### About the Company

Western Lithium is pursuing the opportunity to be a supplier of specialty drilling additive, HECTATONE™ and potentially other organoclays for the oil and gas industry, and in particular, to support the growth of high pressure high temperature, deep directional drilling applications. The Company is also developing its Kings Valley, Nevada lithium deposit into a strategic, scalable and reliable source of high quality lithium carbonate. The Company is positioning itself as a major U.S.-based supplier to support the rising global demand for lithium carbonate that is expected from the increased use of hybrid/plug-in and electric vehicles.
