requested Advance Date be on a date occurring during: (A) the last three (3) Business Days of any calendar month (other than March, June, September or December); (B) the last seven (7) Business Days of March, June, September or December; or (C) the period from September 15 to and including the third (3rd) Business Day of October.

Section 2.04 Mechanics for Funding Advances.

(a) Advance Funding.

(i) Satisfaction of Conditions. Promptly after receipt of an Advance Request complying with Section 2.03(a) (Advance Requests), DOE shall review such Advance Request to determine whether all certificates and documentation required to be attached thereto have been delivered to it.

(ii) Advance Request Approval Notice. With respect to any Advance under the Funding Agreements, if DOE determines that (x) the Advance Request has been satisfactorily completed pursuant to Section 2.04(a)(i) (Satisfaction of Conditions), and (y) all conditions precedent set forth in Section 5.04 (Advance Approval Conditions

Precedent) in respect of the requested Advance have been satisfied (or waived in writing), then DOE shall issue to FFB an Advance Request Approval Notice:

(A) in the event the Advance is an amount less than five hundred million Dollars ($500,000,000), no later than three (3) Business Days prior to the Requested Advance Date; and

(B) in the event the Advance is an amount equal to or greater than five hundred million Dollars ($500,000,000), five (5) Business Days prior to the Requested Advance Date.

(iii) Funding. For any requested Advance for which an Advance Request Approval Notice has been issued pursuant to this Section 2.04(a) (*Advance Funding*) and for which no Drawstop Notice has been issued pursuant to clause (b) below, FFB shall fund such Advance on the Requested Advance Date in accordance with the Note Purchase Agreement and the Note. Such funds shall be applied as specified in the Funding Agreements and in accordance with clause (d) below; *provided* that, if any Drawstop Notice has been issued and is in effect on the Requested Advance Date with respect to any funds received by the Borrower, such funds (together with any additional amounts due thereon or arising therefrom) shall be returned by the Borrower to FFB pursuant to clause (b) below.

(b) Drawstop Notices.

(i) Issuance. Following the issuance of any Advance Request Approval Notice by DOE pursuant to clause (a) above and on or prior to the Requested Advance Date, DOE or FFB may, from time to time, issue a notice substantially in the form attached hereto as Exhibit B (*Form of Drawstop Notice*) (a "**Drawstop Notice**") to the Borrower and to DOE or FFB, as the case may be, if and only if DOE or FFB, as the case may be, determines that:

(A) any condition set forth in Section 5.03 (*Conditions Precedent to the First Advance Date*), Section 5.04 (*Advance Approval Conditions Precedent*) or Section 5.05 (*Conditions Precedent to FFB Advance*), as applicable, with respect to such Advance is not met, or, having been met on the applicable Advance Request date, is no longer met; or

(B) to the extent the Advance Request Approval Notice has been issued for any Advance under the Note and the Note Purchase Agreement, the conditions precedent to such Advance contained in the Note and the Note Purchase Agreement are not met, or, having been met, are no longer met.

(ii) Consequences. If a Drawstop Notice is issued, FFB shall not be obligated to make the requested Advance set forth on such Drawstop Notice; *provided* that, if FFB makes any such Advance to the Borrower following the issuance of a Drawstop Notice, the Borrower shall return such Advance to FFB within one (1) Business Day following receipt thereof; *provided further* that any amount required to be returned by the Borrower

pursuant to this clause (ii) shall accrue interest at the Late Charge Rate from the date such Advance is made until such Advance is returned and be subject to payment of a make-whole amount in accordance with the Note. Following the return of such Advance, FFB shall deliver an invoice to the Borrower setting forth the interest and other applicable make-whole amount due and payable with respect to such returned amount. The Borrower shall pay promptly, but in no event later than five (5) Business Days following delivery of such invoice, such interest and other applicable make-whole amounts as directed by FFB, and the Borrower shall pay all costs and expenses incurred by DOE, FFB, or the Collateral Agent as a result of such DOE Advance withdrawal. Any amounts returned pursuant to this clause (ii) shall be available for reborrowing.

(c) No Liability.

(i) The Borrower acknowledges and agrees that DOE shall only be required to use its reasonable efforts to provide FFB with the necessary Advance Request Approval Notices within the time frames specified in Section 2.04(a)(i) (*Satisfaction of Conditions*) and (ii) (*Advance Request Approval Notice*) above, but DOE shall in any event ensure that FFB receives all such Advance Requests and Advance Request Approval Notices as soon as reasonably practicable following receipt from the Borrower of the applicable Advance Requests, certificates and other documentation specified above (subject to the Borrower satisfying all applicable conditions precedent specified in Article V (*Conditions Precedent*)).

(ii) Neither DOE nor FFB shall have any liability for any action taken (including the delivery of a Drawstop Notice) or omitted to be taken (including the refusal to fund any Advance or Advances following the issuance of a Drawstop Notice) or for any loss or injury resulting from its actions or inaction or its performance or lack of performance of any of its other obligations hereunder unless and solely to the extent such liability arises from the gross negligence or willful misconduct of DOE or FFB as determined in a final and non-appealable judgment of a court of competent jurisdiction. In no event shall DOE, FFB or any subsequent holder of the Note be liable, and each such Person shall be exempt from liability in accordance with Section 11.08 (*Limitation on Liability*), in each case: (A) for acting in accordance with, or relying upon, any entitlement order, instruction, notice, demand, certificate or document from the Borrower or any entity acting on behalf of the Borrower; or (B) in the case of FFB or any subsequent holder of the Note, for acting in accordance with, or relying upon, any Drawstop Notice issued by DOE.

(iii) Notwithstanding anything contained in this Agreement to the contrary, neither DOE nor FFB shall incur any liability to the Borrower, any Affiliate thereof or to any other Secured Party for not performing any act or fulfilling any duty, obligation or responsibility hereunder or under any other Financing Document by reason of any Lender Force Majeure Event; it being understood that DOE or FFB, as the case may be, shall resume performance hereunder as soon as reasonably practicable after such Lender Force Majeure Event ceases to prevent or otherwise hinder DOE or FFB, as applicable, from performing hereunder or thereunder.

(d) Disbursement of Proceeds.

(i) The Borrower shall apply the proceeds of any Advance solely to:

(A) with respect to the proceeds from (1) the First Advance or (2) any subsequent Advance to the extent approved in advance in writing by DOE (in its sole discretion), in each case, fund any Equity Refund;

(B) on and after the First Advance Date, pay for Eligible Project Costs that are due and payable or that are reasonably expected to become due and payable in the next ninety (90) day period following the relevant Advance Date (it being understood that at the time of submission of the relevant Advance Request the Borrower shall be in possession of all the invoices, or other documentation reasonably acceptable to DOE, necessary to evidence the incurrence or anticipated incurrence of such Eligible Project Costs); and/or

(C) without duplication of clause (B), fund the Reserve Account Requirement for the Debt Service Reserve Account in accordance with the Accounts Agreement.

(ii) In no event shall the proceeds of Advances be:

(A) applied towards any portion of Project Costs incurred prior to the Eligibility Effective Date;

(B) used to pay interest payments on the Loan (including any portion of the principal attributable to capitalized interest) or programmatic fees charged by or paid to DOE relating to the Loan;

(C) disbursed to fund (or reimburse the Borrower or any Borrower Entity for) any contribution made under the Equity Funding Commitment; or

(D) used to pay any portion of the Project Costs that are not Eligible Project Costs.

Section 2.05 Advance Requirements under the Funding Agreements.
Notwithstanding anything to the contrary contained in this Article II (*Funding*), the Borrower shall comply with each disbursement requirement set forth in the Funding Agreements. Unless otherwise specified in the Funding Agreements, all determinations to be made with respect to the Funding Agreements shall be made by DOE.

Section 2.06 No Approval of Work. The making of any Advance or Advances under the Financing Documents shall not be deemed an approval or acceptance by any Secured Party of any work, labor, supplies, materials or equipment furnished or supplied with respect to the Project.

Section 2.07 Determination of Advance Amounts. As of any date of any requested Advance, after giving effect to the Advance:

(a) the sum of (i) the aggregate outstanding principal amount of all Advances made to the Borrower under the Note (including, for the avoidance of doubt, the principal amount of such requested Advance), and (ii) the Aggregate Capitalized Interest, shall not exceed [***] of the sum of: (iii) the amount of Eligible Project Costs (excluding all interest, regardless of whether such interest has been capitalized, or otherwise) incurred and paid on or prior to the relevant Requested Advance Date (or with respect to the final Advance, reasonably anticipated to be paid within ninety (90) days after such Requested Advance Date), and (iv) the Aggregate Interest During Capitalization Period;

(b) the outstanding principal amount of the Loan shall not exceed the Maximum Principal Amount; and

(c) the aggregate amount of capitalized interest shall not exceed the Maximum Capitalized Interest Amount.

ARTICLE III

PAYMENTS; PREPAYMENTS

Section 3.01 Place and Manner of Payments.

(a) All payments due under the Note shall be made by the Borrower to FFB pursuant to the terms of the Funding Agreements.

(b) All payments to be made to DOE under this Agreement shall be sent by the Borrower in Dollars in immediately available funds before 1:00 p.m. (District of Columbia time) on the date when due to such account as DOE shall direct by written notice to the Borrower not less than five (5) Business Days prior to the date when due).

(c) In the event that the date of any payment to DOE or the expiration of any time period hereunder occurs on a day that is not a Business Day, then such payment or expiration of time period shall be made or occur on the next succeeding Business Day, and such extension of time shall in such cases be included in computing interest or fees, if any, in connection with such payment.

(d) The Borrower understands and agrees that DOE and FFB are agencies or instrumentalities of the United States and that all payments to DOE or FFB hereunder or under the Financing Documents are payable, and shall in all cases be paid, free and clear of all Taxes.

Section 3.02 Maturity and Amortization.

(a) Maturity Date. The Borrower shall repay the outstanding Loan on the Maturity Date.

(b) Payments. The Note shall: (i) be stated to amortize in consecutive quarterly installments of principal payable on each Payment Date, commencing on the First Principal Payment Date (or, if not a Business Day, the next Business Day) in the amounts set forth in the amortization schedule set out in Schedule 3.02 (*Amortization Schedule*); *provided* that Payment Dates shall not occur on the last two (2) days of any month; and (ii) provide for the capitalization and payment of interest in accordance with Section 3.04 (*Interest Provisions Relating to All Advances*) and the Funding Agreements.

Section 3.03 Evidence of Debt. The entries made in the internal records maintained by or on behalf of DOE evidencing the amounts from time to time: (i) advanced by FFB under the Note Purchase Agreement and the Note; (ii) paid by DOE to FFB pursuant to Section 6.3 (*Reimbursement*) of the Program Financing Agreement; or (iii) paid by or on behalf of the Borrower from time to time in respect thereof, shall constitute, absent manifest error, evidence of the existence and amount of the Note Obligations of the Borrower as therein recorded.

Section 3.04 Interest Provisions Relating to All Advances.

(a) Interest Amount and Interest Computations.

(i) Interest shall accrue on the outstanding principal amount of each Advance from the date such Advance is disbursed to the Borrower pursuant to the Note Purchase Agreement and the Note, to the date such Advance is due, in each case, at a rate *per annum* as specified in the Funding Agreements. Except as provided in clause (ii) below, interest accrued on the outstanding principal balance of each Advance shall be due and payable to FFB on each Payment Date beginning on the first Payment Date to occur after the date on which such Advance is made, through and including the Maturity Date.

(ii) For each Advance made prior to the First Principal Payment Date, the amount of accrued interest on the Note that would otherwise be due and payable on each Payment Date to occur until the date immediately prior to the First Principal Payment Date shall be capitalized on the respective Payment Date and be added to the principal amount due under the Note, and interest shall accrue on the sum of the outstanding principal (including such capitalized interest) at the rate established for such Advance in accordance with paragraph 6 of the Note; *provided* that the aggregate amount of accrued interest that may be capitalized shall not exceed the Maximum Capitalized Interest Amount and shall not cause the total outstanding amount under the Note to exceed the Maximum Loan Amount. The amount of interest that shall be capitalized on each Advance shall be determined as set forth in the Note.

(iii) Without limiting the foregoing, all Overdue Amounts shall: (A) accrue interest at the Late Charge Rate; and (B) be payable by the Borrower in accordance with the Funding Agreements.

(iv) The Borrower hereby authorizes FFB to record in an account or accounts maintained by FFB on its books: (A) the interest rates applicable to all Advances; (B) the date and amount of each principal and interest payment on each Advance outstanding; and (C) such other information as FFB may determine is necessary for the computation of

interest and the Prepayment Price payable by the Borrower under the Note. The Borrower acknowledges and agrees that all computations of interest and the Prepayment Price by FFB pursuant to this Section 3.04 (*Interest Provisions Relating to All Advances*) and the Note shall, in the absence of manifest error, be evidence of the amount thereof. All computations of interest shall be made as set forth in the relevant Funding Agreement.

(b) Interest Payment Dates. Subject to the terms of the Note Purchase Agreement and the Note, the Borrower shall pay accrued interest on the outstanding principal amount of each Advance: (i) on each Payment Date, as and to the extent specified in clause (a) above; (ii) on each prepayment date (to the extent thereof); and (iii) at maturity (whether by acceleration or otherwise).

Section 3.05 Prepayments.

(a) Terms of All Prepayments.

(i) With respect to any prepayment of any Advance, whether such prepayment is voluntary or mandatory, including a prepayment upon acceleration, the Borrower shall comply with all applicable terms and provisions of this Agreement and the Funding Agreements.

(ii) All prepayments of the Note shall be: (A) applied to Advances as specified in the relevant Prepayment Election Notice; and (B) due in an amount equal to the Prepayment Price calculated by FFB in accordance with the terms of the Note.

(iii) Except for funds repaid pursuant to Section 2.04(b)(ii) (*Consequences*), the Borrower may not reborrow the principal amount of any Advance that is prepaid, nor shall any such prepayment create availability for further borrowings during the Availability Period.

(iv) Simultaneously with all partial prepayments of the Advances under the Loan, whether voluntary or mandatory, the Borrower shall pay all accrued interest and other fees, costs, expenses and other Secured Obligations, in each case, then outstanding in respect of the principal amount being prepaid. Any prepayments of the Advances under the Loan in full shall require payment in full of all other Secured Obligations.

(v) If the Borrower shall fail to make a prepayment to FFB on any Intended Prepayment Date in accordance with this Agreement and the Note, the Borrower shall pay FFB a Late Charge on any Overdue Amount from such Intended Prepayment Date to the date on which payment is made, computed in accordance with the provisions of the Note.

(vi) Any prepayment made pursuant to this Section 3.05 (*Prepayments*) shall be applied: (A) to the specific Advances identified by the Borrower in accordance with the FFB Documents; and (B) in the inverse order of maturity among the outstanding principal amounts of such Advances.

(vii) In the event of any prepayment in full of all outstanding Advances under the Loan pursuant to this Section 3.05 (*Prepayments*) on or prior to the last day of the Availability Period, the remaining Loan Commitment Amount shall be deemed to be reduced to zero Dollars ($0), unless otherwise agreed to by DOE.

(b) Voluntary Prepayments.

(i) Subject to clause (ii) below, the Borrower may at any time and from time to time prepay all or any portion of the outstanding principal amount of any Advance under the Note, upon prior submission of a Prepayment Election Notice by the Borrower to DOE and FFB (with a copy to the Collateral Agent) not less than ten (10) Business Days prior to the Intended Prepayment Date in accordance with the terms hereof and the Note; *provided* that to the extent that such partial prepayment is made prior to the expiration of the Availability Period, DOE has provided its prior written consent in respect thereof.

(ii) Any partial prepayment made under clause (i) above shall also be subject to the following:

(A) no Default or Event of Default has occurred and is continuing or could reasonably be expected to occur as a result of such prepayment; and

(B) to the extent such prepayment is made after the expiration of the Availability Period, the Borrower has demonstrated to the satisfaction of DOE that, immediately following such prepayment:

(1) each Reserve Account is funded in an amount equal to or greater than the applicable Reserve Account Requirement;

(2) if the Substantial Completion Date has not yet occurred, the Substantial Completion Date is expected to occur on or before the Substantial Completion Longstop Date;

(3) if the Project Completion Date has not yet occurred, the Project Completion Date is expected to occur on or before the Project Completion Longstop Date, and the total funding committed and available to the Borrower is sufficient to pay all remaining Project Costs in accordance with the then-applicable Construction Budget, Integrated Project Schedule, Mine Plan and Base Case Financial Model; and

(4) the total funding available to and revenues expected to be received by the Project during the current operating period will be, in the aggregate, sufficient to pay all Operating Costs in accordance with the then-applicable O&M Budget and Base Case Financial Model.

(c) Mandatory Prepayments.

(i) The Borrower shall prepay the Advances upon the occurrence of any of the following events (each, a "**Mandatory Prepayment Event**"), in the amount required below (such prepayment amounts, the "**Mandatory Prepayment Amounts**"); *provided* that the relevant Mandatory Prepayment Amount received and required to be paid pursuant to this Section 3.05(c) (*Mandatory Prepayments*) shall not be increased to account for any other amounts due and payable hereunder directly in connection with such prepayment, but rather such amounts shall be netted out of such Mandatory Prepayment Amount thereby reducing the amount of principal so paid:

(A) upon receipt by the Borrower ~~or the Subsidiary Guarantor~~ of any payment in respect of performance liquidated damages or breach under any Major Project Document made to the Borrower ~~or the Subsidiary Guarantor~~, the Net Amount thereof;

(B) the Net Amount of any Loss Proceeds received by the Borrower ~~or the Subsidiary Guarantor~~, at the time and to the extent required in accordance with Section 7.04 (*Event of Loss*);

(C) upon receipt by the Borrower ~~or the Subsidiary Guarantor~~ of any payment as a result of the termination or repudiation of any Major Project Document, the Net Amount thereof; *provided* that if such Major Project Document is a Replaceable Contract, the Borrower may satisfy the Replacement Contract Conditions and enter into a Replacement Contract in respect thereof in lieu of making such prepayment;

(D) upon receipt by the Borrower ~~or the Subsidiary Guarantor~~ of the proceeds of any Disposition (other than a Permitted Disposition pursuant to clause (a), (c) or (d) of the definition thereof) in a single transaction or a series of related transactions of any asset of the Borrower ~~or the Subsidiary Guarantor~~, that portion of the Net Amount of the proceeds of such Disposition to the extent greater than thirty million Dollars ($30,000,000) individually or in the aggregate, in any Fiscal Year;

(E) at the discretion of DOE, on any Payment Date, all funds on deposit in the Restricted Payment Suspense Account if no transfer or distribution of such funds has occurred on any of the immediately preceding seven (7) consecutive Payment Dates and cannot occur on such Payment Date due to a failure to satisfy the Restricted Payment Conditions;

(F) on each Payment Date on and after the First Principal Payment Date, fifty percent (50%) of all funds on deposit in the Revenue Account prior to any transfers to the Restricted Payment Suspense Account as of such Payment Date (such funds, "**Excess Cash**" and such prepayment, the "**Cash Sweep Mandatory Prepayment**"), after giving effect to all other withdrawals and transfers from the Revenue Account required to be made on such Payment Date pursuant to the

Accounts Agreement; *provided* that if the Offtaker, together with any Designated Purchaser, elects to purchase less than (x) 32,000 tonnes in either of the first two (2) years of the Phase One Term (as defined in the Offtake Agreement) or (y) 35,000 tonnes after such first two (2) years, in each case, of the expected product in: (1) a given year pursuant to Sections 2.3 and 2.4 of the Offtake Agreement, a Cash Sweep Mandatory Prepayment of sixty-seven and five-tenths percent (67.5%) of Excess Cash shall apply for such given year; (2) two (2) consecutive years pursuant to Sections 2.3 and 2.4 of the Offtake Agreement, a Cash Sweep Mandatory Prepayment of seventy-five percent (75%) of Excess Cash shall apply with respect to the second (2nd) such consecutive year (and for the avoidance of doubt, clause (1) above shall apply with respect to the first such year); or (3) three (3) consecutive years pursuant to Sections 2.3 and 2.4 of the Offtake Agreement, a Cash Sweep Mandatory Prepayment of one hundred percent (100%) of Excess Cash shall apply from the third (3rd) such consecutive year (and for the avoidance of doubt, clause (1) and clause (2) above shall apply with respect to the first (1st) and second (2nd) such years, respectively) until the next year with respect to which the Offtaker, together with any Designated Purchaser, has committed to purchase at least 35,000 tonnes (or 32,000 tonnes for the first two (2) years of the Phase One Term (as defined in the Offtake Agreement)) of the expected product in such year (at which time, a Cash Sweep Mandatory Prepayment of fifty percent (50%) of Excess Cash shall apply) pursuant to Sections 2.3 and 2.4 of the Offtake Agreement; *provided further* that if the Historical Debt Service Coverage Ratio (calculated for the fourth quarter of the year immediately preceding the year in which any Cash Sweep Mandatory Prepayment is applicable) is greater than 2.25:1.00, the Cash Sweep Mandatory Prepayment shall be sized at fifty (50%) of Excess Cash notwithstanding the purchase commitment of the Offtaker, together with any Designated Purchaser, pursuant to Sections 2.3 and 2.4 of the Offtake Agreement;

(a) Upon the occurrence of and during the continuance of an Event of Default, DOE or the Collateral Agent may exercise any one or more of the rights and remedies set forth below:

(i) declare all or any portion of the indebtedness and obligations of every type or description owed by the Borrower to DOE and FFB under this Agreement and each other Financing Document to be immediately due and payable, and the same shall thereupon be immediately due and payable;

(ii) exercise any rights and remedies available under the Financing Documents, including DOE's right to prevent access to or prevent the operation by the Borrower ~~and the Subsidiary Guarantor~~ of the Project or any of the Collateral (except to the extent necessary for the Borrower ~~and the Subsidiary Guarantor~~ to comply with any Applicable Law requirements);

(iii) take whatever action at law or in equity as may appear necessary or desirable in its judgment to collect the amounts then due and thereafter to become due under the Financing Documents or to enforce performance of any obligation of the Borrower under the Financing Documents;

(iv) (A) deny any request for, and shall not be obligated to make, any further Advances; and (B) reduce the Loan Commitment Amount to zero Dollars ($0);

(v) take those actions necessary to perfect and maintain the Liens of the Security Documents pursuant to which assets have been pledged as collateral for the repayment under the Financing Documents;

(vi) set off and apply such amounts to the satisfaction of the Secured Obligations under all of the Financing Documents, including any moneys of any Borrower Entity on deposit with any Secured Party; and/or

(vii) without limiting or being limited by any of the foregoing, draw upon any Acceptable Credit Support issued pursuant to any Financing Document in accordance with its terms, and apply such funds to the payment of the Secured Obligations.

(b) Upon the occurrence of an Event of Default referred to in Section 10.01(k) (*Bankruptcy; Insolvency; Dissolution*), (i) all Loan Commitment Amounts shall automatically be reduced to zero Dollars ($0); and (ii) each Advance made under the Note, together with interest accrued thereon and all other amounts due under the Note, this Agreement and the other Financing Documents, shall immediately mature and become due and payable, without any other presentment, demand, diligence, protest, notice of acceleration, or other notice of any kind, all of which the Borrower hereby expressly waives.

(c) Unless otherwise expressly provided, no remedy herein conferred upon or reserved is intended to be exclusive of any other available remedy, but each remedy shall be cumulative and shall be in addition to other remedies given under the Financing Documents or existing at law

or in equity. No delay or failure to exercise any right or power accruing under any Financing Document upon the occurrence and during the continuance of any Event of Default or otherwise shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient.

(d) In order to entitle DOE to exercise any remedy reserved to DOE in this Agreement, it shall not be necessary to give any notice, other than such notice as may be required in this Agreement or any other Financing Document or under Applicable Law.

(e) If any proceeding has been commenced to enforce any right or remedy under this Agreement, and such proceeding has been discontinued or abandoned for any reason, or has been determined adversely to DOE or FFB, then, in every such case subject to any determination in such proceeding, (i) the parties hereto shall be restored to their respective former positions hereunder; and (ii) thereafter, all rights and remedies of DOE or FFB, as the case may be, shall continue as though no such proceeding had been instituted.

(f) DOE shall have the right, to be exercised (or not) in its complete discretion, to waive any covenant, Default or Event of Default by a writing setting forth the terms, conditions and extent of such waiver signed by DOE and delivered to the other parties hereto. Any such waiver may be effected only in writing duly executed by DOE, and no other course of conduct shall constitute a waiver of any provision hereof. Unless such writing expressly provides to the contrary, any waiver so granted shall extend only to the specific event or occurrence so waived and not to any other similar event or occurrence that occurs subsequent to the date of such waiver.

(g) Upon the occurrence and during the continuation of any Default, in the event that the Borrower fails to procure or maintain (or cause to be procured and maintained) the Required Insurance, DOE may (but shall not be obligated to) procure the Required Insurance and pay the premiums in connection therewith and all amounts so paid by DOE shall become an additional Secured Obligation owed by the Borrower to DOE, and the Borrower shall forthwith pay any such amounts to DOE, together with interest on such amounts at the Late Charge Rate from the date so paid.

Section 10.03 Accelerated Advances. Upon the delivery of a notice of acceleration, the accelerated amount due and payable under the Note shall be the Prepayment Price (as defined in and determined pursuant to the Note) under the Note.

(b) The rights, powers or remedies provided for herein are cumulative and are not exclusive of any other rights, powers or remedies provided by law or in any other Transaction Document. The assertion or employment of any right, power or remedy hereunder, or otherwise, shall not prevent the concurrent assertion of any other right, power or remedy.

(c) Except as otherwise provided herein, neither this Agreement nor any provision hereof may be changed, waived, discharged or terminated unless such change, waiver, discharge or termination is in writing and executed by the Borrower and DOE.

(d) Any amendment ~~to or waiver~~, modification, consent, waiver or change to or in respect of any provision of this Agreement or any other Transaction Document ~~or any provision hereof or thereof~~ that constitutes a "modification" (as defined in Section 502(9) of FCRA) that increases the amount of the Credit Subsidy Cost (as calculated in accordance with FCRA and OMB ~~Circulars A-11 and A-129) shall be subject to~~Circular A-11, and as determined by OMB in its sole discretion), shall, at DOE's discretion, be conditioned upon the availability to DOE of funds appropriated by the U.S. Congress, or, to the extent permitted by Applicable Law, payment by the Borrower, to meet any such increase in the Credit Subsidy Cost.

Section 11.02 Right of Set-Off. In addition to any rights now or hereafter granted under Applicable Law or otherwise, and not by way of limitation of any such rights, upon the occurrence and during the continuance of an Event of Default, each Secured Party is hereby authorized at any time or from time to time, without presentment, demand, protest or other notice of any kind to the Borrower or to any other Person, any such notice being hereby expressly waived, to set-off and to appropriate and apply any and all deposits (general or special, time or demand, provisional or final) and any other Indebtedness at any time held or owing by such Secured Party (including by any branches and agencies of such Secured Party wherever located) to or for the credit or the account of the Borrower against and on account of the Secured Obligations and liabilities of the Borrower to such Secured Party under this Agreement or any other Financing Document. Each of DOE, FFB and each subsequent holder of the Note or any portion of the Note shall promptly notify the Borrower after any such set-off and application made by it; *provided* that the failure to give such notice shall not affect the validity of such set-off and application.

Section 11.03 Survival of Representations and Warranties. All representations and warranties made hereunder, in the other Financing Documents and in any document, certificate or statement delivered pursuant hereto or thereto or in connection herewith or therewith (including any Advance Request) shall survive the execution and delivery of this Agreement and the making of the Advances under the Funding Agreements.

Section 11.04 Notices. Except to the extent otherwise expressly provided herein or as required by Applicable Law, any communications, including any notices, between or among the parties to the Financing Documents shall be provided using the addresses listed in Schedule 11.04 (*Notices*), and shall be in writing and shall be considered as properly given: (a) if delivered in person; (b) if sent by overnight delivery service for domestic delivery or international courier for international delivery; (c) in the event overnight delivery service or international courier service is not readily available, if mailed by first class mail (or airmail for international delivery), postage prepaid, registered or certified with return receipt requested; or (d) if transmitted by electronic mail, to the electronic mail address set forth in Schedule 11.04 (*Notices*). Notice so given shall be effective upon delivery to the addressee, except that communication or notice so transmitted by direct written electronic means shall be deemed to have been validly and effectively given on the day (if a Business Day and, if not, on the following Business Day) on which it is validly transmitted if transmitted before 5:00 p.m. (District of Columbia time), recipient's time, and if transmitted after that time, on the next following Business Day. Any party has the right to change its address for notice under any of the Financing Documents to any other location by giving prior written notice to each of the other parties in the manner set forth hereinabove.

Section 11.05 Severability. In case any one or more of the provisions contained in any Financing Document should be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby, and the parties hereto shall engage the parties to the Financing Documents to enter into good faith negotiations to replace the invalid, illegal or unenforceable provision.

Section 11.06 Judgment Currency. The Borrower shall, to the fullest extent permitted under Applicable Law, indemnify DOE and FFB against any loss incurred by DOE or FFB, as the case may be, as a result of any judgment or order being given or made for any amount due to DOE or FFB hereunder or under any other Financing Document and such judgment or order being expressed and to be paid in a currency (the "**Judgment Currency**") other than Dollars (the "**Currency of Denomination**") and as a result of any variation between (a) the rate of exchange at which amounts in the Currency of Denomination are converted into Judgment Currency for the purpose of such judgment or order, and (b) the rate of exchange at which DOE or FFB would have been able to purchase the Currency of Denomination with the amount of the Judgment Currency actually received by DOE or FFB, as the case may be, had DOE or FFB, as the case may be, utilized the amount of Judgment Currency so received to purchase the Currency of Denomination as promptly as practicable upon receipt thereof. The foregoing indemnity shall continue in full force and effect notwithstanding any such judgment or order as aforesaid. The term "rate of exchange" shall include any premiums and costs of exchange payable in connection with the purchase of, or conversion into, the relevant Currency of Denomination that are documented and reasonable in light of market conditions at the time of such conversion.

Section 11.07 Indemnification.

(a) In addition to any and all rights of reimbursement, indemnification, subrogation or any other rights pursuant to this Agreement or under law or in equity, the Borrower shall pay, and shall protect, indemnify and hold harmless DOE, FFB, each other governmental agency and instrumentality of the United States, each other holder of the Note or any portion thereof, each Secured Party, and each of their respective officers, directors, employees, representatives, attorneys, advisers and agents (each, an "**Indemnified Party**") from and against (and shall reimburse each Indemnified Party as the same are incurred) any and all liabilities, obligations, losses, damages, penalties, claims, actions, judgments, suits, costs, expenses and disbursements incurred by any of them (without duplication of Section 4.01(c) (*Reimbursement and Other Payment Obligations*)) (each, an "**Indemnified Liability**"), to which such Indemnified Party may become subject arising out of or relating to any or all of the following: (i) the execution or delivery of this Agreement, any Transaction Document or any agreement or instrument contemplated hereby or thereby, the performance by the parties hereto or thereto of their respective obligations hereunder or thereunder or the consummation of the transactions contemplated hereby or thereby, (iii) the enforcement or preservation of any rights under this Agreement, any Transaction Document or any agreement or instrument prepared in connection herewith or therewith, (iii) any Loan or the use or proposed use of the proceeds thereof, (iv) any actual or alleged presence or Release of a Hazardous Substance, on, under or originating from any property owned, occupied or operated by any Borrower Entity or any of its Affiliates in connection with the Project, or any environmental liability related in any way to any Borrower Entity or any of its Affiliates or their respective owned, occupied, or operated properties arising out of or relating to the Project, or (v) any actual or prospective claim, litigation, investigation or proceeding relating to any of the foregoing, whether based on contract, tort or any other theory, whether brought by any third party or by any Borrower Entity or any of its Affiliates or otherwise, and regardless of whether any Indemnified Party is a party thereto, such items (i) through (v) including, to the extent permitted by Applicable Law, the fees of counsel and third-party consultants selected by such Indemnified Party incurred in connection with any investigation, litigation or other proceeding or in connection with enforcing the provisions of this Section 11.07 (*Indemnification*); *provided* that the Borrower shall not have any obligation under this Section 11.07 (*Indemnification*) to any Indemnified Party with respect to Indemnified Liabilities to the extent they arise from the gross negligence or willful misconduct of such Indemnified Party (as determined pursuant to a final, Non-Appealable judgment by a court of competent jurisdiction). Any claims under this Section 11.07 (*Indemnification*) in respect of any Indemnified Liabilities are referred to herein, collectively, as "**Indemnity Claims**". This Section 11.07 (*Indemnification*) shall not apply with respect to Taxes other than any Taxes that represent losses, claims or damages arising from any non-Tax claim.

(b) All sums paid and costs incurred by any Indemnified Party with respect to any matter indemnified hereunder shall (i) be added to the Secured Obligations and (ii) be secured by the Security Documents. Each Indemnified Party shall use commercially reasonable efforts to promptly notify the Borrower in a timely manner of any such amounts payable by the Borrower hereunder; *provided* that any failure to provide such notice shall not affect the Borrower's obligations under this Section 11.07 (*Indemnification*).

(c) Each Indemnified Party within ten (10) Business Days after the receipt by it of notice of the commencement of any action for which indemnity may be sought by it, or by any Person controlling it, from the Borrower on account of the agreements contained in this Section 11.07 (*Indemnification*), shall notify the Borrower in writing of the commencement thereof, but the failure of such Indemnified Party to so notify the Borrower of any such action shall not release the Borrower from any liability that it may have to such Indemnified Party.

(d) To the extent that the undertaking in the preceding clauses of this Section 11.07 (*Indemnification*) may be unenforceable because it is violative of any law or public policy, and to provide for just and equitable contribution in the event of any such unenforceability (other than due to application of this Section 11.07 (*Indemnification*)), the Borrower shall contribute the maximum portion that it is permitted to pay and satisfy under Applicable Law to the payment and satisfaction of such undertakings.

(e) The provisions of this Section 11.07 (*Indemnification*) shall survive the Release Date, the foreclosure under the Security Documents and satisfaction or discharge of the Secured Obligations and shall be in addition to any other rights and remedies of any Indemnified Party.

(f) Any amounts payable by the Borrower pursuant to this Section 11.07 (*Indemnification*) shall be payable within the later to occur of (i) ten (10) Business Days after the Borrower receives an invoice for such amounts from any applicable Indemnified Party, and (ii) five (5) Business Days prior to the date on which such Indemnified Party expects to pay such costs on account of which the Borrower's indemnity hereunder is payable, and if not paid by such applicable date shall bear interest at the Late Charge Rate from and after such applicable date until paid in full.

(g) The Borrower shall be entitled, at its expense, to participate in the defense of any Indemnity Claim; *provided* that such Indemnified Party shall have the right to retain its own counsel, at the Borrower's expense, and such participation by the Borrower in the defense thereof shall not release the Borrower of any liability that it may have to the applicable Indemnified Party. Any Indemnified Party against whom any Indemnity Claim is made shall be entitled to compromise or settle any such Indemnity Claim; *provided* that the Borrower shall not be liable for any such compromise or settlement effected without its prior written consent unless, in the case of an Indemnified Party that is a branch or agency of the United States federal government only, (i) such Indemnified Party is required by law (other than any regulation issued by DOE or FFB, unless DOE or FFB, as the case may be, is required pursuant to Applicable Law to issue regulations requiring it to compromise or settle such Indemnity Claim) to compromise or settle such Indemnity Claim, and (ii) such Indemnified Party shall have provided a legal opinion to the Borrower from outside counsel reasonably acceptable to the Borrower that such Indemnified Party is required by law to compromise or settle such Indemnity Claim.

(h) Upon payment of any Indemnity Claim by the Borrower pursuant to this Section 11.07 (*Indemnification*), the Borrower, without any further action, shall be subrogated to any and all claims that the applicable Indemnified Party may have relating thereto, and such Indemnified Party shall at the request and expense of the Borrower cooperate with the Borrower and give at the request and expense of the Borrower such further assurances as are necessary or advisable to enable the Borrower vigorously to pursue such claims.

(i) No Indemnified Party shall be obliged to pursue first any recovery under any other indemnity or reimbursement obligation before seeking recovery under the indemnification and reimbursement obligations of the Borrower under this Agreement.

Section 11.08 Limitation on Liability.

(a) No claim shall be made by any Borrower Entity or any of its Affiliates against any Secured Party, Secured Party Advisor or any of their Affiliates, directors, employees, attorneys or agents, including the Secured Party Advisors, for any special, indirect, consequential or punitive damages (whether or not the claim therefor is based on contract, tort or duty imposed by law), in connection with, arising out of or in any way related to the transactions contemplated by this Agreement or the other Financing Documents or any act or omission or event occurring in connection therewith; and the Borrower hereby waives, releases and agrees~~, and shall cause the Subsidiary Guarantor~~ to waive, release and agree, not to sue upon any such claim for any such damages, whether or not accrued and whether or not known or suspected to exist in its favor.

(b) Notwithstanding anything to the contrary, Borrower recognizes and agrees that the client relationship exists solely between DOE and each Secured Party Advisor. There shall be no inference of confidentiality, warranty, fiduciary, or other client relationship between Borrower and any Secured Party Advisor as a result of this Agreement, and the Borrower specifically disavows any such relationship with any Secured Party Advisor and any associated obligation, duty or care or liability owed by any Secured Party Advisor to the Borrower. The Borrower further acknowledges and agrees that each Secured Party Advisor, its Affiliates and subcontractors, and their respective personnel shall not be liable to the Borrower for any claims, liabilities, or expenses relating to or in connection with this Agreement ("**Claims**") whatsoever. For clarity, in no event shall any Secured Party Advisor, its Affiliates or subcontractors, or their respective personnel be liable to the Borrower for any loss of use, data, goodwill, revenues or profits (whether or not deemed to constitute a direct Claim), or any consequential, special, indirect, incidental, punitive, or exemplary loss, damage, or expense, relating to or in connection with this Agreement.

Section 11.09 Successors and Assigns.

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties to this Agreement and their respective successors and permitted assigns.

(b) The Borrower may not assign or otherwise transfer (whether by operation of law or otherwise) any of its rights or obligations under this Agreement or under any other Financing Document without the prior written consent of DOE and, in the case of any Funding Agreement, FFB.

(c) Solely for purposes of compliance with Sections 163(f), 871(h)(2)(B)(i) and 881(c)(2) of the Code, the Borrower shall maintain a register for the recordation of the names and addresses of each Person that acquires an interest in the Loan in accordance with the provisions of the FFB Documents and the principal amounts (and stated interest) of the Advances owing to each such Person pursuant to the terms of this Agreement from time to time (the "**Register**"). The

Register shall be available for inspection by any Secured Party, at any reasonable time and from time to time upon reasonable prior notice.

Section 11.10 FFB Right to Sell Loan. If FFB has (a) fully funded the Loan, or (b) partially funded the Loan and the Availability Period has expired, in each case, FFB shall have the right to sell all or any portion of the Note, or any participation share thereof, without the prior written consent of the Borrower in accordance with the Funding Documents. Upon any such sale, any reimbursement obligations of the Loan by DOE shall automatically terminate and be of no further force and effect. For any such sale prior to the end of the Availability Period until FFB has funded the Loan, the Borrower, DOE and FFB shall enter in agreements satisfactory to them in respect of FFB's right to sell the Note and delegate its obligations under the Note Purchase Agreement.

Section 11.11 Further Assurances and Corrective Instruments.

(a) The Borrower shall execute and deliver, or cause to be executed and delivered, to DOE such additional documents or other instruments and shall take or cause to be taken such additional actions as DOE may require or reasonably request in writing to: (i) cause the Financing Documents to be properly executed, binding and enforceable in all relevant jurisdictions; (ii) perfect and maintain the priority of the Secured Parties' security interest in all Collateral; (iii) enable the Secured Parties to preserve, protect, exercise and enforce all other rights, remedies or interests granted or purported to be granted under the Financing Documents; and (iv) otherwise carry out the purposes of the Transaction Documents.

(b) The Borrower may submit to DOE written requests for the parties to enter into, execute, acknowledge and deliver amendments or supplements hereto; it being understood that DOE shall be permitted to approve or reject all such requests in its discretion.

Section 11.12 Reinstatement. Where any discharge is made in whole or in part, or any arrangement is made on the faith of, any payment, security or other disposition which is avoided or must be repaid, whether upon the insolvency or bankruptcy of the Borrower, this Agreement shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Borrower's obligations hereunder, or any part thereof, is, pursuant to Applicable Laws, rescinded or reduced in amount, or must otherwise be restored or returned by any Secured Party. In the event that any payment or any part thereof is so rescinded, reduced, restored or returned, such obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

Section 11.13 Governing Law; Waiver of Jury Trial.

(a) THIS AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE FEDERAL LAW OF THE UNITED STATES. TO THE EXTENT THAT FEDERAL LAW DOES NOT SPECIFY THE APPROPRIATE RULE OF DECISION FOR A PARTICULAR MATTER AT ISSUE, IT IS THE INTENTION AND AGREEMENT OF THE PARTIES TO THIS AGREEMENT THAT THE LAW OF THE STATE OF NEW YORK (WITHOUT GIVING EFFECT TO ITS CONFLICT OF LAWS PRINCIPLES

(EXCEPT SECTION 5-1401 OF THE NEW YORK GENERAL OBLIGATIONS LAW)) SHALL BE ADOPTED AS THE GOVERNING FEDERAL RULE OF DECISION.

(b) EACH OF THE PARTIES TO THIS AGREEMENT HEREBY KNOWINGLY, VOLUNTARILY, INTENTIONALLY AND IRREVOCABLY WAIVES ANY RIGHTS IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY DISPUTE BASED HEREON, OR ARISING OUT OF, UNDER, OR IN CONNECTION WITH, THIS AGREEMENT, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN), OR ACTIONS OF THE BORROWER. THIS PROVISION IS A MATERIAL INDUCEMENT FOR EACH PARTY TO ENTER INTO THIS AGREEMENT AND THE OTHER FINANCING DOCUMENTS.

Section 11.14 Submission to Jurisdiction; Etc. By execution and delivery of this Agreement, the Borrower irrevocably and unconditionally:

(a) submits for itself and its property in any legal action or proceeding against it arising out of or in connection with this Agreement or any other Financing Document, or for recognition and enforcement of any judgment in respect thereof, to the non-exclusive general jurisdiction of (i) the courts of the United States for the District of Columbia; (ii) the courts of the United States in and for the Southern District of New York in New York County; (iii) any other federal court of competent jurisdiction in any other jurisdiction where it or any of its property may be found; (iv) the state courts of the District of Columbia and New York County; and (v) appellate courts from any of the foregoing;

(b) consents that any such action or proceeding may be brought in or removed to such courts, and waives any objection, or right to stay or dismiss any action or proceeding, that it may now or hereafter have to the venue of any such action or proceeding in any such court or that such action or proceeding was brought in an inconvenient court and agrees not to plead or claim the same;

(c) agrees to irrevocably designate and appoint an agent satisfactory to DOE for service of process in New York under this Agreement and any other Financing Document governed by the laws of the State of New York, with respect to any action or proceeding in New York, as its authorized agent to receive, accept and confirm receipt of, on its behalf, service of process in any such proceeding. The Borrower agrees that service of process, writ, judgment or other notice of legal process upon said agent shall be deemed and held in every respect to be effective personal service upon it. The Borrower shall maintain such appointment (or that of a successor satisfactory to DOE) continuously in effect at all times while the Borrower is obligated under this Agreement;

(d) agrees that nothing herein shall (i) affect the right of any Secured Party to effect service of process in any other manner permitted by law, or (ii) limit the right of any Secured Party to commence proceedings against or otherwise sue the Borrower or any other Person in any other court of competent jurisdiction nor shall the commencement of proceedings in any one or more jurisdictions preclude the commencement of proceedings in any other jurisdiction (whether concurrently or not) if, and to the extent, permitted by the Applicable Laws; and

(e) agrees that judgment against it in any such action or proceeding shall be conclusive and may be enforced in any other jurisdiction within or outside the U.S. by suit on the judgment or otherwise as provided by law, a certified or exemplified copy of which judgment shall be conclusive evidence of the fact and amount of the Borrower's obligation.

Section 11.15 Entire Agreement. This Agreement, including any agreement, document or instrument attached to this Agreement or referred to herein, integrates all the terms and conditions mentioned herein or incidental to this Agreement and supersedes all prior oral negotiations, agreements and understandings of the parties to this Agreement in respect to the subject matter of this Agreement made prior to the date hereof.

Section 11.16 Benefits of Agreement. Nothing in this Agreement or any other Financing Document, express or implied, shall give to any Person, other than the parties hereto and thereto and their successors and permitted assigns hereunder or thereunder, any benefit or any legal or equitable right or remedy under this Agreement. FFB is an intended third party beneficiary of, with enforceable rights and remedies under this Agreement, in respect of those provisions in Article III (*Payments; Prepayments*), Article V (*Conditions Precedent*), and Article XI (*Miscellaneous*) that refer to rights of or payments to FFB; *provided* that in the event of any conflict between any provision of this Agreement and the Note or the Note Purchase Agreement, as between FFB and the Borrower, the terms of the Note and the Note Purchase Agreement shall govern.

Section 11.17 Headings. Paragraph headings have been inserted in the Financing Documents as a matter of convenience for reference only and it is agreed that such paragraph headings are not a part of the Financing Documents and shall not be used in the interpretation of any provision of the Financing Documents.

Section 11.18 Counterparts; Electronic Signatures.

(a) This Agreement may be executed in one or more duplicate counterparts and when executed by all of the parties shall constitute a single binding agreement.

(b) Except to the extent applicable law would prohibit the same, make the same unenforceable or affirmatively requires a manually executed counterpart signature, (i) the delivery of an executed counterpart of a signature page of this Agreement by emailed .pdf or any other electronic means approved by DOE in writing (which may be via email) that reproduces an image of the actual executed signature page shall be as effective as the delivery of a manually executed counterpart of this Agreement, and (ii) if agreed by DOE in writing (which may be via email) with respect to this Agreement, the delivery of an executed counterpart of a signature page of this Agreement by electronic means that types in the signatory to a document as a "conformed signature" from an email address approved by DOE in writing (which may be via email) shall be as effective as the delivery of a manually executed counterpart of this Agreement. In furtherance of the foregoing, the words "execution", "signed", "signature", "delivery" and words of like import in or relating to any document to be signed in connection with this Agreement and the transactions contemplated hereby or thereby shall be deemed to include Electronic Signatures, deliveries or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable

law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act. As used herein, "**Electronic Signature**" has the meaning assigned to it by 15 U.S.C. §7006, as it may be amended from time to time.

Section 11.19 No Partnership; Etc. The Secured Parties and the Borrower intend that the relationship between them shall be solely that of creditor and debtor. Nothing contained in this Agreement or in any other Financing Document shall be deemed or construed to create a partnership, tenancy-in-common, joint tenancy, joint venture or co-ownership by, between or among the Secured Parties and the Borrower or any other Person. The Secured Parties shall not be in any way responsible or liable for the indebtedness, losses, obligations or duties of the Borrower or any other Person with respect to the Project or otherwise. All obligations to pay Real Property expenses, Project Mining Claims expenses ~~and KVP Mining Claims expenses~~ or other taxes, assessments, insurance premiums, and all other fees and expenses in connection with or arising from the ownership, operation or occupancy of the Project or any other assets and to perform all obligations under the agreements and contracts relating to the Project or any other assets shall be the sole responsibility of the Borrower.

Section 11.20 Independence of Covenants. All covenants hereunder and under the other Financing Documents shall be given independent effect so that if a particular action or condition is not permitted by any of such covenants, the fact that it would be permitted by an exception to, or would otherwise be within the limitations of, another covenant shall not avoid the occurrence of a Default or an Event of Default if such action is taken or condition exists.

Section 11.21 Marshaling. Neither DOE nor FFB nor any other Secured Party shall be under any obligation to marshal any assets in favor of the Borrower or any other Person or against or in payment of any or all of the Secured Obligations.

Section 3.07 Contribution.

(a) To the extent that ~~a~~the Guarantor shall make a payment under this Article III (*Affiliate Guarantees*) of all or any of the applicable Guaranteed Obligations (an "**Affiliate Payment**") which, taking into account all other Affiliate Payments then previously or concurrently made by any other Borrower Entity, exceeds the amount which ~~such~~the Guarantor would otherwise have paid if each Borrower Entity had paid the aggregate applicable Guaranteed Obligations satisfied by such Affiliate Payment in the same proportion that ~~such~~the Guarantor's Allocable Amount (as defined below) (as determined immediately prior to such Affiliate Payment) bore to the aggregate Allocable Amounts of each of the Borrower Entities as determined immediately prior to the making of such Affiliate Payment, then, following the payment in full of the applicable Guaranteed Obligations (other than inchoate or contingent or reimbursable obligations for which no claim has been asserted), ~~such~~the Guarantor shall be entitled to receive contribution and indemnification payment from, and be reimbursed by, each other Borrower Entity for the amount of such excess, *pro rata* based upon their respective Allocable Amounts in effect immediately prior to such Affiliate Payment.

(c) This Section 3.07 (*Contribution*) is intended only to define the relative rights of the Borrower Entities and nothing set forth in this Section 3.07 (*Contribution*) is intended to or shall impair the obligations of the Borrower Entities, jointly and severally, to pay any amounts as and when the same shall become due and payable in accordance with the terms of the Financing Documents. Nothing contained in this Section 3.07 (*Contribution*) shall limit the liability of the Borrower to pay the Advances and accrued interest, fees and expenses with respect thereto.

(i) the sum payable hereunder shall be increased as may be necessary so that after making all such required withholdings or deductions of Covered Withholding (including withholdings or deductions of Covered Withholding applicable to additional sums payable under this Section 3.08 (*Taxes; Applicable Law*), the recipient receives an amount equal to the sum it would have received had no such withholdings or deductions of Covered Withholding been made except for:

(A) any net income or gain Taxes or similar Taxes;

(B) any Taxes that would not have been imposed but for the failure of the recipient to provide a properly completed IRS Form W-9 to establish its status as a United States Person (or, in the case of any Secured Party that is not a United States Person, a properly completed applicable Form W-8 or other certificate, form or documentation establishing exemption from such Taxes); or

further action by ~~such~~the Guarantor, any Secure Party or any other Person, be automatically limited and reduced to the highest amount (after giving effect to the right of contribution established in Section 3.07 (*Contribution*) for which ~~such~~the Guarantor can be liable without rendering this guarantee subject to avoidance or subordination under the Debtor Relief Laws or any comparable provisions of any Applicable Law.

(b) The rights, powers or remedies provided for herein are cumulative and are not exclusive of any other rights, powers or remedies provided by law or in any other Transaction Document. The assertion or employment of any right, power or remedy hereunder, or otherwise, shall not prevent the concurrent assertion of any other right, power or remedy.

(d) Any amendment to or waiver of this Agreement or any other Transaction Document or any provision hereof or thereof that constitutes a "modification" (as defined in Section 502(9) of FCRA) that increases the amount of the Credit Subsidy Cost (as calculated in accordance with FCRA and OMB Circulars A-11 and A-129) shall be subject to the availability to DOE of funds appropriated by the U.S. Congress to meet any such increase in the Credit Subsidy Cost.

In addition to any rights now or hereafter granted under Applicable Law or otherwise, and not by way of limitation of any such rights, upon the occurrence and during the continuance of an Event of Default or any default by any Borrower Entity hereunder, each Secured Party is hereby authorized at any time or from time to time, without presentment, demand, protest or other notice of any kind to a Borrower Entity or to any other Person, any such notice being hereby expressly waived, to set-off and to appropriate and apply any and all deposits (general or special, time or demand, provisional or final) and any other Indebtedness at any time held or owing by such Secured Party (including by any branches and agencies of such Secured Party wherever located) to or for the credit or the account of each Borrower Entity against and on account of the Support Obligations and liabilities of any Borrower Entity to such Secured Party under this Agreement. Each of DOE, FFB and each subsequent holder of the Note or any portion of the Note shall promptly notify the Borrower after any such set-off and application made by it; *provided*, that the failure to give such notice shall not affect the validity of such set-off and application.

Section 10.03 Survival of Representations and Warranties. Section 10.04 Notices. Except to the extent otherwise expressly provided herein or as required by Applicable Law, any communications, including any notices, between or among the parties hereto shall be provided using the addresses listed in Schedule A (*Notices*), and shall be in writing and shall be considered as properly given:

(a) if delivered in person;

(b) if sent by overnight delivery service for domestic delivery or international courier for international delivery;

(c) in the event overnight delivery service or international courier service is not readily available, if mailed by first class mail (or airmail for international delivery), postage prepaid, registered or certified with return receipt requested; or

(d) if transmitted by electronic mail, to the applicable electronic mail address set forth in Schedule A (*Notices*).

(e) Notice so given shall be effective upon delivery to the addressee, except that communication or notice so transmitted by direct electronic means shall be deemed to have been validly and effectively given on the day (if a Business Day and, if not, on the following Business Day) on which it is validly transmitted if transmitted before 5:00 p.m. (District of Columbia time), recipient's time, and if transmitted after that time, on the next following Business Day. In case any one or more of the provisions contained in this Agreement should be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby, and the parties hereto shall engage the parties to the Financing Documents to enter in good faith negotiations to replace the invalid, illegal or unenforceable provision.

Section 10.06 Judgment Currency. Each Borrower Entity shall, to the fullest extent permitted under Applicable Law, indemnify DOE and FFB against any loss incurred by DOE or FFB, as the case may be, as a result of any judgment or order being given or made for any amount due to DOE or FFB hereunder and such judgment or order being expressed and to be paid in a Judgment Currency other than the Currency of Denomination and as a result of any variation between:

(a) the rate of exchange at which amounts in the Currency of Denomination are converted into Judgment Currency for the purpose of such judgment or order; and

(b) the rate of exchange at which DOE or FFB would have been able to purchase the Currency of Denomination with the amount of the Judgment Currency actually received by DOE or FFB, as the case may be, had DOE or FFB, as the case may be, utilized the amount of Judgment Currency so received to purchase the Currency of Denomination as promptly as practicable upon receipt thereof. The foregoing indemnity shall continue in full force and effect notwithstanding any such judgment or order as aforesaid. The term "**rate of exchange**" shall include any premiums and costs of exchange payable in connection with the purchase of, or conversion into, the relevant Currency of Denomination that are documented and reasonable in light of market conditions at the time of such conversion.

Section 10.07 Indemnification.

(a) In addition to any and all rights of reimbursement, indemnification, subrogation or any other rights pursuant to this Agreement or under law or in equity, each Sponsor Entity shall pay, and shall protect, indemnify and hold harmless each Indemnified Party from and against (and shall reimburse each Indemnified Party as the same are incurred) any and all Indemnified Liabilities to which such Indemnified Party may become subject arising out of or relating to any or all of the following:

(iii) any Loan or the use or proposed use of the proceeds thereof;

(iv) any actual or alleged presence or Release of a Hazardous Substance, on, under or originating from any property owned, occupied or operated by any Borrower Entity or any of its Affiliates in connection with the Project, or any environmental liability related in any way to any Borrower Entity or any of its Affiliates or any of their respective owned, occupied, or operated properties and arising out of or relating to the Project; or

(v) any actual or prospective claim, litigation, investigation or proceeding relating to any of the foregoing, whether based on contract, tort or any other theory, whether brought by any third party or by any Borrower Entity or any of its Affiliates or otherwise, and regardless of whether any Indemnified Party is a party thereto, such clauses (i) through (v) including, to the extent permitted by Applicable Law, the fees of counsel and third-party consultants selected by such Indemnified Party incurred in connection with any investigation, litigation or other proceeding or in connection with

enforcing the provisions of this Section 10.07 (*Indemnification*); *provided*, that no Borrower Entity shall have any obligation under this Section 10.07 (*Indemnification*) to any Indemnified Party with respect to Indemnified Liabilities to the extent they arise from the gross negligence or willful misconduct of such Indemnified Party (as determined pursuant to a final, Non-Appealable judgment by a court of competent jurisdiction). Any claims under this Section 10.07 (*Indemnification*) in respect of any Indemnified Liabilities are referred to herein, collectively, as "**Indemnity Claims**". This Section 10.07 (*Indemnification*) shall not apply with respect to Taxes other than any Taxes that represent losses, claims or damages arising from any non-Tax claim.

(b) All sums paid and costs incurred by any Indemnified Party with respect to any matter indemnified hereunder shall:

(i) be added to the Secured Obligations; and

(ii) be secured by the Security Documents.

Each Indemnified Party shall use commercially reasonable efforts to promptly notify the applicable Sponsor Entity in a timely manner of any such amounts payable by such Sponsor Entity hereunder; *provided*, that any failure to provide such notice shall not affect such Sponsor Entity's obligations under this Section 10.07 (*Indemnification*).

(c) Each Indemnified Party within ten (10) Business Days after the receipt by it of notice of the commencement of any action for which indemnity may be sought by it, or by any Person controlling it, from the Borrower Entities on account of the agreements contained in this Section 10.07 (*Indemnification*), shall notify the Borrower Entities in writing of the commencement thereof, but the failure of such Indemnified Party to so notify the Borrower Entities of any such action shall not release the Borrower Entities from any liability that it may have to such Indemnified Party.

(d) To the extent that the undertaking in the preceding clauses of this Section 10.07 (*Indemnification*) may be unenforceable because it is violative of any law or public policy, and to provide for just and equitable contribution in the event of any such unenforceability (other than due to application of this Section 10.07 (*Indemnification*)), the Borrower Entities shall contribute the maximum portion that they are permitted to pay and satisfy under Applicable Law to the payment and satisfaction of such undertakings.

(e) The provisions of this Section 10.07 (*Indemnification*) shall survive the Release Date, the foreclosure under the Security Documents and satisfaction or discharge of the Secured Obligations and shall be in addition to any other rights and remedies of any Indemnified Party.

(f) Any amounts payable by the Borrower Entities pursuant to this Section 10.07 (*Indemnification*) shall be payable within the later to occur of (i) ten (10) Business Days after any Borrower Entity receives an invoice for such amounts from any applicable Indemnified Party, and (ii) five (5) Business Days prior to the date on which such Indemnified Party expects to pay such costs on account of which the Borrower Entities' indemnity hereunder is payable, and if not paid by such applicable date shall bear interest at the Late Charge Rate from and after such applicable date until paid in full.

(g) Each Borrower Entity shall be entitled, at its expense, to participate in the defense of any Indemnity Claim; *provided*, that each Indemnified Party shall have the right to retain its own counsel, at the Borrower Entities' expense, and such participation by the Borrower Entities in the defense thereof shall not release any Borrower Entity of any liability that it may have to the applicable Indemnified Party. Any Indemnified Party against whom any Indemnity Claim is made shall be entitled to compromise or settle any such Indemnity Claim; *provided*, that a Borrower Entity shall not be liable for any such compromise or settlement effected without its prior written consent unless, in the case of an Indemnified Party that is a branch or agency of the United States federal government only, (i) such Indemnified Party is required by law (other than any regulation issued by DOE or FFB, unless DOE or FFB, as the case may be, is required pursuant to Applicable Law to issue regulations requiring it to compromise or settle such Indemnity Claim) to compromise or settle such Indemnity Claim and (ii) such Indemnified Party shall have provided a legal opinion to such Borrower Entity from outside counsel reasonably acceptable to such Borrower Entity that such Indemnified Party is required by law to compromise or settle such Indemnity Claim.

(h) Upon payment of any Indemnity Claim by the Borrower Entities pursuant to this Section 10.07 (*Indemnification*), the Borrower Entities, without any further action, shall be subrogated to any and all claims that the applicable Indemnified Party may have relating thereto, and such Indemnified Party shall at the reasonable request and expense of the Borrower Entities cooperate with the Borrower Entities and give at the reasonable request and expense of the Borrower Entities such further assurances as are reasonably necessary or advisable to enable the Borrower Entities vigorously to pursue such claims.

(i) Notwithstanding any other provision of this Section 10.07 (*Indemnification*), the Borrower Entities shall not be entitled to:

(i) notice;

(ii) participation in the defense of;

(iii) consent rights with respect to any compromise or settlement; or

(iv) subrogation rights, in each case, except as otherwise provided for pursuant to this Section 10.07 (*Indemnification*) with respect to any action, suit or proceeding against any Borrower Entity.

(j) No Indemnified Party shall be obliged to pursue first any recovery under any other indemnity or reimbursement obligation before seeking recovery under the indemnification and reimbursement obligations of the Borrower Entities under this Agreement.

Section 10.08 Limitation on Liability.

(a) No claim shall be made by any Borrower Entity or any of its Affiliates against any Secured Party or any of their Affiliates, directors, employees, attorneys or agents, including the Secured Party Advisors, for any special, indirect, consequential or punitive damages (whether or not the claim therefor is based on contract, tort or duty imposed by law), in connection with, arising out of or in any way related to the transactions contemplated by this Agreement or the other Financing Documents or any act or omission or event occurring in connection therewith; and each Borrower Entity hereby waives, releases and agrees not to sue upon any such claim for any such damages, whether or not accrued and whether or not known or suspected to exist in its favor.

(b) Subject to clause (b)(ii) below, each Secured Party that is a party hereto acknowledges and agrees that the obligations of the Borrower Entities under this Agreement and the other Financing Documents, including with respect to the payment of the principal of or premium or penalty, if any, or interest on any Secured Obligations, or any part thereof, or for any claim based thereon or otherwise in respect thereof or related thereto, are obligations solely of the Borrower Entities (as applicable) and shall be satisfied solely from the security and assets of the Borrower Entities and shall not constitute a debt or obligation of Affiliates of the Sponsor (other than the other Borrower Entities), nor of any past, present or future shareholders, partners, members, directors, officers, employees, agents, attorneys or representatives of the Sponsor and its Affiliates (collectively (but excluding the Sponsor Entities), the "**Non-Recourse Parties**").

(i) Each Secured Party that is a party hereto acknowledges and agrees that the Non-Recourse Parties shall not be liable for any amount payable under this Agreement or any other Financing Document, and no Secured Party shall seek a money judgment or deficiency or personal judgment against any Non-Recourse Party for payment or performance of any obligation of the Borrower Entities under this Agreement or the other Financing Documents.

(ii) The acknowledgments, agreements and waivers set out in this Section 10.08(b) (*Limitation on Liability*) shall be enforceable by any Non-Recourse Party and are a material inducement for the execution of this Agreement and the other Financing Documents by the Borrower Entities.

The limitations on liability set forth in this Section 10.08 (*Limitation on Liability*) shall survive the termination of this Agreement.

Section 10.09 Successors and Assigns.

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties to this Agreement and their respective successors and permitted assigns.

(b) No Borrower Entity may assign or otherwise transfer (whether by operation of law or otherwise) any of its rights or obligations under this Agreement or under any other Financing Document without the prior written consent of DOE and/or FFB, as the case may be.

(c) Each Borrower Entity acknowledges and agrees that FFB may assign: (i) any or all of its rights, benefits and obligations under the Financing Documents; and (ii) any or all of its rights and interest in, to and under the Collateral, in each case, in accordance with the provisions of the Funding Agreements as set forth in Section 11.09(c) (*Successors and Assigns*) of the LARA.

Section 10.10 Further Assurances and Corrective Instruments.

(a) Each Borrower Entity shall execute and deliver, or cause to be executed and delivered, to DOE such additional documents or other instruments and shall take or cause to be taken such additional actions as DOE may require or reasonably request in writing to:

(i) cause this Agreement to be properly executed, binding and enforceable in all relevant jurisdictions;

(ii) perfect and maintain the priority of the Secured Parties' security interest in all Collateral;

(iii) enable the Secured Parties to preserve, protect, exercise and enforce all other rights, remedies or interests granted or purported to be granted under this Agreement; and

(iv) otherwise carry out the purposes of this Agreement..

(b) Each Borrower Entity may submit to DOE written requests for the parties to enter into, execute, acknowledge and deliver amendments or supplements hereto; it being understood that DOE shall be permitted to approve or reject all such requests in its sole discretion.

Section 10.11 Reinstatement. Where any discharge is made in whole or in part, or any arrangement is made on the faith of, any payment, security or other disposition which is avoided or must be repaid, whether upon insolvency or bankruptcy of any Borrower Entity, this Agreement shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Support Obligations hereunder, or any part thereof, is, pursuant to Applicable Laws, rescinded or reduced in amount, or must otherwise be restored or returned by any Secured Party. In the event that any payment or any part thereof is so rescinded, reduced, restored or returned, such obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

Section 10.12 Governing Law; Waiver of Jury Trial.

(a) THIS AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE FEDERAL LAW OF THE UNITED STATES. TO THE EXTENT THAT FEDERAL LAW DOES NOT SPECIFY THE APPROPRIATE RULE OF DECISION FOR A PARTICULAR MATTER AT ISSUE, IT IS THE INTENTION AND AGREEMENT OF THE PARTIES TO THIS AGREEMENT THAT THE LAW OF THE STATE OF NEW YORK (WITHOUT GIVING EFFECT TO ITS CONFLICT OF LAWS PRINCIPLES (EXCEPT SECTION 5-1401 OF THE NEW YORK GENERAL OBLIGATIONS LAW)) SHALL BE ADOPTED AS THE GOVERNING FEDERAL RULE OF DECISION.

(b) EACH OF THE PARTIES TO THIS AGREEMENT HEREBY KNOWINGLY, VOLUNTARILY, INTENTIONALLY AND IRREVOCABLY WAIVES ANY RIGHTS IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY DISPUTE BASED HEREON, OR ARISING OUT OF, UNDER, OR IN CONNECTION WITH, THIS AGREEMENT, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN), OR ACTIONS OF ANY BORROWER ENTITY. THIS PROVISION IS A MATERIAL INDUCEMENT FOR EACH PARTY TO ENTER INTO THIS AGREEMENT AND THE OTHER FINANCING DOCUMENTS.

Section 10.13 Submission to Jurisdiction; Etc. By execution and delivery of this Agreement, each Borrower Entity irrevocably and unconditionally:

(a) submits for itself and its property in any legal action or proceeding against it arising out of or in connection with this Agreement, or for recognition and enforcement of any judgment in respect thereof, to the non-exclusive general jurisdiction of:

(i) the courts of the United States for the District of Columbia;

(ii) the courts of the United States in and for the Southern District of New York in New York County;

(iii) any other federal court of competent jurisdiction in any other jurisdiction where it or any of its property may be found;

(iv) the state courts of the District of Columbia and New York County; and

(v) appellate courts from any of the foregoing;

(b) consents that any such action or proceeding may be brought in or removed to such courts, and waives any objection, or right to stay or dismiss any action or proceeding, that it may now or hereafter have to the venue of any such action or proceeding in any such court or that such action or proceeding was brought in an inconvenient court and agrees not to plead or claim the same;

(c) agrees to irrevocably designate and appoint an agent satisfactory to DOE for service of process in New York under this Agreement and any other Financing Document governed by the laws of the State of New York, with respect to any action or proceeding in New York, as its authorized agent to receive, accept and confirm receipt of, on its behalf, service of process in any such proceeding. Each Borrower Entity agrees that service of process, writ, judgment or other notice of legal process upon said agent shall be deemed and held in every respect to be effective personal service upon it. Each Borrower Entity shall maintain such appointment (or that of a successor satisfactory to DOE) continuously in effect at all times while such Person is obligated under this Agreement;

(d) agrees that nothing herein shall:

(i) affect the right of any Secured Party to effect service of process in any other manner permitted by law; or

(ii) limit the right of any Secured Party to commence proceedings against or otherwise sue any Borrower Entity or any other Person in any other court of competent jurisdiction, nor shall the commencement of proceedings in any one or more jurisdictions preclude the commencement of proceedings in any other jurisdiction (whether concurrently or not) if, and to the extent, permitted by the Applicable Laws; and

(e) agrees that judgment against it in any such action or proceeding shall be conclusive and may be enforced in any other jurisdiction within or outside the U.S. by suit on the judgment or otherwise as provided by law, a certified or exemplified copy of which judgment shall be conclusive evidence of the fact and amount of the Support Obligations.

Section 10.14 Entire Agreement. This Agreement, including any agreement, document or instrument attached to this Agreement or referred to herein, integrates all the terms and conditions mentioned herein or incidental to this Agreement and supersedes all prior oral negotiations, agreements and understandings of the parties to this Agreement in respect of the subject matter of this Agreement made prior to the date hereof.

Section 10.15 Benefits of Agreement. Nothing in this Agreement, express or implied, shall give to any Person, other than the parties hereto and their successors and permitted assigns hereunder, any benefit or any legal or equitable right or remedy under this Agreement. FFB is an intended third party beneficiary of, with enforceable rights and remedies under, this Agreement, in respect of those provisions herein that refer to rights of or payments to FFB; *provided*, that in the event of any conflict between any provision of this Agreement and the Note or the Note Purchase Agreement, as between FFB and any Borrower Entity, the terms of the Note and the Note Purchase Agreement shall govern.

Section 10.16 Headings. Paragraph headings have been inserted in the Financing Documents as a matter of convenience for reference only and it is agreed that such paragraph headings are not a part of the Financing Documents and shall not be used in the interpretation of any provision of the Financing Documents.

Section 10.17 Counterparts; Electronic Signatures.

(a) This Agreement may be executed in one or more duplicate counterparts and when executed by all of the parties shall constitute a single binding agreement.

(b) Except to the extent Applicable Law would prohibit the same, make the same unenforceable or affirmatively requires a manually executed counterpart signature:

(i) the delivery of an executed counterpart of a signature page of this Agreement by emailed .pdf or any other electronic means approved by DOE in writing (which may be via email) that reproduces an image of the actual executed signature page shall be as effective as the delivery of a manually executed counterpart of this Agreement; and

(ii) if agreed by DOE in writing (which may be via email) with respect to this Agreement, the delivery of an executed counterpart of a signature page of this Agreement by electronic means that types in the signatory to a document as a "conformed signature" from an email address approved by DOE in writing (which may be via email) shall be as effective as the delivery of a manually executed counterpart of this Agreement. In furtherance of the foregoing, the words "execution", "signed", "signature", "delivery" and words of like import in or relating to any document to be signed in connection with this Agreement and the transactions contemplated hereby or thereby shall be deemed to include Electronic Signatures, deliveries or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any Applicable Law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act.

Section 10.18 No Partnership; Etc. The parties hereto intend that the relationship between them shall be solely that of creditor and debtor. Nothing contained in this Agreement shall be deemed or construed to create a partnership, tenancy-in-common, joint tenancy, joint venture or co-ownership by, between or among the Secured Parties, any Borrower Entity or any other Person. The Secured Parties shall not be in any way responsible or liable for the indebtedness, losses, obligations or duties of any Borrower Entity or any other Person with respect to the Project or otherwise. All obligations to pay Real Property expenses or other taxes, assessments, insurance premiums, and all other fees and expenses in connection with or arising from the ownership, operation or occupancy of the Project or any other assets and to perform all obligations under the agreements and contracts relating to the Project or any other assets shall be the sole responsibility of the Borrower Entities.

Section 10.19 Independence of Covenants. All covenants hereunder and under this Agreement shall be given independent effect so that if a particular action or condition is not permitted by any of such covenants, the fact that it would be permitted by an exception to, or would otherwise be within the limitations of, another covenant shall not avoid the occurrence of a Default or an Event of Default if such action is taken or condition exists.

Section 10.20 Marshaling. Neither DOE nor FFB nor any other Secured Party shall be under any obligation to marshal any assets in favor of any Borrower Entity or any other Person or against or in payment of any or all of the Guaranteed Obligations.

Section 10.21 Concerning the Collateral Agent. The Collateral Agent, in executing and acting under this Agreement, shall be entitled to all of the rights, privileges, protections, indemnities and immunities accorded to the Collateral Agent under the Accounts Agreement, as if the same were fully and specifically set forth herein, *mutatis mutandis*.

Section 10.22

[*Remainder of Page Intentionally Left Blank*]

A. DOE has been authorized to arrange for FFB to make loans to manufacturers of advanced technology vehicles and components pursuant to the ATVM Program, as set forth in the ATVM Statute.

B. The Borrower has undertaken the ownership, permitting, development, design, engineering, procurement, construction, construction management, startup and commissioning, testing, installation, repair, management, maintenance and operation of (a) a lithium mine located on public lands administered by the U.S. Bureau of Land Management in Humboldt County, Nevada known as "Thacker Pass" (the "**Mine**"); (b) a co-located facility for processing of lithium with a nameplate design capacity of 40,000 tonnes per annum of battery-grade lithium carbonate (the "**Processing Facility**"); and (c) other associated infrastructure (including a transloading terminal to be located in Winnemucca, Nevada, which will receive by rail and transload to trucks certain raw materials for the Project, power transmission lines, other utility facilities, and easements and rights-of way related to the foregoing) (the "**Related Infrastructure**" and, together with the Mine and the Processing Facility, the "**Project**").

C. As of the date of this Agreement, the Sponsor directly owns one hundred percent (100%) of the Equity Interests of the Direct Parent, the Direct Parent directly owns one hundred percent (100%) of the Equity Interests of the Borrower and the Borrower directly owns one hundred percent (100%) of the Equity Interests in the Subsidiary Guarantor.

D. To finance the construction of the Processing Facility, on or about the date hereof, the Borrower and DOE entered into the Loan Arrangement and Reimbursement Agreement (the "**LARA**") pursuant to which DOE agreed to arrange for FFB to purchase a certain Note from the Borrower and to make Advances from time to time thereunder, in each case, upon the terms and subject to the conditions of and the LARA and other Financing Documents.

E. In consideration for DOE entering into the LARA: (a) each Borrower Entity has agreed to comply with the obligations and covenants set forth herein; and (b) the Sponsor has agreed to: (i) make each Equity Contribution as and when required pursuant to the terms hereof; and (ii) unconditionally and irrevocably guarantee certain obligations of the Borrower Entities related to completion of the Project and the payment of Secured Obligations.

F. The undertaking of this Agreement by the Borrower Entities will provide substantial benefit, directly or indirectly, to the Sponsor, and the other Borrower Entities, and it is necessary or convenient to the conduct, promotion, or attainment of the business of the Sponsor and the other Borrower Entities.

G. It is a condition precedent to the execution of the LARA and making of each Advance from time to time that the Borrower Entities shall have executed and delivered this Agreement and that it otherwise remains in full force and effect.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties hereto agree as follows:

ARTICLE III

AFFILIATE GUARANTEES

Section 3.01 Affiliate Guarantees.

(a) The Sponsor hereby absolutely, unconditionally and irrevocably guarantees, as primary obligor and not as surety, to the Secured Parties:

(i) the Project Completion Guaranteed Obligations (such guarantee, the "**Project Completion Guarantee**"); and

(ii) the Sponsor Guaranteed Debt Obligations (such guarantee, the "**Sponsor Debt Guarantee**"); and

(b) The Subsidiary Guarantor hereby absolutely, unconditionally and irrevocably guarantees, as primary obligor and not as surety, to the Secured Parties, the Subsidiary Guaranteed Debt Obligations (such guarantee, the "**Subsidiary Debt Guarantee**").

Section 3.02 Nature of Guaranty. The obligations of each Guarantor under its respective Affiliate Guarantees shall constitute a guaranty of payment and performance, as applicable, when due and not of collection. Each Guarantor specifically agrees that it shall not be necessary or required that the Secured Parties exercise any right, assert any claim or enforce any remedy whatsoever against the Borrower or any other Borrower Entity, either before or as a condition to the obligations of such Guarantor hereunder;

provided, that each Guarantor shall have the benefit of and the right to assert any defenses against the claims of the Secured Parties which are available to the Borrower or any other Borrower Entity, as applicable, and which would have also been available to such Guarantor, if such Guarantor had been in the same contractual position as the Borrower or any other Borrower Entity, as applicable, other than:

(a) defenses arising from the insolvency, reorganization or bankruptcy of such Guarantor or any Borrower Entity;

(b) defenses expressly waived herein;

(c) defenses arising by reason of:

(i) a Borrower Entity's direct or indirect ownership interests, as applicable, in the Borrower; or

(ii) Applicable Laws that prevent the payment by any Borrower Entity of obligations that constitute Guaranteed Obligations; and

(d) defenses previously asserted by any Borrower Entity against such claims to the extent such defenses have been finally resolved in favor of any Secured Party by a court order, arbitral tribunal or settlement that is, in each case, no longer subject to appeal.

Section 3.03 Unconditional Obligations.

(a) The Guaranteed Obligations shall conclusively be deemed to have been created, contracted or incurred, or renewed, extended, amended or waived, in reliance upon the guaranty by each Guarantor and this Article III (*Affiliate Guarantees*).

(b) The obligations of each Guarantor under this Article III (*Affiliate Guarantees*) are independent of any other obligations of such Guarantor and any other Borrower Entity under the Financing Documents, and an action may be brought and prosecuted against such Guarantor to enforce the applicable Guaranteed Obligations hereunder, irrespective of whether any action is brought against any other Borrower Entity or whether any other Borrower Entity is joined in any such action or actions. The liability of each Guarantor with respect to its Guaranteed Obligations hereunder shall be irrevocable, absolute and unconditional irrespective of, and each Guarantor hereby irrevocably waives, any circumstance which constitutes a legal or equitable discharge of a guarantor or surety other than satisfaction in full of such Guaranteed Obligations. In furtherance of the foregoing and without limiting the generality thereof, each Guarantor agrees to waive defenses it may now or hereafter have in any way relating to any or all of the following:

(i) any lack of validity or enforceability of the applicable Guaranteed Obligations, any Financing Document or any agreement or instrument relating thereto;

(ii) any taking, exchange, release or non-perfection of any collateral, or any taking, release or amendment or waiver of or consent to departure from any other guaranty, any Financing Document or any of the applicable Guaranteed Obligations, without notice or demand;

(iii) any manner of application of collateral, or proceeds thereof, to all or any of the applicable Guaranteed Obligations, or any manner of sale or other disposition of any collateral for all or any of the applicable Guaranteed Obligations;

(iv) any change or corporate restructuring of such Guarantor, any other Borrower Entity or any of their respective Subsidiaries;

(v) any change in the time, manner or place of payment of, or in any other term of, all or any of the applicable Guaranteed Obligations or any amendment, release, discharge, substitution or waiver of any Financing Document or any of the applicable Guaranteed Obligations;

(vi) the acceptance of any other guaranties or security for any of the applicable Guaranteed Obligations;

(vii) the payment by any other Person of a portion, but not all, of the applicable Guaranteed Obligations;

(viii) any duty on the part of any Secured Party to disclose any matter, fact or thing relating to the business, operations or financial or other condition of any Borrower Entity or Sponsor now known or hereafter known by such Person;

(ix) any disability or other defense of any Borrower Entity or such Guarantor, any other co-obligor, guarantor, insurer or any other Person; and

(x) any action or failure to act in any manner referred to herein which may deprive such Guarantor of its rights to subrogation against any other Borrower Entity to recover full indemnity for any payments or performances made pursuant hereto or of its right to contribution against any other Person.

(c) Each Guarantor further irrevocably waives, and agrees not to assert in any suit, action or other legal proceeding relating hereto, to the fullest extent permitted by Applicable Law:

(i) all defenses and allegations based on or arising out of any contradiction or incompatibility among the applicable Guaranteed Obligations and any other obligation of such Guarantor or any other Borrower Entity;

(ii) unless and until the applicable Guaranteed Obligations have been performed, paid, satisfied or discharged in full in accordance with the terms hereof, any right to enforce any remedy which any Secured Party now has or may in the future have against the Borrower or any other Borrower Entity, any other co-obligor, guarantor or insurer or any other Person;

(iii) any benefit of, or any right to participate in, any other guarantee or insurance whatsoever now or in the future held by any Secured Party; and

(iv) the benefit of any statute of limitations affecting such Guarantor's liability hereunder. Each Guarantor further agrees that any payment of any applicable Guaranteed Obligation or other act which shall toll any statute of limitations applicable to such Guaranteed Obligations shall also operate to toll such statute of limitations applicable to such Guarantor's liability hereunder.

(d) The obligations of each Guarantor shall continue to be effective or be reinstated, as the case may be, if at any time any payment of any of the applicable Guaranteed Obligations is rescinded or must otherwise be returned by the Secured Parties or any other Person upon the insolvency, bankruptcy or reorganization of any Borrower Entity or otherwise, all as though such payment had not been made and, in such event, such Guarantor will promptly pay to the Secured Parties or such other Person an amount equal to any such payment that has been rescinded or returned. The provisions of this Section 3.03(d) (*Unconditional Obligations*) will survive any release or termination of such Guarantor's obligations under this Article III (*Affiliate Guarantees*). If and to the extent that a Guarantor makes any payment to the Secured Parties or to any other Person pursuant to or in respect of this Article III (*Affiliate Guarantees*), any claim which such Guarantor may have against the Borrower by reason thereof shall be subject and subordinate to the prior payment in full, in cash, of the applicable Guaranteed Obligations that require the payment of money.

Section 3.04 Subrogation. Notwithstanding anything herein to the contrary, and in addition to any other rights of the Secured Parties to which a Guarantor or any of its designees may be subrogated, to the extent such Guarantor shall make or cause to be made any payment pursuant hereto, such Guarantor shall be subrogated to all rights the Secured Parties may have under the Financing Documents in respect thereof; provided, that such Guarantor shall be entitled to enforce such right of subrogation only after all of the applicable Guaranteed Obligations shall have been fully and finally satisfied. Any amount paid on account of the subrogation rights herein that is contrary to the provisions hereof shall forthwith be paid to the Collateral Agent to be credited and applied to the payment of the applicable Guaranteed Obligations in accordance with the terms of the Financing Documents.

Section 3.05 Waiver; Demand of Payment. Each Guarantor hereby unconditionally waives:

(a) promptness, presentment, demand of payment, protest for nonpayment or dishonor, diligence, notice of acceptance and any other notice with respect to any of the applicable Guaranteed Obligations by the Secured Parties;

(b) any requirement that the Secured Parties or any other Person protect, secure, perfect or insure any security interest or Lien on any property subject thereto; and

(c) any requirement that the Secured Parties bring or prosecute a separate action, or proceed or make another demand, or enforce or exhaust any right or remedy or mitigate any damages or take any action against the Borrower or any other Person or entity or any collateral.

Section 3.06 Waiver of Defenses. Subject to and without limiting the foregoing, the covenants and agreements of each Guarantor set forth herein shall be primary obligations of such Guarantor, and such obligations shall be absolute and unconditional, and shall not be subject to any counterclaim, set-off, deduction, diminution, abatement, recoupment, suspension, deferment, reduction or defense, other than:

(a) full and strict compliance by such Guarantor with its obligations hereunder; and

(b) satisfaction in full of the applicable Guaranteed Obligations,

based upon any claim such Guarantor, any Borrower Entity or any other Person may have against any other Borrower Entity, any Secured Party or any other Person, and shall remain in full force and effect without regard to, and shall not be released, discharged or in any way affected by, any

circumstance or condition whatsoever (whether or not such Guarantor or any Secured Party shall have any knowledge or notice thereof), including, without limitation:

(i) any failure, forbearance, omission or delay on the part of any Borrower Entity or any Secured Party to conform or comply with any term of the Financing Documents or any other instrument or agreement, or any failure to give notice to such Guarantor of the occurrence of a Default or Event of Default under the LARA or any other Financing Document;

(ii) any voluntary or involuntary bankruptcy, insolvency, reorganization, arrangement, readjustment, assignment for the benefit of creditors, composition, receivership, conservatorship, custodianship, liquidation, marshalling of assets and liabilities or similar proceedings with respect to any Borrower Entity or any other Person or any of their respective properties or creditors, or any action taken by any trustee or receiver or by any court in any such proceeding;

(iii) any limitation on the liability or obligations of any Borrower Entity under the LARA, any other Financing Document or any other instrument or agreement or any discharge, termination, cancellation, frustration, irregularity, invalidity or unenforceability, in whole or in part, of this Agreement, any other Financing Document or any other instrument or agreement;

(iv) any merger, consolidation or amalgamation of any Borrower Entity into or with any other Person, or any sale, lease or transfer of any of the assets of any Borrower Entity to any other Person;

(v) any change in the ownership (including, without limitation, ownership of any Equity Interests) of any Borrower Entity or any change in the relationship between or among any Borrower Entities, or any termination of any such relationship;

(vi) to the extent permitted by Applicable Law, any release or discharge, by operation of law or otherwise, of any Borrower Entity from the performance or observance of any obligation, covenant or agreement contained in this Agreement, the LARA, any other Financing Document or any other instrument or agreement; or

(vii) any other occurrence, circumstance, happening or event whatsoever, whether similar or dissimilar to the foregoing, whether foreseen or unforeseen, and any other circumstance which might otherwise constitute a legal or equitable defense, or release or discharge of the liabilities of such Guarantor or which might otherwise limit recourse against such Guarantor.

Section 3.07 Contribution.

(a) To the extent that a Guarantor shall make a payment under this Article III (*Affiliate Guarantees*) of all or any of the applicable Guaranteed Obligations (an "**Affiliate Payment**") which, taking into account all other Affiliate Payments then previously or concurrently made by any other Borrower Entity, exceeds the amount which such Guarantor would otherwise have paid if each Borrower Entity had paid the aggregate applicable Guaranteed Obligations satisfied by such Affiliate Payment in the same proportion that such Guarantor's Allocable Amount (as defined below) (as determined immediately prior to such Affiliate Payment) bore to the aggregate Allocable Amounts of each of the Borrower Entities as determined immediately prior to the making of such

Affiliate Payment, then, following the payment in full of the applicable Guaranteed Obligations (other than inchoate or contingent or reimbursable obligations for which no claim has been asserted), such Guarantor shall be entitled to receive contribution and indemnification payment from, and be reimbursed by, each other Borrower Entity for the amount of such excess, pro rata based upon their respective Allocable Amounts in effect immediately prior to such Affiliate Payment.

(b) As of any date of determination, the "**Allocable Amount**" of any Borrower Entity shall be equal to the maximum amount of the claim which could then be recovered from such Borrower Entity under this Article III (*Affiliate Guarantees*) without rendering such claim voidable or avoidable under Section 548 of Chapter 11 of the Bankruptcy Code or under any applicable state Uniform Fraudulent Transfer Act, Uniform Fraudulent Conveyance Act or similar statute or common law in any applicable jurisdiction.

(c) This Section 3.07 (*Contribution*) is intended only to define the relative rights of the Borrower Entities and nothing set forth in this Section 3.07 (*Contribution*) is intended to or shall impair the obligations of the Borrower Entities, jointly and severally, to pay any amounts as and when the same shall become due and payable in accordance with the terms of the Financing Documents. Nothing contained in this Section 3.07 (*Contribution*) shall limit the liability of the Borrower to pay the Advances and accrued interest, fees and expenses with respect thereto.

Section 3.08 Taxes; Applicable Law.

(a) Any and all payments by a Guarantor under the applicable Affiliate Guarantees shall be made free and clear of, and without withholding or deducting for, any and all Taxes and all liabilities with respect thereto, except to the extent required by Applicable Law. If a Guarantor shall be required by Applicable Law to withhold or deduct any Taxes from or in respect of any sum payable hereunder:

(i) the sum payable shall be increased as may be necessary so that after making all such required withholdings or deductions (including withholdings or deductions applicable to additional sums payable under this Section 3.08 (*Taxes; Applicable Law*), the recipient receives an amount equal to the sum it would have received had no such withholdings or deductions been made except for:

(A) any net income or gain Taxes or similar Taxes;

(B) any Taxes that would not have been imposed but for the failure of the recipient to provide a properly completed IRS Form W-9 to establish its status as a United States Person (or, in the case of any Secured Party that is not a United States Person, a properly completed applicable Form W-8 or other certificate, form or documentation establishing exemption from such Taxes); or

(C) any Taxes imposed under the Foreign Account Tax Compliance Act;

(ii) such Guarantor shall make such withholdings or deductions; and

(iii) such Guarantor shall pay the full amount withheld or deducted to the relevant taxation authority or other authority on a timely basis and in accordance with all Applicable Laws.

(b) If the obligations of a Guarantor under this Article III (*Affiliate Guarantees*) would otherwise be subject to avoidance or subordination under Debtor Relief Laws or any comparable provisions of any Applicable Law on account of the amount of its liability under Section 3.07 (*Contribution*) or this Section 3.08 (*Taxes; Applicable Law*) (including amounts owed under this Agreement and the other Financing Documents) then, notwithstanding any other provision to the contrary, the amount of such liability of such Guarantor shall, without any further action by such Guarantor, any Secured Party or any other Person, be automatically limited and reduced to the highest amount (after giving effect to the right of contribution established in Section 3.07 (*Contribution*) for which such Guarantor can be liable without rendering this guarantee subject to avoidance or subordination under the Debtor Relief Laws or any comparable provisions of any Applicable Law.

ARTICLE IV

RETENTION OF EQUITY INTERESTS

Section 4.01 Prohibition on Transfers of Equity Interests.

(a)

(i) The Sponsor shall not (A) prior to the Sponsor Cut-Off Date, except in connection with the Direct Investment Capital Raise, fail to own, directly or indirectly, one

hundred percent (100%) of the Equity Interests (by vote and by value) of the Borrower, the Direct Parent or the Subsidiary Guarantor; and (B) after the Sponsor Cut-Off Date or the Direct Investment Capital Raise, whichever is earlier, fail to own, directly or indirectly, more than fifty percent (50%) of the Equity Interests (by vote and by value) of the Borrower, the Direct Parent or the Subsidiary Guarantor.

(ii) The Direct Parent shall at all times directly own one hundred percent (100%) of the Equity Interests (by vote and by value) of the Borrower.

(iii) The Borrower shall at all times directly own one hundred percent (100%) of the Equity Interests (by vote and by value) of the Subsidiary Guarantor.

(b) The Sponsor shall not:

(i) make or suffer or permit to occur any Transfer of any Equity Interests owned, directly or indirectly, by the Sponsor in the Borrower, the Direct Parent or the Subsidiary Guarantor, unless such Transfer is made to a Qualified Transferee and is otherwise permitted by the Financing Documents; or

(ii) suffer or permit the Direct Parent to Transfer any of its Equity Interests to any Person.

(c) The Direct Parent shall not:

Section 4.02 Effect of Prohibited Transfers.

(a) Each Sponsor Entity agrees that any proposed Transfer and/or change in ownership and/or Control that would, if consummated, breach the provisions of this Article IV (*Retention of Equity Interests*) and/or constitute a Change of Control shall, in either case, cause irreparable injury to the interests of the Secured Parties for which monetary damages (or

other remedies at law) are inadequate in view of the complexities and uncertainties in measuring the actual damages that would be sustained by reason of such party's noncompliance and the uniqueness of the Borrower's business and the relationship among the parties hereto. Accordingly, the parties hereto agree that DOE may enforce the provisions of this Article IV (*Retention of Equity Interests*), including by specific performance or injunctive relief.

(b) Each Sponsor Entity hereby irrevocably waives, to the extent that it may do so under Applicable Law, any defense based on the adequacy of a remedy at law or in equity that may be asserted as a bar to the remedy of specific performance in any action brought against it for specific performance of the obligation of any Sponsor Entity to retain its Equity Interests in the Borrower, the Subsidiary Guarantor or the Direct Parent, as applicable, under this Agreement by DOE, any other Secured Party, the Direct Parent, the Borrower or the Subsidiary Guarantor or for any of their benefit by a receiver, custodian or trustee appointed for the Borrower, the Direct Parent or the Subsidiary Guarantor, as applicable, or in respect of all or a substantial part of the assets of the Borrower, the Direct Parent or the Subsidiary Guarantor, as applicable, under the bankruptcy, insolvency or similar laws of any jurisdiction to which the Borrower, the Direct Parent or the Subsidiary Guarantor, as applicable, or its respective assets are subject.

Section 4.03 Issuance of Equity Interests. Notwithstanding anything to the contrary in this Agreement, the Sponsor may, from time to time, directly or indirectly through the Direct Parent, issue Equity Interests in the Borrower to the Direct Parent in accordance with, and as permitted by, the Borrower's Organizational Documents and the Financing Documents in connection with any Equity Contribution made by the Sponsor in accordance with Section 2.03 (Method of Contribution).

Section 4.04 Notification of Transfer Restrictions. The restrictions imposed under this Article IV (Retention of Equity Interests) shall be recorded in the stock ledger of the Direct Parent, the Borrower and the Subsidiary Guarantor, as applicable, and noted on the Equity Interest certificates, as applicable, issued by the Borrower to the Direct Parent, by the Direct Parent to the Sponsor, and by the Subsidiary Guarantor to the Borrower and, without limiting the foregoing:

(a) the Direct Parent, the Borrower and the Subsidiary Guarantor shall cause the registration in the stock ledger of the Direct Parent, the Borrower and the Subsidiary Guarantor of the Equity Interests in the Sponsor's name or the name of each other Borrower Entity that owns any Equity Interests in it, as applicable; and

(b) if applicable, each Equity Interest certificate issued by the Direct Parent, the Borrower or the Subsidiary Guarantor, or any certificate issued in exchange or replacement therefor, is to bear a legend reasonably determined by the Collateral Agent to evidence the transfer restrictions imposed under this Article IV (*Retention of Equity Interests*) and such other terms and conditions of this Agreement that DOE deems advisable.

ARTICLE V

RESTRICTED PAYMENTS

Section 5.01 Restricted Payments.

(a) Each Sponsor Entity shall cause the Borrower and the Subsidiary Guarantor not to make any Restricted Payment, except as permitted under the Financing Documents.

(b) If any Sponsor Entity receives a Restricted Payment from the Borrower or the Subsidiary Guarantor to which it is not entitled because such Restricted Payment was not made in accordance with clause (a) above, then such Sponsor Entity shall hold such Restricted Payment (or an amount equal thereto) as depository for the benefit of the Secured Parties and deliver the same to DOE (or otherwise as DOE may direct) upon written demand therefor by DOE or the Collateral Agent acting at the instruction of DOE.

(c) If any Sponsor Entity obtains knowledge that any of its Affiliates has received a Restricted Payment from the Borrower or the Subsidiary Guarantor to which such Person is not entitled, then such Sponsor Entity shall, from the date it obtains such knowledge, cause such Affiliate to hold such Restricted Payment (or an amount equal thereto) as depository for the benefit of the Secured Parties and deliver the same to DOE (or otherwise as DOE may direct) upon written demand therefor by DOE or the Collateral Agent acting at the instruction of DOE.

(b) Interest on any Permitted Subordinated Loan shall not exceed the lesser of:

(c) Without limiting the generality of the foregoing, each Sponsor Entity shall file, and authorizes the Secured Parties to file, as applicable, such financing or continuation statements, or amendments thereto, and shall execute and deliver such other instruments, endorsements or notices, as may be necessary or as the Collateral Agent may reasonably request from time to time, in order to perfect, ensure priority and preserve the assignments and security interests granted or purported to be granted hereby.

For greater certainty, the security interest in the Sponsor Entity Security granted pursuant to Section 9.16 (*Assignment and Grant of Security Interest by the Sponsor Entities*) (A) does not extend to consumer goods and (B) does not extend or apply to the last day of the term of any lease or sublease of real property or any agreement for a lease or sublease of real property.

(b) Each Sponsor Entity irrevocably waives, to the extent permitted by applicable law, any right to receive a copy of any financing statement or financing change statement (and any verification statement relating to the same) registered in British Columbia in respect of this Agreement or any other security agreement granted to the Collateral Agent.

(c) Whenever the security interest granted with respect to the Sponsor Entity Security is enforceable, the Collateral Agent (acting at the instruction of the Secured Parties) may realize upon such Sponsor Entity Security and enforce any or all of its rights, remedies or proceedings authorized, permitted or not otherwise prohibited under the Canadian PPSA or otherwise by law or equity. The Collateral Agent is entitled to all of the rights, priorities and benefits afforded by the Canadian PP SA or other relevant personal property security legislation as enacted in any relevant jursidiction to perfect security interests in respect of such Sponsor Entity Security.

ARTICLE X

MISCELLANEOUS

Section 10.01 Waiver and Amendment.

(a) No failure or delay by DOE or the other Secured Parties in exercising any right, power or remedy shall operate as a waiver thereof or otherwise impair any rights, powers or remedies of the Secured Parties. No single or partial exercise of any such right, power or remedy shall preclude any other or further exercise thereof or the exercise of any other legal right, power or remedy.

(b) The rights, powers or remedies provided for herein are cumulative and are not exclusive of any other rights, powers or remedies provided by law or in any other Transaction Document. The assertion or employment of any right, power or remedy hereunder, or otherwise, shall not prevent the concurrent assertion of any other right, power or remedy.

(c) Except as otherwise provided herein, neither this Agreement nor any provision hereof may be changed, waived, discharged or terminated unless such change, waiver, discharge or termination is in writing and executed by each Borrower Entity and DOE.

(d) Any amendment to or waiver of this Agreement or any other Transaction Document or any provision hereof or thereof that constitutes a "modification" (as defined in Section 502(9) of FCRA) that increases the amount of the Credit Subsidy Cost (as calculated in accordance with FCRA and OMB Circulars A-11 and A-129) shall be subject to the availability to DOE of funds appropriated by the U.S. Congress to meet any such increase in the Credit Subsidy Cost.

Section 10.02 Right of Set-Off. In addition to any rights now or hereafter granted under Applicable Law or otherwise, and not by way of limitation of any such rights, upon the occurrence and during the continuance of an Event of Default or any default by any Borrower Entity hereunder, each Secured Party is hereby authorized at any time or from time to time, without presentment, demand, protest or other notice of any kind to a Borrower Entity or to any other Person, any such notice being hereby expressly waived, to set-off and to appropriate and apply any and all deposits (general or special, time or demand, provisional or final) and any other Indebtedness at any time held or owing by such Secured Party (including by any branches and agencies of such Secured Party wherever located) to or for the credit or the account of each Borrower Entity against and on account of the Support Obligations and liabilities of any

Borrower Entity to such Secured Party under this Agreement. Each of DOE, FFB and each subsequent holder of the Note or any portion of the Note shall promptly notify the Borrower after any such set-off and application made by it; provided, that the failure to give such notice shall not affect the validity of such set¬off and application.

Section 10.03 Survival of Representations and Warranties. All representations and warranties made hereunder and in any document, certificate or statement delivered pursuant hereto or in connection herewith (including any Advance Request) shall survive the execution and delivery of this Agreement and the making of the Advances under the Funding Agreements.

Section 10.04 Notices. Except to the extent otherwise expressly provided herein or as required by Applicable Law, any communications, including any notices, between or among the parties hereto shall be provided using the addresses listed in Schedule A (Notices), and shall be in writing and shall be considered as properly given:

(a) if delivered in person;

(b) if sent by overnight delivery service for domestic delivery or international courier for international delivery;

(c) in the event overnight delivery service or international courier service is not readily available, if mailed by first class mail (or airmail for international delivery), postage prepaid, registered or certified with return receipt requested; or

(d) if transmitted by electronic mail, to the applicable electronic mail address set forth in Schedule A (*Notices*).

(e) Notice so given shall be effective upon delivery to the addressee, except that communication or notice so transmitted by direct electronic means shall be deemed to have been validly and effectively given on the day (if a Business Day and, if not, on the following Business Day) on which it is validly transmitted if transmitted before 5:00 p.m. (District of Columbia time), recipient's time, and if transmitted after that time, on the next following Business Day. Any party hereto has the right to change its address for notice under this Agreement to any other location by giving prior written notice to each of the other parties in the manner set forth hereinabove.

Section 10.05 Severability. In case any one or more of the provisions contained in this Agreement should be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby, and the parties hereto shall engage the parties to the Financing Documents to enter in good faith negotiations to replace the invalid, illegal or unenforceable provision.

Section 10.06 Judgment Currency. Each Borrower Entity shall, to the fullest extent permitted under Applicable Law, indemnify DOE and FFB against any loss incurred by DOE or FFB, as the case may be, as a result of any judgment or order being given or made for any amount due to DOE or FFB hereunder and such judgment or order being expressed and to be paid in a Judgment Currency other than the Currency of Denomination and as a result of any variation between:

(a) the rate of exchange at which amounts in the Currency of Denomination are converted into Judgment Currency for the purpose of such judgment or order; and

(b) the rate of exchange at which DOE or FFB would have been able to purchase the Currency of Denomination with the amount of the Judgment Currency actually received by DOE or FFB, as the case may be, had DOE or FFB, as the case may be, utilized the amount of Judgment Currency so received to purchase the Currency of Denomination as promptly as practicable upon receipt thereof. The foregoing indemnity shall continue in full force and effect notwithstanding any such judgment or order as aforesaid. The term "rate of exchange" shall include any premiums and costs of exchange payable in connection with the purchase of, or conversion into, the relevant Currency of Denomination that are documented and reasonable in light of market conditions at the time of such conversion.

Section 10.07 Indemnification.

(a) In addition to any and all rights of reimbursement, indemnification, subrogation or any other rights pursuant to this Agreement or under law or in equity, each Sponsor Entity shall pay, and shall protect, indemnify and hold harmless each Indemnified Party from and against (and shall reimburse each Indemnified Party as the same are incurred) any and all Indemnified Liabilities to which such Indemnified Party may become subject arising out of or relating to any or all of the following:

(i) the execution or delivery of this Agreement, any Transaction Document or any agreement or instrument contemplated hereby or thereby, the performance by the parties hereto or thereto of their respective obligations hereunder or thereunder or the consummation of the transactions contemplated hereby or thereby;

(ii) the enforcement or preservation of any rights under this Agreement, any Transaction Document or any agreement or instrument prepared in connection herewith or therewith;

(iii) any Loan or the use or proposed use of the proceeds thereof;

(iv) any actual or alleged presence or Release of a Hazardous Substance, on, under or originating from any property owned, occupied or operated by any Borrower Entity or any of its Affiliates in connection with the Project, or any environmental liability related in any way to any Borrower Entity or any of its Affiliates or any of their respective owned, occupied, or operated properties and arising out of or relating to the Project; or

(v) any actual or prospective claim, litigation, investigation or proceeding relating to any of the foregoing, whether based on contract, tort or any other theory, whether brought by any third party or by any Borrower Entity or any of its Affiliates or otherwise, and regardless of whether any Indemnified Party is a party thereto, such clauses (j) through (v) including, to the extent permitted by Applicable Law, the fees of counsel and third-party consultants selected by such Indemnified Party incurred in connection with any investigation, litigation or other proceeding or in connection with enforcing the provisions of this Section 10.07 (*Indemnification*); *provided*, *that* no Borrower Entity shall have any obligation under this Section 10.07 (*Indemnification*) to any Indemnified Party with respect to Indemnified Liabilities to the extent they arise from the gross negligence or willful misconduct of such Indemnified Party (as determined pursuant to a final, Non-Appealable judgment by a court of competent jurisdiction). Any claims under this Section 10.07 (*Indemnification*) in respect of any Indemnified Liabilities are referred to

herein, collectively, as "**Indemnity Claims**". This Section 10.07 (*Indemnification*) shall not apply with respect to Taxes other than any Taxes that represent losses, claims or damages arising from any non-Tax claim.

(b) All sums paid and costs incurred by any Indemnified Party with respect to any matter indemnified hereunder shall:

(i) be added to the Secured Obligations; and

(ii) be secured by the Security Documents.

Each Indemnified Party shall use commercially reasonable efforts to promptly notify the applicable Sponsor Entity in a timely manner of any such amounts payable by such Sponsor Entity hereunder; *provided*, *that* any failure to provide such notice shall not affect such Sponsor Entity's obligations under this Section 10.07 (*Indemnification*).

(c) Each Indemnified Party within ten (10) Business Days after the receipt by it of notice of the commencement of any action for which indemnity may be sought by it, or by any Person controlling it, from the Borrower Entities on account of the agreements contained in this Section 10.07 (*Indemnification*), shall notify the Borrower Entities in writing of the commencement thereof, but the failure of such Indemnified Party to so notify the Borrower Entities of any such action shall not release the Borrower Entities from any liability that it may have to such Indemnified Party.

(d) To the extent that the undertaking in the preceding clauses of this Section 10.07 (*Indemnification*) may be unenforceable because it is violative of any law or public policy, and to provide for just and equitable contribution in the event of any such unenforceability (other than due to application of this Section 10.07 (*Indemnification*)), the Borrower Entities shall contribute the maximum portion that they are permitted to pay and satisfy under Applicable Law to the payment and satisfaction of such undertakings.

(e) The provisions of this Section 10.07 (*Indemnification*) shall survive the Release Date, the foreclosure under the Security Documents and satisfaction or discharge of the Secured Obligations and shall be in addition to any other rights and remedies of any Indemnified Party.

(f) Any amounts payable by the Borrower Entities pursuant to this Section 10.07 (*Indemnification*) shall be payable within the later to occur of (i) ten (10) Business Days after any Borrower Entity receives an invoice for such amounts from any applicable Indemnified Party, and (ii) five (5) Business Days prior to the date on which such Indemnified Party expects to pay such costs on account of which the Borrower Entities' indemnity hereunder is payable, and if not paid by such applicable date shall bear interest at the Late Charge Rate from and after such applicable date until paid in full.

(g) Each Borrower Entity shall be entitled, at its expense, to participate in the defense of any Indemnity Claim; *provided*, *that* each Indemnified Party shall have the right to retain its own counsel, at the Borrower Entities' expense, and such participation by the Borrower Entities in the defense thereof shall not release any Borrower Entity of any liability that it may have to the applicable Indemnified Party. Any Indemnified Party against whom any Indemnity Claim is made shall be entitled to compromise or settle any such Indemnity Claim; *provided*, *that* a Borrower Entity shall not be liable for any such compromise or

settlement effected without its prior written consent unless, in the case of an Indemnified Party that is a branch or agency of the United States federal government only, (i) such Indemnified Party is required by law (other than any regulation issued by DOE or FFB, unless DOE or FFB, as the case may be, is required pursuant to Applicable Law to issue regulations requiring it to compromise or settle such Indemnity Claim) to compromise or settle such Indemnity Claim and (ii) such Indemnified Party shall have provided a legal opinion to such Borrower Entity from outside counsel reasonably acceptable to such Borrower Entity that such Indemnified Party is required by law to compromise or settle such Indemnity Claim.

(h) Upon payment of any Indemnity Claim by the Borrower Entities pursuant to this Section 10.07 (*Indemnification*), the Borrower Entities, without any further action, shall be subrogated to any and all claims that the applicable Indemnified Party may have relating thereto, and such Indemnified Party shall at the reasonable request and expense of the Borrower Entities cooperate with the Borrower Entities and give at the reasonable request and expense of the Borrower Entities such further assurances as are reasonably necessary or advisable to enable the Borrower Entities vigorously to pursue such claims.

(i) Notwithstanding any other provision of this Section 10.07 (*Indemnification*), the Borrower Entities shall not be entitled to:

(i) notice;

(ii) participation in the defense of;

(iii) consent rights with respect to any compromise or settlement; or

(iv) subrogation rights, in each case, except as otherwise provided for pursuant to this Section 10.07 (*Indemnification*) with respect to any action, suit or proceeding against any Borrower Entity.

(j) No Indemnified Party shall be obliged to pursue first any recovery under any other indemnity or reimbursement obligation before seeking recovery under the indemnification and reimbursement obligations of the Borrower Entities under this Agreement.

Section 10.08 Limitation on Liability.

(a) No claim shall be made by any Borrower Entity or any of its Affiliates against any Secured Party or any of their Affiliates, directors, employees, attorneys or agents, including the Secured Party Advisors, for any special, indirect, consequential or punitive damages (whether or not the claim therefor is based on contract, tort or duty imposed by law), in connection with, arising out of or in any way related to the transactions contemplated by this Agreement or the other Financing Documents or any act or omission or event occurring in connection therewith; and each Borrower Entity hereby waives, releases and agrees not to sue upon any such claim for any such damages, whether or not accrued and whether or not known or suspected to exist in its favor.

(b) Subject to clause (b)(ii) below, each Secured Party that is a party hereto acknowledges and agrees that the obligations of the Borrower Entities under this Agreement and the other Financing Documents, including with respect to the payment of the principal of or premium or penalty, if any, or interest on any Secured Obligations, or any part thereof, or for any claim based thereon or otherwise in respect thereof or related thereto, are obligations solely of the Borrower Entities (as applicable) and shall be satisfied solely from the security and assets of the Borrower Entities and shall not constitute a debt or obligation of Affiliates of the Sponsor (other than the other Borrower Entities), nor of any past, present or future shareholders, partners, members, directors, officers, employees, agents, attorneys or representatives of the Sponsor and its Affiliates (collectively (but excluding the Sponsor Entities), the "**Non-Recourse Parties**").

(i) Each Secured Party that is a party hereto acknowledges and agrees that the Non-Recourse Parties shall not be liable for any amount payable under this Agreement or any other Financing Document, and no Secured Party shall seek a money judgment or deficiency or personal judgment against any Non-Recourse Party for payment or performance of any obligation of the Borrower Entities under this Agreement or the other Financing Documents.

(ii) The acknowledgments, agreements and waivers set out in this Section 10.08 (*Limitation on Liability*) shall be enforceable by any Non-Recourse Party and are a material inducement for the execution of this Agreement and the other Financing Documents by the Borrower Entities.

The limitations on liability set forth in this Section 10.08 (*Limitation on Liability*) shall survive the termination of this Agreement.

Section 10.09 Successors and Assigns.

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties to this Agreement and their respective successors and permitted assigns.

(b) No Borrower Entity may assign or otherwise transfer (whether by operation of law or otherwise) any of its rights or obligations under this Agreement or under any other Financing Document without the prior written consent of DOE and/or FFB, as the case may be.

(c) Each Borrower Entity acknowledges and agrees that FFB may assign: (i) any or all of its rights, benefits and obligations under the Financing Documents; and (ii) any or all of its rights and interest in, to and under the Collateral, in each case, in accordance with the provisions of the Funding Agreements as set forth in Section 11.09(c) (*Successors and Assigns*) of the LARA.

Section 10.10 Further Assurances and Corrective Instruments.

(a) Each Borrower Entity shall execute and deliver, or cause to be executed and delivered, to DOE such additional documents or other instruments and shall take or cause to be taken such additional actions as DOE may require or reasonably request in writing to:

(i) cause this Agreement to be properly executed, binding and enforceable in all relevant jurisdictions;

(ii) perfect and maintain the priority of the Secured Parties' security interest in all Collateral;

(iii) enable the Secured Parties to preserve, protect, exercise and enforce all other rights, remedies or interests granted or purported to be granted under this Agreement; and

(iv) otherwise carry out the purposes of this Agreement..

(b) Each Borrower Entity may submit to DOE written requests for the parties to enter into, execute, acknowledge and deliver amendments or supplements hereto; it being understood that DOE shall be permitted to approve or reject all such requests in its sole discretion.

Section 10.11 Reinstatement. Where any discharge is made in whole or in part, or any arrangement is made on the faith of, any payment, security or other disposition which is avoided or must be repaid, whether upon insolvency or bankruptcy of any Borrower Entity, this Agreement shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Support Obligations hereunder, or any part thereof, is, pursuant to Applicable Laws, rescinded or reduced in amount, or must otherwise be restored or returned by any Secured Party. In the event that any payment or any part thereof is so rescinded, reduced, restored or returned, such obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

Section 10.12 Governing Law; Waiver of Jury Trial.

(a) THIS AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE FEDERAL LAW OF THE UNITED STATES. TO THE EXTENT THAT FEDERAL LAW DOES NOT SPECIFY THE APPROPRIATE RULE OF DECISION FOR A PARTICULAR MATTER AT ISSUE, IT IS THE INTENTION AND AGREEMENT OF THE PARTIES TO THIS AGREEMENT THAT THE LAW OF THE STATE OF NEW YORK (WITHOUT GIVING EFFECT TO ITS CONFLICT OF LAWS PRINCIPLES (EXCEPT SECTION 5-1401 OF THE NEW YORK GENERAL OBLIGATIONS LAW)) SHALL BE ADOPTED AS THE GOVERNING FEDERAL RULE OF DECISION.

(b) EACH OF THE PARTIES TO THIS AGREEMENT HEREBY KNOWINGLY, VOLUNTARILY, INTENTIONALLY AND IRREVOCABLY WAIVES ANY RIGHTS IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY DISPUTE BASED HEREON, OR ARISING OUT OF, UNDER, OR IN CONNECTION WITH, THIS AGREEMENT, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN), OR ACTIONS OF ANY BORROWER ENTITY. THIS PROVISION IS A MATERIAL INDUCEMENT FOR EACH PARTY TO ENTER INTO THIS AGREEMENT AND THE OTHER FINANCING DOCUMENTS.

Section 10.13 Submission to Jurisdiction; Etc. By execution and delivery of this Agreement, each Borrower Entity irrevocably and unconditionally:

(a) submits for itself and its property in any legal action or proceeding against it arising out of or in connection with this Agreement, or for recognition and enforcement of any judgment in respect thereof, to the non-exclusive general jurisdiction of:

(i) the courts of the United States for the District of Columbia;

(ii) the courts of the United States in and for the Southern District of New York in New York County;

(iii) any other federal court of competent jurisdiction in any other jurisdiction where it or any of its property may be found;

(iv) the state courts of the District of Columbia and New York County; and

(v) appellate courts from any of the foregoing;

(b) consents that any such action or proceeding may be brought in or removed to such courts, and waives any objection, or right to stay or dismiss any action or proceeding, that it may now or hereafter have to the venue of any such action or proceeding in any such court or that such action or proceeding was brought in an inconvenient court and agrees not to plead or claim the same;

(c) agrees to irrevocably designate and appoint an agent satisfactory to DOE for service of process in New York under this Agreement and any other Financing Document governed by the laws of the State of New York, with respect to any action or proceeding in New York, as its authorized agent to receive, accept and confirm receipt of, on its behalf, service of process in any such proceeding. Each Borrower Entity agrees that service of process, writ, judgment or other notice of legal process upon said agent shall be deemed and held in every respect to be effective personal service upon it. Each Borrower Entity shall maintain such appointment (or that of a successor satisfactory to DOE) continuously in effect at all times while such Person is obligated under this Agreement;

(d) agrees that nothing herein shall:

(i) affect the right of any Secured Party to effect service of process in any other manner permitted by law; or

(ii) limit the right of any Secured Party to commence proceedings against or otherwise sue any Borrower Entity or any other Person in any other court of competent jurisdiction, nor shall the commencement of proceedings in any one or more jurisdictions preclude the commencement of proceedings in any other jurisdiction (whether concurrently or not) if, and to the extent, permitted by the Applicable Laws; and

(e) agrees that judgment against it in any such action or proceeding shall be conclusive and may be enforced in any other jurisdiction within or outside the U.S. by suit on the judgment or otherwise as provided by law, a certified or exemplified copy of which judgment shall be conclusive evidence of the fact and amount of the Support Obligations.

Section 10.14 Entire Agreement. This Agreement, including any agreement, document or instrument attached to this Agreement or referred to herein, integrates all the terms and conditions mentioned herein or incidental to this Agreement and supersedes all prior oral negotiations, agreements and understandings of the parties to this Agreement in respect of the subject matter of this Agreement made prior to the date hereof.

Section 10.15 Benefits of Agreement. Nothing in this Agreement, express or implied, shall give to any Person, other than the parties hereto and their successors and permitted assigns hereunder, any benefit or any legal or equitable right or remedy under this Agreement. FFB is an intended third party beneficiary of, with enforceable rights and remedies under, this Agreement, in respect of those provisions herein that refer to rights of or payments to FFB; provided, that in the event of any conflict between any provision of this Agreement and the Note or the Note Purchase Agreement, as between FFB and any Borrower Entity, the terms of the Note and the Note Purchase Agreement shall govern.

Section 10.16 Headings. Paragraph headings have been inserted in the Financing Documents as a matter of convenience for reference only and it is agreed that such paragraph headings are not a part of the Financing Documents and shall not be used in the interpretation of any provision of the Financing Documents.

Section 10.17 Counterparts; Electronic Signatures.

(a) This Agreement may be executed in one or more duplicate counterparts and when executed by all of the parties shall constitute a single binding agreement.

(b) Except to the extent Applicable Law would prohibit the same, make the same unenforceable or affirmatively requires a manually executed counterpart signature:

(i) the delivery of an executed counterpart of a signature page of this Agreement by emailed .pdf or any other electronic means approved by DOE in writing (which may be via email) that reproduces an image of the actual executed signature page shall be as effective as the delivery of a manually executed counterpart of this Agreement; and

(ii) if agreed by DOE in writing (which may be via email) with respect to this Agreement, the delivery of an executed counterpart of a signature page of this Agreement by electronic means that types in the signatory to a document as a "conformed signature" from an email address approved by DOE in writing (which may be via email) shall be as effective as the delivery of a manually executed counterpart of this Agreement. In furtherance of the foregoing, the words "execution", "signed", "signature", "delivery" and words of like import in or relating to any document to be signed in connection with this Agreement and the transactions contemplated hereby or thereby shall be deemed to include Electronic Signatures, deliveries or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any Applicable Law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act.

Section 10.18 No Partnership; Etc. The parties hereto intend that the relationship between them shall be solely that of creditor and debtor. Nothing contained in this Agreement shall be deemed or construed to create a partnership, tenancy-in-common, joint tenancy, joint venture or co-ownership by, between or among the Secured Parties, any Borrower Entity or any other Person. The Secured Parties shall not be in any way responsible or liable for the indebtedness, losses, obligations or duties of any Borrower Entity or any other Person with respect to the Project or otherwise. All obligations to pay Real Property expenses or other taxes, assessments, insurance premiums, and all other fees and expenses in connection with or arising from the ownership, operation or occupancy of the Project or any other assets and to perform all obligations under the agreements and contracts relating to the Project or any other assets shall be the sole responsibility of the Borrower Entities.

Section 10.19 Independence of Covenants. All covenants hereunder and under this Agreement shall be given independent effect so that if a particular action or condition is not permitted by any of such covenants, the fact that it would be permitted by an exception to, or would otherwise be within the limitations of, another covenant shall not avoid the occurrence of a Default or an Event of Default if such action is taken or condition exists.

Section 10.20 Marshaling. Neither DOE nor FFB nor any other Secured Party shall be under any obligation to marshal any assets in favor of any Borrower Entity or any other Person or against or in payment of any or all of the Guaranteed Obligations.

Section 10.21 Concerning the Collateral Agent. The Collateral Agent, in executing and acting under this Agreement, shall be entitled to all of the rights, privileges, protections, indemnities and immunities accorded to the Collateral Agent under the Accounts Agreement, as if the same were fully and specifically set forth herein, mutatis mutandis.

[Remainder of Page Intentionally Left Blank]

IN WITNESS WHEREOF, the Borrower Entities, the Collateral Agent and DOE have caused this Agreement to be duly executed and delivered by their officers thereunto duly authorized as of the date first above written.

Section 1.1 Definitions.

13.4.4 Replacement Notes. The Borrower agrees:

(a) to issue a replacement Note or Notes with the same aggregate principal amount, interest rate, maturity, and other terms as each respective Note or Notes sold, assigned, or transferred pursuant to section 13.4.1 of this Agreement; provided, however, that, when requested by the respective purchaser, assignee, or transferee, such replacement Note or Notes shall provide that payments thereunder shall be made in the manner specified by such purchaser, assignee, or transferee; and

(b) to effect the change in ownership on its records and on the face of each such replacement Note issued, upon receipt of each Note or Notes so sold, assigned, or transferred.

Section 13.5 Forbearance Not a Waiver.

Any forbearance on the part of FFB from enforcing any term or condition of this Agreement shall not be construed to be a waiver of such term or condition or acquiescence by FFB in any failure on the part of Borrower to comply with or satisfy such term or condition.

Section 13.6 Rights Confined to Parties.

Nothing expressed or implied herein is intended or shall be construed to confer upon, or to give to, any Person other than FFB, the Borrower, and the Secretary, and their respective successors and permitted assigns, any right, remedy or claim under or by reason of this Agreement or of any term, covenant or condition hereof, and all of the terms, covenants, conditions, promises, and agreements contained herein shall be for the sole and exclusive benefit of FFB, the Borrower, and the Secretary, and their respective successors and permitted assigns.

Section 13.7 Governing Law.

This Agreement and the rights and obligations of the parties hereunder shall be governed by, and construed and interpreted in accordance with, Federal law and not the law of any state or locality. To the extent that a court looks to the laws of any state to determine or define the Federal law, it is the intention of the parties hereto that such court shall look only to the laws of the State of New York without regard to the rules of conflicts of laws.

Section 13.8 Severability.

Any provision of this Agreement that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions hereof, and any such prohibition or unenforceability in any jurisdiction shall not of itself invalidate or render unenforceable such provision in any other jurisdiction.

Section 13.9 Headings.

The descriptive headings of the various articles, sections, and subsections of this Agreement were formulated and inserted for convenience only and shall not be deemed to affect the meaning or construction of the provisions hereof.

Section 13.10 Counterparts.

This Agreement may be executed in separate counterparts, each of which when so executed and delivered shall be an original, but all of which together shall constitute but one and the same instrument.

IN WITNESS WHEREOF, FFB, the Borrower, and the Secretary have each caused this Agreement to be executed as of the day and year first above mentioned.

OPINION OF BORROWER'S COUNSEL

re:

BORROWER INSTRUMENTS

October 28, 2024

Federal Financing Bank
Main Treasury Building
1500 Pennsylvania Avenue, NW
Washington, DC 20220

Dear Sirs:

We have acted as counsel to Lithium Nevada Corp. (the "Borrower") in connection with the issuance by the Borrower of the future advance promissory note dated as of October 28, 2024, payable to the Federal Financing Bank ("FFB") in the maximum principal amount of $1,970,000,000.00 plus an additional maximum capitalized interest amount of $289,687,000.00 (the "Note").

We have examined executed originals of each of the following documents (such documents being, collectively, the "Borrower's Instruments"):

1. the Note Purchase Agreement dated as of October 28, 2024 (the "Note Purchase Agreement"), among FFB, the Borrower, and the Secretary of Energy; and

2. the Note.

We have also examined the originals, or copies certified or otherwise identified to our satisfaction, of such other agreements, instruments, certificates, records, and other documents as in our judgment are necessary or appropriate to enable us to render the opinion expressed below.

This opinion is delivered to you pursuant to section 3.2.2 of the Note Purchase Agreement. Capitalized terms used herein and not defined herein shall have the respective given such terms in the Note Purchase Agreement.

This opinion is subject to the following qualifications:

(a) the opinion regarding enforceability contained in paragraph 5 is subject to (i) the effect of insolvency or bankruptcy laws or other similar laws affecting generally the enforcement of creditors' rights, and (ii) principles of equity; and

(b) any opinion as to the validity or enforceability of any agreement as to any party assumes the due authorization, execution, and delivery of such agreement by each party thereto other than the Borrower.

Based on the foregoing and upon such further investigation as we have deemed necessary, we are of the opinion that:

1. The Borrower is a corporation duly organized, validly existing and in good standing under the laws of the State of Nevada.

2. The Borrower has all requisite corporate power and authority to carry on its business as presently conducted, to execute and deliver each of the Borrower's Instruments, to consummate the transactions contemplated by each thereof, and to perform its obligations under each thereof.

3. The execution and delivery by the Borrower of each of the Borrower's Instruments, the consummation by the Borrower of the transactions contemplated by each thereof, and the performance by the Borrower of its obligations under each thereof have been duly authorized by all necessary corporate action.

4. Each of the Borrower's Instruments has been duly executed and delivered by officials of the Borrower who are duly authorized to execute and deliver such documents on its behalf.

5. Each of the Borrower's Instruments constitutes the legal, valid, and binding agreement of the Borrower, enforceable against the Borrower in accordance with its respective terms.

6. No Governmental Approvals or Governmental Registrations are now, or under existing Governmental Rules will in the future be, required to be obtained or made, as the case may be, by the Borrower to authorize the execution and delivery by the Borrower of any of the Borrower's Instruments, the consummation by the Borrower of the transactions contemplated by any thereof, or the performance by the Borrower of its obligations under any thereof.

7. The execution and delivery by the Borrower of each of the Borrower's Instruments, the consummation by the Borrower of the transactions contemplated by each thereof, and the performance by the Borrower of its obligations under each thereof do not and will not conflict with or violate, result in a breach of, or constitute a default under (a) any term or provision of the charter documents or bylaws of the Borrower; (b) to the best of our knowledge, any of the covenants, conditions or agreements contained in any Other Debt Obligation of the Borrower; (c) to the best of our knowledge, any Governmental Approval or Governmental Registration obtained or made, as the case may be, by the Borrower; or (d) any Governmental Judgment or Governmental Rule currently applicable to the Borrower.

8. The Borrower has not failed to obtain any material Governmental Approval or make any material Governmental Registration required or necessary to carry on the business of the Borrower as presently conducted, and the Borrower reasonably believes that it will not be prevented by any Governmental Authority having jurisdiction over the Borrower from so carrying on its business as presently conducted.

9. There are no lawsuits or judicial or administrative actions, proceedings or investigations pending or, to the best knowledge of the Borrower, threatened against the Borrower which, in the reasonable opinion of the Borrower, is likely to have a Material Adverse Effect on the Borrower.

Very truly yours,

Washington, DC 20220

Dear Sirs:

As the _____ General Counsel of the Department of Energy (the "Department"), I am familiar with the Secretary's Affirmation dated as of October 28, 2024 (the "Secretary's Affirmation") issued by the Secretary of Energy (the "Secretary") relating to the Future Advance Promissory Note dated as of October 28, 2024, issued by Lithium Nevada Corp. payable to the Federal Financing Bank in the maximum principal amount of $1,970,000,000.00 plus an additional maximum capitalized interest amount of $289,687,000.00.

I have examined the executed original of the Secretary's Affirmation.

I have also examined the originals, or copies certified or otherwise identified to our satisfaction, of such other agreements, instruments, certificates, records, and other documents as in my judgment are necessary or appropriate to enable me to render the opinion expressed below.

This opinion is delivered to you pursuant to section 3.3.2 of the Note Purchase Agreement.

Based on the foregoing and upon such further investigation as I have deemed necessary, I am of the opinion that:

1. The execution and delivery of the Secretary's Affirmation on behalf of the Secretary, the consummation by the Department of the transactions contemplated thereby, and the performance by the Department of the Secretary's obligations thereunder are authorized by applicable law.

2. The Secretary's Affirmation has been executed and delivered by an official of the Department who is duly authorized to execute and deliver such document on behalf of the Secretary.

Very truly yours,

FUTURE ADVANCE PROMISSORY NOTE

1. Promise to Pay.

FOR VALUE RECEIVED, LITHIUM NEVADA CORP. (the "Borrower", which term includes any successors or assigns), promises to pay the **FEDERAL FINANCING BANK** ("FFB"), a body corporate and instrumentality of the United States of America (FFB, for so long as it shall be the holder of this Note, and any successor or assignee of FFB, for so long as such successor or assignee shall be the holder of this Note, being the "Holder"), at the times, in the manner, and with interest (including capitalized interest) at the rates to be established as hereinafter provided, such amounts as may be advanced from time to time by FFB to or for the account of the

Borrower under this Note (each such amount being an "Advance" and more than one such amounts being "Advances").

2. Reference to Certain Agreements.

(a) Program Financing Agreement. This Note is one of the "Notes" referred to in, and entitled to the benefits of, the Program Financing Agreement dated as of September 16, 2009, made by and between FFB and the Secretary of Energy (the "Secretary") (such agreement, as it may be amended, supplemented, and restated from time to time in accordance with its terms, being the "Program Financing Agreement").

(b) Note Purchase Agreement. This Note is the "Note" referred to in, and entitled to the benefits of, the Note Purchase Agreement dated as of even date herewith, made by and among FFB, the Borrower, and the Secretary (such agreement, as it may be amended, supplemented, and restated from time to time in accordance with its terms, being the "Note Purchase Agreement").

3. Advances; Advance Requests; Last Day for Advances.

(a) Subject to the terms and conditions of the Note Purchase Agreement, FFB shall make Advances under this Note in the amounts, at the times, and to the accounts requested by the Borrower from time to time, in each case upon delivery to FFB of a written request by the Borrower for an Advance under this Note, in the form of request attached to the Note Purchase Agreement as Exhibit A thereto (each such request being an "Advance Request"), completed as prescribed in the Note Purchase Agreement.

(b) To be effective, an Advance Request must first be delivered to the Department of Energy for approval and be approved by or on behalf of the Secretary in writing, and such Advance Request, together with written notification of the Secretary's approval thereof, must be received by FFB on or before the third Business Day before the particular calendar date specified in such Advance Request that the Borrower requests to be the date on which the respective Advance is to be made.

(c) The Borrower hereby agrees that FFB, for its purposes, may consider any Advance Request approved by or on behalf of the Secretary and delivered to FFB in accordance with the terms of the Note Purchase Agreement to be an accurate representation of the Borrower's request for an Advance under this Note and the Secretary's approval of that Advance Request.

4. Principal Amount of Advances; Maximum Principal Amount.

The principal amount of each Advance shall be the amount specified in the respective Advance Request; provided, however, that the aggregate principal amount of all Advances made under this Note may not exceed the particular amount specified on page 1 of this Note as the "Maximum Principal Amount" (such amount being the "Maximum Principal Amount"). The Maximum Principal Amount shall be separate and distinct from, and shall not include, capitalized interest, which shall be determined as provided in, and subject to its own limitation in, paragraph 7 of this Note.

5. Maturity Date.

This Note, and each Advance made hereunder, shall mature on the particular date specified on page 1 of this Note as the "Maturity Date" (such date being the "Maturity Date").

6. Computation of Interest on Each Advance.

(a) Subject to paragraphs 11 and 14 of this Note, interest on the outstanding principal of each Advance shall accrue from the date on which the respective Advance is made to the date on which such principal is due.

(b) Interest on each Advance shall be computed on the basis of (1) actual days elapsed from (but not including) the date on which the respective Advance is made (for the first payment of interest due under this Note for the respective Advance) or the date on which the payment of interest was last due (for all other payments of interest due under this Note for the respective Advance), to (and including) the date on which payment is next due, and (2) a year of 365 days.

(c) The interest rate applicable to each Advance shall be established by FFB at the time that the respective Advance is made on the basis of the determination made by the Secretary of the Treasury pursuant to section 136 of the Energy Independence and Security Act of 2007 (Pub. L. No. 110-140, 121 Stat. 1492, 1514), as amended (the "Program Authority"); provided, however, that the shortest maturity used as the basis for any basic interest rate determination shall be the remaining maturity of the most recently auctioned United States Treasury bills having the shortest maturity of all United States Treasury bills then being regularly auctioned.

7. Payment of Interest; Payment Dates; First Interest Payment Date; Capitalized Interest; Maximum Capitalized Interest Amount.

(a) Except as provided in subparagraph (b) of this paragraph 7, interest accrued on the outstanding principal balance of each Advance shall be due and payable on each of the particular dates specified on page 1 of this Note as "Payment Dates" (each such date being a "Payment Date"), beginning on the first Payment Date to occur after the date on which such Advance is made, up through and including the Maturity Date.

(b) For each Advance made before the particular date specified as the "First Interest Payment Date" on page 1 of this Note (such date being the "First Interest Payment Date"), the amount of accrued interest that would otherwise be due and payable on each Payment Date to occur before the First Interest Payment Date shall be capitalized on the respective Payment Date, and interest shall thereafter accrue on the sum of the outstanding principal and such capitalized interest at the rate established for such Advance in accordance with paragraph 6 of this Note; provided, however, that the aggregate amount of accrued interest that may be capitalized under this Note may not exceed the particular amount specified on page 1 of this Note as the "Maximum Capitalized Interest Amount" (such amount being the "Maximum Capitalized Interest Amount"). The amount of interest that will be capitalized on each Advance will be determined on the date on which the respective Advance is made. At such time, if ever, that an Advance is made and the amount of interest to be capitalized on such Advance would, when added to the aggregate amount of interest to be capitalized on all prior Advances, cause the resulting sum to exceed the Maximum Capitalized Interest Amount, only the portion of the accrued interest that may be capitalized without causing the sum to exceed the Maximum Capitalized Interest Amount shall be capitalized

for that Advance, and all additional interest that accrues on that Advance and all interest that accrues on any future Advances shall be due and payable on each Payment Date and made as provided in paragraph 10 of this Note.

8. Payment of Principal and Capitalized Interest.

(a) The principal amount of, or capitalized interest on, or combination of both, as the case may be, each Advance shall be payable in installments, which payments shall be due beginning on the particular date specified as the "First Principal Payment Date" on page 1 of this Note (such date being the "First Principal Payment Date"), and shall be due on each Payment Date to occur thereafter until the principal of, and capitalized interest on, the respective Advance is repaid in full on or before the Maturity Date.

(b) With respect to each Advance, the amount of principal, or capitalized interest, or combination of both, as the case may be, due on the First Principal Payment Date, on each Payment Date to occur thereafter, and on the Maturity Date shall be, in each case, an installment that is equal to the product of:

(1) the sum of the outstanding principal amount of the respective Advance and all capitalized interest thereon, determined as of the day immediately preceding the First Principal Payment Date;

times

(2) the particular percentage specified for the respective date on the payment schedule attached as Schedule A to this Note,

and shall be sufficient, when added to all other such installments of principal, or capitalized interest, or combination of both, as the case may be, to repay the principal amount of, and capitalized interest on, the respective Advance in full on the Maturity Date.

(c) In the event that an Advance is made after the First Principal Payment Date, the amount of principal due with respect to such Advance on the first Payment Date to occur after the date on which Advance is made shall be an amount that is equal to the product of:

(1) the principal amount of the Advance on the day the Advance is made;

times

(2) the sum of:

(A) the particular percentage specified for such Payment Date on the payment schedule attached as Schedule A to this Note; and

(B) the respective percentage or percentages, if any, specified for each date on the payment schedule that occurred before such Payment Date;

and shall be sufficient, when added to all other such installments of principal to repay the principal amount of the respective Advance in full on the Final Maturity Date.

9. Business Days.

(a) Whenever any Payment Date or the Maturity Date shall fall on a day on which either FFB or the Federal Reserve Bank of New York is not open for business, the payment which would otherwise be due on such Payment Date or the Maturity Date shall be due on the first day thereafter on which FFB and the Federal Reserve Bank of New York are both open for business (any such day being a "Business Day").

(b) In the case of a Payment Date falling on a day other than a Business Day, the extension of time for making the payment that would otherwise be due on such Payment Date shall (1) be taken into account in establishing the interest rate for each Advance, and (2) be included in computing interest due in connection with such payment and excluded in computing interest due in connection with the next payment.

(c) In the case of the Maturity Date falling on a day other than a Business Day, the extension of time for making the payment that would otherwise be due on the Maturity Date shall (1) be taken into account in establishing the interest rate for each Advance, and (2) be included in computing interest due in connection with such payment.

10. Manner of Making Payments.

(a) For so long as FFB is the Holder of this Note, each payment under this Note (except for accrued interest on each Advance made before the First Interest Payment Date that is subject to capitalization as provided in paragraph 7(b) of this Note)shall be paid in immediately available funds by electronic funds transfer to the account of the United States Treasury (for credit to the subaccount of FFB) maintained at the Federal Reserve Bank of New York specified by FFB in a written notice to the Borrower, or to such other account as may be specified from time to time by FFB in a written notice to the Borrower.

(b) In the event that FFB is not the Holder of this Note, then each payment under this Note shall be made in immediately available funds by electronic funds transfer to such account as shall be specified by the Holder in a written notice to the Borrower.

11. Late Payments.

(a) In the event that any payment of any amount owing under this Note is not made when and as due (any such amount being then an "Overdue Amount"), then the amount payable shall be such Overdue Amount plus interest thereon (such interest being the "Late Charge") computed in accordance with this subparagraph (a):

(1) The Late Charge shall accrue from the scheduled date of payment for the Overdue Amount (taking into account paragraph 9 of this Note) to the date on which payment is made.

(2) The Late Charge shall be computed on the basis of (A) actual days elapsed from (but not including) the scheduled date of payment for such Overdue Amount (taking into account paragraph 9 of this Note) to (and including) the date on which payment is made, and (B) a year of 365 days.

(3) The Late Charge shall accrue at a rate (the "Late Charge Rate") equal to (i) the interest rate applied to the principal related to any Overdue Amount that was previously determined by the Secretary of the Treasury pursuant to section 6(c) of this Note plus (ii) one and one-half times the rate to be determined by the Secretary of the Treasury taking into consideration the current market-bid coupon-equivalent yield on the remaining maturity of the most recently auctioned 13-week United States Treasury bills, such determination of the rate referenced in this subclause (ii) being made as of the scheduled date of payment for such Overdue Amount (taking into consideration paragraph 9 of this Note) using data as of the Close of Market (as that term is defined in the immediately following sentence) on the Business Day immediately before such date reported by the Federal Reserve Bank of New York to the Secretary of the Treasury. For purposes of this Note, "Close of Market" shall mean, for any day, 3:30 p.m. (Washington, D.C., time) or such earlier time as the Federal Reserve Bank of New York may announce as being the close of the United States Treasury securities market for such day.

(4) The initial Late Charge Rate shall be in effect until the earlier to occur of either (A) the date on which payment of the Overdue Amount and the amount of the accrued Late Charge is made, or (B) the first Payment Date to occur after the scheduled date of payment for such Overdue Amount. In the event that the Overdue Amount and the amount of the accrued Late Charge are not paid on or before the such Payment Date, then the amount payable shall be the sum of the Overdue Amount and the amount of the accrued Late Charge, plus a Late Charge on such sum accruing at a new Late Charge Rate to be then determined in accordance with the principles of clause (3) of this subparagraph (a). For so long as any Overdue Amount remains unpaid, the Late Charge Rate shall be re-determined in accordance with the principles of clause (3) of this subparagraph (a) on each Payment Date to occur thereafter, and shall be applied to the Overdue Amount and all amounts of the accrued Late Charge to the date on which payment of the Overdue Amount and all amounts of the accrued Late Charge is made.

(b) Nothing in subparagraph (a) of this paragraph 11 shall be construed as permitting or implying that the Borrower may, without the written consent of the Holder, modify, extend, alter or affect in any manner whatsoever (except as explicitly provided herein) the right of the Holder to receive any and all payments on account of this Note on the dates specified in this Note.

12. Final Due Date.

Notwithstanding anything in this Note to the contrary, all amounts outstanding under this Note remaining unpaid as of the Maturity Date shall be due and payable on the Maturity Date.

13. Application of Payments.

Each payment made on this Note shall be applied first to the payment of Late Charges (if any) payable under paragraphs 11 and 15 of this Note, then to the payment of premiums (if any) payable under paragraphs 14 of this Note, then to the payment of accrued interest, then to the payment of capitalized interest, and then on account of outstanding principal.

14. Prepayments.

(a) The Borrower may elect to prepay all or any portion of the outstanding principal amount of, and capitalized interest (if any) on, any Advance made under this Note, or to prepay this Note in its entirety, in the manner, at the price, and subject to the limitations specified in this paragraph 14 (each such election being a "Prepayment Election").

(b) The Borrower shall deliver to FFB (and if FFB is not the Holder, then also to the Holder) and to the Secretary written notification of each Prepayment Election (each such notification being a "Prepayment Election Notice"), specifying:

(1) the Advance Identifier that FFB assigned to the respective Advance (as provided in the Note Purchase Agreement);

(2) the particular date on which the Borrower intends to prepay the respective Advance (such date being the "Intended Prepayment Date" for the respective Advance), which date must be a Business Day; and

(3) the amount of principal of, and capitalized interest (if any) on, the respective Advance that the Borrower intends to prepay, which amount may be either:

(A) the total outstanding principal amount of, and capitalized interest (if any) on, such Advance; or

(B) an amount less than the total outstanding principal amount of, and capitalized interest (if any) on, such Advance (any such amount being a "Portion").

(c) To be effective, a Prepayment Election Notice must be received by FFB (and if FFB is not the Holder, then also by the Holder) on or before the fifth Business Day before the date specified therein as the Intended Prepayment Date for the respective Advance or Portion.

(d) The Borrower shall pay to the Holder a price for the prepayment of any Advance or Portion (such price being the "Prepayment Price" for such Advance or Portion) determined as follows:

(1) in the event that the Borrower elects to prepay the entire outstanding principal amount of, and capitalized interest (if any) on, any Advance, then the Borrower shall pay to the Holder a Prepayment Price for such Advance equal to the sum of:

(A) the price for such Advance that would, if such Advance (including all unpaid interest accrued thereon through the Intended Prepayment Date) were purchased by a third party and held to the Maturity Date, produce a yield to the third-party purchaser for the period from the date of purchase to the Maturity Date

substantially equal to the interest rate that would be set on a loan from the Secretary of the Treasury to FFB to purchase an obligation having a payment schedule identical to the payment schedule of such Advance for the period from the Intended Prepayment Date to the Maturity Date; and

(B) all unpaid Late Charges (if any) accrued on such Advance through the Intended Prepayment Date;

(2) in the event that the Borrower elects to prepay a Portion of any Advance, then the Borrower shall pay to the Holder a Prepayment Price for such Portion that would equal such Portion's pro rata share of the Prepayment Price that would be required for a prepayment of the entire principal amount of, and capitalized interest (if any) on, such Advance (determined in accordance with the principles of clause (1) of this subparagraph (d)); and

(3) in the event that the Borrower elects to prepay this Note in its entirety, then the Borrower shall pay to the Holder an amount equal to the sum of the Prepayment Prices for all outstanding Advances (determined in accordance with the principles of clause (1) of this subparagraph (d)).

The price described in subclause (A) of clause (1) of this subparagraph (d) shall be calculated by the Secretary of the Treasury as of the close of business on the second Business Day before the Intended Prepayment Date, using standard calculation methods of the United States Department of the Treasury. FFB shall deliver by electronic or facsimile transmission (fax) to the Borrower a written notice by 12:00 noon (Washington, DC, time) on the Business Day immediately preceding the Intended Prepayment Date specifying the Prepayment Price for the Advance or Portion and setting out separately principal, accrued interest, premium (if any), and Late Charges (if any); provided, however, that failure on the part of FFB to deliver any notice of the Prepayment Price by 12:00 noon (Washington, DC, time) or failure on the part of the Borrower to receive any notice of the Prepayment Price shall not relieve the Borrower of the payment obligation described in subparagraph (e) of this paragraph 14, but rather shall give rise to a responsibility on the part of the Borrower to make inquiry to FFB for the Prepayment Price.

(e) Payment of the Prepayment Price for any Advance or any Portion shall be due to the Holder before 3:00 p.m. (Washington, DC, time) on the Intended Prepayment Date for such Advance or Portion.

(f) Each prepayment of a Portion shall, as to the principal amount of such Portion, be subject to a minimum amount equal to $100,000.00 of principal; except that the minimum principal amount limitation shall not apply to a prepayment of a Portion if:

(1) the prepayment is made to satisfy the Borrower's obligation to make a mandatory prepayment under the "Security Instruments" (as that term is defined in paragraph 20 of this Note); and

(2) the Borrower has certified to that fact in the respective Prepayment Election Notice.

(g) In the event that the Borrower makes a Prepayment Election with respect to any Portion of an Advance, then the Prepayment Price paid for such Portion will be applied as provided in paragraph 13 of this Note, and, with respect to application to outstanding principal, such Prepayment Price shall be applied to installments of principal in the inverse order of maturity.

(h) In the event that the Borrower makes a Prepayment Election with respect to any Portion of an Advance, then the outstanding principal amount of such Advance, and capitalized interest, if any, from and after such partial prepayment, shall be due and payable in accordance with this subparagraph (h).

(1) The amounts of the scheduled installments of principal, or capitalized interest, or combination of both, as the case may be, that will be due after such partial prepayment shall be equal to the amounts of the scheduled installments of principal, or capitalized interest, or combination of both, as the case may be, that were due in accordance with the payment schedule that applied to such Advance immediately before such partial prepayment.

(2) The scheduled installments of principal, or capitalized interest, or combination of both, as the case may be, shall be due beginning on the first Payment Date to occur after such partial prepayment, and shall be due on each Payment Date to occur thereafter up through and including the date on which the entire principal amount of such Advance, all capitalized interest, and all unpaid interest (and Late Charges, if any) accrued thereon, are paid.

15. Rescission of Prepayment Elections; Late Charges for Late Payments of Prepayment Prices.

(a) The Borrower may rescind any Prepayment Election made in accordance with paragraph 14 of this Note, but only in accordance with this paragraph 15.

(b) The Borrower shall deliver to FFB written notification of each rescission of a Prepayment Election (each such notification being an "Election Rescission Notice") specifying the particular Advance for which the Borrower wishes to rescind such Prepayment Election, which specification must make reference to the particular "Advance Identifier" (as that term is defined in the Note Purchase Agreement) that FFB assigned to such Advance (as provided in the Note Purchase Agreement). The Election Rescission Notice may be delivered by facsimile transmission to FFB at [***] or at such other facsimile number or numbers or other electronic means as FFB may from time to time communicate to the Borrower.

(c) To be effective, an Election Rescission Notice must be received by FFB not later than 3:30 p.m. (Washington, DC, time) on the second Business Day before the Intended Prepayment Date.

(d) In the event that the Borrower (1) makes a Prepayment Election in accordance with paragraph 14 of this Note, (2) does not rescind such Prepayment Election in accordance with this paragraph 15, and (3) does not, before 3:00 p.m. (Washington, DC, time) on the Intended Prepayment Date, pay to FFB the Prepayment Price described in paragraph 14(d) of this Note, then a Late Charge shall accrue on any such unpaid amount from the Intended Prepayment Date to the

date on which payment is made, computed in accordance with the principles of paragraph 11 of this Note.

16. Amendments to Note.

To the extent not inconsistent with applicable law, this Note shall be subject to modification by such amendments, extensions, and renewals as may be agreed upon from time to time by the Holder and the Borrower, with the approval of the Secretary.

17. Certain Waivers.

The Borrower hereby waives any requirement for presentment, protest, or other demand or notice with respect to this Note.

18. Effective Until Paid.

Except as provided in section 6.2 of the Note Purchase Agreement, this Note shall continue in full force and effect until all amounts due and payable hereunder have been paid in full.

19. Security Instruments; Secretary as "Holder" of Note for Purposes of the Security Instruments.

This Note is the note permitted to be executed and delivered by, and is entitled to the benefits and security of, the particular security instruments specified on page 1 of this Note (such security instruments, as they may have heretofore been, and as they may hereafter be, amended, supplemented, restated, or consolidated from time to time in accordance with its or their terms, being, collectively, the "Security Instruments"), whereby the Borrower pledged and granted a security interest in certain property of the Borrower, described therein, to secure the payment and performance of certain obligations owed to the Secretary and any other Holder of this Note or participation share hereof, as set forth in the Security Instruments. For purposes of the Security Instruments, in consideration of the undertakings by the Secretary set forth in the Program Financing Agreement and the Note Purchase Agreement, and the affirmation by the Secretary dated as of even date herewith, delivered by the Secretary to FFB as provided in the Note Purchase Agreement (the "Secretary's Affirmation"), the Secretary shall be considered to be, and shall have the rights, powers, privileges, and remedies of, the Holder of this Note.

20. Default and Enforcement.

In case of a default by the Borrower under this Note or the occurrence of an event of default under the Security Instruments, then, in consideration of the undertakings by the Secretary set forth in the Program Financing Agreement and the Note Purchase Agreement, and the Secretary's Affirmation, the Secretary, in his own name, shall have all rights, powers, privileges, and remedies of the Holder of this Note, in accordance with the terms of this Note and the Security Instruments, including, without limitation, the right to enforce or collect all or any part of the obligation of the Borrower under this Note or arising as a result of the Secretary's Affirmation, to file proofs of claim or any other document in any bankruptcy, insolvency, or other judicial proceeding, and to vote such proofs of claim.

21. Acceleration.

The entire unpaid principal amount of this Note, and all interest thereon, may be declared, and upon such declaration shall become, due and payable to the Secretary, under the circumstances described, and in the manner and with the effect provided, in the Security Instruments.

22. Governing Law.

This Note shall be governed by, and construed and interpreted in accordance with, Federal law and not the law of any state or locality. To the extent that a court looks to the laws of any state to determine or define the Federal law, it is the intention of the parties hereto that such court shall look only to the laws of the State of New York without regard to the rules of conflicts of laws.

23. Schedule A Incorporated.

Schedule A is an integral part of this Note and is incorporated herein by reference.

IN WITNESS WHEREOF, the Borrower has caused this Note to be signed in its legal name and attested by its officers thereunto duly authorized, all as of the day and year first above written.

Explanatory Memorandum

RE: Information Concerning PSU Grants Pursuant to the Plan

Grant of Performance Share Units

In recognition of your continued service to the Company we are pleased to advise you that you have been awarded PSUs effective the date on the first page of the Grant Letter, pursuant to the Plan. This memorandum provides information about the PSUs you have been granted and how you may receive them. The PSUs are governed by the terms and conditions of the Plan, a copy which is available on the Company's internal intranet website.

PSUs Convertible into Shares of LAC

The PSUs are securities of the Company that automatically convert into shares of the Company contingent upon certain performance conditions. If the PSUs are converted into shares, you will be required to arrange for satisfying tax obligations. The PSUs represent an entitlement to receive an equivalent number of common shares of the Company in the future, but do not represent actual share ownership until they are converted into shares.

This Grant Letter

The Company has outlined the terms and conditions related to the PSUs in this Grant Letter. The Company is requesting that you counter sign this Grant Letter confirming your agreement with its terms and conditions to give effect the grant. This Grant Letter sets out the details of the award of PSUs and the performance conditions that must be met in order for the PSUs to be converted to shares. Please see Schedule "B" of this Grant Letter for the number of PSUs you have been granted and the applicable time period for ownership of the shares to occur (please also see "Vesting Period - Ownership" below).

Vesting Period - Ownership

The PSUs shall vest (ie. you shall receive ownership of the shares) following a time period (called the restricted period) during which the performance conditions need to be met. After the expiration of the restricted period and assuming the performance conditions are met, the PSUs will be automatically converted into common shares of the Company and the shares will be issued to you.

Deferring Ownership of the Shares

You may delay receiving the shares underlying the PSUs if you are a resident of Canada and are not a US taxpayer. If you are not a resident of Canada or if you are a US taxpayer, then you cannot delay the receipt of the shares. If you wish to delay receiving your shares, you need to advise the Company when you want to receive them at least thirty days before the end of the restricted period. You can choose another date if you give the Company notice at least thirty days

before the end of the restricted period. Deferring receipt of the shares is something you may wish to discuss with your accountant or tax advisor.

Termination of Employment

Subject to the terms of your employment agreement or PSU award grant and the discretion of the Board, if you leave your employment with the Company before the end of the restricted period, your right to those PSUs may be terminated. If you leave your employment with the Company after the end of the restricted period but before the agreed date to receive them, the PSUs will be converted into common shares of the Company and the shares will be issued to you.

Death or Disability

In the event of your death or total disability, any shares you were supposed to receive pursuant to the PSUs will be issued to you or your legal representative.

Dividends

Subject to the discretion of the Board, you may receive additional PSUs if the Company pays dividends on its shares. Such additional PSUs will have the same terms and conditions as the original PSUs.

Change of Control of the Company

In certain circumstances, and subject to the terms of your employment agreement, where your employment is terminated following a change of control of the Company, the PSUs will be automatically converted into common shares of the Company and the shares will be issued to you. A change of control would typically occur when there is a merger by the Company or an acquisition of the Company by a third-party.

Questions

We appreciate your continued commitment to the Company. Please do not hesitate to reach out to Human Resources at [***] should you have any questions.

All capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Equity Incentive Plan. You acknowledge having received, read, and understood a copy of the Equity Incentive Plan. In the event of any inconsistency between the terms of this Restricted Share Unit Grant Letter and the Equity Incentive Plan, it is hereby acknowledged that the terms of the Equity Incentive Plan shall govern.

If you are **not a US Taxpayer** you may elect to defer receipt of the Shares to one or more deferred dates (defined under the Equity Incentive Plan as "Deferred Payment Dates") that is after the Restricted Period, by completing, signing and delivering an election in the form attached hereto as Schedule "A" to the Corporate Secretary **at least 30 days prior to the expiry of the Restricted Period.**

Subject to the terms of section 4.6 of the Equity Incentive Plan, the Awardee acknowledges and understands that in the event of Termination or Retirement as defined in the Equity Incentive Plan, as applicable, regardless of whether such Termination or Retirement is alleged to be lawful or unlawful, during a Restricted Period, the RSUs held by the Awardee shall immediately terminate and be of no further force or effect. The Awardee specifically confirms that the Awardee is hereby waiving any claim to any pro-rated Award or Award that might have vested during any notice period required under applicable laws (or damages or payments in lieu of such Awards) or as a result of additional compensation the Awardee may receive in place of that notice period. Notwithstanding the foregoing, if applicable employment standards legislation explicitly requires continued entitlement to vesting during a statutory notice period, the Awardee's right to vest in the Award under the Equity Incentive Plan, if any, will terminate effective as of the last day of the Awardee's minimum statutory notice period, but the Awardee will not earn or be entitled to pro- rated vesting if the vesting date falls after the end of the Awardee's statutory notice period, nor will the Awardee be entitled to any compensation for lost vesting. This section is however entirely subject to the particular terms of any written employment agreement between the Awardee and the Company (an "**Awardee Employment Agreement**") which specifically provide for accelerated vesting or vesting during an extended period set out in the Awardee Employment Agreement. If the Awardee Employment Agreement does not specifically provide for such accelerated or extended vesting, the terms of this letter and the Equity Incentive Plan shall prevail.

Except pursuant to a will or by the laws of descent and distribution, no Award and no other right or interest of an Awardee is transferable or assignable.

The Awardee hereby authorizes the Company to withhold any remuneration payable to the Awardee or take any other steps necessary for the purposes of paying any taxes required to be deducted or withheld as a result of the Awardee's participation in the Equity Incentive Plan.

Subject to the terms of the Equity Incentive Plan, the Board shall have full discretion with respect to any actions to be taken or determinations to be made in connection with the RSUs issued to the Awardee, and the determination of the Board shall be final, binding and conclusive.

This agreement supersedes all prior agreements and understandings, whether written or otherwise, between the Company and the Awardee with respect to the Awards granted except with respect to the terms and conditions set forth in any Awardee Employment Agreement as contemplated herein.

ARTICLE 2

TERMS OF EMPLOYMENT

2.01 Employment of Executive

Lithium Nevada employs the Executive and the Executive accepts his employment with Lithium Nevada upon the terms and conditions of this Agreement, conditional upon the Executive resigning from the Executive's employment with Old LAC and providing Lithium Nevada with a copy of the resignation letter effecting such resignation. The Executive understands and agrees that his sole employment relationship is with Lithium Nevada, that Lithium Nevada is the Executive's employer, and that Lithium Nevada is responsible for payment of the compensation that the Executive receives under this Agreement.

2.02 Position and Duties

The Executive shall serve as Lithium Nevada's and New LAC' s Executive Vice President, Capital Projects, on a full-time basis, and, subject to change, report to the President and Chief Executive Officer. The Executive will have such duties, authority, and responsibility as shall be commensurate with the position of Executive Vice President, Capital Projects, as they may change from time to time.

2.03 Place of performance

The Executive shall perform his duties based at Lithium Americas' Atlanta office or at his home residence from time to time, which is currently located in Brookhaven, Georgia. The Executive acknowledges and agrees that he may be required to travel frequently, domestically and internationally, in support of the LAC Group's operations and Executive's duties with the LAC Group, including frequent travel to the Thacker Pass project in Nevada, and that such travel does not constitute Good Reason under this Agreement. Executive represents and warrants that Executive holds a valid passport and agrees to maintain a current passport as a condition of continued employment.

2.04 Compliance with policies and procedures

The Executive shall comply with Lithium Nevada's lawful policies and procedures and all New LAC policies applicable to Lithium Nevada employees, as they exist from time to time (including any code of ethics or business conduct and any disclosure or insider trading policy). Lithium Nevada and New LAC reserve the right to modify their policies and procedures from time to time in their sole and exclusive discretion.

2.05 Outside activities

The Executive may serve on civic or charitable boards or committees, and engage in charitable activities and community affairs, and with the prior written approval of Lithium Nevada, may engage in paid work for a third party or render business services to a third party, provided that any such activities do not materially interfere with the proper performance by the Executive of his duties and responsibilities under this Agreement. Requests by the Executive to serve on a public

company board must be pre-approved in writing by the Chief Executive Officer of New LAC and the Board of Directors of New LAC provided that an Executive must not serve on more than one public company board (apart from the LAC Group). The Executive will not serve on any board of an entity whose business is competitive with, or which otherwise could reasonably be expected to conflict with, the LAC Group.

ARTICLE 3

COMPENSATION

3.01 Base Salary

Lithium Nevada shall pay the Executive an annual base salary (the "**Base Salary**") of US$465,000 less applicable deductions and withholdings, on an incremental basis according to Lithium Nevada's payroll practices. The Base Salary will be reviewed annually and may or may not change, in the Board's sole discretion. The Base Salary is exclusive of and independent from the benefits described in Article 4 below. The Executive may opt to receive up to 20% of his Base Salary in the form of Restricted Shares, in accordance with New LAC's Equity Incentive Plan (the "**Plan**"). Should the Executive cease to be a participant (as that term is defined in the Plan), all Restricted Shares awarded to the Executive will vest immediately and be settled by the issuance of common shares of New LAC.

3.02 Short-Term Incentive and Long-Term Incentive Compensation

Subject to the New LAC's Incentive Compensation Recovery Policy (the "**Compensation Recovery Policy**"), the Executive will be eligible for annual short-term incentive ("**STI**") compensation ("**STI Bonus**") and long-term incentive ("**LTI**") compensation ("**LTI Bonus**") in recognition of achieving corporate milestones under New LAC's performance management program (the "**Program**"), as determined by New LAC and approved by the Board on an annual basis, and as may be amended from time to time in their sole discretion, as follows:

(a) **Short-Term Incentive**. The Executive will be eligible for annual performance-based STI incentive compensation valued at a target rate of 75% of the Executive's Base Salary for the applicable performance year, comprised of a combination of cash and/or Restricted Share Units ("**RSUs**") or other equity-based grants awarded under the Program and the Plan; and

(b) **Long-Term Incentive**. The Executive will also be eligible for annual discretionary LTI incentive compensation at a target rate of 75% of the Executive's Base Salary for the applicable performance year in the form of RSUs and/or Performance Share Units ("**PSUs**") or other equity-based grants awarded under the Plan.

The grant, exercise, expiration and all other terms of equity awards to the Executive shall be governed exclusively by the Plan and any equity grant agreement between New LAC and the Executive (the "**Grant Agreement**"). The Executive's Target STI Bonus and Target LTI Bonus will be reviewed periodically and may vary subject to the Board's recommendation and approval.

STI and LTI awards are not guaranteed and instead are dependent on the Executive's and New LAC's actual performance each calendar year in accordance with New LAC's compensation plan and the Program, subject at all times to Board and/or New LAC's approval. The Executive's Target STI Bonus and Target LTI Bonus is not a guaranteed amount, and payments or equity awards, if any, can range from 0-200% of the target in a given year. The Executive acknowledges that (i) the terms and criterion to determine STI and LTI awards may change each calendar year at the sole discretion of New LAC, with the approval of the Board; (ii) the Executive has no expectation of an STI or LTI payment or equity grant in any calendar year while employed by Lithium Nevada or that such STI or LTI will be any particular amount or number; (iii) the amount of the STI or LTI payment or equity grant, if any, that the Executive may be awarded may change from calendar year to calendar year based on performance by the Executive and New LAC; (iv) any STI or LTI award paid or issued to the Executive does not form part of the Executive's regular wages; (v) the Compensation Recovery Policy may require the Executive to repay compensation received by the Executive pursuant to the Plan or Program to ensure good corporate governance and compliance with applicable laws; and (vi) the Executive must be employed by Lithium Nevada on the date the discretionary STI or LTI is actually paid or issued in order to receive it, unless otherwise provided in this Agreement, the Plan or the Grant Agreement. The Executive will not be considered to be employed by Lithium Nevada if the Executive has tendered notice of resignation or has been provided with notice of termination of employment, regardless of whether such termination is lawful or unlawful.

3.03 Sign-On Bonus and Paid Time Off Days

Pursuant to a Termination Agreement and Release between Old LAC and the Executive, Old LAC and the Executive agree that all accrued remuneration up to the closing of the Separation Transaction has been paid (or will be paid as set out therein), and the Executive will release Old LAC from any and all claims in respect thereof.

The Executive will receive the following upon signature of this Agreement:

a) A sign-on bonus equal to $41,433.98; and

b) 25.65 days of Paid Time Off ("**PTO**")

In exchange for the Executive receiving the sign-on bonus and PTO days set forth above, the Executive agrees to waive any claim the Executive may have against Old LAC and New LAC arising from the Executive's employment with Old LAC or the termination thereof, including, but not limited to, any accrued, present or future claims for pay, salary, wages, notice of termination or pay in lieu of such notice, severance pay, overtime pay, flex time or banked time, interest, commissions, car allowances, expenses, profit sharing, stocks or stock options, equity interests, retirement entitlements, incentive payments, benefits or benefits coverages, holiday pay, vacation pay and tort damages (including damages on account of negligent misrepresentation or wrongful hiring).

The Executive's signature of this Agreement constitutes the Executive's acceptance of the above terms.

3.04 Equity Awards

The Executive shall receive a one-time grant of equity awards in the form of RSUs with a value of US$465,000 (equivalent to 100% of Executive's Base Salary) based upon an award vesting schedule and subject to certain conditions as follows:

(a) The Executive shall be granted RSUs to acquire common shares in the capital of New LAC, in accordance with applicable regulations (the "**Initial RSUs**"). The quantity of Initial RSUs will be calculated based upon market price prior to the date of issuance, in accordance with the Plan at a value to achieve the total Initial RSU value of US$465,000, with issuance to occur on a date acceptable to the LAC Group, acting reasonably, in any event within one month of the Effective Date.

(b) The Initial RSUs will vest as follows provided that Executive is providing services to the Company on each applicable date:

(i) 20% shall vest immediately as of the date of grant (the "**Grant Date**"), and

(ii) 20% shall vest at the expiration of 12 months after the Grant Date, but no later than October 31, 2024, and

(iii) 20% shall vest at the expiration of 24 months after the Grant Date, but no later than October 31, 2025, and

(iv) 20% shall vest at the expiration of 36 months after the Grant Date, but no later than October 31, 2026, and

(v) 20% shall vest at the expiration of 48 months after the Grant Date, but no later than October 31, 2027.

(c) The Initial RSUs shall be governed exclusively by the Plan, except as otherwise provided in this Agreement.

3.05 Retirement Plan Eligibility

The Executive will be eligible to participate in any retirement plan offered by Lithium Nevada on the same terms and conditions (including the Lithium Nevada-provided employer contribution) applicable to other similarly situated US-based senior executives. Retirement plans may be discontinued or amended from time to time in Lithium Nevada's discretion.

3.06 Repayment of Relocation Costs and Prior Sign-On Incentive Payments

The Executive's resignation from Old LAC for purposes of entering into this Agreement shall not trigger an obligation for the Executive to repay any relocation costs and sign-on incentive payments to Old LAC. However, should the Executive resign from Lithium Nevada on or before February 10, 2025, he will repay any relocation costs and sign-on incentive payments already paid to the Executive prior to the Effective Date of this Agreement as follows: (1) 75% if voluntarily

separated before February 10, 2024, and (2) 50% if voluntarily separated after February 10, 2024, and before February 10, 2025.

5.04 Obligation of confidentiality regarding Confidential Information

The Executive acknowledges and agrees that during his or her employment, the Executive has been entrusted with and had access to Confidential Information, the improper disclosure of which to any Person that directly or indirectly competes against the LAC Group or to the general public would be highly detrimental to the LAC Group's legitimate business interests. The Executive agrees, except as may be compelled by applicable law or pursuant to a valid court order, to keep strictly confidential and not to directly or indirectly disclose by any means or methods whatsoever to any third person or business entity, all Confidential Information and/or trade secrets of any LAC Group company except to the extent generally known to the public and in the public domain through no fault of the Executive. (f) **Termination by Executive's Resignation**. The Executive may voluntarily terminate the Executive's employment with Lithium Nevada at any time by giving Lithium Nevada eight weeks of prior written Notice of termination. Lithium Nevada may waive this Notice period in whole or in part and opt to pay the Executive's wages for the Notice period the Executive has provided, without the Executive performing further services for Lithium Nevada. The Executive understands and agrees that such a choice by Lithium Nevada to accept the Executive's resignation sooner and pay the Executive's wages for the Notice period shall not constitute termination of employment.

7.02 Severance benefits

If the Executive's employment terminates because of Disability or without Cause or for Good Reason, the Executive will be entitled to the following (subject to Section 7.06):

(a) **Salary**. Lithium Nevada shall provide the Executive with a lump sum payment equal to 12 months (the "**Severance Period**") of the Executive's Base Salary.

Any equity awards previously granted to the Executive will otherwise continue to be governed by the terms of the Plan and any applicable Grant Agreement.

(d) **Benefit Continuation**. Continuation of benefits coverage for the Severance Period to the maximum extent permitted under applicable plan terms. For benefits that cannot be continued for all or part of the Severance Period, Lithium Nevada shall reimburse the Executive for replacement coverage.

The Executive agrees that, upon receipt of the payments and benefits outlined above, the Executive shall not be entitled to any further payments or damages in respect of notice of termination, severance or separation pay of any kind, whether under statute, contract or common law.

These termination provisions will continue to apply throughout the Executive's employment with Lithium Nevada notwithstanding any changes to the Executive's compensation, title, duties, or responsibilities.

All severance benefits shall be subject to withholding for applicable employment and income taxes.

7.04 Change of Control

Subject to Section 7.06, if at any time during the term of this Agreement there is a Change of Control, and within twelve (12) months of such Change of Control,

Any equity awards issued to the Executive shall be governed by the terms of the Plan and applicable Grant Agreement.

All severance benefits shall be subject to withholding for applicable employment and income taxes.

Further, the severance benefits and other compensation outlined in Sections 7.02 and 7.04 are not cumulative, and the Executive will be entitled to receive benefits and compensation (if applicable) under either Section 7.02 or 7.04—but not both.

7.05 Effect of termination

The Executive agrees that, upon termination of employment for any reason whatsoever, the Executive shall be deemed to have immediately resigned any position he may have as an officer, director, or employee of the LAC Group or any of its affiliates or related entities. Except upon the Executive's death, the Executive shall, at the request of the LAC Group, execute all documents appropriate to evidence those resignations. The Executive shall not be entitled to any payments or damages in respect of these resignations in addition to those provided for herein.

7.06 Release

The Executive acknowledges and agrees that the compensation provided under Sections 7.02 and 7.04 is reasonable and shall be in full satisfaction of all terms of the cessation of the Executive's employment, and the Executive shall have no other entitlement (including to anticipated earnings or damages of any kind), whether under statute, contract, common law or otherwise. As a condition precedent to payment of any compensation under Sections 7.02 and 7.04, the Executive agrees to execute before a witness and deliver to Lithium Nevada a separation agreement and general release of all claims against the LAC Group, their affiliates, subsidiaries and their directors, officers, employees, shareholders and agents, in a form reasonably satisfactory to Lithium Nevada and within the timelines specified by Lithium Nevada. In accordance with the Age Discrimination in Employment Act, if applicable, the Executive will be provided an extended period of time to consider the terms of the release before signing, and no benefits shall be payable until the consideration period and any revocation periods have passed. Except for the Accrued Entitlements in Section 7.03, no compensation will be due and payable to the Executive until after the LAC Group receives a fully executed original of such separation agreement and general release, and any applicable revocation periods have expired. Except for the Accrued Entitlements, any compensation due under this Agreement shall be made on the 60th day following separation from service, provided the release is effective on such date and any revocation periods have expired. Lump sum severance shall be paid no later than March 15 of the calendar year following the year in which Executive's employment is terminated without Cause, or for Good Reason, or due to a Disability, provided that the release described above is effective at such time.

7.07 Section 280G

(a) If any of the payments or benefits received or to be received by the Executive (including, without limitation, any payments or benefits received in connection with a Change in Control including payments that could be made on the Executive's termination of employment following a Change in Control, whether pursuant to the terms of this Agreement or any other plan, arrangement, or agreement, or otherwise) (all such payments collectively referred to herein as the "**280G Payments**") constitute "parachute payments" within the meaning of Section 280G of the Code and will be subject to the excise tax imposed under Section 4999 of the Code (the "**Excise Tax**"), the 280G Payments shall be either: (a) reduced (but not below zero) so that the present value of such total 280G Payments received by Executive will be one dollar ($1.00) less than three (3) times Executive's "base amount" (as defined in Section 280G(b)(3) of the Code) and so that no portion of such 280G Payments will be subject to the excise tax imposed by Section 4999 of

the Code, or (b) paid in full, whichever of (a) or (b) produces the better net after tax position to Executive (taking into account any applicable excise tax under Section 4999 of the Code and any other applicable taxes). If a reduction in such 280G Payments is to be made pursuant to this section, the 280G Payments shall be reduced in the following order: (i) any portion of the cash severance payable hereunder that is not "nonqualified deferred compensation" for purposes of Code Section 409A; (ii) any benefits continuation valued as parachute payments; (iii) any accelerated vesting of any equity awards; and (iv) any portion of the cash severance payable hereunder and any other cash amounts that are "nonqualified deferred compensation" for purposes of Code Section 409A.

(b) All calculations and determinations under this Section 7.07 shall be made by an independent accounting firm or independent tax counsel appointed by the Company (the "**Tax Counsel**") whose determinations shall be conclusive and binding on the Company and the Executive for all purposes. For purposes of making the calculations and determinations required by this Section 7.07, the Tax Counsel may rely on reasonable, good faith assumptions and approximations concerning the application of Section 280G and Section 4999 of the Code. The Company and the Executive shall furnish the Tax Counsel with such information and documents as the Tax Counsel may reasonably request in order to make its determinations under this Section 7.07. The Company shall bear all costs the Tax Counsel may reasonably incur in connection with its services.

ARTICLE 8

EXECUTIVE'S OBLIGATIONS FOLLOWING TERMINATION

Upon termination of this Agreement for any reason, the Executive covenants with Lithium Nevada as follows:

8.01 Non-competition

During the term of this Agreement and for 12 months following termination of the Executive's employment, the Executive shall not accept employment from any company or business entity that is engaged in the Business within the Geographic Area. This Section shall not be construed so as to restrict the Executive's right to accept employment with or to engage in any business that is not competitive with the Business of Lithium Nevada. Notwithstanding anything to the contrary herein, this Section 8.01 shall not (i) apply following a termination of the Executive's employment due to a resignation for Good Reason with respect to which Section 7.04 applies, or (ii) prohibit the Executive from purchasing or owning less than five percent (5%) of the publicly traded securities of any corporation, providing that such ownership represents a passive investment and that the Executive is not a controlling person of, or a member of a group that controls, such corporation.

8.02 Non-solicitation of employees

During the Executive's employment and for a period of 12 months after termination of the Executive's employment for any reason, the Executive shall not, directly or indirectly, on the Executive's own behalf or on behalf of any Person, recruit, solicit, persuade or otherwise induce or attempt to recruit, solicit, persuade or induce any Person who is an employee of Lithium Nevada to terminate their employment with Lithium Nevada.

8.03 Non-disparagement

Subject to Section 8.05, during the Executive's employment and for a period of 12 months following the termination of this Agreement, the Executive shall not make any statement criticizing the LAC Group or impairing the goodwill or reputation of the LAC Group, unless truthful and required by law.

8.04 Extension/reasonableness of restrictive covenants

The period of time applicable to the covenants not to compete and not to solicit will be extended by the duration of any violation by the Executive of such covenants. In addition, the time periods applicable to the covenants not to compete and not to solicit will be extended by the duration of any period of time, after the termination of the Executive's employment with Lithium Nevada, that Executive is retained as a consultant to Lithium Nevada or an independent contractor by Lithium Nevada (in any capacity).

The Executive agrees that the restrictions of this Agreement are reasonable (in scope, duration, and activity restricted), necessary, and supported by valuable consideration. The Executive further agrees that the restrictions of this Agreement will not prevent him from obtaining adequate and gainful employment upon termination of his employment with the Lithium Nevada (voluntary or involuntary). The Executive also agrees that this Agreement: (i) does not impose on the Executive any restraint that is greater than required for the protection of the Lithium Nevada; (ii) does not impose undue hardship on the Executive; and (iii) imposes restrictions that are appropriate in relation to the valuable consideration supporting the non-competition and non-solicitation covenants.

The Executive acknowledges he has had a fair opportunity and time to independently consult with legal counsel and has been advised or had reasonable opportunity to be advised in all respects concerning the reasonableness and propriety of this Agreement. The Executive understands that his covenants in this Agreement are independent covenants, and the existence of any claim by the Executive against Lithium Nevada under this or any other agreement or otherwise will not excuse the Executive's breach of any covenant in this Agreement.

8.05 Protected rights

The Executive understands that (a) the Executive will not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made in confidence to a United States federal, state, or local government official or to an attorney solely for the purpose of reporting or investigating a suspected violation of law, (b) the Executive will not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade

secret that is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal, and (c) an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding if the individual files any document containing the trade secret under seal, and does not disclose the trade secret, except pursuant to court order.

In addition, nothing in this Agreement shall be construed to prohibit the Executive from exercising the Executive's legal rights with the Equal Employment Opportunity Commission, or any other federal, state or local agency charged with the enforcement of any law applicable to the LAC Group or participating in any investigation or proceeding conducted by such agency. Similarly, nothing in this Agreement shall prohibit the Executive from engaging in activity protected by applicable law. Finally, with respect to sexual assault dispute or sexual harassment dispute, nothing in this Agreement prohibits: (i) disclosure or discussion of conduct, the existence of a settlement involving conduct, or information covered by the terms and conditions of the contract or agreement; or (ii) negative statements about another party that relates to the contract, agreement, claim or case.

8.06 Return of property

At the conclusion of employment, or at Lithium Nevada's request during employment, the Executive shall promptly return to Lithium Nevada any LAC Group property in the Executive's possession or control, including but not limited to any Confidential Information, assets, or any other documents or information, whether in physical or electronic form.

If this modification is not possible under applicable law, such term shall be deemed not to be a part of this Agreement and the remainder of this Agreement shall remain in full force and effect.

ARTICLE 10

10.01 Personal information

The Executive acknowledges that the LAC Group may collect, use and/or disclose the Executive's personal information where it is reasonable for the purposes of establishing, managing or terminating the employment relationship, and in accordance with applicable privacy legislation and LAC Group policy.

The Executive further acknowledges that, in the course of employment, the Executive may obtain or control the personal information of employees, contractors, suppliers, customers, affiliates and other third parties. The Executive agrees to maintain and manage any such personal information in accordance with applicable LAC Group policy and legal requirements, and to immediately notify the LAC Group in the event of any unauthorized collection, use or disclosure of personal information.

ARTICLE 11

GENERAL PROVISIONS

11.01 Entire agreement

Except for any other agreements mentioned above, which are incorporated by reference, this Agreement constitutes the entire agreement between the parties relating to its subject matter. This Agreement supersedes either previous discussions or agreements or both between the parties. There are no representations, covenants, or other terms other than those set forth in this Agreement.

11.02 Further assurances

Each party shall sign (or cause to be signed) all further documents, do (or cause to be done) all further acts, and provide all reasonable assurances as may be necessary or desirable to give effect to this Agreement.

11.03 Amendment

This Agreement may only be amended by a written document signed by each of the parties.

11.04 Binding effect

This Agreement inures to the benefit of and binds the parties and their respective heirs, executors, administrators and other legally appointed representatives, successors, and permitted assigns.

11.05 Assignment

The Executive expressly agrees that this Agreement—specifically including the non-compete, non-solicitation and confidentiality provisions—may be assigned by Lithium Nevada to another New LAC subsidiary, or affiliate of the LAC Group, or a successor-in-interest to the LAC Group's

business whether by name change, sale of assets, stock, merger or otherwise, and the Executive consents to any such assignment. The assignment shall also automatically have the effect of adding the assignee as a party to this Agreement, including adding the assignee to all provisions that survive the termination of this Agreement and shall expand all such surviving provisions (e.g., non-competition, non-disclosure and non-solicitation) accordingly. The Executive expressly agrees that 5% of the Executive's Base Salary is in consideration of the Executive's consent to the right of the LAC Group's successors, affiliates, and assigns to enforce the provisions of this Section 11.05.

For the avoidance of doubt, such an assignment does not constitute Termination without Cause, Good Reason for the Executive's resignation, or a Change in Control under this Agreement, and therefore, does not entitle the Executive to the severance benefits outlined in Sections 7.02 and 7.04.

11.07 Code Section 409A

For purposes of this Agreement, a termination of employment will be determined consistent with the rules relating to a "separation from service" as defined in Section 409A of the Code and the regulations thereunder ("**Section 409A**"). Notwithstanding anything else provided herein, to the extent any payments provided under this Agreement in connection with Executive's termination of employment constitute deferred compensation subject to Section 409A, and Executive is deemed at the time of such termination of employment to be a "specified employee" under Section 409A, then such payment shall not be made or commence until the earlier of (i) the expiration of the 6-month period measured from Executive's separation from service from the LAC Group or (ii) the date of Executive's death following such a separation from service; provided, however, that such deferral shall only be effected to the extent required to avoid adverse tax treatment to Executive including, without limitation, the additional tax for which Executive would otherwise be liable under Section 409A(a)(1)(B) in the absence of such a deferral. The first payment thereof will include a catch-up payment covering the amount that would have otherwise been paid during the period between Executive's termination of employment and the first payment date but for the application of this provision, and the balance of the installments (if any) will be payable in accordance with their original schedule. To the extent that any provision of this Agreement is ambiguous as to its compliance with Section 409A, the provision will be read in such a manner so that all payments hereunder comply with Section 409A. To the extent any payment under this Agreement may be classified as a "short-term deferral" within the meaning of Section 409A, such payment shall be deemed a short-term deferral, even if it may also qualify for an exemption from Section 409A under another provision of Section 409A. Payments pursuant to this Section are intended to constitute separate payments for purposes of Section 1.409A-2(b)(2) of the Treasury Regulations. Except as otherwise expressly provided herein, to the extent any expense reimbursement or the provision of any in-kind benefit under this Agreement is determined to be subject to Section 409A of the Code, the amount of any such expenses eligible for reimbursement, or the provision of any in-kind benefit, in one calendar year shall not affect the expenses eligible for reimbursement in any other taxable year (except for any lifetime or other aggregate limitation applicable to medical expenses), in no event shall any expenses be reimbursed after the last day of the calendar year following the calendar year in which the Executive incurred such expenses, and in no event shall any right to reimbursement or the provision of any in-kind benefit be subject to liquidation or exchange for another benefit.

11.08 Governing law/venue

The laws of the State of Nevada shall govern this Agreement. Venue for any disputes under this Agreement shall be in Washoe County, Nevada. This venue provision is mandatory.

11.09 Submission to jurisdiction

The parties irrevocably submit to personal jurisdiction in Nevada and Washoe County.

11.10 Counterparts

This Agreement may be signed in any number of counterparts, each of which is an original, and all of which taken together constitute one single document. Counterparts may be transmitted by fax or in electronically scanned form.

11.11 Remedies/attorney's fees

The Executive acknowledges and agrees that monetary damages may not be a sufficient remedy for any breach by the Executive of the obligations set out in Articles 5 and 8 of this Agreement, and that in addition to all other remedies available at law, Lithium Nevada shall be entitled to seek injunctive or other equitable relief as a remedy for any such breach. If the Executive breaches this Agreement, Lithium Nevada shall be entitled to recover its reasonable attorney's fees and costs incurred as a result of the breach and/or as a result of pursuing enforcement of this Agreement.

1.02 Headings

The headings used in this Agreement and its division into articles, sections, schedules, exhibits, appendices, and other subdivisions do not affect its interpretation.

ARTICLE 2

TERMS OF EMPLOYMENT

2.01 Employment of Executive

Lithium Nevada employs the Executive and the Executive accepts his employment with Lithium Nevada upon the terms and conditions of this Agreement, conditional upon the Executive resigning

from the Executive's employment with Old LAC and providing Lithium Nevada with a copy of the resignation letter effecting such resignation. The Executive understands and agrees that his sole employment relationship is with Lithium Nevada, that Lithium Nevada is the Executive's employer, and that Lithium Nevada is responsible for payment of the compensation that the Executive receives under this Agreement.

2.02 Position and Duties

The Executive shall serve as Lithium Nevada's and New LAC's President and Chief Executive Officer, and Lithium Nevada's Chairman, on a full-time basis, reporting to the Board. The Executive will have such duties, authority, and responsibility as shall be commensurate with the position of President and Chief Executive Officer, and Lithium Nevada's Chairman as they may change from time to time.

2.03 Place of performance

The Executive will primarily work remotely out of the Executive's primary residence, which is currently located in Georgia, USA. The Executive acknowledges and agrees that he may be required to travel frequently, domestically and internationally, in support of the LAC Group's operations and Executive's duties with the LAC Group, and that such travel does not constitute Good Reason under this Agreement. Executive represents and warrants that Executive holds a valid passport and agrees to maintain a current passport as a condition of continued employment.

2.04 Compliance with policies and procedures

The Executive shall comply with Lithium Nevada's lawful policies and procedures and all New LAC policies applicable to Lithium Nevada employees, as they exist from time to time (including any code of ethics or business conduct and any disclosure or insider trading policy). Lithium Nevada and New LAC reserve the right to modify their policies and procedures from time to time in their sole and exclusive discretion.

2.05 Outside activities

The Executive may serve on civic or charitable boards or committees, and engage in charitable activities and community affairs, and with the prior written approval of Lithium Nevada, may engage in paid work for a third party or render business services to a third party, provided that any such activities do not materially interfere with the proper performance by the Executive of his duties and responsibilities under this Agreement. Requests by the Executive to serve on a public company board must be pre-approved in writing by the Board of Directors of New LAC, provided that an Executive must not serve on more than one public company board (apart from the LAC Group). The Executive will not serve on any board of an entity whose business is competitive with, or which otherwise could reasonably be expected to conflict with, the LAC Group.

ARTICLE 3

COMPENSATION

3.01 Base Salary

Lithium Nevada shall pay the Executive an annual base salary (the "**Base Salary**") of US$600,000 less applicable deductions and withholdings, on an incremental basis according to Lithium Nevada's payroll practices. The Base Salary will be reviewed annually and may or may not change, in the Board's sole discretion. The Base Salary is exclusive of and independent from the benefits described in Article 4 below.

3.02 Short-Term Incentive and Long-Term Incentive Compensation

Subject to the New LAC's Incentive Compensation Recovery Policy (the "**Compensation Recovery Policy**"), the Executive will be eligible for annual short-term incentive ("**STI**") compensation ("**STI Bonus**") and long-term incentive ("**LTI**") compensation ("**LTI Bonus**") in recognition of achieving corporate milestones under New LAC's performance management program (the "**Program**"), as determined by New LAC and approved by the Board on an annual basis, and as may be amended from time to time in their sole discretion, as follows:

(a) **Short-Term Incentive**. The Executive will be eligible for annual performance-based STI incentive compensation valued at a target rate of 100% of the Executive's Base Salary for the applicable performance year, comprised of a combination of cash and/or Restricted Share Units ("**RSUs**") or other equity-based grants awarded under the Program and New LAC's Equity Incentive plan (the "**Plan**"); and

(b) **Long-Term Incentive.** The Executive will also be eligible for annual discretionary LTI incentive compensation at a target rate of 125% of the Executive's Base Salary for the applicable performance year in the form of RSUs and/or Performance Share Units ("**PSUs**") or other equity-based grants awarded under the Plan.

The grant, exercise, expiration and all other terms of equity awards to the Executive shall be governed exclusively by the Plan and any equity grant agreement between New LAC and the Executive (the "**Grant Agreement**"). The Executive's Target STI Bonus and Target LTI Bonus will be reviewed periodically and may vary subject to the Board's recommendation and approval.

STI and LTI awards are not guaranteed and instead are dependent on the Executive's and New LAC's actual performance each calendar year in accordance with New LAC's compensation plan and the Program, subject at all times to Board and/or New LAC's approval. The Executive's Target STI Bonus and Target LTI Bonus is not a guaranteed amount, and payments or equity awards, if any, can range from 0-200% of the target in a given year. The Executive acknowledges that (i) the terms and criterion to determine STI and LTI awards may change each calendar year at the sole discretion of New LAC, with the approval of the Board; (ii) the Executive has no expectation of an STI or LTI payment or equity grant in any calendar year while employed by Lithium Nevada — or that such STI or LTI will be any particular amount or number; (iii) the amount of the STI or LTI payment or equity grant, if any, that the Executive may be awarded may change from calendar year to calendar year based on performance by the Executive and New LAC; (iv) any STI or LTI

award paid or issued to the Executive does not form part of the Executive's regular wages; (v) the Compensation Recovery Policy may require the Executive to repay compensation received by the Executive pursuant to the Plan or Program to ensure good corporate governance and compliance with applicable laws; and (vi) the Executive must be employed by Lithium Nevada on the date the discretionary STI or LTI is actually paid or issued in order to receive it, unless otherwise provided in this Agreement, the Plan or the Grant Agreement. The Executive will not be considered to be employed by Lithium Nevada if the Executive has tendered notice of resignation or has been provided with notice of termination of employment, regardless of whether such termination is lawful or unlawful.

3.03 Sign-On Bonus and Paid Time Off Days

Pursuant to a Termination Agreement and Release between Old LAC and the Executive, Old LAC and the Executive agree that all accrued remuneration up to the closing of the Separation Transaction has been paid (or will be paid as set out therein), and the Executive will release Old LAC from any and all claims in respect thereof.

The Executive will receive the following upon signature of this Agreement:

(a) A sign-on bonus equal to $80,766 and

(b) 35 days of Paid Time Off ("**PTO**")

In exchange for the Executive receiving the sign-on bonus and PTO days set forth above, the Executive agrees to waive any claim the Executive may have against Old LAC and New LAC arising from the Executive's employment with Old LAC or the termination thereof, including, but not limited to, any accrued, present or future claims for pay, salary, wages, notice of termination or pay in lieu of such notice, severance pay, overtime pay, flex time or banked time, interest, commissions, car allowances, expenses, profit sharing, stocks or stock options, equity interests, retirement entitlements, incentive payments, benefits or benefits coverages, holiday pay, vacation pay and tort damages (including damages on account of negligent misrepresentation or wrongful hiring).

The Executive's signature of this Agreement constitutes the Executive's acceptance of the above terms.

3.04 Retirement Plan Eligibility

The Executive will be eligible to participate in any retirement plan offered by Lithium Nevada on the same terms and conditions (including the Lithium Nevada-provided employer contribution) applicable to other similarly situated US-based senior executives. Retirement plans may be discontinued or amended from time to time in Lithium Nevada's discretion.

ARTICLE 4

4.03 Directors' and officers' insurance

4.04 Defense and Indemnification

In the event that the Executive is made a party or threatened to be made a party to any action, suit, or proceeding, whether civil, criminal, administrative, or investigative (a "**Proceeding**"), other than any Proceeding initiated by the Executive or the LAC Group related to any contest or dispute between the Executive and the LAC Group or any of their affiliates with respect to this Agreement or the Executive's employment hereunder, by reason of the fact that the Executive is or was a director or officer of New LAC, Lithium Nevada, or any of their affiliates, or is or was serving at the request of New LAC as a director, officer, member, employee, or agent of another corporation or a partnership, joint venture, trust, or other enterprise, the Executive shall be defended and indemnified by the LAC Group to the fullest extent applicable to any other officer or director of the LAC Group from and against any liabilities, costs, claims, and expenses, including all costs and expenses incurred in defense of any Proceeding (including attorneys' fees).

4.05 Business expenses

Lithium Nevada shall promptly reimburse the Executive for all reasonable and customary business expenses (including for all authorized travel, out-of-pocket expenses and office equipment, including Internet and phone services) that the Executive incurs in performing his employment services and that are incurred and accounted for in accordance with Lithium Nevada's policies and procedures. The Executive shall furnish any statements, receipts, invoices and other documentation that Lithium Nevada may reasonably require in order to process such reimbursements.

4.06 Tax preparation assistance

In the event that the Executive's duties necessitate that the Executive file tax returns in any other country besides the United States of America, Lithium Nevada will provide the Executive with tax preparation assistance, up to US $10,000, on terms and conditions to be memorialized in a separate Tax Equalization Agreement.

4.07 Health and wellness memberships

The Executive will be entitled to reimbursement for health and wellness-related memberships and fees for up to $1,500 per year, as stated in the Lithium Nevada's Health and Wellness Policy. ARTICLE 5

EXECUTIVES COVENANTS

5.01 No infringement of third parties' rights

In the performance of his duties for Lithium Nevada, the Executive shall not

(a) improperly bring to Lithium Nevada or the LAC Group, or use any trade secrets, confidential information or other proprietary information of any third party, or

(b) infringe the Intellectual Property Rights of any third party.

5.02 Assignment of Intellectual Property

The Executive assigns to Lithium Nevada all rights, if any, in or to Intellectual Property that may accrue to the Executive during the term of this Agreement. In addition, the Executive agrees, as a condition of employment, to execute Lithium Nevada's standard Confidentiality and Invention Assignment Agreement.

5.03 Waiver of moral rights

The Executive irrevocably waives, in favor of Lithium Nevada, all moral rights arising under applicable copyright legislation, or at common law, to the full extent that those rights may be waived in each jurisdiction, that the Executive may have now or in the future with respect to the Intellectual Property.

5.04 Obligation of confidentiality regarding Confidential Information

The Executive acknowledges and agrees that during his or her employment, the Executive has been entrusted with and had access to Confidential Information, the improper disclosure of which to any Person that directly or indirectly competes against the LAC Group or to the general public would be highly detrimental to the LAC Group's legitimate business interests. The Executive agrees, except as may be compelled by applicable law or pursuant to a valid court order, to keep

strictly confidential and not to directly or indirectly disclose by any means or methods whatsoever to any third person or business entity, all Confidential Information and/or trade secrets of any LAC Group company except to the extent generally known to the public and in the public domain through no fault of the Executive. The Executive further agrees not to use the Confidential Information for any purpose that is not related to the performance of his duties and responsibilities on behalf of the LAC Group.

5.05 Use of Confidential Information

The Executive shall use the Confidential Information solely in connection with the performance of the Executive's duties and responsibilities.

5.06 Required disclosure of Confidential Information

Subject to Section 8.05, the Executive shall disclose Confidential Information to a third party if it is required to do so by law but only if before that disclosure the Executive, to the extent permitted by law,

(a) gives Lithium Nevada and the Board notice to allow it a reasonable opportunity to either seek a protective order or other appropriate remedy or to waive the Executive's compliance with this section,

(b) reasonably cooperate with Lithium Nevada, at Lithium Nevada's expense, in its best efforts to obtain a protective order or other appropriate remedy,

(c) discloses only that portion of the Confidential Information that it is advised by written opinion of its counsel, addressed to both parties, is legally required to be disclosed, and

(d) uses reasonable efforts to obtain reliable written assurance from the third party that the Confidential Information will be kept confidential.

ARTICLE 6

ACKNOWLEDGEMENTS

6.01 The LAC Group Intellectual Property

The Intellectual Property is the sole and exclusive property of the LAC Group. The Executive shall not assert any rights against the LAC Group or its subsidiaries or any third party in connection with any Intellectual Property.

6.02 Construction of terms

The parties have each participated in settling the terms of this Agreement. Any rule of legal interpretation to the effect that any ambiguity is to be resolved against the drafting party will not apply in interpreting this Agreement.

6.03 Independent legal advice

(a) **Review of agreement**. The Executive has had full opportunity to review this Agreement and fully understands the terms of, and the nature and effect of its obligations under, this Agreement.

(b) **Obtained Independent Legal Advice**. The Executive has had full opportunity to obtain independent legal advice relating to this Agreement.

ARTICLE 7

TERMINATION

7.01 Grounds for termination

The Executive's employment may be terminated at any time only as follows:

(a) **Termination upon Death**. The Executive's employment terminates upon the Executive's death.

(b) **Termination by Company for Disability**. Lithium Nevada may terminate the Executive's employment upon the Executive's Disability.

(c) **Termination by Company for Cause**. Lithium Nevada may terminate the Executive's employment for Cause.

(d) **Termination by Company without Cause**. Lithium Nevada may terminate the Executive's employment at any time by providing the Executive with written notice of such termination and the severance benefits set out in this Agreement.

(e) **Termination by Executive for Good Reason**. The Executive may terminate the Executive's employment for Good Reason in accordance with the terms of this Agreement.

(f) **Termination by Executive's Resignation**. The Executive may voluntarily terminate the Executive's employment with Lithium Nevada at any time by giving Lithium Nevada eight weeks of prior written Notice of termination. Lithium Nevada may waive this Notice period in whole or in part and opt to pay the Executive's wages for the Notice period the Executive has provided, without the Executive performing further services for Lithium Nevada. The Executive understands and agrees that such a choice by Lithium Nevada to accept the Executive's resignation sooner and pay the Executive's wages for the Notice period shall not constitute termination of employment.

7.02 Severance benefits

If the Executive's employment terminates because of Disability or without Cause or for Good Reason, the Executive will be entitled to the following (subject to Section 7.06):

(a) **Salary**. Lithium Nevada shall provide the Executive with a lump sum payment equal to 24 months (the "**Severance Period**") of the Executive's Base Salary.

(b) **Short-Term Incentive**. As compensation for the STI Bonus the Executive would have earned through the Severance Period, Lithium Nevada will provide the Executive with a lump sum payment equal to 2 times the STI Bonus he received for the year prior to the year in which the Executive's employment terminates.

(c) **Equity Awards**. Notwithstanding any provisions of the Plan or any related Grant Agreement to the contrary, there will be accelerated vesting of any equity awards scheduled to vest during the Severance Period. Any equity awards previously granted to the Executive will otherwise continue to be governed by the terms of the Plan and any applicable Grant Agreement.

(d) **Benefit Continuation**. Continuation of benefits coverage for the Severance Period to the maximum extent permitted under applicable plan terms. For benefits that cannot be continued for all or part of the Severance Period, Lithium Nevada shall reimburse the Executive for replacement coverage.

The Executive agrees that, upon receipt of the payments and benefits outlined above, the Executive shall not be entitled to any further payments or damages in respect of notice of termination, severance or separation pay of any kind, whether under statute, contract or common law.

These termination provisions will continue to apply throughout the Executive's employment with Lithium Nevada notwithstanding any changes to the Executive's compensation, title, duties, or responsibilities.

All severance benefits shall be subject to withholding for applicable employment and income taxes.

7.03 Accrued entitlements

If the Executive's employment terminates for or without Cause or due to the Executive's resignation with or without Good Reason, Disability, or death, the Executive will be entitled to the following:

(a) **Salary**. Lithium Nevada shall pay the Executive's Base Salary up to and including the date on which the Executive's employment terminates.

(b) All accrued but unused PTO as of the termination date.

(c) All unreimbursed proper business expenses incurred by the Executive as of the termination date.

(d) **Short-Term Incentive**. Subject to the terms of the Plan and any applicable Grant Agreement, Lithium Nevada will provide the Executive with any STI Bonus approved by the Board, but not yet paid or issued, for the year prior to the year in which the Executive's employment terminates.

7.04 Change of Control

Subject to Section 7.06, if at any time during the term of this Agreement there is a Change of Control, and conditioned upon the Executive continuing to provide services to Lithium Nevada until the applicable Change of Control event, the Executive shall be entitled to receive the compensation and benefits set out in Section 7.02 on the same terms and conditions set out therein.

Any equity awards issued to the Executive shall be governed by the terms of the Plan and applicable Grant Agreement.

All severance benefits shall be subject to withholding for applicable employment and income taxes.

Further, the severance benefits and other compensation outlined in Sections 7.02 and 7.04 are not cumulative, and the Executive will be entitled to receive benefits and compensation (if applicable) under either Section 7.02 and 7.04—but not both.

7.05 Effect of termination

The Executive agrees that, upon termination of employment for any reason whatsoever, the Executive shall be deemed to have immediately resigned any position he may have as an officer, director, or employee of the LAC Group or any of its affiliates or related entities. Except upon the Executive's death, the Executive shall, at the request of the LAC Group, execute all documents appropriate to evidence those resignations. The Executive shall not be entitled to any payments or damages in respect of these resignations in addition to those provided for herein.

7.06 Release

The Executive acknowledges and agrees that the compensation provided under Sections 7.02 and 7.04 is reasonable and shall be in full satisfaction of all terms of the cessation of the Executive's employment, and the Executive shall have no other entitlement (including to anticipated earnings or damages of any kind), whether under statute, contract, common law or otherwise. As a condition precedent to payment of any compensation under Sections 7.02 and 7.04, the Executive agrees to execute before a witness and deliver to Lithium Nevada a separation agreement and general release of all claims against the LAC Group, their affiliates, subsidiaries and their directors, officers, employees, shareholders and agents, in a form reasonably satisfactory to Lithium Nevada and within the timelines specified by Lithium Nevada. In accordance with the Age Discrimination in Employment Act, if applicable, the Executive will be provided an extended period of time to consider the terms of the release before signing, and no benefits shall be payable until the consideration period and any revocation periods have passed. Except for the Accrued Entitlements

in Section 7.03, no compensation will be due and payable to the Executive until after the LAC Group receives a fully executed original of such separation agreement and general release, and any applicable revocation periods have expired. Except for the Accrued Entitlements, any compensation due under this Agreement shall be made on the 60th day following separation from service, provided the release is effective on such date and any revocation periods have expired. Lump sum severance shall be paid no later than March 15 of the calendar year following the year in which Executive's employment is terminated without Cause, or for Good Reason, or due to a Disability, provided that the release described above is effective at such time.

7.07 Section 280G

(a) If any of the payments or benefits received or to be received by the Executive (including, without limitation, any payments or benefits received in connection with a Change in Control including payments that could be made on the Executive's termination of employment following a Change in Control, whether pursuant to the terms of this Agreement or any other plan, arrangement, or agreement, or otherwise) (all such payments collectively referred to herein as the "**280G Payments**") constitute "parachute payments" within the meaning of Section 280G of the Code and will be subject to the excise tax imposed under Section 4999 of the Code (the "Excise Tax"), the 280G Payments shall be either: (i) reduced (but not below zero) so that the present value of such total 280G Payments received by Executive will be one dollar ($1.00) less than three (3) times Executive's "base amount" (as defined in Section 280G(b)(3) of the Code) and so that no portion of such 280G Payments will be subject to the excise tax imposed by Section 4999 of the Code, or (ii) paid in full, whichever of (i) or (ii) produces the better net after tax position to Executive (taking into account any applicable excise tax under Section 4999 of the Code and any other applicable taxes). If a reduction in such 280G Payments is to be made pursuant to this section, the 280G Payments shall be reduced in the following order: (A) any portion of the cash severance payable hereunder that is not "nonqualified deferred compensation" for purposes of Code Section 409A; (B) any benefits continuation valued as parachute payments; (C) any accelerated vesting of any equity awards; and (D) any portion of the cash severance payable hereunder and any other cash amounts that are "nonqualified deferred compensation" for purposes of Code Section 409A.

(b) All calculations and determinations under this Section 7.07 shall be made by an independent accounting firm or independent tax counsel appointed by the Company (the "**Tax Counsel**") whose determinations shall be conclusive and binding on the Company and the Executive for all purposes. For purposes of making the calculations and determinations required by this Section 7.07, the Tax Counsel may rely on reasonable, good faith assumptions and approximations concerning the application of Section 280G and Section 4999 of the Code. The Company and the Executive shall furnish the Tax Counsel with such information and documents as the Tax Counsel may reasonably request in order to make its determinations under this Section 7.07. The Company shall bear all costs the Tax Counsel may reasonably incur in connection with its services.

ARTICLE 8

EXECUTIVE'S OBLIGATIONS FOLLOWING TERMINATION

Upon termination of this Agreement for any reason, the Executive covenants with Lithium Nevada as follows:

8.01 Non-competition

During the term of this Agreement and for 24 months following termination of the Executive's employment, the Executive shall not accept employment from any company or business entity that is engaged in the Business within the Geographic Area. This section shall not be construed so as to restrict the Executive's right to accept employment with or to engage in any business that is not competitive with the Business of Lithium Nevada. Notwithstanding anything to the contrary herein, this Section 8.01 shall not (a) apply following a termination of the Executive's employment due to a resignation for Good Reason with respect to which Section 7.04 applies, or (b) prohibit the Executive from purchasing or owning less than five percent (5%) of the publicly traded securities of any corporation, providing that such ownership represents a passive investment and that the Executive is not a controlling person of, or a member of a group that controls, such corporation.

8.02 Non-solicitation of employees

During the Executive's employment and for a period of 24 months after termination of the Executive's employment for any reason, the Executive shall not, directly or indirectly, on the Executive's own behalf or on behalf of any Person, recruit, solicit, persuade or otherwise induce or attempt to recruit, solicit, persuade or induce any Person who is an employee of Lithium Nevada to terminate their employment with Lithium Nevada.

8.03 Non-disparagement

Subject to Section 8.05, during the Executive's employment and for a period of 24 months following the termination of this Agreement, the Executive shall not make any statement criticizing the LAC Group or impairing the goodwill or reputation of the LAC Group, unless truthful and required by law.

8.04 Extension/reasonableness of restrictive covenants

The period of time applicable to the covenants not to compete and not to solicit will be extended by the duration of any violation by the Executive of such covenants. In addition, the time periods applicable to the covenants not to compete and not to solicit will be extended by the duration of any period of time, after the termination of the Executive's employment with Lithium Nevada, that Executive is retained as a consultant to Lithium Nevada or an independent contractor by Lithium Nevada (in any capacity).

The Executive agrees that the restrictions of this Agreement are reasonable (in scope, duration, and activity restricted), necessary, and supported by valuable consideration. The Executive further agrees that the restrictions of this Agreement will not prevent him from obtaining adequate and

gainful employment upon termination of his employment with the Lithium Nevada (voluntary or involuntary). The Executive also agrees that this Agreement: (a) does not impose on the Executive any restraint that is greater than required for the protection of the Lithium Nevada; (b) does not impose undue hardship on the Executive; and (c) imposes restrictions that are appropriate in relation to the valuable consideration supporting the non-competition and non-solicitation covenants.

The Executive acknowledges he has had a fair opportunity and time to independently consult with legal counsel and has been advised or had reasonable opportunity to be advised in all respects concerning the reasonableness and propriety of this Agreement. The Executive understands that his covenants in this Agreement are independent covenants, and the existence of any claim by the Executive against Lithium Nevada under this or any other agreement or otherwise will not excuse the Executive's breach of any covenant in this Agreement.

8.05 Protected rights

The Executive understands that (a) the Executive will not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made in confidence to a United States federal, state, or local government official or to an attorney solely for the purpose of reporting or investigating a suspected violation of law, (b) the Executive will not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal, and (c) an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding if the individual files any document containing the trade secret under seal, and does not disclose the trade secret, except pursuant to court order.

In addition, nothing in this Agreement shall be construed to prohibit the Executive from exercising the Executive's legal rights with the Equal Employment Opportunity Commission, or any other federal, state or local agency charged with the enforcement of any law applicable to the LAC Group or participating in any investigation or proceeding conducted by such agency. Similarly, nothing in this Agreement shall prohibit the Executive from engaging in activity protected by applicable law. Finally, with respect to sexual assault dispute or sexual harassment dispute, nothing in this Agreement prohibits: (i) disclosure or discussion of conduct, the existence of a settlement involving conduct, or information covered by the terms and conditions of the contract or agreement; or (ii) negative statements about another party that relates to the contract, agreement, claim or case.

8.06 Return of property

At the conclusion of employment, or at Lithium Nevada's request during employment, the Executive shall promptly return to Lithium Nevada any LAC Group property in the Executive's possession or control, including but not limited to any Confidential Information, assets, or any other documents or information, whether in physical or electronic form.

ARTICLE 9

RIGHTS AND REMEDIES

9.01 Survival

Sections 5.03 (Waiver of moral rights), 5.04 (Obligation of confidentiality regarding Confidential Information), 5.05 (Use of Confidential Information), 5.06 (Required disclosure of Confidential Information), 6.01 (Company Intellectual Property), 8.01 (Non-competition), 8.02 (Non-solicitation of employees), 8.03 (Non-disparagement), 8.04 (Extension/reasonableness of restrictive covenants), 11.08 (Governing law), and 11.09 (Submission to jurisdiction) and the Executive's obligations pursuant to the Compensation Recovery Policy shall survive the termination of this Agreement.

9.02 Severability

The invalidity or unenforceability of any particular term of this Agreement will not affect or limit the validity or enforceability of the remaining terms. If any provision of this Agreement is determined to be to be wholly or partially illegal, invalid, contrary to public policy or unenforceable, the legality, validity, and enforceability of the remaining parts, terms, or provisions shall not be affected thereby, and said illegal, unenforceable, or invalid part, term, or provision shall be first amended to give it/them the greatest effect allowed by law and to reflect the intent of the parties. If this modification is not possible under applicable law, such term shall be deemed not to be a part of this Agreement and the remainder of this Agreement shall remain in full force and effect.

ARTICLE 10

PRIVACY

10.01 Personal information

The Executive acknowledges that the LAC Group may collect, use and/or disclose the Executive's personal information where it is reasonable for the purposes of establishing, managing or terminating the employment relationship, and in accordance with applicable privacy legislation and LAC Group policy.

The Executive further acknowledges that, in the course of employment, the Executive may obtain or control the personal information of employees, contractors, suppliers, customers, affiliates and other third parties. The Executive agrees to maintain and manage any such personal information in accordance with applicable LAC Group policy and legal requirements, and to immediately notify the LAC Group in the event of any unauthorized collection, use or disclosure of personal information.

ARTICLE 11

GENERAL PROVISIONS

11.01 Entire agreement

Except for any other agreements mentioned above, which are incorporated by reference, this Agreement constitutes the entire agreement between the parties relating to its subject matter. This Agreement supersedes either previous discussions or agreements or both between the parties. There are no representations, covenants, or other terms other than those set forth in this Agreement.

11.02 Further assurances

Each party shall sign (or cause to be signed) all further documents, do (or cause to be done) all further acts, and provide all reasonable assurances as may be necessary or desirable to give effect to this Agreement.

11.03 Amendment

This Agreement may only be amended by a written document signed by each of the parties.

11.04 Binding effect

This Agreement inures to the benefit of and binds the parties and their respective heirs, executors, administrators and other legally appointed representatives, successors, and permitted assigns.

11.05 Assignment

The Executive expressly agrees that this Agreement—specifically including the non-compete, non-solicitation and confidentiality provisions—may be assigned by Lithium Nevada to another New LAC subsidiary, or affiliate of the LAC Group, or a successor-in-interest to the LAC Group's business whether by name change, sale of assets, stock, merger or otherwise, and the Executive consents to any such assignment. The assignment shall also automatically have the effect of adding the assignee as a party to this Agreement, including adding the assignee to all provisions that survive the termination of this Agreement and shall expand all such surviving provisions (e.g., non-competition, non-disclosure and non-solicitation) accordingly. The Executive expressly agrees that 5% of the Executive's Base Salary is in consideration of the Executive's consent to the right of the LAC Group's successors, affiliates, and assigns to enforce the provisions of this Section 11.05.

For the avoidance of doubt, such an assignment does not constitute Termination without Cause, Good Reason for the Executive's resignation, or a Change in Control under this Agreement, and therefore, does not entitle the Executive to the severance benefits outlined in Sections 7.02 and 7.04.

To be effective, a notice must be in writing and delivered (a) personally, either to the individual designated below for that party or to an individual having apparent authority to accept deliveries on behalf of that individual at its address set out below, or (b) by registered mail, or (c) by electronic mail to the address or electronic mail address set out opposite the party's name below or to any other address or electronic mail address for a party as that party from time to time designates to the other parties in the same manner:

11.07 Code Section 409A

For purposes of this Agreement, a termination of employment will be determined consistent with the rules relating to a "separation from service" as defined in Section 409A of the Code and the regulations thereunder ("**Section 409A**"). Notwithstanding anything else provided herein, to the extent any payments provided under this Agreement in connection with Executive's termination of employment constitute deferred compensation subject to Section 409A, and Executive is deemed at the time of such termination of employment to be a "specified employee" under Section 409A, then such payment shall not be made or commence until the earlier of (a) the expiration of the 6-month period measured from Executive's separation from service from the LAC Group or (b) the date of Executive's death following such a separation from service; provided, however, that such deferral shall only be effected to the extent required to avoid adverse tax treatment to Executive including, without limitation, the additional tax for which Executive would otherwise be liable under Section 409A(a)(1)(B) in the absence of such a deferral. The first payment thereof will include a catch-up payment covering the amount that would have otherwise been paid during the period between Executive's termination of employment and the first payment date but for the application of this provision, and the balance of the installments (if any) will be payable in accordance with their original schedule. To the extent that any provision of this Agreement is ambiguous as to its compliance with Section 409A, the provision will be read in such a manner so that all payments hereunder comply with Section 409A. To the extent any payment under this Agreement may be classified as a "short-term deferral" within the meaning of Section 409A, such payment shall be deemed a short-term deferral, even if it may also qualify for an exemption from Section 409A under another provision of Section 409A. Payments pursuant to this section are intended to constitute separate payments for purposes of Section 1.409A-2(b)(2) of the Treasury

Regulations. Except as otherwise expressly provided herein, to the extent any expense reimbursement or the provision of any in-kind benefit under this Agreement is determined to be subject to Section 409A of the Code, the amount of any such expenses eligible for reimbursement, or the provision of any in-kind benefit, in one calendar year shall not affect the expenses eligible for reimbursement in any other taxable year (except for any lifetime or other aggregate limitation applicable to medical expenses), in no event shall any expenses be reimbursed after the last day of the calendar year following the calendar year in which the Executive incurred such expenses, and in no event shall any right to reimbursement or the provision of any in-kind benefit be subject to liquidation or exchange for another benefit.

11.08 Governing law/venue

The laws of the State of Nevada shall govern this Agreement. Venue for any disputes under this Agreement shall be in Washoe County, Nevada. This venue provision is mandatory.

11.09 Submission to jurisdiction

The parties irrevocably submit to personal jurisdiction in Nevada and Washoe County.

11.10 Counterparts

This Agreement may be signed in any number of counterparts, each of which is an original, and all of which taken together constitute one single document. Counterparts may be transmitted by fax or in electronically scanned form.

11.11 Remedies/attorney's fees

The Executive acknowledges and agrees that monetary damages may not be a sufficient remedy for any breach by the Executive of the obligations set out in Articles 5 and 8 of this Agreement, and that in addition to all other remedies available at law, Lithium Nevada shall be entitled to seek injunctive or other equitable relief as a remedy for any such breach. If the Executive breaches this Agreement, Lithium Nevada shall be entitled to recover its reasonable attorney's fees and costs incurred as a result of the breach and/or as a result of pursuing enforcement of this Agreement.

(d) *Termination by Employer without Cause.* The Employer may terminate the Executive's employment at any time without Cause by providing the Executive with written notice of such termination and the severance benefits set out in this Agreement.

The Executive understands and agrees that such a choice by the Employer to accept the Executive's resignation sooner and pay the Executive's wages for the notice period shall not constitute an actual or constructive termination of employment.

If the Executive's employment terminates because of Disability or without Cause or for Good Reason, the Executive will be entitled to the following (subject to Section 7.06):

The Executive agrees that, upon receipt of the payments and benefits outlined above as well as the Employer's compliance with Section 7.03, the Executive shall not be entitled to any further

The Executive agrees that if the Executive's employment with the Employer ceases as a result of the constructive dismissal of the Executive's employment, then this section will govern and limit the Executive's entitlements upon such constructive dismissal as if the Employer had terminated the Employee's employment without Cause.

Employer's benefits provider or insurer and subject to any required exclusions to such continuation and the terms and conditions of the applicable plan(s), provided, however, that in no case will the Executive receive less than the Executive's entitlements under the ESA. For benefits that cannot be continued through the entire 24 months, the Employer will pay the Executive the value of the premiums that would have been paid to the plans during the 24-month period.

Any equity awards issued to the Executive shall be governed by the terms of the Plan and applicable Grant Agreement.

All severance benefits shall be subject to withholding for applicable employment and income taxes.

7.06 Release

The Executive acknowledges and agrees that the compensation provided under sections 7.02 and 7.04 is reasonable and shall be in full satisfaction of all terms of the cessation of the Executive's employment, and the Executive shall have no other entitlement (including to anticipated earnings or damages of any kind), whether under statute, contract, common law or otherwise. As a condition precedent to payment of any compensation under sections 77.02 and 7.04 to the extent that such compensation is in excess of the minimum requirements under the ESA, the Executive agrees to execute before a witness and deliver to the Employer a separation agreement and general release of all claims against the Employer, its affiliates, subsidiaries and their directors, officers, employees, shareholders and agents, in a form reasonably satisfactory to the Employer and within the timelines specified by the Employer. Except for the Accrued Entitlements in Section 7.03 and any

payments and benefits required by the ESA under the circumstances, no compensation will be due and payable to the Executive until after the Employer receives a fully executed original of such separation agreement and general release. Except for the Accrued Entitlements and any payments and benefits required by the ESA under the circumstances, any compensation due under this Agreement shall be made on the 60th day following separation from service, provided the release is effective on such date. Exhibit 19.1

I. Objective and Scope

The objective of this Securities Trading Policy (the "**Policy**") is to ensure that the Employees, Officers, Directors and Consultants (collectively, "**Covered Persons**") of Lithium Americas Corp. ("**LAC**") and its subsidiaries and joint venture interests (LAC together with its subsidiaries and joint venture interests are referred to as the "**Company**" herein) are in compliance with applicable laws, rules and regulations when they trade in securities issued by LAC, and comply with the requirements of LAC's long-term equity incentive plan.

The Policy also extends to any trading by trusts and holding companies controlled by a Covered Person. The Company expects Covered Persons will ensure compliance by family and other members of their household.

The trading restrictions in this Policy will continue to apply to a Covered Person's transactions in securities after employment, or after any relevant relationship between the Company and Covered Person terminates and continues for so long as the former Covered Person is in possession of nonpublic Material Information. No trading may occur until the information becomes public or ceases to be material. Transactions that may be necessary or justifiable for independent reasons, such as the need to raise money for an emergency expenditure, are no exception. Even the appearance of an improper transaction must be avoided.

Directors and certain Officers, including the Company's named executive officers, the principal financial and accounting officers, vice presidents in charge of principal business units, divisions or other functions and other Officers who have similar policy-making authority (collectively, the "**Insiders**"), are subject to additional requirements under the United States Securities Exchange Act of 1934, as amended (the "**Exchange Act**").

II. Securities and Trading Restrictions

LAC is a public company in Canada and the U.S. as its common shares are listed for trading on the Toronto Stock Exchange and the New York Stock Exchange. As such, the Company and its Covered Persons are subject to restrictions against trading in securities of LAC while in possession of material information that has not been publicly disclosed. Trading while in possession of material undisclosed information is generally known as insider trading.

“Trade in securities” or “trading in securities” when used in this Policy includes, but is not limited to:

A. Purchases or sales of shares, bonds, options, puts and calls;

B. Sales of Company shares upon vesting and settlement of Restricted Share Units (“**RSUs**”), Deferred Share Units (“**DSUs**”) and Performance Share Units (“**PSUs**”), and sales of Company shares acquired upon options exercise;

C. Borrowing money against a trading account if the loan results in the liquidation of any portion of common shares issued by the Company; and

D. Pre-paying a loan if the pre-payment results in an allocation of the proceeds to Company shares.

This Policy does not apply in the case of the following transactions under employee plans, except as specifically noted:

E. **Stock Option Exercises**. This Policy does not apply to the exercise of an employee stock option acquired pursuant to LAC’s plans, or to the exercise of a tax withholding right pursuant to which a person has elected to have LAC withhold shares subject to an option to satisfy tax withholding requirements. This Policy does apply, however, to any sale of stock as part of a broker-assisted cashless exercise of an option, or any other market sale for the purpose of generating the cash needed to pay the exercise price of an option or the taxes related to such exercise.

F. **Restricted Stock Awards**. This Policy does not apply to the vesting of restricted stock, or the exercise of a tax withholding right pursuant to which you elect to have LAC withhold shares of stock to satisfy tax withholding requirements upon the vesting of any restricted stock. The Policy does apply, however, to any market sale of restricted stock, including for the purpose of generating the cash needed to pay the taxes related to such vesting.

III. Definitions

“**Board**” means the Company’s Board of Directors.

"**Director**” means a member of the Board.

“**Employees**” means any individual hired directly by LAC or one of its subsidiaries.

“**Management**” means LAC employees who directly report to the Chief Executive Officer (“**CEO**”) or Chief Financial Officer (“**CFO**”), have an Executive Vice President (“**EVP**”) or Senior Vice President (“**SVP**”) title, or other Officers of the Company.

“**Material Information**” means any information relating to the business or affairs of the Company, its subsidiaries or co-owned entities that results in, or would result in a reasonably significant change in, or have a material effect on, the market price or value of the Company's securities or that would be expected to have a significant influence on a reasonable investor’s decision to buy, hold or sell such securities.

"**Officer**" means a LAC employee appointed by the Board or CEO in accordance with the Company's Articles.

IV. Materials Nonpublic Information

"**Material Information**" generally includes:

- "**Material Changes**" – any changes in the business, operations or capital of LAC that would reasonably be expected to have a significant effect on the market price or value of the issuer's securities; and

- "**Material Facts**" – facts that would reasonably be expected to have a significant effect on the market price or value of LAC's securities.

Insider trading prohibitions come into play only when you possess information that is material and "nonpublic." The fact that information has been disclosed to a few members of the public does not make it public for insider trading purposes. To be "public" the information must have been disseminated in a manner designed to reach investors generally, and the investors must be given the opportunity to absorb the information. Even after public disclosure of information about LAC, you must wait until the close of business on the second trading day after the information was publicly disclosed before you can treat the information as public.

"Nonpublic" information may include:

- Information available to a select group of analysts or brokers or institutional investors;

- Undisclosed facts that are the subject of rumors, even if the rumors are widely circulated; and

- Information that has been entrusted to LAC on a confidential basis until a public announcement of the information has been made and enough time has elapsed for the market to respond to a public announcement of the information (normally two trading days).

As with questions of materiality, if you are not sure whether information is considered public, you should either consult with the CFO or the General Counsel or assume that the information is nonpublic and treat it as confidential.

V. Prohibited Transactions

Covered Persons are prohibited under applicable securities laws and this Policy from:

A. Insider Trading – A Covered Person must not, directly or indirectly through a third party acting on their behalf, trade in securities of LAC while in possession of nonpublic Material Information.

B. Trading During Blackout Periods – A Covered Person must not trade, directly or indirectly through a third party acting on their behalf, any securities of LAC during any blackout period imposed by the Company.

C. Tipping and Disclosure of Information – A Covered Person must not "tip" or disclose nonpublic Material Information to any third party outside of the Company unless the disclosure is necessary in the ordinary course of the Company's business. This includes a prohibition against selecting providing information to service providers, analysts, investors, news media, related persons and friends or family members, or posting information on social media.

D. Trading Advice – Generally, a Covered Person should not provide any trading advice to friends or family members, but especially not while in possession of nonpublic Material Information.

E. Hedging and Derivatives Trading – A Covered Person must not engage in short-selling activities, or hold speculative or derivative positions (such as put options, call options, forward contracts, futures contracts, equity swaps, spread bets, contracts for difference or other derivative securities) that have the effect of hedging or offsetting a decrease in the market value of any of the Company's securities in order to limit the Covered Person's or a third party's economic risk arising from such person's holdings, ownership or interest in securities of the Company.

F. Short Sales for Sales of Options and Warrants – A short sale will be permitted in limited circumstances only, where a Covered Person, other than an Insider, is exercising a security granted under an incentive plan of the Company (such as a DSU, RSU, PSU, option or warrant) and requires the funds to facilitate the exercise or pay taxes arising from such exercise, provided it does not occur during a blackout period.

G. Trading on Margin or Pledging – A Covered Person may not hold Company securities in a margin account or pledge Company securities as collateral for a loan.

H. Trading in Securities of Other Companies – A Covered Person may not purchase or sell any security of any other company while in possession of nonpublic Material Information that was obtained in the course of his or her involvement with the Company. No Covered Person who knows of any such nonpublic Material

VI. Blackout Periods

The Company will impose trading blackouts from time to time during which trading, including buying, selling or engaging in any other activities concerning the securities of LAC, will be strictly prohibited unless the transaction is subject to a Rule 10b5-1 plan. Trading blackouts may be initiated by the Company that apply to all Covered Persons or to specific Covered Persons only and may also be extended to include external advisors such as legal counsel and financial advisors.

Blackout periods will specifically apply to Covered Persons during:

Year-End – the period commencing on the earlier of:

A. the sixtieth (60th) day following the Company's fiscal year-end (the "**Year-End**"); and

B. two weeks prior to the date on which the Company's audit committee is scheduled to review the Year- End financial reporting, and ending on the day that is one full business day following the Company's filing of the Year-End financial reporting with its principal regulator.

Quarter-End – the period commencing on the earlier of:

C. the thirtieth (30th) day following the end of any fiscal quarter of the Company (the "**Quarter**"); and

D. two weeks prior to the date on which the Company's audit committee is scheduled to review the interim financial reporting for the Quarter, and ending on the day that is one full business day after the Company's interim financial reporting for the Quarter is filed.

The CFO may designate other blackout periods or adjust the start of the Year-End and Quarter-End periods if they deem it appropriate.

Covered Persons subject to the blackout period restrictions whose employment or other relationship with the Company terminates during a blackout period will remain subject to the restrictions until the end of the blackout period, regardless of the date of their departure or termination of the relationship, and ending on the day that is one full business day after the Company's interim financial reporting for the Quarter is filed.

Covered Persons subject to the blackout period restrictions whose employment or other relationship with the Company terminates during a blackout period will remain subject to the restrictions until the end of the blackout period, regardless of the date of their departure or termination of the relationship.

VII. Pre- Clearance of Trades

To protect the reputation of the Company and avoid the appearance of impropriety, all Covered Persons of the Company are required to pre-clear all proposed direct and indirect trades in the Company's securities, including common shares and the exercise of stock options, DSUs, RSUs and PSUs with the CFO or General Counsel of the Company, or such other person as may be designated by the Company from time to time.

VIII. Insider Reporting

Pursuant to National Instrument 55-104 Insider Reporting Requirements and Exemptions ("**NI 55-104**"), all Reporting Insiders (as that term is defined under NI 55-104) must file an insider report in respect of the Company within 10 days of becoming a Reporting Insider and subsequently within five days of a change in the Reporting Insider's holdings.

Pursuant to Section 16 of the Exchange Act and related rules and regulations, insiders including officers, directors, or shareholders of LAC who possess stock that directly or indirectly results in

beneficial ownership of more than 10% of the Company's common stock or other class of equity are subject to short-swing profit disgorgement and reporting within 10 days of becoming an insider and subsequently within two business days of certain changes in the insider's holdings.

IX. Community and Non-Compliance

This Policy extends to all Covered Persons and is available on the Company's website and intranet. New Covered Persons will be provided with a copy and educated about its importance. This Policy will be circulated to all Covered Persons whenever any changes are made, and an updated version posted to the website and intranet.

Any Covered Person who violates this Policy may be disciplined by the Company, up to termination of employment or a contractual relationship with the Company without notice. Also, Covered Persons should be aware that the violation of this Policy could also violate certain securities laws. As a result, the Covered Person could be exposed to regulatory actions such as penalties and fines, bans on trading or acting as a director or officer of a public company, or other disciplinary action or punishment as determined by securities regulators or other authorities in their discretion.

X. Amendments

This Policy will be reviewed from time to time and may be updated or replaced with the authorization of management or the Company Board of Directors or its committees.

Exhibit 97.1

I. Introduction

The Board of Directors of Lithium Americas Corp. (the "**Company**") believes that it is in the best interests of the Company and its shareholders to create and maintain a culture that emphasizes integrity and accountability and that reinforces the Company's compensation philosophy. The Board has therefore adopted this policy, which provides for the recovery of erroneously awarded incentive compensation in the event that the Company is required to prepare an accounting restatement due to material noncompliance of the Company with any financial reporting requirements under the federal securities laws or in the event of misconduct that has a material adverse effect on the Company's business (the "**Policy**"). This Policy is designed to comply with Section 10D of the Securities Exchange Act of 1934, as amended (the "**Exchange Act**"), related rules and the listing standards of the New York Stock Exchange ("**NYSE**") or any other securities exchange on which the Company's shares are listed in the future.

II. Administration

This Policy shall be administered by the Board or, if so designated by the Board, the Governance and Nomination Committee (the "**Committee**"), in which case, all references herein to the Board shall be deemed references to the Committee. Any determinations made by the Board shall be final and binding on all affected individuals.

III. Covered Executives

Unless and until the Board determines otherwise, for purposes of this Policy, the term "**Covered Executive**" means a current or former employee who is or was identified by the Company as the Company's president, principal financial officer, principal accounting officer (or if there is no such accounting officer, the controller), any vice-president of the Company in charge of a principal business unit, division, or function (such as sales, administration, or finance), any other officer who performs a policy-making function, or any other person who performs similar policy-making functions for the Company. Executive officers of the Company's subsidiaries are deemed "Covered Executives" if they perform such policy-making functions for the Company. "Policy-making function" is not intended to include policy-making functions that are not significant. "Covered Executives" will include, at minimum, the executive officers identified by the Company pursuant to Item 401(b) of Regulation S-K of the Exchange Act and at least the following Company officers: (a) Chief Executive Officer, (b) Chief Financial Officer, (c) Executive Chair, (d) the two most highly compensated executive officers, other than the CEO and CFO, as determined in accordance with applicable securities laws, rules or regulations, and (e) each individual who would be a "Covered Executive" under (d) but for the fact that the individual was neither an executive officer of the Company, nor acting in a similar capacity, at the end of the applicable financial year.

This Policy covers Incentive Compensation received by a person after beginning service as a Covered Executive and who served as a Covered Executive at any time during the performance period for that Incentive Compensation.

IV. Recovery: Accounting Restatement

In the event of an Accounting Restatement, the Company will recover reasonably promptly any excess Incentive Compensation received by any Covered Executive during the three completed fiscal years immediately preceding the date on which the Company is required to prepare an Accounting Restatement, including transition periods resulting from a change in the Company's fiscal year as provided in Rule 10D-1 of the Exchange Act. Incentive Compensation is deemed "received" in the Company's fiscal period during which the Financial Reporting Measure specified in the Incentive Compensation award is attained, even if the payment or grant of the Incentive Compensation occurs after the end of that period.

A. Definition of Accounting Restatement.

For the purposes of this Policy, an "**Accounting Restatement**" means the Company is required to prepare an accounting restatement of its financial statements filed with the Securities and Exchange Commission (the "**SEC**") due to the Company's material noncompliance with any financial reporting requirements under the federal securities laws (including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements, or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period).

The determination of the time when the Company is "**required**" to prepare an Accounting Restatement shall be made in accordance with applicable SEC and national securities exchange rules and regulations.

An Accounting Restatement does not include situations in which financial statement changes did not result from material non-compliance with financial reporting requirements, such as, but not limited to retrospective: (i) application of a change in accounting principles; (ii) revision to reportable segment information due to a change in the structure of the Company's internal organization; (iii) reclassification due to a discontinued operation; (iv) application of a change in reporting entity, such as from a reorganization of entities under common control; (v) adjustment to provision amounts in connection with a prior business combination; and (vi) revision for stock splits, stock dividends, reverse stock splits or other changes in capital structure.

B. Definition of Incentive Compensation.

For purposes of this Policy, "**Incentive Compensation**" means any compensation that is granted, earned, or vested based wholly or in part upon the attainment of a Financial Reporting Measure, including, for example, bonuses or awards under the Company's short and long-term incentive plans, grants and awards under the Company's equity incentive plans, and contributions of such bonuses or awards to the Company's deferred compensation plans or other employee benefit plans. Incentive Compensation does not include awards which are granted, earned and vested without regard to attainment of Financial Reporting Measures.

C. Financial Reporting Measures.

"**Financial Reporting Measures**" are those that are determined and presented in accordance with the accounting principles used in preparing the Company's financial statements (including non-GAAP financial measures) and any measures derived wholly or in part from such financial measures. For the avoidance of doubt, Financial Reporting Measures include stock price and total shareholder return. A measure need not be presented within the financial statements or included in a filing with the SEC or other applicable securities regulators to constitute a Financial Reporting Measure for purposes of this Policy.

D. Excess Incentive Compensation: Amount Subject to Recovery.

The amount(s) to be recovered from the Covered Executive will be the amount(s) by which the Covered Executive's Incentive Compensation for the relevant period(s) exceeded the amount(s) that the Covered Executive otherwise would have received had such Incentive Compensation been determined based on the restated amounts contained in the Accounting Restatement. All amounts shall be computed without regard to taxes paid.

For Incentive Compensation based on Financial Reporting Measures such as stock price or total shareholder return, where the amount of excess compensation is not subject to mathematical recalculation directly from the information in an Accounting Restatement, the Board will calculate the amount to be reimbursed based on a reasonable estimate of the effect of the Accounting Restatement on such Financial Reporting Measure upon which the Incentive Compensation was received. The Company will maintain documentation of that reasonable estimate and will provide such documentation to the applicable national securities exchange.

V. Recovery: Misconduct

In the event that the Board, in its sole discretion, determines that (a) a Covered Executive engaged in Misconduct, and (b) such Misconduct results in a material adverse effect on the Company's business, including but not limited to its reputation, relationships, operations or financial results, the Company may, in the Board's sole discretion, use reasonable efforts to recover up to 100% of Incentive Compensation received by such Covered Executive for the most recent annual compensation immediately preceding the date of the Board's determination under this Section 5, including transition periods resulting from a change in the Company's fiscal year as provided in Rule 10D-1 of the Exchange Act. For avoidance of doubt, "received" is as defined in Section 4.

For the purposes of this Policy, "Misconduct" means (i) intentional and reckless conduct; (ii) intentional or reckless violation of any Company written policy applicable to the Covered Executive (including, but not limited to, the Code of Conduct) or any applicable legal or regulatory requirements in the course of the Covered Executive's employment by the Company; or (iii) fraud in the course of the Covered Executive's employment by the Company. For this purpose, "intentional and reckless conduct" means any highly unreasonable act or omission, involving not merely simple, or even inexcusable negligence, but an extreme departure from the standards of ordinary care, and that either is known to the Covered Executive or is so obvious that a reasonable person in the Covered Executive's position would have been aware of it. It does not mean negligent conduct or grossly negligent conduct. Further, "Misconduct" shall not include conduct in good faith and in a manner the Covered Executive reasonably believed to be in, or not opposed to, the best interests of the Company.

VI. Method of Recovery

The Board will determine, in its sole discretion, the method(s) for recovering reasonably promptly Incentive Compensation hereunder. Such methods may include, without limitation:

A. requiring reimbursement of Incentive Compensation previously paid;

B. forfeiting any Incentive Compensation contribution made under the Company's deferred compensation plans;

C. offsetting the recovered amount from any compensation or Incentive Compensation that the Covered Executive may earn or be awarded in the future, in accordance with applicable law;

D. some combination of the foregoing; or

E. taking any other remedial and recovery action permitted by law, as determined by the Board.

Before the Board makes a final determination as to whether any recovery of Incentive Compensation is payable under the Policy from a Covered Executive, the Board shall provide the Covered Executive with written notice thereof and the opportunity to be heard at a duly held meeting of the Board, which may take place either in person or by way of a conference or video call, as determined by the Board.

If the Board makes a final determination that recovery of Incentive Compensation is payable under the Policy, the Board shall reasonably promptly make a written demand for recovery from the Covered Executive, and in the event that the Covered Executive does not, within a reasonably prompt period thereafter, tender repayment and/or reimbursement in response to such demand (or if the Covered Executive declines to execute any necessary authorizations to effectuate such repayment and/or reimbursement), the Board shall be entitled to pursue such other actions or remedies, including, without limitation, legal recourse against the Covered Executive to obtain such repayment and/or reimbursement of Incentive Compensation under this Policy, as applicable.

To the extent practicable and as permitted by all applicable laws, including, without limitation, securities legislation and stock exchange rules, all investigations and related findings under this Policy shall be conducted, undertaken and treated in a confidential manner.

VII. No Indemnification or Advance

Subject to applicable law, the Company shall not indemnify, including by paying or reimbursing for premiums for any insurance policy covering any potential losses, any Covered Executives against the loss of any erroneously awarded Incentive Compensation, nor shall the Company advance any costs or expenses to any Covered Executives in connection with any action to recover Incentive Compensation.

VIII. Interpretation

The Board is authorized to interpret and construe this Policy and to make all determinations necessary, appropriate or advisable for the administration of this Policy. It is intended that this Policy be interpreted in a manner that is consistent with the requirements of Section 10D of the Exchange Act and any applicable rules or standards adopted by the SEC or any national securities exchange on which the Company's securities are listed.

IX. Effective Date

The effective date of this Policy, as amended, is November 12, 2024 (the "**Effective Date**"). This Policy applies to Incentive Compensation received by Covered Executives on or after the Effective Date. Without limiting the scope or effectiveness of this Policy, Incentive Compensation granted or received by Covered Executives prior to the Effective Date remains subject to the Company's prior Incentive Compensation Recovery Policy dated October 2, 2023. In addition, this Policy is intended to be and will be incorporated as an essential term and condition of any Incentive Compensation agreement, plan or program that the Company establishes or maintains on or after the Effective Date.

X. Amendment and Termination

The Board may amend this Policy from time to time in its discretion and shall amend this Policy as it deems necessary to reflect changes in regulations adopted by the SEC under Section 10D of the Exchange Act and to comply with any rules or standards adopted by NYSE or any other securities exchange on which the Company's shares are listed in the future.

XI. Other Recovery Rights

The Board intends that this Policy will be applied to the fullest extent of the law. Upon receipt of this Policy, each Covered Executive is required to complete the Receipt and Acknowledgement attached as Schedule A to this Policy. The Board may require that any employment agreement or similar agreement relating to Incentive Compensation received on or after the Effective Date shall, as a condition to the grant of any benefit thereunder, require a Covered Executive to agree to abide by the terms of this Policy. Any right of recovery under this Policy is in addition to, and not in lieu of, any (i) other remedies or rights of compensation recovery that may be available to the Company pursuant to the terms of any similar policy in any employment agreement, or similar agreement relating to Incentive Compensation, unless any such agreement expressly prohibits such right of recovery, and (ii) any other legal remedies available to the Company. The provisions of this Policy are in addition to (and not in lieu of) any rights to repayment the Company may have under Section 304 of the Sarbanes-Oxley Act of 2002 and other applicable laws.

XII. Impracticability

With regard to Section 4, the Company shall recover any excess Incentive Compensation in accordance with this Policy, except to the extent that certain conditions are met and the Board has determined that such recovery would be impracticable, all in accordance with Rule 10D-1 of the Exchange Act and any rules or standards adopted by NYSE or any other securities exchange on which the Company's shares are listed in the future. In addition, with regard to Section 5, the Company reserves discretion whether or not it wishes to pursue repayment and/or reimbursement if the Company determines that cost of doing so is likely to exceed the repayment/reimbursement amount.

XIII. Successors

This Policy shall be binding upon and enforceable against all Covered Executives and their beneficiaries, heirs, executors, administrators or other legal representatives.
