Business Outlook

Based on information available as of February 7, 2024, Dayforce is issuing the following guidance for the first quarter and full year of 2024 as indicated below. Comparisons are on a year-over-year basis, unless stated otherwise.

First Quarter 2024 Guidance		Supplemental Commentary and Factors
Total Revenue	\$424 million to \$427 million, an increase of 14% to 15% on a GAAP and a constant currency basis.	Dayforce expects Other recurring revenue, excluding float ¹ to decline mid-single digits on a GAAP and a constant currency basis, as a result of the sunsetting of certain legacy solutions. Dayforce expects PowerPay® recurring revenue, excluding float to increase high-single digits on a GAAP and a constant currency basis.
Dayforce recurring revenue, excluding float	\$276 million to \$279 million, an increase of 20% to 22%, or 20% to 21% on a constant currency basis.	Dayforce expects employment levels to reflect a normalized seasonal cadence.
Float revenue	\$55 million	Float guidance reflects the near-term rate environment and the rolling maturity of the laddered core portfolio.
Adjusted EBITDA	\$123 million to \$126 million or margins of 29.0% to 29.5%	Dayforce continues to make investments to expand its global HCM footprint while scaling the platform.

Other recurring revenue, previously described as Bureau, primarily consists of APJ region and legacy North (1) American solutions.

Fiscal Year 2024 Guidance		Supplemental Commentary and Factors
Total Revenue	\$1,720 million to \$1,730 million, an increase of 14%, or 13% to 14% on a constant currency basis.	Dayforce expects Other recurring revenue, excluding float ¹ to decline mid-single digits on a constant currency basis, as a result of the sunsetting of certain legacy solutions.
		Dayforce expects PowerPay recurring revenue, excluding float to increase high-single digits on a GAAP and a constant currency basis.
Dayforce recurring revenue, excluding float	\$1,160 million to \$1,165 million, an increase of 20% to 21% on a GAAP and a constant currency basis.	Dayforce expects employment levels to reflect a normalized seasonal cadence.
Float revenue	\$174 million	Float guidance reflects the near-term rate environment and the rolling maturity of the laddered core portfolio.
Adjusted EBITDA	\$480 million to \$495 million or margins of 27.9% to 28.6%	Dayforce continues to make investments to expand its global HCM footprint while scaling the platform. One-time impacts associated with the Dayforce rebrand and acquisition of eloomi are reflected in this metric.

(1) Other recurring revenue, previously described as Bureau, primarily consists of APJ region and legacy North American solutions.

Dayforce has not reconciled the Adjusted EBITDA or Adjusted EBITDA margin ranges for the first quarter or full year of 2024 to the directly comparable GAAP financial measures because applicable information for the future period, on which these reconciliations would be based, is not available without unreasonable efforts due to uncertainty regarding, and the potential variability of, depreciation and amortization, share-based compensation expense and related employer taxes, changes in foreign currency exchange rates, and other items.

Foreign Exchange

For the full year and first quarter of 2024, Dayforce's guidance assumes an average U.S dollar to Canadian dollar foreign exchange rate of \$1.33, compared to an average rate of \$1.35 for the first quarter of 2023 and \$1.35 for the full year of 2023.

Forward-Looking Statements

This press release contains forward-looking statements that are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this press release are forward-

looking statements. Forward-looking statements give Dayforce's current expectations and projections relating to its financial condition, results of operations, plans, objectives, future performance and business. Users can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. Forward-looking statements in this press release include statements relating to the first quarter and full fiscal year of 2024, as well as those relating to future growth initiatives. These statements may include words such as "anticipate," "estimate," "expect," "assume", "project," "seek," "plan," "intend," "believe," "will," "may," "could," "continue," "likely," "should," and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events, but not all forward-looking statements contain these identifying words. The forward-looking statements contained in this press release are based on assumptions that Dayforce has made in light of its industry experience and its perceptions of historical trends, current conditions, expected future developments and other factors that it believes are appropriate under the circumstances. As users consider this press release, it should be understood that these statements are not guarantees of performance or results. These assumptions and Dayforce's future performance or results involve risks and uncertainties (many of which are beyond its control). In particular:

- its inability to maintain its high Cloud solutions growth rate, manage its domestic and international growth effectively, or execute on its growth strategy;
- the impact of disruptions to the movement of funds to initiate payroll-related transactions on behalf of customers;
- its failure to manage its aging technical operations infrastructure;
- system breaches, interruptions or failures, including cyber-security breaches, identity theft, or other disruptions
 that could compromise customer information or sensitive company information;
- its failure to comply with applicable privacy, security, data, and financial services laws, regulations and standards, including its ongoing consent order with the Federal Trade Commission regarding data protection;
- its inability to successfully compete in the markets in which Dayforce operates and expand its current offerings into new markets or further penetrate existing markets due to competition;
- its failure to properly update its solutions to enable its customers to comply with applicable laws;
- its failure to provide new or enhanced functionality and features, including those that may involve artificial intelligence or machine learning;
- its inability to maintain necessary third-party relationships, and third-party software licenses, and identify errors in the software it licenses;
- its inability to offer and deliver high-quality technical support, implementation, and professional services;
- its inability to attract and retain senior management employees and highly skilled employees;
- the impact of its outstanding debt obligations on its financial condition, results of operations, and value of its common stock;
- the impact of adverse economic and market conditions on its business, operating results, or financial condition;
- such other factors as discussed throughout Part I, Item 1A. Risk Factors of Dayforce, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2022.

Although Dayforce has attempted to identify important risk factors, additional factors or events that could cause Dayforce's actual performance to differ from these forward-looking statements may emerge from time to time, and it is not possible for Dayforce to predict all of them. Should one or more of these risks or uncertainties materialize, or should any of the Dayforce's assumptions prove incorrect, its actual financial condition, results of operations, future performance and business may vary in material respects from the performance projected in these forward-looking statements. In addition to any factors and assumptions set forth above in this press release, the material factors and assumptions used to develop the forward-looking information include, but are not limited to: the general economy remains stable; the competitive environment in the HCM market remains stable; the demand environment for HCM solutions remains stable; Dayforce's implementation capabilities and cycle times remain stable; foreign exchange rates, both current and those used in developing forward-looking statements, specifically USD to CAD, remain stable at, or near, current rates; Dayforce will be able to maintain its relationships with its employees, customers, and partners; Dayforce will continue to attract qualified personnel to support its development requirements and the support of its new and existing customers; and that the risk factors noted above, individually or collectively, do not have a material impact on Dayforce. Any forward-looking statement made by Dayforce in this press release speaks only as of the date on which it is made. Dayforce undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Net income (loss)
Net profit margin
Cloud recurring gross margin
Operating profit (loss)
Operating profit (loss) margin
Net income (loss)
Net profit margin
Diluted net income (loss) per share
Percentage change in revenue, including total revenue and revenue by solution
No directly comparable GAAP measure
No directly comparable GAAP measure
No directly comparable GAAP measure

Dayforce believes that these non-GAAP financial measures are useful to management and investors as supplemental measures to evaluate its overall operating performance including comparison across periods and with competitors. Dayforce's management team uses these non-GAAP financial measures to assess operating performance because these financial measures exclude the results of decisions that are outside the normal course of its business operations, and are used for internal budgeting and forecasting purposes both for short- and long-term operating plans. Additionally, Adjusted EBITDA is a component of its management incentive plan and Adjusted Cloud recurring gross margin is a component of certain performance based equity awards for its named executive officers. These non-GAAP financial measures are not required by, defined under, or presented in accordance with, GAAP, and should not be considered as alternatives to Dayforce's results as reported under GAAP, have important limitations as analytical tools, and its use of these terms may not be comparable to similarly titled measures of other companies in its industry. Dayforce's presentation of non-GAAP financial measures should not be construed to imply that its future results will be unaffected by similar items to those eliminated in this presentation. Please refer to Dayforce's full financial results, including further discussion of non-GAAP financial measures, on the Investor Relations portion of its website at investors.dayforce.com.

Dayforce defines its non-GAAP financial measures as follows:

- EBITDA is defined as net income (loss) before interest, taxes, depreciation, and amortization, and Adjusted EBITDA as EBITDA, as adjusted to exclude foreign exchange gains (losses), share-based compensation expense and related employer taxes, severance charges, restructuring consulting fees, and other non-recurring items.
- Adjusted EBITDA margin is determined by calculating the percentage Adjusted EBITDA is of total revenue.
- Cloud recurring gross margin is defined as total Cloud recurring revenue less cost of Cloud recurring revenue
 as a percentage of total Cloud recurring revenue, which is exclusive of any product development and
 management or depreciation and amortization cost allocations. Adjusted Cloud recurring gross margin is defined
 as total Cloud recurring revenue less cost of Cloud recurring revenue, as adjusted to exclude share-based
 compensation and severance charges, as a percentage of total Cloud recurring revenue, which is exclusive of
 any product development and management or depreciation and amortization cost allocations.
- Adjusted operating profit is defined as operating profit (loss), as adjusted to exclude foreign exchange gains (losses), share-based compensation expense and related employer taxes, severance charges, restructuring consulting fees, amortization of acquisition-related intangible assets, and other non-recurring items.
- Adjusted net income is defined as net income (loss), as adjusted to exclude foreign exchange gains (losses), share-based compensation expense and related employer taxes, severance charges, restructuring consulting fees, amortization of acquisition-related intangible assets, and other non-recurring items, all of which are adjusted for the effect of income taxes.
- Adjusted diluted net income per share is calculated by dividing adjusted net income by diluted weighted average common shares outstanding. When adjusted diluted net income per share is positive, diluted weighted average common shares outstanding incorporate the effect of dilutive equity instruments.
- Revenue on a constant currency basis is calculated by applying the average foreign exchange rate in effect during the comparable prior period.
- Cloud ARR is calculated by starting with recurring revenue at year end, excluding revenue from Ascender, subtracting the once-a-year charges, annualizing the revenue for customers live for less than a full year to reflect the revenue that would have been realized if the customer had been live for a full year, and adding back the once-a-year charges. Dayforce has not reconciled Cloud ARR because there is no directly comparable GAAP financial measure.
- Annual Dayforce revenue retention rate is calculated as a percentage, excluding Ascender, where the numerator
 is the Dayforce ARR for the prior year, less the Dayforce ARR from lost Dayforce customers during that year;
 and the denominator is the Dayforce ARR for the prior year. The Company has not reconciled annual Dayforce
 revenue retention rate because there is no directly comparable GAAP financial measure.
- Dayforce recurring revenue per customer is an indicator of the average size of Dayforce recurring revenue
 customers. To calculate Dayforce recurring revenue per customer, the Company starts with Dayforce recurring
 revenue on a constant currency basis by applying the same exchange rate to all comparable periods for the
 trailing twelve months and excludes float revenue and Ascender and ADAM HCM revenue. This amount is

divided by the number of live Dayforce customers at the end of the trailing twelve month period, excluding Ascender and ADAM HCM. The Company has not reconciled the Dayforce recurring revenue per customer because there is no directly comparable GAAP financial measure.
