

## Everest Re Group Provides Preliminary Estimate for Superstorm Sandy

December 20, 2012

HAMILTON, Bermuda--(BUSINESS WIRE)--Dec. 20, 2012-- Everest Re Group, Ltd. (NYSE: RE) announced today that it is currently estimating losses from Superstorm Sandy to approximate \$220 million, net of reinstatement premiums and taxes. This preliminary loss estimate is based on an industry loss that ranges between \$20 and \$25 billion. The impact of this loss will largely be reflected in the reinsurance segments.

Joseph V. Taranto, Chairman and Chief Executive Officer, stated, "Despite these losses, we expect to have an operating profit for the quarter, further adding to the strong earnings we had through the first nine months of the year. This announcement will allow us to resume our stock buyback initiative."

The Company's loss estimate is based on a combination of modeled information, industry loss assessments, underwriter analysis, client discussions, and a profile of exposed limits within the affected region. Actual losses could differ, perhaps materially, from this estimate due to the inherent uncertainties in making these determinations.
