Press Release

Pitney Bowes Launches SendPro MailCenter in Canada

All-in-one mailing and shipping system for high-volume mailers is designed to deliver simplicity, boost productivity and increase savings

STAMFORD, Conn., April 22, 2024 - Pitney Bowes Inc. (NYSE: PBI), a global shipping and mailing company that provides technology, logistics, and financial services, today announced the availability of SendPro® MailCenter in Canada. SendPro MailCenter, the latest evolution of the SendPro digitally-connected sending technology portfolio, is an advanced, all-in-one mailing and shipping system designed to deliver simplicity, boost productivity and increase savings for high-volume mailers.

"The SendPro MailCenter updates our flagship SendPro portfolio with an enhanced user experience combined with performance improvements to make mailing and shipping easier for our clients," said Bill Mackrell, President Pitney Bowes Canada. "New features, like our 15" color touchscreen display, improve the user experience and streamline mail and shipping processes, ensuring maximum productivity for high-volume mailers."

With a faster and more responsive interface, the SendPro MailCenter makes it easy and efficient to mail and ship directly from the device. In addition to high-speed processing of mail, the SendPro MailCenter allows users to ship and track packages and costs for Canada Post, UPS®, FedEx® and Purolator.

Shippers can also use PitneyShip® Pro to access the same shipping capabilities from their desktop through the Pitney Bowes Shipping 360™ platform.

The Shipping 360 platform powers PitneyAnalytics™, a SaaS based analytics and insights solution that organizes the SendPro MailCenter's data into a simplified view of mailing and shipping expenses. This solution is ideal for organizations who need to manage their operations at a single location, or across multiple locations, and whether employees are located remotely or in a traditional workplace.

The SendPro MailCenter is the latest device to meet current Canada Post regulations.

SendPro MailCenter features and benefits

- **A reinvented user experience** with new technology to streamline all mailing and shipping processes
- **Improved efficiency** in all sending workflows to ensure all mail and packages are sent accurately and on time
- **15" color touchscreen display** with increased responsiveness makes it easy to process mail and ship packages
- **Weigh on the Way® technology** eliminates the need to sort mixed size and weight mail as the MailCenter weighs and accurately prints postage on each piece as it moves through the system

- Automatically feed, seal, and print Canada Post postage for mail at up to 310 letters per minute with **high-speed technology**
- Gain access to **multi-carrier shipping** with the ability to evaluate rates and services with the Canada Post, UPS® FedEx® and Purolator to get the best price and service for your needs with shipping access on-device or via desktop
