Audit Committee Charter

Purpose of the Committee

The executive management of BioMarin Pharmaceutical Inc. (the "Company") is primarily responsible for the completeness and accuracy of the Company's financial reporting and the adequacy of its internal financial and operating controls. The purpose of the Audit Committee (the "Committee") of the Company's Board of Directors (the "Board") is to oversee the Company's accounting and financial reporting processes and the audit of the Company's financial statements, including reviewing financial information provided by the Company, the Company's systems of internal accounting and financial controls, the annual independent audit of the Company's financial statements, the qualifications, independence and performance of the firm or firms of certified public accountants engaged as the Company's independent outside auditors for the purpose of preparing or issuing an audit report or performing other audit, review and attest services, and the review and assessment of the Company's management of risks related to the matters overseen by the Committee.

The Committee recognizes that management and the independent auditors have more time, knowledge and detailed information on the Company than do Committee members; consequently, the Committee is not providing any expert or special assurance as to the Company's financial statements or any professional certification as to the independent auditor's work. Further, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate, conform to generally accepted accounting principles or otherwise comply with applicable laws. This is the responsibility of management and the independent auditors.
