[1] We redeemed an aggregate of $500 million, or 5,000 of the 7,500 outstanding shares of our non-cumulative perpetual preferred stock, Series F, for cash at a redemption price of $100,000 per share (equivalent to $1,000 per depositary share) plus all declared and unpaid dividends on March 15, 2021. The difference between the redemption value and the net carrying value of approximately $5 million resulted in an EPS impact of approximately ($.02) per share in the first quarter of 2021.

[2] Return on tangible common equity is calculated by dividing year-to-date annualized net income available to common shareholders (GAAP-basis) by average tangible common equity.

[3] Notable items include acquisition and restructuring costs, repositioning charges and legal and other notable items. Refer to Reconciliations of non-GAAP Financial Information pages for details.

[4] The capital ratios presented are calculated in conformity with the applicable regulatory guidance in effect as of each period end. Capital ratios as of June 30, 2022 are estimates.

[5] The reportable ratios represent the lower of each of the risk-based capital ratios under both the Standardized Approach and the Advanced Approaches. Refer to Regulatory Capital for details on Standardized and Advanced Approaches ratios.

[6] Average securities on loan were $429,991 million, $457,604 million, $418,111 million and $412,403 million in the first, second, third and fourth quarters of 2021, respectively, and $397,522 million and $386,734 million in the first and second quarters of 2022.

[1] Source: Morningstar Direct. The data includes long-term mutual funds, ETF's and Money Market funds. Mutual fund data represents estimates of net new cash flow, which is new sales minus redemptions combined with net exchanges, while ETF data represents net issuance, which is gross issuance less gross redemptions. Data for Fund of Funds, Feeder funds and Obsolete funds were excluded from the series to prevent double counting. Data is from the Morningstar Direct Asset Flows database.

[2] The second quarter of 2022 data for North America (US domiciled) includes Morningstar actuals for April and May 2022 and Morningstar estimates for June 2022.

[3] The long-term fund flows reported by Morningstar in North America are composed of US domiciled Market flows mainly in Equities, Allocation and Fixed Income asset classes. The long-term funds flows reported by Morningstar direct in EMEA are composed of the European market flows mainly in Equities, Allocation and Fixed Incomes asset classes.

[4] The second quarter of 2022 data for Europe is on a rolling three month basis for March 2022 through May 2022, sourced by Morningstar.

RECONCILIATIONS OF NON-GAAP FINANCIAL INFORMATION

In addition to presenting State Street's financial results in conformity with U.S. generally accepted accounting principles, or GAAP, management also presents certain financial information on a basis that excludes or adjusts one or more items from GAAP. This latter basis is a non-GAAP presentation. In general, our non-GAAP financial results adjust selected GAAP-basis financial results to exclude the impact of revenue and expenses outside of State Street's normal course of business or other notable items, such as acquisition and restructuring charges, repositioning charges, gains/losses on sales, as well as, for selected comparisons, seasonal items. For example, we sometimes present expenses on a basis we may refer to as "expenses ex-notable items", which exclude notable items and, to provide additional perspective on both prior year quarter and sequential quarter comparisons, also exclude seasonal items. Management believes that this presentation of financial information facilitates an investor's further understanding and analysis of State Street's financial performance and trends with respect to State Street's business operations from period-to-period, including providing additional insight into our underlying margin and profitability. In addition, Management may also provide additional non-GAAP measures. For example, we present capital ratios, calculated under regulatory standards scheduled to be effective in the future or other standards, that management uses in evaluating State Street's business and activities and believes may similarly be useful to investors. Additionally, we may present revenue and expense measures on a constant currency basis to identify the significance of changes in foreign currency exchange rates (which often are variable) in period-to-period comparisons. This presentation represents the effects of applying prior period weighted average foreign currency exchange rates to current period results.

Non-GAAP financial measures should be considered in addition to, not as a substitute for or superior to, financial measures determined in conformity with GAAP.

RECONCILIATION OF TANGIBLE COMMON EQUITY RATIO

The tangible common equity, or TCE, ratio is a capital ratio that management believes provides context useful in understanding and assessing State Street's capital adequacy. The TCE ratio is calculated by dividing consolidated average common shareholders' equity by average consolidated total assets, after reducing both amounts by average goodwill and average other intangible assets net of related deferred taxes. Total assets reflected in the TCE ratio also exclude average cash balances on deposit at the Federal Reserve Bank and other central banks in excess of required reserves. The TCE ratio is not required by GAAP or by banking regulations, but is a metric used by management to evaluate the adequacy of State Street's capital levels. Since there is no authoritative requirement to calculate the TCE ratio, our TCE ratio is not necessarily comparable to similar capital measures disclosed or used by other companies in the financial services industry. Average tangible common equity and adjusted average tangible assets are non-GAAP financial measures and should be considered in addition to, not as a substitute for or superior to, financial measures determined in accordance with GAAP or other applicable requirements. Reconciliations with respect to the calculation of the TCE ratios are provided within the Reconciliation of Tangible Common Equity Ratio within this package.

The following table presents the calculation of State Street's ratios of tangible common equity to total tangible assets.
