NEWS RELEASE

CPI Card Group® and Share One Streamline Instant Issuance with Core Integration

11/29/2022

CPI's Card@Once® and Share One's NewSolutions core processing system will bring credit unions industry-leading instant issuance

LITTLETON, Colo.--(BUSINESS WIRE)-- **CPI Card Group Inc.** (Nasdaq: PMTS) ("CPI" or the "Company"), a payment technology company and leading provider of credit, debit and prepaid solutions, today announced that Share One, Inc., a Credit Union Service Organization (CUSO) operating out of Memphis, TN, and leading developer of credit union core processing, has successfully integrated CPI's Card@Once® solution with its NewSolutions core processing system. With the integration, Share One's credit union clientele who offer Card@Once instant issuance to their members can instantly issue and print new and replacement EMV® contact and contactless capable payment cards.

"Our mission has always been to provide credit unions with customizable technology solutions. Offering state-of-the-art instant issuance that is integrated with our core platform furthers that mission, giving our clients the ability to provide personalized payment cards through a simplified issuance process," said Kim Young, Share One President & CEO.

The new core integration with CPI empowers credit unions served by Share One access to streamlined instant issuance through a powerful SaaS-based printing solution. Enabling cost-effective, end-to-end instant issuance, Card@Once makes credit unions faster and more flexible when addressing members' payment card needs – helping fulfill requests for new and replacement cards with on-demand convenience. Card@Once relieves credit

unions of the necessary investment and efforts to support on-premise instant issuance, from the implementation stage to ongoing software management and compliance. Through the core integration, branch staff can issue ready-to-use payments cards without leaving the NewSolutions system, eliminating the need for dual entry.

“Share One and CPI have a commitment to providing member-centric solutions that help credit unions embrace innovation and strengthen member relationships along the way,” said Lane Dubin, SVP and General Manager, Prepaid, Personalization Solutions and Instant Issuance for CPI Card Group. “The ability to visit your branch and walk out soon after with a fully personalized card is an invaluable convenience for cardholders. We’re thrilled to work with Share One as they empower credit unions with a new way to differentiate the experience for members.”
